REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Motorola, Inc.

401(k) Plan Committee

Schaumburg, Illinois

We have audited the accompanying statement of net assets available for benefits of the Motorola, Inc. 401(k) Plan (the Plan) as of December 31, 2007, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007, and the changes in net assets available for benefits for the year then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of expressing an opinion on the basic financial statements taken as a whole.

The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2007 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2007 financial statements taken as a whole.

Motorola, Inc. 401(k) Plan Committee:

We have audited the accompanying statement of net assets available for benefits of the Motorola, Inc. 401(k) Plan as of December 31, 2006. This financial statement is the responsibility of the Plan's management. Our responsibility is to express an opinion on the financial statement based on our audit.

We conducted our audit in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the net assets available for benefits of the Motorola, Inc. 401(k) Plan as of December 31, 2006, in conformity with U.S. generally accepted accounting principles.

MOTOROLA, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2007 and 2006

(1) Description of Plan

The following description of the Motorola, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was formerly known as the Motorola, Inc. 401(k) Profit Sharing Plan, but was renamed effective January 1, 2006.

(a) General

The Plan is a defined contribution plan sponsored by Motorola, Inc. and certain subsidiaries (the Company) covering substantially all domestic employees. Employees become eligible to contribute to the Plan immediately upon employment. Participants are eligible to receive Company contributions to their account on the first of the month following their first (or a subsequent) employment anniversary, after they have completed an anniversary year in which they worked at least 1,000 hours.

Effective October 1, 2002, the Plan was amended to convert a portion of the Plan to a stock bonus plan and non-leveraged employee stock ownership plan (ESOP). The ESOP portion of the Plan is designed to invest primarily in shares of the Company's common stock. The ESOP portion of the Plan is participant directed. Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Trustee prior to the time that such rights are to be exercised. Dividends paid on the Company's common stock are allocated to the participant's account and reinvested in Company common stock or paid directly to the participant at the election of the participant. Pass-through dividends amounted to \$61,000 in 2007.

(b) Contributions

Participants may elect to contribute up to 30% of their pre-tax compensation, up to the annual deferral limit set by the Internal Revenue Code (IRC). The annual deferral limit as set by the IRC was \$15,500 in 2007. The Plan also allows for participants age 50 and older to contribute additional tax-deferred contributions. These catch-up contributions were subject to IRS limits of \$5,000 in 2007.

The Company makes matching contributions to participants equal to \$0.50 for each dollar of participant deferrals up to 6% of pre-tax compensation, not to exceed 3% of pre-tax compensation for the period.

Effective January 1, 2005, the Company froze its defined benefit pension plan (Pension Plan) to new participants. As a result of freezing the Pension Plan, new employees of the Company will not be eligible to participate in the Pension Plan, and will be designated as non-pension eligible. Non-pension eligible participants will receive a matching contribution equal to \$1.00 for each dollar of participant deferrals up to 3%, and \$0.50 for each dollar of participant deferrals between 3% and 5%. There is no change for pension-eligible participants.

MOTOROLA, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2007 and 2006

(c) Participant Accounts

Each participant's account is credited with the participant's elective deferrals, and allocations of Company matching contributions, plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are fully vested in their elective deferrals and related earnings at all times. A participant will be 100% vested in employer contributions and earnings thereon after they have completed an anniversary year. However, the participant becomes 100% vested in their account balances upon reaching normal retirement age, total and permanent disability, death, or Plan termination.

Participants who terminated employment prior to July 1, 2000, but chose to leave their account balances in the Plan are subject to forfeit the unvested portion of employer contributions upon the earlier of their withdrawal from the Plan, or the five year anniversary of their employment termination. Terminated employees who have left their account balances in the Plan and are rehired by the Plan Sponsor within five years are not subject to forfeiture of their unvested employer contributions. The portion of employer contributions not vested upon termination of employment is forfeited and is used to offset Company contributions. For the year ended December 31, 2007, all forfeiture amounts of \$302,000 were used to offset Company contributions.

(e) Benefits

At the option of the participant, distributions from the Plan may be made in the form of: (a) a lump-sum distribution with the option of receiving shares of Motorola stock or cash, (b) annual distributions from the Plan (available only to retiring participants) or combinations thereof. Participants hired after January 1, 1996 may not elect the Annuity or Annual Distribution options. Partial distributions (with a minimum of \$5,000) are made available to participants, with no more than one distribution in any three-month period. Participants are not required to cash out their entire benefits at age 70 (although this requirement applies to beneficiaries). Additionally, in-service withdrawals are extended to participants who have attained age 59-1/2 for pretax, post-tax, and rollover contributions. Hardship withdrawal of rollover contributions is permitted. Participants who terminate employment with the Company for any reason, and have a vested account balance of \$1,000 or less will have their account balance distributed in the form of a lump-sum distribution.

Participants who have attained the age of 70-1/2 and who are an employee of the Company may withdraw all or any portion of his/her account subject to IRS minimum distribution requirements. A participant may not take more than one withdrawal in any six-month period, and the minimum withdrawal shall be \$200.

Participants who are employees of the Company and who have made a rollover transfer into the Plan may withdraw all or any portion of their rollover transfer amounts at any time. A participant may not take more than one withdrawal in any six-month period, and the minimum withdrawal shall be \$200.

(f) Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 less their highest outstanding loan balance in the last 12 months or 50% of their vested account balance. Loan transactions are treated as a transfer to/from the investment fund to the Participant Loan Fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable interest rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Interest rates are based on the prime rate (published in the Wall Street Journal) plus 0.5% unless the plan administrator determines the interest rate is not reasonable. Prior to July 16, 2003, interest rates included a 0.3% loan insurance fee. Principal and interest is paid ratably through payroll deductions. A \$50 processing fee is charged for loans.

(g) Plan Termination

Although the Company has not expressed any intent to do so, it may terminate the Plan at any time. It has the right under the Plan to discontinue contributions at any time and terminate the Plan subject to the provisions of ERISA.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principals generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Effect of Newly Issued But Not Yet Effective Accounting Standards

In September 2006, the FASB issued Statement No. 157, *Fair Market Measurements*. The Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement establishes a fair value hierarchy about the assumptions used to measure fair value and clarifies assumptions about risk and the effect of a restriction on the sale or use of an asset. The standard is effective for fiscal years beginning after November 15, 2007.

In February 2008, the FASB issued Staff Position (FSP) 157-2, *Effective Date of FASB Statement No. 157*. This FSP delays the effective date of FAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The impact of adoption of FASB Statement No. 157 on the Plan's net assets available for benefits and changes in net assets available for benefit is not anticipated to be material.

(Continued)

MOTOROLA, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2007 and 2006

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. The standard provides reporting entities with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between reporting entities that choose different measurement attributes for similar types of assets and liabilities. The new standard is effective for the Plan on January 1, 2008. The Plan did not elect the fair value option for any financial assets or financial liabilities as of January 1, 2008.

(d) Investment Valuation and Income Recognition

Investments in common stock, corporate debt instruments and government securities are stated at fair value as determined by quoted market prices in an active market. Investments in common/collection trust funds are stated at estimated fair values, based upon the reported per unit net asset values of the funds, which reflect fair values of the underlying assets of the funds. Unit values are determined by the bank sponsoring such funds by dividing the funds' net assets at fair value by its units outstanding at the valuation dates. The fair value of the Plan's interest in the master trusts at December 31, 2006, is based on the beginning of year value of the Plan's interest in the trusts plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Loans to participants are valued at their outstanding balances, which approximates fair value.

The resulting increase or decrease in investment values is recorded as net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

The purchases and sales of securities are recorded on a trade-date basis. Realized gains or losses on the sale of securities are based on average cost of securities. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

(e) Administrative and Other Expenses

The expenses necessary to administer the Plan are paid out of Plan assets. Certain plan related expenses may be paid by the Company at its discretion.

(f) Payment of Benefits

Benefits are recorded when paid.

(g) Risk and Uncertainties

The Plan invests in various investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

MOTOROLA, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2007 and 2006

(3) Party-in-Interest Transactions

Certain Plan assets are invested in participant loans or investments managed by The Northern Trust Company, the custodian and trustee of the Plan, therefore, these transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under section 408(b) of the ERISA regulations. The Plan paid certain administrative fees to the trustee, third-party administrator, and various investment managers which qualify as party-in-interest transactions.

At December 31, 2007 and 2006, the Plan had \$383,338,516 and \$598,378,898, respectively, invested in Company stock through a unitized investment fund managed by the trustee. The Plan held 23,898,910 and 29,104,032 shares of Company stock as of December 31, 2007 and 2006, respectively. The Plan also received dividend income on Company stock of \$5,048,541 for 2007.

(4) Investments

At December 31, 2007, the fair value of individual investments which exceeded 5% of net assets available for benefits are as follows (in thousands):

Short-term and other investments	61,031
Investments in common/collective trusts	104,723
Net appreciation in fair value of investments	\$ 113,088

(5) Interest in Master Trusts

The master trusts were established on May 1, 2000 for the commingling of certain assets for investment of the 401(k) Plan and Motorola Pension Plan. Certain of the Plans' investments were held in two master trust accounts at Northern Trust, referred to as the Equity Fund and Fixed Income Fund. Investment income and expenses are allocated to the Plan based upon its pro-rata share in the net assets of each master trust.

Based on the Company's decision to revise the investment strategy for the 401(k) and Pension Trusts, all of the units of the Equity Fund and Fixed Income Fund master trusts held by the 401(k) Plan were sold on June 29, 2007 (trade date). The proceeds of the sales were then invested in other investments on July 2, 2007 (settlement date).

(6) Securities Lending

The master trusts (through June 29, 2007) and the Plan (after June 29, 2007) entered into securities lending transactions with broker/dealers for which fees are paid to the master trust or the Plan. The securities are required to be 100% collateralized by cash, U.S. Government securities, or irrevocable bank letters of credit. The transferee may sell or re-pledge the securities loaned. Fees earned on securities lending activity are included in interest income. Either party may terminate the lending agreement at any time and the collateral shall be used for any failure to deliver borrowed securities.

Fair value of securities loaned by type of investment and corresponding collateral that pertain to the Plan's assets at December 31, 2007 were as follows (in thousands):

(7) Federal Income Taxes

The Plan has received a favorable determination letter dated November 21, 2002 from the Internal Revenue Service regarding the Plan's Federal income tax status. The Plan qualifies under the provisions of Section 401(a) of the Internal Revenue Code (IRC) of 1986, as amended. The trust is exempt from Federal income taxes pursuant to the provisions of Section 501(a) of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(10) Legal Matters

In the ordinary course of business, Motorola is a defendant on behalf of the Plan in various lawsuits, including actions filed by former participants. The Plan Sponsor believes these legal proceedings will not have a material adverse effect on the Plan or the financial results of the Plan.

(11) Subsequent Events

On January 1, 2007, Motorola acquired Symbol Technologies Inc. of Holtsville, New York. This acquisition encompassed approximately 2,500 U.S. employees. The Symbol Technology Associate Retirement Trust merged with the Plan in January 2008. Assets attributable to this merger were approximately \$241,387,000 (unaudited).

On March 26, 2008, Motorola announced that it would split itself into two publicly traded companies. As of June 23, 2008 it is still uncertain as to when the split will occur or how it will impact the Plan.
