EXHIBITS

Exhibit Number

1.1 Announcement, dated June 15, 2001.

FORWARD-LOOKING STATEMENTS

Edgar Filing: CHINA MOBILE HONG KONG LTD /ADR/ - Form 6-K

The Announcement constituting Exhibit 1.1 to this Form 6-K contains certain forward-looking statements that are, by their nature, subject to significant risks and uncertainties. These forward-looking statements include, without limitation, statements relating to our capital costs, potential savings in our interest payment expenses and other statements relating to our future business development and financial performance. The words "anticipate", "believe", "estimate", "expect", "intend" and similar expressions, as they relate to us, are intended to identify certain of such forward-looking statements. We do not intend to update these forward-looking statements.

These forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. Actual results may differ materially from information contained in the forward-looking statements as a result of a number of factors, including, without limitation: any further restructuring of the telecommunications industry in mainland China; any changes in regulatory policies of the Ministry of Information Industry of China and other relevant government authorities, which could affect, among other things, the granting of any requisite government approvals, licences and permits, interconnection and transmission line arrangements, tariff policies, capital investment priorities and spectrum allocation; the effects of competition on the demand for and price of our cellular services; any changes in cellular and related technology, which could affect the viability and competitiveness of our cellular networks; and changes in political, economic, legal and social conditions in mainland China, including the Chinese government's specific policies with respect to new entrants in the telecommunications industry, foreign investment and entry of foreign companies into China's telecommunications market, economic growth, inflation, foreign exchange, and the availability of credit. In addition, our future network expansion and other capital expenditure and development plans are dependent on numerous factors, including, among others, our ability to obtain adequate financing on acceptable terms, the adequacy of currently available spectrum or the availability of additional spectrum, the availability of transmission lines and equipment, the availability of the requisite number of sites for locating network equipment on reasonable commercial terms, our ability to develop or obtain new technology and applications, and the availability of qualified management and technical personnel.
