REPORT OF THE NOMINATING AND CORPORATE GOVERNANCE COMMITTEE

The Nominating and Corporate Governance Committee has six members who are all independent under NYSE listing standards. The Committee performs the duties described in *Committees of the Board of Directors* and operates under a written charter adopted by the Board of Directors.

Corporate Governance

The Board of Directors, through its Chairman, has tasked the Committee with seeking out world class governance policies and practices. Since its formation in June 2002, the Committee has focused on this task. Some of the resulting policies and practices are summarized in *Corporate Governance* following this report. The Committee will continue to assess and refine the Company's corporate governance practices.

Board Composition

The Committee's responsibilities also include identifying and recommending to the Board of Directors qualified candidates for election as directors. As a part of those responsibilities, the Committee conducts an annual review of the composition of the Board and evaluates whether it continues to reflect the balance of knowledge, experience, skills, expertise and diversity necessary to provide oversight and direction to management in a manner that builds long-term value for shareholders.

Qualifications

Nominees for director are selected on the basis of several criteria, the most fundamental of which is integrity. Directors are also expected to be curious and demanding independent thinkers who possess appropriate business judgment and are committed to representing the long-term interests of shareholders. Directors must possess knowledge, experience, skills or expertise that enhance the Board's ability to direct the business of the Company. Directors must also be willing and able to spend the time and effort necessary to effectively discharge their responsibilities. Directors must be prepared to resign from the Board in the event they have a significant change in responsibilities, including a change in employment, as required by the Company's Corporate Governance Principles. Steelcase is committed to diversity and a candidate's ability to add to the diversity of the Board is also considered.

In determining whether to re-nominate a current member of the Board for an additional term, their effectiveness as a director is reviewed.

Identification of Candidates for Director

The Committee considers candidates suggested by its members, other directors and senior management as necessary in anticipation of potential or expected Board vacancies. The Committee has the sole authority to retain search firms to assist in identifying candidates. No search firms or other advisors were retained in the past fiscal year. The Company's amended bylaws contain a process by which shareholders can nominate an individual to stand for election to the Board. The Company does not, therefore, have a formal policy concerning shareholders submitting recommendations to the committee on candidates for nomination by

Table of Contents

the Board. During fiscal year 2005, however, the Committee will consider further whether adopting such a policy will enhance its efforts to identify qualified candidates.

After identifying a potential candidate, the Committee collects and reviews publicly available information regarding the person to assess whether they should be considered further. If the Committee determines that the candidate warrants further consideration, the Chair or another member of the Committee will contact them. Generally, if the person expresses a willingness to be considered, the Committee requests information from the candidate, reviews their qualifications and accomplishments and conducts one or more interviews with the candidate. Committee members may also contact references or others that have greater first-hand knowledge of the candidate's accomplishments.

CORPORATE GOVERNANCE

The Board of Directors is committed to monitoring the effectiveness of policy and decision making at the Board and management levels. Fundamental to its corporate governance philosophy is the Board's commitment to upholding the Company's reputation for honesty and integrity. Equally fundamental is its commitment to serving as an independent overseer of the Company's management and operations.

A summary of some of our corporate governance policies and practices follows:

Corporate Governance Principles

The Board of Directors adopted Corporate Governance Principles on December 18, 2002. The principles outline the goals, duties and responsibilities of the Board and its Committees, as well as the Board's expectations of directors, including the following:

The Board's goal is to provide oversight to management that helps build long-term value for the Company's shareholders.

The Board is responsible for monitoring the performance of the Company.

The Board is responsible for selecting and evaluating the performance of the Chief Executive Officer, as well as engaging in succession planning for senior management.

Directors are expected to spend the time and effort necessary to appropriately perform their responsibilities. The Nominating and Corporate Governance Committee conducts an annual evaluation of directors' commitments to other boards to help ensure that directors are able to accomplish this goal.

Directors are subject to mandatory retirement. After turning 75, no person can be nominated or re-elected as a director.

Directors who have a significant change in responsibilities, including a change in employment, are expected to volunteer their resignation. Whether the Board accepts the resignation is dependent on the continued appropriateness of Board service.

The Nominating and Corporate Governance Committee considers the issues of term limits in its nominating process and member rotation in making recommendations on committee assignments. In both instances, the Committee's goal is to ensure that the Board and its committees are open to new ideas and are willing to critically re-examine the status quo.

The Board and its committees conduct an annual self-evaluation. The Board also conducts orientation for its new members and each director is expected to participate in continuing educational programs to maintain the necessary level of expertise to perform his or her responsibilities as director.

Director Independence

A majority of the members of our Board of Directors must be independent, as defined by the NYSE listing standards.

Table of Contents

The Board considers all relevant facts and circumstances in determining whether a director is independent. To help make that determination, the Board of Directors adopted the following categorical standards. Under these standards, none of the following relationships are considered material relationships impairing a director's independence:

If the director is currently employed in any capacity by, or is an equity owner in, another company that has done or does business with Steelcase, provided that:

The amount of business with Steelcase is less than the greater of \$1,000,000 or 1% of the other company's annual gross revenue; and

The director's ownership interest does not exceed 5% of the total equity interests in the other company.

If the director is currently serving solely as a director, advisory director, consultant or similar non-employee position with another company that has done or does business with Steelcase, regardless of the amount.

If the director is currently employed as an executive officer of a charitable institution that has received contributions from Steelcase or the Steelcase Foundation, provided that the amount of the contributions in any of the last three years is less than the greater of \$1,000,000 or 2% of the charitable institution's annual gross revenue.

If the director is currently serving solely as a trustee, volunteer, committee member or similar position (and not as an executive officer) of a charitable institution that has received contributions in any amount from Steelcase or the Steelcase Foundation during any of the past three years.

If Steelcase has employed the director's immediate family member within the last three years, provided such employment was not as a board-elected officer of Steelcase.

If the director, as part of his or her service on the Board of Directors of Steelcase Inc., also serves as a trustee of the Steelcase Foundation or a Steelcase subsidiary or affiliate.

If Steelcase previously employed the director in any capacity, provided that the director's employment ceased more than five years ago.

As used in the above categorical standards, "business with Steelcase" includes Steelcase selling products and/or services to the other company, either directly or through an independently owned Steelcase dealer, and Steelcase buying products and/or services from the other company during the last three years. Unless the context otherwise requires, "director" includes the director and his or her immediate family members as defined in the NYSE listing standards.

Applying the NYSE listing standards, the Board's categorical standards and considering all the relevant facts and circumstances, the Board of Directors determined that Earl D. Holton, Michael J. Jandernoa, David W. Joos, Elizabeth Valk Long, Robert C. Pew III, Peter M. Wege II, P. Craig Welch, Jr. and Kate Pew Wolters are independent. James P. Hackett and William P. Crawford were not found to be independent.

The Steelcase Foundation

The Steelcase Foundation is mentioned in the above categorical independence standards. The Foundation was established in 1951 to make grants to non-profit organizations, projects and programs in the communities where our employees live and work. Established by the founders of Steelcase Inc., the Foundation seeks to give back to the communities that have been

Table of Contents

instrumental to the Company's operations and growth. The Company has regularly donated a portion of its profits to the Foundation. Several of our directors serve as Foundation trustees, including James P. Hackett, Earl D. Holton, Robert C. Pew III, and Kate Pew Wolters, Chair of the Board of Trustees. These individuals are not compensated for their service as trustees.

Executive Sessions of Non-Management Directors

The only member of the Board who is also a member of management is James P. Hackett, President and Chief Executive Officer. The Board meets quarterly in executive session without Mr. Hackett present. During these sessions, Robert C. Pew III, as Chairman of the Board, presides. Our Corporate Governance Principles provide that if the Chairman of the Board is a member of management, the non-management directors will designate a member to preside at the meetings.

Code of Ethics, Code of Business Conduct, Charters and Communications with Directors

The Board has adopted a Code of Ethics applicable to the chief executive and senior financial officers, as well as a Code of Business Conduct that applies to all employees and directors. Waivers of either code for a director or executive officer may only be approved by the Nominating and Corporate Governance Committee. Each of the codes, the Committee charters and information on how shareholders or other interested individuals can contact members of the Board of Directors and non-management directors is available on the corporate governance section of www.steelcase.com. Copies of the codes and charters can also be obtained by writing to: Steelcase Inc., Investor Relations, CH-3C, P.O. Box 1967, Grand Rapids, MI 49501-1967.

Audit Committee

Our Corporate Governance Principles prohibit any member of the Audit Committee from sitting on the audit committees of more than two other public companies. Additionally, the Board of Directors has designated Michael J. Jandernoa as an audit committee financial expert as defined by Securities and Exchange Commission (SEC) rules, based on his financial and accounting education and experience.

Director Attendance at Shareholder Meetings

The Board's policy is that each of our directors is expected to attend the annual meeting of shareholders. All of the current directors attended the 2003 Annual Meeting.

Table of Contents

REPORT OF THE AUDIT COMMITTEE

The Audit Committee consists of five directors who are independent under NYSE listing standards. The Committee acts under a written charter adopted by the Board of Directors that is reviewed and assessed at least annually. A copy of the Audit Committee Charter, as amended by the Board of Directors in March 2004, is included as an appendix to this proxy statement.

Management is responsible for Steelcase's financial reporting process and its internal controls regarding finance, accounting, legal compliance and ethics. BDO Seidman, LLP, Steelcase's independent auditor, is responsible for performing an independent audit of Steelcase's consolidated financial statements in accordance with auditing standards generally accepted in the United States and for issuing a report. The Committee's role is to serve as an independent and objective party to monitor these processes on behalf of the Board of Directors and to review the audit efforts of Steelcase's internal and independent auditors.

In this context, we have discussed with the independent auditor the matters required to be discussed by Statement on Auditing Standards No. 61, *Communications with Audit Committees*, as amended. In addition, we received the written disclosures and letter from the independent auditor required by Independence Standards Board Standard No. 1 and reviewed, evaluated and discussed the written report and letter with that firm and its independence from Steelcase.

The Committee discussed with Steelcase's internal and independent auditors the overall scope and plans for their respective audits. Steelcase's audited financial statements were also reviewed and discussed with management. We met with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of Steelcase's internal controls and the overall quality of Steelcase's financial reporting.

Based on the review and discussions referred to above, and relying on the representations of Steelcase's management and the independent auditor's report, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in Steelcase's Annual Report on Form 10-K for the fiscal year ended February 27, 2004.

NOTES TO TABLE:

- 1 Audit fees consisted of fees related to the annual audit of Steelcase's consolidated financial statements, reviews of the financial statements included in quarterly reports on Form 10-Q and audits of separate financial statements of subsidiaries and affiliates.
- 2 Audit-related fees consisted of consultation on accounting and reporting matters and employee benefit plans, and consultations related to Section 404 of the Sarbanes-Oxley Act.
- 3 Tax fees consisted of assistance with tax compliance, preparation of certain subsidiary tax returns, tax consultation, planning and implementation services, and assistance in connection with tax audits.

The Audit Committee has determined that providing the services reflected in the above table is compatible with the maintenance of BDO Seidman's independence.

In addition, the Audit Committee has adopted a policy under which the Committee approves in advance recurring audit, audit-related and tax services rendered by BDO Seidman, subject to specific fee limits. If circumstances require hiring the independent auditors for services not previously pre-approved or that would exceed the fee limits previously set, the Audit Committee must pre-approve the new services and/or fee limits. The Chair of the Committee may approve specified services between regularly scheduled meetings of the Committee, subject to review by the full Committee at its next scheduled meeting. The fiscal year 2004 services and fees reflected in the above table were pre-approved by the Committee.

Beginning in September 2003, 25% of the annual Board retainer is paid to directors in either:

A deemed investment in Steelcase Inc. Class A Common Stock under the Non-Employee Director Deferred Compensation Plan.

Steelcase Inc. Class A Common Stock.

Prior to September 2003, non-employee directors owning fewer than 1,000 shares of Steelcase stock were required to defer at least 25% of their retainer as a deemed investment in Steelcase Class A Common Stock under the Non-Employee Director Deferred Compensation Plan.

Each director is also reimbursed for out-of-pocket expenses incurred to attend Board and committee meetings. Mr. Hackett, as an employee, is not paid for his service as a director or committee member.

Each non-employee director can participate in the Steelcase Inc. Non-Employee Director Deferred Compensation Plan. Under this plan, directors may defer all or part of their retainer and/or committee fees until they no longer serve on our Board of Directors. A participating director may elect to have the deferred amount deemed as an investment in Steelcase Class A Common Stock or invested in any of several investment funds.

Each director participates in the Steelcase Inc. Incentive Compensation Plan. No awards were made to directors under this plan during fiscal year 2004.

Each non-employee director is eligible to receive health care coverage under our Benefit Plan for Outside Directors. In addition, William P. Crawford and Robert C. Pew III currently receive or are entitled to receive payments under supplemental retirement and/or deferred compensation arrangements that were in effect when their active employment with Steelcase ended.

Steelcase directors serving on a subsidiary's board of directors are paid a retainer and/or fees for their attendance at meetings. During fiscal year 2004, Mr. Wege II was paid \$8,000 and Mr. Crawford was paid \$6,500 for such service. Directors are also reimbursed for out-of-pocket expenses incurred to attend these meetings.

STOCK OWNERSHIP OF MANAGEMENT AND CERTAIN BENEFICIAL OWNERS

The table below shows the amount of Steelcase common stock beneficially owned as of April 28, 2004 (unless another date is indicated) by any of the following:

Each person serving as a director as of April 28, 2004.

Each executive officer named in the *Summary Compensation Table*.

Each other person known by Steelcase to beneficially own more than 5% of Steelcase Common Stock.

NOTES TO TABLE:

- 1 Each share of Class B Common Stock can be converted at the option of the shareholder into one share of Class A Common Stock. Ownership of Class B Common stock is, therefore, deemed to be beneficial ownership of Class A stock under SEC regulations. The number of shares of Class A Common Stock and percentages shown for Class A Common Stock, however, do not account for this conversion right to reduce substantial duplications in the number of shares and percentages shown in the table. If the number of shares of Class A Common Stock beneficially owned by each shareholder was calculated to include the number of shares the shareholder would acquire upon conversion of his or her Class B Common Stock, the following shareholders would be deemed to beneficially own the number of shares of Class A Common Stock and the percentage of the total shares of Class A Common Stock listed after their names:

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee consists of five directors who are independent under NYSE listing standards and acts under a written charter adopted by the Board of Directors that is reviewed and assessed at least annually.

Overview

Steelcase values the contributions of all employees and shares profits through broad-based incentive arrangements designed to reward performance and motivate teamwork for our success. In line with this philosophy, the Committee's objectives for executive compensation are to:

Attract and retain highly-qualified executive officers.

Ensure that executive compensation is reasonable, taking into account executive compensation of global industrial companies similar in size to Steelcase.

Motivate executives to achieve the Company's business objectives and reward them appropriately for their contributions.

Align the interests of executive officers with the long-term interests of the Company's shareholders.

Each year the Committee reviews executive and non-executive compensation and benefit programs to assess their reasonableness and alignment with the Company's compensation philosophy. During fiscal year 2004, the Committee also reviewed all components of compensation paid by the Company to each of its executive officers, including perquisites. The Committee believes that the Company's executive compensation is consistent with its compensation philosophy and is not excessive.

In fiscal year 2004, the Committee engaged a leading compensation consulting firm to assist in assessing the reasonableness and competitiveness of the Company's CEO and executive compensation. The consulting firm reported directly to the Committee and consulted with it regarding best practices in executive compensation and provided relevant market data comparisons for executive compensation.

Base Salary

The Company sets base salaries as one part of total direct compensation (base salary plus annual incentive) of our executives. Total direct compensation is targeted at the median level of our comparison group of companies. Annually, the Company reviews salaries relative to similar positions of responsibility within the comparable group and obtains supplemental information from other survey sources as necessary.

In determining the base salary of Mr. Hackett, the Committee considers market data from comparable companies and other factors identified during Mr. Hackett's annual performance appraisal, including:

Steelcase's financial performance and growth.

Mr. Hackett's leadership and his establishment and implementation of Steelcase's strategic direction.

Table of Contents

Mr. Hackett is excluded from any portion of a Committee meeting in which his compensation is discussed. The Committee also meets regularly in executive session, with no members of management present.

On an annual basis, we review and evaluate the compensation of executive officers established by the CEO based on his assessment of individual performance and market data from comparable global industrial companies.

Annual and Long-Term Incentives

Annual and long term-incentives are tied to achieving specific financial goals. Consistent with market practice and our desire to motivate performance, incentive compensation opportunities represent a larger percentage of total compensation for executives than for other Company employees.

The Steelcase Inc. Management Incentive Plan (MIP) provides annual and long-term incentive compensation to participating employees. The annual and long-term bonus payments under this plan are determined based on economic value added (EVA). EVA is a profit measurement that reflects all of our operating costs, including the cost of capital.

At the beginning of each fiscal year, the Committee approves a target incentive schedule representing percentages of base salary for annual and long-term bonus payments. The Committee exercises discretion in setting the targets and considers factors such as the median of market data for similar incentives and Steelcase s historical and projected performance. The long-term targets were increased in fiscal year 2004 to better reflect competitive levels.

The Committee sets the performance goals that must be achieved in order for a bonus to be awarded. At the end of each fiscal year, we review actual EVA performance and compare it to the EVA targets. The Committee then determines a bonus multiple, based upon both absolute EVA results and the growth in EVA. Target annual and long-term incentive percentages are multiplied by the bonus multiple to calculate each employee s actual incentive percentages, which are then multiplied by the employee s base pay to determine the annual and/or long-term incentive awards for the fiscal year.

In fiscal year 2004, the Committee changed the form of payment for long-term incentives. Previously, the long-term incentive was paid 75% in cash and 25% in stock options. Currently, the long-term incentive is paid 100% in cash and is typically paid over three years in substantially equal payments beginning one year after the year in which it is credited. The unpaid cash portion is generally adjusted at the end of each year based on the positive or negative change in shareholders equity for the fiscal year, before payment of dividends. In an effort to motivate and retain experienced management talent, for fiscal year 2004, the Committee approved a change allowing two-thirds of any long-term incentive award to be paid at the same time as the annual incentive.

The Committee retains the ability to award stock options but is not currently using this form of compensation, and no options were awarded in fiscal year 2004. At the beginning of fiscal year 2004, the Company adopted a policy of immediately recognizing an expense associated with the issuance of any new options. There are a number of options outstanding and the Company will expense those options as required by accounting regulations.

In fiscal year 2004, the Committee increased Mr. Hackett s target annual incentive percentage from 65% to 70%, and increased his target long-term incentive percentage from 110% to 115%. Combined with the change noted above allowing two-thirds of any long-term incentive award to be paid at the same time as the annual incentive, Mr. Hackett s fiscal year 2004 annual target

Table of Contents

increased to 147% and subsequently his long-term target was reduced to 38%. The new targets are the maximum percentages currently permitted by the schedule. The maximum annual incentive payment under the plan is \$3 million and the maximum long-term incentive payment is \$4 million, inclusive of cash and other forms of payment.

For fiscal year 2004, the Committee imposed a requirement that certain profitability requirements be met in order for a bonus to be paid. Steelcase's actual performance was below the established levels. Accordingly, employees, including Mr. Hackett, did not earn any annual incentives and no long-term amounts were credited under this plan. The negative change in equity for fiscal year 2004 was applied to the long-term incentive account.

Equity-Based Compensation

To remain competitive with market levels and to support our desire to align management with the interests of shareholders, the Committee awarded shares of restricted stock in fiscal year 2004 to members of the executive management team, including the executive officers named in the following tables. Dividends are paid quarterly on the restricted stock, which remains unvested until 2006, when it fully vests. In the case of expatriate executives, restricted units were issued. Dividend equivalents are paid quarterly on the restricted units, which remain unvested until 2006, when they fully vest.

Tax Deductibility

The Company also considers the tax deductibility of compensation paid to certain executive officers. Section 162(m) of the Internal Revenue Code generally limits the tax deductibility of annual compensation paid to certain officers to \$1 million. The Committee's goal is to structure the compensation paid to these individuals to maximize deductibility for federal income tax purposes. However, when deemed necessary, the Committee retains the flexibility to authorize compensation that may not be deductible to promote incentive and retention goals.

Executive Supplemental Retirement Plan

The Company maintains the Steelcase Inc. Executive Supplemental Retirement Plan. The Compensation Committee determines who participates in the plan. Each executive officer named in the *Summary Compensation Table* is a current participant.

Under this unfunded plan, each participant receives the following benefits:

Five annual payments equal to 70% of the officer's average base salary for the three consecutive calendar years prior to retirement or death, multiplied by the vested percentage.

Fifteen annual payments each equal to \$50,000, multiplied by the vested percentage.

Benefits normally begin in March of the year in which any of the following occur:

Retirement at 65.

Retirement before 65 if the officer's age plus years of continuous service with Steelcase equal 80 (early retirement).

The officer's death or total disability.

In the event of early retirement and with the approval of the plan's administrative committee, an officer can elect within a specified time frame to receive benefits earlier in lower annual amounts and ending on the date the final payment would have been made had no earlier benefits been elected.

The table below shows the estimated annual income benefits payable to each of the executive officers named in the *Summary Compensation Table*, or his or her beneficiary, over a five-year period, assuming that no early payment election is made and all plan requirements are satisfied:

An officer's vested percentage is based on completed years of participation in the plan:

An officer forfeits the right to receive benefits under the plan in the following circumstances:

Employment is terminated for cause.

Employment is terminated for any reason other than total disability or early retirement before reaching 65.

Death occurs without a surviving spouse, as defined in the plan, or at the time the surviving spouse dies after the officer's death.

The officer competes with Steelcase without the prior consent of the plan's administrative committee.

The officer is eligible for and elects to receive benefits under any other non-qualified deferred compensation plan or arrangement maintained by the Company or any of its subsidiaries or affiliates (other than the Restoration Retirement Plan or the Deferred Compensation Plan).

Table of Contents***Restoration Retirement Plan***

Each executive officer named in the *Summary Compensation Table* participates in the Restoration Retirement Plan. This unfunded, defined contribution plan is intended to restore retirement benefits that would otherwise be paid under the Retirement Plan, but are lost as a result of the limitations on eligible compensation under Internal Revenue Code Section 401(a)(17).

Each participant in the MIP for the full plan year, including each executive officer named in the *Summary Compensation Table*, is eligible to participate in our Restoration Retirement Plan. We make annual contributions to a participant's account at the same combined rate of contribution for the plan year used in determining benefits under our Retirement Plan. Eligible compensation under the Restoration Retirement Plan is the amount of the participant's base salary and annual bonus under the MIP that exceeds the limit under Internal Revenue Code Section 401(a)(17), but not more than twice the limit. Each participant's account balance is credited annually with earnings at the same rate of return on investments for the participant under the Steelcase Inc. Retirement Plan for the same plan year. No earnings are credited following termination of employment.

Benefits are payable from the Restoration Retirement Plan after a participant terminates employment according to the following vesting schedule:

Years of Service	Vesting Percentage
less than 3	0%
3	20%
4	40%
5	60%
6	80%
7 or more	100%

Each executive officer named in the *Summary Compensation Table* is 100% vested except for Mr. Merlotti who is 0% vested. Benefits are payable in lump sum or in annual installments over four years. Unpaid benefits are forfeited if the participant is terminated for cause or engages in certain competitive activity without the prior consent of the plan's administrative committee.

Deferred Compensation Plan

To compete with other comparable global industrial companies, we have a Deferred Compensation Plan. This plan permits eligible participants, including the executive officers named in the *Summary Compensation Table*, to defer up to 25% of their current base salary and/or up to 50% of their MIP annual incentive payments before income taxes. Each participant elects how the deferral amounts will be deemed invested among various investment funds selected by Steelcase. The total amount of deferral plus investment earnings is paid to the participants or their beneficiaries upon leaving employment. Prior to establishing the Deferred Compensation Plan, Steelcase entered into deferred compensation contracts with certain executive officers, including Mr. Hackett. Under the earlier agreement,

Mr. Hackett will receive payments upon reaching age 70.

OTHER MATTERS

Voting

Michigan law and our amended bylaws require a quorum for the Meeting, which means that holders of a majority of the voting power entitled to vote must be present in person or represented by proxy in order to transact business at the meeting. Withheld votes and abstentions are counted in determining whether a quorum has been reached.

Assuming a quorum has been reached, we must determine the results of the vote on each matter submitted for shareholders' approval. In order to be elected, the director nominees must receive a plurality of the votes cast at the Meeting for the election of directors.

Under NYSE rules, brokers who hold shares on behalf of their customers (shares held in street name) can vote on certain items when they do not receive instructions from their customers. However, brokers are not authorized to vote on non-routine matters if they do not receive instructions from their customers. The election of directors is a routine matter under NYSE rules. Therefore, brokers holding shares in street name for their customers can vote as they wish on behalf of any customer who does not give his or her broker instructions on how to vote in the election of directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors, certain officers, and those who beneficially own more than 10% of either of our Class A Common Stock or Class B Common Stock (Section 16(a) Filers) to file initial reports of ownership and changes in their ownership of shares of Steelcase Common Stock with the SEC. Section 16(a) Filers are required by SEC regulations to furnish us with copies of all Section 16(a) reports they file. Based on our review of the copies we received of those reports, or written representations that no reports were required, we believe that during fiscal year 2004, our Section 16(a) Filers filed all reports required by Section 16(a) on a timely basis.

Solicitation of Proxies

Steelcase will bear the cost of soliciting proxies, which will be solicited by e-mail, mail, in person or by telephone by our directors, officers and employees, who will not be additionally compensated for those activities. We will also reimburse banks, brokers, nominees and other fiduciaries that we request to forward these proxy materials for reasonable expenses they incur in forwarding these materials to the beneficial owners of our Class A Common Stock and Class B Common Stock.
