**Report of Independent Registered Public Accounting Firm**

To the Participants and Administrator of the  
First Industrial, L.P. 401(k) Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the First Industrial, L.P. 401(k) Plan (the Plan ) at December 31, 2007 and 2006, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, line 4i Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**First Industrial, L.P. 401(k) Plan  
Notes to Financial Statements  
December 31, 2007 and 2006**

**1. Plan Description**

The following description of the First Industrial, L.P. 401(k) Plan (the Plan) is intended to provide only general information. Participants should refer to the Plan agreement and the summary Plan description for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan which was established on January 1, 1995, and is administered by First Industrial, L.P. (the Employer). The assets of the Plan are managed and administered under the terms of an agreement between the Employer and the trustee, Fidelity Management Trust Company (the Trustee). The Trustee is responsible for the investment of such assets and the accounting for all related receipts and disbursements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Eligibility**

All employees who have reached age 21 are eligible to participate in the Plan on the first day of the month following the first 30 days of his or her employment.

**Contributions**

Each year, participants may contribute up to 60 percent of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Service (IRS) limits. Participant contributions may also include rollovers, which represent transfers of participant account balances previously held in the former employer's qualified plans.

Each year, the Employer will determine the amount, if any of matching contributions, which will be contributed to the Plan, however participant contributions in excess of 6% of pretax annual compensation, as defined in the Plan, are not matched by the Employer. The participant must be employed as of the last day of the Plan year to be eligible for any matching contributions made for that Plan year.

In no event shall the contributions credited to a participant's account for any Plan year, either separately or when combined with the Employer contributions, exceed the allowable deduction for federal income tax purposes.

**Automatic Enrollment Contributions**

Effective August of 2007, each eligible employee hired by the Employer is automatically enrolled in the Plan, unless the employee makes an affirmative election not to enroll. The employee is enrolled to contribute 3% of their eligible compensation to the Plan, which will increase 1% annually on January 1<sup>st</sup> (after the employee has been participating in the Plan for at least six months), not to exceed 6%, unless the participant specifies an election percentage.

**Participant Accounts**

Each participant's account is credited with that participant's contributions and allocations of a) the Employer contribution, if any, and b) Plan earnings. Allocations are based on participant's earnings or account balances, as

defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The net investment gain or loss for each of the investment assets is allocated daily to each participant's elective accounts in the proportion to which each such account bears to the total of all such asset accounts.

**First Industrial, L.P. 401(k) Plan  
Notes to Financial Statements  
December 31, 2007 and 2006**

**Vesting**

All participant and Employer contributions and earnings thereon are fully and immediately vested.

**Participant Loans**

Within the limits of IRS regulations, which change from time-to-time, a loan may be requested for any reason by a participant. The minimum loan is \$1,000. The maximum loan is generally limited to the lesser of:

(1) 50% of the participant's vested account balance, or

(2) \$50,000, minus the highest outstanding loan balance in the prior 12 months.

The loan repayment period is set at a maximum of 5 years except in the case of a loan for the purpose of acquiring a principal residence, in which case the loan may be repaid over 10 years. Participants may only have one loan outstanding at any time. The Plan administrator sets the rate of interest which, in general, approximates the prevailing interest rates charged by lending institutions for loans which would be made under similar circumstances. The interest rate remains fixed throughout the duration of the loan. Upon termination with the Employer, the loan is due immediately. Outstanding loan balances may be paid off at any time while employed by the Employer; partial pre-payments are not permitted.

**Payment of Benefits**

Upon termination of service due to death, disability, and retirement or due to other reasons, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his/her account or be paid in periodic payments if the account balance exceeds \$5,000. If a participant terminated employment and the account balance is less than \$5,000, a lump sum payment will be made unless the participant chooses to make a direct rollover into another eligible retirement plan. The participant is required by law to receive a minimum required distribution from the Plan, unless he/she is a 5% owner of the Employer, no later than April 1 following the year he/she reaches 70 1/2 years old. A 5% owner of the Employer must receive a minimum distribution no later than April 1 of the calendar year following the calendar year he/she turns 70 1/2 years old.

**Administrative Expenses**

Certain professional fees and administrative expenses incurred in connection with the Plan are paid by the Employer. Loan processing fees are paid by the participant and deducted from their Plan assets.

**2. Significant Accounting Policies**

**Basis of Presentation**

The financial statements of the Plan are prepared under the accrual method of accounting.

**Valuation of Investments and Income Recognition**

Shares of registered investment funds and common stock are stated at fair value as determined by quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The Plan's interest in the collective trust is valued based on its proportionate share.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of investments are reflected on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

**First Industrial, L.P. 401(k) Plan**  
**Notes to Financial Statements**  
**December 31, 2007 and 2006**  
**Contract Value**

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans ( the FSP )*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts held in the collective trust as well as the adjustment of the fully benefit-responsive investment contracts held in the collective trust from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

**Participant Loans**

Participant loans are stated at amortized cost. Differences, if any, from fair value are not considered material in relation to net assets. At December 31, 2007 and 2006, there were no loans in default that exceeded the participants' vested account balances.

**Payment of Benefits**

Benefits are recorded when paid.

**Use of Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

**Risks and Uncertainties**

The Plan provides for various investment options in any combination of stock and mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

**3. Investment Contracts**

The Plan invests in a collective trust fund. Fidelity Managed Income Portfolio, the collective trust, may invest in various benefit-responsive investment contracts, such as short and long-term investment contracts issued by insurance companies (GICs), investment contracts issued by commercial banks (BICs), synthetic investment

contracts or wrap contracts, comprising underlying assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and a wrapper contract issued by a third party, and cash equivalents represented by units of a money market portfolio (collectively, the investment contracts ).

**First Industrial, L.P. 401(k) Plan**  
**Notes to Financial Statements**  
**December 31, 2007 and 2006**

As described in Footnote 1, because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the investment contracts. Therefore, investments in GICs, BICs and wrap contracts are valued at contract value, which represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the collective trust to transact at contract value with the issuer. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average yield of the investment contracts based on interest rate credited to participants was approximately 4.37% and 4.08% at December 31, 2007 and 2006, respectively.

**4. Investments**

The investment assets of the Plan as of December 31, 2007 and 2006 were held, and all transactions therein were executed by the Trustee, under terms of the trust agreement.

Participants in the Plan may direct the Trustee to invest their account balances in one or more of twenty-two investment options, including First Industrial Realty Trust, Inc. common stock. The following is a summary of those investments held at December 31, 2007 and 2006 that individually exceed five percent of net assets available for benefits:

	<b>2007</b>	<b>2006</b>
Fidelity Managed Income Portfolio	\$1,398,088 *	\$1,254,064 *
Fidelity Balanced Fund	2,143,679	1,744,753
Fidelity Equity-Income Fund	2,063,900	1,783,074
Fidelity Spartan U.S. Equity Index Fund	3,057,919	2,617,701
Fidelity Dividend Growth Fund	2,308,460	2,065,984
Baron Asset Fund	2,157,065	1,811,727
Fidelity Diversified International Fund	2,791,937	1,835,658
Fidelity Real Estate Investment Portfolio	1,185,709	1,739,939

\* Investment is stated at contract value for the years ended December 31, 2007 and 2006, rather than fair value.

During 2007, the Plan's common stock and registered investment funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$(269,606) and \$(438,774), respectively. During 2006, the Plan's common stock and registered investment funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$141,381 and \$1,286,575, respectively.

**First Industrial, L.P. 401(k) Plan  
Notes to Financial Statements  
December 31, 2007 and 2006**

**5. Plan Termination**

Although the Employer has reserved the right to amend or terminate the Plan, it was established with the intention that the Plan and the payment of contributions will be indefinite. In the event of termination, each participant or beneficiary, as the case may be, is entitled to receive any amounts credited to his or her accounts in the Plan, provided, however, that the Employer is not required to effect such distribution until written evidence of approval of such termination and distribution has been received from the Commissioner of the IRS. Presently, there is no intention on part of the Employer to terminate the Plan.

**6. Tax Status**

The IRS has determined and informed the Employer by letter dated August 11, 2004, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ( IRC ). Accordingly, the Plan administrator believes that the Plan is designed and is currently being operated in accordance with the requirements of Section 401(a) of the Internal Revenue Code. Therefore, no provision for income taxes has been recorded by the Plan.

During 2007 and 2008, the Company identified inconsistencies between the employees participating in the Plan and those defined as an eligible class under the Plan. Therefore, the Company executed retroactive amendments to the Plan, effective May 22, 1997, to include First Industrial Investment, Inc. (inclusive of any former entity names), a wholly owned subsidiary of the Company, as a related employer whose employees are included in the eligible class of participants under the Plan. The Company is in the process of submitting an application to the IRS under the Voluntary Correction Program for approval of the correction. The error correction is not expected to have a significant impact on the Plan.

**7. Party-in-Interest Transactions**

Certain Plan investments are shares of mutual funds managed by the Trustee and common stock of First Industrial Realty Trust, Inc., an affiliate of the Employer. Additionally, certain participants have loans outstanding to the Plan. Therefore, these transactions qualify as party-in-interest transactions.

Administrative expenses paid by the Plan for the years ended December 31, 2007 and 2006 were \$2,641 and \$1,399, respectively. Expenses incurred by the Employer to the Trustee for recordkeeping and investment management services were \$46,933 and \$44,868 for the years ended December 31, 2007 and 2006, respectively.

**8. Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	<b>December 31, 2007</b>
Net assets available for benefits per the financial Statements	\$ 22,739,010
Less: Adjustments from fair value to contract value for fully benefit-responsive investment contracts	(15,030)
Net assets available for benefits per the Form 5500	\$ 22,723,980

The following is a reconciliation of investment income per the financial statements to the Form 5500:

	<b>December 31, 2007</b>
Total investment income per the financial statements	\$ 4,597,916
Less: Adjustments from fair value to contract value for fully benefit-responsive investment contracts	(2,551)
Total investment income per the Form 5500	\$ 4,595,365
