LIFE TIME FITNESS, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Table amounts in thousands, except share and per share data)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary to fairly present financial position, results of operations and cash flows for the periods have been included.

These interim consolidated financial statements and the related notes should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the Securities and Exchange Commission (SEC), which includes audited consolidated financial statements for the three fiscal years ended December 31, 2010.

2. Share-Based Compensation

Stock Option and Incentive Plans

As of March 31, 2011, we had four share-based compensation plans, the FCA, Ltd. 1996 Stock Option Plan (the 1996 Plan), the Life Time Fitness, Inc. 1998 Stock Option Plan (the 1998 Plan), the Amended and Restated Life Time Fitness, Inc. 2004 Long-Term Incentive Plan (the 2004 Plan) and an Employee Stock Purchase Plan (the ESPP), collectively, the share-based compensation plans. In connection with approval for the 2004 Plan, our Board of Directors approved a resolution to cease making additional grants under the 1996 Plan and the 1998 Plan. On April 21, 2011, our shareholders approved the Life Time Fitness, Inc. 2011 Long-Term Incentive Plan (the 2011 Plan) and our Board of Directors ceased making grants under the 2004 Plan. The types of awards that may be granted under the 2011 Plan include incentive and non-qualified options to purchase shares of common stock, stock appreciation rights, restricted shares, restricted share units, performance awards and other types of share-based awards. As of March 31, 2011, we had granted a total of 5,587,165 options to purchase common stock under all of the share-based compensation plans, of which options to purchase 523,661 shares were outstanding, and a total of 3,294,359 restricted shares to define nonvested shares granted to employees and non-employee directors, whereas applicable accounting guidance reserves that term for fully vested and outstanding shares whose sale is contractually or governmentally prohibited for a specified period of time.

Total share-based compensation expense included in our consolidated statements of operations for the three months ended March 31, 2011 and 2010, was as follows:

	For the Three Months Ended March 31,		
	2011	2010	
Share-based compensation expense related to stock options	\$	\$ 31	
Share-based compensation expense related to restricted shares	3,278	1,714	
Share-based compensation expense related to ESPP	30	30	
Total share-based compensation expense	\$ 3,308	\$ 1,775	

LIFE TIME FITNESS, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Table amounts in thousands, except share and per share data)

Summary of Restricted Stock Activity

		Weighted Average Grant			
	Shares	Date Fair Value			
Outstanding at December 31, 2010	1,917,873	\$ 21.19			
Granted	337,029	\$ 38.32			
Canceled	(1,202)	\$ 22.00			
Vested	(323,230)	\$ 20.80			
Outstanding at March 31, 2011	1,930,470	\$ 24.25			

During the three months ended March 31, 2011 and 2010, we issued 337,029 and 313,561 shares of restricted stock, respectively, with an aggregate fair value of \$12.9 million and \$9.0 million, respectively. The grant date fair market value of restricted shares that vested during the three months ended March 31, 2011 was \$6.7 million. The total value of each restricted stock grant, based on the fair market value of the stock on the date of grant, is amortized to compensation expense on a straight-line basis over the related vesting period. As of March 31, 2011, there was \$29.0 million of unrecognized compensation expense related to restricted stock that is expected to be recognized over a weighted average period of 2.2 years.

Special 2009 Restricted Stock Grant

In June 2009, the Compensation Committee of our Board of Directors approved the grant of 996,000 shares of long-term performance-based restricted stock to serve as an incentive to our senior management team to achieve certain diluted earnings per share (EPS) targets in 2011 and 2012. In August 2010, an additional 20,000 shares of long-term performance-based restricted stock were granted to a new member of senior management using the same diluted EPS targets and vesting schedule. As of March 31, 2011, 907,000 of these shares were still outstanding. If a specified diluted EPS target is achieved for fiscal 2011, 50% of the restricted shares will vest. If a higher diluted EPS target is achieved for fiscal 2011, 100% of the restricted shares will vest. If the grant has not fully vested after fiscal 2011, 50% of the shares will vest if a specified diluted EPS target is achieved for fiscal 2012. If none of the shares vested after fiscal 2011, 100% of the shares will vest if a higher diluted EPS target is achieved for fiscal 2012. In the event that we do not achieve the required diluted EPS targets, the restricted stock will be forfeited. A maximum of \$18.9 million could be recognized as compensation expense under this grant if all diluted EPS targets are met. In fourth quarter 2010, we determined that achieving the 2011 diluted EPS targets required for vesting of 50% of the stock (representing 453,500 shares of restricted stock) was probable. As a result, we recognized a cumulative, non-cash performance share-based compensation expense of \$5.6 million in 2010 and \$1.0 million in the first three months of 2011. We anticipate recognizing the remaining portion of performance share-based compensation expense of approximately \$2.9 million ratably in last three quarters of 2011. We believe the higher diluted EPS targets, inclusive of compensation expense under this grant, to be aggressive goals in excess of our current baseline expectations. The probability of reaching the targets is evaluated each reporting period. If it becomes probable that certain of the remaining target performance levels will be achieved, a cumulative adjustment will be recorded and future compensation expense will increase based on the currently projected performance levels. If we had determined that all of the targets had become probable on March 31, 2011, we would have recognized an additional \$6.6 million cumulative compensation adjustment on that date. If we later determine that it is not probable that the minimum diluted EPS performance threshold for the grant vesting will be met, no further compensation cost will be recognized and any previously recognized compensation cost will be reversed. In accordance with the related accounting guidance, none of these shares were included in our total diluted share count at March 31, 2011 or 2010.

LIFE TIME FITNESS, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Table amounts in thousands, except share and per share data)

Summary of Stock Option Activity

		Weighted Average Exercise	Weighted Average Remaining Contractual Term	Aggregate Intrinsic
	Shares	Price	(Years)	Value
Outstanding at December 31, 2010	552,625	\$23.30	3.8	
Exercised	(28,964)	\$26.72		
Canceled				
Outstanding and vested at March 31, 2011	523,661	\$23.11	3.6	\$7,833

No stock options have been granted since 2007. As of March 31, 2011, there was no unrecognized compensation expense related to stock options, and all outstanding stock options were vested.

The aggregate intrinsic value in the table above at March 31, 2011 represents the total pretax intrinsic value (the difference between our closing stock price at March 31, 2011 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders, had all option holders exercised their options on March 31, 2011. This amount changes based on the fair market value of our stock. Total intrinsic value of options exercised during the three months ended March 31, 2011 and 2010 was \$0.4 million and \$0.3 million, respectively.

Our net cash proceeds from the exercise of stock options were \$0.8 million and \$0.4 million for the three months ended March 31, 2011 and 2010, respectively. The actual income tax benefit realized from stock option exercises was \$2.1 million and \$0, respectively, for those same periods. In accordance with the related accounting guidance, the excess tax benefits from the exercise of stock options are presented as cash flows from financing activities. *Employee Stock Purchase Plan and Related Share Repurchase Plan*

Our ESPP provides for the sale of up to 1,500,000 shares of our common stock to our employees at discounted purchase prices. The cost per share under this plan is 90% of the fair market value of our common stock on the last day of the purchase period, as defined. The current purchase period for employees under the ESPP began January 1, 2011 and ends June 30, 2011. Compensation expense under the ESPP is estimated based on the discount of 10% at the end of the purchase period. During the three months ended March 31, 2011, \$0.3 million was withheld from employees for the purpose of purchasing shares under the ESPP. There were 1,329,120 shares of common stock available for purchase under the ESPP as of March 31, 2011.

In June 2006, our Board of Directors authorized the repurchase of up to 500,000 shares of our common stock from time to time in the open market or otherwise for the primary purpose of offsetting the dilutive effect of shares pursuant to our ESPP. During the first three months of 2011, we repurchased 13,540 shares for approximately \$0.5 million. As of March 31, 2011, there were 329,120 remaining shares authorized to be repurchased for this purpose. The shares repurchased to date have been purchased in the open market and, upon repurchase, became authorized, but unissued shares of our common stock.

LIFE TIME FITNESS, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Table amounts in thousands, except share and per share data)

3. Earnings per Share

Basic EPS is computed by dividing net income applicable to common shareholders by the weighted average number of shares of common stock outstanding for each period. Diluted EPS is computed similarly to basic EPS, except that the denominator is increased for the conversion of any dilutive common stock equivalents, the assumed exercise of dilutive stock options using the treasury stock method and unvested restricted stock awards using the treasury stock method. Stock options excluded from the calculation of diluted EPS because the option exercise price was greater than the average market price of the common share were 42,277 and 153,852 for the three months ended March 31, 2011 and 2010.

The basic and diluted earnings per share calculations are shown below:

		For the Three Months Ended March 31,			nths
			2011		2010
Net income		\$	20,836	\$	17,836
Weighted average number of common shares outstanding	basic		40,362		39,746
Effect of dilutive stock options			185		133
Effect of dilutive restricted stock awards			402		901
Weighted average number of common shares outstanding	diluted		40,949		40,780
Basic earnings per common share		\$	0.52	\$	0.45
Diluted earnings per common share		\$	0.51	\$	0.44

4. Operating Segment

Our operations are conducted mainly through our distinctive and large, multi-use sports and athletic, professional fitness, family recreation and spa centers in a resort-like environment. We aggregate the activities of our centers and other ancillary products and services into one reportable segment as none of the centers or other ancillary products or services meet the quantitative thresholds for separate disclosure under the applicable accounting guidance. Each of the centers has similar economic characteristics and customers, and generally offers similar service and product offerings. Each of the other ancillary products and services either directly or indirectly, through advertising or branding, compliment the operations of the centers. Our chief operating decision maker uses EBITDA as the primary measure of operating segment performance.

The following table presents revenue for the three months ended March 31, 2011 and 2010:

	For the Three Months Ended March 31,			onths
		2011		2010
Membership dues	\$	158,013	\$	145,165
Enrollment fees		5,201		6,324
Personal training		37,109		32,626
Other in-center		36,580		32,906
Other		3,742		2,750

Total revenue

LIFE TIME FITNESS, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Table amounts in thousands, except share and per share data)

5. Supplementary Cash Flow Information

Decreases (increases) in operating assets and increases (decreases) in operating liabilities are as follows:

	For the Three Months Ended March 31,			
		2011		2010
Accounts receivable, net	\$	(1,467)	\$	323
Center operating supplies and inventories		(473)		(601)
Prepaid expenses and other current assets		(5,101)		(3,892)
Income tax receivable		9,916		
Deferred membership origination costs		1,105		1,811
Accounts payable		2,547		3,195
Accrued expenses		1,592		9,250
Deferred revenue		4,170		841
Deferred rent liability		729		1,148
Other liabilities		178		163
Changes in operating assets and liabilities	\$	13,196	\$	12,238

We made cash payments for income taxes of \$0.6 million and \$4.9 million for the three months ended March 31, 2011 and 2010, respectively.

We made cash payments for interest, net of capitalized interest, of \$5.0 million and \$6.8 million for the three months ended March 31, 2011 and 2010, respectively. Capitalized interest was \$0.4 million and \$0.7 million for the three months ended March 31, 2011 and 2010, respectively.

Construction accounts payable and accounts payable related to property and equipment was \$22.0 million at March 31, 2011 and \$9.4 million at March 31, 2010.

6. Commitments and Contingencies

Litigation We are engaged in proceedings incidental to the normal course of business. Due to their nature, such legal proceedings involve inherent uncertainties, including but not limited to, court rulings, negotiations between affected parties and governmental intervention. We have established reserves for matters that are probable and estimable in amounts we believe are adequate to cover reasonable adverse judgments not covered by insurance. Based upon the information available to us and discussions with legal counsel, it is our opinion that the outcome of the various legal actions and claims that are incidental to our business will not have a material adverse impact on the consolidated financial position, results of operations or cash flows; however, such matters are subject to many uncertainties, and the outcome of individual matters are not predictable with assurance.

7. Recent Accounting Pronouncements

In October 2009, the Financial Accounting Standards Board issued guidance on revenue arrangements with multiple deliverables effective for us in fiscal 2011. The guidance revises the criteria for measuring and allocating consideration to each component of a multiple element arrangement. The guidance requires companies to allocate revenue using the relative selling price of each deliverable, which must be estimated if the company does not have either a history of selling the deliverable on a standalone basis or third-party evidence of selling price. The implementation did not have a material impact on our consolidated financial statements.

LIFE TIME FITNESS, INC. AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Table amounts in thousands, except share and per share data)

8. Fair Value Measurements

The carrying amounts related to cash and cash equivalents, accounts receivable, income tax receivable, accounts payable and accrued liabilities approximate fair value due to the relatively short maturities of such instruments. The fair value of our long-term debt and capital leases are estimated based on estimated current rates for debt with similar terms, credit worthiness and the same remaining maturities. The fair value estimates presented are based on information available to us as of March 31, 2011. These fair value estimates have not been comprehensively revalued for purposes of these consolidated financial statements since that date, and current estimates of fair values may differ significantly.

The following table presents the carrying value and the estimated fair value of long-term debt:

	March	31, 2011
	Carrying Value	Estimated Fair Value
Fixed-rate debt	\$ 205,423	\$ 194,884
Obligations under capital leases	17,397	17,404
Floating-rate debt	365,391	360,710
Total	\$ 588,211	\$ 572,998

9. Subsequent Event

On April 4, 2011, we prepaid the ten mortgage notes payable to Starwood Property Mortgage Sub-1, L.L.C. at the par amount of \$69.5 million primarily using our revolving credit facility. Concurrent with the prepayment, the mortgages were released on ten related centers.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

The following discussion may contain forward-looking statements regarding us and our business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those described under Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this report and in our other reports filed with the SEC that advise interested parties of the risks and factors that may affect our business.

The interim consolidated financial statements filed on this Form 10-Q and the discussions contained herein should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the SEC, which includes audited consolidated financial statements for the three fiscal years ended December 31, 2010.

Overview

We operate distinctive and large, multi-use sports and athletic, professional fitness, family recreation and spa centers in a resort-like environment. As of April 29, 2011, we operated 90 centers primarily in residential locations across 24 markets in 20 states under the LIFE TIME FITNESS and LIFE TIME ATHLETIC brands.

We compare the results of our centers based on how long the centers have been open at the most recent measurement period. We include a center s revenue in the same-center revenue category for comparison purposes beginning on the first day of the thirteenth full calendar month of the center s operation, prior to which time we refer to the center as a new center. We include an acquired center s revenue in the same-center revenue category for comparison purposes beginning on the first day of the thirteenth full calendar month after we assumed the center s operations. We also include a center s revenue in the same-center revenue category for comparison purposes beginning on the first day of the thirteenth full calendar month after we assumed the center s operations. We also include a center s revenue in the same-center revenue category for comparison purposes beginning on the first day of the thirty-seventh full calendar month of the center s operations, which we refer to as a mature center.

As we grow our presence in existing markets by opening new centers, we expect to attract some memberships away from our other existing centers in those markets, reducing revenue and initially lowering the memberships of those existing centers. In addition, as a result of new center openings in existing markets, and because older centers will represent an increasing proportion of our center base over time, our same-center revenue may be lower in future periods than in the past. Of the three new large format centers we have opened or plan to open in 2011, one will be in an existing market. We do not expect that operating costs of our planned new centers will be significantly higher than centers opened in the past, and we also do not expect that the planned increase in the number of centers will have a material adverse effect on the overall financial condition or results of operations of existing centers.

In 2008 and 2009, we experienced increased member attrition and lower revenue per membership as well as higher membership acquisition costs due to the challenging economic environment. Although these conditions improved in 2010 and the first three months of 2011, if the challenging economic conditions were to continue, we may face continued lower revenue and operating profit in affected centers and on a consolidated basis. Certain of our markets may be impacted more severely than others as a result of regional economic factors such as housing, competition or unemployment rates.

In 1999, we formed Bloomingdale LIFE TIME Fitness, L.L.C. (Bloomingdale LLC) with two unrelated organizations for the purpose of constructing, owning and operating a center in Bloomingdale, Illinois. Bloomingdale LLC is accounted for is accounted for using the equity method and is not consolidated in our financial statements. We measure performance using such key operating statistics as member satisfaction ratings, return on investment, average center revenue per membership, including membership dues and enrollment fees, average in-center revenue per membership and center operating expenses, with an emphasis on payroll and occupancy costs, as a percentage of sales and same-center revenue growth. We use center revenue and EBITDA and EBITDAR margins to evaluate overall performance. In addition, we focus on several membership statistics on a center-level and system-wide basis. These metrics include change in center membership levels and growth of system-wide memberships, percentage center membership to target capacity, center membership usage, center membership mix among individual, couple and family memberships, Flex memberships and center attrition rates. During 2008, our trailing 12 month attrition rate increased from 34.3% to 42.3% driven primarily by the slowing economy and inactive members leaving earlier than in the past. During 2009, our trailing 12 month attrition rate decreased from 42.3% to 40.6% and during 2010, our trailing 12 month attrition rate decreased from 40.6% to 36.3%. During the first three months of 2011, our trailing 12 month attrition rate decreased from 36.3% to 36.1%. Over the past two years our attrition rate decreased due in part to increased programming focused on member engagement and center utilization. We have three primary sources of revenue:

First, our largest source of revenue is membership dues (65.7% of total revenue for the three months ended March 31, 2011) and enrollment fees (2.1% of total revenue for the three months ended March 31, 2011) paid by our members. We recognize revenue from monthly membership dues in the month to which they pertain.

Second, we generate revenue within a center, which we refer to as in-center revenue, or in-center businesses (30.6% of total revenue for the three months ended March 31, 2011), including fees for personal training, registered dieticians, group fitness training and other member activities, sales of products at our LifeCafe, sales of products and services offered at our LifeSpa, tennis programs and renting space in certain of our centers.

Third, we have expanded the LIFE TIME FITNESS brand into other wellness-related offerings that generate revenue, which we refer to as other revenue, or corporate businesses (1.6% of total revenue for the three months ended March 31, 2011), including our media, health and wellness and athletic events businesses. Our primary media offering is our magazine, Experience Life. Other revenue also includes two stand-alone restaurants in the Minneapolis market and rental income from our Highland Park, Minnesota office building. We have five primary sources of operating expenses:

Center operations expenses consist primarily of salary, commissions, payroll taxes, benefits, real estate taxes and other occupancy costs, utilities, repairs and maintenance, supplies, administrative support and communications to operate our centers.

Advertising and marketing expenses consist of our marketing department costs and media and advertising costs to support center membership levels, in-center businesses and our corporate businesses.

General and administrative expenses include costs relating to our centralized support functions, such as accounting, information systems, procurement, real estate and development and member relations.

Other operating expenses include the costs associated with our media, athletic events and nutritional product businesses, two restaurants and other corporate expenses, as well as gains or losses on our dispositions of assets.

Depreciation and amortization are computed primarily using the straight-line method over estimated useful lives of the assets. Leasehold improvements are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the improvement.

Our total operating expenses may vary from period to period depending on the number of new centers opened during that period, the number of centers engaged in presale activities and the performance of our in-center businesses. Our primary capital expenditures relate to the construction of new centers and updating and maintaining our existing centers. The land acquisition, construction and equipment costs for a current model center can vary considerably based on variability in land cost, the cost of construction labor and the size or amenities of the center, including the addition of tennis facilities, an expanded gymnasium or other facilities. We perform maintenance and make improvements on our centers and equipment throughout each year. We conduct a more thorough remodeling project at each center approximately every four to six years.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S., or GAAP, requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Ultimate results could differ from those estimates. In recording transactions and balances resulting from business operations, we use estimates based on the best information available. We use estimates for such items as depreciable lives, probability of meeting certain performance targets and tax provisions. We also use estimates for calculating the amortization period for deferred enrollment fee revenues and associated direct costs, which are based on the historical estimated average membership life. We revise the recorded estimates when better information is available, facts change or we can determine actual amounts. These revisions can affect operating results.

Our critical accounting policies and use of estimates are discussed in and should be read in conjunction with the annual consolidated financial statements and notes included in the latest Form 10-K, as filed with the SEC, which includes audited consolidated financial statements for our three fiscal years ended December 31, 2010.

Results of Operations

The following table sets forth our statements of operations data as a percentage of total revenue and also sets forth other financial and operating data:

	For the Three Months End March 31,			s Ended
		2011	01,	2010
REVENUE:				66.10
Membership dues		65.7%		66.1%

Center square footage (12)		8,922,617	8	3,683,760
	15			

- (1) Membership dues, enrollment fees and in-center revenue for a center are included in *same-center revenue growth* (*open 13 months or longer*) beginning on the first day of the thirteenth full calendar month of the center s operation and are included in *same-center revenue growth* (*open 37 months or longer*) beginning on the first day of the thirty-seventh full calendar month of the center s operation.
- (2) Average center revenue per membership is total center revenue for the period divided by an average number of memberships for the period, where the average number of memberships for the period is derived from dividing the sum of the total memberships outstanding at the end of each month during the period by the total number of months in the period.
- (3) Average in-center revenue per membership is total in-center revenue for the period divided by the average number of memberships for the period, where the average number of memberships for the period is derived from dividing the sum of the total memberships outstanding at the end of each month during the period by the total number of months in the period.
- (4) Trailing 12 month attrition rate (or annual attrition rate) is calculated as follows: total terminations for the trailing 12 months (excluding frozen memberships) divided into the average beginning month membership balance for the trailing 12 months. The attrition rate for the trailing 12 months ended March 31, 2011 includes a small positive impact due to a change in calculation methodology adopted April 1, 2010 in which we exclude potential memberships who elect to cancel during their 14-day trial as members.
- (5) Quarterly attrition rate is calculated as follows: total terminations for the quarter (excluding frozen memberships) divided into the average beginning month membership balance for the quarter.
- (6) EBITDA is a non-cash measure which consists of net income plus interest expense, net, provision for income taxes and depreciation and amortization. EBITDAR adds rent expense to EBITDA. These terms, as we define them, may not be comparable to a similarly titled measures used by other companies and are not measures of performance presented in accordance with GAAP. We use EBITDA and EBITDAR as measures of operating performance. EBITDA or EBITDAR should not be considered as a substitute for net income, cash flows provided by operating activities or other income or cash flow data prepared in accordance with GAAP. The funds depicted by EBITDA and EBITDAR are not necessarily available for discretionary use if they are reserved for particular capital purposes, to maintain debt covenants, to service debt or to pay taxes.

The following table provides a reconciliation of net income, the most directly comparable GAAP measure, to EBITDA and EBITDAR:

		ree Mo ded ch 31,	nths
	2011		2010
	(In tho	usands))
Net income	\$ 20,836	\$	17,836
Interest expense, net	5,504		8,097
Provision for income taxes	14,224		12,010
Depreciation and amortization	23,624		22,765
EBITDA	\$ 64,188	\$	60,708

Edgar Filing: LIFE TIME FITNESS INC - Form 10-Q					
Rent expense			10,559		10,510
EBITDAR	5	\$	74,747	\$	71,218
	16				

- (7) EBITDA margin is the ratio of EBITDA to total revenue.
- (8) EBITDAR margin in the ratio of EBITDAR to total revenue.
- (9) Capital expenditures represent investments in our new centers, costs related to updating and maintaining our existing centers and other infrastructure investments. For purposes of deriving capital expenditures from our cash flows statement, capital expenditures include our purchases of property and equipment, excluding purchases of property and equipment in accounts payable at year-end, property and equipment purchases financed through notes payable and capital lease obligations, and non-cash share-based compensation capitalized to projects under development.
- (10) Free cash flow is a non-GAAP measure consisting of net cash provided by operating activities, less purchases of property and equipment. This term, as we define it, may not be comparable to a similarly titled measure used by other companies and does not represent the total increase or decrease in the cash balance presented in accordance with GAAP. We use free cash flow as a measure of cash generated after spending on property and equipment. The funds depicted by free cash flow are not necessarily available for discretionary use if they are reserved for particular capital purposes, to maintain debt covenants, to service debt or to pay taxes. Free cash flow should not be considered as a substitute for net cash provided by operating activities prepared in accordance with GAAP.

The following table provides a reconciliation of net cash provided by operating activities to free cash flow:

		For the Thr End Marc	led	onths
	,	2011		2010
		(In thou	isands	s)
Net cash provided by operating activities	\$	60,123	\$	53,875
Less: Purchases of property and equipment		(38,363)		(23,039)
Free cash flow	\$	21,760	\$	30,836

- (11) The operating data presented in these items include the center owned by Bloomingdale LLC. The data presented elsewhere in this section exclude the center owned by Bloomingdale LLC.
- (12) The square footage presented in this table reflects fitness square footage which we believe is the best metric for the efficiencies of a facility. We exclude outdoor swimming pools, outdoor play areas, tennis courts and satellite facility square footage. These figures are approximations.

Three Months Ended March 31, 2011 Compared to Three Months Ended March 31, 2010

Total revenue. Total revenue increased \$20.8 million, or 9.5%, to \$240.6 million for the three months ended March 31, 2011 from \$219.8 million for the three months ended March 31, 2010.

Total center revenue grew \$19.9 million, or 9.2%, to \$236.9 million for the three months ended March 31, 2011, from \$217.0 million for the three months ended March 31, 2010. Of the \$19.9 million increase in total center revenue,

64.6% was from membership dues, which increased \$12.8 million, or 8.9%, due to increased memberships at new centers and higher average dues. Our number of memberships increased 6.0% to 650,784 at March 31, 2011 from 613,882 at March 31, 2010.

41.0% was from in-center revenue, which increased \$8.2 million primarily as a result of increased sales of our LifeSpa and LifeCafe products and services and personal training. Average in-center revenue per membership increased from \$111 for the three months ended March 31, 2010 to \$118 for the three months ended March 31,

(5.6%) was from enrollment fees, which are deferred until a center opens and recognized on a straight-line basis over our estimated average membership life. In the first quarter of 2011 and the fourth quarter of 2010, the estimated average membership life was 33 months. For the fourth quarter of 2008 through the third quarter of 2010, the estimated average membership life was 30 months. For the second and third quarters of 2008, it was 33 months, and for the first quarter of 2008 and prior, it was 36 months. Enrollment fees decreased \$1.1 million for the three months ended March 31, 2011 to \$5.2 million. Our average enrollment fee was lower in the first quarter of 2010 due primarily to continued promotional pricing activity to attract new memberships in the current economic environment.

Other revenue increased \$1.0 million, or 36.1%, to \$3.7 million for the three months ended March 31, 2011, which was primarily due to athletic event revenue, which includes revenue from recently acquired athletic events. *Center operations expenses.* Center operations expenses totaled \$149.6 million, or 63.1% of total center revenue (or 62.1% of total revenue), for the three months ended March 31, 2011 compared to \$137.6 million, or 63.4% of total center revenue (or 62.5% of total revenue), for the three months ended March 31, 2010. This \$12.0 million increase primarily consisted of an increase of \$7.8 million in additional payroll-related costs to support increased memberships and revenue growth at our centers. Center operations expenses decreased as a percent of total revenue due primarily to lower member acquisition costs in excess of enrollment fees as well as efficiency improvements.

Advertising and marketing expenses. Advertising and marketing expenses were \$8.6 million, or 3.6% of total revenue, for the three months ended March 31, 2011, compared to \$6.8 million, or 3.1% of total revenue, for the three months ended March 31, 2010. These expenses increased primarily due to increased marketing activity to drive new memberships and in-center revenue growth as well as costs associated with our member loyalty program. *General and administrative expenses.* General and administrative expenses were \$12.7 million, or 5.3% of total revenue, for the three months ended March 31, 2011, compared to \$10.7 million, or 4.9% of total revenue, for the three months ended March 31, 2010. This increase of \$2.0 million is primarily related to share-based compensation related to the special performance-based restricted stock grant, in addition to corporate initiatives to support our continued growth. For the three months ended March 31, 2011, share-based compensation expense related to the June 2009 performance-based restricted stock totaled \$1.0 million, of which \$0.7 million was reported in general and administrative expenses.

Other operating expenses. Other operating expenses were \$6.0 million for the three months ended March 31, 2011, compared to \$4.3 million for the three months ended March 31, 2010. This increase is primarily due to the growth in our athletic events and our health and wellness division and the associated infrastructure costs.

Depreciation and amortization. Depreciation and amortization was \$23.6 million for the three months ended March 31, 2011, compared to \$22.8 million for the three months ended March 31, 2010.

Interest expense, net. Interest expense, net of interest income, was \$5.5 million for the three months ended March 31, 2011, compared to \$8.1 million for the three months ended March 31, 2010. This \$2.6 million decrease was primarily the result of a reduction in debt levels at lower average interest rates.

Provision for income taxes. The provision for income taxes was \$14.2 million for the three months ended March 31, 2011, compared to \$12.0 million for the three months ended March 31, 2010. This \$2.2 million increase was due to an increase in income before income taxes of \$5.2 million and a higher effective income tax rate in the first quarter of 2011. The effective income tax rate for the three months ended March 31, 2011 was 40.6% compared to 40.2% for the three months ended March 31, 2010.

Net income. As a result of the factors described above, net income was \$20.8 million, or 8.7% of total revenue, for the three months ended March 31, 2011 compared to \$17.8 million, or 8.1% of total revenue, for the three months ended March 31, 2010.

Liquidity and Capital Resources

Liquidity

Historically, we have satisfied our liquidity needs through various debt arrangements, sales of equity and cash flow provided by operations. Our principal liquidity needs have included the development of new centers, debt service requirements and expenditures necessary to maintain and update our existing centers and associated fitness equipment. We believe that we can satisfy our current and longer-term debt service obligations and capital expenditure requirements primarily with cash flow from operations, by the extension of the terms of or refinancing our existing debt facilities, through sale-leaseback transactions and by continuing to raise long-term debt or equity capital, although there can be no assurance that such actions can or will be completed.

In 2009, we slowed our growth plans and began to generate free cash flow that allowed us to pay down a portion of our existing debt. We plan to pay off or refinance debt scheduled to mature in 2011 and 2012, including our revolving credit facility (scheduled to mature in May 2012) through cash flow from operations, refinancing existing debt facilities or issuing new debt. As a result of our intent and ability to refinance the Starwood notes payable with proceeds from our revolving credit facility, as demonstrated by the April 4, 2011 pay off of the Starwood notes, the balance of the Starwood notes at March 31, 2011 is classified as long-term debt.

Our business model operates with negative working capital because we carry minimal accounts receivable due to our ability to have monthly membership dues paid by electronic draft, we defer enrollment fee revenue and we fund the construction of our new centers under standard arrangements with our vendors that are paid with cash flows from operations or the revolving credit facility.

The following table summarizes our capital structure as of March 31, 2011 and December 31, 2010.

	March 31, 2011	December 31, 2010 ousands)
Debt	(111 111)	Jusanus)
Long-term debt	\$ 581,495	\$ 605,279
Current maturities of long-term debt	6,716	7,265
Total debt	588,211	612,544
Shareholders Equity		
Common stock	846	839
Additional paid-in capital	421,171	414,922
Retained earnings	445,623	424,787
Accumulated other comprehensive income	170	30
Total shareholders equity	867,810	840,578
Total capitalization	\$ 1,456,021	\$ 1,453,122

Operating Activities

As of March 31, 2011, we had total cash and cash equivalents of \$11.3 million. We also had \$125.3 million available under the existing terms of our revolving credit facility as of March 31, 2011.

Net cash provided by operating activities was \$60.1 million for the three months ended March 31, 2011 compared to \$53.9 million for the three months ended March 31, 2010.

Investing Activities

Investing activities consist primarily of purchasing real property, constructing new centers and purchasing new fitness equipment. In addition, we invest in capital expenditures to maintain and update our existing centers. We finance the purchase of our property and equipment by cash payments or by financing through notes payable or capital lease obligations.

Net cash used in investing activities was \$39.3 million for the three months ended March 31, 2011 compared to \$22.7 million for the three months ended March 31, 2010. The increase of \$16.6 million was primarily due to increased construction activity.

Our capital expenditures were as follows:

			ree Mo ded ch 31,	nths
	2011 2		2010	
		(In tho	usands)
Purchases of property and equipment	\$	38,363	\$	23,039
Non-cash property purchases in construction accounts payable and accounts				
payable		(2,283)		(554)
Non-cash share-based compensation capitalized to projects under development		100		88
Total capital expenditures	\$	36,180	\$	22,573

The following schedule reflects capital expenditures by type of expenditure:

		nree Mo nded rch 31,	onths	
	2011		2010	
	(In the	ousands)	
New center land and construction	\$ 29,673	\$	19,715	
Initial remodels of acquired centers			186	
Maintenance of existing facilities and centralized infrastructure	6,507		2,672	
Total capital expenditures	\$ 36,180	\$	22,573	

At March 31, 2011 we had purchased the real property for two and entered into a ground lease for one of the three large format centers we have opened or plan to open in 2011, and we had purchased real property for one and entered into a ground lease for two of the large format centers that we plan to open after 2011. Construction in progress, including land purchased for future development, totaled \$102.7 million at March 31, 2011 and \$88.6 million at March 31, 2010.

We expect our capital expenditures to be approximately \$150 to \$175 million in 2011, including approximately \$112 to \$137 million in the remaining nine months of 2011. Of this approximately \$112 to \$137 million we expect to incur approximately \$79 to \$94 million for new center construction and approximately \$33 to \$43 million for the updating of existing centers and corporate infrastructure. We plan to fund these capital expenditures primarily with cash flow from operations.

Financing Activities

Net cash used in financing activities was \$21.7 million for the three months ended March 31, 2011 compared to \$24.5 million for the three months ended March 31, 2010.

Long-term debt consists of the following:

	March 31, 2011 (In tl	D	ecember 31, 2010 ds)
Revolving credit facility, interest only due monthly at interest rates ranging from LIBOR plus 0.625% to 1.50% or base plus 0.0%, facility expires May 2012	\$ 332,000	\$	354,200
Term notes payable with monthly interest and principal payments totaling \$836 including interest at 8.25% to July 2011	69,873		70,925
Term notes payable with monthly interest and principal payments totaling \$632 including interest at 6.03% to February 2017 Other	99,611 69,330		100,000 69,772
Total debt (excluding obligations under capital leases)	570,814		594,897
Obligations under capital leases	17,397		17,647
Total debt Less current maturities	588,211 6,716		612,544 7,265
Total long-term debt	\$ 581,495	\$	605,279

Revolving Credit Facility

The amount of our revolving credit facility is \$470.0 million. We may increase the total amount of the facility up to \$600.0 million through further exercise of the accordion feature by us if one or more lenders commit the additional \$130.0 million. As of March 31, 2011, \$332.0 million was outstanding on the facility, plus \$12.7 million related to letters of credit, leaving \$125.3 million available for additional borrowing under the existing terms of the facility. The weighted average interest rate and debt outstanding under the revolving credit facility for the three months ended March 31, 2011 was 1.5% and \$322.3 million, respectively. The weighted average interest rate and debt outstanding under the revolving credit facility for the three months ended March 31, 2010 was 3.1% and \$354.0 million, respectively.

Long-Term Debt Activity

On April 4, 2011, we prepaid the ten mortgage notes payable to Starwood Property Mortgage Sub-1, L.L.C. at the par amount of \$69.5 million. Concurrent with the prepayment, the mortgages were released on ten related centers. *Debt Covenants*

We are in compliance in all material respects with all restrictive and financial covenants under our various credit facilities as of March 31, 2011.

Our primary financial covenants under our revolving credit facility are:

		Actual as of March 31,	Actual as of December 31,
Covenant	Requirement	2011	2010
	Not more than 4.00		
Total Consolidated Debt to Adjusted EBITDAR	to 1.0	2.86 to 1.0	2.98 to 1.0
	Not more than 3.25		
Senior Debt to Adjusted EBITDA	to 1.0	1.50 to 1.0	1.63 to 1.0
Fixed Charge Coverage Ratio	Not less than 1.60	2.93 to 1.0	2.71 to 1.0
	· C 1 '	die fanilier and in daal	1

The formulas for these covenants are specifically defined in the revolving credit facility and include, among other things, an add back of share-based compensation expense to EBITDAR and EBITDA.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We invest our excess cash in highly liquid short-term investments. These investments are not held for trading or other speculative purposes. Changes in interest rates affect the investment income we earn on our cash and cash equivalents and, therefore, impact our consolidated cash flows and consolidated results of operations. As of March 31, 2011 and December 31, 2010, our net floating rate indebtedness was approximately \$365.4 million and \$387.6 million, respectively. If long-term floating interest rates were to have increased by 100 basis points during the three months ended March 31, 2011, our interest costs would have increased by approximately \$0.9 million. If short-term interest rates were to have increased by 100 basis points are determined by considering the impact of the hypothetical interest rates on our floating rate indebtedness and cash equivalents balances at March 31, 2011.

Item 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, an evaluation was carried out under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms, and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. There was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15 or 15d-15 of the Exchange Act that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION ITEM 1. LEGAL PROCEEDINGS

Not applicable.

ITEM 1A. RISK FACTORS

Not applicable.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS Issuer Purchases of Equity Securities in First Quarter 2011

		Average
