***Item 12. Preliminary Results for First Quarter 2004***

On April 29, 2004 Granite Construction Incorporated (NYSE:GVA) announced that it anticipates a net loss for the first quarter ended March 31, 2004 of between \$8.5 million and \$9.5 million or \$0.21 and \$0.24 per share on a diluted basis, which will include a gain on the sale of certain assets related to our ready-mix concrete business in the quarter of approximately \$10.0 million pre-tax. These estimated results reflect higher than anticipated estimated costs on a number of large, complex contracts located throughout the United States operating under the Company's Heavy Construction Division (HCD). The Company will report its complete results for the first quarter of 2004 on May 5, 2004.

Increased costs in the quarter reflect the impact of project write-downs totaling approximately \$19.0 million. These forecast adjustments are attributable to unanticipated changes in project conditions occurring in the quarter resulting in changes to the estimates of the cost to complete the projects. These changes to the estimates were primarily due to the recognition of costs associated with added scope changes, extended overhead due to owner and weather delays, design problems on Design/Build projects, subcontractor performance issues and higher estimated liquidated damages on two projects.

Granite currently has 36 HCD projects larger than \$15.0 million in size under construction. In the first quarter of 2004, as a result of the factors discussed above, there were eight projects in which the margins deteriorated from \$500,000 up to \$4.0 million. The total margin deterioration on these eight projects was approximately \$18.0 million. Of these eight projects, two projects are in New York and three are in the Southeast Region.

The Company also stated that absent the losses from HCD, the performance of the remaining operating units were on balance and in line with the Company's expectations. Specifically, the Branch Division continues to benefit from strong private sector demand in many of the areas in which it operates.

Granite executives will discuss the topics on a conference call that will take place at 8:30 a.m. EDT on Friday, April 30, 2004. The dial-in number for the conference call is as follows: (719) 457-2698 (Domestic and International). Replay dial-in numbers are as follows:

(888) 203-1112 Domestic Replay (access code 364130)

(719) 457-0820 International Replay (access code 364130).

A replay of the call will be available through midnight Tuesday, May 4, 2004. Additionally, the conference call will be available on a live Webcast and can be accessed at [graniteconstruction.com](http://graniteconstruction.com).
