Corporate Governance

The Committees of the Board of Directors

The standing committees of our Board of Directors are the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee.

Audit Committee. The Audit Committee consists of Mr. Fink, who serves as the Chairman, and Messrs. Bron and Davis. Our Board of Directors has determined that each of Messrs. Fink, Bron, and Davis qualify as independent directors under the applicable NYSE listing requirements and regulations of the SEC.

The Audit Committee met six times during fiscal year 2010. These meetings typically include at least two separate sessions and separate communications with the Company's external auditors and Chief Financial Officer, as well as required executive sessions. The Audit Committee and our Board of Directors have adopted a charter, available on our web site at www.K12.com, for the Audit Committee setting forth the structure, powers and responsibilities of the Audit Committee. Pursuant to the charter, the Audit Committee is comprised of at least three members appointed by our Board of Directors, each of whom satisfies the requirements of independence and financial literacy. Our Audit Committee has determined that Messrs. Davis and Fink are audit committee financial experts as that term is defined under the Securities Exchange Act of 1934, as amended, or Exchange Act. Under its charter, the responsibilities of the Audit Committee include:

- annually reviewing and recommending to our Board of Directors the selection of an independent registered public accounting firm;

- reviewing and discussing with management significant accounting matters;

- discussing with our independent registered public accounting firm the conduct of the audit, the adequacy and effectiveness of our accounting, the effectiveness of internal control over financial reporting, and applicable requirements regarding auditor independence;

- approving the audited financial statements of the Company to be included in our annual report on Form 10-K; and

- pre-approving all audit and non-audit services and fees associated with our independent registered public accounting firm.

The Compensation Committee. The Compensation Committee consists of Ms. Swift, who serves as the Chair, Messrs. Tisch and Davis and Ms. Futrell. Our Board of Directors has determined that each of Messrs. Tisch and Davis and Mesdames Futrell and Swift qualify as independent directors within the meaning of the applicable NYSE listing requirements.

The Compensation Committee met six times during fiscal year 2010. Our Board of Directors has adopted a charter, available on our web site at www.K12.com, setting forth the structure, powers and responsibilities of the Compensation Committee. Under its charter, the responsibilities of the Compensation Committee include:

- reviewing the compensation philosophy of our Company;

- reviewing and approving corporate goals and objectives relating to the compensation of our Chief Executive Officer and, based upon an evaluation of the achievement of these goals, recommending to the Board of

Directors our Chief Executive Officer's total compensation;

reviewing and approving salaries, bonuses and other forms of compensation for our other executive officers, including without limitation stock options, restricted shares, and other forms of equity compensation;

considering and adopting changes to our compensation structure as applicable to all non-executive officer employees, including, but not limited to, salaries and benefits;

performing such duties and exercising such authority as may be assigned to a committee of the Board of Directors under the terms of our equity incentive and bonus plans; and

performing such other duties and exercising such other authority as may be assigned from time to time to the Compensation Committee by our Board of Directors.

The Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee consists of Mr. Bron, who serves as the Chairman, and Messrs. Fink and Tisch. Our Board of Directors has determined that each of Messrs. Bron, Fink and Tisch qualify as independent directors within the meaning of the applicable NYSE listing requirements.

The Nominating and Corporate Governance Committee met twice during fiscal year 2010. Our Board of Directors has adopted a charter, available on our web site at www.K12.com, setting forth the structure, powers and responsibilities of the Nominating and Corporate Governance Committee. Under its charter, the Nominating and Corporate Governance Committee has the authority to nominate persons to stand for election to and to fill vacancies on our Board of Directors. The Nominating and Corporate Governance Committee may consider the following criteria, as well as any other factors the Committee deems appropriate, in recommending candidates for election to our Board of Directors: (i) personal and professional integrity, ethics and values; (ii) experience in corporate management, such as serving as an officer or former officer of a publicly held company, and a general understanding of marketing, finance, operations, governance and other elements relevant to the success of a publicly-traded company in today's business environment; (iii) experience in management and in the Company's industry; (iv) experience as a board member of another publicly-held company; (v) academic or policy expertise in an area of the Company's operations; and (vi) practical and mature business judgment, including ability to make independent analytical inquiries. Although the Nominating and Corporate Governance Committee does not have a formal policy with regard to the consideration of diversity in identifying director nominees, it strives to nominate directors with a variety of complementary skills so that, as a group, the Board of Directors will possess the appropriate backgrounds, talent, perspectives, skills and expertise to oversee the Company's business. The Nominating and Corporate Governance Committee will consider director candidates recommended by stockholders, provided such recommendations are submitted in writing not later than the close of business on the ninetieth day or earlier than the close of business on the one hundred twentieth day prior to the anniversary of the preceding year's annual meeting of the stockholders. Such recommendations should include the name and address and other pertinent information about the candidate as is required to be included in the Company's proxy statement. Recommendations should be submitted to the corporate secretary of the Company. The Nominating and Corporate Governance Committee will consider the same criteria set forth above when evaluating director candidates recommended by stockholders.

Board of Directors Leadership Structure

Currently, our Board of Directors has determined that the roles of the Chairman of the Board of Directors and our Chief Executive Officer should be separate. The decision whether to combine or separate these positions depends on what our Board of Directors deems to be in the long term interest of shareholders in light of prevailing circumstances. Our Board of Directors believes the Company is well-served by this flexible leadership structure and that the combination or separation of these positions should continue to be considered on an ongoing basis.

Risk Management

Our Board of Directors believes full and open communication between it and management is essential for effective risk management and oversight. Members of our Board of Directors discuss strategy and risks facing the Company with our Chief Executive Officer and our senior management at meetings of our Board of Directors or when members of our Board of Directors deem necessary, but at a minimum, at least semi-annually. Because our Chief Executive Officer is a member of our Board of Directors, our Chief Executive Officer attends all Board of Directors meetings and is available to address any questions or concerns raised by our Board of Directors on risk management-related and any other matters. Our Chief Executive Officer is also asked to contribute to the agenda for these meetings, so that each functional division of the Company can identify risk-related topics that may require Board of Directors attention, such as political risk, information security and privacy and systems infrastructure. Each quarter, our Chief Executive

Officer presents to our Board of Directors on strategic matters involving our operations and strategic initiatives and also discusses key strategies, challenges, risks, and opportunities for the Company.

Management is responsible for the day-to-day management of risks the Company faces, while our Board of Directors, as a whole and through its committees, is responsible for the oversight of risk management. In fiscal year 2010, our Board of Directors participated in an enterprise risk management assessment which was led by our management with the participation of outside advisors. Based on that review, we identified and prioritized

enterprise-wide risks that in the judgment of our Board of Directors require ongoing monitoring and remediation. To meet that objective, our Board of Directors assigned these responsibilities to a management operating committee along with an obligation to make progress reports to the Board of Directors at least semi-annually. Our Board of Directors and management will assess on an ongoing basis whether additional external enterprise risk management assessments are needed for the Company.

In addition, our Board of Directors evaluates risks that may arise as the Company pursues new educational business, both domestically and internationally. In its risk oversight role, the Board of Directors monitors whether the risk management processes that management has designed and implemented are effective both as designed and as executed. While our Board of Directors is ultimately responsible for risk oversight, our three committees assist our Board of Directors in fulfilling these responsibilities in certain areas of risk. Our Audit Committee assists our Board of Directors in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting and internal controls, and discusses with management the Company's policies with respect to those matters. This includes risk management reports prepared by our internal audit department and provided to our Audit Committee on a quarterly basis. Our Compensation Committee assists our Board of Directors in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs. Finally, our Nominating and Corporate Governance Committee assists our Board of Directors in fulfilling its oversight responsibilities with respect to the management of risks associated with board organization, membership and structure, succession planning for our directors, and corporate governance.

Risk Assessment in Compensation Programs

Consistent with SEC disclosure requirements, we have assessed the Company's compensation programs and have concluded that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company. Our management assessed the Company's executive and broad-based compensation and benefits programs to determine if the programs' provisions and operations create undesired or unintentional risk of a material nature. This risk assessment process included a review of our compensation policies and practices; analyses to identify risk and risk control related to such policies and practices; and determinations as to the sufficiency of risk identification, the balance of potential risk to potential reward, risk control, and the support of the programs and their risks to Company strategy.

Based on the foregoing, we believe that our compensation policies and practices do not create inappropriate or unintended significant risk to the Company as a whole. We also believe that our incentive compensation arrangements provide incentives that do not encourage risk-taking beyond the Company's ability to effectively identify and manage significant risks; are compatible with effective internal controls and the risk management practices of our Company; and are supported by the oversight and administration of the Compensation Committee with regard to executive compensation programs.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all employees. The Code of Business Conduct and Ethics is available on our website at www.K12.com. We intend to satisfy the disclosure requirements under the Exchange Act regarding an amendment to or waiver from our Code of Business Conduct and Ethics by posting such information on our website.

Stockholder Communications with the Board of Directors

Stockholders and other interested parties may communicate directly with our Board of Directors, individually or as a group, by sending an email to our General Counsel at OGC@K12.com, or by mailing a letter to K12 Inc., 2300

Corporate Park Drive, Herndon, VA 20171, Attn: General Counsel. Our General Counsel will monitor these communications and will provide summaries of all received communications to our Board of Directors at its regularly scheduled meetings. Where the nature of a communication warrants, our General Counsel may decide to seek the more immediate attention of the appropriate committee of the Board of Directors or a director, or our management or independent advisors and will determine whether any response is necessary.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16 of the Exchange Act requires directors and executive officers and persons, if any, owning more than 10% of a class of the Company's equity securities to file with the SEC initial reports of ownership and reports of changes in ownership of the Company's equity and equity derivative securities. Based solely upon a review of the copies of such reports and written representations from reporting persons, we believe that all Section 16(a) filing requirements applicable to our officers, directors and greater than 10% stockholders were complied with on a timely basis for fiscal year 2010, except for a Form 4 for Andrew H. Tisch which was filed late on November 11, 2009 and a Form 4 for George B. Hughes which was filed late on April 16, 2010, both due to administrative errors.

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Objectives and Philosophy of Executive Compensation

The Compensation Committee, composed entirely of independent directors, administers our executive compensation programs. The Compensation Committee's role as described in its charter is to discharge the Board of Directors responsibilities relating to compensation of our executives, including the named executive officers, and to oversee and advise the Board of Directors on the adoption of policies that govern our compensation and benefit programs. Our executive compensation programs are designed to:

attract and retain individuals of superior ability and managerial talent;

ensure senior executive compensation is aligned with our corporate strategies, business objectives and the long-term interests of our stockholders;

provide an incentive to achieve key strategic, financial and operational performance measures by linking incentive award opportunities to the achievement of performance goals in these areas; and

enhance the executives' incentives to maximize long-term stockholder value, as well as promote retention of key employees, by providing a portion of total compensation opportunities for senior management in the form of equity awards.

To achieve these objectives, the Compensation Committee has implemented and maintains compensation plans that tie a substantial portion of the executives' overall compensation to key strategic financial and operational goals such as our annual revenues and earnings. The Compensation Committee also evaluates individual executive performance with the goal of setting compensation at levels the Compensation Committee believes are comparable with executives in other companies of similar size, stage of development, geographic coverage, and that operate in the major education and high-technology industries, taking into account our relative performance and our strategic goals.

Determination of Compensation Awards

The Compensation Committee has the authority to determine and recommend the compensation awards available to our named executive officers. We have historically set base salaries and annual incentive targets based on both individual performance and scope of responsibilities. Base salaries and annual incentive targets for the named executive officers were first set as of the date of hire, and base salaries are generally reviewed annually by the Compensation Committee and adjusted to reflect individual performance and any changes in position within the Company to both reward the executives for superior performance and to further our goals of attracting and retaining managerial talent. To aid the Compensation Committee in making its determination, the Chief Executive Officer provides recommendations annually to the Compensation Committee regarding the compensation of all executive officers, excluding himself. Each named executive officer other than our Chief Executive Officer, in turn, participates in ongoing performance updates with the Chief Executive Officer to provide input regarding the named executive officer's contributions to our success for the period being assessed. The performance of our Chief Executive Officer is reviewed annually by the Compensation Committee.

For fiscal year 2010, like in prior years, our executive compensation package consisted of a fixed base salary and variable cash and equity incentive awards, with a significant portion weighted towards the variable components to ensure that total compensation reflects our overall success or failure and to motivate executive officers to meet

appropriate performance measures, thereby maximizing total return to stockholders. Within our performance-based compensation program, we aim to compensate the named executive officers in a manner that is tax effective for us.

Use of Compensation Consultants

In 2008, the Compensation Committee retained Radford, an Aon Corporation (now Aon Hewitt) company, as an independent compensation consultant. We did not utilize Radford's services in fiscal year 2010 with regard to the compensation of our named executive officers, though Radford did make recommendations for revising our

Directors Compensation Plan in fiscal year 2010, which changes are discussed in the heading entitled Director Compensation for Fiscal Year 2010. During fiscal year 2010, we determined to retain the services of another Aon Corporation consulting company with respect to certain employee benefits administration matters not involving executive compensation services. In connection with this, and to avoid any potential conflicts of interest, in May 2010, the Compensation Committee retained Towers Watson and Co., or Towers Watson, as an independent compensation consultant to assist it with executive compensation matters. In connection with our retaining Towers Watson, as discussed below, during fiscal year 2010, we determined that it was appropriate to expand the group of major education and technology companies that we consider to be our peers for executive compensation related purposes. However, we did not utilize Towers Watson's consulting services with respect to the compensation packages of our named executive officers in fiscal year 2010 because, other than with regard to Mr. Hawks and Mr. Packard, no material changes were made to the compensation packages of our named executive officers during such fiscal year. Mr. Hawks' employment agreement was negotiated, and the changes to Mr. Packard's performance bonus arrangement were determined, each as discussed in more detail below, prior to our retaining Towers Watson. Towers Watson did not perform any non-executive compensation services for us during fiscal year 2010.

Compensation Benchmarking and Peer Group

An important component of setting and structuring compensation for our named executive officers is determining the compensation packages offered by leading education and high-technology companies in order for us to offer competitive compensation within that group of companies. For the fiscal year ended June 30, 2009, or fiscal year 2009, we set base salaries and bonus incentive targets for the named executive officers near the median of a peer group of major education and high-technology companies determined with the assistance of Radford, our former compensation consultant. Our peer group for fiscal year 2009 consisted of the following eight publicly-traded companies (the Former Peer Group): American Public Education, Inc.; Blackboard Inc.; Blue Nile, Inc.; Capella Education Company; Corporate Executive Board Company; Lincoln Educational Services Corporation; Strayer Education, Inc.; and thinkorswim Group Inc. In fiscal year 2010, in connection with our retaining Towers Watson as our new compensation consultant, we determined, with the assistance of Towers Watson, that it was appropriate to reevaluate and expand our peer group in order to better assess our competitiveness among companies of similar size, industry and technology profiles to us. Our new peer group consists of the companies, other than thinkorswim Group Inc., that comprised our Former Peer Group as well as the following nine additional publicly-traded companies: Blackbaud, Inc., Bridgepoint Education, Inc., Corinthian Colleges, Inc., Deltek, Inc., DeVry Inc., Grand Canyon Education, Inc., Rosetta Stone Inc., Skillsoft Ltd. and Universal Technical Institute, Inc.

Elements of Compensation

Base Salary

Base salaries for our named executive officers are generally established in line with the scope of their responsibilities, taking into account competitive market compensation paid by other companies for like positions, and recognizing cost of living considerations. Base salaries are reviewed at least annually, and are adjusted from time to time according to performance, additional duties, promotions, inflation and market levels. Salaries among the named executive officers also reflect, in part, the terms negotiated for their position at the time of hire and subsequent adjustments determined by the Compensation Committee to account for executive performance, peer group trends, and new responsibilities assigned. Based upon the foregoing considerations, for fiscal year 2010, except with regard to Mr. Hawks, who joined us as our Chief Financial Officer in May 2010, the Compensation Committee determined to maintain the base salaries of our named executive officers at fiscal year 2009 levels, subject to review after the first half of fiscal year 2010. Following such review in March 2010, the Company determined that despite strong financial performance during the first part of the fiscal year, concerns persisted about future operating and financial performance in light of substantial uncertainty with respect to state education budgets caused by the recent economic recession. As a result, to avoid

increasing our cost structure, the base salaries of our named executive officers remained at the fiscal year 2009 levels for the duration of fiscal year 2010.

Mr. Hawks' base salary for fiscal year 2010 was the result of negotiations between Mr. Hawks and the Company. The Compensation Committee determined, with input from our Chief Executive Officer, based upon its judgment, the relative base salaries of our other named executive officers and Mr. Hawks' experience level,

expertise and compensation package in his former position, that Mr. Hawks' compensation level was necessary and appropriate to attract and retain Mr. Hawks and was also consistent with the Company's compensation philosophy of linking base salaries with the scope of executives' responsibilities and their relative levels and areas of responsibility within our organization.

Annual Performance Bonus

We maintain an annual cash bonus program, or the Executive Bonus Plan, which is intended to reward executive officers based on our Company's overall performance and the individual named executive officer's contributions to that performance. In determining an annual performance bonus for each named executive officer, the Compensation Committee evaluates performance as measured against certain objective financial performance metrics. The Compensation Committee believes that the performance bonus program provides incentives that are necessary to retain executives and reward them for our short-term performance.

For fiscal year 2010, the amounts payable to our named executive officers, other than Mr. Packard, under our annual cash performance bonus program were determined by the Compensation Committee based upon predetermined annual revenue and operating income metrics. For this purpose, our corporate-level performance goals for revenue and operating income were \$382.5 million and \$28.5 million, respectively. Among other reasons, the performance goals for fiscal year 2010 were difficult to achieve in the view of the Compensation Committee, as executives were required to achieve strong financial results during a challenging and uncertain economic period for the education industry as certain states reduced student funding levels due to budget shortfalls. We achieved revenue of \$384.5 million and operating income of \$35.5 million for fiscal year 2010. The performance bonuses paid to our named executive officers for fiscal year 2010 in light of these results are set forth in our Summary Compensation Table below.

For fiscal year 2010, Messrs. Davis and Hughes and Ms. Stokes' target bonus was 40% of base salary and Mr. Hawks' target bonus was 50% of base salary. Bonus targets have historically been negotiated at the time of hire and have typically ranged between 30%-40% of base salary for senior vice president and executive vice president positions and have historically been higher for our Chief Financial Officer. Because we achieved the performance goals for fiscal year 2010, the Compensation Committee determined that Messrs. Davis and Hughes and Ms. Stokes would receive a performance bonus for fiscal year 2010 equal to their target bonus amounts. Mr. Hawks received a prorated portion of his target performance bonus to reflect that he had not been serving as our Chief Financial Officer for the entire fiscal year.

Early in fiscal year 2010, the Compensation Committee, in the exercise of its discretion under the Executive Bonus Plan, determined that it was appropriate in view of the Company's strategic development to delay the payment of Mr. Packard's fiscal year 2009 bonus until Mr. Packard's completion of certain actions by December 31, 2009. These actions required Mr. Packard to recruit and hire one or more company executives, complete and submit organizational and operational plans to manage projected Company growth, and prepare strategies for student enrollment and retention. The initial amount that the Compensation Committee had set aside for Mr. Packard's 2009 performance bonus was \$309,000. The Compensation Committee determined in December 2009 that Mr. Packard had substantially completed each of these actions other than the hiring of one or more additional executive officers, and Mr. Packard received 83% of his target cash bonus amount as his performance bonus for fiscal year 2009. Mr. Packard received less than the full amount initially set aside for his 2009 performance bonus because the hiring objective was not fully satisfied. As this amount represents Mr. Packard's performance bonus for fiscal year 2009, this payment is included in our Summary Compensation Table as non-equity incentive plan compensation for Mr. Packard for fiscal year 2009.

During fiscal year 2010, the Compensation Committee determined to alter Mr. Packard's performance bonus structure to better align Mr. Packard's performance bonus with the Company's strategic development and performance strategies. For fiscal year 2010, Mr. Packard had a target bonus amount equal to 100% of his base salary and a maximum bonus

potential of 112% of his base salary. Mr. Packard's performance bonus depended upon achievement of predetermined Company performance metrics and other general business objectives in the following weighted amounts: 30% upon achievement of the revenue performance target set forth above, 30% upon achievement of the operating income target set forth above, 20% upon achievement of human capital

objectives and 20% upon achievement of operating objectives. Mr. Packard's human capital objectives for fiscal year 2010 were to: (i) fully staff and develop the executive management team to minimally include the hiring of key senior executives; and (ii) develop performance management objectives for functional and business team leaders and establish compensatory systems to provide feedback to all employees to assess the attainment of performance objectives. With respect to Mr. Packard's operating objectives, the Compensation Committee established predetermined goals and targets, including expansion into new states, reductions in materials and fulfillment costs, improvements in call center handling rates, and execution of our merger and acquisition strategy.

In September 2010, the Compensation Committee determined to award Mr. Packard an annual bonus for 2010 at approximately 99% of his target bonus amount for the year, which determination was made as follows:

(i) Mr. Packard received 100% of the portion of his target bonus that related to our revenue performance target due to our achievement of that target for fiscal year 2010; (ii) Mr. Packard received 120% of the portion of his target bonus that related to our operating income target due to our attaining operating income for fiscal year 2010 at a level substantially in excess of the target; (iii) Mr. Packard received 100% of the portion of his target bonus that related to his operational objectives, which included cost reductions, successful expansion into additional jurisdictions and substantial progress in implementing acquisition initiatives; and (iv) Mr. Packard received 66% of the portion of his target bonus that related to human capital objectives due to his implementation of a new performance feedback system for all employees and partial completion of the executive hiring goal.

Equity Awards

We believe that providing long-term equity awards promotes our goal of aligning executive compensation with the long-term interests of our stockholders in building the value of our Company. Historically, some of our employees, including the named executive officers, were eligible to participate in our Amended and Restated Stock Option Plan and/or received grants of stock options pursuant to stand alone stock option agreements. No stock options have been granted under the Amended and Restated Stock Option Plan or pursuant to stand alone stock option agreements since the date of our initial public offering. Currently, our named executive officers, along with a large portion of our employees, are eligible to participate in our 2007 Equity Incentive Award Plan, or the Equity Incentive Award Plan pursuant to which we grant stock options and restricted stock. Participants in the Equity Incentive Award Plan, including the named executive officers, become eligible for grants based on individual performance, as determined by the Compensation Committee; however, generally the grants to each participant have been determined using a procedure approved by the Compensation Committee based upon several factors, including our financial performance, measured generally on the basis of revenue, EBITDA and, beginning in fiscal year 2010, operating income targets, the value of the grant and the individual recipient's contributions to our Company. In addition, the Compensation Committee reviews external factors such as market data and equity award policies of comparable companies when determining the grants to participants, including the named executive officers.

The Company has historically made long-term equity awards to named executive officers in the form of stock options with an exercise price that is equal to the fair market value of the underlying stock, which is defined as the closing price for one share of our Common Stock on the NYSE on the date of grant. Stock options granted to our named executive officers other than Mr. Packard generally have a four-year vesting schedule designed to maximize employee retention and conform to market practices. To more closely align Mr. Packard's equity incentive compensation with our success, we developed a dual vesting schedule with a portion of his option grants subject to time-based vesting and a portion vesting based upon our Company's achievement of pre-established corporate-level financial performance metrics and jurisdictional expansion targets. For fiscal year 2010, the corporate-level financial targets were the same revenue and operating income targets set forth above with respect to the fiscal year 2010 performance bonuses. The jurisdictional expansion targets consisted of a series of new school and enrollment targets. This dual vesting takes into consideration Mr. Packard's role as our Chief Executive Officer and steward of achieving our Company's corporate goals, as well as his role as an individual contributor to business development efforts and revenue generation.

For the same reasons as stated above with respect to the performance metrics relating to annual performance-bonuses for executives, the Compensation Committee believed the achievement of these performance metrics would be difficult for Mr. Packard to achieve in fiscal year 2010. In addition, our revenue and operating income

targets are in part dependent upon the ability to serve virtual public schools in more states or the removal of enrollment restrictions in states where we currently operate. Mr. Packard's performance-based vesting targets relating to jurisdictional and enrollment expansion for fiscal year 2010 were directly dependent upon these factors. Achieving these goals typically requires a major initiative to secure legislation or regulations permitting our form of public education and attracting the forecasted number of students. These efforts include coordinating grass-roots support, converting this support into state-specific legislative proposals, and managing advocacy efforts to ensure the adoption of enabling legislation. This process often takes multiple legislative sessions over several years. The difficulty and uncertainty of this process is a major factor in measuring our Company's performance.

In fiscal year 2010, the named executive officers received awards of stock options as detailed in the Grants of Plan Based Awards During 2010 table. These awards were made early in fiscal year 2010 and were designed to reward our named executive officers' performance in fiscal year 2009. As a result of our attainment of our financial performance targets for fiscal year 2009, the Compensation Committee determined to make these option awards in amounts that were consistent with historical equity grants to our named executive officers in prior years.

Early in fiscal year 2010, to further align the interests of our executives, including our named executive officers, with the interests of our stockholders and to provide retention incentives to our named executive officers, the Compensation Committee determined to implement a new equity compensation program involving grants of restricted stock awards to our named executive officers and certain other employees of the Company. On September 14, 2009, we granted restricted stock awards to our named executive officers in the following amounts: Messrs. Hughes and Davis and Ms. Stokes each received 3,056 shares of restricted stock. In addition, the Compensation Committee determined that Mr. Packard would be eligible to receive 15,000 shares of restricted stock, subject to his completing the same goals discussed above with respect to Mr. Packard's fiscal year 2010 bonus. These restricted shares were granted to Mr. Packard on December 31, 2009 given his substantial completion of these goals. The shares of restricted stock vest over the three-year period and were intended as forward-looking retention compensation and not as compensation for performance in fiscal year 2009. However, the Compensation Committee considered the amount of these restricted stock grants as one factor in determining the size of the annual performance bonuses for fiscal year 2009 and the performance bonuses for fiscal year 2009 also influenced the size of these restricted stock awards. More specifically, due to difficult economic conditions during fiscal year 2009 and the certainty that existed at that time with respect to state education budgets, the Compensation Committee had initially considered not paying performance bonuses for fiscal year 2009, notwithstanding the Company's strong performance during that period, in light of the Company's lack of visibility with respect to financial performance in future periods. In order to address employee retention concerns as a result of this situation, the Compensation Committee initially set the amount of each named executive officer's restricted stock award at approximately an amount equal to his or her target annual bonus amount. Ultimately, when the Compensation Committee determined in early fiscal year 2010 to pay cash performance bonuses for fiscal year 2009 at a maximum amount approximately equal to 65% of each named executive officer's target bonus amount, the Compensation Committee determined the final amount of each named executive officer's restricted stock award by reducing the initial proposed restricted stock award amounts by half. The Compensation Committee determined that the size of these restricted stock awards was appropriate to achieve the purpose of encouraging retention among our named executive officers, in light of the ultimate determinations that were made with regard to fiscal year 2009 performance bonus amounts. The Compensation Committee expects that restricted stock awards will continue to be an important feature of our executive compensation program going forward.

In connection with being named Executive Vice President and Chief Financial Officer, and in accordance with the terms of his employment agreement, Mr. Hawks received 100,000 stock options and 25,000 shares of restricted stock. The stock options vest over four years with 25% vesting on the first anniversary of the grant date and 75% vesting in 12 equal quarterly installments thereafter. The restricted stock vests semi-annually over three years with 20% vesting in the first year following the date of grant and 40% vesting in each of the second and third years following the date of grant. As with the other elements of Mr. Hawks' compensation package, we determined that these awards were

necessary and appropriate to attract and retain Mr. Hawks as our Chief Financial Officer. This determination was made by the Compensation Committee based on competitive market data acquired in the search process for a qualified Chief Financial Officer candidate.

Deferred Compensation Plan

In June 2008, we adopted a non-qualified deferred compensation plan, or the Deferred Compensation Plan, for members of our management team, including our named executive officers. Under the Deferred Compensation Plan, our named executive officers are eligible to elect to defer up to 50% of their annual salary and up to 100% of any annual incentive bonus. These amounts may be deferred until retirement. Earnings are credited on deferred amounts based upon a variety of investment options that may be elected by each participant. We believe that the addition of the Deferred Compensation Plan provides our Company an additional means to further its philosophy of attracting and retaining individuals of superior ability. Certain information with respect to amounts deferred by our named executive officers under this plan are set forth below in the Nonqualified Deferred Compensation Table.

Defined Contribution Plan

We maintain a Section 401(k) Savings/Retirement Plan, or the 401(k) Plan, which covers our eligible employees, including our named executive officers. The 401(k) Plan allows participants to defer a portion of their annual compensation, subject to certain limitations imposed by the Internal Revenue Code. The employees' elective deferrals are immediately vested and nonforfeitable upon contribution to the 401(k) Plan. We currently provide matching contributions equal to \$0.25 for each dollar of a participant's contributions, up to a maximum of 4% of the participant's annual salary, subject to certain other limits. Our matching contributions are subject to a four-year vesting schedule.

Employee Benefits and Perquisites

We provide our named executive officers with certain personal benefits and perquisites, which we do not consider to be a significant component of executive compensation but recognize are an important factor in attracting and retaining talented executives. Named executive officers are eligible under the same plans as all other employees for medical, dental, vision, disability and life insurance. We also pay for supplemental long-term disability and life insurance premiums for our executive officers. We provide these supplemental benefits to our executive officers due to the relatively low cost of such benefits and the perceived value they provide in assisting us in attracting and retaining talented executives. We may also reimburse certain executives for their relocation expenses from time to time, as we did for Mr. Packard in fiscal year 2009 and reimburse our executives for temporary housing expenses they may incur in connection with their provision of services to us. We provide such reimbursements to our executives because such expenses are typically directly associated with and would not have been incurred but for their commencement or continued provision of services to us. None of our executive officers receives any tax gross ups in connection with our provision of any perquisites or personal benefits. The value of personal benefits and perquisites we provide to each of our named executive officers is set forth below in our Summary Compensation Table.

Employment, Severance and Change in Control Arrangements

We currently have employment agreements in place with each of our named executive officers that provide for severance payments in connection with certain terminations of employment. During fiscal year 2010, Mr. Packard had an employment agreement with us that provided for salary continuation for 450 days following a termination of his employment without cause by us or due to constructive termination. An amended and restated employment agreement with Mr. Packard, as described in more detail below under the heading entitled Potential Payments Upon Termination or Change in Control, became effective on September 27, 2010. Our other named executive officers have employment agreements with us that provide for employment on an at will basis and provide for severance payments ranging from six months to 12 months (plus benefit continuation in certain cases) generally in connection with terminations of employment without cause by us or for good reason by the executive. These agreements were generally negotiated at hire and the potential severance payments were determined considering the executive's level of experience and perceived marketability and the desired length of any post-employment restrictive covenants. Severance is considered

by us and our executives to be an integral part of the overall compensation package. We provide severance to the executives as a means to attract and retain individuals with superior ability and managerial talent. In fiscal year 2010, the Compensation Committee therefore determined that severance arrangements should be extended only at the executive vice president level and above.

While the named executive officers are generally not entitled to receive payments solely as a result of a change in control of the Company, upon certain corporate transactions (including a sale of all or substantially all of the assets, certain mergers or consolidations and certain sales of our outstanding stock) all outstanding options will become fully vested and exercisable under the terms of their respective stock option agreements. In addition, upon the foregoing events, all of Mr. Packard's outstanding unvested restricted stock will become fully vested as of immediately prior to such event.

We believe that providing the named executive officers with severance payments upon certain terminations of employment, accelerated vesting of stock options upon a change in control, and accelerated vesting of restricted stock awards upon a termination without cause under the terms of their restricted stock award agreements are key retention tools that assist us with remaining competitive with the companies in our peer group, further our goal of attracting and retaining key executives with superior ability and managerial talent and protect our intellectual capital and competitive position. These employment agreements are further described below under the heading entitled "Potential Payments Upon Termination or Change in Control."

Effective as of September 27, 2010, we entered into an amended and restated employment agreement for Mr. Packard. This amended and restated agreement extended the term of Mr. Packard's employment until September 30, 2014 (subject to the possibility of annual extensions thereafter), and provides for (i) an initial annual base salary of \$575,000 subject to annual review, (ii) an annual cash bonus to be awarded by the Board of Directors in its discretion with a target amount of 100% of his base salary but not to exceed 200% of his base salary, (iii) a grant of 145,530 shares of restricted stock, half of which immediately vested upon grant and half of which will vest in 12 equal quarterly installments commencing on September 30, 2011, subject to Mr. Packard's continued employment with us on each applicable vesting date, (iv) the opportunity, based on achievement of certain

performance goals to be established by the Compensation Committee, to receive additional grants of restricted stock subject to time-based vesting conditions in subsequent years, (v) full vesting of all outstanding stock options and restricted stock upon a change in control of the Company, and (vi) severance upon a termination of Mr. Packard's employment without cause by us or due to constructive termination (generally, a material reduction in Mr. Packard's duties, responsibilities or title) in an amount equal to three times Mr. Packard's base salary, 50% of which would be payable in a lump sum and 50% of which would be payable in installments over an 18-month period, and the extension of the exercise date for Mr. Packard's outstanding vested stock options until the earlier of 180 days following such termination or the expiration of the option term (subject to earlier termination in the event of a change in control). The agreement also provides that Mr. Hawks will be subject to the terms of our Confidentiality, Proprietary Rights and Non-Solicitation Agreement which generally prohibits the unauthorized disclosure of our confidential information during and after the period of employment, ensures our right of ownership of any intellectual property developed during the period of employment, prohibits the solicitation of employees for one year following termination of employment and requires that any disputes regarding employment or termination of employment be subject to binding arbitration.

The agreement also provides that Mr. Davis will be subject to the terms of our Confidentiality, Proprietary Rights and Non-Solicitation Agreement which generally prohibits the unauthorized disclosure of our confidential information

Change in Control Arrangements

The stock option agreements for outstanding stock options generally provide for accelerated and full vesting of unvested stock options upon certain corporate events. These events include a sale of all or substantially all of our assets, a merger or consolidation which results in the Company's stockholders immediately prior to the transaction owning less than 50% of our voting stock immediately after the transaction, and a sale of our outstanding securities (other than in connection with an initial public offering) which results in our stockholders immediately prior to the transaction owning less than 50% of our voting stock immediately after the transaction. In addition, upon the foregoing events, Mr. Packard's outstanding shares of unvested restricted stock will become fully vested as of immediately prior to such event. Other than the foregoing, none of the named executive officers is entitled to any additional payments upon a change in control of the Company.

Potential Value of Termination and Change in Control Benefits

The following table provides the dollar value of potential payments and benefits that each named executive officer would be entitled to receive upon certain terminations of employment and upon a change in control of the Company, assuming that the termination or change in control occurred on June 30, 2010, and the price per share of our Common Stock subject to the stock options equaled \$22.18, the value of one share of our Common Stock on June 30, 2010, and, in the case of Mr. Packard, assuming his amended and restated employment agreement was in effect on June 30, 2010. Director Compensation for Fiscal Year 2010

Our Directors Compensation Plan provides for an annual cash retainer, fees for attending Board of Directors and committee meetings and restricted stock awards. In February 2010, based upon an evaluation of the compensation paid to our directors and upon the recommendation of Radford, an Aon Corporation (now Aon Hewitt) company, our then-current compensation consultant, to allow the Company to continue to attract and retain the highest quality directors, which is essential to the growth and success of the Company, the Directors Compensation Plan was amended to provide for an annual cash retainer of \$60,000 for the Chairman of the Board of Directors and the Chairman of the Audit Committee, and an annual cash retainer of \$40,000 for all other non-employee directors. The Directors Compensation Plan was also amended to eliminate annual stock option grants and to provide for an annual restricted stock award equal to \$60,000 of our Common Stock that vests in equal installments on an annual basis over a period of three years. Mr. Packard, our Chief Executive Officer, who is also a director, receives no additional compensation for his service on our Board of Directors. The Directors Compensation Plan was also amended to set the Board of Directors meeting fees at \$2,500 for the Chairman of the Board of Directors and for the Chair of each of its three committees. Each non-employee director received \$1,500 for each committee meeting attended, with the exception of the Chairman of the Board of Directors and the Chairman of the Audit Committee, who received \$2,500 per committee meeting, and \$1,500 per meeting for the other Board members.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Security Ownership of Directors and Executive Officers

The following table sets forth, as of November 3, 2010, certain information with respect to the beneficial ownership of Common Stock, plus any shares of Series A Special Stock of the Company, par value \$0.0001 per share (the "Series A Special Stock"), by each beneficial owner of more than 5% of the Company's voting securities (based solely on review of filings with the SEC), each director and each named executive officer and all directors and executive officers of the Company as a group, except as qualified by the information set forth in the notes to this table. As of November 3, 2010, there were 31,006,061 shares of the Company's Common Stock outstanding.

The Company plans to submit for approval by the holders of a majority of the outstanding shares of Common Stock a proposal that, if approved at the Special Meeting to be held on a date to be determined, would make the Series A Special Stock convertible into shares of Common Stock (the "Series A Shareholder Approval") upon conditions set forth in the Company's Certificate of Designations, Preferences and Relative and Other Special Rights for the Series A Special Stock. The Series A Special Stock is non-voting, and because it is not convertible into shares of Common Stock on the Record Date for the Annual Meeting, the holders of the Series A Special Stock will not be voting on any matters to be presented at the Annual Meeting to which this Proxy Statement relates.

Unless otherwise noted, the address for each director and executive officer is c/o K12 Inc., 2300 Corporate Park Drive, Herndon, VA 20171.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Certain Relationships and Related Transactions

During fiscal year 2010, there were no transactions to which we were a party in which the amount involved exceeded \$120,000 and in which any of our executive officers, directors or beneficial holders of more than 5% of our capital stock had or will have a direct or indirect material interest, other than compensation arrangements that are described under the section of this Proxy Statement entitled Compensation Discussion and Analysis.

Policies and Procedures for Related-Party Transactions

We recognize that related-party transactions present a heightened risk of conflicts of interest and have adopted a policy to which all related-party transactions shall be subject. Pursuant to the policy, the Audit Committee of our Board of Directors, or in the case of a transaction in which the aggregate amount is, or is expected to be, in excess of \$250,000, the Board of Directors, will review the relevant facts and circumstances of all related-party transactions, including, but not limited to (i) whether the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party, and (ii) the extent of the related party's interest in the transaction. Pursuant to the policy, no director, including the Chairman of the Audit Committee may participate in any approval of a related-party transaction to which he or she is a related party. The Board of Directors or Audit Committee, as applicable, will then, in its sole discretion, either approve or disapprove the transaction.

Certain types of transactions, which would otherwise require individual review, have been pre-approved by the Audit Committee. These types of transactions include, for example, (i) compensation to an officer or director where such compensation is required to be disclosed in our proxy statement, (ii) transactions where the interest of the related party arises only by way of a directorship or minority stake in another organization that is a party to the transaction and (iii) transactions involving competitive bids or fixed rates. Additionally, pursuant to the terms of our related-party transaction policy, all related-party transactions are required to be disclosed in our applicable filings as required by the Securities Act of 1933 and the Exchange Act and related rules. Furthermore, any material related-party transactions are required to be disclosed to the full Board of Directors. In connection with becoming a public company, we established internal policies relating to disclosure controls and procedures, which include policies relating to the reporting of related-party transactions that must be pre-approved under our related-party transactions policy.

Director Independence

Our Board of Directors has determined that each of our directors, with the exception of Mr. Packard, is independent as defined in the currently applicable listing standards of the New York Stock Exchange, or NYSE, and the regulations of the U.S. Securities and Exchange Commission, or SEC. Mr. Packard is not independent because he is one of our executive officers. If the nominees for the Board of Directors are duly elected at the Annual Meeting, then each of our directors other than Mr. Packard will serve as an independent director as the term is defined in applicable rules of the NYSE and regulations of the SEC. Our Board of Directors has a non-executive chairman, Mr. Tisch, who presides over the executive sessions of the non-management directors.
