PROSPECTUS

Shares of Common Stock

Summit Hotel Properties, Inc. is selling all of the common stock offered by this prospectus. Prior to this offering, there has been no public market for our common stock. The initial public offering price of our common stock is expected to be between $ and $ per share. We intend to apply to list our common stock on the New York Stock Exchange, or NYSE, under the symbol INN.

We intend to elect and qualify to be taxed as a real estate investment trust, or REIT, for federal income tax purposes. The common stock offered by this prospectus is subject to restrictions on ownership and transfer that are intended to, among other purposes, assist us in qualifying and maintaining our qualification as a REIT. Our charter generally limits beneficial and constructive ownership to no more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our capital stock. See Description of Capital Stock Restrictions on Ownership and Transfer.

Investing in our common stock involves risks. See Risk Factors beginning on page 18 of this prospectus for a description of various risks you should consider in evaluating an investment in the shares.

	Per Share	Total
Public offering price	$	$
Underwriting discount	$	$
Proceeds, before expenses, to us	$	$

The underwriters have a 30-day option to purchase up to additional shares of common stock from us on the same terms set forth above to cover over-allotments, if any.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Summary

The following summary highlights information contained elsewhere in this prospectus. This summary is not complete and does not contain all of the information that you should consider before investing in our common stock. You should read the following summary together with the more detailed information regarding our company and an investment in our common stock, including the information under the caption Risk Factors and the historical and pro forma financial statements, including the related notes, appearing elsewhere in this prospectus. Unless the context otherwise requires or indicates, references in this prospectus to our predecessor refer to Summit Hotel Properties, LLC and its consolidated subsidiaries, including Summit Group of Scottsdale, Arizona, LLC, or Summit of Scottsdale. Unless the context otherwise requires or indicates, references in this prospectus to we, our, us, our company and the compar refer to Summit Hotel Properties, Inc., a Maryland corporation, together with its consolidated subsidiaries, including Summit Hotel OP, LP, a Delaware limited partnership, which we refer to in this prospectus as the operating partnership and Summit Hotel TRS, Inc., a Delaware corporation, which we refer to in this prospectus as Summit TRS. We refer to Summit TRS and the wholly owned subsidiaries of Summit TRS that will lease our hotels from our operating partnership as our TRS lessees.

In addition, unless the context otherwise requires or indicates, the information set forth in this prospectus assumes that: (i) the formation transactions described elsewhere in this prospectus have been completed; (ii) the underwriters over-allotment option is not exercised; (iii) the common stock to be sold in the offering is sold at $ per share, which is the mid-point of the initial public offering price range shown on the cover of this prospectus; and (iv) the value of each unit of limited partnership interest in our operating partnership, which we refer to as an OP unit, issued in the formation transactions is equivalent to the initial public offering price of one share of our common stock.

Overview

We are a self-managed hotel investment company that was recently organized to continue and expand the existing hotel investment business of our predecessor, Summit Hotel Properties, LLC, a leading U.S. hotel owner. We will focus exclusively on acquiring and owning premium-branded limited-service and select-service hotels in the upscale and midscale without food and beverage segments of the U.S. lodging industry. Following completion of this offering and the formation transactions, our initial portfolio will consist of 65 hotels with a total of 6,533 guestrooms located in 19 states. Our initial portfolio consists of what we consider both seasoned and unseasoned hotels that are located in markets in which we have extensive experience and that exhibit multiple demand generators, such as business and corporate headquarters, retail centers, airports and tourist attractions. Based on total number of rooms, 48% of our portfolio is positioned in the top 50 metropolitan statistical areas, or MSAs, and 68% is located within the top 100 MSAs.

Entities controlled by our Executive Chairman, Kerry W. Boekelheide, have been in the business of acquiring, developing, financing, operating and selling hotels since 1991, have acquired a total of 93 hotels in transactions having an aggregate value of approximately $606.8 million, and have sold, transferred or otherwise disposed of a total of 27 hotels in transactions having an aggregate value of approximately $104.6 million.

The majority of our hotels operate under premium franchise brands owned by Marriott International, Inc. (Courtyard by Marriott, Residence Inn, SpringHill Suites, Fairfield Inn and TownePlace Suites), Hilton Worldwide (Hampton Inn, Hampton Inn & Suites and Hilton Garden Inn), InterContinental Hotels Group (Holiday Inn Express and Staybridge Suites) and Hyatt Hotels and Resorts (Hyatt Place).

Since January 1, 2007, we have made approximately $305.4 million of capital investment through strategic acquisitions and upgrades and improvements to our hotels to be well-positioned for improving general lodging fundamentals. Further, we expect to use up to approximately $10.0 million of the net proceeds of this offering to make additional capital improvements to hotels in our portfolio. We believe the U.S. economy has begun to recover from the recent economic recession and, as a result, lodging industry fundamentals will strengthen over the near-term. As a result, we believe our portfolio is well-positioned for significant internal growth in hotel operating revenues in this environment based on our mix of seasoned hotels and unseasoned hotels.

We intend to identify and acquire undermanaged and underperforming hotels and use our expertise to renovate, rebrand and reposition the hotels to improve cash flows and long-term value. We believe we will be able to source a significant volume of acquisition opportunities, particularly due to the relative size of our target lodging industry segments, lack of available debt financing in the capital markets and the weakness experienced since mid-2008 in the lodging industry. We also believe that,

while other public REITs and well-capitalized institutional owners seek to acquire assets that fit our investment criteria, we will be the only publicly traded REIT focused solely on these segments on a national basis.

We were organized as a Maryland corporation on June 30, 2010 and intend to elect to be taxed as a REIT for federal income tax purposes beginning with our short taxable year ending December 31, 2010. We will conduct substantially all of our business through our operating partnership, Summit Hotel OP, LP, a Delaware limited partnership. See Structure of Our Company.

Our Competitive Strengths

High-Quality Portfolio of Hotels. Our initial portfolio is composed of 65 hotels located in 19 states and that have an average age of 10.3 years. No single hotel accounted for more than 3.6% of our predecessor s hotel operating revenues for the 12-month period ended June 30, 2010. We believe all of our hotels are located in markets where there will be limited growth in lodging supply over the next several years. Additionally, in many of our markets, we own two or more hotels in close proximity to each other, which we believe allows our hotel managers to maintain rate integrity and maximize occupancy by referring travelers to our other hotels. Franchise areas of protection, which prohibit the opening of hotels with the same brand as one of our hotels within certain proximities of our hotels, provide barriers to entry in suburban markets where many of our hotels are located.

Seasoned Portfolio and Significant Upside Potential. Our initial portfolio is composed of 46 seasoned hotels with established track records and strong positions within their markets. We classify our other 19 hotels, which were either built after January 1, 2007 or experienced a brand conversion since January 1, 2008, as unseasoned. We believe that the market penetration of our unseasoned hotels is significantly less than that of our seasoned hotels due to the dramatic economic slowdown over the past two years that delayed these hotels from achieving anticipated growth rates and revenues. However, most of our unseasoned hotels are newer, larger and are located in larger markets than our seasoned hotels and operate under premium brands. As a result, we believe our unseasoned hotels can experience significant growth in RevPAR and profitability as the economy and industry fundamentals improve.

Experienced Executive Management Team With a Proven Track Record. Our management team, led by our Executive Chairman, Mr. Boekelheide, has extensive experience acquiring, developing, owning, operating, renovating, rebranding and financing hotel properties. Through this experience, our management team has developed strong execution capabilities as well as an extensive network of industry, corporate and institutional relationships, including relationships with the leading lodging franchisors in our targeted markets. We believe these relationships will provide insight and access to attractive investment opportunities and allow us to react to local market conditions by seeking the optimal franchise brand for the market in which each of our hotels is located.

Aggressive Asset Management and Experienced Asset Management Team. We will maintain a dedicated asset management team led by our Executive Vice President and Chief Operating Officer, Mr. Aniszewski, to analyze our portfolio as a whole and oversee our independent hotel managers. Our asset management team has managed hotel assets in every industry segment through multiple hotel business cycles. Our entire asset management team has worked together at The Summit Group, Inc., or The Summit Group, the manager of our predecessor and its hotels, for the last 10 years, which provides us expertise, operational stability and in-depth knowledge of our portfolio. We will work proactively with our hotel managers to continue to drive operational performance by identifying and implementing strategies to optimize hotel profitability through revenue management strategies, budgeting, analyzing cost structure, market positioning, evaluating and making capital improvements and continually reviewing and refining our overall business strategy. Among other techniques, we initially will employ three full-time asset managers who will assist our hotel management companies to structure room rate plans and develop occupancy strategies to achieve optimum revenues.

Strategic Focus on Largest Segments of Lodging Industry. We believe we will be the only publicly traded REIT that focuses exclusively on upscale hotels and midscale without food and beverage hotels on a national basis. By number of rooms, 81% of our hotels operate under brands owned by Marriott, Hilton, Intercontinental or Hyatt, which are generally regarded as the premium global franchises in our segments. We believe that business and leisure travelers prefer the consistent service and quality associated with these nationally recognized premium brands, and that brand serves as a significant driver of demand for hotel rooms. As reported by Smith Travel Research in 2010, of the approximately 29,735 branded hotels in the United States, 13,066 hotels, or 43.9%, are within our target segments (upscale: 3,536 hotels; midscale without food and beverage: 9,530 hotels). The size of this market represents a potential acquisition pool

significantly larger than the upper upscale (1,669 hotels, or 5.6%, of total branded hotels) or luxury (341 hotels, or 1.2%, of total branded hotels) segments. We believe the fragmented ownership of premium-branded limited-service and select-service hotels in the upscale and midscale without food and beverage segments, the size of the segments, our longstanding relationships with franchisors, the lack of well-capitalized competitors and our extensive experience and expertise provide us a distinct competitive advantage and a significant opportunity to profitably grow our company.

Growth-Oriented Capital Structure. Upon completion of this offering and the formation transactions, we expect to employ a prudent leverage structure that will provide us the ability to make strategic acquisitions as industry fundamentals and the lending environment improves. Upon completion of this offering and application of the net proceeds as described in Use of Proceeds, we will have approximately $ million in outstanding indebtedness and hotels unencumbered by indebtedness, including hotels with rooms operating under premium brands owned by Marriott, Hilton, Intercontinental or Hyatt available to secure future loans. We believe our capital structure positions us well to capitalize on what we expect to be significant acquisition opportunities.

Summary Risk Factors

An investment in our common stock involves various risks. You should carefully consider the matters discussed in Risk Factors beginning on page 18 of this prospectus before you decide whether to invest in our common stock. Some of the risks include the following:

§ Our business strategy depends significantly on achieving revenue and net income growth from anticipated increases in demand for hotel rooms any delay or a weaker than anticipated economic recovery will adversely affect our future results of operations and our growth prospects.

§ Our unseasoned hotels have limited operating history and may not achieve the operating performance we anticipate, and as a result, our overall returns may not improve as we expect or may decline.

§ We have no operating history as a publicly traded REIT and may not be successful in operating as a publicly traded REIT, which may adversely affect our ability to make distributions to our stockholders.

§ Our success depends on key personnel whose continued service is not guaranteed.

§ We may be unable to complete acquisitions that would grow our business, and even if they are completed, we may fail to successfully integrate and operate such acquired hotels.

§ Upon completion of this offering and the formation transactions, the management of all of the hotels in our portfolio will be concentrated in one hotel management company, , and termination of our hotel management agreement with that company may cause us to pay substantial termination fees or experience significant disruptions at our hotels.

§ Funds spent to maintain franchisor operating standards, the loss of a franchise license or a decline in the value of a franchise brand may have a material adverse effect on our business and financial results.

§ We will rely on external sources of capital to fund future capital needs, and if we encounter difficulty in obtaining such capital we may not be able to make future acquisitions necessary to grow our business or meet maturing obligations.

§

We have a significant amount of debt, and our organizational documents have no limitation on the amount of additional indebtedness that we may incur in the future. As a result, we may become highly leveraged in the future, which could adversely affect our financial condition.

§ The agreements governing our indebtedness place restrictions on us and our subsidiaries, reducing operational flexibility and creating default risks.

§ We may not be able to obtain a credit facility.

§ Our Executive Chairman, Mr. Boekelheide, and other members of our management team exercised significant influence with respect to the terms of the formation transactions, including transactions in which they determined the compensation they would receive.

§ Competition from other upscale and midscale without food and beverage hotels in the markets in which we operate could have a material adverse effect on our results of operations.

§ Our operating results and ability to make distributions to our stockholders may be adversely affected by the markets in which we operate and risks inherent to the ownership of hotels.

§ Illiquidity of real estate investments could significantly impede our ability to respond to adverse changes in the performance of hotels in which we may invest or to adjust our portfolio in response to changes in economic and other conditions, and, therefore, may harm our financial condition.

§ We may change the distribution policy with respect to our common stock in the future.

§ The cash available for distribution may not be sufficient to make distributions at expected levels, and we cannot assure you of our ability to make distributions in the future. We may use borrowed funds or funds from other sources to make distributions, which may adversely impact our operations.

§ We may use a portion of the net proceeds from this offering to make distributions to our stockholders, if necessary to permit us to satisfy the requirements for qualification as a REIT and eliminate federal income and excise taxes that otherwise would be imposed on us, which would, among other things, reduce our cash available for investing.

§ If you purchase shares of common stock in this offering, you will experience immediate dilution.

§ Failure to qualify as a REIT, or failure to remain qualified as a REIT, would cause us to be taxed as a regular corporation, which would substantially reduce funds available for distributions to our stockholders.

Our Growth Strategies and Investment Criteria

Our strategy focuses on maximizing the cash flow of our portfolio through focused asset management and targeted capital investment. Our primary objective is to enhance stockholder value over time by generating strong risk-adjusted returns for our stockholders. We believe we can create long-term value by pursuing the following strategies.

Internal Growth from Strengthening Lodging Industry Fundamentals. We believe our hotels will experience significant revenue growth as lodging industry fundamentals recover from the economic recession which caused industry-wide RevPAR to suffer a combined 18.4% decline in 2008 and 2009, according to Smith Travel Research. Industry conditions have shown improvement during the first eight months of 2010, with RevPAR growth across all segments of 4.0% as compared to the same period of 2009, according to Smith Travel Research. Colliers PKF Hospitality Research forecasts significant compound annual growth in RevPAR from 2010 to 2014 of 7.0% for the upscale segment and 8.5% for the midscale without food and beverage segment, the best forecast for any segment in the industry.

Disciplined Acquisition of Hotels. We intend to grow through acquisitions of existing hotels using a disciplined and targeted approach while maintaining a prudent leverage structure. We employ a proactive and continuous assessment of our hotels, markets and brands in order to quickly and efficiently upgrade our hotels as market conditions warrant. We intend to target upscale and midscale without food and beverage hotels that meet one or more of the following acquisition criteria:

§

have potential for strong risk-adjusted returns located in the Top 50 MSAs, with a secondary focus on the next 100 markets;

§ operate under leading franchise brands, which include but are not limited to Marriott, Hilton, InterContinental and Hyatt;

§ are located in close proximity to multiple demand generators, including businesses and corporate headquarters, retail centers, airports, medical facilities, tourist attractions and convention centers, with a diverse source of potential guests, including corporate, government and leisure travelers;

§ are located in markets exhibiting barriers to entry due to franchise areas of protection or other factors;

§ can be acquired at a discount to replacement cost; and

§ provide an opportunity to add value through improved operating efficiencies, repositioning, renovation or rebranding.

Selective Hotel Development. We believe there will be attractive opportunities to partner on a selective basis with experienced hotel developers to acquire, upon completion, newly constructed hotels that meet our investment criteria.

Strategic Hotel Sales. Our strategy is to acquire and own hotels. However, consistent with our strategy of maximizing the cash flow of our portfolio and our return on invested capital, we periodically review hotels to determine if any significant

changes to area markets or our hotels have occurred or are anticipated to occur that would warrant the sale of a particular hotel.

Our Industry and Market Opportunity

We focus on hotels in the upscale and midscale without food and beverage segments of the lodging industry.

We believe that our focus on these segments provides us the opportunity to achieve stronger risk-adjusted returns across multiple lodging cycles than if we owned hotels in other segments of the lodging industry for several reasons, including:

RevPAR Growth. Colliers PKF Hospitality Research forecasts that our market segments will experience the largest amount of RevPAR growth of any segment in the industry.

Consistently Strong and Growing Demand. Over the last twenty years, our market segments have demonstrated the strongest compounded growth in demand of all segments of the lodging industry, and strong demand growth is expected to continue.

More Stable Cash Flow Potential. Our hotels can be operated with fewer employees than full-service hotels that offer more expansive food and beverage options, which we believe enables us to generate more consistent cash flows with less volatility resulting from reductions in RevPAR and less dependence on group travel.

Broad Customer Base. Our target brands deliver consistently high-quality hotel accommodations with value-oriented pricing that we believe appeals to a wider range of customers, including both business and leisure travelers, than more expensive full-service hotels. We believe that our hotels are particularly popular with frequent business travelers who seek to stay in hotels operating under Marriott, Hilton, Hyatt or InterContinental brands, which offer strong loyalty rewards program points that can be redeemed for family travel.

Enhanced Diversification. Premium select-service assets generally cost significantly less, on a per-key basis, than hotels in the midscale with food and beverage, upper upscale and luxury segments of the industry. As a result, we can diversify our ownership into a larger number of hotels than we could acquire in other segments.

Lodging Industry Fundamentals. Beginning in August 2008, the U.S. lodging industry experienced 19 consecutive months of RevPAR declines, as measured against the same month in the prior year, driven by a combination of deterioration in room-night demand and increasing supply. Although the lodging industry has historically lagged broader economic recoveries, economic fundamentals are beginning to improve from the recent declines resulting from the recessionary environment. In June 2010, the U.S. unemployment rate continued to show improvement from its high in late 2009. After continuing declines for almost two years prior, June 2010 marked the U.S. lodging industry s fourth consecutive month of positive year-over-year RevPAR growth with an 8.0% increase.

According to Smith Travel Research, RevPAR increased 4.3% and 2.2% in our target upscale and midscale without food and beverage segments, respectively, for the first eight months of 2010 as compared to the same period of 2009, and we expect RevPAR growth to continue as the U.S. economy continues to strengthen. Colliers PKF Hospitality Research currently projects RevPAR growth of upscale hotels to be 4.2% in 2011, 11.1% in 2012 and 9.5% in 2013 and RevPAR growth of midscale without food and beverage hotels to be 5.9% in 2011, 12.2% in 2012 and 10.9% in 2013, among the highest in any industry segment. We expect that our hotels, and particularly our unseasoned hotels, will realize significant RevPAR gains as the economy and lodging industry improve.

Demand Overview. Room-night demand in the U.S. lodging industry is directly correlated to macroeconomic trends. Key drivers of demand include growth in gross domestic product, or GDP, corporate profits, capital investments and employment. Following periods of recession, recovery in room-night demand for lodging historically has lagged improvements in the overall economy.

Supply Overview. Growth in lodging supply typically lags growth in room-night demand. Key drivers of lodging supply include the availability and cost of capital, construction costs, local real estate market conditions and availability and pricing of existing properties. As a result of scarcity of financing, the severe recession and declining operating fundamentals during 2008 and 2009, many planned hotel developments have been cancelled or postponed, and the number of rooms under construction and in planning has declined significantly. According to Lodging Econometrics, during the second quarter of 2010, approximately 68,000 new hotel rooms were under construction in the U.S., as compared to approximately 242,000 rooms under construction in the second quarter of 2008, a decline of 72%. New hotel construction is expected to remain below historical averages through 2014 according to Colliers PKF Hospitality Research.

Attractive Transaction Landscape. We believe that the significant decline in lodging fundamentals and cash flows has created a difficult environment for hotel owners lacking ready access to financing or suffering from reduced cash flows due to declining industry fundamentals since 2008. As a result, we believe that the significant number of hotel properties experiencing substantial declines in operating cash flow, coupled with tight credit markets, near-term debt maturities and, in some instances, covenant defaults relating to outstanding indebtedness, will present attractive investment opportunities to acquire hotel properties at prices significantly below replacement cost, with substantial appreciation potential as the U.S. economy recovers from the current recession.

Our Formation Transactions

Historically, the 65 hotels in our initial portfolio were owned or controlled by our predecessor and were managed by The Summit Group, which is wholly owned and controlled by our Executive Chairman, Mr. Boekelheide. We will engage in the transactions described below, which we refer to as our formation transactions, in order to consolidate the business of our predecessor into a publicly traded REIT.

§ We will sell shares of our common stock in this offering.

§ We will contribute the net proceeds of this offering to our operating partnership in exchange for OP units. We will continue to be the sole general partner of our operating partnership and will own an approximate % (% if the underwriters exercise their over-allotment option in full) partnership interest in our operating partnership upon completion of the formation transactions and this offering.

§ Our predecessor will merge with and into our operating partnership, which will be the survivor of the merger. Pursuant to the merger, our predecessor s members, including two of our executive officers and their affiliates as described below, will receive an aggregate of 9,993,992 OP units having an aggregate assumed value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. The total number of OP units to be issued to our predecessor s members in the merger reflects our predecessor s 100% ownership of 63 of our initial hotels prior to the merger and its ownership of a 49% Class A membership interest in Summit of Scottsdale, the owner of two Scottsdale, Arizona hotels prior to the merger. Of the 9,993,992 OP units to be issued in the merger, (1) our Executive Chairman, Mr. Boekelheide, and his affiliates, including The Summit Group, will receive an aggregate of 1,517,879 OP units having an aggregate assumed value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus and (2) our Executive Vice President and Chief Operating Officer, Craig J. Aniszewski, will receive an aggregate of 4,105 OP units having an aggregate value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. The merger is subject to customary closing conditions, including obtaining all required third-party consents and approvals and completion of this offering. In addition to the OP units issued in the merger, our operating partnership will issue 106,800 OP units pursuant to the Summit of Scottsdale transaction described below.

§ The Summit Group will contribute its 36% Class B membership interest in Summit of Scottsdale to our operating partnership in exchange for 74,829 OP units having an aggregate assumed value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. An unaffiliated third-party investor will contribute its 15% Class C membership interest in Summit of Scottsdale to our operating partnership in exchange for 31,179 OP units having an aggregate assumed value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. The contributions of the Class B and Class C membership interests in Summit of Scottsdale are subject to customary closing conditions, including obtaining all required third-party consents and approvals and

completion of this offering.

Our predecessor s 49% Class A membership interest in Summit of Scottsdale will be acquired through the merger described above. Our predecessor owns a 49% Class A membership interest in Summit of Scottsdale, which our operating partnership will acquire in the merger. As a result of these contributions and the merger, our operating partnership will assume approximately $13.8 million of existing mortgage debt secured by the Courtyard by Marriott and the SpringHill Suites by Marriott, both located in Scottsdale, Arizona, or the Scottsdale hotels, and will become the sole owner of the two Scottsdale hotels.

§ Upon completion of the merger and the contributions described above, our operating partnership will become the sole owner of our 65 initial hotels and will enter into new lease agreements with our TRS lessees with respect to the 65 hotels in our initial portfolio.

Table of Contents

- The Summit Group will assign all of the hotel management agreements pursuant to which it managed the hotels owned by our predecessor to for consideration payable to the Summit Group of , and our TRS lessees will enter into hotel management agreements with pursuant to which our initial hotels will be operated.

- Our operating partnership intends to use the net proceeds of this offering as follows: (1) approximately $ million to repay or extinguish existing indebtedness that we will assume following completion of the formation transactions, including estimated costs related to debt repayment totaling approximately $ million; (2) approximately $10.0 million to fund capital improvements at our initial hotels; and (3) the balance for general corporate and working capital purposes, including possible future acquisitions of hotels.

Our Structure

The following diagram depicts our ownership structure immediately following completion of this offering and the formation transactions:

Material Benefits to Related Parties

Upon completion of this offering and the formation transactions, certain of our executive officers and directors will receive, either directly or indirectly, the financial and other benefits summarized below. For a more detailed discussion of these benefits see Management and Certain Relationships and Related Transactions.

Table of Contents

Formation Transactions. In connection with the formation transactions, Mr. Boekelheide, our Executive Chairman, and his affiliates, including The Summit Group, which is wholly owned and controlled by Mr. Boekelheide, and Mr. Aniszewski, our Executive Vice President and Chief Operating Officer, will receive the following benefits:

Name	Benefits Received
Kerry W. Boekelheide, *Executive Chairman and Director*	In the formation transactions, Mr. Boekelheide and The Summit Group will receive an aggregate of 1,200,993 OP units, including: (1) 17,000 OP units to be issued to a revocable trust, the trustee and sole beneficiary of which is Mr. Boekelheide, in exchange for the trust s Class A membership interests in our predecessor; (2) 1,109,164 OP units to be issued to The Summit Group in the merger; and (3) 74,829 OP units to be issued to The Summit Group in exchange for its 36% Class B membership interest in Summit of Scottsdale. These OP units will represent approximately % of our combined common stock and OP units outstanding upon completion of this offering and the formation transactions and have an aggregate value of $ million based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. In addition, entities affiliated with Mr. Boekelheide other than The Summit Group will receive an aggregate of 316,886 OP units. Mr. Boekelheide will share voting and investment power over these OP units with individuals who are not affiliated with us. These OP units will represent approximately % of our combined common stock and OP units outstanding upon completion of this offering and the formation transactions and have a combined aggregate value of $ million based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. In consideration for assigning to them the existing hotel management agreements with our predecessor, The Summit Group will receive a cash payment from in the amount of $.
Craig J. Aniszewski, *Executive Vice President and Chief Operating Officer*	In the merger, Mr. Aniszewski will receive an aggregate of 4,105 OP units in exchange for his Class B membership interests in our predecessor. These OP units represent approximately % of our combined common stock and OP units outstanding upon completion of this offering and the formation transactions and have an aggregate value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus.

In addition to the OP units and other material benefits described above to be received in connection with the formation transactions, our executive officers will also benefit from the following:

§ employment agreements that will provide for salary, bonus and other benefits, including severance benefits in the event of a termination of employment in certain circumstances (see Management Employment Agreements);

§ options to purchase an aggregate of shares of our common stock at the initial public offering price of the shares in this offering that will be granted to our executive officers upon completion of this offering pursuant

to the 2010 Equity Incentive Plan (see Management Executive Compensation);

§ agreements providing for indemnification by us for certain liabilities and expenses incurred as a result of actions brought, or threatened to be brought, against them as an officer and/or director of our company (see Management Indemnification Agreements and Material Provisions of Maryland Law and of Our Charter and Bylaws); and

§ redemption and registration rights under our operating partnership s partnership agreement with respect to OP units to be issued in the formation transactions (see Description of the Partnership Agreement).

Furthermore, in connection with the formation transactions, our operating partnership will offer to enter into tax protection agreements with a limited number of the members of our predecessor, including The Summit Group and Mr. Aniszewski. See Formation Transactions Tax Protection Agreements.

Our Financing Strategy

We expect to maintain a prudent capital structure and intend to limit the sum of the outstanding principal amount of our consolidated net indebtedness to not more than 5.5x of our earnings before interest, tax, depreciation and amortization, or EBITDA, for the 12-month period preceding the incurrence of such debt. Over time, we intend to finance our long-term growth with common and preferred equity issuances and debt financing having staggered maturities. Our debt may include mortgage debt secured by hotels and unsecured debt.

Following completion of this offering, we anticipate entering into a credit facility to fund future acquisitions, as well as for property redevelopments, capital expenditures and working capital requirements. We may not succeed in obtaining a credit facility on favorable terms or at all. We cannot predict the size of the credit facility if we are able to obtain one.

When purchasing hotel properties, we may issue OP units as full or partial consideration to sellers who may desire to take advantage of tax deferral on the sale of a hotel or participate in the potential appreciation in value of our common stock.

Conflicts of Interest

Following completion of this offering and the formation transactions, there will be conflicts of interest between the holders of OP units, including certain of our executive officers and directors, and our stockholders with respect to certain transactions. In addition to their ownership of OP units, these executive officers and directors may have conflicting duties because, in their capacities as our executive officers and directors, they have a duty to us and our stockholders, while at the same time, in our capacity as general partner of our operating partnership, they have a fiduciary duty to the limited partners. Conflicts may arise when the interests of our stockholders and the limited partners of the operating partnership diverge, particularly in circumstances in which there may be an adverse tax consequence to the limited partners. For example, the sale of any of the hotels in our portfolio or the repayment of indebtedness may have different tax consequences to holders of OP units as compared to our stockholders. The amended and restated limited partnership agreement of the operating partnership contains a provision that in the event of a conflict of interest between our stockholders and the limited partners of our operating partnership, we will endeavor in good faith to resolve the conflict in a manner not adverse to either our stockholders or the limited partners of our operating partnership, and, if we, in our sole discretion as general partner of the operating partnership, determine that a conflict cannot be resolved in a manner not adverse to our stockholders and the limited partners of our operating partnership, the conflict will be resolved in favor of our stockholders. Our board of directors has adopted a policy that any transaction involving our company in which a director has an interest must be approved by a majority of the disinterested directors.

Both we and our predecessor have sought to structure the formation transactions so as to minimize potential conflicts of interest, including by appointing a special committee of our predecessor s independent managers to review the terms of the proposed merger of our predecessor into our operating partnership. However, we did not conduct arm s-length negotiations with our predecessor s members or the members of Summit of Scottsdale with respect to the terms of the formation transactions, including the merger. Our Executive Chairman, Mr. Boekelheide, and his affiliates, including The Summit Group, have substantial, pre-existing ownership interests in our predecessor and Summit of Scottsdale. In addition, Mr. Aniszewski, our Executive Vice President and Chief Operating Officer, has a pre-existing ownership interest in our predecessor. Both Mr. Boekelheide and Mr. Aniszewski sat on the board of managers of our predecessor that approved the terms of the formation transactions. In the course of structuring the formation transactions, Mr. Boekelheide and Mr. Aniszewski had the ability to influence the type and level of benefits they will receive from us. Although our predecessor s special committee received a fairness opinion from an independent

third-party financial advisor that is not one of the underwriters of this offering with respect to the fairness, from a financial point of view, of the merger consideration to the former members of our predecessor, assuming that the value of the OP units issued as the merger consideration was between $140 million and $160 million, we did not obtain a fairness opinion with respect to the fairness of the merger consideration to us and we did not obtain recent third-party appraisals for all of the hotels to be acquired by us in the formation transactions. As a result, the consideration to be paid by us to the members of our predecessor in the merger and the acquisition of the 49% ownership interest in the two Scottsdale hotels may exceed the fair market value of the hotels and other assets being acquired by us in the formation transactions.

Our Tax Status

We intend to elect to be taxed as a REIT for federal income tax purposes commencing with our short taxable year ending December 31, 2010. Our qualification as a REIT will depend upon our ability to meet, on a continuing basis, through actual investment and operating results, various complex requirements under the Internal Revenue Code, as

amended, or the Code, relating to, among other things, the sources of our gross income, the composition and values of our assets, our distribution levels and the diversity of ownership of our shares of capital stock. We believe that we will be organized in conformity with the requirements for qualification as a REIT under the Code and that our intended manner of operation will enable us to meet the requirements for qualification and taxation as a REIT for federal income tax purposes commencing with our short taxable year ending December 31, 2010 and continuing thereafter.

In order for the income from our hotel operations to constitute rents from real property for purposes of the gross income tests required for REIT qualification, we cannot directly operate any of our hotel properties. Instead, we must lease our hotel properties. Accordingly, we will lease each of our hotel properties to one of our TRS lessees, which will be wholly owned by our operating partnership. Our TRS lessees will pay rent to us that can qualify as rents from real property, provided that the TRS lessees engage eligible independent contractors to manage our hotels. A TRS is a corporate subsidiary of a REIT that jointly elects with the REIT to be treated as a TRS of the REIT and that pays federal income tax at regular corporate rates on its taxable income. We expect that all of the hotels in our portfolio will be leased to one of our TRS lessees, which will be able to pay us rent out of the revenue of the hotels. Our TRS lessees will engage to manage the hotels in our initial portfolio. We believe will qualify as an eligible independent contractor.

As a REIT, we generally will not be subject to federal income tax on our REIT taxable income that we distribute currently to our stockholders. Under the Code, REITs are subject to numerous organizational and operational requirements, including a requirement that they distribute each year at least 90% of their taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gains. If we fail to qualify for taxation as a REIT in any taxable year and do not qualify for certain statutory relief provisions, our income for that year will be taxed at regular corporate rates, and we will be disqualified from taxation as a REIT for the four taxable years following the year during which we ceased to qualify as a REIT. Even if we qualify as a REIT for federal income tax purposes, we may still be subject to state and local taxes on our income and assets and to federal income and excise taxes on our undistributed income. Additionally, any income earned by our TRS lessees will be fully subject to federal, state and local corporate income tax.

Distribution Policy

To qualify as a REIT, we must distribute annually to our stockholders an amount at least equal to 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gain. We will be subject to income tax on our taxable income that is not distributed and to an excise tax to the extent that certain percentages of our taxable income are not distributed by specified dates. See Material Federal Income Tax Considerations. Income as computed for purposes of the foregoing tax rules will not necessarily correspond to our income as determined for financial reporting purposes. Our cash available for distribution may be less than the amount required to meet the distribution requirements for REITs under the Code, and we may be required to borrow money, sell assets or issue capital stock to satisfy the distribution requirements. Additionally, we may pay future distributions from the proceeds from this offering or other securities offerings.

We intend to make regular quarterly cash distributions to our stockholders, as more fully described below. We plan to pay a pro rata dividend with respect to the period commencing on completion of this offering and ending , based on a rate of $ per share for a full quarter. On an annualized basis, this would be $ per share, or an estimated initial annual dividend rate of approximately % based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. We do not intend to reduce the expected dividend per share if the underwriters option to purchase additional shares is exercised.

The timing and frequency of distributions will be authorized by our board of directors and declared by us based upon a variety of factors deemed relevant by our directors, including restrictions under applicable law and our loan

agreements, capital requirements of our company and the REIT requirements of the Code. Distributions to stockholders generally will be taxable to our stockholders as ordinary income, although a portion of such distributions may be designated by us as long-term capital gain or may constitute a return of capital. We will furnish annually to each of our stockholders a statement setting forth distributions paid during the preceding year and their federal income tax status. For a discussion of the federal income tax treatment of our distributions, see Material Federal Income Tax Considerations.

Restrictions on Ownership of Our Capital Stock

In order to assist us in qualifying as a REIT, our charter, subject to certain exceptions, restricts the amount of shares of our capital stock that a person may beneficially or constructively own. Our charter provides that, subject to certain exceptions,

no person may beneficially or constructively own more than 9.8% in value or in number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our capital stock. Our charter also prohibits any person from:

§ beneficially owning shares of our capital stock to the extent that such beneficial ownership would result in our being closely held within the meaning of Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of the taxable year);

§ transferring shares of our capital stock to the extent that such transfer would result in shares of our capital stock being beneficially owned by fewer than 100 persons (determined under the principles of Section 856(a)(5) of the Code);

§ beneficially or constructively owning shares of our capital stock to the extent such beneficial or constructive ownership would cause us to constructively own ten percent or more of the ownership interests in a tenant (other than a TRS) of our real property within the meaning of Section 856(d)(2)(B) of the Code; or

§ beneficially or constructively owning or transferring shares of our capital stock if such beneficial or constructive ownership or transfer would otherwise cause us to fail to qualify as a REIT under the Code, including, but not limited to, as a result of any hotel management companies failing to qualify as an eligible independent contractor under the REIT rules.

Our board of directors, in its sole discretion, may prospectively or retroactively exempt a person from certain of these limits and may establish or increase an excepted holder percentage limit for such person. The person seeking an exemption must provide to our board of directors such representations, covenants and undertakings as our board of directors may deem appropriate in order to conclude that granting the exemption will not cause us to lose our status as a REIT.

Our Corporate Information

We were formed as a Maryland corporation on June 30, 2010 and intend to elect and qualify to be taxed as a REIT for federal income tax purposes commencing with our short taxable year ending December 31, 2010. Our corporate offices are located at 2701 South Minnesota Avenue, Suite 6, Sioux Falls, South Dakota 57105. Our telephone number is (605) 361-9566. Our website is *www.shpreit.com*. The information contained on, or accessible through, our website is not incorporated by reference into this prospectus and should not be considered a part of this prospectus.

Table of Contents

The Offering

Common stock offered by us	shares
Common stock to be outstanding after this offering and the formation transactions	shares[(1)]
Common stock and OP units to be outstanding after this offering and the formation transactions	shares and OP units[(2)]
Use of proceeds	We estimate that we will receive net proceeds from this offering of approximately $ million, or approximately $ million if the underwriters over-allotment option is exercised in full, after deducting the underwriting discounts and commissions and estimated expenses of this offering. We intend to use the net proceeds of this offering as follows: (1) approximately $ million to repay or extinguish existing indebtedness that we will assume upon completion of the formation transactions, including estimated related costs totaling approximately $ million; (2) approximately $10.0 million to fund capital improvements at our hotels; and (3) the balance for general corporate and working capital purposes, including possible future hotel acquisitions. See Use of Proceeds for additional information.
Ownership and transfer restrictions	In order to assist us in qualifying as a REIT, our charter provides that, subject to certain exceptions, no person may beneficially or constructively own more than 9.8% in value or in number of shares, whichever is more restrictive, of our common stock and places certain other restrictions on ownership of our stock.
Proposed NYSE symbol	INN

(1) Immediately prior to the closing of this offering, we have a total of 1,000 shares of common stock outstanding. We sold these shares to our Executive Chairman, Mr. Boekelheide, in connection with our formation and initial capitalization for total consideration of $1,000. At the closing of this offering, we will repurchase these shares from Mr. Boekelheide for $1,000. The number of shares of common stock to be outstanding immediately after the repurchase of these shares and the closing of this offering includes: (i) shares of common stock to be sold in this offering and (ii) an aggregate of shares of common stock to be issued to our independent director nominees pursuant to the 2010 Equity Incentive Plan upon completion of this offering. The number of shares of common stock to be outstanding immediately after the closing of this offering excludes: (i) up to shares of common stock issuable upon exercise of the underwriters over-allotment option; (ii) an aggregate of shares of common stock issuable upon exercise of options that we will grant to our Executive Chairman, Mr. Boekelheide, our President and Chief Executive Officer, Mr. Hansen, our Executive Vice President and Chief Operating Officer, Mr. Aniszewski, our Executive Vice President and Chief Financial Officer, Stuart J. Becker, and our Vice President of Acquisitions, Ryan A. Bertucci, pursuant to the 2010 Equity Incentive Plan upon completion of this offering; (iii) additional shares of common stock available for future issuance under the 2010 Equity Incentive Plan; and (iv) up to 10,100,000 shares of common stock issuable upon redemption of the 10,100,000 OP units to be issued by our operating partnership in the formation transactions.

(2)

Includes all of the shares of common stock identified in the third sentence of footnote (1) above, and 10,100,000 OP units to be issued in the formation transactions to our predecessor s former members and the former Class B and Class C members of Summit of Scottsdale in exchange for their membership interests in those entities. Pursuant to the limited partnership agreement of our operating partnership, limited partners, other than us, will have redemption rights which will enable them to cause our operating partnership to redeem their OP units in exchange for cash or, at our operating partnership s option, shares of our common stock on a one-for-one basis. The number of shares of common stock issuable upon redemption of OP units may be adjusted upon the occurrence of certain events described under Description of the Partnership Agreement Redemption Rights.

Summary Pro Forma Financial Information

You should read the following summary pro forma financial and operating data in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations and our unaudited pro forma condensed consolidated financial statements and our predecessor s consolidated financial statements, including the related notes, appearing elsewhere in this prospectus.

The following unaudited summary pro forma financial information is presented to reflect:

§ the initial public offering of shares of our common stock in this offering at $ per share, the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus, for approximately $260.2 million of estimated net proceeds, after the deduction of the underwriting discount and the payment by us of approximately $3.6 million of expenses related to this offering and the formation transactions;

§ the merger of our predecessor with and into our operating partnership, with our predecessor as the acquirer for accounting purposes, and the issuance by our operating partnership of an aggregate of 9,993,992 OP units to the Class A, Class A-1, Class B and Class C members of our predecessor in exchange for their membership interests in our predecessor;

§ the contribution to our operating partnership of the Class B and Class C membership interests in Summit of Scottsdale held by The Summit Group and an unaffiliated third-party investor in exchange for an aggregate of 106,008 OP units;

§ the contribution of the net proceeds of this offering to our operating partnership in exchange for OP units that represent an approximate % partnership interest in our operating partnership, including the sole general partnership interest;

§ the repayment or extinguishment of approximately $225.2 million of outstanding indebtedness and the payment of estimated costs and expenses of approximately $3.8 million in connection with the retirement of this indebtedness; and

§ the grant upon completion of this offering of an aggregate of 5,000 shares of our common stock to our independent director nominees and options to purchase an aggregate of 940,000 shares of our common stock to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci pursuant to the 2010 Equity Incentive Plan.

Following completion of the merger, the historical consolidated financial statements of our predecessor will become our historical consolidated financial statements, and our assets and liabilities will be recorded at their respective historical carrying values as of the date of completion of the merger.

The unaudited pro forma balance sheet data appearing below assumes that each of these transactions occurred on June 30, 2010. The unaudited pro forma statements of operations and other operating data assume that each of these transactions occurred on January 1, 2009.

In the opinion of our management, all material adjustments to reflect the effects of the preceding transactions have been made. The unaudited pro forma balance sheet data is presented for illustrative purposes only and is not necessarily indicative of what our actual financial position would have been had the transactions referred to above occurred on June 30, 2010, nor does it purport to represent our future financial position. The unaudited pro forma condensed statements of operations and other operating data are presented for illustrative purposes only and are not

necessarily indicative of what our actual results of operations would have been had the transactions referred to above occurred on January 1, 2009, nor do they purport to represent our future results of operations.

The following table presents summary unaudited pro forma balance sheet data as of June 30, 2010 (dollars in thousands):

	Pro Forma as of June 30, 2010 (unaudited)	
Cash and cash equivalents	$	34,287
Property and equipment, net	$	460,632
Total assets	$	534,274

(1) Historically, our predecessor segregated its operating expenses (direct hotel operations expense, other hotel operating expense, general, selling and administrative expense and repairs and maintenance) from its other operating expenses, such as depreciation and amortization and impairment losses. Following completion of this offering, we intend to reclassify our operating expenses into categories of hotel operating expenses (room expenses, other direct expenses, other indirect expenses and other expenses) and reclassify our predecessor s historical items of hotel operating expense to increase the comparability of our hotel operating expenses and our hotel operating results with other publicly traded hospitality REITs. Accordingly, historical balances included in our predecessor s:

§ direct hotel operations expense related to (1) wages, payroll taxes and benefits, linens, cleaning and guestroom supplies and complimentary breakfast will be reclassified to rooms expense in our consolidated statements of operations and (2) franchise fees will be reclassified to other indirect expense in our consolidated statements of operations;

§ other hotel operating expenses related to (1) utilities and telephone will be reclassified to other direct expenses in our consolidated statements of operations and (2) real and personal property taxes, insurance and cable will be reclassified to other indirect expenses in our consolidated statements of operations;

§ general, selling and administrative expenses related to (1) office supplies, advertising, miscellaneous operating expenses and bad debt expense will be reclassified to other direct expenses in our consolidated statements of operations, (2) credit card/travel agent commissions, management company expenses, management company legal and accounting fees and franchise fees will be reclassified to other indirect expenses in our consolidated statements of operations, (3) hotel development and startup costs will be reclassified to hotel property acquisition costs in our consolidated statements of operations and (4) ground rent and other miscellaneous expenses will be reclassified to other expenses in our consolidated statements of operations; and

§ repairs and maintenance will be reclassified to other direct expenses in our consolidated statements of operations.

On a pro forma basis, the reclassification reduces total hotel operating expenses (direct hotel operations expense, other hotel operating expense, general, selling and administrative expense and repairs and maintenance) by $56,000 for the six months ended June 30, 2010 and $1.4 million for the year ended December 31, 2009, which were reclassified to hotel operating costs. The reclassification does not impact amounts reported by our predecessor as total expenses (total hotel operating expenses, depreciation and amortization and loss on impairment of assets),

income from operations, total other income, income (loss) from continuing operations, income (loss) from discontinued operations, net income (loss) before income taxes or net income (loss). See Unaudited Pro Forma Condensed Consolidated Financial Statements for additional information.

(2) As defined by the National Association of Real Estate Investment Trusts, or NAREIT, funds from operations, or FFO, represents net income or loss (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate depreciation and amortization (excluding amortization of deferred financing costs). We present FFO because we consider it an important supplemental measure of our operational performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, room rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income. We will compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002), which may differ from the methodology for calculating FFO utilized by other equity REITs and, accordingly, may not be comparable to such other REITs. Further, FFO does not represent amounts available for management s discretionary use because of needed capital replacement or expansion, debt service obligations, or other commitments and uncertainties. FFO should not be considered as an alternative to net income (loss) (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions. We caution investors that amounts presented in accordance with our definitions of FFO may not be comparable to similar measures disclosed by other companies, since not all companies calculate this non-GAAP measure in the same manner. FFO should not be considered as an alternative measure of our net income (loss) or operating performance. FFO may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures and property acquisitions and other commitments and uncertainties. Although we believe that FFO can enhance your understanding of our financial condition and results of operations, this non-GAAP financial measure is not necessarily a better indicator of any trend as compared to a comparable GAAP measure such as net income (loss). Below, we include a quantitative

reconciliation of pro forma FFO to the most directly comparable GAAP financial performance measure, which is pro forma net income (loss) (dollars in thousands):

	Pro Forma Six Months Ended June 30, 2010	Pro Forma Year Ended December 31, 2009
Net loss	$ (1,394)	$ (14,513)
Depreciation and amortization	13,346	23,088
FFO	$ 11,952	$ 8,575

(3) EBITDA represents net income or loss, excluding: (i) interest, (ii) income tax expense and (iii) depreciation and amortization. We believe EBITDA is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the impact of our asset base (primarily depreciation and amortization) from our operating results. Our management also uses EBITDA as one measure in determining the value of acquisitions and dispositions. We caution investors that amounts presented in accordance with our definitions of EBITDA may not be comparable to similar measures disclosed by other companies, since not all companies calculate this non-GAAP measure in the same manner. EBITDA should not be considered as an alternative measure of our net income (loss) or operating performance. EBITDA may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures and property acquisitions and other commitments and uncertainties. Although we believe that EBITDA can enhance your understanding of our financial condition and results of operations, this non-GAAP financial measure is not necessarily a better indicator of any trend as compared to a comparable GAAP measure such as net income (loss). Below, we include a quantitative reconciliation of pro forma EBITDA to the most directly comparable GAAP financial performance measure, which is pro forma net income (loss) (dollars in thousands):

	Pro Forma Six Months Ended June 30, 2010	Pro Forma Year Ended December 31, 2009
Net loss	$ (1,394)	$ (14,513)
Interest income	(24)	(50)
Interest expense	5,199	9,052
Income tax expense	450	840
Depreciation and amortization	13,346	23,088
EBITDA	$ 17,577	$ 18,417

Risk Factors

An investment in our common stock involves risks. Before making an investment decision, you should carefully consider the following risk factors, which address the material risks concerning our business and an investment in our common stock, together with the other information contained in this prospectus. If any of the risks discussed in this prospectus were to occur, our business, prospects, financial condition, results of operation and our ability to service our debt and make distributions to our stockholders could be materially and adversely affected, the market price per share of our common stock could decline significantly and you could lose all or a part of your investment. Some statements in this prospectus, including statements in the following risk factors constitute forward-looking statements. Please refer to the section entitled Cautionary Note Regarding Forward-Looking Statements.

Risks Related to Our Business

Our business strategy depends significantly on achieving revenue and net income growth from anticipated increases in demand for hotel rooms any delay or a weaker than anticipated economic recovery will adversely affect our future results of operations and our growth prospects.

Our hotel properties experienced declining operating performance across various U.S. markets during the recent economic recession. Our business strategy depends significantly on achieving revenue and net income growth from anticipated improvement in demand for hotel rooms as part of a future economic recovery. We, however, cannot provide any assurances that demand for hotel rooms will increase from current levels. If demand does not increase in the near future, or if demand weakens further, our operating results and growth prospects could be adversely affected. In particular, we already have reduced our operating expenses significantly in response to the recent economic recession and our ability to reduce operating expenses further to improve our operating performance is limited. As a result, any delay or a weaker than anticipated economic recovery will adversely affect our future results of operations and our growth prospects.

Our unseasoned hotels have limited, if any, operating history and may not achieve the operating performance we anticipate, and as a result, our overall returns may not improve as we expect or may decline.

Our unseasoned hotels have experienced extended stabilization periods as a result of the significant decline in general economic conditions. Consequently, many of these hotels continue to generate negative cash flow beyond our original expectations for them. Significant increases in anticipated hotel room supply or decreases in hotel room demand in the markets where any one or more of our unseasoned hotels are located could cause the operating performance of those hotels to be below our original plans for them. If macroeconomic conditions or conditions specific to their markets do not improve significantly or our anticipated improved results for these hotels do not otherwise materialize, our overall returns may not improve as we expect or may decline.

We have no operating history as a publicly traded REIT and may not be successful in operating as a publicly traded REIT, which may adversely affect our ability to make distributions to our stockholders.

We have no operating history as a publicly traded REIT. The REIT rules and regulations are highly technical and complex. We cannot assure you that our management team s past experience will be sufficient to successfully operate our company as a publicly traded REIT, implement appropriate operating and investment policies and comply with Code or Treasury Regulations that are applicable to us. Failure to comply with the income, asset, and other requirements imposed by the REIT rules and regulations could prevent us from qualifying as a REIT, and could force us to pay unexpected taxes and penalties which may adversely affect our ability to make distributions to our

stockholders.

Our success depends on key personnel whose continued service is not guaranteed.

We depend on the efforts and expertise of our management team to manage our day-to-day operations and strategic business direction. The loss of services from any of the members of our management team, particularly our Executive Chairman, Kerry W. Boekelheide, and our President and Chief Executive Officer, Daniel P. Hansen, and our inability to find suitable replacements on a timely basis could have an adverse effect on our operations.

We may be unable to complete acquisitions that would grow our business.

Our growth strategy includes the disciplined acquisition of hotels as opportunities arise. Our ability to acquire hotels on satisfactory terms or at all is subject to the following significant risks:

§ we may be unable to acquire or may be forced to acquire at significantly higher prices desired hotels because of competition from other real estate investors with more capital, including other real estate operating companies, REITs and investment funds;

§ we may be unable to obtain the necessary debt or equity financing to consummate an acquisition or, if obtainable, financing may not be on satisfactory terms;

§ agreements for the acquisition of hotels are typically subject to customary conditions to closing, including satisfactory completion of due diligence investigations, and we may spend significant time and money on potential acquisitions that we do not consummate;

If we cannot complete hotel acquisitions on favorable terms or at all, our business, financial condition, results of operations and cash flow, the market price per share of our common stock and our ability to satisfy our debt service obligations and make distributions to our stockholders could be materially and adversely affected.

We may fail to successfully integrate and operate newly acquired hotels.

Our ability to successfully integrate and operate newly acquired hotels is subject to the following risks:

§ we may not possess the same level of familiarity with the market dynamics and market conditions of any new markets that we may enter, which could result in us paying too much for hotels in new markets;

§ market conditions may result in lower than expected occupancy rates and lower than expected room rates;

§ we may acquire hotels without any recourse, or with only limited recourse, for liabilities, whether known or unknown, such as clean-up of environmental contamination, claims by tenants, vendors or other persons against the former owners of the hotels and claims for indemnification by general partners, directors, officers and others indemnified by the former owners of the hotels.

§ we may need to spend more than budgeted amounts to make necessary improvements or renovations to our newly acquired hotels; and

§ we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of hotels, into our existing operations.

If we cannot operate acquired hotels to meet our goals or expectations, our business, financial condition, results of operations and cash flow, the market price per share of our common stock and our ability to satisfy our debt service obligations and make distributions to our stockholders could be materially and adversely affected.

We may not succeed in managing our growth, in which case our financial results could be adversely affected.

Our ability to grow our business depends upon our management team s business contacts and their ability to successfully hire, train, supervise and manage additional personnel. We may not be able to hire and train sufficient

personnel or develop management, information and operating systems suitable for our expected growth. If we are unable to manage any future growth effectively, our operations and financial results could be adversely affected.

Upon completion of this offering and the formation transactions, the management of all of the hotels in our initial portfolio will be concentrated in one hotel management company.

Upon completion of this offering and the formation transactions, all of the hotels in our initial portfolio will be operated by . This significant concentration of credit and operational risk in one hotel management company makes us more vulnerable economically than if we entered into hotel management agreements with several hotel management companies. Any adverse developments in s business and affairs, financial strength or ability to operate our hotels efficiently and effectively could have a material adverse effect on our results of operations. We cannot assure you that will have sufficient assets, income and access to financing and insurance coverage to enable it to satisfy its obligations to us or effectively and efficiently operate our initial hotel properties. The failure or inability of to satisfy its obligations to us or effectively and efficiently operate our initial hotel properties would materially reduce our revenues and net income, which could in turn reduce the amount of our distributable cash and cause the market price per share of our common stock to decline.

Termination of our hotel management agreement with may cause us to pay substantial termination fees or to experience significant disruptions at the affected hotels.

If we replace as the hotel manager of any of our hotels, we may be required to pay a substantial termination fee and we may experience significant disruptions at the affected hotel. If we experience disruptions at the affected hotel, our financial condition, results of operations and our ability to service debt and make distributions to our stockholders could be materially and adversely affected.

Restrictive covenants in hotel management and franchise agreements could preclude us from taking actions with respect to the sale or refinancing of a hotel that would otherwise be in our best interest.

Hotel management and franchise agreements typically contain restrictive covenants that do not provide us with flexibility to sell or refinance a hotel without the consent of a manager or franchisor. For example, the terms of some of these agreements may restrict our ability to sell a hotel unless the purchaser is not a competitor of the hotel management company, assumes the related agreement and meets specified other conditions. We could be forced to pay consent or possibly termination fees to hotel managers or franchisors under these agreements. As a result of these types of restrictive covenants, we may be precluded from taking actions that would otherwise be in our best interest or could cause us to incur substantial expense.

We may not be able to cause our hotel management companies to operate any of our hotels in a manner satisfactory to us, which could adversely affect our financial condition, results of operations and our ability to service debt and make distributions to our stockholders.

To qualify as a REIT, we cannot operate our hotels. We will lease our hotels to our TRS lessees, which, in turn, will enter into hotel management agreements with hotel management companies, such as , that qualify as eligible independent contractors to operate our hotels. As a result, our financial condition, results of operations and our ability to service debt and make distributions to stockholders are dependent on the ability of and any other hotel management companies that we may retain in the future to operate our hotels successfully. Any failure by our hotel management companies to provide quality services and amenities or maintain a quality brand name and reputation could have a negative impact on their ability to operate our hotels and could have a material and adverse affect our financial condition, results of operations and our ability to service debt and make distributions to our stockholders.

We cannot and will not control the hotel management companies that operate and are responsible for maintenance and other day-to-day management of our hotels, including, but not limited to, the implementation of significant operating decisions. We cannot assure you that our hotel management companies will manage our properties in a manner that is consistent with their obligations under the management agreement or our obligations under our hotel franchise agreements, that our hotel management companies will not be negligent in their performance or engage in other criminal or fraudulent activity, or that they will not otherwise default on their management obligations to us. If any of the foregoing occurs, our relationships with the franchisors may be damaged and we may then be in breach of the franchise agreements, and we could incur liabilities resulting from loss or injury to our property or to persons at our properties, any of which could have a material adverse effect on our operating results and financial condition, as well as our ability to pay dividends to stockholders.

Even if we believe a hotel is being operated inefficiently or in a manner that does not result in satisfactory operating results, we will have limited ability to require the hotel management company to change its method of operation. We generally will attempt to resolve issues with our hotel management companies through discussions and negotiations. However, if we are unable to reach satisfactory results through discussions and negotiations, we may choose to litigate the dispute or submit the matter to third-party dispute resolution or arbitration. We would only be able to seek redress if a hotel management company violates the terms of the applicable hotel management agreement, and then only to the

extent of the remedies provided for under the terms of the hotel management agreement. Our hotel managers or their affiliates manage, and in some cases own, have invested in, or provided credit support or operating guarantees to hotels that compete with our hotels, all of which may result in conflicts of interest. As a result, our hotel managers may in the future make decisions regarding competing lodging facilities that are not or would not be in our best interest.

Funds spent to maintain franchisor operating standards, the loss of a franchise license or a decline in the value of a franchise brand may have a material adverse effect on our business and financial results.

Our hotels operate under franchise agreements, and the maintenance of franchise licenses for our hotels is subject to our franchisors operating standards and other terms and conditions. We expect that franchisors will periodically inspect

our hotels to ensure that we, our TRS lessees and our hotel management companies maintain our franchisors standards. Failure by us, our TRS lessees or any of our hotel management companies to maintain these standards or other terms and conditions could result in a franchise license being canceled. If a franchise license terminates due to our failure to make required improvements or to otherwise comply with its terms, we could also be liable to the franchisor for a termination payment, which varies by franchisor and by hotel. As a condition of our continued holding of a franchise license, a franchisor could also require us to make capital improvements to our hotels, even if we do not believe the improvements are necessary or desirable or would result in an acceptable return on our investment. Nonetheless, we may risk losing a franchise license if we do not make franchisor-required capital improvements.

If a franchisor terminated a franchise license, we could try either to obtain a suitable replacement franchise or to operate the hotel without a franchise license. The loss of a franchise license could materially and adversely affect the operations or the underlying value of the hotel because of the loss of associated name recognition, marketing support and centralized reservation systems provided by the franchisor. A loss of a franchise license for one or more hotels, particularly if our hotels become concentrated in a limited number of franchise brands in the future, could materially and adversely affect our revenues. This loss of revenues could, therefore, also adversely affect our financial condition, results of operations and ability to service debt and make distributions to our stockholders.

Negative publicity related to one of the franchise brands or the general decline of a brand also may adversely affect the underlying value of our hotels or result in a reduction in business.

We will rely on external sources of capital to fund future capital needs, and if we encounter difficulty in obtaining such capital we may not be able to make future acquisitions necessary to grow our business or meet maturing obligations.

In order to qualify as a REIT under the Code, we will be required, among other things, to distribute each year to our stockholders at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain. Because of this distribution requirement, we may not be able to fund, from cash retained from operations, all of our future capital needs, including capital needed to make investments and to satisfy or refinance maturing obligations.

We expect to rely on external sources of capital, including debt and equity financing, to fund future capital needs. Part of our strategy involves the use of additional debt financing to supplement our equity capital. Our ability to effectively implement and accomplish our business strategy will be affected by our ability to obtain and utilize additional leverage in sufficient amounts and on favorable terms. However, the recent U.S. and global economic slowdown has resulted in a capital environment characterized by limited availability of both debt and equity financing, increasing costs, stringent credit terms and significant volatility. If we are unable to obtain needed capital on satisfactory terms or at all, we may not be able to make the investments needed to expand our business, or to meet our obligations and commitments as they mature. Our access to capital will depend upon a number of factors over which we have little or no control, including general market conditions, the market s perception of our current and potential future earnings and cash distributions and the market price of the shares of our common stock. We may not be in a position to take advantage of attractive investment opportunities for growth if we are unable to access the capital markets on a timely basis on favorable terms.

We have a significant amount of debt, and our organizational documents have no limitation on the amount of additional indebtedness that we may incur in the future. As a result, we may become highly leveraged in the future, which could adversely affect our financial condition.

As of , 2010, after giving pro forma effect to this offering and the formation transactions, we would have had total outstanding indebtedness of approximately $ million, all of which would have been secured indebtedness. In the future, we may incur additional indebtedness to finance future hotel acquisitions and development activities and other corporate purposes. In addition, there are no restrictions in our charter or bylaws that limit the amount or percentage of indebtedness that we may incur nor restrict the form in which our indebtedness will be incurred (including recourse or non-recourse debt or cross-collateralized debt).

A substantial level of indebtedness could have adverse consequences for our business, results of operations and financial condition because it could, among other things:

§ require us to dedicate a substantial portion of our cash flow from operations to make principal and interest payments on our indebtedness, thereby reducing our cash flow available to fund working capital, capital

expenditures and other general corporate purposes, including to pay dividends on our common stock as currently contemplated or necessary to satisfy the requirements for qualification as a REIT;

§ increase our vulnerability to general adverse economic and industry conditions and limit our flexibility in planning for, or reacting to, changes in our business and our industry;

§ limit our ability to borrow additional funds or refinance indebtedness on favorable terms or at all to expand our business or ease liquidity constraints; and

§ place us at a competitive disadvantage relative to competitors that have less indebtedness.

The agreements governing our indebtedness place restrictions on us and our subsidiaries, reducing operational flexibility and creating default risks.

The agreements governing our indebtedness that will remain outstanding following completion of this offering and the formation transactions contain covenants that place restrictions on us and our subsidiaries. These covenants may restrict, among other activities, our and our subsidiaries ability to:

§ merge, consolidate or transfer all or substantially all of our or our subsidiaries assets;

§ sell, transfer, pledge or encumber our stock or the ownership interests of our subsidiaries;

§ incur additional debt or issue preferred stock;

§ enter into, terminate or modify leases and hotel management and franchise agreements at our hotels;

§ make certain expenditures, including capital expenditures;

§ pay dividends on or repurchase our capital stock; and

§ enter into certain transactions with affiliates.

These covenants could impair our ability to grow our business, take advantage of attractive business opportunities or successfully compete. Our ability to comply with financial and other covenants may be affected by events beyond our control, including prevailing economic, financial and industry conditions. A breach of any of these covenants or covenants under any other agreements governing our indebtedness could result in an event of default. Upon the occurrence of an event of default under any of our debt agreements, the lenders could elect to declare all outstanding debt under such agreements to be immediately due and payable. If we were unable to repay or refinance the accelerated debt, the lenders could proceed against any assets pledged to secure that debt, including foreclosing on or requiring the sale of our hotels, and the proceeds from the sale of these hotels may not be sufficient to repay such debt in full.

Mortgage debt obligations expose us to the possibility of foreclosure, which could result in the loss of our investment in any hotel subject to mortgage debt.

Incurring mortgage and other secured debt obligations increases our risk of property losses because defaults on secured indebtedness may result in foreclosure actions initiated by lenders and ultimately our loss of the hotels securing any loans for which we are in default. Certain debt we intend to assume in the formation transactions is cross-defaulted. In the future, we may incur additional debt that is cross-defaulted. If we are in default under a

cross-defaulted mortgage loan, we could lose multiple hotels to foreclosure. For tax purposes, a foreclosure of any of our hotels would be treated as a sale of the hotel for a purchase price equal to the outstanding balance of the debt secured by the mortgage. If the outstanding balance of the debt secured by the mortgage exceeds our tax basis in the hotel, we would recognize taxable income on foreclosure, but would not receive any cash proceeds, which could hinder our ability to meet the REIT distribution requirements imposed by the Code. As we execute our business plan, we may assume or incur new mortgage indebtedness on the hotels in our portfolio or hotels that we acquire in the future. Any default under any one of our mortgage debt obligations may increase the risk of our default on our other indebtedness.

An increase in interest rates would increase our interest costs on our variable rate debt and could adversely impact our ability to refinance existing debt or sell assets.

An increase in interest rates would increase our interest payments and reduce our cash flow available for other corporate purposes, including capital improvements to our hotels or acquisitions of additional hotels. In addition, rising interest rates could limit our ability to refinance existing debt when it matures and increase interest costs on any debt that is refinanced. Further, an increase in interest rates could increase the cost of financing, thereby decreasing the amount third parties are willing to pay for our hotels, which would limit our ability to dispose of hotels when necessary or desired.

See Management s Discussion and Analysis of Financial Condition and Results of Operations Qualitative and Quantitative Effects of Market Risk.

Although we have not entered into any hedging arrangements, we may, from time to time, enter into agreements such as interest rate swaps, caps, floors and other interest rate hedging contracts. However, these agreements reduce, but do not eliminate, the impact of rising interest rates, and they also expose us to the risk that other parties to the agreements will not perform or that the agreements will be unenforceable.

We may not be able to obtain a credit facility.

We intend to enter into a credit facility following completion of this offering. We may not succeed in obtaining a credit facility on favorable terms or at all. We cannot predict the size or terms of the credit facility if we are able to obtain it. Our failure to obtain a credit facility could adversely affect our ability to grow our business and meet our obligations as they come due.

Joint venture investments could be adversely affected by a lack of sole decision-making authority with respect to such investments.

In the future we may enter into strategic joint ventures with unaffiliated investors to acquire, develop, improve or dispose of hotels, thereby reducing the amount of capital required by us to make investments and diversifying our capital sources for growth. We may not have sole decision-making authority with respect to such investments, which may:

§ prevent us from taking actions that are opposed by our joint venture partners;

§ create impasses on major decisions, such as acquisitions or sales;

§ prevent us from selling our interests in the joint venture without the consent of our joint venture partners; or

§ subject us to liability for the actions of our joint venture partners.

Joint venture investments could subject us to risks related to the financial condition of joint venture partners.

If a joint venture partner becomes bankrupt or otherwise defaults on its obligations under a joint venture agreement, we and any other remaining joint venture partners would generally remain liable for the joint venture liabilities. Furthermore, if a joint venture partner becomes bankrupt or otherwise defaults on its obligations under a joint venture agreement, we may be unable to continue the joint venture other than by purchasing such joint venture partner s interests or the underlying assets at a premium to the market price. If any of the above risks are realized, it could materially adversely affect our business, financial condition and results of operations and our ability to pay distributions to our stockholders.

We may have disputes with joint venture partners.

Disputes between us and our joint venture partners may result in litigation or arbitration which could increase our expenses and prevent our officers and directors from focusing their time and effort on our business and could result in subjecting the hotels owned by the applicable joint venture to additional risks.

Risks Related to the Lodging Industry

Recent economic conditions may continue to adversely affect the lodging industry.

The performance of the lodging industry has historically been closely linked to the performance of the general economy and, specifically, growth in U.S. gross domestic product, or GDP. The lodging industry is also sensitive to business and personal discretionary spending levels. Declines in corporate budgets and consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence or adverse political conditions can lower the revenues and profitability of our assets and therefore the net operating profits of our investments. The recent economic downturn has led to a significant decline in demand for products and services provided by the lodging industry.

We anticipate that any recovery of demand for lodging services will lag an improvement in economic conditions. We cannot predict how severe or prolonged the global economic downturn will be or how severe or prolonged the downturn in the lodging industry will be. A further extended period of economic weakness could have an adverse impact on our revenues and negatively affect our profitability.

Competition from other upscale and midscale without food and beverage hotels in the markets in which we operate could have a material adverse effect on our results of operations.

The lodging industry is highly competitive. Our hotels compete with other hotels for guests in each market in which our hotels operate based on a number of factors, including location, convenience, brand affiliation, room rates, range of services and guest amenities or accommodations offered and quality of customer service. Competition will often be specific to the individual markets in which our hotels are located and includes competition from existing and new hotels. Our competitors may have an operating model that enables them to offer rooms at lower rates than we can, which, particularly in the current economic recession, could result in our competitors increasing their occupancy at our expense. Competition could adversely affect our occupancy, average daily rates, or ADRs, and RevPAR, and may require us to provide additional amenities or make capital improvements that we otherwise would not have to make, which could reduce our profitability and could materially and adversely affect our results of operations.

Our investment opportunities and growth prospects may be affected by competition for investment opportunities.

We compete for investment opportunities with other entities, some of which have substantially greater financial resources than we do. This competition may generally limit the number of suitable investment opportunities offered to us, which may limit our ability to grow. This competition may also increase the bargaining power of the owners of assets seeking to sell to us, making it more difficult for us to acquire new hotels on attractive terms or at all.

Our operating results and ability to make distributions to our stockholders may be adversely affected by the markets in which we operate.

Our hotels will be subject to various operating risks within the markets in which we will operate. These risks include:

§ over-building of hotels in our markets, which could adversely affect occupancy and revenues at the hotels we acquire;

§ adverse effects of international, national, regional and local economic and market conditions; and

§ changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance with laws and regulations, fiscal policies and ordinances.

Our operating results and ability to make distributions to our stockholders may be adversely affected by the risks inherent to the ownership of hotels.

Hotels have different economic characteristics than many other real estate assets. A typical office property owner, for example, has long-term leases with third-party tenants, which provide a relatively stable long-term stream of revenue. By contrast, our hotels will be subject to various operating risks common to the lodging industry, many of which are beyond our control, including the following:

§ dependence on business and commercial travelers and tourism;

§ increases in energy costs and other expenses affecting travel, which may affect travel patterns and reduce the number of business and commercial travelers and tourists;

§ increases in operating costs due to inflation and other factors that may not be offset by increased room rates;

§

events beyond our control, such as terrorist attacks, travel related health concerns including pandemics and epidemics such as H1N1 influenza (swine flu), avian bird flu and severe acute respiratory syndrome, or SARS, imposition of taxes or surcharges by regulatory authorities, travel-related accidents and unusual weather patterns, including natural disasters such as hurricanes and environmental disasters such as the oil spill in the Gulf of Mexico;

§ potential increases in labor costs at our hotels, including as a result of unionization of the labor force; and

§ adverse effects of a downturn in the lodging industry.

We will have significant ongoing needs to make capital expenditures in our hotels, which will require us to devote funds to these purposes and could pose related risks that might impair our ability to make distributions to our stockholders.

Our hotels will have an ongoing need for renovations and other capital improvements, including replacements, from time to time, of furniture, fixtures and equipment. Our franchisors also require periodic capital improvements as a condition

Table of Contents

of keeping the franchise licenses. In addition, lenders may require that we set aside annual amounts for capital improvements to our assets. These capital improvements and replacements may give rise to the following risks:

§ possible environmental problems;

§ construction cost overruns and delays;

§ a possible shortage of available cash to fund capital improvements and replacements and, the related possibility that financing for these capital improvements may not be available to us on affordable terms;

§ these capital improvements and replacements may not prove to be accretive to FFO; and

§ uncertainties as to market demand or a loss of market demand after capital improvements and replacements have begun.

If any of the above risks were to be realized, it could materially, adversely affect our business, financial condition and results of operations and our ability to pay distributions to our stockholders.

Hotel development is subject to timing, budgeting and other risks. To the extent we develop hotels or acquire hotels that are under development, these risks may adversely affect our operating results and liquidity position.

We may develop hotels or acquire hotels that are under development from time to time as suitable opportunities arise, taking into consideration general economic conditions. Hotel development involves a number of risks, including the following:

§ possible environmental problems;

§ construction delays or cost overruns that may increase project costs;

§ receipt of zoning, occupancy and other required governmental permits and authorizations;

§ development costs incurred for projects that are not pursued to completion;

§ acts of God such as earthquakes, hurricanes, floods or fires that could adversely impact a project;

§ inability to raise capital; and

§ governmental restrictions on the nature or size of a project.

To the extent we develop hotels or acquire hotels under development, we cannot assure you that any development project will be completed on time or within budget. Our inability to complete a project on time or within budget may adversely affect our projected operating results and our liquidity position.

The increasing use of Internet travel intermediaries by consumers may adversely affect our profitability.

Our hotel rooms are likely to be booked through Internet travel intermediaries, including, but not limited to, Travelocity.com, Expedia.com and Priceline.com. As these Internet bookings increase, these intermediaries may be able to obtain higher commissions, reduced room rates or other significant contract concessions from us and our management companies. Moreover, some of these Internet travel intermediaries are attempting to offer hotel rooms as

a commodity, by increasing the importance of price and general indicators of quality (such as three-star downtown hotel) at the expense of brand identification. These agencies hope that consumers will eventually develop brand loyalties to their reservations system rather than to the brands under which our hotels are franchised. If the amount of sales made through Internet intermediaries increases significantly, room revenues may flatten or decrease and our profitability may be adversely affected.

Uninsured and underinsured losses could adversely affect our operating results.

We intend to maintain comprehensive insurance on our hotels, including liability, fire and extended coverage, of the type and amount we believe are customarily obtained for or by owners of hotels similar to our hotels. Various types of catastrophic losses, like earthquakes and floods, may not be insurable or may not be economically insurable. In the event of a substantial loss, our insurance coverage may not be sufficient to cover the full current market value or replacement cost of our lost investment. Should an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a hotel, as well as the anticipated future revenue from the hotel. In that event, we might nevertheless remain obligated for any mortgage debt or other financial obligations related to the asset. Inflation, changes in building codes and ordinances, environmental considerations and other factors might also keep us from using insurance proceeds to replace or renovate an asset after it has been damaged or destroyed. Under those circumstances,

the insurance proceeds we receive might be inadequate to restore our economic position on the damaged or destroyed hotels.

Risks Related to the Real Estate Industry and Real Estate-Related Investments

Illiquidity of real estate investments could significantly impede our ability to respond to adverse changes in the performance of hotels in which we may invest or to adjust our portfolio in response to changes in economic and other conditions, and, therefore, may harm our financial condition.

In the future, we may decide to sell hotels. Real estate investments are relatively illiquid. Our ability to promptly sell one or more hotels in our portfolio in response to changing economic, financial and investment conditions may be limited. We cannot predict whether we will be able to sell any hotels for the price or on the terms set by us, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of an asset. The real estate market is affected by many factors that are beyond our control, including:

§ adverse changes in international, national, regional and local economic and market conditions;

§ changes in interest rates and in the availability, cost and terms of debt financing;

§ changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance with laws and regulations, fiscal policies and ordinances;

§ the ongoing need for capital improvements, particularly in older structures, that may require us to expend funds to correct defects or to make improvements before an asset can be sold;

§ changes in operating expenses; and

§ civil unrest, acts of God, including earthquakes, floods and other natural disasters, which may result in uninsured losses, and acts of war or terrorism, including the consequences of the terrorist acts such as those that occurred on September 11, 2001.

Increases in our property taxes would adversely affect our operating results and our ability to make distributions to our stockholders.

Our hotels are subject to real and personal property taxes. These taxes may increase as tax rates change and as our hotels are assessed or reassessed by taxing authorities. If property taxes increase, our operating results and our ability to make distributions to our stockholders could be adversely affected.

We could incur significant costs related to government regulation and litigation over environmental matters.

Our hotels and development parcels are subject to various federal, state and local environmental laws that impose liability for contamination. Under these laws, governmental entities have the authority to require us, as the current owner of the property, to perform or pay for the clean up of contamination (including hazardous substances, waste or petroleum products) at, on, under or emanating from the property and to pay for natural resource damages arising from contamination. These laws often impose liability without regard to whether the owner or operator or other responsible party knew of, or caused the contamination, and the liability may be joint and several. Because these laws also impose liability on persons who owned a property at the time it became contaminated, we could incur cleanup costs or other environmental liabilities even after we sell properties. Contamination at, on, under or emanating from our properties

also may expose us to liability to private parties for costs of remediation, personal injury and/or property damage. In addition, environmental liens may be created on contaminated sites in favor of the government for damages and costs it incurs to address contamination. If contamination is discovered on our properties, environmental laws also may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures. Moreover, environmental contamination can affect the value of a property and, therefore, an owner s ability to borrow funds using the property as collateral or to sell the property on favorable terms or at all. Furthermore, persons who sent waste to a waste disposal facility, such as a landfill or an incinerator, may be liable for costs associated with cleanup of that facility.

In addition, our hotels are subject to various federal, state and local environmental, health and safety requirements that address a wide variety of issues, including, but not limited to, storage tanks, air emissions from emergency generators, storm water and wastewater discharges, protection of natural resources, asbestos, lead-based paint, mold and mildew, and waste management. Some of our hotels routinely handle and use hazardous or regulated substances and wastes as part of their operations, which are subject to regulation (for example, swimming pool chemicals or biological waste). Our hotels

incur costs to comply with these environmental, health and safety laws and regulations and could be subject to fines and penalties for non-compliance with applicable laws.

Certain hotels we currently own or those we acquire in the future contain, may contain, or may have contained, asbestos-containing material, or ACM. Environmental, health and safety laws require that ACM be properly managed and maintained, and include requirements to undertake special precautions, such as removal or abatement, if ACM would be disturbed during maintenance, renovation, or demolition of a building. These laws regarding ACM may impose fines and penalties on building owners, employers and operators for failure to comply with these requirements or expose us to third-party liability.

Our properties may contain or develop harmful mold, which could lead to liability for adverse health effects and costs of remediating the problem.

When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Indoor air quality issues can also stem from inadequate ventilation, chemical contamination from indoor or outdoor sources, and other biological contaminants such as pollen, viruses and bacteria. Indoor exposure to airborne toxins or irritants above certain levels can be alleged to cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold or other airborne contaminants at any of our properties could require us to undertake a costly remediation program to contain or remove the mold or other airborne contaminants from the affected property or increase indoor ventilation. In addition, the presence of significant mold or other airborne contaminants could expose us to material liability from third parties if property damage or personal injury occurs.

Compliance with the laws, regulations and covenants that are applicable to our hotels, including permit, license and zoning requirements, may adversely affect our ability to make future acquisitions or renovations, result in significant costs or delays and adversely affect our growth strategy.

Our hotels are subject to various covenants and local laws and regulatory requirements, including permitting and licensing requirements. Local regulations, including municipal or local ordinances, zoning restrictions and restrictive covenants imposed by community developers may restrict our use of our hotels and may require us to obtain approval from local officials or community standards organizations at any time with respect to our hotels, including prior to acquiring a hotel or when undertaking any renovations of any of our hotels. Among other things, these restrictions may relate to fire and safety, seismic, asbestos-cleanup or hazardous material abatement requirements. We cannot assure you that existing regulatory policies will not adversely affect us or the timing or cost of any future acquisitions or renovations, or that additional regulations will not be adopted that would increase such delays or result in additional costs. Our growth strategy may be materially and adversely affected by our ability to obtain permits, licenses and zoning approvals. Our failure to obtain such permits, licenses and zoning approvals could have a material adverse effect on our business, financial condition and results of operations.

In addition, federal and state laws and regulations, including laws such as the Americans with Disabilities Act of 1990, or the ADA, impose further restrictions on our operations. Under the ADA, all public accommodations must meet federal requirements related to access and use by disabled persons. Some of our hotels may currently be in non-compliance with the ADA. If one or more of the hotels in our portfolio is not in compliance with the ADA or any other regulatory requirements, we may be required to incur additional costs to bring the hotel into compliance and we might incur damages or governmental fines. In addition, existing requirements may change and future requirements may require us to make significant unanticipated expenditures that would adversely impact our business, financial condition, results of operations and cash flow, the market price per share of our common stock and our ability to satisfy our debt service obligations and to make distributions to our stockholders.

If we default on ground leases for land on which four of our hotels are located, our business could be materially and adversely affected.

Four of the 65 hotels in our initial portfolio are subject to ground leases. If we default under the terms of these ground leases and are unable to cure the default in a timely manner, we may be liable for damages and could lose our leasehold interest in the applicable property and interest in the hotel on the applicable property. If any of the events of default were to occur and are not timely cured, our business, financial condition, results of operations and cash flow, the market price per share of our common stock and our ability to satisfy our debt service obligations and to make distributions to our stockholders could be materially and adversely affected.

Risks Related to The Formation Transactions and Conflicts of Interest

Our Executive Chairman, Mr. Boekelheide, and other members of our management team exercised significant influence with respect to the terms of the formation transactions, including transactions in which they determined the compensation they would receive.

The number of OP units issuable by our operating partnership in the formation transactions was determined by our management team based on its valuation of our predecessor and the hotels owned by Summit of Scottsdale. In each case, the assumed value per OP unit is equal to the mid-point of the anticipated initial public offering price range of our common stock shown on the cover of this prospectus. Our management team determined the value of our predecessor and the Scottsdale hotels by considering various valuation factors and methodologies, including an analysis of available third-party valuations on some of the hotels, market sales comparables, market capitalization rates and general market conditions for similar hotel companies and publicly traded lodging REITs. The numbers of OP units issuable in the formation transactions are fixed. As a result, if the initial public offering price for our common stock is higher or lower than the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus, the value of the OP units to be issued in the formation transactions will increase or decrease accordingly.

Both we and our predecessor have sought to structure the formation transactions so as to minimize potential conflicts of interest, including by appointing a special committee of our predecessor s independent managers to review the terms of the proposed merger of our predecessor into our operating partnership. However, we did not conduct arm s-length negotiations with our predecessor s members or the members of Summit of Scottsdale with respect to the terms of the formation transactions, including the merger. Our Executive Chairman, Mr. Boekelheide, and his affiliates, including The Summit Group, have substantial, pre-existing ownership interests in our predecessor and Summit of Scottsdale. In addition, Mr. Aniszewski, our Executive Vice President and Chief Operating Officer, has a pre-existing ownership interest in our predecessor. Both Mr. Boekelheide and Mr. Aniszewski sat on the board of managers of our predecessor that approved the terms of the formation transactions. In the course of structuring the formation transactions, Mr. Boekelheide and Mr. Aniszewski had the ability to influence the type and level of benefits they will receive from us. In addition, although our predecessor s special committee received a fairness opinion from an independent third-party financial advisor that is not one of the underwriters of this offering with respect to the fairness, from a financial point of view, of the merger consideration to the former members of our predecessor, assuming that the value of the OP units issued as the merger consideration was between $140 million and $160 million, we did not obtain a fairness opinion with respect to the fairness of the merger consideration to us and we did not obtain recent third-party appraisals for all of the hotels to be acquired by us in the formation transactions. As a result, the consideration to be paid by us to the members of our predecessor in the merger and the acquisition of the 49% ownership interest in the two Scottsdale hotels may exceed the fair market value of the hotels and other assets being acquired by us in the formation transactions.

The value of the aggregate consideration to be issued in the formation transactions is based on the initial public offering price of our common stock, which will be determined in consultation with the underwriters and does not necessarily bear any relationship to the book value or the fair market value of the hotels to be acquired by us in the formation transactions. As a result, the consideration being paid by us in exchange for the hotels in our initial portfolio may exceed the aggregate fair market value of those assets.

We are assuming liabilities in connection with the formation transactions, including unknown liabilities, which, if significant, could adversely affect our business.

As part of the formation transactions, we will assume existing liabilities of our predecessor and its affiliates, including, but not limited to, liabilities in connection with our hotels, some of which may be unknown or

unquantifiable at the time this offering is completed. Unknown liabilities might include liabilities for cleanup or remediation of undisclosed environmental conditions, claims of hotel guests, vendors or other persons dealing with our predecessor, The Summit Group, and their affiliates prior to this offering, tax liabilities, employment-related issues and accrued but unpaid liabilities whether incurred in the ordinary course of business or otherwise. If the magnitude of such unknown liabilities is high, they could adversely affect our business, financial condition, results of operations and cash flow, the market price per share of our common stock and our ability to satisfy our debt service obligations and to make distributions to our stockholders.

Table of Contents

Upon completion of this offering and the formation transactions, our Executive Chairman, Mr. Boekelheide, and his affiliates may be able to exercise significant influence over us and our affairs and any matter presented to our stockholders, and their interests may differ from the interests of the other limited partners of our operating partnership, including us, and our stockholders.

Upon completion of this offering and the formation transactions, our Executive Chairman, Mr. Boekelheide, and his affiliates, including The Summit Group, will hold an aggregate of more than 1.5 million OP units in our operating partnership, which if redeemed for shares of our common stock in accordance with our operating partnership s agreement, would represent approximately % of our outstanding common stock upon completion of this offering on a fully diluted basis.

As a result, Mr. Boekelheide and his affiliates may be able to exercise significant influence over us and our operating partnership and any matter presented to our stockholders and the limited partners of our operating partnership for their consideration and approval. The interests of Mr. Boekelheide and his affiliates may differ from or conflict with the interests of our stockholders and the other limited partners of our operating partnership.

Tax consequences to holders of OP units upon a sale or refinancing of our hotels may cause the interests of holders of OP units, including certain of our executive officers and directors, to differ from the interests of our other stockholders.

As a result of the unrealized built-in gain that may be attributable to one or more of our hotels, holders of OP units, including certain of our executive officers and directors, may experience more onerous tax consequences than holders of our common stock upon the sale or refinancing of these hotels, including disproportionately greater allocations of items of taxable income and gain upon the occurrence of such an event. The tax protection agreements that we will offer to enter into with certain former members of our predecessor, including our Executive Vice President and Chief Operating Officer, Craig J. Aniszewski, and The Summit Group, which is wholly owned by our Executive Chairman, Kerry W. Boekelheide, will not provide protection from those more onerous tax consequences. A holder of OP units that receives a disproportionately greater allocation of taxable income and gain will not receive a correspondingly greater distribution of cash proceeds with which to pay the income taxes on such income. Accordingly, they may have different objectives regarding the appropriate pricing, timing and other material terms of any sale or refinancing of such hotels and could exercise their influence over our affairs by attempting to delay, defer or prevent a transaction that might otherwise be in the best interests of our stockholders.

Our tax protection agreements may require us to maintain certain debt levels that otherwise would not be required to operate our business, which may impair our ability to generate cash available for distribution and otherwise not be in your best interests.

Our operating partnership will offer to enter into tax protection agreements with a limited number of the members of our predecessor, including The Summit Group and Mr. Aniszewski, to protect those members from recognizing taxable gain in connection with the formation transactions. Under the tax protection agreements, our operating partnership will provide those former members of our predecessor with the opportunity to guarantee debt or enter into a deficit restoration obligation, both of which are intended to prevent the former members of our predecessor from recognizing a taxable deemed cash distribution. If our operating partnership fails to make those opportunities available, it will be required to deliver to each such former member a cash payment intended to approximate the former member s tax liability resulting from its failure to make such opportunities available to them. These obligations may require us to maintain more or different indebtedness than would otherwise have been required for our business, which could result in higher interest expense than we would prefer to incur, reducing cash available for distribution to shareholders.

Our fiduciary duties as the general partner of our operating partnership could create conflicts of interest.

Upon completion of this offering and the formation transactions, we, as the sole general partner of our operating partnership, will have fiduciary duties to our operating partnership s limited partners, the discharge of which may conflict with the interests of our stockholders. The limited partners of our operating partnership have agreed that, in the event of a conflict between the duties owed by our directors to our company and the duties that we owe, in our capacity as the sole general partner of our operating partnership, to the limited partners, our directors are under no obligation to give priority to the interests of the limited partners. In addition, those persons holding OP units will have the right to vote on certain amendments to the limited partnership agreement (which require approval by a majority in interest of the limited partners, including us) and individually to approve certain amendments that would adversely affect their rights, as well as the right to

---

vote on mergers and consolidations of the general partner or us in certain limited circumstances. These voting rights may be exercised in a manner that conflicts with the interests of our stockholders. For example, we cannot adversely affect the limited partners rights to receive distributions, as set forth in the limited partnership agreement, without their consent, even though modifying such rights might be in the best interest of our stockholders generally.

Certain key members of our senior management team will continue to be involved in other businesses, which may interfere with their ability to devote time and attention to our business and affairs.

We will rely on our senior management team, including Mr. Boekelheide, for the day-to-day operations of our business. Following completion of this offering, Mr. Boekelheide and other key members of our senior management team, including Messrs. Hansen and Aniszewski, will continue to serve as executive officers of The Summit Group. The Summit Group will continue to manage one hotel that is not owned by us, a Comfort Suites located in Tucson, Arizona. Our employment agreement with Mr. Boekelheide requires him to devote a substantial portion of his business time and attention to our business and our employment agreements with our other executive officers require our executives to devote substantially all of their business time and attention to our business. In addition, Mr. Boekelheide, as well as our Executive Vice President and Chief Financial Officer, Mr. Becker, and our Vice President of Acquisitions, Mr. Bertucci, will continue to serve as officers of Summit Green Tiger Investments, LLC, or Summit Green Tiger. Summit Green Tiger co-manages two private investment funds, which own a total of six multi-family properties. We will not compete with these funds for investment opportunities. These outside business interests may reduce the amount of time that Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci are able to devote to our business. For more information, see Certain Relationships and Related Party Transactions Outside Business Interests.

Risks Related to Our Organization and Structure

Provisions of our charter may limit the ability of a third party to acquire control of us by authorizing our board of directors to issue additional securities.

Our board of directors may, without stockholder approval, amend our charter to increase or decrease the aggregate number of our shares or the number of shares of any class or series that we have the authority to issue and to classify or reclassify any unissued shares of common stock or preferred stock, and set the preferences, rights and other terms of the classified or reclassified shares. As a result, our board of directors may authorize the issuance of additional shares or establish a series of common or preferred stock that may have the effect of delaying or preventing a change in control of our company, including transactions at a premium over the market price of our shares, even if stockholders believe that a change in control is in their interest. These provisions, along with the restrictions on ownership and transfer contained in our charter and certain provisions of Maryland law described below, could discourage unsolicited acquisition proposals or make it more difficult for a third party to gain control of us, which could adversely affect the market price of our securities. See Certain Provisions of Maryland Law and of Our Charter and Bylaws.

Provisions of Maryland law may limit the ability of a third party to acquire control of us by requiring our board of directors or stockholders to approve proposals to acquire our company or effect a change in control.

Certain provisions of the Maryland General Corporation Law, or the MGCL, applicable to Maryland corporations may have the effect of inhibiting a third party from making a proposal to acquire us or of impeding a change in control under circumstances that otherwise could provide our common stockholders with the opportunity to realize a premium over the then-prevailing market price of such shares, including:

§

business combination provisions that, subject to limitations, prohibit certain business combinations between us and an interested stockholder (defined generally as any person who beneficially owns 10% or more of the voting power of our outstanding voting stock or an affiliate or associate of us who, at any time within the two-year period immediately prior to the date in question, was the beneficial owner of 10% or more of the voting power of our then outstanding stock) or an affiliate of any interested stockholder for five years after the most recent date on which the stockholder becomes an interested stockholder, and thereafter imposes two super-majority stockholder voting requirements on these combinations, unless, among other conditions, our common stockholders receive a minimum price, as defined in the MGCL, for their stock and the consideration is received in cash or in the same form as previously paid by the interested stockholder for its shares; and

§ control share provisions that provide that our control shares (defined as voting shares of stock which, when aggregated with all other shares of stock controlled by the stockholder, entitle the stockholder to exercise one of three increasing ranges of voting power in electing directors) acquired in a control share acquisition (defined as

the direct or indirect acquisition of ownership or control of issued and outstanding control shares) have no voting rights except to the extent approved by our stockholders by the affirmative vote of at least two-thirds of all the votes entitled to be cast on the matter, excluding shares owned by the acquirer, by our officers or by our employees who are also directors of our company.

By resolution of our board of directors, we have opted out of the business combination provisions of the MGCL and provided that any business combination between us and any other person is exempt from the business combination provisions of the MGCL, provided that the business combination is first approved by our board of directors (including a majority of directors who are not affiliates or associates of such persons). In addition, pursuant to a provision in our bylaws, we have opted out of the control share provisions of the MGCL. However, our board of directors may by resolution elect to opt in to the business combination provisions of the MGCL and we may, by amendment to our bylaws, opt in to the control share provisions of the MGCL in the future.

Our rights and the rights of our stockholders to take action against our directors and officers are limited, which could limit your recourse in the event of actions not in your best interests.

Under Maryland law, generally, a director will not be liable if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. In addition, our charter limits the liability of our directors and officers to us and our stockholders for money damages, except for liability resulting from:

§ actual receipt of an improper benefit or profit in money, property or services; or

§ active and deliberate dishonesty by the director or officer that was established by a final judgment as being material to the cause of action adjudicated.

Our charter authorizes us to indemnify our directors and officers for actions taken by them in those capacities to the maximum extent permitted by Maryland law. Our bylaws require us to indemnify each director and officer, to the maximum extent permitted by Maryland law, in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service to us. In addition, we may be obligated to advance the defense costs incurred by our directors and officers. As a result, we and our stockholders may have more limited rights against our directors and officers than might otherwise exist absent the current provisions in our charter and bylaws or that might exist with other companies.

Our charter contains provisions that make removal of our directors difficult, which could make it difficult for our stockholders to effect changes to our management.

Our charter provides that a director may be removed only for cause (as defined in our charter) and then only by the affirmative vote of holders of shares entitled to cast at least two-thirds of all the votes entitled to be cast generally in the election of directors. Our charter also provides that vacancies on our board of directors may be filled only by a majority of the remaining directors in office, even if less than a quorum. These requirements prevent stockholders from removing directors except for cause and with a substantial affirmative vote and from replacing directors with their own nominees and may prevent a change in control of our company that is in the best interests of our stockholders.

The ability of our board of directors to change our major policies without the consent of stockholders may not be in your interest.

Our board of directors determines our major policies, including policies and guidelines relating to our acquisitions, leverage, financing, growth, operations and distributions to stockholders. Our board may amend or revise these and other policies and guidelines from time to time without the vote or consent of our stockholders. Accordingly, our stockholders will have limited control over changes in our policies and those changes could adversely affect our financial condition, results of operations, the market price of our common stock and our ability to make distributions to our stockholders.

The ability of our board of directors to revoke our REIT qualification without shareholder approval may cause adverse consequences to our shareholders.

Our charter provides that our board of directors may revoke or otherwise terminate our REIT election, without the approval of our stockholders, if it determines that it is no longer in our best interest to continue to qualify as a REIT. If we cease to be a REIT, we would become subject to federal income tax on our taxable income and would no longer be required to distribute most of our taxable income to our stockholders, which may have adverse consequences on the total return to our stockholders.

Table of Contents

We are a holding company with no direct operations. As a result, we will rely on funds received from our operating partnership to pay liabilities and dividends, our stockholders claims will be structurally subordinated to all liabilities of our operating partnership and our stockholders will not have any voting rights with respect to our operating partnership activities, including the issuance of additional OP units.

We are a holding company and will conduct all of our operations through our operating partnership. We do not have, apart from our ownership of our operating partnership, any independent operations. As a result, we will rely on distributions from our operating partnership to pay any dividends we might declare on shares of our common stock. We will also rely on distributions from our operating partnership to meet any of our obligations, including tax liability on taxable income allocated to us from our operating partnership (which might make distributions to us that do not equal to the tax on such allocated taxable income).

In addition, because we are a holding company, stockholders claims will be structurally subordinated to all existing and future liabilities and obligations (whether or not for borrowed money) of our operating partnership and its subsidiaries. Therefore, in the event of our bankruptcy, liquidation or reorganization, claims of our stockholders will be satisfied only after all of our and our operating partnership s and its subsidiaries liabilities and obligations have been paid in full.

After giving effect to this offering, we will own approximately % of the partnership interests in our operating partnership, or % if the underwriters exercise their over-allotment option in full. In addition, our operating partnership may issue additional OP units in the future. Such issuances could reduce our ownership percentage in our operating partnership. Because our common stockholders will not directly own any OP units, they will not have any voting rights with respect to any such issuances or other partnership level activities of our operating partnership.

Risks Related to Ownership of Our Common Stock and this Offering

There is currently no market for our common stock and a market for our common stock may not develop, which could adversely affect the liquidity and price of our common stock.

Prior to this offering, there has not been a public market for our common stock, and we cannot assure you that a regular trading market for the common stock offered hereby will develop or, if developed, that any such market will be sustained. In the absence of a public trading market, an investor may be unable to liquidate an investment in our common stock. The initial public offering price has been determined by us and the underwriters. We cannot assure you that the price at which the common stock will sell in the public market after the closing of the offering will not be lower than the price at which it is sold by the underwriters.

The NYSE or another nationally recognized exchange may not continue to list our securities, which could limit investors ability to make transactions in our securities and subject us to additional trading restrictions.

We intend to apply to list our common stock on the NYSE under the symbol INN. If we are approved for listing on the NYSE, in order to remain listed we will be required to meet the continued listing requirements of the NYSE or, in the alternative, any other nationally recognized exchange to which we apply. We may be unable to satisfy those listing requirements, and there is no guarantee our securities will remain listed on a nationally recognized exchange. If our securities are delisted from the NYSE or another nationally recognized exchange, we could face significant material adverse consequences, including:

- § a limited availability of market quotations for our securities;
- § reduced liquidity with respect to our securities;

§ a determination that our common stock is penny stock, which will require brokers trading in our common stock to adhere to more stringent rules, possibly resulting in a reduced level of trading activity in the secondary trading market for the common stock;

§ a limited amount of news and analyst coverage; and

§ a decreased ability to issue additional securities or obtain additional financing in the future.

The cash available for distribution may not be sufficient to make distributions at expected levels, and we cannot assure you of our ability to make distributions in the future. We may use borrowed funds or funds from other sources to make distributions, which may adversely impact our operations.

We intend to make distributions to our common stockholders and holders of OP units. Distributions declared by us will be authorized by our board of directors in its sole discretion out of funds legally available for distribution and will

Table of Contents

depend upon a number of factors, including restrictions under applicable law and the capital requirements of our company. All distributions will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, the requirements for qualification as a REIT and other factors as our board of directors may deem relevant from time to time. We may be required to fund distributions from working capital, borrowings under the credit facility we anticipate obtaining following completion of this offering, proceeds of this offering or a sale of assets to the extent distributions exceed earnings or cash flows from operations. Funding distributions from working capital would restrict our operations. If we borrow from the credit facility we anticipate obtaining following completion of this offering in order to pay distributions, we would be more limited in our ability to execute our strategy of using that credit facility to fund acquisitions. Finally, selling assets may require us to dispose of assets at a time or in a manner that is not consistent with our disposition strategy. If we borrow to fund distributions, our leverage ratios and future interest costs would increase, thereby reducing our earnings and cash available for distribution from what they otherwise would have been. We may not be able to make distributions in the future. In addition, some of our distributions may be considered a return of capital for income tax purposes. If we decide to make distributions in excess of our current and accumulated earnings and profits, such distributions would generally be considered a return of capital for federal income tax purposes to the extent of the holder s adjusted tax basis in their shares. A return of capital is not taxable, but it has the effect of reducing the holder s adjusted tax basis in its investment. If distributions exceed the adjusted tax basis of a holder s shares, they will be treated as gain from the sale or exchange of such stock.

We may change the distribution policy for our common stock in the future.

The decision to declare and make distributions on our common stock in the future, as well as the timing, amount and composition of any such future distributions, will be at the sole discretion of our board of directors and will depend on our earnings, funds from operations, liquidity, financial condition, capital requirements or contractual prohibitions, the annual distribution requirements under the REIT provisions of the Code, state law and such other factors as our board of directors deems relevant. While the statements under Distribution Policy reflect our current intentions, the actual distribution payable will be determined by our board of directors based upon the circumstances at the time of declaration and the actual distribution payable may vary from such expected amounts. Any change in our distribution policy could have a material adverse effect on the market price of our common stock.

We may use a portion of the net proceeds from this offering to make distributions to our stockholders, if necessary to permit us to satisfy the requirements for qualification as a REIT and eliminate federal income and excise taxes that otherwise would be imposed on us, which would, among other things, reduce our cash available for investing.

We may fund our distributions to our stockholders, if necessary to permit us to satisfy the requirements for qualification as a REIT and eliminate federal income and excise taxes that otherwise would be imposed on us, out of the net proceeds of this offering, which would reduce the amount of cash we have available for investing and other purposes. The use of the net proceeds to fund distributions could be dilutive to our financial results. In addition, funding distributions from the net proceeds may constitute a return of capital to our investors, which would have the effect of reducing each stockholder s basis in its shares of our common stock.

The market price of our common stock may be volatile due to numerous circumstances beyond our control.

The trading prices of equity securities issued by REITs and other real estate companies historically have been affected by changes in market interest rates. One of the factors that may influence the price of our common stock is the annual yield from distributions on our common stock as compared to yields on other financial instruments. An increase in market interest rates, or a decrease in our distributions to stockholders, may lead prospective purchasers of our common stock to demand a higher annual yield, which could reduce the market price of our common stock.

Other factors that could affect the market price of our common stock include the following:

§ actual or anticipated variations in our quarterly results of operations;

§ changes in market valuations of companies in the lodging industry;

§ changes in expectations of future financial performance or changes in estimates of securities analysts;

§ fluctuations in stock market prices and volumes;

§ our issuances of common stock or other securities in the future;

§ the inclusion of our common stock in equity indices, which could induce additional purchases;

- the addition or departure of key personnel;
- announcements by us or our competitors of acquisitions, investments or strategic alliances; and
- unforeseen events beyond our control, such as terrorist attacks, travel related health concerns including pandemics and epidemics such as H1N1 influenza (swine flu), avian bird flu and SARS, political instability, regional hostilities, increases in fuel prices, imposition of taxes or surcharges by regulatory authorities and travel-related accidents and unusual weather patterns, including natural disasters such as hurricanes.

The market s perception of our growth potential and our current and potential future cash distributions, whether from operations, sales or refinancings, as well as the real estate market value of the underlying assets, may cause our common stock to trade at prices that differ from our net asset value per share. If we retain operating cash flow for investment purposes, working capital reserves or other purposes, these retained funds, while increasing the value of our underlying assets, may not correspondingly increase the market price of our common stock. Our failure to meet the market s expectations with regard to future earnings and distributions likely would adversely affect the market price of our common stock.

The trading market for our common stock will rely in part on the research and reports that industry or financial analysts publish about us or our business. We do not control these analysts. Furthermore, if one or more of the analysts who do cover us downgrades our stock or our industry, or the stock of any of our competitors, the price of our common stock could decline. If one or more of these analysts ceases coverage of our company, we could lose attention in the market, which in turn could cause the price of our common stock to decline.

The offering price per share of common stock offered under this prospectus may not accurately reflect the value of your investment.

Prior to this offering there has been no market for our common stock. The offering price of the common stock offered by this prospectus was negotiated between us and the representatives. Factors considered in determining the prices of our common stock include:

- the history of, and prospects for, us and the industry in which we compete;
- an assessment of our management;
- the prospects for our future earnings;
- the prevailing conditions of the applicable United States securities market at the time of this offering;
- market valuations of publicly traded companies that we and the underwriters believe to be comparable to us; and
- other factors as were deemed relevant.

The offering price may not accurately reflect the value of the common stock and may not be realized upon any subsequent disposition of the shares.

If you purchase shares of common stock in this offering, you will experience immediate dilution.

We expect the initial public offering price of our common stock to be higher than the book value per share of our outstanding common stock following completion of this offering and the application of the net proceeds. If you purchase shares of common stock in this offering, you will experience immediate dilution. This means that the investors who purchase shares of common stock in this offering will likely pay a price per share that exceeds the book value of our assets after subtracting our liabilities. See Dilution.

The number of shares of our common stock available for future sale could adversely affect the market price per share of our common stock, and future sales by us of shares of our common stock or issuances by our operating partnership of OP units may be dilutive to existing stockholders.

Sales of substantial amounts of shares of our common stock in the public market, or upon exchange of OP units or exercise of any equity awards, or the perception that such sales might occur could adversely affect the market price per share of our common stock. The exercise of the underwriters over-allotment option, the exchange of OP units for common stock, the vesting of any equity-based awards granted to certain directors, executive officers and other employees under the 2010 Equity Incentive Plan, the issuance of our common stock or OP units in connection with hotel, portfolio or business acquisitions and other issuances of our common stock or OP units could have an adverse effect on the market price of the shares of our common stock.

Holders of OP units, which are redeemable for cash or, at our operating partnership s option, shares of our common stock on a one-for-one basis, have registration rights with respect to a substantial amount of our common stock. These

Table of Contents

registration rights, which require us to prepare, file and have declared effective a resale registration statement permitting the public resale of any shares issued upon redemption of OP units, could result in a significant amount of sales of our common stock in a short period of time or the perception that a substantial amount of sales may occur, either or both of which could depress the market price per share of our common stock. The existence of these OP units, as well as additional OP units that may be issued in the future, and shares of our common stock reserved for issuance under the 2010 Equity Incentive Plan and any related resales may adversely affect the market price per share of our common stock and the terms upon which we may be able to obtain additional capital through the sale of equity securities. In addition, future sales by us of shares of our common stock may be dilutive to existing stockholders.

Future borrowings, offerings of debt securities, which would be senior to our common stock upon liquidation, and/or issuances of equity securities (including OP units), which may be dilutive to our existing stockholders and be senior to our common stock for purposes of dividend distributions or upon liquidation, may materially and adversely affect the market price of our common stock.

In the future we may borrow money from lenders, offer debt securities and/or issue equity securities, including OP units or preferred shares that may be senior to our common stock for purposes of dividend distributions or upon liquidation. We are also in discussions to obtain commitments from a lending syndicate for a credit facility that we anticipate will be in place at or following completion of this offering. Upon liquidation, holders of our debt securities and our preferred shares and lenders with respect to other borrowings will receive distributions of our available assets prior to the holders of our common stock. Holders of our common stock are not entitled to preemptive rights or other protections against us borrowing money in the future or offering senior debt or equity securities. Therefore, additional common share issuances, directly or through convertible or exchangeable securities (including OP units), warrants or options, will dilute the holdings of our existing common stockholders and such issuances or the perception of such issuances may reduce the market price of our common stock. In addition, our preferred shares, if issued, could have a preference on liquidating distributions and a preference on dividend payments that could limit our ability to pay a dividend or make another distribution to the holders of our common stock. Because our decision to borrow money or issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our stockholders bear the risk of our future offerings reducing the market price of our common stock and diluting their interest in us.

The consolidated financial statements of our predecessor and our unaudited pro forma financial statements may not be indicative of our future results or an investment in our common stock.

The consolidated financial statements of our predecessor and our unaudited pro forma financial statements that are included in this prospectus do not necessarily reflect what our results of operations, financial position or cash flows would have been had we been an independent entity during the periods presented. Furthermore, this financial information is not necessarily indicative of what our results of operations, financial position or cash flows will be in the future. It is impossible for us to accurately estimate all adjustments reflecting all the significant changes that will occur in our cost structure, funding and operations as a result of our being a publicly traded REIT. For additional information, see Selected Financial Data and the consolidated financial statements of our predecessor and our unaudited pro forma financial statements, as well as Management s Discussion and Analysis of Financial Condition and Results of Operations, appearing elsewhere in this prospectus.

Risks Related to Our Status as a REIT

Failure to qualify as a REIT, or failure to remain qualified as a REIT, would cause us to be taxed as a regular corporation, which would substantially reduce funds available for distributions to our stockholders.

We believe that our organization and proposed method of operation will enable us to meet the requirements for qualification and taxation as a REIT commencing with our short taxable year ending December 31, 2010. However, we cannot assure you that we will qualify and remain qualified as a REIT. In connection with this offering, we will receive an opinion from Hunton & Williams LLP that, commencing with our short taxable year ending December 31, 2010, we will be organized in conformity with the requirements for qualification and taxation as a REIT under the federal income tax laws and our proposed method of operations will enable us to satisfy the requirements for qualification and taxation as a REIT under the federal income tax laws for our short taxable year ending December 31, 2010 and subsequent taxable years. Investors should be aware that Hunton & Williams LLP s opinion is based upon customary assumptions, will be conditioned upon certain representations made by us as to factual matters, including representations regarding the nature of our assets

and the conduct of our business, is not binding upon the Internal Revenue Service, or the IRS, or any court, and speaks as of the date issued. In addition, Hunton & Williams LLP s opinion will be based on existing federal income tax law governing qualification as a REIT, which is subject to change either prospectively or retroactively. Moreover, our qualification and taxation as a REIT depend upon our ability to meet on a continuing basis, through actual annual operating results, certain qualification tests set forth in the federal tax laws. Hunton & Williams LLP will not review our compliance with those tests on a continuing basis. Accordingly, no assurance can be given that our actual results of operations for any particular taxable year will satisfy such requirements.

If we fail to qualify as a REIT in any taxable year, we will face serious tax consequences that will substantially reduce the funds available for distributions to our stockholders because:

§ we would not be allowed a deduction for dividends paid to stockholders in computing our taxable income and would be subject to federal income tax at regular corporate rates;

§ we could be subject to the U.S. federal alternative minimum tax and possibly increased state and local taxes; and

§ unless we are entitled to relief under certain federal income tax laws, we could not re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT.

In addition, if we fail to qualify as a REIT, we will no longer be required to make distributions. As a result of all these factors, our failure to qualify as a REIT could impair our ability to expand our business and raise capital, and it would adversely affect the value of our common stock. See Material Federal Income Tax Considerations for a discussion of material federal income tax consequences relating to us and our common stock.

Even if we qualify as a REIT, we may face other tax liabilities that reduce our cash flows.

Even if we qualify for taxation as a REIT, we may be subject to certain federal, state and local taxes on our income and assets, including taxes on any undistributed income, tax on income from some activities conducted as a result of a foreclosure, and state or local income, property and transfer taxes. In addition, our TRSs will be subject to regular corporate federal, state and local taxes. Any of these taxes would decrease cash available for distributions to stockholders.

Failure to make required distributions would subject us to federal corporate income tax.

We intend to operate in a manner so as to qualify as a REIT for federal income tax purposes. In order to qualify as a REIT, we generally are required to distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain, each year to our stockholders. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our REIT taxable income, we will be subject to federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under the Code.

REIT distribution requirements could adversely affect our liquidity and may force us to borrow funds or sell assets during unfavorable market conditions.

In order to satisfy our qualification as a REIT and to meet the REIT distribution requirements, we may need to borrow funds on a short-term basis or sell assets, even if the then-prevailing market conditions are not favorable for these borrowings or sales. Our cash flows from operations may be insufficient to fund required distributions as a result of

differences in timing between the actual receipt of income and the recognition of income for federal income tax purposes, or the effect of non-deductible capital expenditures, the creation of reserves or required debt service or amortization payments. For example, we may be required to accrue income from mortgage loans and other types of debt instruments that we may acquire before we receive any payments of interest or principal on such assets. We may also acquire distressed debt investments that are subsequently modified or foreclosed upon, which could result in significant taxable income without any corresponding cash payment. See Material Federal Income Tax Considerations. The insufficiency of our cash flows to cover our distribution requirements could have an adverse impact on our ability to raise short- and long-term debt or sell equity securities in order to fund distributions required to maintain our qualification as a REIT. Also, although the IRS has issued Revenue Procedure 2010-12 sanctioning certain issuances of taxable stock dividends by REITs under certain circumstances for taxable years ending on or before December 31, 2011, no assurance can be given that the IRS will extend this treatment or that we will otherwise be able to pay taxable stock dividends to meet our REIT distribution requirements.

The formation of our TRSs and TRS lessees increases our overall tax liability.

Summit TRS and any other of our domestic TRSs will be subject to federal, state and local income tax on their taxable income, which will consist of the revenues from the hotels leased by our TRS lessees, net of the operating expenses for such hotels and rent payments to us. Accordingly, although our ownership of our TRS lessees will allow us to participate in the operating income from our hotels in addition to receiving rent, that operating income will be fully subject to income tax. The after-tax net income of our TRS lessees is available for distribution to us. If we have any non-U.S. TRSs, then they may be subject to tax in jurisdictions where they operate.

Our TRS lessee structure subjects us to the risk of increased hotel operating expenses that could adversely affect our operating results and our ability to make distributions to stockholders.

Our leases with our TRS lessees will require our TRS lessees to pay us rent based in part on revenues from our hotels. Our operating risks include decreases in hotel revenues and increases in hotel operating expenses, including but not limited to the increases in wage and benefit costs, repair and maintenance expenses, energy costs, property taxes, insurance costs and other operating expenses, which would adversely affect our TRS lessees ability to pay us rent due under the leases.

Increases in these operating expenses can have a significant adverse impact on our financial condition, results of operations, the market price of our common shares and our ability to make distributions to our stockholders.

Our ownership of our TRSs will be subject to limitations and our transactions with our TRSs will cause us to be subject to a 100% penalty tax on certain income or deductions if those transactions are not conducted on arm s-length terms.

Overall, no more than 25% of the value of a REIT s assets may consist of stock or securities of one or more TRSs. In addition, the Code limits the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. The Code also imposes a 100% excise tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm s-length basis. The 100% tax would apply, for example, to the extent that we were found to have charged our TRS lessees rent in excess of an arm s-length rent. Furthermore, we will monitor the value of our respective investments in our TRSs for the purpose of ensuring compliance with TRS ownership limitations and will structure our transactions with our TRSs on terms that we believe are arm s-length to avoid incurring the 100% excise tax described above. There can be no assurance, however, that we will be able to comply with the 25% TRS limitation or to avoid application of the 100% excise tax.

If the leases of our hotels to the TRS lessees are not respected as true leases for federal income tax purposes, we will fail to qualify as a REIT.

To qualify as a REIT, we must annually satisfy two gross income tests, under which specified percentages of our gross income must be derived from certain sources, such as rents from real property. Rents paid to our operating partnership by TRS lessees pursuant to the leases of our hotels will constitute substantially all of our gross income. In order for such rent to qualify as rents from real property for purposes of the gross income tests, the leases must be respected as true leases for federal income tax purposes and not be treated as service contracts, financing arrangements, joint ventures or some other type of arrangement. If our leases are not respected as true leases for federal income tax purposes, we will fail to qualify as a REIT.

If our operating partnership is treated as a publicly traded partnership taxable as a corporation for federal income tax purposes, we will cease to qualify as a REIT.

Although Hunton & Williams LLP, our tax counsel, is of the opinion that our operating partnership will be treated as a partnership for federal income tax purposes, no assurance can be given that the IRS will not successfully challenge that position. If the IRS were to successfully contend that our operating partnership should be treated as a publicly traded partnership taxable as a corporation, we would fail to meet the 75% gross income test and certain of the asset tests applicable to REITs and, unless we qualified for certain statutory relief provisions, we would cease to qualify as a REIT. Also, our operating partnership would become subject to U.S. federal, state and local income tax, which would reduce significantly the amount of cash available for debt service and for distribution to us.

If or any other hotel management companies that we may engage in the future do not qualify as eligible independent contractors, or if our hotels are not qualified lodging facilities, we will fail to qualify as a REIT.

Rent paid by a lessee that is a related party tenant of ours will not be qualifying income for purposes of the two gross income tests applicable to REITs. An exception is provided, however, for leases of qualified lodging facilities to a TRS so long as the hotels are managed by an eligible independent contractor and certain other requirements are satisfied. We expect to lease all or substantially all of our hotels to TRS lessees and to engage and, in the future, other hotel management companies that are intended to qualify as eligible independent contractors. Among other requirements, in order to qualify as an eligible independent contractor, the hotel manager must not own, directly or through its stockholders, more than 35% of our outstanding shares, and no person or group of persons can own more than 35% of our outstanding shares and the shares (or ownership interest) of the hotel manager, taking into account certain ownership attribution rules. The ownership attribution rules that apply for purposes of these 35% thresholds are complex, and monitoring actual and constructive ownership of our shares by our hotel managers and their owners may not be practical. Accordingly, there can be no assurance that these ownership levels will not be exceeded.

In addition, for a hotel management company to qualify as an eligible independent contractor, such company or a related person must be actively engaged in the trade or business of operating qualified lodging facilities (as defined below) for one or more persons not related to the REIT or its TRSs at each time that such company enters into a hotel management contract with a TRS or its TRS lessee. As of the date hereof, we believe operates qualified lodging facilities for certain persons who are not related to us or our TRS. However, no assurances can be provided that or any other hotel managers that we may engage in the future will in fact comply with this requirement. Failure to comply with this requirement would require us to find other managers for future contracts, and, if we hired a management company without knowledge of the failure, it could jeopardize our status as a REIT.

Finally, each property with respect to which our TRS lessees pay rent must be a qualified lodging facility. A qualified lodging facility is a hotel, motel or other establishment more than one-half of the dwelling units in which are used on a transient basis, including customary amenities and facilities, provided that no wagering activities are conducted at or in connection with such facility by any person who is engaged in the business of accepting wagers and who is legally authorized to engage in such business at or in connection with such facility. As of the date hereof, we believe that the properties that will be leased to our TRS lessees will be qualified lodging facilities. Although we intend to monitor future acquisitions and improvements of properties, REIT provisions of the Code provide only limited guidance for making determinations under the requirements for qualified lodging facilities, and there can be no assurance that these requirements will be satisfied.

We may be subject to adverse legislative or regulatory tax changes that could reduce the market price of our common stock.

At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended. We cannot predict when or if any new federal income tax law, regulation, or administrative interpretation, or any amendment to any existing federal income tax law, regulation or administrative interpretation, will be adopted, promulgated or become effective and any such law, regulation, or interpretation may take effect retroactively. We and our stockholders could be adversely affected by any such change in, or any new, federal income tax law, regulation or administrative interpretation.

You may be restricted from acquiring or transferring certain amounts of our common stock.

The stock ownership restrictions of the Code for REITs and the 9.8% stock ownership limit in our charter may inhibit market activity in our capital stock and restrict our business combination opportunities.

In order to qualify as a REIT for each taxable year after 2010, five or fewer individuals, as defined in the Code, may not own, beneficially or constructively, more than 50% in value of our issued and outstanding stock at any time during the last half of a taxable year. Attribution rules in the Code determine if any individual or entity beneficially or constructively owns our capital stock under this requirement. Additionally, at least 100 persons must beneficially own our capital stock during at least 335 days of a taxable year for each taxable year after 2010. To help insure that we meet these tests, our charter restricts the acquisition and ownership of shares of our capital stock.

Our charter, with certain exceptions, authorizes our directors to take such actions as are necessary and desirable to preserve our qualification as a REIT. Unless exempted by our board of directors, our charter prohibits any person from beneficially or constructively owning more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our capital stock. Our board of directors may not grant an exemption from these restrictions to any proposed transferee whose ownership in excess of 9.8% of the value of our outstanding shares

Table of Contents

would result in our failing to qualify as a REIT. These restrictions on transferability and ownership will not apply, however, if our board of directors determines that it is no longer in our best interest to continue to qualify as a REIT.

Under recently issued IRS guidance, we may pay taxable dividends of our common stock and cash, in which case stockholders may sell shares of our common stock to pay tax on such dividends, placing downward pressure on the market price of our common stock.

Under recently issued IRS guidance, we may distribute taxable dividends that are payable in cash and common stock at the election of each stockholder. Under Revenue Procedure 2010-12, up to 90% of any such taxable dividend paid with respect to our 2010 and 2011 taxable years could be payable in shares of our common stock. Taxable stockholders receiving such dividends will be required to include the full amount of the dividend as ordinary income to the extent of our current and accumulated earnings and profits, as determined for federal income tax purposes. As a result, stockholders may be required to pay income tax with respect to such dividends in excess of the cash dividends received. If a U.S. stockholder sells the common stock that it receives as a dividend in order to pay this tax, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our common stock at the time of the sale. Furthermore, with respect to certain non-U.S. stockholders, we may be required to withhold federal income tax with respect to such dividends, including in respect of all or a portion of such dividend that is payable in common stock. If we utilize Revenue Procedure 2010-12 and a significant number of our stockholders determine to sell shares of our common stock in order to pay taxes owed on dividends, it may put downward pressure on the trading price of our common stock. We do not currently intend to utilize Revenue Procedure 2010-12.

Cautionary Note Regarding Forward-Looking Statements

We make forward-looking statements in this prospectus that are subject to risks and uncertainties. These forward-looking statements include information about possible or assumed future results of our business, financial condition, liquidity, results of operations, cash flow and plans and objectives. When we use the words believe, expect, anticipate, estimate, plan, continue, intend, should, may or similar expressions, we intend to identify forwa statements. Statements regarding the following subjects, among others, may be forward-looking:

§ use of the proceeds of this offering;

§ the state of the U.S. economy generally or in specific geographic regions in which we operate, and the effect of general economic conditions on the lodging industry in particular;

§ market trends in our industry, interest rates, real estate values and the capital markets;

§ our business and investment strategy and, particularly, our ability to identify and complete hotel acquisitions;

§ our projected operating results;

§ actions and initiatives of the U.S. government and changes to U.S. government policies and the execution and impact of these actions, initiatives and policies;

§ our ability to manage our relationships with and other management companies, as well as franchisors;

§ our ability to obtain and maintain financing arrangements;

§ changes in the value of our properties;

§ impact of and changes in governmental regulations, tax law and rates, accounting guidance and similar matters;

§ our ability to satisfy the requirements for qualification as a REIT under the Code;

§ availability of qualified personnel;

§ estimates relating to our ability to make distributions to our stockholders in the future;

§ general volatility of the market price of our common stock; and

§ degree and nature of our competition.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described in this prospectus under the headings Risk Factors, Management s Discussion and Analysis of Financial Condition and Results of Operations and Our Business and Properties. If a change occurs, our business, financial condition, liquidity and results of operations may vary

materially from those expressed in our forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Use of Proceeds

We estimate that the net proceeds to us from the sale by us of shares of common stock in this offering will be approximately $ million, or $ million if the underwriters exercise their over-allotment option in full, after deducting the underwriting discount and estimated offering expenses payable by us of approximately $ million. A $0.50 increase (decrease) in the assumed offering price per share would increase (decrease) net proceeds to us from this offering by $ million, assuming the number of shares offered by us as set forth on the cover of this prospectus remains the same. Any additional proceeds to us resulting from an increase in the public offering price or the number of shares offered pursuant to this prospectus will be used by us as described below. We will contribute the net proceeds of this offering to our operating partnership in exchange for OP units.

We intend to use the net proceeds of this offering as follows: (1) approximately $ million to repay or extinguish existing indebtedness that we will assume upon completion of the formation transactions, including the payment of accrued interest and exit fees related to our repayment of the Fortress Credit Corp. indebtedness described below and the payment of an extinguishment premium and other transaction costs related to the extinguishment of the Lehman Brothers Bank indebtedness described below; (2) approximately $10.0 million to fund capital improvements at our hotels; and (3) the balance for general corporate and working capital purposes, including possible future hotel acquisitions.

Pending the use of the net proceeds, we intend to invest the net proceeds in interest-bearing, short-term investment-grade securities, money-market accounts or other investments that are consistent with our intention to elect and qualify to be taxed as a REIT.

If the underwriters exercise their over-allotment option in full, we expect to use the additional net proceeds to us, which will be approximately $ million in the aggregate, for general working capital purposes, including potential future acquisitions.

The following table sets forth information, as of June 30, 2010, with respect to the indebtedness that we intend to repay in full with a portion of the net proceeds from this offering:

Indebtedness to be Repaid		Outstanding Principal Balance as of June 30, 2010	Interest Rate[1]	Maturity Date
Fortress Credit Corp.	$	85,419,143(2)	30-day LIBOR + 8.75%[3]	March 5, 2011
Lehman Brothers Bank		77,913,380(4)	5.40%	January 11, 2012
Marshall & Ilsley Bank		21,420,178	30-day LIBOR + 3.90%	December 31, 2010
First National Bank of Omaha		20,400,000	90-day LIBOR + 4.00%[5]	July 31, 2011
First National Bank of Omaha		20,002,943(6)	90-day LIBOR + 4.00%[5]	July 31, 2011(6)
Total	**$**	**225,155,644**(7)		

(1) As of June 30, 2010, the 30-day LIBOR rate was 0.35% and the 90-day LIBOR rate was 0.53%.
(2) We will be required to pay an exit fee equal to 1.0% of the outstanding principal balance of the Fortress Credit Corp. indebtedness being repaid. We estimate that the exit fee will be approximately $. After December 31, 2010, the exit fee increases to 1.5% of the outstanding principal balance. From September 8, 2009 to September 20, 2010, we borrowed an aggregate of approximately $3.8 million of this indebtedness from Fortress to pay accrued interest under the Fortress loans.
(3) Interest is paid monthly at the 30-day LIBOR rate plus 5.75%, and additional interest accrues at the annual rate of 30-day LIBOR plus 3.00% and is deferred until the maturity date. As a result, the outstanding principal balance will increase prior to the date of repayment.
(4) We will be required to pay a extinguishment premium and other transaction costs in an amount estimated to be approximately $2.9 million in connection with the extinguishment of the Lehman Brothers Bank indebtedness.
(5) Subject to a minimum interest rate of 5.5%.
(6) On December 31, 2009, we borrowed approximately $12.9 million of this indebtedness from First National Bank of Omaha to fund construction costs of our Aloft hotel in Jacksonville, Florida. Our predecessor has received conditional approval from First National Bank of Omaha to extend the maturity date of the commitment secured by the Aloft hotel from June 8, 2011 to July 31, 2011.
(7) Excludes approximately $ million of prepayment and related fees as described in footnotes (2) and (4) above to be paid with the net proceeds of this offering.

Table of Contents

Capitalization

The following table presents:

§ our predecessor s historical capitalization as of June 30, 2010; and

§ our capitalization as of June 30, 2010 on a pro forma basis, after giving effect to the formation transactions, including this offering and the application of the net proceeds from this offering as described in Use of Proceeds as if each of them had occurred on June 30, 2010.

You should read the following capitalization table in conjunction with Use of Proceeds, Selected Financial and Operating Data, Management s Discussion and Analysis of Financial Condition and Results of Operations and the more detailed information contained in our predecessor s consolidated financial statements and notes thereto included elsewhere in this prospectus.

	As of June 30, 2010	
	Historical Summit Hotel Properties, LLC (Our Predecessor)	Pro Forma Summit Hotel Properties, Inc.[(1)] (unaudited)
	(dollars in thousands)	
Mortgages and notes payable, including current portion	$ 424,596	$
Common stock, $0.01 par value, no shares authorized, issued and outstanding, historical; 500,000,000 shares authorized, shares issued and outstanding, pro forma		
Preferred stock, $0.01 par value, no shares authorized, issued and outstanding, historical; 100,000,000 shares authorized, no shares issued and outstanding, pro forma		
Additional paid-in capital		
Members equity	76,759	
Noncontrolling interest of our predecessor s consolidated subsidiaries	(1,624)	
Noncontrolling interest in our operating partnership		
Total members equity/stockholders equity	75,135	
Total capitalization	$ 499,731	$

(1) Includes: (i) shares of common stock to be sold in this offering; and (ii) an aggregate of shares of common stock to be issued to our independent director nominees pursuant to the 2010 Equity Incentive Plan upon completion of this offering. Excludes: (i) up to shares of common stock issuable by us upon exercise of the underwriters over-allotment option; (ii) an aggregate of shares of common stock issuable upon exercise of

options that we will grant to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci pursuant to the 2010 Equity Incentive Plan upon completion of this offering; (iii) additional shares of common stock available for future issuance under the 2010 Equity Incentive Plan; and (iv) up to 10,100,000 shares of common stock issuable upon redemption of the 10,100,000 OP units to be issued by our operating partnership in the formation transactions.

Table of Contents

Dilution

At June 30, 2010, our pro forma net tangible book value, after giving effect to the formation transactions, but before this offering, was approximately $ million, or $ per share. Pro forma net tangible book value per share is determined by dividing our pro forma net tangible book value (tangible assets less liabilities) by the pro forma total number of shares of our common stock outstanding upon completion of the formation transactions, assuming all the OP units to be issued in the formation transactions are redeemed for shares of our common stock on a one-for-one basis.

After giving effect to the sale by us of shares of our common stock in this offering at an assumed initial public offering price of $ per share, which is the mid-point of the anticipated initial public offering price per share shown on the cover of this prospectus, the deduction of the underwriting discount and the payment of the estimated expenses of this offering and the formation transactions, our pro forma net tangible book value as of June 30, 2010 would have been $ million, or $ per share. This represents an immediate increase in pro forma net tangible book value per share of $ per share to the members of our predecessor and the Class B and Class C members of Summit of Scottsdale receiving OP units in the formation transactions and an immediate dilution of $ per share to new investors in this offering. The following table illustrates this per share dilution:

Assumed initial public offering price per share	$
Pro forma net tangible book value per share as of June 30, 2010, after giving effect to the formation transactions, but before this offering(1)	
Increase in pro forma net tangible book value per share attributable to this offering	$
Pro forma net tangible book value per share after the formation transactions, this offering(2)	
Dilution in pro forma net tangible book value per share to new investors(3)	$

(1) Represents pro forma net tangible book value as of June 30, 2010, after giving effect to the formation transactions, but before this offering, of approximately $ million, divided by the sum of (i) 10,100,000 shares of our common stock, which assumes the 10,100,000 OP units to be issued in the formation transactions to the members of our predecessor and the Class B and Class C members of Summit of Scottsdale are redeemed for shares of our common stock on a one-for-one basis, and (ii) 1,000 shares of common stock purchased by our Executive Chairman, Mr. Boekelheide, in connection with our initial capitalization for $1,000, all of which will be repurchased for $1,000 prior to completion of this offering.

(2) Represents pro forma net tangible book value as of June 30, 2010, after giving effect to the formation transactions, this offering, the deduction of the underwriting discount and the payment of estimated expenses related to this offering and the formation transactions, of approximately $ million, divided by the sum of (i) shares of our common stock to be sold in this offering, (ii) 10,100,000 shares of our common stock, which assumes the 10,100,000 OP units to be issued in the formation transactions to the members of our predecessor and the Class B and Class C members of Summit of Scottsdale are redeemed for shares of our common stock on a one-for-one basis, and (iii) an aggregate of shares of our common stock to be granted to our non-employee directors upon completion of this offering pursuant to the 2010 Equity Incentive Plan. The pro forma total number of shares of our common stock outstanding after the formation transactions and this offering excludes: (i) up to shares of our common stock issuable upon exercise of the underwriters over-allotment option and (ii) an aggregate of shares of our common stock issuable upon exercise of

options to be granted to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci pursuant to the 2010 Equity Incentive Plan upon completion of this offering.

(3) Dilution is determined by subtracting pro forma net tangible book value per share after the formation transactions and this offering from the assumed initial public offering price per share paid by a new investor for a share of our common stock.

The table below summarizes, as of June 30, 2010, on a pro forma basis after giving effect to the formation transactions and this offering, the differences between:

§ the number of OP units to be received by our predecessor s members and the Class B and Class C members of Summit of Scottsdale, or the continuing investors, in the formation transactions and the number of shares of common stock to be received by the new investors purchasing shares in this offering; and

§ the total consideration paid and the average price per OP unit paid by the continuing investors (based on the net tangible book value of the assets being acquired by our operating partnership in the formation transactions) and the total consideration paid and the average price per share paid by the new investors purchasing shares in this offering.

Table of Contents

	OP Units/ Shares Issued		Net Tangible Book Value of Contribution/Cash		Average Price per Share/OP Unit
	Number	Percentage[1]	Amount	Percentage	
Continuing investors	(2)		(3)		
New investors			(4)		
Total					

(1) Represents the percentage of the total number of shares of common stock to be outstanding upon completion of this offering and the formation transaction and assumes all of the 10,100,000 OP units to be issued to the continuing investors in the formation transactions are redeemed for shares of our common stock on a one-for-one basis.

(2) Includes: (i) 10,100,000 shares of common stock, assuming all of the 10,100,000 OP units to be issued to the continuing investors in the formation transactions are redeemed for shares of our common stock on a one-for-one basis and (ii) an aggregate of shares of common stock to be issued to our independent director nominees upon completion of this offering pursuant to the 2010 Equity Incentive Plan. Excludes shares of our common stock issuable upon exercise of options to be granted to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci pursuant to the 2010 Equity Incentive Plan upon completion this offering.

(3) Represents pro forma net tangible book value as of June 30, 2010 of the assets being acquired by our operating partnership in the formation transactions.

(4) Represents the aggregate offering price of the shares offered hereby.

Table of Contents

Distribution Policy

We intend to make regular quarterly cash distributions to our stockholders, as more fully described below. To qualify as a REIT, we must distribute annually to our stockholders an amount at least equal to 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gain. We will be subject to income tax on our taxable income that is not distributed and to an excise tax to the extent that certain percentages of our taxable income are not distributed by specified dates. See Material Federal Income Tax Considerations. Income as computed for purposes of the foregoing tax rules will not necessarily correspond to our income as determined for financial reporting purposes.

The amount, timing and frequency of distributions will be authorized by our board of directors based upon a variety of factors, including:

- actual results of operations;
- our level of retained cash flows;
- the timing of the investment of the net proceeds of this offering;
- any debt service requirements;
- capital expenditure requirements for our properties;
- our taxable income;
- the annual distribution requirements under the REIT provisions of the Code; and
- other factors that our board of directors may deem relevant.

Distributions to stockholders generally will be taxable to our stockholders as ordinary income, although a portion of such distributions may be designated by us as long-term capital gain or may constitute a return of capital. We will furnish annually to each of our stockholders a statement setting forth distributions paid during the preceding year and their federal income tax status. For a discussion of the federal income tax treatment of our distributions, see Material Federal Income Tax Considerations.

We intend to make regular quarterly cash distributions to our stockholders beginning with a pro rata distribution with respect to the period commencing on the date of completion of this offering and ending , based on a rate of $ per share for a full quarter. On an annualized basis, this would equal $ per share, or an annual distribution rate of approximately % based on an assumed initial public offering price at the mid-point of the anticipated initial public offering price range set forth on the cover of this prospectus. We estimate that our initial annual distribution rate will represent approximately % of estimated cash available for distribution for the 12-month period ending . This initial distribution rate is based upon an estimate of cash available for distribution after this offering and completion of the formation transactions, which is calculated based on adjustments to our pro forma net income for the year ended December 31, 2009 as described below. We have estimated cash available for distribution for the sole purpose of determining our initial distribution amount.

Our estimate of cash available for distribution does not include the effect of any changes in our working capital resulting from changes in our working capital accounts. Our estimate also does not reflect the amount of cash estimated to be used for investing activities, such as acquisitions, other than a provision for recurring capital expenditures. It also does not reflect the amount of cash estimated to be used for financing activities. Any acquisitions or other investing activities and financing activities may have a material effect on our estimate of cash available for distribution. Because we have made the assumptions set forth above in estimating cash available for distribution, we do not intend this estimate to be a projection or forecast of our actual results of operations or our liquidity, and have estimated cash available for distribution for the sole purpose of determining the amount of our initial annual distribution rate. Our estimate of cash available for distribution should not be considered as an alternative to cash flow from operating activities (computed in accordance with GAAP) or as an indicator of our liquidity or our ability to make distributions. In addition, the methodology upon which we made the adjustments described below is not necessarily intended to be a basis for determining future distributions.

Distributions made by us will be authorized and determined by our board of directors in its sole discretion out of funds legally available therefor and will be dependent upon a number of factors, including maintaining our status as a REIT, restrictions under applicable law and our loan agreements and other factors described below. We believe that our estimate of cash available for distribution constitutes a reasonable basis for setting the initial distribution rate as most of

the hotel properties in our initial portfolio have been in operation for a significant period of time. However, we cannot assure you that the estimate will prove accurate, and actual distributions may therefore be significantly different from the expected distributions. Actual results of operations, economic conditions or other factors may differ materially from the assumptions used in the estimate. Our actual results of operations will be affected by a number of factors, including the revenue received from our hotels, performance of our property manager, our operating expenses, interest expense (including the effect of variable rate debt), and unanticipated capital expenditures. We may, from time to time, be required, or elect, to borrow funds under our anticipated credit facility or otherwise, sell assets or issue capital stock to pay distributions. Additionally, we may pay future distributions from the proceeds from this offering or other securities offerings.

We anticipate that, at least initially, our distributions will exceed our then-current and then-accumulated earnings and profits as determined for federal income tax purposes due to the write-off of prepayment fees that we expect to pay in respect of the debt we will be retiring from the net proceeds of this offering and non-cash expenses, primarily depreciation and amortization charges that we expect to incur. Therefore, a portion of these distributions may represent a return of capital for federal income tax purposes. Distributions in excess of our current and accumulated earnings and profits will not be taxable to a stockholder under current federal income tax law to the extent those distributions do not exceed the stockholder s adjusted tax basis in his or her common stock. Instead, these distributions will reduce the adjusted tax basis of the common stock. In that case, the gain (or loss) recognized on the sale of that common stock or upon our liquidation will be increased (or decreased) accordingly. To the extent those distributions exceed a stockholder s adjusted tax basis in his or her common stock, they will be treated as a gain from the sale or exchange of the stock. We expect to pay our first distribution in , which will include a payment with respect to the period commencing on the date of completion of this offering and ending . We expect that % of our estimated initial distribution will represent a return of capital for the tax period ending . The percentage of our stockholder distributions (if any) that exceeds our current and accumulated earnings and profits may vary substantially from year to year. For a more complete discussion of the tax treatment of distributions to holders of our common stock, see Material Federal Income Tax Considerations.

We currently expect to maintain our initial distribution rate for the 12-month period following completion of this offering and the formation transactions unless actual results of operations, economic conditions or other factors differ materially from the assumptions used in our estimate. We cannot assure you that our estimated distribution will be made or sustained or that our board of directors will not change our distribution policy in the future. Any distributions we pay in the future will depend upon our actual results of operations, economic conditions, capital expenditure requirements, debt service requirements, including limits on distributions that may be contained in our financing agreements, including those of our anticipated revolving credit facility, from time to time, and other factors that could cause actual distributions to differ materially from our current expectations. Our actual results of operations will be affected by a number of factors, including the revenue we receive from our properties, our operating expenses, interest expense and unanticipated expenditures. For more information regarding risk factors that could materially adversely affect our actual results of operations, please see Risk Factors. To the extent that our cash available for distribution is less than the amount required to be distributed under the REIT provisions of the Code, we may consider various funding sources to cover any shortfall, including borrowing under our credit facility, selling certain of our assets or using a portion of the net proceeds we receive in this offering or future offerings. In addition, our charter allows us to issue preferred stock that could have a preference over our common stock as to distributions. We currently have no intention to issue any preferred stock, but if we do, the distribution preference on the preferred stock could limit our ability to make distributions to the holders of our common stock. We also may elect to pay all or a portion of any distribution in the form of a taxable distribution of our common stock or distribution of debt securities.

The following table sets forth calculations relating to the intended initial distribution based on our pro forma financial data, and we cannot assure you that the intended initial distribution will be made or sustained. The calculations are being made solely for the purpose of illustrating the initial distribution and are not necessarily intended to be a basis

for determining future distributions. The calculations include the following material assumptions:

§ income and cash flows from operations for the twelve months ended December 31, 2009 will be substantially the same for the twelve months ending December 31, 2010, with the exception of increases in contractual ground rent for the twelve months ended June 30, 2010;

§ cash flows used in investing activities will be the contractually committed and planned amounts for the twelve months ending June 30, 2011; and

---

Table of Contents

- § cash flows used in financing activities will be the contractually committed amounts for the twelve months ending June 30, 2011.

These calculations do not assume any changes to our operations or any acquisitions or dispositions, which would affect our operating results and cash flows, or changes in our outstanding common stock. We cannot assure you that our actual results will be as indicated in the calculations below. All dollar amounts, other than per-share amounts, are in thousands.

Pro forma net income for the year ended December 31, 2009	$	
Less: Pro forma net income for the six months ended June 30, 2009		
Add: Pro forma net income for the six months ended June 30, 2010

(1) Represents non-cash item recorded as an operating expense.
(2) Represents non-cash item recorded as interest expense.
(3) Represents non-cash item recorded as loss on impairment of assets.
(4) Represents non-cash item recorded on the disposal of assets.
(5) Represents hotel property acquisition costs funded with loan or equity proceeds.
(6) Represents estimated higher ground rent expense pursuant to existing ground lease agreement.
(7) Represents non-cash compensation recorded as an administrative and general corporate expense.
(8)

Estimated amount based on the amount of reserves required pursuant to management, franchise and loan agreements, which range from % to % of the revenues of each hotel.

(9) Estimated amount based on pro forma indebtedness to be outstanding following completion of this offering.

(10) Represents the aggregate amount of the estimated intended annual distribution divided by the shares of common stock that will be outstanding upon completion of this offering. The number of shares to be outstanding upon completion of this offering excludes shares of common stock that may be issued by us upon exercise of the underwriters overallotment option or upon exercise of options or redemption of OP units.

Table of Contents

Selected Financial and Operating Data

You should read the following selected historical and pro forma financial and operating data together with Management s Discussion and Analysis of Financial Condition and Results of Operations and our unaudited pro forma condensed consolidated financial statements and our predecessor s consolidated financial statements, including the related notes, appearing elsewhere in this prospectus.

We have not presented historical financial information for Summit Hotel Properties, Inc., because we have not had any corporate activity since our formation other than the issuance of 1,000 shares of common stock to our Executive Chairman in connection with the formation and initial capitalization of our company and because we believe that a presentation of the results of Summit Hotel Properties, Inc. would not be meaningful.

We consider Summit Hotel Properties, LLC our predecessor for accounting purposes. Our predecessor s historical consolidated balance sheet information as of December 31, 2009 and 2008 and our predecessor s historical consolidated statements of operations information for the years ended December 31, 2009, 2008 and 2007 have been derived from our predecessor s historical audited consolidated financial statements appearing elsewhere in this prospectus. Our predecessor s historical consolidated balance sheet information as of June 30, 2010 and our predecessor s historical consolidated statements of operations information for the six months ended June 30, 2010 and 2009 have been derived from the historical audited and unaudited consolidated financial statements, respectively, appearing elsewhere in this prospectus. In the opinion of our management, the unaudited interim financial information includes the adjustments (consisting of only normal recurring adjustments) necessary to present fairly the unaudited interim financial information. Our predecessor s historical consolidated balance sheet information as of December 31, 2007, 2006 and 2005 and our predecessor s historical consolidated statements of operations information for the years ended December 31, 2006 and 2005 have been derived from our predecessor s historical audited consolidated financial statements.

Our selected unaudited pro forma balance sheet data and statements of operation and other operating data is presented to reflect: (1) the sale of shares of our common stock in this offering at $ per share, the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus, for approximately $260.2 million of estimated net proceeds, after the deduction of the underwriting discount and the payment by us of approximately $3.6 million of expenses related to this offering and the formation transactions; (2) the contribution to our operating partnership of the Class B and Class C membership interests in Summit of Scottsdale held by The Summit Group and an unaffiliated third-party investor in exchange for an aggregate of 106,008 OP units; (3) the merger of our predecessor with and into our operating partnership, with our predecessor as the acquirer for accounting purposes, and the issuance by our operating partnership of an aggregate of 9,993,992 OP units to the Class A, Class A-1, Class B and Class C members of our predecessor in exchange for their membership interests in our predecessor; (4) the contribution of the net proceeds of this offering to our operating partnership in exchange for OP units that represent an approximate % partnership interest in our operating partnership, including the sole general partnership interest; (5) the repayment or extinguishment of approximately $225.2 million of outstanding indebtedness and the payment of estimated costs and expenses of approximately $3.8 million in connection with the retirement of this indebtedness; and (6) the grant upon completion of this offering of an aggregate of 5,000 shares of common stock to our independent directors and options to purchase an aggregate of 940,000 shares of common stock to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci pursuant to the 2010 Equity Incentive Plan upon completion of this offering.

Following completion of the merger, the historical consolidated financial statements of our predecessor will become our historical consolidated financial statements, and our assets and liabilities will be recorded at their respective

historical carrying values as of the date of completion of the merger.

The unaudited pro forma balance sheet data appearing below assumes that each of these transactions occurred on June 30, 2010. The unaudited pro forma statements of operations and other operating data assume that each of these transactions occurred on January 1, 2009.

In the opinion of our management, all material adjustments to reflect the effects of the preceding transactions have been made. The unaudited pro forma balance sheet data is presented for illustrative purposes only and is not necessarily indicative of what our actual financial position would have been had the transactions referred to above occurred on June 30, 2010, nor does it purport to represent our future financial position. The unaudited pro forma condensed statements of operations data and operating data are presented for illustrative purposes only and are not necessarily indicative of what

Table of Contents

our actual results of operations would have been had the transactions referred to above occurred on January 1, 2009, nor does it purport to represent our future results of operations.

Table of Contents

* Historically, our predecessor segregated its operating expenses (direct hotel operations expense, other hotel operating expense, general, selling and administrative expense and repairs and maintenance) from its other operating expenses, such as depreciation and amortization and impairment losses. Following completion of this offering, we intend to reclassify our operating expenses into categories of hotel operating expenses (room expenses, other direct expenses, other indirect expenses and other expenses) and reclassify our predecessor s historical items of hotel operating expense to increase the comparability of our hotel operating expenses and our hotel operating results with other publicly traded hospitality REITs. Accordingly, historical balances included in our predecessor s:

§ direct hotel operations expense related to (1) wages, payroll taxes and benefits, linens, cleaning and guestroom supplies and complimentary breakfast will be reclassified to rooms expense in our consolidated statements of operations and (2) franchise fees will be reclassified to other indirect expense in our consolidated statements of operations;

§ other hotel operating expenses related to (1) utilities and telephone will be reclassified to other direct expenses in our consolidated statements of operations and (2) real and personal property taxes, insurance and cable will be reclassified to other indirect expenses in our consolidated statements of operations;

§ general, selling and administrative expenses related to (1) office supplies, advertising, miscellaneous operating expenses and bad debt expense will be reclassified to other direct expenses in our consolidated statements of operations, (2) credit card/travel agent commissions, management company expenses, management company legal and accounting fees and franchise fees will be reclassified to other indirect expenses in our consolidated statements of operations, (3) hotel development and startup costs will be reclassified to hotel property acquisition costs in our consolidated statements of operations and (4) ground rent and other miscellaneous expenses will be reclassified to other expenses in our consolidated statements of operations; and

§ repairs and maintenance will be reclassified to other direct expenses in our consolidated statements of operations.

On a pro forma basis, the reclassification reduces total hotel operating expenses (direct hotel operations expense, other hotel operating expense, general, selling and administrative expense and repairs and maintenance) by $56,000 for the six months ended June 30, 2010 and $1.4 million for the year ended December 31, 2009, which were reclassified to hotel operating costs. The reclassification does not impact amounts reported by our predecessor as total expenses (total hotel operating expenses, depreciation and amortization and loss on impairment of assets), income from operations, total other income, income (loss) from continuing operations, income (loss) from discontinued operations, net income (loss) before income taxes or net income (loss). See Unaudited Pro Forma Condensed Consolidated Financial Statements appearing elsewhere in this prospectus for additional information.

(1) Below, we include a quantitative reconciliation of historical FFO to the most directly comparable GAAP financial performance measure, which is net income (loss) (dollars in thousands):

Management s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Selected Financial and Operating Data, our predecessor s audited consolidated financial statements as of December 31, 2009 and 2008 and for the years ended December 31, 2009, 2008 and 2007, our predecessor s audited consolidated financial statements as of June 30, 2010 and for the six months ended June 30, 2010 and 2009 (unaudited), and related notes thereto, appearing elsewhere in this prospectus. Where appropriate, the following discussion includes analysis of the effects of the formation transactions and this offering. These effects are reflected in the unaudited pro forma condensed consolidated financial statements appearing elsewhere in this prospectus.

Overview

We are a self-managed hotel investment company that was incorporated in June 2010 to continue our predecessor s business of acquiring and owning limited-service and select-service hotels in the upscale and midscale without food and beverage segments of the U.S. lodging industry. As a newly formed company with no business activity to date, we have no operating history and only nominal assets. We will commence operations upon completion of this offering and the formation transactions described in this prospectus. Following completion of this offering and the formation transactions, our initial portfolio will consist of 65 upscale and midscale without food and beverage hotels with a total of 6,533 guestrooms located in 19 states. Our initial hotels, with the exception of one independent hotel, will be operated under nationally recognized brands, including the Marriott, Hilton, InterContinental Hotels and Hyatt families of brands.

Substantially all of our assets will be held by, and all of our operations will be conducted through, our operating partnership, Summit Hotel OP, LP. Our operating partnership is a recently formed Delaware limited partnership. We are the sole general partner of our operating partnership. Through the merger of our predecessor with and into our operating partnership, our operating partnership will succeed to the business and assets of our predecessor. Although our operating partnership will be the surviving entity in the merger, our predecessor is considered our predecessor for accounting purposes and the discussion herein is based on our accounting predecessor s historical operating results. Following completion of this offering and the formation transactions, we will own an approximate % (% if the underwriters over-allotment option is exercised in full) partnership interest in our operating partnership, including general and limited partnership interests. The other limited partners of our operating partnership, the former members of our predecessor and The Summit Group, the former Class B member of Summit of Scottsdale and the former Class C member of Summit of Scottsdale, will own the remaining 35% limited partnership interest in our operating partnership. Pursuant to the partnership agreement, we will have full, exclusive and complete responsibility and discretion in the management and control of our operating partnership, including the ability to cause our operating partnership to enter into certain major transactions including acquisitions, dispositions and refinancings, make distributions to partners and to cause changes in our operating partnership s business activities.

We intend to elect to be taxed as a REIT for federal income tax purposes beginning with our short taxable year ending December 31, 2010. To qualify as a REIT, we cannot operate or manage our hotels. Instead, we will lease our hotels to our TRS lessees, which will be wholly owned, directly or indirectly, by our operating partnership. Our TRS lessees will engage one or more third-party hotel management companies to operate and manage our hotels pursuant to hotel management agreements. In connection with completion of this offering, our TRS lessees will enter into hotel management agreements with , pursuant to which our initial hotels will be operated by . Our TRS lessees may also employ other hotel managers in the future. We expect will qualify as an eligible independent contractor for federal income tax purposes. We will have no ownership or economic interest in any of the hotel

management companies engaged by our TRS lessees. Our TRS lessees will be disregarded as separate from Summit TRS for federal income tax purposes and their operations will be consolidated into our financial statements for accounting purposes. Summit TRS will be taxed as a C corporation, and, unlike our predecessor, Summit TRS s and our TRS lessees income will be subject to federal, state and local income tax, which will reduce our funds from operations and the cash otherwise available for distribution to our stockholders.

Our revenue is derived from hotel operations and consists of room revenues and other hotel operations revenues. As a result of our focus on limited-service and select-service hotels in the upscale and midscale without food and beverage segments of the U.S. lodging industry, substantially all of our revenue is room revenue generated from sales of hotel

Table of Contents

rooms. We also generate other hotel operations revenues, which consists of ancillary revenue related to meeting rooms, entertainment and other guest services provided at our hotels.

Our hotel operating expenses consist primarily of expenses incurred in the day-to-day operation of our hotels. Many of our expenses are fixed, such as essential hotel staff, real estate taxes, insurance, depreciation and certain types of franchise fees, and these expenses do not decrease even if the revenues at our hotels decrease. Our hotel operating expenses consist of room expenses, other direct expenses, other indirect expenses and other expenses. Room expenses include wages, cleaning and guestroom supplies and complimentary breakfast. Other direct expenses include office supplies, utilities, telephone, advertising and bad debts. Other indirect expenses include real and personal property taxes, insurance, travel agent and credit card commissions, management expenses and franchise fees. Other expenses include ground rent and other items of miscellaneous expense.

Historically, our predecessor segregated its operating expenses (direct hotel operations expense, other hotel operating expense, general, selling and administrative expense and repairs and maintenance) from its other operating expenses, such as depreciation and amortization and impairment losses. Following completion of this offering, we intend to reclassify our operating expenses into categories of hotel operating expenses (room expenses, other direct expenses, other indirect expenses and other expenses) to increase the comparability of our hotel operating expenses and our hotel operating results with other publicly traded hospitality REITs. Accordingly, historical balances included in our predecessor s:

- § direct hotel operations expense related to (1) wages, payroll taxes and benefits, linens, cleaning and guestroom supplies and complimentary breakfast will be reclassified to rooms expense in our consolidated statements of operations and (2) franchise fees will be reclassified to other indirect expense in our consolidated statements of operations;

- § other hotel operating expenses related to (1) utilities and telephone will be reclassified to other direct expenses in our consolidated statements of operations and (2) real and personal property taxes, insurance and cable will be reclassified to other indirect expenses in our consolidated statements of operations;

- § general, selling and administrative expenses related to (1) office supplies, advertising, miscellaneous operating expenses and bad debt expense will be reclassified to other direct expenses in our consolidated statements of operations, (2) credit card/travel agent commissions, management company expenses, management company legal and accounting fees and franchise fees will be reclassified to other indirect expenses in our consolidated statements of operations, (3) hotel development and startup costs will be reclassified to hotel property acquisition costs in our consolidated statements of operations and (4) ground rent and other miscellaneous expenses will be reclassified to other expenses in our consolidated statements of operations; and

- § repairs and maintenance will be reclassified to other direct expenses in our consolidated statements of operations.

On a pro forma basis, the reclassification reduces total hotel operating expenses (direct hotel operations expense, other hotel operating expense, general, selling and administrative expense and repairs and maintenance) by $56,000 for the six months ended June 30, 2010 and $1.4 million for the year ended December 31, 2009, which were reclassified to hotel property acquisition costs. The reclassification does not impact amounts reported by our predecessor as total expenses (total hotel operating expenses, depreciation and amortization and loss on impairment of assets), income from operations, total other income, income (loss) from continuing operations, income (loss) from discontinued operations, net income (loss) before income taxes or net income (loss). See Unaudited Pro Forma Condensed Consolidated Financial Statements appearing elsewhere in this prospectus for additional information.

Reflecting the changes in the management agreements effective upon transfer of the management agreements for our initial 65 hotels from The Summit Group to , on a pro forma basis, management expenses for the year ended December 31, 2009 would have increased from $3.3 million to $3.6 million. Also, we expect that our accounting expenses, on a pro forma basis, would have increased from $589,000 to $1.1 million. Additionally, we expect that our management expenses and accounting expenses, on a pro forma basis, for the six months ended June 30, 2010 would have increased from $1.6 million to $2.0 million and $329,000 to $546,000, respectively. We increased the corporate general and administrative expenses in our pro forma financial statements compared to our predecessor s historical financial statements by $2.6 million for the six months ended June 30, 2010 and $5.2 million for the year ended December 31, 2009. This adjustment is due to expenses we will incur related to changes in our management structure,

including compensating our executives and other employees directly rather than indirectly through profits distributed by our predecessor to The Summit Group.

Industry Trends and Outlook

In mid-2008, U.S. lodging demand started to decline as a result of the economic recession which caused industry-wide RevPAR to decline for the year, as reported by Smith Travel Research. Throughout 2009, the decrease in lodging demand accelerated, with RevPAR down 16.7% for the year according to Smith Travel Research. In the first quarter of 2010, we saw trends of improved fundamentals in the U.S. lodging industry with demand for rooms showing signs of stabilization, and even growth in many of the major markets, as general economic indicators have begun to experience positive improvement. With supply of available rooms expected to rise at a significantly slower pace over the next several years than during 2006-2008 and demand for rooms expected to increase as the U.S. economy rebounds, we expect meaningful growth in RevPAR to start in 2011 and to continue for several years thereafter.

While we believe the trends in room demand and supply growth will result in improvement in lodging industry fundamentals, we can provide no assurances that the U.S. economy will strengthen at projected levels and within the expected time periods. If the economy does not improve or if any improvements do not continue for any number of reasons, including, among others, an economic slowdown and other events outside of our control, such as terrorism, lodging industry fundamentals may not improve as expected. In the past, similar events have adversely affected the lodging industry and if these events recur, they may adversely affect the lodging industry in the future.

Key Operating Metrics

We use a variety of operating and other information to evaluate the financial condition and operating performance of our business. These key indicators include financial information that is prepared in accordance with GAAP, as well as other financial information that is not prepared in accordance with GAAP. In addition, we use other information that may not be financial in nature, including statistical information and comparative data. We use this information to measure the performance of individual hotels, groups of hotels and/or our business as a whole. We periodically compare historical information to our internal budgets as well as industry-wide information. These key indicators include:

- Occupancy percentage;
- Average Daily Rate (or ADR); and
- Room Revenue per Available Room (or RevPAR).

Occupancy, ADR and RevPAR are commonly used measures within the hotel industry to evaluate operating performance. RevPAR, which is calculated as the product of ADR and occupancy percentage, is an important statistic for monitoring operating performance at the individual hotel level and across our business as a whole. We evaluate individual hotel RevPAR performance on an absolute basis with comparisons to budget and prior periods, as well as on a company-wide and regional basis. ADR and RevPAR include only room revenue. Room revenue depends on demand, as measured by occupancy percentage, pricing, as measured by ADR, and our available supply of hotel rooms. Our ADR, occupancy percentage and RevPAR performance may be impacted by macroeconomic factors such as regional and local employment growth, personal income and corporate earnings, office vacancy rates and business relocation decisions, airport and other business and leisure travel, new hotel construction and the pricing strategies of competitors. In addition, our ADR, occupancy percentage and RevPAR performance is dependent on the continued success of our franchisors and their brands.

In addition to occupancy, ADR and RevPAR, we use FFO and EBITDA, non-GAAP financial measures, to assess our financial condition and operating performance. These measures should not be considered in isolation or as a substitute for measures of performance in accordance with GAAP. FFO and EBITDA are supplemental financial measures and are not defined by GAAP. FFO and EBITDA, as calculated by us, may not be comparable to FFO and EBITDA reported by other companies that do not define FFO and EBITDA exactly as we define those terms. FFO and EBITDA do not represent cash generated from operating activities determined in accordance with GAAP and should not be considered as alternatives to operating income or net income determined in accordance with GAAP, as indicators of performance or as alternatives to cash flows from operating activities as indicators of liquidity.

See Summary Pro Forma Financial Information and Selected Financial and Operating Data for further discussion of our use of FFO and EBITDA and reconciliations of those non-GAAP financial measures to the most comparable GAAP financial measure, net income (loss).

Our Portfolio

Following completion of this offering and the formation transactions, our initial portfolio will consist of 65 upscale and midscale without food and beverage hotels with a total of 6,533 guestrooms located in 19 states. Our initial hotels, with the exception of one independent hotel, will be operated under nationally recognized brands as shown below:

Franchisor/Brand	No. of Hotels	No. of Rooms
Marriott		
Courtyard by Marriott	6	715
Residence Inn	4	411
Fairfield Inn	9	787
Fairfield Inn & Suites	1	80
SpringHill Suites	7	671
TownePlace Suites	1	90
	28	2,754

Independent		
Aspen Hotel & Suites	1	57
Total	**65**	**6,533**

Our initial portfolio consists of what we consider seasoned and unseasoned hotels. We view 46 of our hotels as seasoned based on their construction date. We consider 19 of our hotels to be unseasoned. Our unseasoned hotels were

Table of Contents

either built after January 1, 2007 or experienced a brand conversion since January 1, 2008. We believe our unseasoned hotels are in the early stages of stabilizing since their construction or brand conversion occurred during a dramatic economic slowdown. Most of our unseasoned hotels are newer, larger and are located in larger markets than those of our seasoned hotels and operate under premium franchise brands. As a result, we believe our unseasoned hotels are particularly well-positioned to generate RevPAR growth for our portfolio as economic conditions improve.

Our unseasoned hotels that experienced a brand conversion have undergone approximately $12.3 million of renovations and other capital improvements since January 1, 2008.

The following table sets forth various statistical and operating information related to our seasoned hotel portfolio (dollars in thousands, except ADR and RevPAR):

	Six Months Ended June 30,		Year Ended December 31,		
	2010	**2009**	**2009**	**2008**	**2007**
Number of hotels at end of period	46	46	46	45	45
Average number of rooms	4,179	4,174	4,173	4,093	4,012
Undepreciated (gross) book value at end of period	$ 284,235	$ 283,678	$ 283,985	$ 276,148	$ 268,974
Revenues	$ 43,708	$ 45,471	$ 87,542	$ 105,542	$ 103,871
Occupancy	65.1%	66.3%	64.8%	69.5%	70.0%
ADR	$ 87.70	$ 89.49	$ 87.42	$ 100.29	$ 99.78
RevPAR	$ 57.08	$ 59.31	$ 56.63	$ 69.70	$ 69.80

The following table sets forth various statistical and operating information related to our unseasoned hotel portfolio (dollars in thousands, except ADR and RevPAR):

	Six Months Ended June 30,		Year Ended December 31,		
	2010	**2009**	**2009**	**2008**	**2007**

RevPAR	$ 53.43	$ 50.01	$ 48.47	$ 59.33	$ 43.09

Results of Operations of Summit Hotel Properties, Inc.

We have not presented historical financial information for Summit Hotel Properties, Inc., because it has not had any corporate activity since its formation other than the issuance of 1,000 shares of common stock to our Executive Chairman in connection with its formation and initial capitalization and activity in connection with this offering and the formation transactions and, as a result, we believe that a discussion of the results of Summit Hotel Properties, Inc.

would not be meaningful. We have set forth below a discussion of the consolidated historical results of operations and financial position of our predecessor, Summit Hotel Properties, LLC, which is merging with and into our operating partnership upon completion of this offering. Following completion of this offering and the formation transactions, our predecessor s historical consolidated financial statements will become our consolidated financial statements as our predecessor will be considered the acquirer in the merger for accounting purposes.

Table of Contents

Results of Operations of Our Predecessor

Comparison of the Six Months Ended June 30, 2010 to the Six Months Ended June 30, 2009

Income from Continuing Operations. Income from continuing operations increased by $2.3 million, or 46%, to $7.3 million for the six months ended June 30, 2010 from $5.0 million for the six months ended June 30, 2009. This increase was primarily due to the increased revenue from six new hotels opened late in 2009.

Revenues. The following table sets forth key operating metrics for our total portfolio, our seasoned hotel portfolio, our unseasoned hotel portfolio and our same-store portfolio for the six months ended June 30, 2010 and 2009 (dollars in thousands, except ADR and RevPAR):

	Six Months Ended June 30, 2010					Six Months Ended June 30, 2009				
	Total Revenues	**Total Expenses**	**Occupancy**	**ADR**	**RevPAR**	**Total Revenues**	**Total Expenses**	**Occupancy**	**ADR**	**RevPAR**
Total (65 and 61 hotels, respectively)[1]	$ 67,212	$ 59,896	63.9%	$ 87.26	$ 55.76	$ 61,561	$ 55,616	63.6%	$ 89.07	$ 56.62
Seasoned (46 hotels)[2]	$ 43,708	$ 34,499	65.1%	$ 87.70	$ 57.08	$ 45,471	$ 37,277	66.3%	$ 89.49	$ 59.31
Unseasoned (19 and 14 hotels, respectively)[2]	$ 23,504	$ 25,397	61.8%	$ 86.44	$ 53.43	$ 15,123	$ 18,339	56.5%	$ 88.56	$ 50.01
Same-store (60 hotels)[3]	$ 61,053	$ 52,198	64.7%	$ 88.00	$ 56.89	$ 60,594	$ 54,965	63.5%	$ 89.26	$ 56.71

(1) Includes revenues from discontinued operations.
(2) Excludes hotels that were reclassified to discontinued operations during either period.
(3) Includes seasoned and unseasoned hotels that were owned during both periods presented for the full periods presented, but excludes hotels that were reclassified to discontinued operations during either period.

On a total portfolio basis, revenues increased by $5.6 million, or 9.1%, from $61.6 million for the six months ended June 30, 2009 to $67.2 million for the six months ended June 30, 2010. The increase was primarily due to the opening of six new hotels during the third and fourth quarters of 2009. As a result, we do not believe that a comparison of our total portfolio revenue for the periods presented is meaningful.

Seasoned hotel revenues decreased by $1.8 million, or 4.1%, to $43.7 million for the six months ended June 30, 2010 from $45.5 million for the six months ended June 30, 2009. The decrease in seasoned hotel revenue was primarily caused by a 3.8% decrease in seasoned hotel RevPAR. Seasoned hotel RevPAR decreased to $57.08 for the six months ended June 2010 from $59.31 for the prior period as a result of adverse economic conditions, which caused lower occupancy and also caused us to lower room rates at our hotels in order to remain competitive in our markets.

Unseasoned hotel revenues increased by $8.4 million, or 55.6%, to $23.5 million for the six months ended June 30, 2010 from $15.1 million for the six months ended June 30, 2009. The increase in unseasoned hotel revenue was primarily due to revenues from the six new hotels opened during the third and fourth quarters of 2009.

In order to compare operating results of our total portfolio on a period-to-period basis, we also view our results on a same-store basis. Our same-store hotels include seasoned and unseasoned hotels that were owned throughout the comparable periods, but exclude hotels that were classified to discontinued operations during either period. We believe our same-store analysis enhances our understanding of our results by eliminating the effects of purchases and sales of hotels during comparable periods and focusing on the operating results of our core hotels. On a same-store basis, revenues increased by $0.4 million, or 0.6%, to $61.0 million for the six months ended June 30, 2010 from $60.6 million for the six months ended June 30, 2009.

Operating Expenses. Total operating expenses from continuing operations, excluding depreciation and amortization, increased by $2.2 million, or 5.0%, to $46.4 million for the six months ended June 30, 2010 from $44.2 million for the prior period as a result of operating expenses for the six new hotels opened in the third and fourth quarters of 2009. Of this increase, direct hotel operations expense increased by 12.2% to $23.0 million for the six months ended June 30, 2010 from $20.5 million for the prior period. The increased operating expenses were in direct relationship to the $5.6 million dollar increase in revenues from the six new hotels opened during the third and fourth quarters of 2009. Hotel renovations during early 2009 caused repairs and maintenance for the six-month period ended June 30, 2009 to be $1.6 million higher than repairs and maintenance in the first half of 2010.

Depreciation and Amortization. Total depreciation and amortization expense from continuing operations increased by $2.1 million, or 18.4%, from $11.4 million for the six months ended June 30, 2009 to $13.5 million for the six months ended June 30, 2010. This increase was primarily due to the six new hotels opened during the third and fourth quarters of 2009.

Table of Contents

The following table details our hotel expenses for our seasoned hotel portfolio, our unseasoned hotel portfolio and our same-store portfolio for the six months ended June 30, 2010 and June 30, 2009 (dollars in thousands):

	Six Months Ended June 30, 2010	Six Months Ended June 30, 2009
Seasoned Hotel Expenses (46 hotels):		
Direct hotel operations	$ 14,579	$ 14,847
Other hotel operating expenses	5,552	5,516
General, selling and administrative	7,733	8,158
Repairs and maintenance	1,379	2,404
Depreciation and amortization	5,256	6,352
Loss on impairment of assets		
Total Expenses	**$ 34,499**	**$ 37,277**
Unseasoned Hotel Expenses (19 and 14 hotels, respectively):		
Direct hotel operations	$ 8,447	$ 5,626
Other hotel operating expenses	3,625	2,635
General, selling and administrative	4,364	3,813
Repairs and maintenance	695	1,234
Depreciation and amortization	8,266	5,031
Loss on impairment of assets		
Total Expenses	**$ 25,397**	**$ 18,339**
Same-Store Portfolio Expenses (60 hotels):		
Direct hotel operations	$ 20,756	$ 20,615
Other hotel operating expenses	8,284	8,152
General, selling and administrative	10,914	11,177
Repairs and maintenance	1,930	3,638
Depreciation and amortization	10,314	11,383
Loss on impairment of assets		
Total Expenses	**$ 52,198**	**$ 54,965**

Comparison of the Year Ended December 31, 2009 to the Year Ended December 31, 2008

Income from Continuing Operations. Income from continuing operations decreased by $20.7 million, or 98%, to $0.5 million for the year ended December 31, 2009 from $21.2 million for the year ended December 31, 2008. This decrease was primarily the result of a $13.9 million decrease in revenues as well as an impairment loss of $7.5 million recognized for the year ended December 31, 2009.

Revenues. The following table sets forth key operating metrics for our total portfolio, our seasoned portfolio, our unseasoned portfolio and our same-store portfolio for the year ended December 31, 2009 and the year ended

December 31, 2008 (dollars in thousands, except ADR and RevPAR):

	Year Ended December 31, 2009					Year Ended December 31, 2008				
	Total Revenues	Total Expenses	Occupancy	ADR	RevPAR	Total Revenues	Total Expenses	Occupancy	ADR	RevPA
al (65 and hotels, pectively)(1)	$ 122,333	$ 120,704	61.9%	$ 87.40	$ 54.12	$ 141,933	$ 113,876	66.2%	$ 100.95	$ 66.7
soned (46 l 45 hotels, pectively)(2)	$ 87,542	$ 73,553	64.8%	$ 87.42	$ 56.63	$ 105,542	$ 79,540	69.5%	$ 100.29	$ 69.7
seasoned (19 l 14 hotels, pectively)(2)	$ 33,657	$ 47,151	55.3%	$ 87.58	$ 48.47	$ 29,565	$ 34,336	55.3%	$ 107.37	$ 59.3
me-store (57 els)(3)	$ 112,129	$ 99,020	63.7%	$ 88.13	$ 56.13	$ 134,934	$ 110,898	66.3%	$ 101.82	$ 67.4

(1) Includes revenues from discontinued operations.
(2) Excludes hotels that were reclassified to discontinued operations during either period.
(3) Includes seasoned and unseasoned hotels that were owned during both periods presented for the full periods presented, but excludes hotels that were reclassified to discontinued operations during either period.

Total revenues decreased by $19.6 million, or 13.8%, to $122.3 million for the year ended December 31, 2009 from $141.9 million for the year ended December 31, 2008. The decrease was primarily due to continuing unfavorable economic

conditions affecting our markets and included a $5.7 million decrease in revenues as a result of the sale of seven hotels (discontinued operations) during 2008 and 2009 offset by increases in revenues from nine new hotels opened during 2008 and 2009.

Seasoned hotel revenues decreased by $18.0 million, or 17.1%, to $87.5 million for the year ended December 31, 2009 from $105.5 million for the year ended December 31, 2008. The decrease in seasoned hotel revenue was primarily caused by a 18.8% decrease in seasoned hotel RevPAR. Seasoned hotel RevPAR decreased to $56.63 for the year ended December 31, 2009 from $69.70 for the prior year as a result of adverse economic conditions, which caused lower occupancy and also caused us to lower room rates at our hotels in order to remain competitive in our markets.

Unseasoned hotel revenues increased by $4.1 million, or 13.8%, to $33.7 million for the year ended December 31, 2009 from $29.6 million for the year ended December 31, 2008. The increase in unseasoned hotel revenue was primarily due to revenues from nine new hotels opened during 2008 and 2009.

On a same-store basis, revenues decreased by $22.8 million, or 16.9%, to $112.1 million for the year ended December 31, 2009 from $134.9 million for the year ended December 31, 2008. The decrease in same-store revenue was primarily caused by a 16.8% decrease in same-store RevPAR. Same-store RevPAR decreased to $56.13 for the year ended December 31, 2009 from $67.47 for the prior period as a result of adverse economic conditions, which caused lower occupancy and also caused us to lower room rates at our hotels in order to remain competitive in our markets.

Operating Expenses. Total operating expenses from continuing operations, excluding depreciation and amortization and impairment losses, decreased $2.3 million, or 2.5%, to $89.2 million for the year ended December 31, 2009 from $91.5 million for the year ended December 31, 2008. Repairs and maintenance expenses decreased $1.8 million, or 23.2%, to $6.2 million for the year ended December 31, 2009 from $8.0 million for the year ended December 31, 2008. The decrease was primarily due to fewer renovations being performed during 2009 than in 2008 at our hotels. The decrease in total expenses of 2.6% was not as significant as the decrease in total revenues of 13.8% due to the increased operating expenses related to opening of new hotels. Typically, operating profit margin is not significant for newly opened hotels until they become established in the market.

Depreciation and Amortization. On a total portfolio basis, depreciation and amortization expense from continuing operations increased by $1.7 million, or 7.6%, to $24.0 million for the year ended December 31, 2009 from $22.3 million for the year ended December 31, 2008. The increase was primarily due to the nine hotels opened in 2008 and 2009.

Impairment Losses. During the year ended December 31, 2009, our predecessor determined that six parcels of undeveloped land were impaired due to the fact that their aggregate historical carrying value exceeded their aggregate fair value. As a result, our predecessor recorded a $6.3 million non-cash impairment charge for the year ended December 31, 2009. Our predecessor also determined that the Courtyard by Marriott located in Memphis, Tennessee was impaired due to the fact that its historical carrying value was higher than the hotel s fair value. This determination was made based on recent economic distress on this particular hotel and market. Accordingly, our predecessor recorded a $1.2 million non-cash impairment charge in 2009. Our predecessor did not record any impairment charges during the year ended December 31, 2008.

The following table details our hotel expenses for our seasoned portfolio, our unseasoned portfolio and our same-store portfolio for years ended December 31, 2009 and December 31, 2008 (dollars in thousands):

	Year Ended December 31, 2009	Year Ended December 31, 2008
Seasoned Hotel Expenses (46 and 45 hotels, respectively):		
Direct hotel operations	$ 29,272	$ 32,182
Other hotel operating expenses	11,205	11,002
General, selling and administrative	15,870	19,091
Repairs and maintenance	4,083	4,342
Depreciation and amortization	11,950	12,923
Loss on impairment of assets	1,173	
Total Expenses	**$ 73,553**	**$ 79,540**

Table of Contents

	Year Ended December 31, 2009	Year Ended December 31, 2008
Unseasoned Hotel Expenses (19 and 14 hotels, respectively):		
Direct hotel operations	$ 12,799	$ 10,199
Other hotel operating expenses	5,782	4,184
General, selling and administrative	8,147	6,902
Repairs and maintenance	2,069	3,667
Depreciation and amortization	12,021	9,384
Loss on impairment of assets	6,333	
Total Expenses	**$ 47,151**	**$ 34,336**
Same-Store Portfolio Expenses (57 hotels):		
Direct hotel operations	$ 37,867	$ 42,136
Other hotel operating expenses	15,359	15,132
General, selling and administrative	20,414	24,328
Repairs and maintenance	4,849	7,970
Depreciation and amortization	19,358	21,332
Loss on impairment of assets	1,173	
Total Expenses	**$ 99,020**	**$ 110,898**

Comparison of the Year Ended December 31, 2008 to the Year Ended December 31, 2007

Income from Continuing Operations. Our predecessor s income from operations increased by $2.9 million, or 15.8%, to $21.2 million for the year ended December 31, 2008 from $18.3 million for the year ended December 31, 2007. The increase was primarily due to a 5% increase in ADR from $96.20 for the year ended December 31, 2007 to $100.95 for the year ended December 31, 2008.

Revenues. The following table sets forth key operating metrics for our total portfolio, our seasoned portfolio, our unseasoned portfolio and our same-store portfolio for the year ended December 31, 2008 and the year ended December 31, 2007 (dollars in thousands, except ADR and RevPAR):

	Year Ended December 31, 2008					Year Ended December 31, 2007				
	Total Revenues	Total Expenses	Occupancy	ADR	RevPAR	Total Revenues	Total Expenses	Occupancy	ADR	RevPA
tal (62 and hotels, spectively)[1]	$ 141,933	$ 113,876	66.2%	$ 100.95	$ 66.78	$ 134,748	$ 95,551	66.9%	$ 96.20	$ 64.3
asoned (45 tels)[2]	$ 105,542	$ 79,540	69.5%	$ 100.29	$ 69.70	$ 103,871	$ 80,049	70.0%	$ 99.78	$ 69.8
nseasoned (14 d 11 hotels,	$ 29,565	$ 34,336	55.3%	$ 107.37	$ 59.33	$ 10,018	$ 15,502	49.2%	$ 87.58	$ 43.0

(1) Includes revenues from discontinued operations.
(2) Excludes hotels that were reclassified to discontinued operations during either period.
(3) Includes seasoned and unseasoned hotels that were owned during both periods presented for the full periods presented, but excludes hotels that were reclassified to discontinued operations during either period.

Total revenues increased by $7.2 million, or 5.3%, to $141.9 million for the year ended December 31, 2008 from $134.7 million for the year ended December 31, 2007, reflecting the addition of 13 new hotels opened in 2007 and 2008 which more than offset the decline in revenues from the sale of 11 hotels in 2007 and 2008. The increase also reflected a 5% increase in ADR from $96.20 in 2007 to $100.95 in 2008 and the addition of 13 new hotels in 2007 and 2008.

Seasoned hotel revenues increased by $1.7 million, or 1.6%, to $105.5 million for the year ended December 31, 2008 from $103.9 million for the year ended December 31, 2007. The increase in seasoned hotel revenue was primarily caused by a 0.5% increase in seasoned hotel ADR. Seasoned hotel ADR increased to $100.29 for the year ended December 31, 2008 from $99.78 for the prior period.

Table of Contents

Unseasoned hotel revenues increased by $19.5 million, or 195%, to $29.6 million for the year ended December 31, 2008 from $10.0 million for the year ended December 31, 2007. The increase in unseasoned hotel revenue was primarily due to 13 new hotels opened during 2007 and 2008.

On a same-store basis, revenues remained steady at $107.8 million for the years ended December 31, 2008 and 2007.

Operating Expenses. Total operating expenses from continuing operations, excluding depreciation and amortization, increased $12.2 million, or 15.4%, to $91.6 million for the year ended December 31, 2008 from $79.4 million for the year ended December 31, 2007. The increase was primarily due to increased franchise fees and direct hotel operations expense, including room expenses. Direct hotel operations expense increased by $7.4 million, or 21.1%, to $42.4 million for the year ended December 31, 2008 from $35.0 million for the year ended December 31, 2007. The increase was primarily due to 13 additional hotels opened in 2007 and 2008. For the year ended December 31, 2008, our predecessor made $8.0 million of capital improvements compared to $10.4 million in the prior year. Total expenses, excluding depreciation and repairs and maintenance, remained relatively flat as a percentage of revenue at 61.8% for 2008 and 60.6% for 2007.

Depreciation and Amortization. Depreciation and amortization expense from continuing operations increased by $6.2 million, or 38.2%, to $22.3 million for the year ended December 31, 2008 from $16.1 million for the year ended December 31, 2007. The increase in depreciation and amortization was primarily due to 13 new hotels opened in 2007 and 2008.

The following table details our hotel expenses for our seasoned portfolio, our unseasoned portfolio [and our same store portfolio] for years ended December 31, 2008 and December 31, 2007 (dollars in thousands):

	Year Ended December 31, 2008	**Year Ended December 31, 2007**
Seasoned Hotel Expenses (45 hotels):		
Direct hotel operations	$ 32,182	$ 30,655

Loss on impairment of assets		
Total Expenses	**$ 81,889**	**$ 86,105**

Liquidity and Capital Resources

Our short-term liquidity requirements will consist primarily of operating expenses and other expenditures directly associated with our hotel properties, including recurring maintenance and capital expenditures necessary to maintain our hotel properties in accordance with brand standards, capital expenditures to improve our hotel properties, interest expense and scheduled principal payments on outstanding indebtedness and distributions to our stockholders.

In connection with the formation transactions, our predecessor has entered into a merger agreement with our operating partnership that requires our predecessor to, among other things, pay accrued and unpaid priority returns on its Class A and Class A-1 membership interests through August 31, 2010 and through the closing date of this offering, subject to certain limitations. Payment of these returns will reduce our predecessor s available cash upon completion of this offering.

We expect to satisfy these short-term liquidity requirements through working capital, cash provided by operations and short-term borrowings under a credit facility that we intend to enter into following completion of this offering. After giving effect to the formation transactions and the use of proceeds of this offering, we believe that our working capital and cash provided by operations will be sufficient to meet our ongoing short-term liquidity requirements for at least the next 12 months.

Our long-term liquidity requirements consist primarily of the costs of acquiring additional hotel properties, renovations, and other non-recurring capital expenditures that need to be made periodically with respect to our hotel properties and scheduled debt payments. We will seek to satisfy these long-term liquidity requirements through various sources of capital, including working capital, cash provided by operations, long-term hotel mortgage indebtedness and other borrowings, including borrowings under a credit facility that we intend to enter into following completion of this offering. In addition, we may seek to raise capital through public or private offerings of our equity or debt securities. However, certain factors may have a material adverse effect on our ability to access these capital sources, including our degree of leverage, the value of our unencumbered hotel properties and borrowing restrictions imposed by lenders. We will continue to analyze which source of capital is most advantageous to us at any particular point in time, but financing may not be consistently available to us on terms that are attractive, or at all.

We have not yet obtained required consents from lenders with respect to approximately $ million of outstanding indebtedness on certain properties in our portfolio that we anticipate will be assumed by our operating partnership as a result of, and will remain outstanding following completion of, the formation transactions. If we are unable to obtain

these required lender consents, we may have to repay all or a portion of this indebtedness with proceeds of this offering in order to complete the formation transactions, which would reduce funds available for general corporate and working capital purposes, including possible future acquisitions.

To satisfy the requirements for qualification as a REIT, we must meet a number of organizational and operational requirements, including a requirement that we distribute annually at least 90% of our REIT taxable income to our stockholders, determined without regard to the deduction for dividends paid and excluding any net capital gain. Therefore, once the total net proceeds of this offering have been invested, we will need to raise additional capital in order to grow our business and invest in additional hotel properties. However, there is no assurance that we will be able to borrow funds or raise additional equity capital on terms acceptable to us, if at all. We anticipate that any debt we incur in the future will include restrictions (including lockbox and cash management provisions) that under certain circumstances will limit or prohibit our operating partnership and its subsidiaries from making distributions or paying dividends, repaying loans or transferring assets. For additional information regarding our distribution policies and requirements, see Distribution Policy.

Pro Forma Indebtedness

Upon completion of this offering and the application of the net proceeds as described in Use of Proceeds, we will have approximately $ million in outstanding indebtedness and hotels unencumbered by mortgage debt, including hotels with rooms operating under brands owned by Marriott, Hilton, InterContinental or Hyatt, available as collateral for potential future loans. We intend to enter into a credit facility to fund future acquisitions, as well as for property redevelopments and working capital requirements. We may not succeed in obtaining a credit facility on favorable terms or at all and we cannot predict the size or terms of the credit facility if we are able to obtain it. Our failure to obtain a credit facility could adversely affect our ability to grow our business and meet our obligations as they come due.

On a pro forma basis as of June 30, 2010, after application of a portion of the net proceeds from this offering to repay outstanding indebtedness as described in Use of Proceeds, we expect to have approximately $199.4 million of outstanding mortgage indebtedness. The following table sets forth on a pro forma basis as of June 30, 2010, our pro forma mortgage debt obligations that will remain outstanding following the application of the net proceeds from this offering:

Lender	Collateral	Outstanding Principal Balance as of June 30, 2010	Interest Rate as of June 30, 2010[1]	Amortization (years)	Maturity Date
Bank of the Cascades[2]	Residence Inn, Portland, OR	$ 12,623,347	Prime rate, subject to a floor of 6.00%	25	09/30/11

National Western Life Insurance[9]	Courtyard by Marriott, Scottsdale, AZ SpringHill Suites, Scottsdale, AZ	13,835,711	8.00%	17	01/01/15
BNC National Bank[14]	Holiday Inn Express & Suites, Twin Falls, ID	5,814,136	Prime rate 0.25%	20	04/01/16
Compass Bank	Courtyard by Marriott, Flagstaff, AZ	16,225,346	Prime rate -- 0.25%, subject to a floor of 4.50%	20	05/17/18
General Electric Capital Corp.[15]	SpringHill Suites, Denver, CO	8,903,246	90-day LIBOR + 1.75%	20	04/01/18
General Electric Capital Corp.[10][15]	Cambria Suites, Baton Rouge, LA	11,209,795	90-day LIBOR + 1.80%	25	03/01/19

Total	**$ 199,440,578**

(1) As of June 30, 2010, the Prime rate was 3.25% and the 90-day LIBOR rate was 0.53%.

(2) The maturity date may be extended to September 30, 2012, subject to the satisfaction of certain conditions.
(3) The lender has the right to call the loan, which is secured by multiple hotel properties, at January 1, 2012, January 1, 2017 and January 1, 2022. At January 1, 2012, the loan begins to amortize according to a 19.5 year amortization schedule. If this loan is repaid prior to maturity, there is a prepayment penalty equal to the greater of (i) 1% of the principal being repaid and the (ii) the yield maintenance premium. There is no prepayment penalty if the loan is prepaid 60 days prior to any call date.
(4) The maturity date may be extended to June 20, 2014 based on the exercise of two, one-year extension options, subject to the satisfaction of certain conditions. If this loan is repaid prior to June 29, 2011, there is a prepayment penalty equal to 1% of the principal being repaid.
(5) If this loan is repaid prior to maturity, there is a prepayment penalty equal to the greater of (i) 1% of the principal being repaid and the (ii) the yield maintenance premium.
(6) Evidenced by three promissory notes, the loan secured by the Hyatt Place located in Atlanta, Georgia has a maturity date of February 1, 2014. The three promissory notes are cross-defaulted and cross-collateralized.
(7) The lender has the right to call the loan at November 1, 2013, 2018 and 2023. If this loan is repaid prior to maturity, there is a prepayment penalty equal to the greater of (i) 1% of the principal being repaid and the (ii) the yield maintenance premium. There is no prepayment penalty if the loan is prepaid 60 days prior to any call date.
(8) If this loan is repaid prior to April 1, 2011, there is a prepayment penalty equal to 0.75% of the principal being repaid. After this date, there is no prepayment penalty. A portion of the loan can be prepaid without penalty at any time to bring the loan-to-value ratio to no less than 65%.
(9) On December 8, 2009, we entered into two cross-collateralized and cross-defaulted mortgage loans with National Western Life Insurance in the amounts of $8,650,000 and $5,350,000 to refinance the JP Morgan debt on the two Scottsdale, AZ hotels. Prior to February 1, 2011, these loans cannot be prepaid. If these loans are prepaid, there is a prepayment penalty ranging from 5% to 1% of the principal being prepaid. A one-time, ten-year extension of the maturity date is permitted, subject to the satisfaction of certain conditions.
(10) If this loan is repaid prior to February 27, 2011, there is a prepayment penalty equal to 0.75% of the principal being repaid. After this date, there is no prepayment penalty. A portion of the loan can be prepaid without penalty at any time to bring the loan-to-value ratio to no less than 65%.
(11) This loan is cross-collateralized with the ING Investment Management loan secured by the following hotel properties: Comfort Inn, Ft. Smith, AR; Holiday Inn Express, Sandy, UT; Fairfield Inn, Lewisville, TX; Hampton Inn, Denver, CO; Holiday Inn Express, Vernon Hills, IL; Hampton Inn, Fort Wayne, IN; Courtyard by Marriott, Missoula, MT; Comfort Inn, Missoula, MT.
(12) This loan is secured by multiple hotel properties.
(13) This loan is cross-collateralized with the ING Investment Management loan secured by the following hotel properties: Fairfield Inn & Suites, Germantown, TN; Residence Inn, Germantown, TN; Holiday Inn Express, Boise, ID; Courtyard by Marriott, Memphis, TN; Hampton Inn & Suites, El Paso, TX; Hampton Inn, Ft. Smith, AR.
(14) The two BNC loans are cross-defaulted.
(15) The three General Electric Capital Corp. loans are cross-defaulted.

The yield maintenance premium under each of the ING Investment Management loans described in the table above is calculated as follows: (A) if the entire amount of the loan is being prepaid, the yield maintenance premium is equal to the sum of (i) the present value of the scheduled monthly installments from the date of prepayment to the maturity date, and (ii) the present value of the amount of principal and interest due on the maturity date (assuming all scheduled monthly installments due prior to the maturity date were made when due), less (iii) the outstanding principal balance as of the date of prepayment; and (B) if only a portion of the loan is being prepaid, the yield maintenance premium is equal to the sum of (i) the present value of the scheduled monthly installments on the pro rata portion of the loan being prepaid, or the release price, from the date of prepayment to the maturity date, and (ii) the present value of the pro rata amount of principal and interest due on the release price due on the maturity date (assuming all scheduled monthly installments due prior to the maturity date were made when due), less (iii) the outstanding amortized

principal allocation, as defined in the loan agreement, as of the date of prepayment.

We believe that we will have adequate liquidity to meet requirements for scheduled maturities. However, we can provide no assurances that we will be able to refinance our indebtedness as it becomes due and, if refinanced, whether such refinancing will be available on favorable terms.

Capital Expenditures and Reserve Funds

We have budgeted approximately $30.0 million for capital improvements to be made to the hotels in our initial portfolio in 2011. Of this amount, approximately $10.0 million is expected to be funded from the net proceeds of this offering, with the remaining approximately $20.0 million expected to be funded from operating cash flows or from other potential sources of capital, including our anticipated credit facility.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Table of Contents

Contractual Obligations

The following table outlines the timing of payment requirements related to our long-term debt obligations and other contractual obligations as of June 30, 2010 (dollars in millions).

		Payments Due By Periods			
	Total	Less than One Year	One to Three Years	Four to Five Years	More than Five Years
Long-term debt obligations[1]	$ 432.4	$ 138.8	$ 236.4	$ 20.7	$ 36.5
Operating lease obligations	8.2	0.2	0.5	0.5	7.0
Total	$ 440.6	$ 139.0	$ 236.90	$ 21.2	$ 43.5

(1) The amounts shown include amortization of principal on our fixed-rate and variable-rate obligations, debt maturities on our fixed-rate and variable-rate obligations and estimated interest payments of our fixed-rate obligations. Interest payments have been included based on the weighted-average interest rate.

The following table outlines the timing of payment requirements related to our long-term debt obligations and other contractual obligations as of December 31, 2009 on a pro forma basis, after application of the net proceeds from this offering as described under Use of Proceeds (dollars in millions).

		Pro Forma Payments Due By Periods			
	Total	Less than One Year	One to Three Years	Four to Five Years	More than Five Years
Long-term debt obligations[1]	$ 227.1	$ 9.2	$ 140.2	$ 35.6	$ 42.1
Operating lease obligations	8.2	0.2	0.5	0.5	7.0
Total	$ 235.3	$ 9.4	$ 140.7	$ 36.1	$ 49.1

(1) The amounts shown include amortization of principal on our fixed-rate and variable-rate obligations, debt maturities on our fixed-rate and variable-rate obligations and estimated interest payments of our fixed-rate obligations. Interest payments have been included based on the weighted-average interest rate.

Qualitative and Quantitative Effects of Market Risk

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. In pursuing our business strategies, the primary market risk to which we are currently exposed, and to which we expect to be exposed in the future, is

interest rate risk. Our primary interest rate exposures are to the 30-day LIBOR rate, the 90-day LIBOR rate and the Prime rate. We primarily use fixed interest rate financing to manage our exposure to fluctuations in interest rates. We do not use any hedge or other instruments to manage interest rate risk.

As of June 30, 2010, approximately 47.6% of our pro forma debt carried fixed interest rates and 52.4% carried variable interest rates. As of June 30, 2010, our fixed interest rate pro forma debt totaled $95.0 million. Our variable interest rate pro forma debt totaled $104.4 million as of June 30, 2010. Assuming no increase in the amount of our variable rate pro forma debt, if the interest rates on our variable rate pro forma debt were to increase by 1.0%, our cash flow would decrease by approximately $1.0 million per year.

Inflation

Operators of hotels, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates.

Seasonality

Due to our portfolio s geographic diversification, our revenues do not experience significant seasonality. For the year ended December 31, 2009, our predecessor received 24.2% of its total revenues in the first quarter, 25.8% in the second quarter, 26.6% in the third quarter and 23.4% in the fourth quarter. For the year ended December 31, 2008, our predecessor received 24.0% of its total revenues in the first quarter, 26.3% in the second quarter, 28.1% in the third quarter and 21.6% in the fourth quarter.

Critical Accounting Policies

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. We evaluate our estimates and judgments, including those related to the impairment of long-lived assets, on an ongoing basis. We base our estimates on experience and on various other assumptions that are believed to be reasonable under the circumstances. All of our predecessor s significant accounting policies are disclosed in the notes to its consolidated financial statements. The following represent certain critical accounting policies that will require our management to exercise their business judgment or make significant estimates:

Principles of Consolidation and Basis of Presentation. Our consolidated financial statements will include our accounts, the accounts of our wholly owned subsidiaries or subsidiaries for which we have a controlling interest, the accounts of variable interest entities in which we are the primary beneficiary, and the accounts of other subsidiaries over which we have a controlling interest. All material inter-company transactions, balances and profits will be eliminated in consolidation. The determination of whether we are the primary beneficiary is based on a combination of qualitative and quantitative factors which require management in some cases to estimate future cash flows or likely courses of action.

Hotels Acquisitions. Upon acquisition, we allocate the purchase price based on the fair value of the acquired land, building, furniture, fixtures and equipment, goodwill, other assets and assumed liabilities. We determine the acquisition-date fair values of all assets and assumed liabilities using methods similar to those used by independent appraisers, for example, using a discounted cash flow analysis, and that utilize appropriate discount and/or capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including historical operating results, known and anticipated trends, and market and economic conditions. Acquisition costs are expensed as incurred. Changes in estimates and judgments related to the allocation of the purchase price could result in adjustments to real estate or intangible assets, which can impact depreciation and/or amortization expense and our results of operations.

Depreciation and Amortization of Hotels. Hotels are carried at cost and depreciated using the straight-line method over an estimated useful life of 27 to 40 years for buildings and two to 15 years for furniture, fixtures and equipment. We are required to make subjective assessments as to the useful lives and classification of our properties for purposes of determining the amount of depreciation expense to reflect each year with respect to the assets. While management believes its estimates are reasonable, a change in the estimated useful lives could affect the results of operations.

Impairment of Hotels. We monitor events and changes in circumstances for indicators that the carrying value of a hotel and related assets may be impaired. Factors that could trigger an impairment analysis include, among others: (1) significant underperformance relative to historical or projected operating results, (2) significant changes in the manner of use of a hotel or the strategy of our overall business, (3) a significant increase in competition, (4) a significant adverse change in legal factors or regulations or (5) significant negative industry or economic trends. When such factors are identified, we will prepare an estimate of the undiscounted future cash flows, without interest charges, of the specific hotel and determine if the investment in such hotel is recoverable based on the undiscounted future cash flows. If impairment is indicated, an adjustment is made to the carrying value of the hotel to reflect the hotel at fair value. These assessments may impact the results of our operations.

Revenue Recognition. Revenue is recognized when rooms are occupied and services have been rendered. These revenue sources are affected by conditions impacting the travel and hospitality industry as well as competition from

other hotels and businesses in similar markets.

Stock-Based Compensation. We have adopted the 2010 Equity Incentive Plan, which provides for the grants of stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights and other stock-based awards, or any combination of the foregoing. Equity-based compensation will be recognized as an expense in the financial statements over the vesting period and measured at the fair value of the award on the date of grant. The amount of the expense may be subject to adjustment in future periods depending on the specific characteristics of the equity-based award and the application of accounting guidance.

Table of Contents

Income Taxes. We intend to elect to be taxed as a REIT under the Code and intend to operate as such beginning with our short taxable year ending December 31, 2010. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute annually to our stockholders at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains, which does not necessarily equal net income as calculated in accordance with GAAP. As a REIT, we generally will not be subject to federal income tax (other than taxes paid by our TRSs) to the extent we currently distribute 100% of our REIT taxable income to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income tax on our taxable income at regular corporate income tax rates and generally will not be permitted to qualify for treatment as a REIT for the four taxable years following the year during which qualification is lost unless we satisfy certain relief provisions. Such an event could materially adversely affect our net income and net cash available for distribution to stockholders. However, we intend to be organized and operate in such a manner as to qualify for treatment as a REIT.

Deferred Tax Assets and Liabilities. We will account for federal and state income taxes with respect to our TRSs using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statements carrying amounts of existing assets and liabilities and respective tax bases and operating losses and tax-credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In the event that these assumptions change, the deferred taxes may change.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued an update (ASU No. 2010-06) to Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to improve disclosure requirements regarding transfers, classes of assets and liabilities, and inputs and valuation techniques. This update is effective for interim and annual reporting periods beginning after December 15, 2009. Our predecessor adopted this ASC update on January 1, 2010, and it had no material impact on our predecessor s consolidated financial statements.

In February 2010, the FASB issued an update (ASU No. 2010-09) to ASC 855, *Subsequent Events*, by removing the requirement for an SEC filer to disclose the date through which that filer had evaluated subsequent events. Our predecessor has adopted this change and therefore has removed the related disclosure from the Basis of Presentation.

Certain provisions of ASU No. 2010-06 to ASC 820, *Fair Value Measurements and Disclosures*, related to separate line items for all purchases, sales, issuances and settlements of financial instruments valued using Level 3 are effective for fiscal years beginning after December 15, 2010. We do not believe that this adoption will have a material impact on our financial statements or disclosures.

Structure of Our Company

We were formed as a Maryland corporation on June 30, 2010. We will conduct our business through an umbrella partnership structure, in which our hotel properties are owned by our operating partnership, Summit Hotel OP, LP, and limited partnerships, limited liability companies or other subsidiaries of our operating partnership. Summit Hotel Properties, Inc. is the sole general partner of our operating partnership. As the sole general partner of our operating partnership, we have the exclusive power to manage and conduct our operating partnership s business, subject to the limitations described in the partnership agreement. We will contribute the net proceeds of this offering to our operating partnership in exchange for additional OP units.

Upon completion of this offering and the formation transactions and the contribution of the net proceeds of this offering to our operating partnership, we will own an approximate % (% if the underwriters exercise their over-allotment option in full) partnership interest in our operating partnership, including general and limited partnership interests. The remaining interests in our operating partnership will be owned by limited partners, including certain of our executive officers, directors and their affiliates, who received OP units in the formation transactions.

Beginning one year after completion of the formation transactions, limited partners (other than us) may, subject to certain restrictions, elect to redeem their OP units for a per-OP unit cash amount based on the then-current market price of our common stock or, at our operating partnership s option, shares of our common stock on a one-for-one basis, subject to adjustments for stock splits, dividends, recapitalizations and similar events. Holders of OP units generally will receive distributions per OP unit equivalent to the per share distributions we make to holders of our common stock. See Description of the Partnership Agreement.

In order for the income from our hotel operations to constitute rents from real property for purposes of the gross income tests applicable to a REIT, we cannot directly or indirectly operate any of our hotels. Instead, we must lease our hotels. Accordingly, we will lease each of our initial hotel properties to our TRS lessees, which will be wholly owned by our operating partnership. Our TRS lessees will pay rents to us that will be treated as rents from real property, provided that the hotel management companies engaged by our TRS lessees to manage our hotels are eligible independent contractors and certain other requirements are met. Concurrently with completion of this offering and the formation transactions, our TRS lessees will engage to manage our hotels pursuant to management agreements.

Formation Transactions

Overview

Historically, the 65 hotels in our portfolio were owned by our predecessor and were operated by The Summit Group, which is wholly owned and controlled by our Executive Chairman, Mr. Boekelheide. In connection with completion of this offering, we will engage in the transactions described below, which we refer to as our formation transactions, in order to consolidate the business and properties of our predecessor into a publicly traded REIT with improved access to capital and increased flexibility to execute our growth strategy. The formation transactions are subject to customary closing conditions, including obtaining required third-party consents and approvals and the closing of this offering.

The significant elements of the formation transactions include:

§ the formation of our company, our operating partnership and Summit TRS;

§ the sale of shares of our common stock in this offering;

§ the contribution of the net proceeds of this offering to our operating partnership in exchange for OP units;

§ the merger of our predecessor with and into our operating partnership, with our predecessor s members receiving OP units;

§ the contribution of the Class B and Class C membership interests in Summit of Scottsdale to our operating partnership in exchange for OP units and our assumption of mortgage debt secured by the two Scottsdale hotels owned by Summit of Scottsdale;

§ the lease of the 65 hotels in our portfolio to our TRS lessees; and

§ assignment by The Summit Group of all of the hotel management agreements pursuant to which it managed the hotels owned by our predecessor to for consideration consisting of , and the entry into new hotel management agreements with , an independent hotel management company, pursuant to which will operate the 65 hotels in our portfolio.

Formation of Summit Hotel Properties, Inc., Our Operating Partnership and Summit TRS

Summit Hotel Properties, Inc. was incorporated on June 30, 2010 under the laws of the State of Maryland. We intend to elect and qualify as a REIT for federal income tax purposes. Our operating partnership, Summit Hotel OP, LP, was organized as a limited partnership under the laws of the State of Delaware on June 30, 2010. Summit Hotel Properties, Inc. is our operating partnership s sole general partner.

We incorporated Summit Hotel TRS, Inc. on August 11, 2010 under the laws of the State of Delaware. Summit TRS, the parent company of our TRS lessees, is wholly owned by our operating partnership. We will lease all of our initial hotel properties to our TRS lessees. Summit TRS is taxed as a regular corporation and its income therefore will be subject to federal, state and local income tax. We may form additional TRSs in the future in order to engage in certain activities that otherwise might jeopardize our qualification as a REIT. Any income earned by our TRSs will not be included for purposes of the 90% distribution requirement discussed under Material Federal Income Tax

Considerations Annual Distribution Requirements, unless that income is actually distributed to us. For a further discussion of TRSs, see Material Federal Income Tax Considerations Taxation of Our Company.

Merger of Summit Hotel Properties, LLC into Our Operating Partnership

Currently, our predecessor owns or controls 65 hotels, including the two Scottsdale hotels currently held by Summit of Scottsdale. In connection with completion of this offering, our predecessor will merge with and into our operating partnership, with our operating partnership continuing as the surviving entity. Pursuant to the merger, the members of our predecessor, including certain of our executive officers and directors and their affiliates, will receive OP units in exchange for their membership interests in our predecessor. The aggregate merger consideration will consist of 9,993,992 OP units (having an aggregate assumed value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus). Upon completion of the merger, our operating partnership will become the owner

of the 63 hotels currently held by our predecessor and the two Scottsdale hotels and assume approximately $ million of indebtedness, approximately $ million of which we expect to repay with the net proceeds of this offering. In the merger, (1) our Executive Chairman, Mr. Boekelheide, and his affiliates, including The Summit Group, will receive an aggregate of 1,517,819 OP units for membership interests in our predecessor having an aggregate assumed value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus and (2) our Executive Vice President and Chief Operating Officer, Mr. Aniszewski, will receive an aggregate of 4,105 OP units for membership interests in our predecessor having an aggregate value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. The merger is subject to customary closing conditions, including obtaining all required third-party consents and approvals and completion of this offering.

Contribution of Class B and Class C Membership Interests in Summit of Scottsdale

In connection with completion of this offering, The Summit Group will contribute its 36% Class B membership interest in Summit of Scottsdale to our operating partnership in exchange for 74,829 OP units having an aggregate assumed value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. An unaffiliated third-party investor will contribute its 15% Class C membership interest in Summit of Scottsdale to our operating partnership in exchange for 31,179 OP units having an aggregate assumed value of $ based on the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus. The contributions of the Class B and Class C membership interests in Summit of Scottsdale are subject to customary closing conditions, including obtaining all required third-party consents and approvals and completion of this offering. Our predecessor owns a 49% Class A membership interest in Summit of Scottsdale, which our operating partnership is acquiring in the merger. As a result of these contributions and the merger described above, our operating partnership will assume approximately $13.8 million of existing mortgage debt secured by the two Scottsdale hotels and will become the sole owner of those hotels.

Lease of the Hotels in Our Portfolio to Our TRS Lessees

In order for the income from our hotel operations to constitute rents from real property for purposes of the gross income tests required for REIT qualification, we cannot directly or indirectly operate any of our hotels. Instead, we must lease our hotels. Accordingly, in connection with completion of this offering, we will enter into lease agreements pursuant to which we will lease the 65 hotels in our portfolio to our TRS lessees, which will be wholly owned by our operating partnership. Our TRS lessees will pay rent to us that we intend to treat as rents from real property, provided that and any other hotel management companies engaged by our TRS lessees qualifies as an eligible independent contractor and certain other requirements are met. See Our Hotel Management Agreements.

Hotel Management Agreements

Prior to this offering and completion of the formation transactions, the hotels owned by our predecessor, including the two Scottsdale, Arizona hotels owned by Summit of Scottsdale, were managed by The Summit Group. In connection with completion of this offering, these hotel management agreements will be terminated and our TRS lessees will enter into new hotel management agreements with , pursuant to which will operate and manage the 65 hotels in our portfolio on the anticipated terms described below. In consideration for terminating the existing hotel management agreements with our predecessor, The Summit Group, the current hotel management company, which is wholly owned by Mr. Boekelheide, will receive a total cash payment from in the amount of $. See Our Hotel Management Agreements.

Tax Protection Agreements

Our operating partnership will offer to enter into tax protection agreements with a limited number of the members of our predecessor, including The Summit Group and Mr. Aniszewski. Under the Code, any reduction in a partner s share of partnership liabilities that exceeds the partner s adjusted tax basis in the partnership would result in taxable gain to the partner. The tax protection agreements are intended to protect those members of our predecessor from recognizing such a taxable gain as a result of a reduction in their share of liabilities of our operating partnership as compared to their share of liabilities of our predecessor that is attributable to our repayment of liabilities with the proceeds of this offering. The tax protection agreements will provide that our operating partnership will offer those members the opportunity to guarantee

debt, or, alternatively, to enter into a deficit restoration obligation in a manner intended to provide an allocation of our operating partnership s liabilities to those members for federal income tax purposes. We anticipate that those members will guarantee approximately $9 million of our operating partnership s liabilities, including approximately $8 million of our operating partnership s liabilities that will be guaranteed by The Summit Group. If our operating partnership fails to offer those members the opportunity to guarantee debt or to enter into a deficit restoration obligation, our operating partnership will be required to deliver to each member who was not offered the opportunity to guarantee debt or enter into a deficit restoration obligation a cash payment intended to approximately compensate for the tax liability resulting from our operating partnership s failure to make these opportunities available. The tax protection agreements will apply to a particular member of our predecessor until the earlier of (i) the date the member (or its successor) has disposed of 100% of the OP units received in the formation transactions or (ii) ten years from the anniversary of the closing of this offering. The tax protection agreements are expected to benefit those members by assisting them in continuing to defer federal income taxes that would otherwise be recognized in connection with the formation transactions. The tax protection agreements do not obligate our operating partnership to provide new opportunities or indemnities to those members if a future reduction of the liabilities of our operating partnership after the repayment of operating partnership liabilities with the proceeds of this offering causes those members to recognize a taxable deemed cash distribution.

Valuation of Interests Being Acquired in the Formation Transactions

The number of OP units issuable by our operating partnership in the formation transactions was determined by our management team based on its valuation of our predecessor and the hotels owned by Summit of Scottsdale. In each case, the assumed value per OP unit is equal to the mid-point of the anticipated initial public offering price range of our common stock shown on the cover of this prospectus. Our management team determined the value of our predecessor and the Scottsdale hotels by considering various valuation factors and methodologies, including an analysis of available third-party valuations on some of the hotels, market sales comparables, market capitalization rates and general market conditions for similar hotel companies and publicly traded REITs. The numbers of OP units issuable in the formation transactions are fixed. As a result, if the initial public offering price for our common stock is higher or lower than the mid-point of the anticipated initial public offering price range shown on the cover of this prospectus, the value of the OP units to be issued in the formation transactions will increase or decrease accordingly.

Both we and our predecessor have sought to structure the formation transactions so as to minimize potential conflicts of interest, including by appointing a special committee of our predecessor s independent managers to review the terms of the proposed merger of our predecessor into our operating partnership. However, we did not conduct arm s-length negotiations with our predecessor s members or the members of Summit of Scottsdale with respect to the terms of the formation transactions, including the merger. Our Executive Chairman, Mr. Boekelheide, and his affiliates, including The Summit Group, have substantial, pre-existing ownership interests in our predecessor and Summit of Scottsdale. In addition, Mr. Aniszewski, our Executive Vice President and Chief Operating Officer, has a pre-existing ownership interest in our predecessor. Both Mr. Boekelheide and Mr. Aniszewski sat on the board of managers of our predecessor that approved the terms of the formation transactions. In the course of structuring the formation transactions, Mr. Boekelheide and Mr. Aniszewski had the ability to influence the type and level of benefits they will receive from us. Although our predecessor s special committee received a fairness opinion from an independent third-party financial advisor that is not one of the underwriters of this offering with respect to the fairness, from a financial point of view, of the merger consideration to the former members of our predecessor, assuming that the value of the OP units issued as the merger consideration was between $140 million and $160 million, we did not obtain a fairness opinion with respect to the fairness of the merger consideration to us and we did not obtain recent third-party appraisals for all of the hotels to be acquired by us in the formation transactions. As a result, the consideration to be paid by us to the members of our predecessor in the merger and the acquisition of the 49% ownership interest in the two Scottsdale hotels may exceed the fair market value of the hotels and other assets being acquired by us in the formation transactions.

Table of Contents

Our Business and Properties

Overview

We are a self-managed hotel investment company that was recently organized to continue and expand the existing hotel investment business of our predecessor, Summit Hotel Properties, LLC, a leading U.S. hotel owner. We will focus exclusively on acquiring, owning, renovating, repositioning and aggressively asset-managing and selling premium-branded limited-service and select-service hotels in the upscale and midscale without food and beverage segments of the U.S. lodging industry. Our strategy focuses on maximizing the cash flow of our portfolio through focused asset management, targeted capital investment and opportunistic acquisitions. Following completion of this offering and the formation transactions, our initial portfolio will consist of 65 hotels with a total of 6,533 guestrooms located in 19 states. Our initial portfolio consists of what we consider both seasoned and unseasoned hotels that are located in markets in which we have extensive experience and that exhibit multiple demand generators, such as business and corporate headquarters, retail centers, airports and tourist attractions. Based on total number of rooms, 48% of our portfolio is positioned in the top 50 MSAs and 68% is located within the top 100 MSAs.

Entities controlled by our Executive Chairman, Kerry W. Boekelheide, have been in the business of acquiring, developing, financing, operating and selling hotels since 1991, have acquired a total of 93 hotels in transactions having an aggregate value of approximately $606.8 million, and have sold, transferred or otherwise disposed of a total of 27 hotels in transactions having an aggregate value of approximately $104.6 million.

The majority of our hotels operate under premium franchise brands owned by Marriott International, Inc. (Courtyard by Marriott, Residence Inn, SpringHill Suites, Fairfield Inn and TownePlace Suites), Hilton Worldwide (Hampton Inn, Hampton Inn & Suites and Hilton Garden Inn), InterContinental Hotels Group (Holiday Inn Express and Staybridge Suites) and Hyatt Hotels and Resorts (Hyatt Place). Our franchise mix, by total number of rooms, consists of Marriott (2,754 rooms, or 42%), Hilton Worldwide (1,331 rooms, or 20%), InterContinental Hotels Group (639 rooms, or 10%), Hyatt Hotels Corporation (556 rooms, or 9%) and others (1,253 rooms, or 19%). Smith Travel Research classifies 28 of our hotels within the upscale segment and 36 of our hotels within the midscale without food and beverage segment. We classify our one independent hotel as midscale without food and beverage.

We view 46 of our hotels as seasoned based on their construction date. We consider 19 of our hotels to be unseasoned. Our unseasoned hotels were either built after January 1, 2007 or experienced a brand conversion since January 1, 2008. We believe our unseasoned hotels are in the early stages of stabilizing since their construction or brand conversion occurred during a dramatic economic slowdown. Most of our unseasoned hotels are newer , larger and are located in larger markets than those of our seasoned portfolio and operate under leading premium franchise brands. As a result, we believe our unseasoned hotels are particularly well-positioned to generate RevPAR growth for our portfolio as economic conditions improve. The tables under Our Portfolio below provide information regarding our initial portfolio according to our classification of seasoned and unseasoned.

We believe the U.S. economy has begun to recover from the recent economic recession and, as a result, lodging industry fundamentals will strengthen over the near-term. Since January 1, 2007, we have made approximately $305.4 million of capital investments through strategic acquisitions and upgrades and improvements to our hotels to be well-positioned for improving general lodging fundamentals. Further, we expect to use up to approximately $10.0 million of the net proceeds of this offering to make additional capital improvements to hotels in our portfolio. As a result, we believe our portfolio is well-positioned for significant internal growth in hotel operating revenues in this environment based on our mix of seasoned hotels and unseasoned hotels.

We intend to generate external growth through disciplined acquisitions of hotels. We believe we will be able to source a significant volume of acquisition opportunities through our management team s extensive network of industry, corporate and institutional relationships, particularly due to the relative size of our lodging segments, lack of available debt financing in the capital markets and the weakness experienced since mid-2008 in the lodging industry. Similarly, we believe some hotel owners will be unable or unwilling to make capital improvements required by franchisors and will ultimately sell their hotels. The total number of hotels in the upscale and midscale without food and beverage hotel segments, taken together, is more than six times larger than the total number of hotels in the luxury and upper upscale segments, providing a broad potential acquisition pool. We also believe that while other public REITs and well-capitalized institutional owners seek to acquire assets that fit our investment criteria, we will be the only publicly traded REIT focused solely on these segments

on a national basis. A key aspect of our strategy is to identify and acquire undermanaged and underperforming hotels and use our expertise to renovate, rebrand and reposition the hotels to improve cash flows and long-term value. Going forward, we plan to focus on acquiring premium-branded limited-service and select-service hotels in the upscale and midscale without food and beverage segments of the lodging industry in both urban and suburban markets.

We were organized as a Maryland corporation on June 30, 2010 and intend to elect to be taxed as a REIT for federal income tax purposes beginning with our short taxable year ending December 31, 2010. We will conduct substantially all of our business through our operating partnership, Summit Hotel OP, LP, a Delaware limited partnership. See Structure of Our Company.

Our Competitive Strengths

§ *High-Quality Portfolio of Hotels.* Our initial portfolio is composed of 65 hotels with characteristics that we believe will provide a solid platform on which to deliver strong risk-adjusted returns to our stockholders. Our hotels are located in 19 states and have an average age of 10.3 years. No single hotel accounted for more than 3.6% of our predecessor s hotel operating revenues for the 12-month period ended June 30, 2010, which we believe positions our portfolio to experience more consistent risk-adjusted returns and lower volatility compared to owners with properties more highly concentrated in particular geographic regions. We believe all of our hotels are located in markets where there will be limited growth in lodging supply over the next several years. Additionally, in many of our markets, we own two or more hotels in close proximity to each other, which we believe allows our hotel managers to maintain rate integrity and maximize occupancy by referring travelers to our other hotels. Similarly, franchise areas of protection, which prohibit the opening of hotels with the same brand as one of our hotels within certain proximities of our hotels, provide barriers to entry in suburban markets where many of our hotels are located.

§ *Seasoned Portfolio and Significant Upside Potential.* Our initial portfolio is composed of 46 seasoned hotels with established track records and strong positions within their markets. We classify our other 19 hotels, which were either built after January 1, 2007 or experienced a brand conversion since January 1, 2008, as unseasoned. We believe that the market penetration of our unseasoned hotels is significantly less than that of our seasoned hotels due to the dramatic economic slowdown over the past two years that delayed these hotels from achieving anticipated growth rates and revenues. However, most of our unseasoned hotels are newer, larger and are located in larger markets than our seasoned hotels and operate under premium brands. As a result, we believe our unseasoned hotels can experience significant growth in RevPAR and profitability as the economy and industry fundamentals improve.

§ *Experienced Executive Management Team With a Proven Track Record.* Our management team, led by our Executive Chairman, Mr. Boekelheide, has extensive experience acquiring, developing, owning, operating, renovating, rebranding and financing hotel properties. Our Executive Chairman, Mr. Boekelheide, our President and Chief Executive Officer, Mr. Hansen, and our Executive Vice President and Chief Operating Officer, Mr. Aniszewski, have extensive experience in the hotel business and have worked together as a team for the last seven years. Through this experience, our management team has developed strong execution capabilities as well as an extensive network of industry, corporate and institutional relationships, including relationships with the leading lodging franchisors in our targeted markets. We believe these relationships will provide insight and access to attractive investment opportunities and allow us to react to local market conditions by seeking the optimal franchise brand for the market in which each of our hotels is located.

§ *Aggressive Asset Management and Experienced Asset Management Team.* We will maintain a dedicated asset management team led by our Executive Vice President and Chief Operating Officer, Mr. Aniszewski, to analyze our portfolio as a whole and oversee our independent hotel managers. Our asset management team

has managed hotel assets in every industry segment through multiple hotel business cycles. Our entire asset management team has worked together at The Summit Group for the last 10 years, providing us expertise, operational stability and in-depth knowledge of our portfolio. Although we will not manage our hotels directly following this offering, we intend to structure our hotel management agreements to allow us to closely monitor the performance of our hotels. We will work proactively with our hotel managers to continue to drive operational performance by identifying and implementing strategies to optimize hotel profitability through revenue management strategies, budgeting, analyzing cost structure, market positioning, evaluating and making capital

improvements and continually reviewing and refining our overall business strategy. We believe that by working with our hotel managers to implement sophisticated revenue management techniques we have the opportunity to enhance revenue performance for our hotels. Among other techniques, we initially will employ three full-time asset managers who will assist our hotel management companies to structure room rate plans and develop occupancy strategies to achieve optimum revenues.

§ *Strategic Focus on Largest Segments of Lodging Industry.* We believe we will be the only publicly traded REIT that focuses exclusively on upscale hotels and midscale without food and beverage hotels on a national basis. According to Smith Travel Research, representative brands in these segments include Courtyard by Marriott, Hilton Garden Inn, Hyatt Place, Homewood Suites, Residence Inn, SpringHill Suites, Staybridge Suites, Fairfield Inn, Hampton Inn, Hampton Inn & Suites, Holiday Inn Express and TownePlace Suites. By number of rooms, 81% of our hotels operate under brands owned by Marriott, Hilton, Intercontinental or Hyatt. These brands are generally regarded as the premium global franchises in our segments. We believe that business and leisure travelers prefer the consistent service and quality associated with these nationally recognized premium brands, and that brand serves as a significant driver of demand for hotel rooms. As reported by Smith Travel Research in 2010, of the approximately 29,735 branded hotels in the United States, 13,066 hotels, or 43.9%, are within our target segments (upscale: 3,536 hotels; midscale without food and beverage: 9,530 hotels). The size of this market represents a potential acquisition pool significantly larger than the upper upscale (1,669 hotels, or 5.6%, of total branded hotels) or luxury (341 hotels, or 1.2%, of total branded hotels) segments. We believe the fragmented ownership of premium-branded limited-service and select-service hotels in the upscale and midscale without food and beverage segments, the size of the segments, our longstanding relationships with franchisors, the lack of well-capitalized competitors and our extensive experience and expertise provide us a distinct competitive advantage and a significant opportunity to profitably grow our company.

§ *Growth-Oriented Capital Structure.* Upon completion of this offering and the formation transactions, we expect to employ a prudent leverage structure that will provide us the ability to make strategic acquisitions as industry fundamentals and the lending environment improves. Upon completion of this offering and application of the net proceeds as described in Use of Proceeds, we will have approximately $ million in outstanding indebtedness and hotels unencumbered by indebtedness, including hotels with rooms operating under premium brands owned by Marriott, Hilton, Intercontinental or Hyatt available to secure future loans. We believe our capital structure positions us well to capitalize on what we expect to be significant acquisition opportunities.

Table of Contents

Our Portfolio

Following completion of this offering and the formation transactions, we will own 65 hotels with a total of 6,533 guestrooms located in 19 states. Our hotels operate under leading brands owned by Marriott International, Inc., Hilton Worldwide, InterContinental Hotels Group and Hyatt Hotels and Resorts. Except as described in the footnotes to the following table, we will own our hotels in fee simple. All financial and room information is for the 12-month period ended June 30, 2010. The following table provides certain operating information for each of the 65 hotels comprising our initial portfolio:

Franchise/Brand	Location	Year of Opening or Brand Conversion	Number of Rooms	Twelve Months Ended June 30, 2010 Occupancy[1]	ADR[2]	RevPAR[3]	Segment
Marriott

* Unseasoned hotel.

(1) Occupancy represents the percentage of available rooms that were sold during a specified period of time and is calculated by dividing the number of rooms sold by the total number of rooms available, expressed as a percentage.

(2) ADR represents the average rate paid for rooms sold, calculated by dividing room revenue (i.e., excluding food and beverage revenues or other hotel operations revenues such as telephone, parking and other guest services) by rooms sold.

(3) RevPAR is the product of ADR and average daily occupancy. RevPAR does not include food and beverage revenues or other hotel operations revenues such as telephone, parking and other guest services.

(4) These hotels are subject to ground leases. See Our Hotel Operating Agreements Ground Lease Agreements.

RevPAR Penetration Index

We assess the market share of each of our hotels by analyzing the RevPAR penetration index of each hotel and changes in this number for each hotel over time. A hotel s RevPAR penetration index is its RevPAR divided by the weighted-average RevPAR of the hotels that our management has determined to be in that hotel s competitive set. A RevPAR penetration index of 100 would indicate that a hotel s RevPAR, and hence its market share is, on average, the same as its competitors . A RevPAR penetration index exceeding 100 would indicate that a hotel maintains a RevPAR premium in relation to its competitive set, while a RevPAR penetration index below 100 would be an indicator that a hotel is underperforming as compared to its competitive set.

One critical component of the RevPAR penetration index calculation, which Smith Travel Research performs based on data that it collects from us and from other hotel owners, is the hotel s competitive set. We determine the competitive set of each of our hotels and submit the relevant hotels to Smith Travel Research for purposes of calculating each hotel s RevPAR penetration index. Smith Travel Research established the following guidelines for determining competitive sets:

§ the competitive set must include a minimum of three hotels (other than our hotel) that have provided data to Smith Travel Research for any of the three months preceding a report, or participating hotels;

§ no single company (other than us) can exceed 60% of the total room supply of the participating hotels of the competitive set;

§ no single hotel (excluding our hotel) or brand can represent more than 40% of the total room supply of the competitive set; and

§ the competitive set must include at least two brands other than the brand of our hotel.

We determine our competitive sets in accordance with these Smith Travel Research guidelines. Within these guidelines, the factors that we consider in determining a hotel s competitive set include hotel segment and geographic proximity based on franchise area of protection. For example, for an upscale property in a suburban market, we generally would submit to Smith Travel Research for that hotel s competitive set each upscale property within a five-mile radius of our hotel. Our methodology for determining a hotel s competitive set may differ materially from that used by other owners or managers.

The following tables set forth the RevPAR penetration index for each of the hotels in our seasoned and unseasoned portfolios for the twelve-month period ended June 30, 2010.

Aloft	Jacksonville, FL	56.6
Weighted average (based on number of rooms)		**86.4%**

In addition to these hotel properties, our predecessor owns the following parcels of vacant land that we believe are suitable for the development of new hotels, the possible expansion of existing hotels or the development of restaurants in proximity to certain of our predecessor s hotels:

Location	Potential Use	Acres
Flagstaff, Arizona	Development of one restaurant pad	2.0
Ft. Myers, Florida	Development of one or two restaurant pads	3.1
Boise, Idaho	Development of one hotel	3.1
Boise, Idaho	Possible expansion of existing hotel	2.3
Boise, Idaho	Possible expansion of existing hotel	1.0

San Antonio, Texas	Development of two restaurant pads	3.0

We have no current intention of developing new hotels or restaurants or expanding any of our existing hotels at these parcels. We may in the future sell these parcels when market conditions warrant. In addition to the parcels described

above, our predecessor owns the following parcels of vacant land, which our predecessor has entered into a contract to sell to an unaffiliated hotel developer for an aggregate purchase price of $30.4 million:

Location	Potential Use	Acres
Jacksonville, Florida	One hotel	3.3
Twin Falls, Idaho	One hotel	2.5
Missoula, Montana	One hotel	2.2
El Paso, Texas	Two hotels	5.0
Houston, Texas	One hotel	2.8
San Antonio, Texas	One hotel	2.6
San Antonio, Texas	Two hotels	6.0
Spokane, Washington	Two hotels	4.6

The purchaser intends to develop 11 new hotels located at these parcels. As a condition to closing, our predecessor will contribute approximately $15.0 million of the purchase price to a joint venture formed with the purchaser to hold title to the parcels and the hotels, if any are developed. In exchange for its contribution, our predecessor will receive a 10% ownership interest in the joint venture. We will acquire this ownership interest in the merger, which will permit us to receive 10% of the available cash generated by any hotels developed by the purchaser at these parcels. Although our predecessor expects to complete this transaction prior to completion of this offering, closing of this transaction is subject to customary closing conditions, including lender consents. We cannot assure you that our predecessor will complete this transaction. If completed, the purchaser may not develop any hotels and we may not earn any income from the 10% ownership interest in the joint venture. We expect to form one or more TRSs to hold all or a portion of the 10% ownership interest in the joint venture.

Our Growth Strategies and Investment Criteria

Our primary objective is to enhance stockholder value over time by generating strong risk-adjusted returns for our stockholders. We believe we can create long-term value by pursuing the following strategies.

§ *Internal Growth from Strengthening Lodging Industry Fundamentals.* We believe our hotels will experience significant revenue growth as lodging industry fundamentals recover from the economic recession which caused industry-wide RevPAR to suffer a combined 18.4% decline in 2008 and 2009, according to Smith Travel Research. Industry conditions have shown improvement during the eight months of 2010, with RevPAR growth across all segments of 4.0% as compared to the same period of 2009, according to Smith Travel Research. Colliers PKF Hospitality Research forecasts significant compound annual growth in RevPAR from 2010 to 2014 of 7.0% for the upscale segment and 8.5% for the midscale without food and beverage segment, the best forecast for any segment in the industry. We believe both our seasoned and unseasoned hotels will benefit from these improving fundamentals. In particular, we expect our unseasoned hotels to contribute significantly to cash flow as the hotels continue to stabilize. In addition, we believe the significant recent capital investments in our hotels will position our hotels to outperform their competitors during this recovery period.

§ *Disciplined Acquisition of Hotels.* We intend to grow through acquisitions of existing hotels using a disciplined and targeted approach while maintaining a prudent capital structure. Our expectation is that the current lodging cycle will present us with many favorable acquisition opportunities, as hotel owners seek to exit distressed investments or minimize refinancing risks through hotel sales. We also believe that franchisors may be interested in focusing their capital on hotel management as opposed to ownership, which could enable

us to leverage our relationships with our brand partners to acquire hotels directly from them in off-market transactions. In this favorable acquisition environment, we will actively screen investment opportunities changing business demand dynamics, consumer habits and the landscape of city development. In addition, we employ a proactive and continuous assessment of our hotels, markets and brands in order to quickly and efficiently upgrade our hotels as market conditions warrant. We intend to target upscale and midscale without food and beverage hotels that meet one or more of the following acquisition criteria including:

have potential for strong risk-adjusted returns located in the Top 50 MSAs, with a secondary focus on the next 100 markets;

operate under leading franchise brands, which may include but are not limited to Marriott, Hilton, InterContinental and Hyatt;

are located in close proximity to multiple demand generators, including businesses and corporate headquarters, retail centers, airports, medical facilities, tourist attractions, and convention centers, with a diverse source of potential guests, including corporate, government and leisure travelers;

are located in markets exhibiting barriers to entry due to strong franchise areas of protection or other factors;

can be acquired at a discount to replacement cost; and

provide an opportunity to add value through operating efficiencies, repositioning, renovating or rebranding.

§ *Selective Hotel Development.* We believe there will be attractive opportunities to partner on a selective basis with experienced hotel developers to acquire upon completion newly constructed hotels that meet our investment criteria. In reviewing these opportunities, we target markets exhibiting one or more of the following characteristics:

no suitable and appropriately priced existing hotel in the market that is available for purchase;

demonstrated demand in the market for upscale hotels or midscale without food and beverage hotels;

barriers to entry of additional new hotels from franchise areas of protection;

availability of a high-quality franchise appropriate for the market; and

availability of a high-quality franchise near one of our existing hotels that could otherwise compete with us.

§ *Strategic Hotel Sales.* Our strategy is to acquire and own hotels. However, consistent with our strategy of maximizing the cash flow of our portfolio and our return an invested capital, we periodically review our hotels to determine if any significant changes to area markets or our hotels have occurred or are anticipated to occur that would warrant the sale of a particular hotel. We also consistently evaluate the best way to optimize our portfolio and return on invested capital. The factors we use in evaluating whether to sell a hotel include, among others:

quality of brand;

new hotel supply;

age of the hotel;

cost of renovation;

major infrastructure expansion;

changes to major area employers;

changes to hotel demand generators;

ability to profitably invest the proceeds of a sale; and

tax consequences of a sale.

In addition, we may sell older hotels in markets where we own a single hotel, or where we own only one hotel franchised with a particular franchisor.

Our Financing Strategy

We expect to maintain a prudent capital structure and intend to limit the sum of the outstanding principal amount of our consolidated net indebtedness to not more than 5.5x of our EBITDA for the 12-month period preceding the incurrence of such debt. Over time, we intend to finance our long-term growth with common and preferred equity issuances and debt financing having staggered maturities. Our debt may include mortgage debt secured by hotels and unsecured debt.

Over time, as market conditions permit, we intend to finance our growth with issuances of common equity, preferred equity and secured and unsecured debt having staggered maturities. Following completion of this offering, we anticipate

entering into a credit facility to fund future acquisitions, as well as for property redevelopments and working capital requirements. We may not succeed in obtaining a credit facility on favorable terms or at all. We cannot predict the size or terms of the credit facility if we are able to obtain one.

When purchasing hotel properties, we may issue OP units as full or partial consideration to sellers who may desire to take advantage of tax deferral on the sale of a hotel or participate in the potential appreciation in value of our common stock.

Our Industry and Market Opportunity

Following the global economic recession in recent years, the U.S. economy is showing signs of stabilization, and lodging industry experts are projecting a strong recovery in fundamentals over the next several years.

Focus on Premium Brands and Segments

We focus on hotels in the upscale and midscale without food and beverage segments of the lodging industry. Within these segments, we target hotels operating under premium franchise brands such as Courtyard by Marriott, Hilton Garden Inn, Hyatt Place, Homewood Suites, Residence Inn, SpringHill Suites, Staybridge Suites, Fairfield Inn, Hampton Inn, Hampton Inn and Suites, Holiday Inn Express and TownePlace Suites.

We believe that focusing our ownership on hotels operating under these premium brands provides us the opportunity to achieve stronger risk-adjusted returns across multiple lodging cycles than if we owned hotels in other segments of the lodging industry for several reasons, including:

RevPAR Growth. Colliers PKF Hospitality Research forecasts that our market segments will experience the largest amount of RevPAR growth of any segment in the industry, as shown in the following chart.

Consistently Strong and Growing Demand. As shown in the chart below, over the last twenty years, our market segments have demonstrated the strongest compounded growth in demand of all segments of the lodging industry, and strong demand growth is expected to continue.

More Stable Cash Flow Potential. Our hotels can be operated with fewer employees than full-service hotels that offer more expansive food and beverage options, which we believe enables us to generate more consistent cash flows with less volatility resulting from reductions in RevPAR and less dependence on group travel.

Broad Customer Base. Our target brands deliver consistently high-quality hotel accommodations with value-oriented pricing that we believe appeals to a wider range of customers, including both business and leisure travelers, than more expensive full-service hotels. We believe that our hotels are particularly popular with frequent business travelers who seek to stay in hotels operating under Marriott, Hilton, Hyatt or InterContinental brands, which offer strong loyalty rewards program points that can be redeemed for family travel.

Enhanced Diversification. Premium-branded limited-service and select-service assets generally cost significantly less, on a per-key basis, than hotels in the midscale with food and beverage, upper upscale and luxury segments of the industry. As a result, we can diversify our ownership into a larger number of hotels than we could in other segments.

Lodging Industry Fundamentals

Beginning in August 2008, the U.S. lodging industry experienced 19 consecutive months of RevPAR declines, as measured against the same month in the prior year, driven by a combination of deterioration in room-night demand and increasing supply. According to Smith Travel Research, hotel room-night demand decreased 2.3% and 6.0% in 2008 and 2009, respectively, marking the greatest decline in the past 22 years. Conversely, room supply growth of 2.5% and 3.0% in 2008 and 2009, respectively, exceeded the historical average of 2.2%, as construction initiated prior to the economic downturn was completed. For the year ended December 31, 2009, average annual hotel occupancy in the United States was 54.7%, representing the lowest annual level in the past 22 years and well below the industry average of 62.2% for that period. Deteriorating demand and increasing supply led to a combined 18.4% decline in RevPAR in 2008 and 2009.

Although the lodging industry has historically lagged broader economic recoveries, economic fundamentals are beginning to improve from the recent declines resulting from the recessionary environment. In June 2010, the U.S. unemployment rate continued to show improvement from its high in late 2009. After continuing declines for almost two years prior, June 2010 marked the U.S. lodging industry s fourth consecutive month of positive year-over-year RevPAR growth with an 8.0% increase.

We believe that, until lodging industry fundamentals and credit terms return to more attractive levels, proposed new hotel development will not generate the returns necessary to justify the construction of new hotels. According to Smith Travel Research, RevPAR increased 4.3% and 2.2% in our target upscale and midscale without food and beverage segments, respectively, for the first eight months of 2010 as compared to the same period of 2009, and we expect RevPAR growth to continue as the U.S. economy continues to strengthen. Colliers PKF Hospitality Research currently projects RevPAR growth of upscale hotels to be 4.2% in 2011, 11.1% in 2012 and 9.5% in 2013 and RevPAR growth of midscale without food and beverage hotels to be 5.9% in 2011, 12.2% in 2012 and 10.9% in 2013, among the highest in any industry segment. We expect that our hotels, and particularly our unseasoned hotels, will realize significant RevPAR gains as the economy and lodging industry improve.

Table of Contents

Demand Overview

Room-night demand in the U.S. lodging industry is directly correlated to macroeconomic trends. Key drivers of demand include growth in GDP, corporate profits, capital investments and employment. Following periods of recession, recovery in room-night demand for lodging historically has lagged improvements in the overall economy.

According to the International Monetary Fund, or the IMF, U.S. GDP increased 0.4% in 2008 and decreased 2.4% in 2009 during which periods room-night demand declined 2.3% and 6.0% respectively, as measured by Smith Travel Research. The IMF is forecasting GDP growth of 3.3% and 2.9% in 2010 and 2011 respectively, and Colliers PKF Hospitality Research expects that room-night demand will grow at similar rates over those years as the U.S. economy improves. The following chart illustrates the correlation between U.S. GDP and demand for hotel rooms.

With expected growth in room-night demand and limited new supply, occupancy is projected to increase from industry lows experienced in 2009.

Supply Overview

Growth in lodging supply typically lags growth in room-night demand. Key drivers of lodging supply in a given market include the availability and cost of capital, construction costs, local real estate market conditions and availability and pricing of existing properties. Given the decline in room-night demand and inefficiencies in the financing market nationally, new hotel construction is expected to remain below historical averages through 2014 according to Colliers PKF Hospitality Research. The charts appearing below outline the relationship between supply and demand of hotel rooms in the upscale and midscale without food and leverage segments of the U.S. lodging industry over the last 22 years.

As a result of scarcity of financing, severe recession and declining operating fundamentals during 2008 and 2009, many planned hotel developments have been cancelled or postponed, and the number of rooms under construction and in planning has declined significantly. According to Lodging Econometrics, during the second quarter of 2010, approximately 68,000 new hotel rooms were under construction in the U.S., as compared to approximately 242,000 rooms under construction in the second quarter of 2008, a decline of 72%. Accordingly, Colliers PKF Hospitality Research has projected room supply to increase 1.1% in 2011, increase 0.8% in 2012 and increase 1.2% and 2.3% in 2013 and 2014, respectively. The projected 1.5% average annual growth in supply from 2010 to 2014 is significantly below the 2.2% annual average from 1988 to 2009. We believe this below-average projected supply growth is due to scarcity of financing for hotel properties and operating fundamentals that do not generate adequate returns relative to the cost of new hotel construction. The lodging industry is influenced significantly by the cyclical relationship between the supply of and demand for hotels and, as a result, we believe minimal new room supply growth will create an environment favorable for sustainable

Table of Contents

increases in hotel occupancy, ADR and RevPAR. The following charts shows annual historical and projected change in RevPAR, room demand and room supply:

Attractive Transaction Landscape

We believe that the significant decline in lodging fundamentals and subsequent declines in of cash flows has created a difficult environment for undercapitalized hotel owners. Hotel-related CMBS delinquency rates have steadily increased since January 2009 as many hotel owners have been unable to fund debt service payments. As of June 30, 2010,

Table of Contents

approximately 13.4% of all hotel-related CMBS was delinquent compared to just 1.5% delinquent as of January 2009. The following chart shows hotel delinquency rates and amounts from January 2009 to June 2010.

Without sufficient cash flow, many hotel owners may be unable to fund the capital improvements required to maintain their properties brand standards. Additionally, hotel owners could face additional future financing issues arising from existing debt obligations and, according to Bloomberg, upcoming maturities with approximately $28.4 billion of hotel-related commercial mortgage-backed securities, or CMBS, are scheduled to mature through 2013 and a significant number of additional maturities are expected between 2015 and 2017. The following chart shows future maturities of hotel-related CMBS.

Table of Contents

We believe traditional lending sources, such as banks, insurance companies and pension funds, have adopted more conservative lending policies and have materially reduced lending exposure to hotels as a result of the recent recessionary environment. We also believe that the significant number of hotel properties experiencing substantial declines in operating cash flow, coupled with tight credit markets, near-term debt maturities and, in some instances, covenant defaults relating to outstanding indebtedness, will present attractive investment opportunities in the lodging industry. Accordingly, we believe our conservative balance sheet upon completion of this offering will allow us to take advantage of opportunities to acquire hotel properties at prices significantly below replacement cost, with substantial appreciation potential as the U.S. economy recovers from the current recession.

Regulation

Our properties are subject to various covenants, laws, ordinances and regulations, including regulations relating to accessibility, fire and safety requirements. We believe each of our initial hotels has the necessary permits and approvals to operate its business.

Americans with Disabilities Act

Our properties must comply with Title III of the ADA to the extent that they are public accommodations as defined by the ADA. Under the ADA, all public accommodations must meet federal requirements related to access and use by disabled persons. The ADA may require removal of structural barriers to access by persons with disabilities in certain public areas of our properties where removal is readily achievable. Although we believe the properties in our portfolio substantially comply with present requirements of the ADA, we have not conducted a comprehensive audit or investigation of all of our properties to determine our compliance, and we are aware that some particular properties may currently be in non-compliance with the ADA. Noncompliance with the ADA could result in the incurrence of additional costs to attain compliance. The obligation to make readily achievable accommodations is an ongoing one, and we will continue to assess our properties and to make alterations as appropriate in this respect.

Environmental Matters

Our hotels and development parcels are subject to various federal, state and local environmental laws that impose liability for contamination. Under these laws, governmental entities have the authority to require us, as the current owner of property, to perform or pay for the clean up of contamination (including hazardous substances, waste, or petroleum products) at, on, under or emanating from the property and to pay for natural resource damages arising from contamination. These laws often impose liability without regard to whether the owner or operator or other responsible party knew of, or caused the contamination, and the liability may be joint and several. Because these laws also impose liability on persons who owned a property at the time it became contaminated, we could incur cleanup costs or other environmental liabilities even after we sell properties. Contamination at, on, under or emanating from our properties also may expose us to liability to private parties for costs of remediation, personal injury and/or property damage. In addition, environmental liens may be created on contaminated sites in favor of the government for damages and costs it incurs to address contamination. If contamination is discovered on our properties, environmental laws also may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures. Moreover, environmental contamination can affect the value of a property and, therefore, an owner s ability to borrow funds using the property as collateral or to sell the property on favorable terms or at all. Furthermore, persons who sent waste to a waste disposal facility, such as a landfill or an incinerator, may be liable for costs associated with cleanup of that facility.

Some of our properties may have contained historic uses which involved the use and/or storage of hazardous chemicals and petroleum products (for example, storage tanks, gas stations, dry cleaning operations) which, if

released, could have impacted our properties. In addition, some of our properties may be near or adjacent to other properties that have contained or currently contain storage tanks containing petroleum products or conducted or currently conduct operations which utilize other hazardous or toxic substances. Releases from these adjacent or surrounding properties could impact our properties and we may be liable for any associated cleanup.

Independent environmental consultants conducted Phase I environmental site assessments on all of our properties prior to acquisition and we intend to conduct Phase I environmental site assessments on properties we acquire in the

future. Phase I site assessments are intended to discover and evaluate information regarding the environmental condition of the surveyed properties and surrounding properties. These assessments do not generally include soil sampling, lsubsurface investigations, comprehensive asbestos surveys or mold investigations. In some cases, the Phase I environmental site assessments were conducted by another entity (i.e., a lender) and we may not have the authority to rely on such reports. Except for our Bloomington, Minnesota hotels, and our Cambria Suites hotel located in San Antonio, Texas, none of the Phase I environmental site assessments of the hotel properties in our initial portfolio revealed any past or present environmental condition that we believe could have a material adverse effect on our business, assets or results of operations. Soil and groundwater contamination at the site of our Bloomington, Minnesota hotels was voluntarily remediated by our predecessor to the satisfaction of the Minnesota Pollution Control Agency. A material liability could arise in the future if the contamination at the site of the Bloomington, Minnesota hotels impacted third parties or an adjacent property if the Minnesota agency requires further clean-up or if our predecessor s clean-up does not satisfy the U.S. Environmental Protection Agency. Low levels of soil contamination and high levels of groundwater contamination were also identified at our Cambria Suites hotel located in San Antonio, Texas. The property was sampled on two occasions, after which our environmental consultant recommended no further action unless the contaminated soil was disturbed. A material liability could arise in the future if the contamination impacts an adjacent property or if we are required to remediate it. In addition, the Phase I environmental site assessments may also have failed to reveal all environmental conditions, liabilities or compliance concerns. The Phase I environmental site assessments were completed at various times within the past seven and one-half years and material environmental conditions, liabilities or compliance concerns may have arisen after the review was completed or may arise in the future; and future laws, ordinances or regulations may impose material additional environmental liability.

In addition, our hotels are subject to various federal, state, and local environmental, health and safety regulatory requirements that address a wide variety of issues, including, but not limited to, storage tanks, air emissions from emergency generators, storm water and wastewater discharges, protection of natural resources, asbestos, lead-based paint, mold and mildew, and waste management. Some of our hotels routinely handle and use hazardous or regulated substances and wastes as part of their operations, which are subject to regulation (for example, swimming pool chemicals or biological waste). Our hotels incur costs to comply with these environmental, health and safety laws and regulations and could be subject to fines and penalties for non-compliance with applicable laws. However, we are aware of no past or present environmental liability for non-compliance with environmental, health and safety laws and regulations that we believe would have a material adverse effect on our business, assets or results of operations.

Certain hotels we currently own or those we acquire in the future contain, may contain, or may have contained, ACM. Environmental, health and safety laws require that ACM be properly managed and maintained, and include requirements to undertake special precautions, such as removal or abatement, if ACM would be disturbed during maintenance, renovation, or demolition of a building. These laws regarding ACM may impose fines and penalties on building owners, employers and operators for failure to comply with these requirements or expose us to third-party liability.

When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Indoor air quality issues can also stem from inadequate ventilation, chemical contamination from indoor or outdoor sources, and other biological contaminants such as pollen, viruses and bacteria. Indoor exposure to airborne toxins or irritants above certain levels can be alleged to cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold or other airborne contaminants at any of our properties could require us to undertake a costly remediation program to contain or remove the mold or other airborne contaminants from the affected property or increase indoor ventilation. For example, a large-scale remediation took place at the Amerisuites Los Colinas/Hidden Ranch hotel in 2002 and we expended roughly $500,000 to complete the renovation. In addition, the presence of significant mold or other airborne

contaminants could expose us to material liability from third parties if property damage or personal injury occurs. We are not presently aware of any indoor air quality issues at our properties that would result in a material adverse effect on our business, assets or results of operations.

Insurance

We carry comprehensive liability, fire, earthquake, flood, extended coverage and business income loss insurance covering our initial hotel pursuant to several insurance policies. We also carry terrorism insurance covering all of the initial hotel properties. We believe the policy specifications and insured limits are appropriate and adequate given the relative risk

of loss, the cost of the coverage and industry practice; however, our insurance coverage may not be sufficient to fully cover our losses. We do not carry insurance for certain losses, including, but not limited to, losses caused by riots, war, acts of God or government action, neglect, criminal activity or nuclear hazard. If destroyed, we may not be able to rebuild certain of our properties due to current zoning and land use regulations. In addition, our title insurance policies may not insure for the current aggregate market value of our portfolio, and we do not intend to increase our title insurance coverage as the market value of our portfolio increases.

Competition

We face competition for investments in hotel properties from institutional pension funds, private equity investors, REITs, hotel companies and others who are engaged in hotel acquisitions and investments. Some of these entities have substantially greater financial and operational resources than we have. This competition may increase the bargaining power of property owners seeking to sell, reduce the number of suitable investment opportunities available to us and increase the cost of acquiring our targeted hotel properties.

The lodging industry is highly competitive. Our hotels will compete with other hotels for guests in their respective markets based on a number of factors, including location, convenience, brand affiliation, room rates, range of services and guest amenities or accommodations offered and quality of customer service. Competition will often be specific to the individual markets in which our hotels are located and includes competition from existing and new hotels. Competition could adversely affect our occupancy rates and RevPAR, and may require us to provide additional amenities or make capital improvements that we otherwise would not have to make, which may reduce our profitability.

Employees

Upon completion of this offering, we expect to have approximately 20 employees. We do not expect any of our employees to be covered by a collective bargaining agreement.

Legal Proceedings

We are involved from time to time in litigation arising in the ordinary course of our business; however, except as described below, we are not involved in any material litigation nor, to our knowledge, is any material litigation threatened against us.

Peter J. Poulos, a former employee of our predecessor, filed a complaint against our predecessor, Mr. Boekelheide and others with the U.S. Department of Labor/Occupational Safety and Health Administration, or OSHA. The administrative file was opened on April 6, 2009. The complaint alleges that, as a result of one circumstance of a payment being applied to incorrect accounts, our predecessor engaged in a scheme to perpetuate fraud and that the employee s subsequent termination was retaliatory and in violation of the Corporate and Criminal Fraud Accountability Act of 2002, or the CCFA. The only relief sought under the complaint is an administrative finding that our predecessor violated the CCFA. Our predecessor vehemently denies these allegations and is vigorously defending the claim. OSHA has completed its investigation and our predecessor is awaiting its findings. On August 24, 2010, OSHA determined that there was no reasonable cause to believe that our predecessor violated the CCFA and the complaint was dismissed. On August 30, 2010, Mr. Poulos objected to the findings and requested a formal hearing in the matter. A scheduling conference to establish timeframes for the hearing is expected to take place prior to October 1, 2010.

On May 12, 2009, Mr. Poulos filed a complaint in the United States District Court, Southern District of South Dakota against our predecessor, Mr. Boekelheide and Trent Peterson, our Vice President of Asset Management Eastern United

States. The complaint is based upon the same set of circumstances as in the OSHA complaint described above. The relief sought includes damages, including front and back pay, compensatory damages, punitive damages and other relief, in excess of $10.0 million. Our predecessor vehemently denies these allegations and is vigorously defending the claim. On July 10, 2009, Mr. Boekelheide was dismissed from the lawsuit. Discovery is proceeding in this case. A pre-trial conference and motions hearing was held on August 6, 2010. On September 10, 2010, the Court granted summary judgment in favor of our predecessor and dismissed five of the six claims asserted by Mr. Poulos. The Court denied summary judgment on the claim asserting wrongful termination for whistleblowing. A trial date has not been scheduled.

Our Hotel Operating Agreements

TRS Leases

In order for us to qualify as a REIT, none of our company, the operating partnership or any subsidiary can operate our hotels. Subsidiaries of our operating partnership, as lessors, lease our hotels to our TRS lessees, which will enter into hotel management agreements with . The leases for our hotel properties are between two related parties controlled by us.

Ground Lease Agreements

Four of our hotels are subject to ground lease agreements that cover all of the land underlying the respective hotel property.

- The Comfort Inn located in Fort Smith, Arkansas is subject to a ground lease with an initial lease termination date of August 31, 2022. The initial lease term may be extended for an additional 30 years. Annual ground rent currently is $44,088 per year. Annual ground rent is adjusted every fifth year with adjustments based on the Consumer Price Index for All Urban Consumers. The next scheduled ground rent adjustment is January 1, 2015.

- The Hampton Inn located in Fort Smith, Arkansas is subject to a ground lease with an initial lease termination date of May 31, 2030 with 11, five-year renewal options. Annual ground rent currently is $145,987 per year. Annual ground rent is adjusted on June 1st of each year, with adjustments based on increases in RevPAR calculated in accordance with the terms of the ground lease.

- The Residence Inn located in Portland, Oregon is subject to a ground lease with an initial lease termination date of June 30, 2084 with one option to extend for an additional 14 years. Ground rent for the initial lease term was prepaid in full at the time we acquired the leasehold interest. If the option to extend is exercised, monthly ground rent will be charged based on a formula established in the ground lease.

- The Hyatt Place located in Portland, Oregon is subject to a ground lease with a lease termination date of June 30, 2084 with one option to extend for an additional 14 years. Ground rent for the initial lease term was prepaid in full at the time we acquired the leasehold interest. If the option to extend is exercised, monthly ground rent will be charged based on a formula established in the ground lease.

These ground leases generally require us to make rental payments and payments for our share of charges, costs, expenses, assessments and liabilities, including real property taxes and utilities. Furthermore, these ground leases generally require us to obtain and maintain insurance covering the subject property.

Franchise Agreements

We will assume or enter into new franchise agreements with Marriott, Hilton, InterContinental, Hyatt, Choice, Starwood and Carlson for our hotels upon completion of this offering. All of our hotels, except for our one independent hotel, currently operate under franchise agreements with these franchisors. We believe that the public s perception of the quality associated with a brand-name hotel is an important feature in its attractiveness to guests. Franchisors provide a variety of benefits to franchisees, including centralized reservation systems, national advertising, marketing programs and publicity designed to increase brand awareness, training of personnel and

maintenance of operational quality at hotels across the brand system.

The franchise agreements will require our TRS lessees, as franchisees, to pay franchise fees ranging between 2% and 6% of each hotel s gross revenues. In addition, some of our franchise agreements will require our TRS lessees to pay marketing fees of up to 4% of each hotel s gross revenues. These agreements generally will specify management, operational, record-keeping, accounting, reporting and marketing standards and procedures with which our TRS lessees, as the franchisees, must comply. The franchise agreements will obligate our TRS lessees to comply with the franchisors standards and requirements, including training of operational personnel, safety, maintaining specified insurance, the types of services and products ancillary to guest room services that may be provided by the TRS lessee, display of signage and the type, quality and age of furniture, fixtures and equipment included in guest rooms, lobbies and other common areas.

Table of Contents

Some of the agreements may require that we deposit a set percentage, generally not more than 5% of the gross revenues of the hotels, into a reserve fund for capital expenditures.

We will be required to obtain the written consent of a hotel s franchisor to sell a hotel or we may be required to pay franchise termination fees. The franchise agreements generally will also provide for termination at the applicable franchisor s option upon the occurrence of certain events, including failure to pay royalties and fees or to perform other obligations under the franchise license, bankruptcy and abandonment of the franchise or a change in control or proposed sale of a franchised property. The TRS lessee that is the franchisee will be responsible for making all payments under the applicable franchise agreement to the franchisor. We anticipate the obligations under each of the franchise agreements will be guaranteed by us, our operating partnership or one of our subsidiaries; however, the franchisors will determine the appropriate guarantors.

Hotel Management Agreements

In order to qualify as a REIT, we cannot directly or indirectly operate any of our hotels. We will lease our hotels to subsidiaries of our TRS, TRS lessees, which will in turn engage property managers to manage our hotels. will be the property manager for all 65 of the hotels in our initial portfolio.

Our TRS lessees will enter into hotel management agreements for each of the hotels in our initial portfolio with , as our hotel manager. These hotel management agreements will become effective upon the closing of this offering.

Management

Directors and Executive Officers

Our board of directors is responsible for directing the management of our business and affairs. Our stockholders will elect our entire board of directors annually. Upon completion of this offering and the formation transactions, we expect to have seven directors on our board, five of whom will be independent under NYSE listing standards. We currently have two directors, our Executive Chairman, Kerry W. Boekelheide, and our President and Chief Executive Officer, Daniel P. Hansen, neither of whom is independent under NYSE listing standards. Upon completion of this offering and the formation transactions, we do not expect that there will be any familial relationships between any of our directors and executive officers.

The following table provides certain information regarding our initial directors, our executive officers and our director nominees:

Name	Age	Position
Kerry W. Boekelheide	56	Executive Chairman of the Board and Director
Daniel P. Hansen	41	President and Chief Executive Officer and Director
Craig J. Aniszewski	47	Executive Vice President and Chief Operating Officer
Stuart J. Becker	48	Executive Vice President, Chief Financial Officer and Treasurer
Ryan A. Bertucci	37	Vice President of Acquisitions
Christopher R. Eng	39	Vice President, General Counsel and Secretary
Bjorn R. L. Hanson	59	Independent Director*
David S. Kay	43	Independent Director*
Thomas W. Storey	54	Independent Director*
Wayne W. Wielgus	56	Independent Director*
		Independent Director*

* Has agreed to become a director upon completion of this offering.

Biographies of Our Directors and Executive Officers

Kerry W. Boekelheide, Executive Chairman of the Board and Director

Mr. Boekelheide will serve as our Executive Chairman of the Board and as a member of our board of directors. He has served as the Chief Executive Officer and as a member of the board of managers of our predecessor since its formation in 2004. Mr. Boekelheide has served as the Chairman and sole director of The Summit Group since 1991. The Summit Group, with its affiliates, developed and acquired 54 hotels from 1991 through 2004. Prior to forming The Summit Group, Mr. Boekelheide was President and a shareholder of Super 8 Management, Inc., which was responsible for the management of over 100 Super 8 Motels located across the United States and Canada, and held numerous other positions in various companies that developed, owned and operated Super 8 Motels in the United States and Canada. Mr. Boekelheide graduated with a B.S. degree in business from Northern State University.

Key Attributes, Experience and Skills:

Mr. Boekelheide brings leadership and extensive experience and knowledge of our company and industry to the board. As the founder and president of our predecessor, Mr. Boekelheide has the most long-term and valuable hands-on knowledge of the issues, opportunities and challenges facing us and our business. In addition, Mr. Boekelheide brings his broad strategic vision for our company to the board.

Daniel P. Hansen, President, Chief Executive Officer and Director

Mr. Hansen will serve as our President and Chief Executive Officer and as a member of our board of directors. Mr. Hansen joined The Summit Group in October of 2003 as Vice President of Investor Relations. His responsibilities included leading the capital raising efforts for our predecessor s private placements of its equity securities and assisting in acquisition due diligence. In 2005, he was appointed to our predecessor s board of managers and was promoted to

Executive Vice President, in which capacity he was part of the team that acquired over $140 million of hotel properties and led the development of over $240 million of hotel assets. He was appointed President of The Summit Group and Chief Financial Officer of our predecessor in 2008. His primary responsibilities included the development and execution of growth strategies for both companies, raising equity capital and hotel development and acquisition. Prior to joining The Summit Group, Mr. Hansen spent 11 years with Merrill Lynch, Pierce, Fenner & Smith Incorporated, or Merrill Lynch, in various leadership positions, culminating as a Vice President and Regional Sales Manager for Merrill Lynch in the Texas Mid-South Region, which included Texas, Louisiana, Arkansas and Oklahoma. Mr. Hansen graduated from South Dakota State University with a B.A. in economics.

Key Attributes, Experience and Skills:

Mr. Hansen s service as our President and Chief Executive Officer provides a critical link between management and the board, enabling the board to perform its oversight function with the benefits of management s perspectives on the business. Mr. Hansen also provides us with extensive experience in the hospitality industry as well as a capital markets background that will assist our board in analyzing capital raising opportunities and issues.

Craig J. Aniszewski, Executive Vice President and Chief Operating Officer

Mr. Aniszewski will serve as our Executive Vice President and Chief Operating Officer. Mr. Aniszewski joined The Summit Group in January 1997 as Vice President of Operations and Development. He became the Executive Vice President and Chief Operating Officer of The Summit Group in 2007 and has been a member of the board of managers of our predecessor since 2004. Mr. Aniszewski will continue to serve as an officer of The Summit Group upon completion of this offering. Mr. Aniszewski joined The Summit Group following 13 years with Marriott International, Inc., or Marriott, where he held sales and operations positions in full-service convention and resort hotels. During his career with Marriott, he also worked in the select-service sector, holding positions including the Director of Sales and General Manager for Residence Inn- and Courtyard- branded hotels located in Florida, New York, Connecticut, Pennsylvania, Maryland and North Carolina. Mr. Aniszewski graduated from the University of Dayton with a B.S. degree in criminal justice and minors in business and psychology.

Stuart J. Becker, Executive Vice President and Chief Financial Officer

Mr. Becker will serve as our Executive Vice President, Chief Financial Officer and Treasurer. Mr. Becker joined Summit Green Tiger, an affiliate of The Summit Group, in 2007 as an Executive Vice President and Secretary where he focused on acquisitions, capital allocation, debt placement and strategic analysis. Prior to joining Summit Green Tiger, Mr. Becker served as a principal of McCarthy Group, Inc., or McCarthy Group, and its subsidiary, McCarthy Capital, Inc. from 2005 to 2007. McCarthy Group is a private equity company headquartered in Omaha, Nebraska, which focuses on diversified investments in growth companies. Mr. Becker was responsible for managing deal flow, acquisitions, underwriting and investment oversight. From 1984 until 2005, Mr. Becker was involved in finance and corporate banking for several regional and national banking firms, including First Interstate, First Bank (predecessor to US Bank) and most recently, First National Bank of Omaha, from 1997 to 2005, where he was Vice President for corporate banking, regional credit and syndications. Mr. Becker earned a B.S. degree in business management from the University of South Dakota and an M.B.A. from the University of Nebraska at Omaha.

Ryan A. Bertucci, Vice President of Acquisitions

Mr. Bertucci will serve as our Vice President of Acquisitions. Mr. Bertucci joined Summit Green Tiger, an affiliate of The Summit Group, in 2007 as an Executive Vice President and Treasurer. In addition, Mr. Bertucci led the capital-raising efforts for Summit Capital Partners, LLC, or Summit Capital, an SEC registered securities broker dealer affiliated with The Summit Group. Prior to joining Summit Green Tiger and Summit Capital, Mr. Bertucci

worked for First National Nebraska, Inc. From 2004 to 2007, he served as Vice President with First National Investment Banking, or FNIB, an affiliate of First National Nebraska, Inc. While with FNIB, Mr. Bertucci was responsible for starting and building the firm s alternative investment platform. Prior to his service at FNIB, Mr. Bertucci spent three years with First National Bank of Omaha as a corporate loan officer. Mr. Bertucci earned a B.S. degree in business administration with an emphasis in both finance and marketing from the University of Nebraska at Kearney.

Table of Contents

Christopher R. Eng, Vice President, General Counsel and Secretary

Mr. Eng will serve as our Vice President, General Counsel and Secretary. Mr. Eng was appointed Vice President, General Counsel and Secretary of The Summit Group and our predecessor in 2004. Mr. Eng was responsible for The Summit Group s legal affairs and for guiding its corporate compliance, focusing on real estate acquisitions and dispositions, franchise licensing, corporate insurance coverage, corporate governance and securities industry regulatory compliance. Prior to joining The Summit Group, Mr. Eng was an Assistant Vice President and Trust Officer for The First National Bank in Sioux Falls. Mr. Eng earned his B.A. degree from Augustana College and his J.D. degree from the University of Denver College of Law.

Bjorn R. L. Hanson, Independent Director

Dr. Hanson has agreed to serve on our board of directors effective upon completion of this offering. Dr. Hanson has worked in the hospitality industry for more than 35 years and has been involved in consulting, research and investment banking in the lodging sector. He joined the New York University School of Continuing Professional Studies in June 2008 as a clinical professor teaching in the school s graduate and undergraduate hospitality and tourism programs and directing applied research projects. In 2010, he was appointed as the divisional dean of that school s Preston Robert Tisch Center for Hospitality, Tourism, and Sports Management. Before joining the Tisch Center, Dr. Hanson was a partner with PricewaterhouseCoopers LLP and its predecessor, Coopers & Lybrand LLP, which he joined in 1989. Dr. Hanson founded the hospitality, sports, convention and leisure practice and held various positions at PricewaterhouseCoopers and Coopers & Lybrand, including National Industry Chairman for the Hospitality Industries, National Service Line Director for Hospitality Consulting, National Industry Chairman for Real Estate, Real Estate Service Line Director and National Director of Appraisal Services. Additionally, he served on the U.S. leadership committee and global financial advisory services management committee of PricewaterhouseCoopers. Dr. Hanson was also managing director with two Wall Street firms, Kidder, Peabody & Co. and PaineWebber Inc., for which he led banking and research departments for lodging and gaming. Dr. Hanson received a B.S. from Cornell University School of Hotel Administration, an M.B.A. from Fordham University and a Ph.D. from New York University.

Key Attributes, Experience and Skills:

Dr. Hanson brings a wide range of experience in consulting, research and investment banking in the lodging sector to our board. Further, he brings an academic perspective on the hospitality and tourism industries, which enhances our board s ability to analyze macroeconomic issues and trends relevant to our business. Finally, Dr. Hanson s leadership roles in market trend analysis, economic analysis and financial analysis specific to our industry provide our board with additional depth in analyzing financial reporting issues faced by companies similar to ours.

David S. Kay, Independent Director

Mr. Kay has agreed to serve on our board of directors effective upon completion of this offering. Mr. Kay has worked in finance, accounting and business planning and strategy for more than 20 years and has been involved with REITs for over 13 years, which we believe qualifies him to serve as a member of our board of directors. He is the Executive Vice President, Chief Financial Officer and Treasurer of Capital Automotive Real Estate Services, Inc., whose predecessor, Capital Automotive REIT, he co-founded in 1997 and took public in 1998. Mr. Kay served as Senior Vice President, Chief Financial Officer and Treasurer for Capital Automotive until it was taken private in a nearly $4 billion privatization transaction in 2005. Prior to founding Capital Automotive, Mr. Kay worked at the public accounting firm of Arthur Andersen LLP in Washington, D.C. for approximately ten years. While at Arthur Andersen, Mr. Kay provided consulting services to clients regarding mergers and acquisitions, business planning and strategy and equity financing. He has experience with capital formation projects, roll-up transactions and initial public

offerings for companies in various industries. Mr. Kay is a member of James Madison University s College of Business Executive Advisory Council and is a certified public accountant. Mr. Kay received a B.B.A., with a concentration in accounting, from James Madison University.

Key Attributes, Experience and Skills:

Mr. Kay was chosen to join our board specifically to serve our audit committee as its audit committee financial expert. We targeted a director with financial and auditing experience specific to the REIT industry. Mr. Kay worked in auditing for Arthur Andersen for ten years and is the Executive Vice President, Chief Financial Officer and Treasurer of Capital Automotive Real Estate Services, Inc., whose predecessor, Capital Automotive REIT, was a publicly traded REIT. Mr. Kay

also gained experienced with the issues facing new, publicly traded REITs at Capital Automotive. These experiences position Mr. Kay to serve on our audit committee and full board.

Thomas W. Storey, Independent Director

Mr. Storey has agreed to serve on our board of directors effective upon completion of this offering. Mr. Storey has worked in the hospitality industry for more than 25 years. He is Executive Vice President Business Strategy for Fairmont Raffles Hotels International (FRHI), a leading global hotel company with over 100 hotels worldwide under the Fairmont, Raffles and Swissôtel brands, that Mr. Storey joined in 1999. Having helped launch FRHI as a publicly traded company and its subsequent privatization, Mr. Storey is responsible for strategic planning and helping to identify new opportunities for FRHI that capitalize on improving business fundamentals. Mr. Storey has held a series of progressive leadership positions with FRHI, including Executive Vice President, Development and Executive Vice President Business Development & Strategy, as well as President of Fairmont Hotels and Resorts. Mr. Storey has been a member of various hospitality industry organizations, including the American Hotel & Lodging Association, the Travel Industry Association of America, and Professional Conference and Meeting Planners. Mr. Storey received a B.A. in economics from Bates College and an M.B.A. from the Johnson School at Cornell University.

Key Attributes, Experience and Skills:

Mr. Storey provides our board with strategic vision to position our company as lodging industry fundamentals begin to strengthen after the economic recession. As Executive Vice President Business Strategy of Fairmont Raffles Hotels International, Mr. Storey has been instrumental in helping lead that company through various lodging cycles. We expect Mr. Storey s experience in analyzing and reacting to changing conditions in the hospitality industry will serve our board as our company grows. We also expect Mr. Storey s operations experience as President of Fairmont Hotels and Resorts to help him provide valuable insights to our board. Mr. Storey also possesses particular expertise in business travel, an important aspect of our business.

Wayne W. Wielgus, Independent Director

Mr. Wielgus has agreed to serve on our board of directors effective upon completion of this offering. Mr. Wielgus has worked in the hospitality industry for more than 30 years. In August 2009, Mr. Wielgus founded International Advisor Group LLC, which advises several companies in the hospitality industry. Before founding International Advisor Group, he served as Senior Vice President of Marketing of Celebrity and Azamara Cruises, two of Royal Caribbean Cruises Ltd. s brands, from March 2008 until August 2009, where he was responsible for the two brands overall marketing efforts, including brand strategy and development, advertising, web marketing and research. Mr. Wielgus served as Executive Vice President and Chief Marketing Officer of Choice Hotels International, Inc. from September 2004 until July 2007, after serving as that company s Senior Vice President, Marketing from September 2000 to September 2004. Prior to joining Choice Hotels, Mr. Wielgus held various positions with Best Western International, Inc., Trusthouse Forte PLC, InterContinental Hotels Corporation and Ramada Worldwide Inc. Mr. Wielgus received a B.S. in Marketing from Fairfield University and an M.B.A. from Memphis University.

Key Attributes, Experience and Skills:

Mr. Wielgus contributes significant leadership experience in marketing, brand strategy and promotions. His service as Senior Vice President of Marketing of Celebrity and Amazara Cruises provides valuable business, leadership and management experience, including expertise leading marketing strategy and initiatives for a company in the tourism industry, which is a significant part of our business. Mr. Wielgus also gained similar experience specific to the hospitality industry in his role as Executive Vice President and Chief Marketing Officer of Choice Hotels International, Inc., one of the primary franchisors of our hotels. Thus, Mr. Wielgus also brings to our board insights

from the perspective of hotel franchisors, which we expect to enhance our ability to maximize our brand strategy and franchisor relationships. He currently acts as an outside consultant to companies in the hospitality industry, which gives him a keen understanding of some of the issues our company will face.

Other Key Employees

JoLynn M. Sorum, Vice President, Controller and Chief Accounting Officer

Ms. Sorum will serve as our Vice President, Controller and Chief Accounting Officer. Ms. Sorum has been the Controller for The Summit Group since 1998 and for our predecessor since its inception in 2004. Ms. Sorum is responsible

for accounting, SEC reporting and internal control practices for The Summit Group and our predecessor. Prior to joining The Summit Group, she worked for First Premier Bank as a Finance Officer for three years and for Western Bank as an Internal Auditor for seven years. Ms. Sorum is a Certified Public Accountant and currently serves on the board of directors of the South Dakota CPA Society. Ms. Sorum earned a B.S. degree in accounting from Huron University.

David W. Heinen, Vice President of Asset Management Western United States

Mr. Heinen will serve as our Vice President of Asset Management Western United States. Mr. Heinen joined The Summit Group in 2000 and was promoted to Director of Operations for the Western United States in 2005. Prior to joining The Summit Group, from 1985 to 2000, Mr. Heinen held direct hotel management positions with Red Lion Hotels and Radisson Hotels. Mr. Heinen has over 20 years of direct hotel experience that includes all facets of full-service and select-service hotels. Mr. Heinen graduated from Spokane Falls College/Eastern Washington University with a B.S. degree in business.

Trent A. Peterson, Vice President of Asset Management Eastern United States

Mr. Peterson will serve as our Vice President of Asset Management Eastern United States. Mr. Peterson joined The Summit Group in 1999 as a Regional Manager and was promoted to Director of Operations for the Eastern United States in 2005. Prior to joining The Summit Group, from 1991 to 1999, he held direct hotel management positions with both Fairfield Inn and Residence Inn by Marriott- and Best Western-branded hotels. Mr. Peterson is a graduate of Moorhead State University with a B.S. degree in hotel and restaurant management.

Our Promoter

We consider our Executive Chairman, Mr. Boekelheide, to be our promoter, in that he has taken initiative in funding and organizing our company. Mr. Boekelheide is the only person we consider to be a promoter of our company.

Our Board of Directors

Director Qualifications and Skills

Our directors were chosen based on their experience, qualifications and skills. We first identified nominees for the board through professional contacts and other resources. We then assessed each nominee s integrity and accountability, judgment, maturity, willingness to commit the time and energy needed to satisfy the requirements of board and committee membership, balance with other commitments, financial literacy and independence from us. We relied on information provided by the nominees in their biographies and responses to questionnaires, as well as independent third-party sources.

Board Leadership Structure, Corporate Governance and Risk Oversight

We place a high premium on good corporate governance. We have a majority-independent board of directors whose members will be elected annually. We do not have a stockholder rights plan. In addition, we have opted out of certain state anti-takeover provisions.

Our board of directors has the primary responsibility for overseeing risk management of our company, and our management intends to provide it with a regular report highlighting risk assessments and recommendations. Our audit committee will focus on oversight of financial risks relating to us; our compensation committee will focus primarily on risks relating to remuneration of our officers and employees; and our nominating and corporate governance

committee will focus on reputational and corporate governance risks relating to our company. In addition, the audit committee and board of directors intend to regularly hold discussions with our executive and other officers regarding the risks that may affect our company.

Committees of the Board of Directors

Our board of directors will establish three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee. Each of these committees, the principal functions of which are briefly described below, will consist solely of independent directors under the NYSE s definition of independence and its transition

rules for newly listed public companies. Our board of directors may from time to time establish other committees to facilitate the management of our company.

Audit Committee. The audit committee will help ensure the integrity of our financial statements, the qualifications and independence of our independent auditors and the performance of our internal audit function and independent auditors. The audit committee will select, assist and meet with the independent auditors, oversee each annual audit and quarterly review, establish and maintain our internal audit controls and prepare the audit committee report required by the federal securities laws to be included in our annual proxy statement. Each member of our audit committee will be independent pursuant to the listing standards of the NYSE. In addition, each member of our audit committee will be financially literate as required by the NYSE, and at least one member of our audit committee will qualify as an audit committee financial expert as required by the SEC. We anticipate that will be the chair of our audit committee and be designated as our audit committee financial expert, as that term is defined by the SEC, and and will also serve as members of this committee.

Compensation Committee. The compensation committee will review and approve the compensation and benefits of our executive officers, administer and make recommendations to our board of directors regarding our compensation and long-term incentive plans and produce an annual report on executive compensation for inclusion in our proxy statement. Each member of our compensation committee will be independent pursuant to the listing standards of the NYSE. In addition, each member of our compensation committee will be a non-employee director as set forth in Rule 16b-3 of the Exchange Act. We anticipate that will be the chair of our compensation committee and and will also serve as members of this committee.

Nominating and Corporate Governance Committee. The nominating and corporate governance committee will develop and recommend to our board of directors a set of corporate governance principles, a code of business conduct and ethics and policies with respect to conflicts of interest, monitor our compliance with corporate governance requirements of state and federal law and the rules and regulations of the NYSE, develop and recommend to our board of directors criteria for prospective members of our board of directors, conduct candidate searches and interviews, oversee and evaluate our board of directors and management, evaluate from time to time the appropriate size and composition of our board of directors, recommend, as appropriate, increases, decreases and changes in the composition of our board of directors and formally propose the slate of nominees for election as directors at each annual meeting of our stockholders. Our stockholders will elect our entire board of directors annually. Each member of our nominating and corporate governance committee will be independent pursuant to the listing standards of the NYSE. We anticipate that will be the chair of our nominating and corporate governance committee and and will also serve as members of this committee.

Compensation of Directors

Upon completion of this offering, our board of directors will establish a compensation program for our non-employee directors. Pursuant to this compensation program, we will pay the following fees to our non-employee directors:

§ an annual cash retainer of $50,000;

§ an initial grant of shares of our common stock to be issued upon completion of this offering;

§ on the date of each director s reelection to our board of directors beginning on the date of our 2012 annual meeting of stockholders, an annual grant of shares of our common stock having a value of $15,000 based on the market price of our common stock on the date of grant;

§ an additional annual cash retainer of $12,500 to the chair of our audit committee;

- an additional annual cash retainer of $10,000 to the chair of our compensation committee; and
- an additional annual cash retainer of $7,500 to the chair of our nominating and corporate governance committee.

We will also reimburse our non-employee directors for reasonable out-of-pocket expenses incurred in connection with performance of their duties as directors, including, without limitation, travel expenses in connection with their attendance at in-person board and committee meetings. Directors who are our employees will not receive compensation for their services as directors.

Commencing in 2011, in connection with each annual meeting of stockholders, each of our non-employee directors will receive $15,000 payable in the form of common stock (based upon the volume-weighted average closing market price of our common stock on the NYSE for the ten trading days preceding the date of grant).

Code of Business Conduct and Ethics

Upon completion of this offering and the formation transactions, our board of directors will establish a code of business conduct and ethics that applies to our officers, directors and employees. Among other matters, our code of business conduct and ethics will be designed to deter wrongdoing and to promote:

§ honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;

§ full, fair, accurate, timely and understandable disclosure in our SEC reports and other public communications;

§ compliance with applicable governmental laws, rules and regulations;

§ prompt internal reporting of violations of the code to appropriate persons identified in the code; and

§ accountability for adherence to the code.

Any waiver of the code of business conduct and ethics for our executive officers or directors must be approved by a majority of our independent directors, and any such waiver shall be promptly disclosed as required by law or NYSE regulations.

Compensation Committee Interlocks and Insider Participation

No member of the compensation committee will be a current or former officer or employee of our company or any of our subsidiaries. None of our executive officers serves as a member of the board of directors or compensation committee of any company that will have one or more of its executive officers serving as a member of our board of directors.

Indemnification of Directors and Executive Officers and Limitations on Liability

For information concerning limitations on liability and indemnification applicable to our directors and executive officers, see Indemnification Agreements and Material Provisions of Maryland Law and of Our Charter and Bylaws.

Compensation Discussion and Analysis

We believe the primary goal of executive compensation is to align the interests of our senior management team with those of our stockholders in a way that allows us to attract and retain the best executive talent. Our board of directors has not yet formed our compensation committee. Accordingly, our compensation committee has not adopted compensation policies with respect to, among other things, setting base salaries, awarding bonuses or making future grants of equity awards to our executive officers. We expect that the compensation committee, once formed, will design a compensation program that rewards, among other things, favorable stockholder returns, share appreciation, the company s competitive position within its segment of the real estate industry and each member of our senior management team s long-term career contributions to the company. Compensation incentives designed to further these goals may take the form of annual cash compensation and equity awards, as well as long-term cash and equity

incentives measured by performance targets to be established by our compensation committee. We will pay base salaries and annual bonuses and expect to make grants of awards under our equity incentive plan to our executive officers, effective upon completion of this offering, in accordance with their employment agreements. Awards under our equity incentive plan will be granted to recognize such individuals efforts on our behalf in connection with our formation and this offering and to provide a retention element to their compensation.

Compensation of Named Executive Officers

We intend to enter into employment agreements with our named executive officers, which will become effective upon completion the consummation of this offering. We expect such employment agreements will provide for salary, bonus and other benefits, including severance upon a termination of employment under certain circumstances. See Employment Agreements. Because we were only recently organized, meaningful individual compensation information is not available for prior periods.

Summary Compensation Table

The following table sets forth the annualized base salary and other compensation that would have been paid in 2010 to our Executive Chairman, our President and Chief Executive Officer, our Chief Financial Officer and the two other most highly compensated members of our senior management team, whom we refer to collectively as our named executive officers, had these employment agreements been in effect for all of 2010.

The anticipated 2010 compensation for each of our named executive officers listed in the table below was determined through negotiation of their individual employment agreements. These employment agreements were not approved by our compensation committee or any of our independent director nominees. We expect to disclose actual 2010 compensation for our named executive officers in 2011, to the extent required by applicable SEC disclosure rules.

Name and Principal Position	Year	Base Salary[(1)]	Bonus[(2)]	Option Awards[(3)(4)]	Total
Kerry W. Boekelheide Executive Chairman of the Board	2010	$ 380,000	$	$	$
Daniel P. Hansen President and Chief Executive Officer	2010	350,000			
Craig J. Aniszewski Executive Vice President & Chief Operating Officer	2010	300,000			
Stuart J. Becker Executive Vice President & Chief Financial Officer	2010	250,000			
Ryan A. Bertucci Vice President of Acquisitions	2010	220,000			

(1) Full-year amount. Each executive will receive a pro rata portion of his base salary for the period from the date of completion of this offering through December 31, 2010.

(2) We will not pay annual bonuses to these executives for 2010.

Under their employment agreements, Messrs. Boekelheide, Hansen and Aniszewski will receive annual bonuses for 2011 equal to $380,000, $350,000 and $225,000, respectively, if the 2011 hotel-level earnings before interest, taxes, depreciation and amortization for the 65 properties in our initial portfolio is at least $55 million. Beginning in 2012, Messrs. Boekelheide, Hansen and Aniszewski will be eligible to earn an annual cash bonus to the extent that individual and corporate goals to be established by our compensation committee are achieved. Our compensation committee will determine the actual amount of the cash bonus payable in 2012 and subsequent years. For 2012 and subsequent years, each of Messrs. Boekelheide and Hansen has the opportunity to earn an annual cash bonus of up to 100% of his annual base salary and Mr. Aniszewski has the opportunity to earn an annual cash bonus of up to 75% of his annual base salary.

Under their employment agreements, Messrs. Becker and Bertucci will be eligible to earn an annual cash bonus for 2011 and subsequent years to the extent that individual and corporate goals to be established by our compensation committee are achieved. Our compensation committee will determine the actual amount of the cash bonus payable in 2011 and subsequent years. Each of Messrs. Becker and Bertucci has the opportunity to earn an annual cash bonus of up to 50% of his annual base salary for 2011 and subsequent years.

(3) Reflects option awards to be made to Mr. Boekelheide (shares), Mr. Hansen (shares), Mr. Aniszewski (shares), Mr. Becker (shares) and Mr. Bertucci (shares). These options will be granted pursuant to the 2010 Equity Incentive Plan upon completion of this offering, will have an exercise price of $ per share, which is the initial public offering price, and will vest ratably on the first five anniversaries of the date of grant unless

otherwise accelerated under certain circumstances. The compensation committee of our board of directors may make additional equity awards to our named executive officers in the future.

(4) Represents the aggregate grant date fair value of the option awards referred to in note (3) above computed in accordance with FASB ASC Topic 718. The compensation reported in the table above is not necessarily an indication of actual compensation that will be received by the named executive officers. For more information on the valuation of these option awards and the assumptions used in arriving at the amounts disclosed, please see the footnotes to our pro forma financial statements beginning on page F-2 of this prospectus.

IPO Grants of Plan-Based Awards

Upon completion of this offering, we will grant options to purchase an aggregate of shares of our common stock to our named executive officers. We will grant options to acquire shares to Mr. Boekelheide, shares to Mr. Hansen, shares to Mr. Aniszewski, shares to Mr. Becker and shares to Mr. Bertucci. These options will be granted pursuant to the 2010 Equity Incentive Plan, will have an exercise price equal to the initial public offering price of the shares sold in this offering and will vest ratably on the first five anniversaries of the date of grant.

Employment Agreements

Kerry W. Boekelheide and Daniel P. Hansen. Effective upon completion of this offering, we will enter into employment agreements with Mr. Boekelheide and Mr. Hansen, each of which will have an initial term of three years and will renew for one-year terms thereafter unless terminated by written notice delivered at least 30 days before the end of the then-current term. The employment agreements provide for an annual base salary to Mr. Boekelheide of $380,000 and to Mr. Hansen of $350,000, subject to increase in the discretion of our board of directors or its compensation committee.

Under their employment agreements, Mr. Boekelheide and Mr. Hansen are eligible to earn an annual cash bonus for 2011 and subsequent years (but no bonus will be payable for 2010). For 2011, Mr. Boekelheide will receive an annual bonus of $380,000 and Mr. Hansen will receive an annual bonus of $350,000 if the 2011 hotel-level earnings before interest, taxes, depreciation and amortization for the 65 properties in our initial portfolio is at least $55 million. Assuming no purchases of additional hotels, or sales of hotels in our initial portfolio, we will calculate this measure by subtracting total hotel operating expenses from total revenues, each as reported in accordance with GAAP. For the year ended December 31, 2009, total revenues were $121.2 million and total hotel operating expenses were $88.7 million. For the six months ended June 30, 2010, total revenues were $67.2 million and total hotel operating expenses were $46.4 million. In determining whether the $55 million target is met for 2011, we will exclude revenues or operating expenses of hotels acquired following completion of this offering and prior to December 31, 2011. If we sell one or more of the 65 hotels in our initial portfolio following completion of this offering and before December 31, 2011, we will reduce the $55 million target number in a manner that our compensation committee determines is equitable and appropriate to reflect the absence of the sold asset or assets for all, or the remaining portion, of 2011, as applicable, in assessing whether the hotels in our initial portfolio generated hotel-level earnings before interest, taxes, depreciation and amortization that met the target. Beginning in 2012, Mr. Boekelheide and Mr. Hansen will be eligible to earn an annual cash bonus of up to 100% of annual base salary, to the extent that individual and corporate goals established by the compensation committee are achieved.

The employment agreements entitle Mr. Boekelheide and Mr. Hansen to customary fringe benefits, including vacation and health benefits, and the right to participate in any other benefits or plans in which other executive-level employees participate. Each employment agreement also provides that if Mr. Boekelheide or Mr. Hansen loses the supplemental health benefit provided to him by The Summit Group, we will establish, if permitted by applicable law, a medical reimbursement plan providing the same level of supplemental health benefits.

Each employment agreement provides for certain payments in the event that the employment of Mr. Boekelheide or Mr. Hansen ends upon termination by us for cause, a resignation without good reason (as defined below), death or disability or any reason other than a termination by us without cause or resignation with good reason. Each agreement defines cause as (1) a failure to perform a material duty or a material breach of an obligation set forth in the employment agreement or a breach of a material and written policy other than by reason of mental or physical illness or injury, (2) a breach of the executive s fiduciary duties, (3) conduct that demonstrably and materially injures us monetarily or otherwise or (4) a conviction of, or plea of *nolo contendere* to, a felony or crime involving moral turpitude or fraud or dishonesty involving our assets, and that in each case is not cured, to our board of directors reasonable satisfaction, within 30 days after written notice. In any such event, the employment agreements provide for the payment to Mr. Boekelheide and Mr. Hansen of any earned but unpaid compensation up to the date of termination and any benefits due under the terms of any of our employee benefit plans.

Each employment agreement provides for certain severance payments in the event that the employment of Mr. Boekelheide or Mr. Hansen is terminated by us without cause or the executive resigns for good reason. Each agreement defines good reason as (1) our material breach of the terms of the employment agreement or a direction from our board of directors that the executive act or refrain from acting in a manner that is unlawful or contrary to a

material and written policy, (2) a material diminution in the executive s duties, functions and responsibilities without his consent or our preventing him from fulfilling or exercising his material duties, functions and responsibilities without his consent, (3) a material reduction in the executive s base salary or annual bonus opportunity or (4) a requirement that the executive relocate more than 50 miles from the current location of his principal office without his consent, in each case provided that Mr. Boekelheide or Mr. Hansen has given written notice to our board of directors within 30 days after he knows of the circumstances constituting good reason, the circumstances constituting good reason are not cured within 30 days of such notice and the executive resigns within 30 days after the expiration of the cure period. In any such event, the executive is entitled to receive any earned but unpaid compensation up to the date of termination and any benefits due under the terms of our employee benefit plans and, if the

Table of Contents

executive executes a general release of claims, any outstanding options, restricted shares and other equity awards shall be vested and exercisable as of the date of termination and outstanding options shall remain exercisable thereafter until their stated expiration date as if the executive s employment had not terminated. Mr. Boekelheide and Mr. Hansen shall also be entitled to receive, subject to the execution of a general release of claims, an amount equal to three times his base salary in effect at the time of termination, an amount equal to three times the greater of (i) the highest annual bonus paid to him for the three fiscal years ended immediately before the date of termination and (ii) the executive s annual base salary, a prorated bonus for the then-current fiscal year based on his annual bonus for the fiscal year ended prior to his termination, an amount equal to three times the annual premium or cost paid by us for health, dental and vision insurance coverage for the executive and his eligible dependents in effect on the termination date and an amount equal to three times the annual premium or cost paid by us for disability and life insurance coverage for the executive in effect on the termination date.

Each employment agreement includes covenants that prohibit Mr. Boekelheide and Mr. Hansen from disclosing confidential information about us except in connection with our business and affairs. Each employment agreement also provides that, during employment and for the one-year period following termination of employment, Mr. Boekelheide and Mr. Hansen, subject to certain exceptions, will not compete with us by working with, or making a material investment in, an entity that owns or proposes to own 25 or more hotels in the upscale or midscale without food and beverage hotel segments, solicit any of our employees to leave employment or interfere with our relationship with any of our customers or clients. The restrictive covenants that prohibit or restrict Mr. Boekelheide or Mr. Hansen from being employed by, or providing services to, a competitor of our company following the termination of employment with us do not apply after a termination without cause or after the executive resigns with good reason as defined in the agreement.

Craig J. Aniszewski and Stuart J. Becker. Effective upon completion of this offering, we will enter into employment agreements with Mr. Aniszewski and Mr. Becker, each of which will have an initial term of three years and will renew for one-year terms thereafter unless terminated by written notice delivered at least 30 days before the end of the then-current term. The employment agreements provide for annual base salaries to each of Mr. Aniszewski and Mr. Becker of $300,000 and $250,000, respectively, subject to increase in the discretion of our board of directors or its compensation committee. The employment agreements entitle each of Mr. Aniszewski and Mr. Becker to fringe benefits substantially similar to those afforded to Mr. Boekelheide and Mr. Hansen, as described above (except that the employment agreement with Mr. Becker does not provide for the establishment of a medical reimbursement plan that provides supplemental health benefits).

Under their employment agreements, Mr. Aniszewski and Mr. Becker are eligible to earn an annual cash bonus for 2011 and subsequent years (but no bonus will be payable for 2010). Mr. Aniszewski will receive an annual bonus of $225,000 for 2011 if the same 2011 performance objective described above for Messrs. Boekelheide and Hansen is achieved. For 2012 and subsequent years Mr. Aniszewski will be eligible to earn an annual cash bonus of up to 75% of annual base salary, to the extent that individual and corporate goals established by the compensation committee are achieved. For 2011 and subsequent years, Mr. Becker will be eligible to earn an annual cash bonus, of up to 50% of annual base salary, to the extent that individual and corporate goals established by the compensation committee are achieved.

Each employment agreement provides for certain payments in the event the employment of Mr. Aniszewski or Mr. Becker ends upon termination by us for cause, a resignation without good reason, death or disability or any reason other than a termination by us without cause or resignation with good reason. The definitions of cause and good reason in the employment agreements with Mr. Aniszewski and Mr. Becker are the same as those in the employment agreements with Mr. Boekelheide and Mr. Hansen, as described above (except that a requirement that Mr. Becker relocate to Sioux Falls, South Dakota will not constitute good reason). In any such event, the employment agreements with Mr. Aniszewski and Mr. Becker provide for the payment of any earned but unpaid compensation up to the date

of termination and any benefits due under the terms of any of our employee benefit plans.

Each employment agreement provides for certain severance payments in the event the employment of Mr. Aniszewski or Mr. Becker is terminated by us without cause or the executive resigns for good reason. In any such event, the executive would be entitled to receive any earned but unpaid compensation up to the date of termination and any benefits due under the terms of our employee benefit plans and, if the executive executes a general release of claims, any outstanding options, restricted shares and other equity awards shall be vested and exercisable as of the date of termination and outstanding options shall remain exercisable thereafter until their stated expiration date as if employment had not terminated. Each of Mr. Aniszewski and Mr. Becker shall also be entitled to receive, subject to the execution of a general release of claims, an amount equal to one and one-half times his base salary at the time of termination, an amount equal to one and one-half times the greater of (i) the

highest annual bonus paid to him for the three fiscal years ended immediately before the date of termination or (ii) 75% of annual base salary (in the case of Mr. Aniszewski) or 50% of annual base salary (in the case of Mr. Becker), a pro-rated bonus for the then-current fiscal year based on his annual bonus for the fiscal year ended prior to his termination, an amount equal to one and one-half times the annual premium or cost paid by us for health, dental and vision insurance coverage for the executive and his eligible dependents in effect on the termination date and an amount equal to one and one-half times the annual premium or cost paid by us for disability and life insurance coverage for the executive in effect on the termination date.

The employment agreements with Mr. Aniszewski and Mr. Becker provide for higher severance payments in the event of termination by us without cause no more than ninety days before a change in control or on or after a change in control or upon resignation for good reason on or after a change in control. The definition of change in control under the employment agreements with Mr. Aniszewski and Mr. Becker is the same as the definition of change in control under the 2010 Equity Incentive Plan. In any such event, each of Mr. Aniszewski and Mr. Becker is entitled to receive any earned but unpaid compensation up to the date of termination and any benefits due under the terms of our employee benefit plans and, if the executive executes a general release of claims, all outstanding options, restricted shares and other equity awards shall be vested and exercisable as of the date of termination and outstanding options shall remain exercisable thereafter until their stated expiration date as if the executive s employment had not terminated. Each executive shall also be entitled to receive, subject to the execution of a general release of claims, an amount equal to two times his base salary at the time of termination, an amount equal to two times the greater of (i) the highest annual bonus paid to him for the three fiscal years ended immediately before the date of termination or (ii) 75% of annual base salary (in the case of Mr. Aniszewski) or 50% of annual base salary (in the case of Mr. Becker), a pro-rated bonus for the then-current fiscal year based on his annual bonus for the fiscal year ended prior to his termination, an amount equal to two times the annual premium or cost paid by us for health, dental and vision insurance coverage for the executive and his eligible dependents in effect on the termination date and an amount equal to two times the annual premium or cost paid by us for disability and life insurance coverage for the executive in effect on the termination date.

Each employment agreement includes covenants that prohibit Mr. Aniszewski and Mr. Becker from disclosing confidential information about us except in connection with our business and affairs. Each employment agreement also provides that, during employment and for the one-year period following termination of employment, Mr. Aniszewski and Mr. Becker will not compete with us by working with, or making a material investment in, an entity that owns or proposes to own 25 or more hotels in the upscale or midscale without food and beverage hotel segments, solicit any of our employees to leave employment or interfere with our relationship with any of our customers or clients. The restrictive covenants that prohibit or restrict Mr. Aniszewski or Mr. Becker from being employed by, or providing services to, a competitor of our company following the termination of employment with us do not apply after a termination without cause or after the executive resigns with good reason as defined in the agreement.

Ryan A. Bertucci. Effective upon completion of this offering, we will enter into an employment agreement with Mr. Bertucci which will have an initial term of one year and will renew for one-year terms thereafter unless terminated by written notice delivered at least 30 days before the end of the then-current term. Mr. Bertucci s employment agreement provides for an annual base salary of $220,000, subject to increase in the discretion of our board of directors or its compensation committee. The employment agreement entitles Mr. Bertucci to fringe benefits substantially similar to those afforded to the other executives, as described above (except that the employment agreement with Mr. Bertucci does not provide for the establishment of a medical reimbursement plan that provides supplemental health benefits).

Under his employment agreement, Mr. Bertucci is eligible to earn annual cash bonuses to the extent that prescribed individual and corporate goals established by the Committee are achieved. The individual and corporate goals

established by the Committee will provide Mr. Bertucci the opportunity to earn an annual cash bonus of up to 50% of annual base salary, to the extent such goals are achieved.

Mr. Bertucci s employment agreement provides for certain payments in the event his employment ends upon termination by us for cause, a resignation without good reason, death or disability or any reason other than a termination by us without cause or resignation with good reason. The definitions of cause and good reason in the employment agreement with Mr. Bertucci are the same as those in the employment agreements with the other executives, as described above. In any such event, the employment agreement with Mr. Bertucci provides for the payment of any earned but unpaid compensation up to the date of termination and any benefits due under the terms of any of our employee benefit plans.

Mr. Bertucci s employment agreement provides for certain severance payments in the event his employment is terminated by us without cause or he resigns for good reason. In any such event, he would be entitled to receive any earned but unpaid compensation up to the date of termination and any benefits due under the terms of our employee benefit plans and, if he executes a general release of claims, any outstanding options, restricted shares and other equity awards shall be vested and exercisable as of the date of termination and outstanding options shall remain exercisable thereafter until their stated expiration date as if employment had not terminated. Mr. Bertucci shall also be entitled to receive, subject to the execution of a general release of claims, an amount equal to one times his base salary at the time of termination, an amount equal to one times the greater of (i) the highest annual bonus paid to him for the three fiscal years ended immediately before the date of termination or (ii) 50% of his annual base salary, a pro-rated bonus for the then-current fiscal year based on his annual bonus for the fiscal year ended prior to his termination, an amount equal to one times the annual premium or cost paid by us for health, dental and vision insurance coverage for the executive and his eligible dependents in effect on the termination date and an amount equal to one times the annual premium or cost paid by us for disability and life insurance coverage for the executive in effect on the termination date.

The employment agreement with Mr. Bertucci provides for higher severance payments in the event of termination by us without cause no more than ninety days before a change in control or on or after a change in control or upon resignation for good reason on or after a change in control. The definition of change in control under the employment agreement with Mr. Bertucci is the same as the definition of change in control under the 2010 Equity Incentive Plan. In any such event, Mr. Bertucci is entitled to receive any earned but unpaid compensation up to the date of termination and any benefits due under the terms of our employee benefit plans and, if he executes a general release of claims, all outstanding options, restricted shares and other equity awards shall be vested and exercisable as of the date of termination and outstanding options shall remain exercisable thereafter until their stated expiration date as if the executive s employment had not terminated. Mr. Bertucci shall also be entitled to receive, subject to the execution of a general release of claims, an amount equal to two times his base salary at the time of termination, an amount equal to two times the greater of (i) the highest annual bonus paid to him for the three fiscal years ended immediately before the date of termination or (ii) 50% of his annual base salary, a pro-rated bonus for the then-current fiscal year based on his annual bonus for the fiscal year ended prior to his termination, an amount equal to two times the annual premium or cost paid by us for health, dental and vision insurance coverage for the executive and his eligible dependents in effect on the termination date and an amount equal to two times the annual premium or cost paid by us for disability and life insurance coverage for the executive in effect on the termination date.

Mr. Bertucci s employment agreement includes covenants that prohibit him from disclosing confidential information about us except in connection with our business and affairs. The employment agreement with Mr. Bertucci also provides that, during his employment and for the one-year period following the termination of his employment, he will not compete with us by working with or making a material investment in an entity that owns or proposes to own 25 or more hotels in the upscale or midscale without food and beverage hotel segments solicit any of our employees solicit any of our employees to leave employment or interfere with our relationship with any of our customers or clients. The restrictive covenants that prohibit or restrict him from being employed by, or providing services to, a competitor of our company following the termination of his employment with us do not apply after a termination without cause or after the executive resigns with good reason as defined in the agreement.

Potential Payments upon Termination or Change in Control

The following table and accompanying footnotes reflect the estimated potential amounts payable to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci under their employment agreements and our compensation and benefit plans and arrangements in the event the executive s employment is terminated under various scenarios, including involuntary termination without cause, voluntary termination, involuntary termination with cause,

voluntary resignation with good reason, involuntary or good reason termination in connection with a change in control and termination due to death and disability. The amounts shown below are estimates of the amounts that would be paid to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci upon termination of their employment assuming that such termination was effective upon completion of this offering. Actual amounts payable will depend upon compensation levels at the time of termination, the amount of future equity awards and other factors, and will likely be greater than amounts shown in this table.

Table of Contents

	Cash Severance Payment	Payment in Lieu of Medical/Welfare Benefits (present value)[5]	Acceleration and Continuation of Equity Awards[6]	Excise Tax Gross-Up[7]	Total Termination Benefits
Kerry W. Boekelheide[1][2]					
Involuntary termination without cause[3]					
Voluntary termination or involuntary termination with cause					
Change in control (no termination)					
Involuntary or good reason termination in connection with change in control[4]					
Death or disability					
Daniel P. Hansen[1][2]					
Involuntary termination without cause[3]					
Voluntary termination or involuntary termination with cause					
Change in control (no termination)					
Involuntary or good reason termination in connection with change in control[4]					
Death or disability					
Craig J. Aniszewski[1][2]					
Involuntary termination without cause[3]					
Voluntary termination or involuntary termination with cause					
Change in control (no termination)					
Involuntary or good reason termination in connection with change in control[4]					
Death or disability					
Stuart J. Becker[1][2]					
Involuntary termination without cause[3]					
Voluntary termination or involuntary termination with cause					
Change in control (no termination)					
Involuntary or good reason termination in connection with change in control[4]					
Death or disability					
Ryan A. Bertucci[1][2]					
Involuntary termination without cause[3]					
Voluntary termination or involuntary termination with cause					
Change in control (no termination)					
Involuntary or good reason termination in connection with change in control[4]					
Death or disability					

(1) The amounts shown in the table do not include accrued salary, earned but unpaid bonuses, accrued but unused vacation pay or the distribution of benefits from any tax-qualified retirement or 401(k) plan. Those amounts are payable to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci upon any termination of employment, including an involuntary termination with cause and a resignation without good reason.

(2) A termination of employment due to death or disability entitles Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci to benefits under our life insurance and disability insurance plans. In addition, outstanding options immediately vest upon a termination of employment due to death or disability.

(3) Amounts calculated in accordance with provisions of the applicable employment agreement as disclosed in Employment Agreements.

(4) Amounts calculated in accordance with provisions of the applicable employment agreement as disclosed in Employment Agreements.

(5) The amounts shown in this column are estimates of the annual premiums to be paid by us for health care, life and disability insurance and other benefits expected to be provided to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci.

(6) The amounts shown in this column represent the value, on the specified termination event, of the options that are expected to be granted to Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci upon completion of this offering. The values were computed in accordance with FASB ASC Topic 718 and reflect (i) the number of shares for which the options are exercisable following the specified termination event (which is zero shares in the cases of voluntary termination and involuntary termination with cause and all of the option shares in other cases), (ii) the option exercise price, (iii) the period in which the option may be exercised following the specified termination event (which is one year in the case of death or disability and the remainder of the ten-year option term in the other cases in which the option may be exercised) and (iv) the assumed volatility of our common stock during the period in which the option remains exercisable. For more information on the value of these option awards and the assumptions used in arriving at the amounts disclosed, please see the footnotes to our pro forma financial statements beginning on page F-2 of this prospectus.

Amounts reflecting accelerated vesting of equity awards in the rows Change in control (no termination) and Involuntary or good reason termination in connection with change in control will be paid upon only one of the specified triggering events (not both) and will not be duplicated in the event that the executive incurs a qualifying termination following a change in control event that has previously resulted in acceleration.

(7) The employment agreements with Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci do not provide an indemnification or gross-up payment for the parachute payment excise tax under Sections 280G and 4999 of the Code. The employment agreements instead provide that the severance and any other payments or benefits that are treated as parachute payments under the Code will be reduced to the maximum amount that can be paid without an excise tax liability. The parachute payments will not be reduced, however, if the executive will receive greater after-tax benefits by receiving the total or unreduced benefits (after taking into account any excise tax liability payable by the executive).

Severance Agreements

Effective upon completion of this offering, we will enter into severance agreements with Mr. Eng, our Vice President, General Counsel and Secretary, and Ms. Sorum, our Vice President, Controller and Chief Accounting Officer, that will provide for payments to these officers under various termination scenarios, each of which will have an initial term of three years and renew for one-year terms thereafter unless terminated in accordance with its terms. The form of severance agreement has been filed as an exhibit to the registration statement of which this prospectus forms a part.

Indemnification Agreements

Upon completion of this offering, we expect to enter into indemnification agreements with each of our directors and executive officers that provide for indemnification to the maximum extent permitted by Maryland law and advancements by us of certain expenses and costs relating to claims, suits or proceedings arising from their service to us.

Table of Contents

2010 Equity Incentive Plan

Upon completion of this offering, our board of directors will have adopted, and our sole stockholder will have approved, an equity incentive plan, or the 2010 Equity Incentive Plan, to attract and retain independent directors, executive officers and other key employees and service providers, including officers and employees of our affiliates. The 2010 Equity Incentive Plan provides for the grant of options to purchase shares of common stock, stock awards, stock appreciation rights, performance units, incentive awards and other equity-based awards.

Administration of the 2010 Equity Incentive Plan

The 2010 Equity Incentive Plan will be administered by the compensation committee of our board of directors, except that the 2010 Equity Incentive Plan will be administered by our board of directors with respect to awards made to directors who are not employees. This summary uses the term administrator to refer to the compensation committee or our board of directors, as applicable. The administrator will approve all terms of awards under the 2010 Equity Incentive Plan. The administrator will also approve who will receive grants under the 2010 Equity Incentive Plan and the number of shares of common stock subject to each grant.

Eligibility

All of our employees and employees of our subsidiaries and affiliates, and employees of our operating partnership, are eligible to receive grants under the 2010 Equity Incentive Plan. In addition, our independent directors and individuals who perform services for us and our subsidiaries and affiliates, including individuals who perform services for our operating partnership, may receive grants under the 2010 Equity Incentive Plan.

Share Authorization

The number of shares of common stock that may be issued under the 2010 Equity Incentive Plan will equal the lesser of: (1) shares; and (2) 8.5% of the total number of shares sold in this offering (including any shares issued pursuant to an exercise of the underwriters over-allotment option). In connection with stock splits, dividends, recapitalizations and certain other events, our board will make adjustments that it deems appropriate in the aggregate number of shares of common stock that may be issued under the 2010 Equity Incentive Plan and the terms of outstanding awards. If any options or stock appreciation rights terminate, expire or are canceled, forfeited, exchanged or surrendered without having been exercised or paid or if any stock awards, performance units or other equity-based awards are forfeited, the shares of common stock subject to such awards will again be available for purposes of the 2010 Equity Incentive Plan. Shares of common stock tendered or withheld to satisfy the exercise price or for tax withholding are not available for future grants under the 2010 Equity Incentive Plan. No awards under the 2010 Equity Incentive Plan were outstanding prior to completion of this offering. The initial grants described below will become effective upon completion of this offering.

Options

The 2010 Equity Incentive Plan authorizes the grant of incentive stock options (under Section 422 of the Code) and options that do not qualify as incentive stock options. The exercise price of each option will be determined by the administrator, provided that the price cannot be less than 100% of the fair market value of the shares of common stock on the date on which the option is granted (or 110% of the shares fair market value on the grant date in the case of an incentive stock option granted to an individual who is a ten percent stockholder under Sections 422 and 424 of the Code). The exercise price for any option is generally payable (i) in cash, (ii) by certified check, (iii) by the surrender of shares of common stock (or attestation of ownership of shares of common stock) with an aggregate fair market value on the date on which the option is exercised, equal to the exercise price, or (iv) by payment through a broker in

accordance with procedures established by the Federal Reserve Board. The term of an option cannot exceed ten years from the date of grant (or five years in the case of an incentive stock option granted to a ten percent stockholder). Upon completion of this offering, we will grant options to purchase an aggregate of shares of common stock to our executive officers pursuant to the 2010 Equity Incentive Plan. These options will have an exercise price equal to the initial public offering price of the shares sold in this offering and will vest ratably on the first five anniversaries of the date of grant unless otherwise accelerated.

Stock Awards

The 2010 Equity Incentive Plan also provides for the grant of stock awards. A stock award is an award of shares of common stock that may be subject to restrictions on transferability and other restrictions as the administrator determines in its sole discretion on the date of grant. The restrictions, if any, may lapse over a specified period of time or through the satisfaction of conditions, in installments or otherwise, as the administrator may determine. Unless otherwise specified in the applicable award agreement, a participant who receives a stock award will have all of the rights of a stockholder as to those shares, including, without limitation, the right to vote the shares and the right to receive dividends or distributions on the shares. During the period, if any, when stock awards are non-transferable or forfeitable, (i) a participant is prohibited from selling, transferring, pledging, exchanging, hypothecating or otherwise disposing of his or her stock award shares, (ii) the company will retain custody of the certificates and (iii) a participant must deliver a stock power to the company for each stock award. Upon completion of this offering, we will grant an aggregate of shares of common stock to our non-employee directors pursuant to the 2010 Equity Incentive Plan. These stock awards will be vested and transferable as of the date of grant.

Stock Appreciation Rights

The 2010 Equity Incentive Plan authorizes the grant of stock appreciation right. A stock appreciation right provides the recipient with the right to receive, upon exercise of the stock appreciation right, cash, shares of common stock or a combination of the two. The amount that the recipient will receive upon exercise of the stock appreciation right generally will equal the excess of the fair market value of the shares of common stock on the date of exercise over the shares fair market value on the date of grant. Stock appreciation rights will become exercisable in accordance with terms determined by the compensation committee. Stock appreciation rights may be granted in tandem with an option grant or as independent grants. The term of a stock appreciation right cannot exceed ten years from the date of grant or five years in the case of a stock appreciation right granted in tandem with an incentive stock option awarded to a ten percent stockholder.

Performance Units

The 2010 Equity Incentive Plan also authorizes the grant of performance units. Performance units represent the participant s right to receive an amount, based on the value of a specified number of shares of common stock, if performance goals established by the administrator are met. The administrator will determine the applicable performance period, the performance goals and such other conditions that apply to the performance unit. Performance goals may relate to our financial performance or the financial performance of our operating partnership, the participant s performance or such other criteria determined by the administrator. If the performance goals are met, performance units will be paid in cash, shares of common stock or a combination thereof.

Incentive Awards

The 2010 Equity Incentive Plan also authorizes our compensation committee to make incentive awards. An incentive award entitles the participant to receive a payment if certain requirements are met. Our compensation committee will establish the requirements that must be met before an incentive award is earned and the requirements may be stated with reference to one or more performance measures or criteria prescribed by the compensation committee. A performance goal or objective may be expressed on an absolute basis or relative to the performance of one or more similarly situated companies or a published index and may be adjusted for unusual or non-recurring events, changes in applicable tax laws or accounting principles. An incentive award that is earned will be settled in a single payment which may be in cash, common stock or a combination of cash and common stock.

Other Equity-Based Awards; LTIP Units

The administrator may grant other types of stock-based awards as other equity-based awards under the 2010 Equity Incentive Plan, including long-term incentive plan, or LTIP, units. Other equity-based awards are payable in cash, shares of common stock or other equity, or a combination thereof, as determined by the administrator. The terms and conditions of other equity-based awards are determined by the administrator.

Table of Contents

LTIP units are a special class of partnership interest in our operating partnership. Each LTIP unit awarded will be deemed equivalent to an award of one share of common stock under the 2010 Equity Incentive Plan, reducing the plan s share authorization for other awards on a one-for-one basis. We will not receive a tax deduction for the value of any LTIP units granted to our employees. The vesting period for any LTIP units, if any, will be determined at the time of issuance. LTIP units, whether or not vested, will receive the same quarterly per unit distributions as OP units, which distributions will generally equal per share distributions on our shares of common stock. This treatment with respect to quarterly distributions is similar to the expected treatment of our stock awards, which will generally receive full dividends whether vested or not. Initially, LTIP units will not have full parity with OP units with respect to liquidating distributions. Under the terms of the LTIP units, our operating partnership will revalue its assets upon the occurrence of certain specified events, and any increase in our operating partnership s valuation from the time of grant until such event will be allocated first to the holders of LTIP units to equalize the capital accounts of such holders with the capital accounts of OP unit holders. Upon equalization of the capital accounts of the holders of LTIP units with the other holders of OP units, the LTIP units will achieve full parity with OP units for all purposes, including with respect to liquidating distributions. If such parity is reached, vested LTIP units may be converted into an equal number of OP units at any time, and thereafter enjoy all the rights of OP units, including redemption/exchange rights. However, there are circumstances under which such parity would not be reached. Until and unless such parity is reached, the value that a holder of LTIP units will realize for a given number of vested LTIP units will be less than the value of an equal number of our shares of common stock.

We have no current plans to issue any LTIP units.

Dividend Equivalents

The administrator may grant dividend equivalents in connection with the grant of performance units and other equity-based awards. Dividend equivalents may be paid currently or accrued as contingent cash obligations (in which case they may be deemed to have been invested in shares of common stock) and may be payable in cash, shares of common stock or other property dividends declared or shares of common stock. The administrator will determine the terms of any dividend equivalents.

Change in Control

If we experience a change in control, the administrator may, at its discretion, provide that all outstanding options, stock appreciation rights, stock awards, performance units, incentive awards or other equity-based awards that are not exercised prior to the change in control will be assumed by the surviving entity, or will be replaced by a comparable substitute award of the same type as the original award and that has substantially equal value granted by the surviving entity. The administrator may also provide that all outstanding options and stock appreciation rights will be fully exercisable on the change in control, restrictions and conditions on outstanding stock awards will lapse upon the change in control and performance units, incentive awards or other equity-based awards will become earned in their entirety. The administrator may also provide that participants must surrender their outstanding options and stock appreciation rights, stock awards, performance units, incentive awards and other equity-based awards in exchange for a payment, in cash or shares of our common stock or other securities or consideration received by stockholders in the change in control transaction, equal to (i) the entire amount that can be earned under an incentive award, (ii) the value received by stockholders in the change in control transaction for each share subject to a stock award, performance unit or other equity-based award or (iii) in the case of options and stock appreciation rights, the amount by which that transaction value exceeds the exercise price.

In summary, a change in control under the 2010 Equity Incentive Plan occurs if:

§

a person, entity or affiliated group (with certain exceptions) acquires, in a transaction or series of transactions, more than 50% of the total combined voting power of our outstanding securities;

- § we merge into another entity unless the holders of our voting securities immediately prior to the merger have more than 50% of the combined voting power of the securities in the merged entity or its parent;
- § we sell or dispose of all or substantially all of our assets to any entity, more than 50% of the combined voting power and common stock of which is owned by our shareholders after the sale or disposition; or

- § during any period of two consecutive years individuals who, at the beginning of such period, constitute our board of directors together with any new directors (other than individuals who become directors in connection with certain transactions or election contests) cease for any reason to constitute a majority of our board of directors.

The Code has special rules that apply to parachute payments, i.e., compensation or benefits the payment of which is contingent upon a change in control. If certain individuals receive parachute payments in excess of a safe harbor amount prescribed by the Code, the payor is denied a federal income tax deduction for a portion of the payments and the recipient must pay a 20% excise tax, in addition to income tax, on a portion of the payments.

If we experience a change in control, benefits provided under the 2010 Equity Incentive Plan could be treated as parachute payments. In that event, the 2010 Equity Incentive Plan provides that the plan benefits, and all other parachute payments provided under other plans and agreements, will be reduced to the safe harbor amount, i.e., the maximum amount that may be paid without excise tax liability or loss of deduction, if the reduction allows the recipient to receive greater after-tax benefits. The benefits under the 2010 Equity Incentive Plan and other plans and agreements will not be reduced, however, if the recipient will receive greater after-tax benefits (taking into account the 20% excise tax payable by the recipient) by receiving the total benefits. The 2010 Equity Incentive Plan also provides that these provisions do not apply to a participant who has an agreement with us providing that the individual is entitled to indemnification from us for the 20% excise tax.

Amendment; Termination

Our board of directors may amend or terminate the 2010 Equity Incentive Plan at any time, provided that no amendment may adversely impair the rights of participants under outstanding awards. Our stockholders must approve any amendment if such approval is required under applicable law or stock exchange requirements. Our stockholders also must approve any amendment that materially increases the benefits accruing to participants under the 2010 Equity Incentive Plan, materially increases the aggregate number of shares of common stock that may be issued under the 2010 Equity Incentive Plan (other than on account of stock dividends, stock splits, or other changes in capitalization as described above) or materially modifies the requirements as to eligibility for participation in the 2010 Equity Incentive Plan. Unless terminated sooner by our board of directors or extended with stockholder approval, the 2010 Equity Incentive Plan will terminate on the day before the tenth anniversary of the date our board of directors adopted the 2010 Equity Incentive Plan.

401(k) Plan

We may establish and maintain a retirement savings plan under section 401(k) of the Code to cover our eligible employees. The Code allows eligible employees to defer a portion of their compensation, within prescribed limits, on a pre-tax basis through contributions to the 401(k) plan. We may match employees annual contributions, within prescribed limits.

Investment Policies and Policies With Respect to Certain Activities

The following is a discussion of our investment policies and our policies with respect to certain other activities, including financing matters and conflicts of interest. These policies may be amended or revised from time to time at the discretion of our board of directors, without stockholder approval. Any change to any of these policies by our board of directors, however, would be made only after a thorough review and analysis of that change, in light of then-existing business and other circumstances, and then only if, in the exercise of its business judgment, our board of directors believes that it is advisable to do so in our and our stockholders best interests. We intend to disclose any changes in our investment policies in periodic reports that we file or furnish under the Exchange Act. We cannot assure you that our investment objectives will be attained.

Investments in Real Estate or Interests in Real Estate

We intend to conduct substantially all of our investment activities through our operating partnership and its subsidiaries. Our primary objective is to enhance stockholder value over time by generating strong risk-adjusted returns for our stockholders. We plan to invest principally in hotels located in the United States. We target upscale and midscale without food and beverage hotels that meet specific acquisition criteria and to a lesser extent smaller full-service hotels that may fall into the upper upscale or midscale with food and beverage segments. We also may selectively invest in loans secured by these types of hotels or ownership interests in entities owning these types of hotels to the extent the investment provides us with a clear path to acquiring the underlying real estate, and subject to the limitations imposed by reason of our qualification as a REIT. For a discussion of our hotels and our acquisition and other strategic objectives, see Our Business and Properties.

We intend to engage in future investment activities in a manner that is consistent with the requirements applicable to REITs for federal income tax purposes. We primarily expect to pursue our investment objectives through the ownership by our operating partnership of hotels, but we may also make equity investments in other entities, including joint ventures that own hotels. Our management team will identify and negotiate acquisition and other investment opportunities, subject to the approval by our board of directors. For information concerning the investing experience of these individuals, please see the section entitled Management.

We may enter into joint ventures from time to time, if we determine that doing so would be the most cost-effective and efficient means of raising capital. Equity investments may be subject to existing mortgage financing and other indebtedness or such financing or indebtedness may be incurred in connection with acquiring investments. Any such financing or indebtedness will have priority over our equity interest in such property. Investments are also subject to our policy not to be treated as an investment company under the Investment Company Act of 1940, as amended, or the 1940 Act.

We do not have a specific policy to acquire assets primarily for capital gain or primarily for income. From time to time, we may make investments that support our objectives but do not provide current cash flow. We believe investments that do not generate current cash flow may be, in certain instances, consistent with achieving sustainable long-term growth for our stockholders.

We do not have any specific policy as to the amount or percentage of our assets which will be invested in any specific asset, other than the tax rules applicable to REITs. Additionally, no limits have been set on the concentration of investments in any one geographic location, hotel type or franchise brand. We currently anticipate that our real estate investments will continue to be concentrated in upscale and midscale without food and beverage hotels. We anticipate that our real estate investments will continue to be diversified in terms of geographic market.

Investments in Real Estate Mortgages

While we will emphasize equity real estate investments in hotels, we may selectively acquire loans secured by hotel properties or entities that own hotel properties to the extent that those investments are consistent with our qualification as a REIT and provide us with a clear path to acquiring the underlying real estate. We do not intend to originate any secured or unsecured real estate loans or purchase any debt securities as a stand-alone, long-term investment, but, in limited circumstances, we may from time to time provide a short-term loan to a hotel owner as a means of securing an acquisition opportunity. The mortgages in which we may invest may be first-lien mortgages or subordinate mortgages secured by

hotels. The subordinated mezzanine loans in which we may invest may include mezzanine loans secured by a pledge of ownership interests in an entity owning a hotel or group of hotels. Investments in real estate mortgages and subordinated real estate loans are subject to the risk that one or more borrowers may default and that the collateral securing mortgages may not be sufficient or, in the case of subordinated mezzanine loans, available to enable us, to recover our full investment.

Investments in Securities or Interests in Entities Primarily Engaged in Real Estate Activities and Investments in Other Securities

Subject to the gross income and asset requirements required to qualify as a REIT, we may invest in securities of entities engaged in real estate activities or securities of other issuers, including for the purpose of exercising control over such entities. We do not currently have any policy limiting the types of entities in which we may invest or the proportion of assets to be so invested, whether through acquisition of an entity s common stock, limited liability or partnership interests, interests in another REIT or entry into a joint venture. However, other than in the formation transactions, we do not presently intend to invest in these types of securities.

Purchase and Sale of Investments

We expect to invest in hotels primarily for generation of current income and long-term capital appreciation. Although we do not currently intend to sell any hotels, we may deliberately and strategically dispose of assets in the future and redeploy funds into new acquisitions and development opportunities that align with our strategic objectives. If market conditions are favorable, we may also engage in development opportunities by developing the land within our portfolio or acquiring land for development.

Lending Policies

We do not have a policy limiting our ability to make loans to other persons, although our ability to do so may be limited by applicable law, such as the Sarbanes-Oxley Act. Subject to tax rules applicable to REITs, we may make loans to unaffiliated third parties. For example, we may consider offering purchase money financing in connection with the disposition of assets in instances where the provision of that financing would increase the value to be received by us for the asset sold. We do not expect to engage in any significant lending in the future. We may choose to guarantee debt of certain joint ventures with third parties. Consideration for those guarantees may include, but is not limited to, fees, long-term management contracts, options to acquire additional ownership interests and promoted equity positions. Our board of directors may, in the future, adopt a formal lending policy without notice to or consent of our stockholders.

Issuance of Additional Securities

If our board of directors determines that obtaining additional capital would be advantageous to us, we may, without stockholder approval, issue debt or equity securities, including causing our operating partnership to issue additional OP units, retain earnings (subject to the REIT distribution requirements for federal income tax purposes) or pursue a combination of these methods. As long as our operating partnership is in existence, the proceeds of all equity capital raised by us will be contributed to our operating partnership in exchange for additional OP units, which will dilute the ownership interests of the other limited partners.

We may offer shares of our common stock, OP units, or other debt or equity securities in exchange for cash, real estate assets or other investment targets, and to repurchase or otherwise re-acquire shares of our common stock, OP units or other debt or equity securities. We may issue preferred stock from time to time, in one or more classes or series, as authorized by our board of directors without the need for stockholder approval. We have not adopted a specific policy

governing the issuance of senior securities at this time. Summit Capital, which is owned and managed by our Executive Chairman, Mr. Boekelheide, may engage in the distribution and sale of securities of other issuers in private placements exempt from registration requirements under the Securities Act.

Repurchase of Our Securities

We may repurchase shares of our common stock or OP units from time to time. In addition, certain holders of OP units have the right, beginning 12 months after completion of the formation transactions, to require us to redeem their OP units in exchange for cash or, at our option, shares of common stock. See Shares Eligible for Future Sale Redemption/Exchange Rights.

Reporting Policies

We intend to make available to our stockholders audited annual financial statements and annual reports. Upon completion of this offering, we will become subject to the information reporting requirements of the Exchange Act, pursuant to which we will file periodic reports, proxy statements and other information, including audited financial statements, with the SEC.

Policies with Respect to Certain Transactions

Upon completion of this offering and the formation transactions, we will adopt a written policy for the review and approval of related person transactions requiring disclosure under Rule 404(a) of Regulation S-K, which will include our directors, officers, major stockholders and affiliates, including certain of their family members. For a discussion of our Related Person Transaction Policy, see Certain Relationships and Related Party Transactions. Under our bylaws, our directors and officers may have business interests and engage in business activities similar to, in addition to or in competition with those of or relating to our company.

Table of Contents

Principal Stockholders

Immediately prior to the closing of this offering, we have a total of 1,000 shares of common stock outstanding. We sold these shares to our Executive Chairman, Mr. Boekelheide in connection with our formation and initial capitalization for total consideration of $1,000. At the closing of this offering, we will repurchase these shares from Mr. Boekelheide for $1,000.

The following table sets forth the beneficial ownership of shares of our common stock and shares of common stock issuable upon redemption of OP units (without giving effect to the 12 month restriction on redemption applicable to OP units) immediately following completion of this offering and the formation transactions by (1) each of the executive officers named in the table appearing under the caption Management Summary Compensation Table, (2) each of our directors and independent director nominees, (3) all of our executive officers, directors and director nominees as a group and (4) each holder of five percent or more of our shares of common stock.

The SEC has defined beneficial ownership of a security to mean the possession, directly or indirectly, of voting power and/or investment power over such security. In computing the number of shares and OP units beneficially owned by a person and the percentage ownership of that person, shares of common stock subject to options or other rights held by that person that are exercisable as of , 2010 or will become exercisable within 60 days thereafter, are deemed outstanding, while such shares are not deemed outstanding for purposes of computing percentage ownership of any other person. Each person named in the table has sole voting and investment power with respect to all of the shares of common stock and OP units shown as beneficially owned by such person, except as otherwise set forth in the notes to the table. Unless otherwise indicated, the address of each named person is c/o Summit Hotel Properties, Inc., 2701 South Minnesota Avenue, Suite 6, Sioux Falls, South Dakota 57105.

Name of Beneficial Owner	Number of Shares and OP Units Beneficially Owned	Percentage of All Shares[1]	Percentage of All Shares and OP Units Beneficially Owned[2]
Kerry W. Boekelheide[3]	1,517,879

Wayne W. Wielgus	(6)	*	*
All directors, independent director nominees and executive officers as a group (persons)			

* Represents less than 1%

(1) Assumes shares of our common stock are outstanding immediately following this offering. In addition, amounts for individuals assume that all OP units held by the person are redeemed for shares of our common

stock, and amounts for all executive officers, directors and independent director nominees as a group assume all OP units held by them are exchanged for shares of our common stock. The total number of shares of common stock outstanding used in calculating this percentage assumes that none of the OP units held by other persons are exchanged for shares of our common stock.

(2) Assumes a total of shares of our common stock and 10,100,000 OP units, which OP units may redeemed for cash or, at our election, shares of our common stock as described in Description of the Partnership Agreement, are outstanding immediately following this offering.

(3) Upon completion of this offering, Mr. Boekelheide will not beneficially own any shares of our common stock, except in the form of OP units. Includes (i) 17,000 OP units to be issued to a revocable trust, the trustee and sole beneficiary of which is Mr. Boekelheide, in exchange for the trust s membership interests in our predecessor; (ii) 1,109,164 OP units to be issued to The Summit Group in the merger in exchange for its membership interests in our predecessor; (iii) 74,829 OP units to be issued to The Summit Group in exchange for its Class B membership interest in Summit of Scottsdale; and (iv) an aggregate of 316,886 OP units to be issued to entities affiliated with Mr. Boekelheide other than The Summit Group, over which Mr. Boekelheide will share voting and investment power with individuals who are not affiliated with us. Excludes options to purchase shares of our common stock at the initial public offering price, none of which has vested.

(4) Does not reflect options to be granted to Messrs. Hansen, Becker and Bertucci to purchase an aggregate of shares of our common stock at the initial public offering price, none of which has vested.

(5) Upon completion of this offering, Mr. Aniszewski will not beneficially own any shares of our common stock, except in the form of OP units. Includes 4,105 OP units to be issued to Mr. Aniszewski in exchange for his Class B membership interests in our predecessor. Excludes options to purchase shares of our common stock at the initial public offering price, none of which has vested.

(6) We will grant shares of common stock to each initial independent director upon completion of this offering.

Certain Relationships and Related Party Transactions

Formation Transactions

On June 30, 2010, in connection with the initial capitalization of our company, we issued 1,000 shares of common stock to our Executive Chairman, Mr. Boekelheide, for total cash consideration of $1,000. The shares were issued in reliance on the exemption set forth in Section 4(2) of the Securities Act. Upon completion of this offering, we will repurchase these shares from Mr. Boekelheide for $1,000.

Some of our executive officers and directors have material interests in the formation transactions. Prior to completion of the formation transactions, these executive officers and directors have ownership interests in our predecessor. In addition, Mr. Boekelheide, through The Summit Group, holds a 36% Class B membership interest in Summit of Scottsdale. As part of the formation transactions, we will acquire these ownership interests by issuing OP units to the former members of those companies, including some of our executive officers and directors. The aggregate number and value of the OP units to be issued to our executive officers and directors in connection with the formation transactions is as follows:

§ Mr. Boekelheide, our Executive Chairman, will receive an aggregate of 1,200,993 OP units, including: (1) 17,000 OP units to be issued to a revocable trust, the trustee and sole beneficiary of which is Mr. Boekelheide, in exchange for the trust s Class A membership interests in our predecessor pursuant to the merger; (2) 1,109,164 OP units to be issued to The Summit Group pursuant to the merger; and (3) 74,829 OP units to be issued to The Summit Group in exchange for its 36% Class B membership interest in Summit of Scottsdale. These OP units represent approximately % of our common stock and OP units outstanding on a fully diluted basis and have a combined aggregate value of $ million based on the anticipated mid-point of the initial public offering price range shown on the cover of this prospectus.

§ Entities affiliated with Mr. Boekelheide, other than The Summit Group, will receive an aggregate of 316,886 OP units. Mr. Boekelheide will share voting and investment power over these OP units with individuals who are not affiliated with us. These OP units will represent approximately % of our common stock and OP units outstanding on a fully diluted basis and have a combined aggregate value of $ million based on the anticipated mid-point of the initial public offering price range shown on the cover of this prospectus.

§ Mr. Aniszewski, our Executive Vice President and Chief Operating Officer, will receive an aggregate of 4,105 OP units in exchange for his Class B membership interest in our predecessor pursuant to the merger. These OP units represent approximately % of our common stock and OP units outstanding on a fully diluted basis and have a combined aggregate value of $ million based on the anticipated mid-point of the initial public offering price range shown on the cover of this prospectus.

In addition to the OP units to be received in connection with the formation transactions, our executive officers will also benefit from the following:

§ employment agreements that will provide for salary, bonus and other benefits, including severance benefits in the event of a termination of employment in certain circumstances (see Management Employment Agreements);

§ options to purchase an aggregate of shares of our common stock at the initial public offering price of the shares in this offering that will be granted to our executive officers upon completion of this offering

pursuant to the 2010 Equity Incentive Plan (see Management IPO Grants of Plan-Based Awards);

§ agreements providing for indemnification by us for certain liabilities and expenses incurred as a result of actions brought, or threatened to be brought, against them as an officer and/or director of our company (see Management Indemnification Agreements and Material Provisions of Maryland Law and of Our Charter and Bylaws); and

§ redemption and registration rights under our operating partnership s partnership agreement with respect to OP units to be issued in the formation transactions (see Description of the Partnership Agreement).

Furthermore, in connection with the formation transactions, our operating partnership will offer to enter into tax protection agreements with a limited number of the members of our predecessor, including The Summit Group and Mr. Aniszewski. See Formation Transactions Tax Protection Agreements.

Table of Contents

Cash Payment by to The Summit Group

In consideration for assigning to them the existing hotel management agreements with our predecessor, The Summit Group will receive a total cash payment from in the amount of $.

Related Party Transactions Between Our Predecessor and Its Affiliates Prior to the Formation Transactions

Our Executive Chairman, Mr. Boekelheide, is the sole owner of The Summit Group. Prior to completion of the formation transactions, The Summit Group held a 43.5% total ownership interest in our predecessor and it acted as our predecessor s company manager. In addition, The Summit Group had the right to appoint six of the seven members of our predecessor s board of managers. Prior to completion of the formation transactions, Mr. Boekelheide served as an executive officer and member of the board of managers of our predecessor. As a result, The Summit Group exercised substantial influence and control over our predecessor and its business and affairs.

Since January 1, 2009 and through June 30, 2010, our predecessor reimbursed a total of $6.8 million of expenses incurred by The Summit Group in connection with the management of our predecessor and the management of our predecessor s hotels. In addition, as of June 30, 2010, our predecessor had accounts payable to The Summit Group in the amount of approximately $373,000 relating to reimbursement of development expenses for acquired properties and certain management expenses.

Summit Capital, a registered broker-dealer, provided placement agent services to our predecessor in connection with private offerings of our predecessor s securities. Our Executive Chairman, Mr. Boekelheide, is the sole owner and President of Summit Capital. Since January 1, 2009, our predecessor paid Summit Capital approximately $571,000 in commissions and fees related to placements of our predecessor s securities.

From time to time in the past, our predecessor has selectively used an aircraft owned by an entity owned by Mr. Boekelheide, and we may use the aircraft going forward. Our predecessor historically paid the actual cost of such aircraft (fuel, pilot fees and an allocable share of maintenance and depreciation) and we expect to use the aircraft selectively on substantially the same terms.

Outside Business Interests

Following completion of this offering, Mr. Boekelheide and other key members of our senior management team, including Messrs. Hansen and Aniszewski, will continue to serve as executive officers of The Summit Group. The Summit Group will continue to manage one hotel that is not owned by us, a Comfort Suites located in Tucson, Arizona. Our employment agreement with Mr. Boekelheide requires him to devote a substantial portion of his business time and attention to our business and our employment agreements with our other executive officers require our executives to devote substantially all of their business time and attention to our business. In addition, Mr. Boekelheide, as well as our Executive Vice President and Chief Financial Officer, Mr. Becker, and our Vice President of Acquisitions, Mr. Bertucci, will continue to serve as officers of Summit Green Tiger. Summit Green Tiger co-manages two private investment funds, which own a total of six multi-family properties. We will not compete with these funds for investment opportunities. We expect a limited amount of time will be dedicated to these funds as they are closed and the co-manager oversees the day-to-day operations and investments of these funds. These outside business interests may reduce the amount of time that Messrs. Boekelheide, Hansen, Aniszewski, Becker and Bertucci are able to devote to our business. For more information, see Certain Relationships and Related Party Transactions Outside Business Interests.

Review and Approval of Future Transactions with Related Persons

Upon completion of this offering and the formation transactions, we will adopt a written policy for the review and approval of related person transactions requiring disclosure under Rule 404(a) of Regulation S-K. We expect this policy to provide that our nominating and corporate governance committee will be responsible for reviewing and approving or disapproving all interested transactions, meaning any transaction, arrangement or relationship in which (1) the amount involved may be expected to exceed $120,000 in any fiscal year, (2) our company or one of our subsidiaries will be a participant and (3) a related person has a direct or indirect material interest. A related person will be defined as an executive officer, director or nominee for election as director, or a greater than 5% beneficial owner of our common stock, or an immediate family member of the foregoing. The policy may deem certain interested transactions to be pre-approved.

Table of Contents

Description of Capital Stock

The following is a summary of the material terms of our capital stock and certain terms of our charter and bylaws as we expect they will be at the time of completion of this offering and the formation transactions.

General

We are authorized to issue 600,000,000 shares of stock, consisting of 500,000,000 shares of common stock, $0.01 par value per share, and 100,000,000 shares of preferred stock, $0.01 par value per share. Our charter authorizes our board of directors, with the approval of a majority of the entire board and without any action on the part of our stockholders, to amend our charter to increase or decrease the aggregate number of authorized shares of stock or the number of authorized shares of stock of any class or series without stockholder approval. As of the date of this prospectus, we had 1,000 outstanding shares of common stock held by one record holder, Mr. Boekelheide, and no outstanding shares of preferred stock. Under Maryland law, stockholders generally are not liable for a corporation s debts or obligations.

Common Stock

Subject to the preferential rights, if any, of holders of any other class or series of stock and to the provisions of our charter regarding restrictions on ownership and transfer of our stock, holders of our common stock:

§ have the right to receive ratably any distributions from funds legally available therefor, when, as and if authorized by our board of directors; and

§ are entitled to share ratably in the assets of our company legally available for distribution to the holders of our common stock in the event of our liquidation, dissolution or winding up of our affairs.

There are generally no redemption, sinking fund, conversion, preemptive or appraisal rights with respect to our common stock.

Subject to the provisions of our charter regarding restrictions on ownership and transfer of our stock and except as may otherwise be specified in the terms of any class or series of stock, each outstanding share of our common stock entitles the holder to one vote on all matters submitted to a vote of stockholders, including the election of directors and, except as may be provided with respect to any other class or series of stock, the holders of such shares will possess the exclusive voting power. There is no cumulative voting in the election of our directors, and directors will be elected by a plurality of the votes cast in the election of directors. Consequently, at each annual meeting of stockholders, the holders of a majority of the outstanding shares of our common stock can elect all of the directors then standing for election, and the holders of the remaining shares will not be able to elect any directors.

Power to Reclassify and Issue Stock

Our board of directors may classify any unissued shares of preferred stock, and reclassify any unissued shares of common stock or any previously classified but unissued shares of preferred stock into other classes or series of stock, including one or more classes or series of stock that have priority over our common stock with respect to voting rights or distributions or upon liquidation, and authorize us to issue the newly classified shares. Prior to the issuance of shares of each class or series, our board of directors is required by the MGCL and our charter to set, subject to the provisions of our charter regarding the restrictions on ownership and transfer of our stock, the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications or terms or

conditions of redemption for each such class or series. These actions can be taken without stockholder approval, unless stockholder approval is required by applicable law, the terms of any other class or series of our stock or the rules of any stock exchange or automated quotation system on which our stock may be then listed or quoted. Our charter authorizes our board of directors, without stockholder approval, to reclassify any unissued shares of our common stock into other classes or series of classes of stock and to establish the number of shares in each class or series and to set the preferences, conversion and other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications or terms or conditions of redemption for each such class or series.

Power to Increase or Decrease Authorized Stock and Issue Additional Shares of Our Common and Preferred Stock

Our charter authorizes our board of directors, with the approval of a majority of the entire board, to amend our charter to increase or decrease the aggregate number of authorized shares of stock or the number of authorized shares of stock of any class or series without stockholder approval. We believe that the power of our board of directors to increase or decrease the number of authorized shares of stock and to classify or reclassify unissued shares of our common stock or preferred stock and thereafter to cause us to issue such shares of stock will provide us with increased flexibility in structuring possible future financings and acquisitions and in meeting other needs which might arise. The additional classes or series, as well as the additional shares of stock, will be available for issuance without further action by our stockholders, unless such action is required by applicable law, the terms of any other class or series of stock or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. Although our board of directors does not intend to do so, it could authorize us to issue a class or series that could, depending upon the terms of the particular class or series, delay, defer or prevent a transaction or a change in control of our company that might involve a premium price for our stockholders or otherwise be in their best interests.

Restrictions on Ownership and Transfer

In order to qualify as a REIT under the Code, our shares of stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months (other than the first year for which an election to be a REIT has been made) or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of our outstanding shares of capital stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include certain entities) during the last half of a taxable year (other than the first year for which an election to be a REIT has been made).

Because our board of directors believes it is at present essential for us to qualify as a REIT, our charter, subject to certain exceptions, contains restrictions on the number of our shares of stock that a person may own. Our charter provides that, subject to certain exceptions, no person may beneficially or constructively own more than 9.8% in value or in number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our capital stock, or the Ownership Limit.

Our charter also prohibits any person from:

- § beneficially owning shares of our capital stock to the extent that such beneficial ownership would result in our being closely held within the meaning of Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of the taxable year);

- § transferring shares of our capital stock to the extent that such transfer would result in our shares of capital stock being beneficially owned by fewer than 100 persons (determined under the principles of Section 856(a)(5) of the Code);

- § beneficially or constructively owning shares of our capital stock to the extent such beneficial or constructive ownership would cause us to constructively own ten percent or more of the ownership interests in a tenant (other than a TRS) of our real property within the meaning of Section 856(d)(2)(B) of the Code; or

- § beneficially or constructively owning or transferring shares of our capital stock if such beneficial or constructive ownership or transfer would otherwise cause us to fail to qualify as a REIT under the Code, including, but not limited to, as a result of any hotel management companies failing to qualify as an eligible independent contractor under the REIT rules.

Our board of directors, in its sole discretion, may prospectively or retroactively exempt a person from certain of the limits described in the paragraph above and may establish or increase an excepted holder percentage limit for that person. The person seeking an exemption must provide to our board of directors any representations, covenants and undertakings that our board of directors may deem appropriate in order to conclude that granting the exemption will not cause us to lose our status as a REIT. Our board of directors may not grant an exemption to any person if that exemption would result in our failing to qualify as a REIT. Our board of directors may require a ruling from the IRS or an opinion of counsel, in

either case in form and substance satisfactory to our board of directors, in its sole discretion, in order to determine or ensure our status as a REIT.

Any attempted transfer of shares of our capital stock which, if effective, would violate any of the restrictions described above will result in the number of shares of our capital stock causing the violation (rounded up to the nearest whole share) to be automatically transferred to a trust for the exclusive benefit of one or more charitable beneficiaries, except that any transfer that results in the violation of the restriction relating to shares of our capital stock being beneficially owned by fewer than 100 persons will be void *ab initio*. In either case, the proposed transferee will not acquire any rights in those shares. The automatic transfer will be deemed to be effective as of the close of business on the business day prior to the date of the purported transfer or other event that results in the transfer to the trust. Shares held in the trust will be issued and outstanding shares. The proposed transferee will not benefit economically from ownership of any shares held in the trust, will have no rights to dividends or other distributions and will have no rights to vote or other rights attributable to the shares held in the trust. The trustee of the trust will have all voting rights and rights to dividends or other distributions with respect to shares held in the trust. These rights will be exercised for the exclusive benefit of the charitable beneficiary. Any dividend or other distribution paid prior to our discovery that shares have been transferred to the trust will be paid by the recipient to the trustee upon demand. Any dividend or other distribution authorized but unpaid will be paid when due to the trustee. Any dividend or other distribution paid to the trustee will be held in trust for the charitable beneficiary. Subject to Maryland law, the trustee will have the authority (i) to rescind as void any vote cast by the proposed transferee prior to our discovery that the shares have been transferred to the trust and (ii) to recast the vote in accordance with the desires of the trustee acting for the benefit of the charitable beneficiary. However, if we have already taken irreversible corporate action, then the trustee will not have the authority to rescind and recast the vote.

Within 20 days of receiving notice from us that shares of our stock have been transferred to the trust, the trustee will sell the shares to a person designated by the trustee, whose ownership of the shares will not violate the above ownership and transfer limitations. Upon the sale, the interest of the charitable beneficiary in the shares sold will terminate and the trustee will distribute the net proceeds of the sale to the proposed transferee and to the charitable beneficiary as follows. The proposed transferee will receive the lesser of (i) the price paid by the proposed transferee for the shares or, if the proposed transferee did not give value for the shares in connection with the event causing the shares to be held in the trust (e.g., a gift, devise or other similar transaction), the market price (as defined in our charter) of the shares on the day of the event causing the shares to be held in the trust and (ii) the price received by the trustee (net of any commission and other expenses of sale) from the sale or other disposition of the shares. The trustee may reduce the amount payable to the proposed transferee by the amount of dividends or other distributions paid to the proposed transferee and owed by the proposed transferee to the trustee. Any net sale proceeds in excess of the amount payable to the proposed transferee will be paid immediately to the charitable beneficiary. If, prior to our discovery that our shares of our stock have been transferred to the trust, the shares are sold by the proposed transferee, then (i) the shares shall be deemed to have been sold on behalf of the trust and (ii) to the extent that the proposed transferee received an amount for the shares that exceeds the amount he or she was entitled to receive, the excess shall be paid to the trustee upon demand.

In addition, shares of our stock held in the trust will be deemed to have been offered for sale to us, or our designee, at a price per share equal to the lesser of (i) the price per share in the transaction that resulted in the transfer to the trust (or, in the case of a devise or gift, the market price at the time of the devise or gift) and (ii) the Market Price on the date we, or our designee, accept the offer, which we may reduce by the amount of dividends and distributions paid to the proposed transferee and owed by the proposed transferee to the trustee. We will have the right to accept the offer until the trustee has sold the shares. Upon a sale to us, the interest of the charitable beneficiary in the shares sold will terminate and the trustee will distribute the net proceeds of the sale to the proposed transferee.

If a transfer to a charitable trust, as described above, would be ineffective for any reason to prevent a violation of a restriction, the transfer that would have resulted in a violation will be void *ab initio*, and the proposed transferee shall acquire no rights in those shares.

Any certificate representing shares of our capital stock, and any notices delivered in lieu of certificates with respect to the issuance or transfer of uncertificated shares, will bear a legend referring to the restrictions described above.

Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of shares of our capital stock that will or may violate any of the foregoing restrictions on transferability and ownership, or any person who would have owned shares of our capital stock that resulted in a transfer of shares to a charitable trust, is required to give

Table of Contents

written notice immediately to us, or in the case of a proposed or attempted transaction, to give at least 15 days prior written notice, and provide us with such other information as we may request in order to determine the effect of the transfer on our status as a REIT. The foregoing restrictions on transferability and ownership will not apply if our board of directors determines that it is no longer in our best interests to attempt to qualify, or to continue to qualify, as a REIT.

Every owner of more than 5% (or any lower percentage as required by the Code or the regulations promulgated thereunder) in number or value of the outstanding shares of our capital stock, within 30 days after the end of each taxable year, is required to give us written notice, stating his or her name and address, the number of shares of each class and series of shares of our capital stock that he or she beneficially owns and a description of the manner in which the shares are held. Each of these owners must provide us with additional information that we may request in order to determine the effect, if any, of his or her beneficial ownership on our status as a REIT and to ensure compliance with the ownership limits. In addition, each stockholder will upon demand be required to provide us with information that we may request in good faith in order to determine our status as a REIT and to comply with the requirements of any taxing authority or governmental authority or to determine our compliance.

These ownership limitations could delay, defer or prevent a transaction or a change in control that might involve a premium price for our shares of common stock or otherwise be in the best interest of our stockholders.

Stock Exchange Listing

We intend to apply to list our common stock on the NYSE under the symbol INN.

Transfer Agent and Registrar

The transfer agent and registrar for our shares of common stock is .

Shares Eligible for Future Sale

General

Upon completion of this offering and the formation transactions, we expect to have outstanding shares of our common stock (shares if the underwriters over-allotment option is exercised in full). In addition, an additional shares of our common stock are reserved for issuance under the 2010 Equity Incentive Plan and upon redemption of OP units.

Of these shares, shares sold in this offering (shares if the underwriters over-allotment option is exercised in full) will be freely transferable without restriction or further registration under the Securities Act, subject to the limitations on ownership set forth in our charter, except for any shares held by our affiliates, as that term is defined by Rule 144 under the Securities Act. Any shares granted under the 2010 Equity Incentive Plan plus any shares purchased by affiliates in this offering and the shares of our common stock owned by our affiliates upon redemption of OP units will be restricted shares as defined in Rule 144.

Rule 144

In general, under Rule 144, a person (or persons whose shares are aggregated) who is not an affiliate of ours and has not been one of our affiliates at any time during the three months preceding a sale, and who has beneficially owned the restricted securities proposed to be sold for at least one year, including the holding period of any prior owner other than an affiliate, is entitled to sell his or her securities without registration and without complying with the manner of sale, current public information, volume limitation or notice provisions of Rule 144. In addition, under Rule 144, once we have been subject to the reporting requirements of the Exchange Act for at least 90 days, a person (or persons whose securities are aggregated) who is not an affiliate of ours and has not been one of our affiliates at any time during the three months preceding a sale, may sell his or her securities without registration after only a six-month holding period, subject only to the continued availability of current public information about us. Any sales by affiliates under Rule 144, even after the applicable holding periods described above, are subject to requirements and or limitations with respect to volume, manner of sale, notice and the availability of current public information about us.

Redemption Rights and Registration Rights

In connection with the formation transactions, our operating partnership will issue an aggregate of 10,100,000 OP units to the former members of our predecessor and the former Class B and Class C members of Summit of Scottsdale. These OP units will be outstanding upon completion of this offering and the formation transactions. Beginning on or after the date which is 12 months after completion of the formation transactions, the limited partners of our operating partnership (other than us) have the right to require our operating partnership to redeem part or all of their OP units for cash or, at our election, shares of our common stock, based upon the market price of an equivalent number of shares of our common stock at the time of the redemption, subject to the ownership limits set forth in our charter. Limited partners of our operating partnership (other than us) will have registration rights with respect to these shares. These redemption and registration rights may result in 10,100,000 shares of our common stock becoming immediately saleable on the open market on or about the first anniversary of completion of this offering. See Description of the Partnership Agreement Registration Rights for more information.

Equity Grants and Incentive Plan

We intend to adopt the 2010 Equity Incentive Plan. Key employees, directors and consultants are eligible to be granted stock options, stock appreciation rights, restricted stock, phantom shares, dividend equivalent rights and other equity-based awards under the 2010 Equity Incentive Plan. We intend to reserve the lesser of (1) shares of our common stock and (2) 8.5% of the total number of shares of our common stock sold in this offering (including any shares issued pursuant to the underwriters over-allotment option) for issuance pursuant to the 2010 Equity Incentive Plan, subject

to certain adjustments as set forth in the plan. Approximately 5% of these shares will be issued to our executive officers in the form of option awards and to our non-employee directors in the form of stock awards upon completion of this offering.

We anticipate that we will file a registration statement on Form S-8 with respect to the shares of our common stock issuable under the 2010 Equity Incentive Plan prior to completion of this offering. Shares of our common stock covered by this registration statement, including shares of our common stock issuable upon exercise of options or restricted shares of our common stock will be eligible for transfer or resale without restriction under the Securities Act unless held by affiliates.

Lock-Up Agreements

For a description of the lock-up agreement that our officers and directors and certain shareholders have agreed to enter into with Robert W. Baird & Co. Incorporated, see Underwriting.

Material Provisions of Maryland Law and of Our Charter and Bylaws

Our Board of Directors

Our charter and bylaws provide that the number of directors of our company may be established, increased or decreased by our board of directors, but may not be less than the minimum number required under the MGCL, which is one, or more than fifteen. Our charter provides that, at such time as we become eligible to elect to be subject to Title 3, Subtitle 8 of the MGCL (which we expect will be upon completion of this offering) and subject to the rights of holders of one or more classes or series of preferred stock, any vacancy may be filled only by a majority of the remaining directors, even if the remaining directors do not constitute a quorum, and any director elected to fill a vacancy will serve for the full term of the directorship in which such vacancy occurred and until a successor is elected and qualifies.

Pursuant to our charter, each member of our board of directors is elected by our stockholders to serve until the next annual meeting of stockholders and until his or her successor is duly elected and qualifies. Holders of shares of our common stock will have no right to cumulative voting in the election of directors, and directors will be elected by a plurality of the votes cast in the election of directors. Consequently, at each annual meeting of stockholders, the holders of a majority of the shares of our common stock will be able to elect all of our directors.

Removal of Directors

Our charter provides that, subject to the rights of holders of one or more classes or series of preferred stock to elect or remove one or more directors, a director may be removed only for cause (as defined in our charter) and only by the affirmative vote of holders of shares entitled to cast at least two-thirds of the votes entitled to be cast generally in the election of directors. This provision, when coupled with the exclusive power of our board of directors to fill vacant directorships, may preclude stockholders from removing incumbent directors except for cause and by a substantial affirmative vote and filling the vacancies created by such removal with their own nominees.

Business Combinations

Under the MGCL, certain business combinations (including a merger, consolidation, share exchange or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities) between a Maryland corporation and an interested stockholder (i.e., any person (other than the corporation or any subsidiary) who beneficially owns 10% or more of the voting power of the corporation s outstanding voting stock after the date on which the corporation had 100 or more beneficial owners of its stock, or an affiliate or associate of the corporation who, at any time within the two-year period immediately prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then outstanding stock of the corporation after the date on which the corporation had 100 or more beneficial owners of its stock) or an affiliate of an interested stockholder, are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. Thereafter, any such business combination between the Maryland corporation and an interested stockholder generally must be recommended by the board of directors of such corporation and approved by the affirmative vote of at least (1) 80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation and (2) two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom (or with whose affiliate) the business combination is to be effected or held by an affiliate or associate of the interested stockholder, unless, among other conditions, the corporation s common stockholders receive a minimum price (as defined in the MGCL) for their shares and the consideration is received in cash or in the same form as previously paid by the interested stockholder for its shares. A person is not an interested

stockholder under the statute if the board of directors approved in advance the transaction by which the person otherwise would have become an interested stockholder. The board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by it.

As permitted by the MGCL, our board of directors has adopted a resolution exempting any business combination between us and any other person from the provisions of this statute, provided that the business combination is first approved by our board of directors (including a majority of directors who are not affiliates or associates of such persons). However, our board of directors may repeal or modify this resolution at any time in the future, in which case the applicable provisions of this statute will become applicable to business combinations between us and interested stockholders.

Control Share Acquisitions

The MGCL provides that control shares of a Maryland corporation acquired in a control share acquisition have no voting rights except to the extent approved by the affirmative vote of at least two-thirds of the votes entitled to be cast by stockholders entitled to vote generally in the election of directors, excluding votes cast by (1) the person who makes or proposes to make a control share acquisition, (2) an officer of the corporation or (3) an employee of the corporation who is also a director of the corporation. Control shares are voting shares of stock which, if aggregated with all other such shares of stock previously acquired by the acquirer or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power: (1) one-tenth or more but less than one-third, (2) one-third or more but less than a majority or (3) a majority or more of all voting power. Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition of issued and outstanding control shares, subject to certain exceptions.

A person who has made or proposes to make a control share acquisition, upon satisfaction of certain conditions (including an undertaking to pay expenses), may compel the board of directors to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting.

If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then, subject to certain conditions and limitations, the corporation may redeem any or all of the control shares (except those for which voting rights have previously been approved) for fair value determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquirer or of any meeting of stockholders at which the voting rights of such shares are considered and not approved. If voting rights for control shares are approved at a stockholders meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of such appraisal rights may not be less than the highest price per share paid by the acquirer in the control share acquisition.

The control share acquisition statute does not apply to, among other things, (1) shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or (2) acquisitions approved or exempted by the charter or bylaws of the corporation.

Our bylaws contain a provision exempting from the control share acquisition statute any acquisition by any person of shares of our stock. There can be no assurance that such provision will not be amended or eliminated at any time in the future by our board of directors.

Subtitle 8

Subtitle 8 of Title 3 of the MGCL permits a Maryland corporation with a class of equity securities registered under the Exchange Act and at least three independent directors to elect to be subject, by provision in its charter or bylaws or a resolution of its board of directors and notwithstanding any contrary provision in the charter or bylaws, to any or all of five provisions of the MGCL which provide, respectively, that:

§ the corporation s board of directors will be divided into three classes;

§ the affirmative vote of two-thirds of the votes cast in the election of directors generally is required to remove a director;

§ the number of directors may be fixed only by vote o
