NEWS RELEASE

Enbridge Announces Non-Binding Open Season for Gas Storage and Transportation Services

CALGARY, March 4, 2010 Enbridge Inc. (TSX, NYSE: ENB) today announced that it is conducting a non-binding open season for gas storage and transportation services through its wholly owned subsidiaries Enbridge Gas Distribution Inc. and Niagara Gas Transmission Limited.

The non-binding open season will allow Enbridge to assess the feasibility of developing incremental gas storage capacity/services at Enbridge Gas Distribution's Tecumseh storage facility located near the Dawn gas trading hub and developing incremental transportation capacity on the Corunna-Tecumseh-Dawn pathway.

Enbridge has a range of gas storage and transportation development options which can be put into place in a timely basis, to take advantage of market opportunities such as US shale gas and gas fired generation.

The open season closes on March 26, 2010. Information packages and bid forms are available online at: www.enbridge.com/gasexpansion

Alternatively, inquiries regarding this open season gas storage and transportation offering can be directed to: Ron Brintnell

Enbridge Inc., a Canadian company, is a North American leader in delivering energy. As a transporter of energy, Enbridge operates through its wholly owned subsidiaries, in Canada and the U.S., the world's longest crude oil and liquids transportation system. The Company also has a growing involvement in the natural gas transmission and midstream businesses, and is expanding its interests in renewable and green energy technologies, including wind and solar energy, hybrid fuel cells and carbon dioxide sequestration. As a distributor of energy, Enbridge owns Enbridge Gas Distribution Inc., Canada's largest natural gas distribution company, which currently owns 100 Bcf of underground gas storage facilities, and Niagara Gas Transmission Limited, which owns gas transmission pipelines regulated by the National Energy Board, including the Corunna to Tecumseh Niagara Link Pipeline. Enbridge Gas Distribution and its affiliates distribute natural gas to about 1.9 million customers in Ontario, New York State, New Brunswick and southwestern Quebec. Both companies are owned by Enbridge Inc., a Canadian-based leader in energy transportation and

distribution, and a Top 100 Canadian Employer for 2010. Enbridge employs approximately 6,000 people, primarily in Canada and the U.S. Enbridge's common shares trade on the Toronto and New York stock exchanges under the symbol ENB. For more information, visit enbridge.com

NEWS RELEASE

Enbridge Announces Plans to Hold Open Season for Proposed Natural Gas Liquids Pipeline from Marcellus Shale to Chicago

HOUSTON and CALGARY, Alberta (March 22, 2010) Enbridge Inc. (TSX:ENB) (NYSE:ENB) today announced it intends to develop a natural gas liquids (NGL) pipeline from the Marcellus Shale in Southern Pennsylvania and Northern West Virginia to markets in the Midwestern United States.

The proposed pipeline is currently targeted to deliver into existing NGL infrastructure in the Chicago area including the Aux Sable facility which processes gas from Alliance pipeline and fractionates NGLs from various supply sources. Additional NGL fractionation capacity is available at the plant.

The Chicago area has substantial markets to accommodate the large volumes of NGLs that are expected to be associated with future Marcellus production. Other NGL markets, including Ontario, can also be accessed from Chicago utilizing existing infrastructure. This proposed pipeline will provide an excellent long term solution for development of this promising play, as it will enable NGL production to grow unconstrained for many years, said Stephen J.J. Letwin, Executive Vice President, Gas Transportation & International, Enbridge Inc.

Enbridge has extensive knowledge and expertise in the areas of NGL fractionation, transportation and marketing. With this proposed pipeline, we are uniquely positioned to help Marcellus producers obtain greater value for their future NGL production Mr. Letwin said.

Enbridge will develop, construct, own and operate the planned NGL pipeline. The Company is currently evaluating various routing and market alternatives and anticipates moving forward with an open season in the second quarter 2010.

NEWS RELEASE

Enbridge Gas Distribution Adjusts Prices

TORONTO, March 23, 2010 Enbridge Gas Distribution Inc., a regulated natural gas distribution utility, announced today that it has received approval from the Ontario Energy Board (OEB) for new rates effective April 1, 2010.

For typical residential customers* who buy their gas supply from Enbridge Gas Distribution, the changes will result in an increase of approximately \$37 annually. This is primarily due to increased commodity costs. These customers will also have a Gas Cost Adjustment Refund totalling about \$1.40 during the next twelve months.

For typical residential customers who purchase their gas supply from a marketer and obtain transportation services from Enbridge Gas Distribution, these changes will not result in a significant change to their total annual bills.

Effective April 1, 2010, Enbridge Gas Distribution's Gas Supply Charge will change from 19.96 cents per cubic metre (¢/m^3) to 21.16 ¢/m^3 . A Gas Cost Adjustment Refund of 0.04 ¢/m^3 will be in effect until March 31, 2011.

Combined, these will result in an effective Gas Supply Charge of 21.12 ¢/m^3 .

Enbridge Gas Distribution does not earn a profit on the price of natural gas. Gas supply costs are passed through to customers without any mark-up. Any difference between forecast costs and actual prices is either collected from or returned to customers through a Gas Cost Adjustment.

Natural gas remains the most economical choice for home and water heating in Ontario. Over the past five years, natural gas has been on average 44 per cent less expensive than electricity and 43 per cent less expensive than oil.** Enbridge Gas Distribution has a 160-year history and is Canada's largest natural gas distribution company. Enbridge Gas Distribution is owned by Enbridge Inc., a Canadian-based leader in energy transportation and distribution, and a Top 100 Canadian Employer for 2010. Enbridge Gas Distribution and its affiliates distribute natural gas to about 1.9 million customers in Ontario, New York State, New Brunswick and southwestern Quebec. For more information go to www.enbridgegas.com.

- 30 -

* A typical residential customer uses 3,064 cubic metres of natural gas a year for home and water heating.

** Based on a five-year rolling average from May 2005 to April 2010. Natural gas prices are based on Enbridge Gas Distribution's prices up to and including April 2010 rates. Electricity prices are based on Toronto Hydro's Ontario Energy Board approved rates up to and including current rates, approved in November 2009. Oil prices are based on publicly posted Statistics Canada historical rates up to and including rates available as of January 2010. The calculations are done on an energy equivalent basis. Estimates do not include taxes or any rental or financing costs.
