NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2004

**NOTE 1 DESCRIPTION OF THE PLAN**

The following description of the Bright Horizons (the Company) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more comprehensive description of the Plan's provisions.

1. *General* The Plan is a defined contribution plan that is available to all eligible union members employed at UAW-GM Flint and UAW-Ford Family Center locations of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The rules of Form 11-K require financial statements to be examined to the extent required by ERISA. ERISA does not require plans that have less than 100 participants as of the beginning of the plan year to have the financial statements examined. Whereas the plan has less than 100 participants as of January 1, 2004, the financial information has not been examined by an independent registered public accountant.

2. *Eligibility*

- a. **UAW-GM Flint:** All employees are eligible to enter the plan on January 1, April 1, July 1 or October 1 once meeting the following requirements: completion of one year and 1,000 hours of continuous service, are at least 20.5 years of age, and they are in an eligible class of employees employed at the UAW-GM Flint location.
- b. **UAW-Ford Fam Ctr:** All employees are eligible to enter the plan on January 1, April 1, July 1 or October 1 following date of hire once meeting the following requirements: are at least 20.5 years of age, and they are in an eligible class of employees employed at a UAW-Ford Family Center location.

3. *Contributions* Participants are permitted to contribute up to 15% of pretax compensation up to a maximum of \$13,000 for the year ended December 31, 2004. Catch-up contributions are permitted for participants reaching age 50 during the Plan year.

Regular matching contributions can be made at the discretion of the company up to the following amounts for each location under the Plan:

Flint, MI location The Company will match tax-deferred contributions up to 5% of a Participant's compensation for each payroll period.

Family Center location The Company will match tax-deferred contributions up to 4.5% of a Participant's compensation for each payroll period not to exceed \$55,000 for the Plan year.

Each year the Company may also make a discretionary profit sharing contribution to the Plan based on a percentage of each participant's compensation which will be determined by management. For the Plan period ended December 31, 2004 the Company did not make a profit sharing contribution.

**NOTE 1 DESCRIPTION OF THE PLAN (continued)**

4. *Vesting* Employees are immediately vested in their own contributions and related earnings. Company contributions to participants and earnings thereon are vested based on location. Participants at the Family Center location are vested 20% after the second year of employment, 50% after three years and 25% for each year thereafter, such that the participant is 100% vested after five years of continued employment. Participants at the Flint, MI location are vested 20% after the first year of employment and 20% for each year thereafter, such that the participant is 100% vested after five years of continued employment.

5. *Participant Accounts* Each participant's account is credited with the participant's contributions and earnings (losses); thereon, and an allocation of the Company's contributions and Plan earnings. Allocations of earnings (losses) are based on account balances, as defined. Employer profit sharing contributions are allocated based on employee compensation amounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Each participant directs the investment of his or her account balance in the various investment funds of the Plan.

6. *Forfeitures* The distribution and allocation of Company profit sharing and matching contributions forfeited are first made available to reinstate previously forfeited Company profit sharing or matching contributions account balances of rehired, former participants provided certain provisions in the Plan Agreement are met. The remaining forfeitures are used to reduce Company matching contributions or to reduce Plan expenses for the Plan year in which such forfeitures occur. At December 31, 2004, there were no forfeited amounts.

7. *Payment of Benefits* On termination of service due to death, disability or retirement, each participant is entitled to 100% of his or her account balance. Upon termination of employment for reasons other than death, disability or retirement, each participant is entitled to distributions based upon the vested portion of his or her account valuation determined as of the last day of the Plan year. In addition, participants can withdraw their deferred compensation balance in the event of certain hardship circumstances, as defined. Payment of benefits is made either in one lump sum, installments, or joint and survivor annuity.

8. *Participant Loans* Participants may borrow a minimum of \$1,000 and a maximum of the lesser of 50% of the vested account balance or \$50,000. Interest rates on outstanding loans must be reasonable and similar to the rate charged by persons in the business of lending money. Loans must be repaid within five years, unless the loan is taken for the purchase of a primary residence, which may be repaid over a period not to exceed 30 years. Participants repay principal and interest through payroll deductions. If participants are terminating or retiring, they will have the choice of repaying the loan or having the loan offset from their account. The offset loan amount will be considered a taxable distribution.

DECEMBER 31, 2004

**NOTE 2 SUMMARY OF ACCOUNTING POLICIES**

**Basis of Accounting** The financial statements of the Plan are prepared under the accrual method of accounting.

**Use of Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

**Investment Valuation and Income Recognition** The Plan's investments, except the investments in the guaranteed investment contracts, are valued at fair value based upon the quoted market prices of the underlying securities within each fund at December 31, 2004. The investments in the guaranteed investment contracts are presented at contract value, which approximates fair value, as Plan management has determined that the investment contracts are fully benefit responsive. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. The crediting interest rate and the average return of the investment contracts held by the guaranteed investment contract at December 31, 2004 was 4.0%. The interest rates on the guaranteed investment contracts are reset on a semi-annual basis. Participant loans are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

**Payment of Benefits** Benefits are recorded when paid.

**Administrative Expenses** Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as deductions.

**Plan Termination** Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
