NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**Note 1. Basis of Presentation**

U.S. Global Investors, Inc. (the Company or U.S. Global) has prepared the consolidated financial statements pursuant to accounting principles generally accepted in the United States of America (U.S. GAAP) and the rules and regulations of the United States Securities and Exchange Commission (SEC) that permit reduced disclosure for interim periods. The financial information included herein reflects all adjustments (consisting solely of normal recurring adjustments), which are, in management s opinion, necessary for a fair presentation of results for the interim periods presented. The Company has consistently followed the accounting policies set forth in the notes to the consolidated financial statements in the Company s Form 10-K for the fiscal year ended June 30, 2008.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, United Shareholder Services, Inc. (USSI), U.S. Global Investors (Guernsey) Limited, U.S. Global Brokerage, Inc., and U.S. Global Investors (Bermuda) Limited.

All significant intercompany balances and transactions have been eliminated in consolidation. Certain amounts have been reclassified for comparative purposes. The results of operations for the nine months ended March 31, 2009, are not necessarily indicative of the results to be expected for the entire year.

Note 2. Dividend

Payment of cash dividends is within the discretion of the Company s board of directors and is dependent on earnings, operations, capital requirements, general financial condition of the Company, and general business conditions. A monthly dividend of \$0.02 per share is authorized through June 2009, and will be reviewed by the board quarterly.

Note 3. Investments

As of March 31, 2009, the Company held investments with a market value of approximately \$5.9 million and a cost basis of approximately \$8.0 million. The market value of these investments is approximately 16.6 percent of the Company s total assets. The Company currently has no investments in debt securities or mortgage-backed securities. During the quarter ended December 31, 2008, other-than-temporary impairments of \$2.457 million were realized on corporate investments classified as available-for-sale relating primarily to two holdings. The impairment is the difference between the investments cost basis of \$2.977 million and their fair value of \$520,201. The fair value of the investments at December 31, 2008, is the new cost basis, which will not be adjusted for any subsequent recoveries in fair value.

Investments in securities classified as trading are reflected as current assets on the consolidated balance sheet at their fair market value. Unrealized holding gains and losses on trading securities are included in earnings in the consolidated statements of operations and comprehensive income.

Investments in securities classified as available-for-sale, which may not be readily marketable, are reflected as non-current assets on the consolidated balance sheet at their fair value. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income as a separate component of shareholders equity until realized.

Table of Contents

U.S. Global Investors, Inc.
 March 31, 2009, Quarterly Report on Form 10-Q

Page 6 of 24

The following summarizes the market value, cost, and unrealized gain or loss on investments as of March 31, 2009, and June 30, 2008.

Securities	Market Value	Cost	Unrealized Gain (Loss)	Unrealized holding losses on available-for- sale securities, net of tax
Trading ¹	\$ 4,194,207	\$ 6,276,578	\$ (2,082,371)	N/A
Available-for-sale ²	1,735,410	1,769,377	(33,967)	\$ (22,418)
Total at March 31, 2009	\$ 5,929,617	\$ 8,045,955	\$ (2,116,338)	
Trading ¹	\$ 6,991,843	\$ 6,275,478	\$ 716,365	N/A
Available-for-sale ²	1,246,769	1,739,795	(493,026)	\$ (325,397)
Total at June 30, 2008	\$ 8,238,612	\$ 8,015,273	\$ 223,339	

¹ *Unrealized and realized gains and losses on trading securities are included in earnings in the statement of operations.*

² *Unrealized gains and losses on available-for-sale securities are excluded from earnings and recorded in other comprehensive income as a separate component of shareholders*

*equity until
realized.*

Investment income can be volatile and varies depending on market fluctuations, the Company's ability to participate in investment opportunities, and timing of transactions. A significant portion of the unrealized gains and losses for the nine months ended March 31, 2009, is concentrated in a small number of issuers. The Company expects that gains and losses will continue to fluctuate in the future.

Investment income (loss) from the Company's investments includes:

realized gains and losses on sales of securities;

unrealized gains and losses on trading securities;

realized foreign currency gains and losses;

other-than-temporary impairments on available-for-sale securities; and

dividend and interest income.

The following summarizes investment income (loss) reflected in earnings for the periods discussed:

	Nine Months Ended March 31,	
Investment Income (Loss)	2009	2008
Realized gains (losses) on sales of available-for-sale securities	\$	\$ 96,774
Realized gains (losses) on sales of trading securities		(264,413)
Unrealized gains (losses) on trading securities	(2,798,736)	24,868
Realized foreign currency losses	(53,295)	(21,045)
Other-than-temporary declines in available-for-sale securities	(2,456,618)	
Dividend and interest income	340,419	1,086,520
Total Investment Income (Loss)	\$ (4,968,230)	\$ 922,704

	Three Months Ended March 31,	
Investment Income (Loss)	2009	2008
Realized gains (losses) on sales of available-for-sale securities	\$	\$ 62,253
Realized gains (losses) on sales of trading securities		(1,907)
Unrealized gains (losses) on trading securities	37,910	(530,534)
Realized foreign currency losses	(4,500)	(21,228)
Other-than-temporary declines in available-for-sale securities		
Dividend and interest income	59,384	265,578
Total Investment Income (Loss)	\$ 92,794	\$ (225,838)

Table of Contents

U.S. Global Investors, Inc.
 March 31, 2009, Quarterly Report on Form 10-Q

Page 7 of 24

Note 4. Fair Value Disclosures

U.S. Global adopted Statement of Financial Accounting Standards (SFAS) No. 157 Fair Value Measurements (SFAS No. 157) effective July 1, 2008. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS No. 157 establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value and requires companies to disclose the fair value of their financial instruments according to a fair value hierarchy (i.e., Level 1, 2, and 3 inputs, as defined below). The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. Additionally, companies are required to provide enhanced disclosures regarding instruments in the Level 3 category (which have inputs to the valuation techniques that are unobservable and require significant management judgment), including a reconciliation of the beginning and ending values separately for each major category of assets or liabilities.

Financial instruments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities at the reporting date.

Since valuations are based on quoted prices that are readily and regularly available in an active market, value of these products does not entail a significant degree of judgment.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly.

Level 3 Valuations based on inputs that are unobservable and significant to the fair value measurement.

The Company s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument.

The following table presents fair value measurements, as of March 31, 2009, for the two major categories of U.S. Global s investments measured at fair value on a recurring basis:

	Fair Value Measurement using (in thousands)			Total
	Quoted Prices (Level 1)	Significant Other Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Trading Securities	\$ 3,702	\$ 492		\$ 4,194
Available-for-Sale Securities	1,735			1,735
Total Investments	\$ 5,437	\$ 492		\$ 5,929

Approximately 92 percent of the Company s financial assets measured at fair value are derived from Level 1 inputs including SEC-registered mutual funds and equity securities traded on an active market and the remaining 8 percent are Level 2 inputs including an investment in an offshore fund.

U.S. Global held investments in two securities with a value of zero that were measured at fair value using significant unobservable inputs (Level 3) at March 31, 2009. There were no realized or unrealized gains or losses or transactions in these securities or any transfers in or out of Level 3 during the three month period ended March 31, 2009.

Note 5. Investment Management, Transfer Agent and Other Fees

The Company serves as investment adviser to U.S. Global Investors Funds (USGIF) and receives a fee based on a specified percentage of net assets under management. Two of the funds within USGIF (Eastern European Fund and Global Emerging Markets Fund) were subadvised by a third-party manager, Charlemagne Capital (IOM) Limited (Charlemagne), through November 6, 2008. Effective November 7, 2008, the Company assumed the day-to-day management of both funds. The subadvisory agreements with Charlemagne were amended, effective November 7, 2008, to reflect reduced subadvisory fees in light of restructured responsibilities.

USSI also serves as transfer agent to USGIF and receives fees based on the number of shareholder accounts as well as transaction and activity-based fees. Fees for providing investment management and transfer agent services to USGIF continue to be the Company s primary revenue source.

Table of Contents

U.S. Global Investors, Inc.
 March 31, 2009, Quarterly Report on Form 10-Q

Page 8 of 24

Investment advisory fees for the USGIF funds totaled \$13,403,004 and \$29,456,382 for the nine months ended March 31, 2009, and March 31, 2008, respectively. Transfer agency fees totaled \$4,734,892 and \$6,321,165 for the nine months ended March 31, 2009, and March 31, 2008, respectively.

A special meeting of shareholders of USGIF and U.S. Global Accolade Funds (USGAF) was held on September 23, 2008, to consider several proposals. The new proposals were approved effective October 1, 2008, and included (i) a reorganization of the USGIF and USGAF funds from two separate Massachusetts business trusts into a single Delaware statutory trust under the name USGIF, (ii) a new advisory agreement for the USGIF funds and (iii) a new distribution plan for the nine equity USGIF funds under which U.S. Global Brokerage, Inc. is paid a fee at an annual rate of 0.25 percent of the average daily net assets of each fund. A full discussion of the proposals is set forth in proxy materials filed with the SEC by USGIF and USGAF. The Company incurred a total of \$3.74 million in merger-related costs, of which \$3.57 million was recorded in the first quarter of fiscal 2009.

With respect to four equity funds, the new advisory agreement increases the base advisory fee and makes changes to the advisory fee breakpoints. In addition, administrative services that were part of the previous advisory agreement were removed and became the subject of a separate agreement. Under the new administrative services agreement, the USGIF funds no longer reimburse the Company for certain legal and administrative services, but instead pay the Company compensation at an annual rate of 0.08 percent of the average daily net assets of each fund for administrative services provided by the Company to USGIF. The new advisory agreement for the nine equity USGIF funds provides for a base advisory fee that, beginning in October 2009, will be adjusted upwards or downwards by 0.25 percent if there is a performance difference of 5 percent or more between a fund's performance and that of its designated benchmark index over the prior 12 months.

Prior to October 1, 2008, the Company voluntarily waived or reduced its advisory fees and/or agreed to pay expenses on seven of thirteen funds. Effective October 1, 2008, the Company agreed to cap the expenses of all thirteen funds through September 30, 2009. The Company and the funds' Board of Trustees will negotiate the amounts of these expense caps from time to time. The aggregate fees waived and expenses borne by the Company for the nine months ended March 31, 2009, and March 31, 2008, were \$3,988,758 and \$1,168,234, respectively.

Included in the above waived fees for the nine months ended March 31, 2009, and March 31, 2008, are fees waived to maintain positive or zero net yields in the U.S. Treasury Securities Cash Fund totaling \$342,992 and \$4,259 respectively. These amounts are recoverable within three years. Reflecting increased demand in the market for government securities, and thereby government money market funds, yields on such products have decreased to record lows. In certain products, the gross yield is not sufficient to cover all of the fund's normal operating expenses and fee waivers have been used to maintain positive or zero net yields. Management expects these waivers could increase during 2009. Such increases in fee waivers could be significant and will negatively impact the Company's revenues and net income. Management cannot predict the impact of the waivers due to the number of variables and the range of potential outcomes.

On November 6, 2008, effective immediately, the Company terminated its relationship with Endeavour Financial Corp. as the subadviser to its equity portfolio. As investment adviser, the Company was paid a monthly advisory fee based on the net asset value of the portfolio and an annual performance fee, if any, based on a percentage of consolidated net income from operations in excess of a predetermined percentage return on equity. The Company recorded fees totaling \$661,262 and \$1,915,808 for the nine months ended March 31, 2009, and March 31, 2008, respectively.

The Company continues to provide advisory services for two offshore clients and receives monthly advisory fees based on the net asset values of the clients and performance fees, if any, based on the overall increase in net asset values. The Company recorded fees from these clients totaling \$190,579 and \$383,733 for the nine months ended March 31, 2009, and March 31, 2008, respectively. The performance fees for these clients are calculated and recorded quarterly in accordance with the terms of the advisory agreements. These fees may fluctuate significantly from year to

year based on factors that may be out of the Company's control. Frank Holmes, CEO, serves as a director of the offshore clients.

The Company receives additional revenue from several sources including custodial fee revenues, revenues from mailroom operations, and investment income.

Substantially all of the cash and cash equivalents included in the balance sheet at March 31, 2009, and June 30, 2008, are invested in USGIF money market funds.

Page 9 of 24

Note 6. Borrowings

As of March 31, 2009, the Company has no long-term liabilities.

The Company has access to a \$1 million credit facility with a one-year maturity for working capital purposes. The credit agreement requires the Company to maintain certain quarterly financial covenants to access the line of credit.

As of March 31, 2009, this credit facility remained unutilized by the Company.

Note 7. Stock-Based Compensation

Beginning in fiscal year 2006, with the adoption of the Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123R), stock-based compensation expense was recorded for the cost of stock options. Stock-based compensation expense for the nine months ended March 31, 2009, and March 31, 2008, respectively, was \$244,374 and \$242,775. As of March 31, 2009, and March 31, 2008, respectively, there was approximately \$193,739 and \$519,570 of total unrecognized share-based compensation cost related to share-based compensation granted under the plans that will be recognized over the remainder of their respective vesting periods.

Stock compensation plans

The Company's stock option plans provide for the granting of class A shares as either incentive or nonqualified stock options to employees and non-employee directors. Options are subject to terms and conditions determined by the Compensation Committee of the Board of Directors.

The following table summarizes information about the Company's stock option plans for the nine months ended March 31, 2009.

	Number of Options	Weighted Average Exercise Price
Options outstanding, beginning of year	77,300	\$ 13.66
Granted		
Exercised		
Forfeited		
Options outstanding, end of period	77,300	\$ 13.66
Options exercisable, end of period	52,560	\$ 9.81

Table of Contents

U.S. Global Investors, Inc.
 March 31, 2009, Quarterly Report on Form 10-Q

Page 10 of 24

Note 8. Earnings Per Share

The basic earnings per share (EPS) calculation excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of EPS that could occur if options to issue common stock were exercised.

The following table sets forth the computation for basic and diluted earnings per share (EPS):

	Nine Month Ended March 31,	
	2009	2008
Net income (loss)	\$ (3,200,500)	\$ 6,996,097
Weighted average number of outstanding shares		
Basic	15,266,073	15,244,722
Effect of dilutive securities		
Employee stock options		29,075
Diluted	15,266,073	15,273,797
Earnings (loss) per share		
Basic	\$ (0.21)	\$ 0.46
Diluted	\$ (0.21)	\$ 0.46
	Three Months Ended March	
	31,	
	2009	2008
Net income (loss)	\$ 327,809	\$ 2,122,662
Weighted average number of outstanding shares		
Basic	15,275,056	15,247,780
Effect of dilutive securities		
Employee stock options	20,240	28,120
Diluted	15,295,296	15,275,900
Earnings (loss) per share		
Basic	\$ 0.02	\$ 0.14
Diluted	\$ 0.02	\$ 0.14

The diluted EPS calculation excludes the effect of stock options when their exercise prices exceed the average market price for the period. For the quarter ended March 31, 2009, 53,300 options were excluded from diluted EPS.

The Company may repurchase stock from employees. The Company made no repurchases of shares of its class A, class B, or class C common stock during the quarter ended March 31, 2009. Upon repurchase, these shares are classified as treasury shares and are deducted from outstanding shares in the earnings per share calculation.

Note 9. Income Taxes

The Company and its subsidiaries file a consolidated federal income tax return. Provisions for income taxes include deferred taxes for temporary differences in the bases of assets and liabilities for financial and tax purposes, resulting from the use of the liability method of accounting for income taxes. The current deferred tax asset primarily consists of unrealized losses on trading securities as well as temporary differences in the deductibility of prepaid expenses and accrued liabilities. The long-term deferred tax asset is composed primarily of unrealized losses on available-for-sale securities and the difference in tax treatment of stock options.

A valuation allowance is provided when it is more likely than not that some portion of the deferred tax amount will not be realized. No valuation allowance was included or deemed necessary at March 31, 2009, or June 30, 2008.

Note 10. Financial Information by Business Segment

The Company operates principally in two business segments: providing investment management services to the funds it advises and investing for its own account in an effort to add growth and value to its cash position. The following schedule details total revenues and income by business segment:

	Investment Management Services	Corporate Investments	Consolidated
Nine months ended March 31, 2009			
Revenues	\$ 21,938,604	\$ (5,272,306)	\$ 16,666,298
Income (loss) before income taxes	\$ 2,083,777	\$ (5,284,277)	\$ (3,200,500)
Depreciation	\$ 213,995		\$ 213,995
Capital expenditures	\$ 1,263,555		\$ 1,263,555
Gross identifiable assets at March 31, 2009	\$ 34,180,322		\$ 34,180,322
Deferred tax asset			1,676,990
Consolidated total assets at March 31, 2009			\$ 35,857,312
Nine months ended March 31, 2008			
Revenues	\$ 39,237,328	\$ (157,456)	\$ 39,079,872
Income (loss) before income taxes	\$ 10,647,311	\$ (176,308)	\$ 10,471,003
Depreciation	\$ 212,328		\$ 212,328
Capital expenditures	\$ 162,768		\$ 162,768
Three months ended March 31, 2009			
Revenues	\$ 4,901,996	\$ 90,801	\$ 4,992,797
Income (loss) before income taxes	\$ 246,135	\$ 81,674	\$ 327,809
Depreciation	\$ 67,223		\$ 67,223
Capital expenditures	\$ 86,050		\$ 86,050
Three months ended March 31, 2008			

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

Revenues	\$ 12,753,362	\$ (487,954)	\$ 12,265,408
Income (loss) before income taxes	\$ 3,641,318	\$ (506,443)	\$ 3,134,875
Depreciation	\$ 71,388	\$	\$ 71,388
Capital expenditures	\$ 15,392	\$	\$ 15,392

Note 11. Contingencies and Commitments

The Company continuously reviews any investor, employee or vendor complaints, and any pending or threatened litigation. The likelihood that a loss contingency exists is evaluated under the criteria of SFAS No. 5, Accounting for Contingencies, through consultation with legal counsel, and a loss contingency is recorded if the contingency is probable and reasonably estimable at the date of the financial statements.

During the normal course of business, the Company may be subject to claims, legal proceedings, and other contingencies. These matters are subject to various uncertainties, and it is possible that some of these matters may be resolved unfavorably. The Company establishes accruals for matters for which the outcome is probable and can be reasonably estimated. Management believes that any liability in excess of these accruals upon the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial statements of the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

U.S. Global has made forward-looking statements concerning the Company's performance, financial condition, and operations in this report. The Company from time to time may also make forward-looking statements in its public filings and press releases. Such forward-looking statements are subject to various known and unknown risks and uncertainties and do not guarantee future performance. Actual results could differ materially from those anticipated in such forward-looking statements due to a number of factors, some of which are beyond the Company's control, including: (i) the volatile and competitive nature of the investment management industry, (ii) changes in domestic and foreign economic conditions, (iii) the effect of government regulation on the Company's business, and (iv) market, credit, and liquidity risks associated with the Company's investment management activities. Due to such risks, uncertainties, and other factors, the Company cautions each person receiving such forward-looking information not to place undue reliance on such statements. All such forward-looking statements are current only as of the date on which such statements were made.

Recent Trends and Continuing Disruptions in Worldwide Financial Markets

Due to the consequences of the meltdown in the subprime mortgage market beginning in 2007, the worldwide financial markets have encountered intense volatility due to uncertainty and disruption within the credit markets. This disruption moved into 2008 causing global equities to decline worldwide. The Company's investment advisory fees and operating revenue primarily depend on the value of our assets under management, and continued global market fluctuations impact the funds' asset levels, thereby affecting income and results of operations.

This global strain has resulted in a seizing of the international credit markets resulting in unprecedented worldwide governmental actions. For instance, on September 7, 2008, the U.S. Government moved to guarantee the outstanding debt of Fannie Mae and Freddie Mac. On September 19, 2008, the U.S. Treasury Department (the Treasury) announced a temporary guarantee program (Temporary Guarantee Program for Money Market Funds) for publicly available money market funds which elected to participate in the program.

Furthermore, on October 3, 2008, the U.S. Congress enacted the Emergency Economic Stabilization Act of 2008, which sanctioned the Treasury Secretary to create the Troubled Assets Relief Program and authorize the purchase of up to \$700 billion of troubled assets. Despite these aggressive governmental programs and actions, the global financial markets continue to remain extremely volatile.

In early 2009, returns on many major equity indices have continued to decline from year-end 2008 and has had a dramatic effect on returns and assets under management.

This unsettled financial environment has had an impact on the Company's assets under management. Total assets under management at June 30, 2008, were \$5.753 billion versus \$1.981 billion at December 31, 2008, and \$1.933 billion at March 31, 2009. Total assets under management at March 31, 2009, were \$1.933 billion versus \$5.314 billion at March 31, 2008.

BUSINESS SEGMENTS

The Company, with principal operations located in San Antonio, Texas, manages two business segments: (1) the Company offers a broad range of investment management products and services to meet the needs of individual and institutional investors; and (2) the Company invests for its own account in an effort to add growth and value to its cash position. Although the Company generates the majority of its revenues from its investment advisory segment, the Company holds a significant amount of its total assets in investments. The following is a brief discussion of the Company's two business segments.

Investment Management Products and Services

The Company generates substantially all of its operating revenues from managing and servicing USGIF and other advisory clients. These revenues are largely dependent on the total value and composition of assets under its management. Fluctuations in the markets and investor sentiment directly impact the funds' asset levels, thereby affecting income and results of operations.

The Company continues to provide advisory services for two offshore clients and receives monthly advisory fees based on the net asset values of the clients and performance fees, if any, based on the overall increase in net asset values. The Company recorded fees from these clients totaling \$190,579 and \$383,733 for the nine months ended March 31, 2009, and March 31, 2008, respectively. The performance fees for these clients are calculated and recorded quarterly in accordance with the terms of the advisory agreements. These fees may fluctuate significantly from year to year based on factors that may be out of the Company's control.

Table of Contents

U.S. Global Investors, Inc.
 March 31, 2009, Quarterly Report on Form 10-Q

Page 13 of 24

At March 31, 2009, total assets under management as of period end, including both SEC-registered funds and offshore clients, were \$1.933 billion versus \$5.314 billion at March 31, 2008. During the nine months ended March 31, 2009, average assets under management were \$2.670 billion versus \$5.382 billion for the same period ended March 31, 2008. This decrease was primarily due to a decrease in the natural resources and foreign equity funds under management. Total assets under management at June 30, 2008, were \$5.753 billion versus \$1.933 billion at March 31, 2009.

Investment Activities

Management believes it can more effectively manage the Company's cash position by broadening the types of investments used in cash management and continues to believe that such activities are in the best interest of the Company. Company compliance and operational personnel review and monitor these activities, and various reports are provided to investment advisory clients.

Investment income (loss) from the Company's investments includes:

realized gains and losses on sales of securities;

unrealized gains and losses on trading securities;

realized foreign currency gains and losses;

other-than-temporary impairments on available-for-sale securities; and

dividend and interest income.

This source of revenue does not remain consistent and is dependent on market fluctuations, the Company's ability to participate in investment opportunities, and timing of transactions.

As of March 31, 2009, the Company held investments with a market value of approximately \$5.9 million and a cost basis of approximately \$8.0 million. The market value of these investments is approximately 16.5 percent of the Company's total assets. The Company currently has no investments in debt securities or mortgage-backed securities. The following summarizes investment income (loss) reflected in earnings for the periods discussed:

	Nine Months Ended March 31,	
Investment Income (Loss)	2009	2008
Realized gains (losses) on sales of available-for-sale securities	\$	\$ 96,774
Realized gains (losses) on sales of trading securities		(264,413)
Unrealized gains (losses) on trading securities	(2,798,736)	24,868
Realized foreign currency losses	(53,295)	(21,045)
Other-than-temporary declines in available-for-sale securities	(2,456,618)	
Dividend and interest income	340,419	1,086,520
Total Investment Income (Loss)	\$ (4,968,230)	\$ 922,704
	Three Months Ended March 31,	
Investment Income (Loss)	2009	2008
Realized gains (losses) on sales of available-for-sale securities	\$	\$ 62,253

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

Realized gains (losses) on sales of trading securities		(1,907)
Unrealized gains (losses) on trading securities	37,910	(530,534)
Realized foreign currency losses	(4,500)	(21,228)
Other-than-temporary declines in available-for-sale securities		
Dividend and interest income	59,384	265,578
Total Investment Income (Loss)	\$ 92,794	\$ (225,838)

Table of Contents

U.S. Global Investors, Inc.
March 31, 2009, Quarterly Report on Form 10-Q

Page 14 of 24

RESULTS OF OPERATIONS NINE MONTHS ENDED MARCH 31, 2009, AND 2008

The Company posted a net after-tax loss of \$3,200,500 (\$0.21 loss per share) for the nine months ended March 31, 2009, compared with a net after-tax income of \$6,996,097 (\$0.46 income per share) for the nine months ended March 31, 2008.

Revenues

Total consolidated revenues for the nine months ended March 31, 2009, decreased \$22,413,574, or 57 percent, compared with the nine months ended March 31, 2008. This decrease was primarily attributable to the following:

Investment advisory fees decreased by approximately \$17,514,000 primarily as a result of decreased assets under management in the natural resources and emerging markets funds; and

Investment income decreased by approximately \$5,891,000 primarily as a result of declines in the market value of trading securities in the natural resources and emerging markets sectors as well as an other-than-temporary impairment as a result of declines in the market value of available-for-sale securities.

Expenses

Total consolidated expenses for the nine months ended March 31, 2009, decreased \$7,085,440, or 25 percent, compared with the nine months ended March 31, 2008. This was largely attributable to the following:

Subadvisory fees decreased by \$4,696,000 due to decreased assets in the funds being subadvised and changes in the subadvisory contracts discussed in Note 5;

Employee compensation decreased by \$2,160,000 primarily due to fewer employees and lower bonuses resulting from decreased assets under management as well as lower relative performance in certain of the funds;

Platform fees decreased by \$2,783,000 due to decreased assets under management; and

These decreases in expenses were somewhat offset by an increase in general and administrative expenses of \$2,603,000 primarily due to proxy-related costs associated with the merger of the USGIF and USGAF trusts.

RESULTS OF OPERATIONS THREE MONTHS ENDED MARCH 31, 2009, AND 2008

The Company posted a net after-tax income of \$327,809 (\$0.02 income per share) for the three months ended March 31, 2009, compared with a net after-tax income of \$2,122,662 (\$0.14 income per share) for the three months ended March 31, 2008.

Revenues

Total consolidated revenues for the three months ended March 31, 2009, decreased \$7,272,612, or 59 percent, compared with the three months ended March 31, 2008. This decrease was primarily attributable to the following:

Investment advisory fees decreased by approximately \$7,843,000 primarily as a result of decreased assets under management in the natural resources and emerging markets funds;

Transfer agency fees decreased by approximately \$947,000 primarily as a result of decreases in assets through the platforms; and

These decreases in revenues were somewhat offset by an increase in distribution and administrative service fees of \$1,228,000 due to the new fee agreements.

Expenses

Total consolidated expenses for the three months ended March 31, 2009, decreased \$4,502,263, or 49 percent, compared with the three months ended March 31, 2008. This was largely attributable to the following:

Edgar Filing: U S GLOBAL INVESTORS INC - Form 10-Q

Subadvisory fees decreased by \$2,059,000 due to decreased assets in the funds being subadvised and changes in the subadvisory contracts discussed in Note 5;

Platform fees decreased by \$1,527,000 due to decreased assets under management; and

Employee compensation decreased by \$756,000 primarily due to fewer employees and lower bonuses resulting from decreased assets under management as well as lower relative performance in certain of the funds.

U.S. Global Investors, Inc.

March 31, 2009, Quarterly Report on Form 10-Q

Page 15 of 24

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2009, the Company had net working capital (current assets minus current liabilities) of approximately \$26.0 million and a current ratio (current assets divided by current liabilities) of 15.8 to 1. With approximately \$20.5 million in cash and cash equivalents and approximately \$5.9 million in marketable securities, the Company has adequate liquidity to meet its current obligations. Total shareholders' equity was approximately \$34.1 million, with cash, cash equivalents, and marketable securities comprising 73.6 percent of total assets.

As of March 31, 2009, the Company has no long-term liabilities. The Company has access to a \$1 million credit facility with a one-year maturity for working capital purposes. The credit agreement requires the Company to maintain certain quarterly financial covenants to access the line of credit. As of March 31, 2009, this credit facility remained unutilized by the Company.

Management believes current cash reserves, financing obtained and/or available, and potential cash flow from operations will be sufficient to meet foreseeable cash needs or capital necessary for the above-mentioned activities and allow the Company to take advantage of opportunities for growth whenever available.

Market volatility may cause the price of the Company's publicly traded class A shares to fluctuate, which in turn may allow the Company an opportunity to buy back stock at favorable prices.

The investment advisory and related contracts between the Company and USGIF will expire September 30, 2009.

Management anticipates the board of trustees of USGIF will renew the contracts. The Company provides advisory services to two offshore clients. The Company generally receives a monthly advisory fee and a quarterly performance fee, if any, based on agreed-upon performance measurements. The contracts between the Company and these offshore clients expire periodically, and management anticipates that its offshore clients will renew the contracts.

The Company receives additional revenue from several sources including custodial fee revenues, revenues from mailroom operations, and investment income.

Page 16 of 24

ACCOUNTING PRONOUNCEMENTS

The Company is subject to extensive and often complex, overlapping and frequently changing governmental regulation and accounting oversight. Moreover, financial reporting requirements, such as those listed below, and the processes, controls and procedures that have been put in place to address them, are comprehensive and complex. While management has focused considerable attention and resources on meeting these reporting requirements, interpretations by regulatory or accounting agencies that differ from those of the Company could negatively impact financial results.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*. SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. SFAS 157 applies under other accounting pronouncements that require or permit fair value measurements because the FASB had previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, SFAS 157 does not require any new fair value measurements. In February 2008, the FASB issued an FSP to defer the effective date of SFAS 157 for one year for nonfinancial assets and liabilities recognized or disclosed at fair value on a non-recurring basis. Management adopted the provisions of SFAS 157 related to all financial assets and liabilities and nonfinancial assets and liabilities recognized or disclosed at fair value on a recurring basis on July 1, 2008. Management continues to evaluate the impact this statement will have on the Consolidated Financial Statements once its provisions are adopted for nonfinancial assets and liabilities recognized or disclosed at fair value on a non-recurring basis.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115*. SFAS 159 allows entities to voluntarily choose to measure many financial assets and liabilities at fair value. The election is made on an instrument-by-instrument basis and is irrevocable. Once the election is made for the instrument, all subsequent changes in fair value for that instrument must be reported in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007. We have not elected to apply the provisions of SFAS 159 to any of our financial instruments; therefore, the adoption of SFAS 159 effective July 1, 2008, has not affected our financial position or results of operations.

In June 2007, the Emerging Issues Task Force (EITF) issued EITF Issue No. 06-11, *Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards*, (EITF 06-11). Under the provisions of EITF 06-11, a realized income tax benefit from dividends or dividend equivalents that are charged to retained earnings and are paid to employees for equity classified nonvested equity shares, nonvested equity share units, and outstanding equity share options should be recognized as an increase to additional paid-in capital. The amount recognized in additional paid-in capital for the realized income tax benefit from dividends on those awards should be included in the pool of excess tax benefits available to absorb tax deficiencies on share-based payment awards. EITF 06-11 should be applied prospectively to the income tax benefits that result from dividends on equity-classified employee share-based payment awards that are declared in fiscal years beginning after December 15, 2007, and interim periods within those fiscal years. Accordingly, the Company adopted EITF 06-11 on July 1, 2008. The adoption of EITF 06-11 did not have a material effect on the Company's financial position or results of operations for the quarter ended March 31, 2009.

On October 10, 2008, the FASB issued FSP FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset is not Active* (FSP FAS 157-3). FSP FAS 157-3 clarifies the application of FAS 157 in a market that is not active and illustrates key considerations in determining the fair value of a financial asset when the market for that financial asset is not active. FSP FAS 157-3 was effective upon issuance, including prior periods for which financial statements have not been issued. Revisions resulting from a change in the valuation technique or its application should be accounted for as a change in accounting estimate. The disclosure provisions of SFAS No. 154, *Accounting Changes and Error Corrections* for a change in accounting estimate are not required for revisions resulting from a change in valuation technique or its application. The adoption of FSP FAS 157-3 did not have a material impact on the Company's results of operations, financial condition, or cash flows.

In April 2009, the FASB issued FSP FAS 157-4, *Determining Whether a Market Is Not Active and a Transaction Is Not Distressed* (FSP FAS 157-4). FSP FAS 157-4 provides additional guidance on factors to consider in estimating fair value when there has been a significant decrease in market activity for a financial asset. FSP FAS 157-4 is effective for interim and annual periods ending after June 15, 2009. The implementation of this standard will not have a material impact on our consolidated financial position and results of operations.

FSP 107-1 and APB 28-1 amends FAS No. 107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures in the body or in the accompanying notes to financial statements for interim reporting periods and in financial statements for annual reporting periods for the fair value of all financial instruments for which it is practicable to estimate that value, whether recognized or not recognized in the balance sheet. This FSP also amends APB opinion No. 28, *Interim Financial Reporting*, to require entities to disclose the methods and significant assumptions used to estimate the fair value of financial instruments and describe changes in methods and significant assumptions in both interim and annual financial statements. FSP 107-1 and APB 28-1 is effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009 only if an entity also elects to early adopt FSP 157-4 and FSP 115-2 and 124-2. The Company did not elect early adoption of this FSP for the quarter

Table of Contents

U.S. Global Investors, Inc.
 March 31, 2009, Quarterly Report on Form 10-Q

Page 17 of 24

ended March 31, 2009 and does not expect that its adoption during the quarter ending June 30, 2009 will have a material impact on its consolidated financial statements.

The objective of an other-than-temporary impairment analysis under existing GAAP is to determine whether the holder of an investment in a debt or equity security, for which changes in fair value are not regularly recognized in earnings (such as for securities classified as held-to-maturity or available-for-sale), should recognize a loss in earnings when the investment is impaired. An investment is impaired if the fair value of the investment is less than its amortized cost basis. The objective of FSP 115-2 and 124-2, which amends exiting other-than-temporary impairment guidance for debt securities, is to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. Specifically, the recognition guidance contained in FSP 115-2 and 124-2 applies to debt securities classified as available-for-sale and held-to-maturity that are subject to other-than-temporary impairment guidance within FAS 115, FSP 115-1 and 124-1, FSP EITF 99-20-1 and American Institute of Certified Public Accountants Statement of Position 03-3, Accounting for Certain Loans or Debt Securities Acquired in a Transfer.

Among other provisions, FSP 115-2 and 124-2 requires entities to: (1) split other-than-temporary impairment charges between credit losses (i.e., the loss based on the entity's estimate of the decrease in cash flows, including those that result from expected voluntary prepayments), which are charged to earnings, and the remainder of the impairment charge (non-credit component) to other comprehensive income, net of applicable income taxes; (2) disclose information for interim and annual periods that enables financial statement users to understand the types of available-for-sale and held-to-maturity debt and equity securities held, including information about investments in an unrealized loss position for which an other-than-temporary impairment has or has not been recognized, and (3) disclose for interim and annual periods information that enables users of financial statements to understand the reasons that a portion of an other-than-temporary impairment of a debt security was not recognized in earnings and the methodology and significant inputs used to calculate the portion of the total other-than-temporary impairment that was recognized in earnings.

FSP 115-2 and 124-2 is effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. If an entity elects to adopt early either FSP FAS 157-4 or FSP FAS 107-1 and APB 28-1, it would also be required to adopt early this FSP 115-2 and 124-2. Additionally, if an entity elects to early adopt FSP 115-2 and 124-2, it is required to adopt FSP 157-4 and FSP 107-1 and APB 28-1. For debt securities held at the beginning of the interim period of adoption for which an other-than-temporary impairment was previously recognized, if an entity does not intend to sell and it is not more likely than not that the entity will be required to sell the security before recovery of its amortized cost basis, the entity shall recognize the cumulative effect of initially applying this FSP as an adjustment to the opening balance of retained earnings with a corresponding adjustment to accumulated other comprehensive income and the impact of adoption accounted for as a change in accounting principles, with applicable disclosures provided. The Company did not elect early adoption of FSP 115-2 and 124-2 during the quarter ended March 31, 2009 and does not expect that its adoption during the quarter ending June 30, 2009 will have a material impact on its consolidated financial statements.

CRITICAL ACCOUNTING POLICIES

For a discussion of critical accounting policies that the Company follows, please refer to the notes to the consolidated financial statements included in the Annual Report on Form 10-K for the year ended June 30, 2008.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's balance sheet includes assets whose fair value is subject to market risks. Due to the Company's investments in equity securities, equity price fluctuations represent a market risk factor affecting the Company's consolidated financial position. The carrying values of investments subject to equity price risks are based on quoted market prices or, if not actively traded, management's estimate of fair value as of the balance sheet date. Market prices fluctuate, and the amount realized in the subsequent sale of an investment may differ significantly from the reported market value.

The Company's investment activities are reviewed and monitored by Company compliance personnel, and various reports are provided to investment advisory clients. Written procedures are also in place to manage compliance with the code of ethics.

The table below summarizes the Company's equity price risks as of March 31, 2009, and shows the effects of a hypothetical 25 percent increase and a 25 percent decrease in market prices.

SENSITIVITY ANALYSIS	Fair Value at March 31, 2009	Hypothetical	Estimated Fair	Increase
		Percentage Change	Value After Hypothetical Price Change	(Decrease) in Shareholders Equity, Net of Tax
Trading securities ¹	\$4,194,207	25% increase	\$ 5,242,758	\$ 692,044
		25% decrease	\$ 3,145,655	(\$692,044)
Available-for-sale ²	\$1,735,410	25% increase	\$ 2,169,262	\$ 286,343
		25% decrease	\$ 1,301,557	(\$286,343)

¹ *Unrealized and realized gains and losses on trading securities are included in earnings in the statement of operations.*

² *Unrealized and realized gains and losses on available-for-sale securities are excluded from earnings and recorded in other*

*comprehensive
income as a
component of
shareholders
equity until
realized.*

The selected hypothetical change does not reflect what could be considered best or worst-case scenarios. Results could be significantly worse due to both the nature of equity markets and the concentration of the Company's investment portfolio.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of March 31, 2009, was conducted under the supervision and with the participation of management, including our chief executive officer and chief financial officer. Based on that evaluation, the chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of March 31, 2009.

There has been no change in the Company's internal control over financial reporting that occurred during the quarter ended March 31, 2009, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
