Allied Holdings, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)

Note 1. Basis of Presentation
The unaudited consolidated financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The statements

contained herein reflect all adjustments, all of which are of a normal, recurring nature, which are, in the opinion of management, necessary to present fairly the financial condition, results of operations and cash flows for the periods presented. Operating results for the three and six month periods ended June 30, 2001 are not necessarily indicative of the results that may be expected for the year ended December 31, 2001. The interim financial statements should be read in conjunction with the financial statements and notes thereto of Allied Holdings, Inc. and Subsidiaries, (the Company) included in the Company s 2000 Annual Report on Form 10-K. Note 2. Long-Term Debt On September 30, 1997, the Company issued \$150 million of 8 5/8 %

senior notes
(the Notes)
through a
private
placement.
Subsequently,
the senior
notes were
registered with
the Securities
and Exchange
Commission.
The net
proceeds from
the Notes were
used to fund
the acquisition
of Ryder
Automotive
Carrier
Services, Inc.
and RC
Management
Corp., pay
related fees
and expenses,
and reduce
outstanding
indebtedness.
The Company's
obligations
under the
Notes are
guaranteed by
substantially
all of the
subsidiaries of
the Company
(the Guarantor
Subsidiaries).
Haul Insurance
Ltd.,
Arrendadora
de Equipo Para
el Transporte
de
Automoviles,
S. de R.L. de
C.V., Axis
Logistica, S.
de R.L. de
C.V. and Axis
Netherlands
C.V. do not
guarantee the
Company's
obligations
under the
Notes (the
Nonguarantor
Subsidiaries).
The following

condensed consolidating balance sheets, statements of operations and statements of cash flows present the financial statements of the parent company and the combined financial statements of the Guarantor Subsidiaries and Nonguarantor subsidiaries. The Guarantors are jointly and severally liable for the Company's obligations under the Notes and there are no restrictions on the ability of the Guarantors to make distributions to the Company.

Note 3. Comprehensive Income

The Company had a comprehensive loss of \$4.0 million for the second quarter of 2001 versus comprehensive income of \$5.5 million for the second quarter of 2000. For the first six months of 2001, the comprehensive loss was \$26.6 million, versus comprehensive income \$4.0 million for the first six months of 2000. The difference between comprehensive income and net income is the foreign currency translation adjustment, net of income taxes.

Note 4. Accounting for Derivative Instruments and Hedging Activities

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended, the statement establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded in the balance sheet as either an asset or liability measured at its fair value. SFAS No. 133 requires that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. Special accounting for qualifying hedges allows a derivative's gains and losses to offset related results on the hedged item in the income statement, and requires that a company must formally document, designate, and assess the effectiveness of transactions that receive hedge accounting.

From time to time, the Company enters into future contracts to manage the risk associated with changes in fuel prices. Gains and losses from fuel hedging contracts are recognized as part of fuel expense when the Company uses the underlying fuel being hedged. The Company does not enter into fuel hedging contracts for speculative purposes. At June 30, 2001, the Company did not have any outstanding fuel hedging contracts or other derivative instruments that fall under the provisions of SFAS No. 133.

Note 5. Recent Accounting Pronouncements

In June 2001 the Financial Accounting Standards Board approved Statement of Financial Accounting Standard No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 141 prospectively prohibits the pooling of interest method of accounting for business combinations initiated after June 30, 2001. SFAS No. 142 requires companies to cease amortizing goodwill that existed at June 30, 2001. The amortization of existing goodwill will cease on December 31, 2001. Any goodwill resulting from acquisitions completed after June 30, 2001 will not be amortized. SFAS No. 142 also establishes a new method of testing goodwill for impairment on an annual basis or on an interim basis if an event occurs or circumstances change that would reduce the fair value of a reporting unit below its carrying value. The adoption of SFAS No. 142 will result in the Company's discontinuation of amortization of its goodwill; however, the Company will be required to test its goodwill for impairment under the new

Table of Contents

standard beginning in the first quarter of 2002, which could have an adverse effect on the Company's future results of operations if an impairment occurs.

Note 6. Workforce Reduction Expense

During 2000, the Company recorded a pre-tax \$2.5 million workforce reduction charge related to terminating approximately 100 employees. During 2000, severance payments amounted to approximately \$0.9 million. During the first quarter of 2001, the Company recorded a pre-tax workforce reduction charge of \$5.0 million, and a pre-tax charge of \$0.6 million in the second quarter of 2001. These charges were related to the termination of approximately 85 employees. Severance payments during the first quarter of 2001 amounted to approximately \$1.9 million and severance payments during the second quarter of 2001 were approximately \$1.3 million. At June 30, 2001, approximately \$4.0 million is outstanding and included in accrued liabilities.

Note 7. Segment Reporting

In accordance with the requirements of SFAS No. 131, Disclosure About Segments of an Enterprise and Related Information, the Company has identified two reportable industry segments through which it conducts its operating activities: Allied Automotive Group and Axis Group. These two segments reflect the organization used by management for internal reporting. Allied Automotive Group is engaged in the business of transporting automobiles and light trucks from manufacturing plants, ports, auctions, and railway distribution points to automobile dealerships. Axis Group provides distribution, automobile inspection, auction, and logistics services for the automotive industry.

Note 8. Equity Investments

Axis Group has entered into three joint ventures for the purpose of managing the distribution of vehicles in the United Kingdom and Brazil. Axis Group initially invested \$10,395,000 in the ventures. The Company is accounting for the investments under the equity method of accounting with its share of the ventures' earnings or loss reflected as equity in earnings (loss) of joint ventures in the consolidated statements of operations. The related equity investments are included in other assets in the accompanying consolidated balance sheets.

Equity in earnings for these joint ventures is recorded net of income taxes in the

15

Table of Contents

consolidated statements of operations by the Company. Income taxes related to the joint ventures for the six months ended June 30, 2001, and 2000 were \$1,306,000 and \$1,153,000, respectively.

The majority of the Company's equity in earnings of joint ventures in 2001 was derived from its joint venture in the United Kingdom, Ansa Logistics Limited. Summarized financial information of Ansa Logistics Limited for the periods ended June 30, 2001 and 2000 (in thousands):

Note 9. Litigation

The Company is routinely a party to litigation incidental to its business, primarily involving claims for personal injury and property damage incurred in the transportation of vehicles. The Company does not believe that any of such pending litigation, if adversely determined, would have a material adverse effect on the Company.

The Company is defending two pieces of related litigation in the Supreme Court of Erie County, New York: Gateway Development & Manufacturing, Inc. v. Commercial Carriers, Inc., et al., Index No. 1997/8920 (the Gateway Case), and Commercial Carriers, Inc., v. Gateway Development & Manufacturing, Inc., et al. (the CCI Case), Index No. I2000/8184. The claims at issue in both the Gateway Case and the CCI Case center around the contention that the Company breached legal duties with

respect to a failed business transaction involving Gateway Development & Manufacturing, Inc., Ryder Truck Rental, Inc., and Ryder System, Inc. In the Gateway Case, the

Table of Contents

Company has sought and received summary judgment in its favor on the sole claim (for tortious interference with contract) asserted against it by Gateway Development & Manufacturing, Inc., but the court has permitted the filing and service of cross-claims against the Company by the other defendants in that action. In the CCI Case, the Company has accepted service of a separate complaint asserting claims against the Company that are virtually identical to the cross-claims asserted against the Company by the other defendants in

the Gateway Case. It is anticipated that the claims asserted in both the Gateway Case and the CCI Case will be resolved in a unified proceeding.

With respect to the entirety of this litigation, the Company intends to continue its vigorous defense against the claims asserted it, as management believes all of those claims are without merit.

While the ultimate results of this litigation cannot be predicted, management does not expect that the resolution of these proceedings will have a material adverse effect on the Company's consolidated financial position or results of operations.

Note 10. Reclassifications

Certain amounts in the prior year financial statements have been reclassified to conform with the current year presentation.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Revenues were \$250.2 million for the second quarter of 2001 versus revenues of \$295.9 million for the second quarter of 2000, a decrease of 15.4%. For the six-month period ended June 30, 2001, revenues were \$468.4 million, versus revenues of \$578.8 million for the six-month period ended June 30, 2000, a decrease of 19.1%. The decrease in revenues is primarily due to lower vehicle delivery volumes resulting from reduced new vehicle production.

The net loss was \$5.7 million during the second quarter of 2001 versus net income of \$6.9 million during the second quarter of 2000. Basic and diluted loss per share in the second quarter of 2001 were \$0.71, versus basic and diluted earnings per share of \$0.87 in the second quarter of 2000. For the six-month period ended June 30, 2001, the net loss was \$24.6 million, versus net income of \$5.9 million for the six-month period ended June 30, 2000. Basic and diluted loss per share for the six-month period ended June 30, 2001 were \$3.04 versus basic and diluted earnings per share of \$0.74 for the six-month period ended June 30, 2000. In April 2001 the Company

amended its revolving credit facility and its senior subordinated notes to avoid defaults relating to its financial covenants. The maturity date of the amended revolving credit facility has been accelerated from September 30, 2002 to January 31, 2002. The Company is engaged in discussions with a number of lenders to replace its revolving credit facility, and completion of the financing is anticipated by year-end. The Company expensed approximately \$0.5 million, or \$0.6 per share, of administrative costs related to the amendments during the first quarter of 2001 and expensed approximately \$1.0 million, or \$0.12 per share, of costs resulting from the amendments during the second quarter of 2001. As discussed above, the Company in

April 2001 negotiated amendments to certain affirmative, negative and financial covenants of the Revolving Credit Facility and the Senior Subordinated Notes. As a result of the amendments, the Company does not anticipate any covenant violations during 2001. There can be no assurance, however, that the Company will be able to comply with these or its other debt covenants or that, if it fails to do so, it will be able to obtain amendments to or waivers of such covenants. Failure of the Company to comply with covenants contained in its debt instruments, if not waived, or to adequately service debt obligations, could result in default under its debt instruments. Any default under the Company's debt instruments, particularly any default that results in acceleration of

indebtedness
or foreclosure
on collateral,
could have a
material
adverse effect
on the
Company.

Table of Contents

The following is a discussion of the changes in the Company's major expense categories: Salaries, wages and fringe benefits increased from 52.1 % of revenues in the second quarter of 2000 to 56.2 % of revenues in the second quarter of 2001, and from 53.4% of revenues for the first six months of 2000 to 58.1% of revenues for the first six months of 2001. The increase was due in part to severance charged to expense of \$4.3 million in the first quarter of 2001 and \$0.6 million in the second quarter of 2001 that was part of the Company's workforce and overhead

reduction program, as well as annual wage increases for remaining employees. In addition, the significant drop in vehicle deliveries caused operating inefficiencies that increased salaries, wages, and fringe benefits as a percentage of revenues. Operating supplies and expenses decreased from 16.3% of revenues in the second quarter of 2000 to 15.3% of revenues in the second quarter of 2001, and decreased from 17.3% for the first six months of 2000 to 17.0% for the first six months of 2001. The decrease was due primarily to a decrease in parts and maintenance expense related to vigorous expense reduction programs and decreasing volumes, combined with lower fuel costs. Purchased transportation increased

from 9.9% of revenues in the second quarter of 2000 to 11.5% of revenues in the second quarter of 2001, and increased from 9.8% of revenues for the first six months of 2000 to 11.1% of revenues for the first six months of 2001. As volumes decline, units are hauled by drivers with the highest seniority. The number of owner operators stayed relatively constant from year to year while the number of company drivers decreased, resulting in higher purchased transportation for 2001 compared to 2000. Insurance and claims expense increased from 4.4% of revenues in the second quarter of 2000 to 5.5% of revenues in the second quarter of 2001, and increased from 4.3% of revenue for the first six months of

2000 to 5.8% of revenues for the first six months of 2001. The increase was a result of an increase in cargo claims expense and costs related to higher auto, general liability and property insurance premiums that were unaffected by the decline in vehicles delivered. Depreciation and amortization expense increased from 5.2% of revenues in the second quarter of 2000 to 6.1% of revenues in the second quarter of 2001, and increased from 5.3% of revenues for the first six months of 2000 to 6.5% of revenues for the first six months of 2001. The increase as a percentage of revenues was due primarily to a sharp decline in vehicles delivered which reduced revenues. Depreciation and amortization expense stayed relatively

constant in 2001 versus 2000; depreciation and amortization expense was \$15.3 million in the second quarter of 2001 and \$15.4 million in the second quarter of 2000, and \$30.3 million for the first six months of 2001 versus \$30.6 million for the first six months of 2000. Gain on sale of assets increased from \$91,000 in the second quarter of 2000 to \$2,576,000 in the second quarter of 2001, and increased from a loss of \$12,000 for the first six months of 2000 to a gain of \$2,743,000 for the first six months of 2001. The increase was due primarily to the disposition of excess real estate and other assets in Canada during the second quarter of 2001.

Table of Contents

Interest expense increased from 2.8% of revenues during the second quarter of 2000 to 3.8% of revenues in the second quarter of 2001, and increased from 2.9% of revenues for the first six months of 2000 to 3.8% of revenues for the first six months of 2001. The increase was due to higher interest rates in 2001 versus 2000, higher long-term debt levels and additional costs related to the amendment of the Company's revolving credit facility and its senior subordinated notes.

Financial Condition, Liquidity and Capital Resources

Net cash provided by operating activities totaled \$16.6 million for the six-month period ended June 30, 2001, versus \$27.1 million provided by operating activities for the six-month period ended June 30, 2000. The decline in cash provided by operating activities was due primarily to reduced earnings during the first six months of 2001 versus 2000, offset with a favorable change in operating assets and liabilities as the Company has implemented measures to improve asset utilization.

Net cash used in investing activities totaled \$15.5 million for the six-month

period ended
June 30, 2001,
versus
\$29.3 million
for the
six-month
period ended
June 30, 2000.
The decrease
was due
primarily to the
purchase of CT
Group, a
logistics
service group,
in February
2000 for
\$8.2 million,
combined with
a change in the
investment
portfolio mix
of the
Company's
captive
insurance
company
which
increased
short-term
investments by
\$11.9 million
and reduced
cash and cash
equivalents by
a like amount
in 2000. These
changes were
offset by an
increase in
capital
spending in the
first six months
of 2001 versus
2000. The
increase is due
to the timing of
capital
expenditures.
In 2000, capital
expenditures of
\$32.3 million
were weighted
to the last half
of the year.
Planned capital
expenditures
have been
reduced to
\$20-25 million
for 2001. As
vehicle

delivery volumes have declined, older rigs have been taken out of service and not replaced, which will allow the Company to reduce capital expenditures without materially increasing the average age of the fleet. The number of active rigs declined from 4,867 rigs in the second quarter of 2000 to 4,222 rigs in the second quarter of 2001. Net cash provided by financing activities totaled \$11.4 million for the six-month period ended June 30, 2001, versus cash used by financing activities of \$6.8 million for the six-month period ended June 30, 2000. The increase was due to an increase in borrowings during 2001 as a result of the lower operating cash flow.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Disclosures About Market Risks

The market risk inherent in the Company's market risk sensitive instruments and positions is the potential loss arising from adverse changes in short-term investment prices, interest rates, fuel prices, and foreign currency exchange rates.

Table of Contents**Short-term****Investments**

The Company does not use derivative financial instruments in its investment portfolio. The Company places its investments in instruments that meet high credit quality standards, as specified in the Company's investment policy guidelines. The policy also limits the amount of credit exposure to any one issue, issuer, and type of instrument. Short-term investments at June 30, 2001, which are recorded at fair value of \$62.5 million, have exposure to price risk. This risk is estimated as the potential loss in fair value resulting from a hypothetical 10% adverse change in quoted prices and amounts to \$6.3 million.

Interest Rates

The Company primarily issues long-term debt obligations to support general

corporate purposes including capital expenditures and working capital needs. The majority of the Company's long-term debt obligations bear a fixed rate of interest. A one-percentage point increase in interest rates affecting the Company's floating rate long-term debt would reduce pre-tax income by \$1.5 million over the next fiscal year. A one-percentage point change in interest rates would not have a material effect on the fair value of the Company's fixed rate long-term debt. **Fuel Prices** The Company is dependent on diesel fuel to operate its fleet of rigs. Diesel fuel prices are subject to fluctuations due to unpredictable factors such as weather, government policies, changes in global demand, and global production. To reduce price risk caused by market fluctuations, the Company generally follows a policy of hedging a

portion of its anticipated diesel fuel consumption. The instruments used are principally readily marketable exchange traded futures contracts that are designated as hedges. The changes in market value of such contracts have a high correlation to the price changes of diesel fuel. Gains and losses resulting from fuel hedging transactions are recognized when the underlying fuel being hedged is used. A 10% increase in diesel fuel prices would reduce pre-tax income by \$5.0 million over the next fiscal year. At June 30, 2001, the Company did not have any outstanding fuel hedging contracts.

**Foreign
Currency
Exchange
Rates**

Although the majority of the Company's operations are in the United States, the Company does have foreign subsidiaries (primarily Canada). The net investments

in foreign subsidiaries translated into dollars using exchange rates at June 30, 2001, are \$100.5 million. The potential loss in fair value impacting other comprehensive income resulting from a hypothetical 10% change in quoted foreign currency exchange rates amounts to \$10.1 million. The Company does not use derivative financial instruments to hedge its exposure to changes in foreign currency exchange rates.

Seasonality and Inflation

The Company's revenues are seasonal, with the second and fourth quarters generally experiencing higher revenues than the first and third quarters. The volume of vehicles shipped during the second and fourth quarters is generally higher due to the introduction of new models which are shipped to dealers during those periods and the higher spring and early

summer sales of
automobiles
and light trucks.
During the first
and third

Table of Contents

quarters, vehicle
shipments typically
decline due to
lower sales volume
during those
periods and
scheduled plant
shut downs.
Inflation has not
significantly
affected the
Company's results
of operations.

**Cautionary Notice
Regarding
Forward-Looking
Statements**

Statements in this
quarterly report on
Form 10-Q
contains
forward-looking
statements,
including
statements
regarding, among
other items, (i) the
Company's plans,
intentions or
expectations,
(ii) general industry
trends, competitive
conditions and
customer
preferences,
(iii) the Company's
management
information
systems, and its
ability to resolve
any Year 2000
issues related
thereto (iv) the
Company's efforts
to reduce costs,
(v) the adequacy of
the Company's
sources of cash to
finance its current

and future operations and (vi) resolution of litigation without material adverse effect on the Company. This notice is intended to take advantage of the safe harbor provided by the Private Securities Litigation Reform Act of 1995 with respect to such forward-looking statements. These forward-looking statements involve a number of risks and uncertainties. Among others, factors that could cause actual results to differ materially are the following: economic recessions or downturns in new vehicle production or sales; the highly competitive nature of the automotive distribution industry; dependence on the automotive industry; loss or reduction of revenues generated by the Company's major customers; the variability of quarterly results and seasonality of the automotive distribution industry; labor disputes involving the Company or its significant customers; the dependence on key personnel who have been hired or retained by the Company; the availability of strategic acquisitions or joint venture partners; changes in

regulatory requirements which are applicable to the Company's business; changes in vehicle sizes and weights which may adversely impact vehicle deliveries per load; the ability to increase the rates charged to customers; risks associated with doing business in foreign countries; problems related to information technology systems and computations that must be made by the Company or its customers and vendors in 2000, 2001 or beyond; and the risk factors listed herein from time to time in the Company's Securities and Exchange Commission reports, including but not limited to, its Annual Reports on Form 10-K or 10-Q.

PART II

OTHER INFORMATION

Item 4. Submission of Matters to a Vote of Security Holders

On May 15, 2001 the Annual Meeting of Shareholders was held. The following Directors were elected for terms that will expire on the date of the annual meeting in the year indicated below. The number of shares voted for, against and abstentions are also indicated.

Proposal I (Election of Directors)

FOR	AGAINST	TERM
------------	----------------	-------------

Edgar Filing: ALLIED HOLDINGS INC - Form 10-Q

Joseph W. Collier	5,897,245	80,537	2004
Guy W. Rutland, IV			
5,867,672 110,110 2004			
Berner F. Wilson, Jr.			
5,902,905 74,876 2004			

The following Directors terms will continue as indicated.

Robert J. Rutland	2003
William P. Benton	
2003	
David G. Bannister	
2003	
Bernard O. De Wulf	
2002	
Guy W. Rutland, III	
2002	
Robert R. Woodson	
2002	
Hugh E. Sawyer	
2003	

Proposal II (Amend the Company s Employee Stock Purchase Plan to increase the number of shares subject to the Plan by 350,000)

FOR	AGAINST	ABSTAIN
6,338,666	144,620	10,317

Proposal III (To appoint Arthur Andersen LLP as independent public accountants)

FOR	AGAINST	ABSTAIN
6,454,218	37,560	1,824

Item 5. Other Information.

On June 18, 2001, Hugh E. Sawyer joined the Company as President and Chief Executive Officer and as a member of the Board of Directors. Mr. Sawyer entered into an employment agreement with the Company which is included as an exhibit to this report.

Table of Contents

On July 13, 2001, the Company announced that it had been advised by the New York Stock Exchange (NYSE) that the Company currently falls below the continued listing standard requiring stockholders equity of not less than \$50 million and total market capitalization of not less than \$50 million.

As required by the NYSE, Allied has submitted a detailed plan to the Listing and Compliance Committee of the NYSE demonstrating how the Company plans to be in compliance with the continued listing standard on or before November 29, 2002, the deadline set by the NYSE. Based on internal estimates, and execution of planned corporation transactions, Allied believes it will satisfy the continued listing standard by the NYSE deadline. After reviewing the plan, the Committee will either accept it (following which the Company will be subject to quarterly

Edgar Filing: ALLIED HOLDINGS INC - Form 10-Q

monitoring for compliance with the plan) or not (in which event the Company will be subject to NYSE trading suspension and delisting). Should the Company's shares cease being traded on the NYSE, the Company believes that an alternative trading venue will be available.

Item 6. Exhibits and Reports on Form 8-K.

- a) Exhibits 10.1 Employment agreement between the Company and Hugh E. Sawyer Dated June 18, 2001
- b) Reports on Form 8-K: None
