The Board of Directors has established, among other committees, an Audit Committee and a Compensation and Stock Option Committee of the Board. Such recommendations should be sent to the Company, to the attention of the Chairman of the Board.

The current members of the Audit Committee are Robert M. Melzer (Chairman), T. Michael Long and Philip J. Ringo. The Audit Committee makes recommendations to the Board regarding the selection of the Company's independent auditors, reviews the scope of audit and other services by the Company's independent auditors, reviews the accounting principles and auditing practices and procedures to be used for the Company's financial statements and reviews the results of those audits, and reviews, with the Company's independent auditors, the Company's financial statements and internal accounting procedures, the independent auditor's auditing procedures and fees, and the possible effects of professional services upon the independence of the Company's independent auditor. **Directors' Compensation**

During 2001, the Company paid to, accrued for or deferred for its non-employee directors under the Deferred Stock Plan cash directors' fees aggregating \$160,650. Such fees consisted of \$15,000 annually (payable quarterly), \$1,500 per Board meeting attended, \$500 per Board Committee meeting attended, and \$250 per Board or Committee meeting attended by telephone. All of the Company's directors other than Mortimer B. Fuller, III qualify for such payments, accruals or deferrals. The Company also reimburses its directors for travel expenses in connection with attendance at Board meetings.

Under the Deferred Stock Plan, each non-employee director may elect to be paid all or a portion of his cash directors' compensation instead in units representing shares of Class A Common Stock. Each participating director's Deferred Stock Plan account is credited with 125% of the cash compensation he elects to defer under the Deferred Stock Plan. Dividends (if any) payable on the Class A Common Stock are likewise credited as additional units in the Deferred Stock Plan accounts, and the number of units in the Deferred Stock Plan accounts are subject to customary anti-dilution adjustments. A non-employee director is not entitled to vote, and does not have any other indicia of ownership of, the Class A Common Stock represented by the units in his Deferred Stock Plan account until those units are paid out to him in shares. Such shares will be paid out to the participating director or his designated beneficiaries (i) on the deferred payment date previously elected by him or (ii) if earlier, upon his death, long-term disability or cessation of service as a director of the Company. An aggregate of 112,500 shares of Class A Common Stock are available for issuance under the Deferred Stock Plan.

The actual before-tax amount, if any, realized upon the exercise of stock options will depend upon the excess, if any, of the market price of the Class A Common Stock over the option exercise price per share at the time the option is exercised. There is no assurance that the hypothetical grant date present values of the options reflected on the table will be realized.

**Severance and Other Agreements**

The Company is a party to agreements with each of its 12 current executive officers which provide that upon termination of the officer's employment with the Company within three years after a defined change in control of the Company, the officer will receive a cash amount equal to three times the average annual compensation payable to him by the Company during the immediately preceding five years. The agreements provide for reduction of the amounts paid pursuant thereto to the extent that such amounts would otherwise be non-deductible to the Company under Section 280G of the Internal Revenue Code of 1986, as amended (the Code).

In addition, pursuant to an Assignment Letter effective November 1, 1998 executed by the Company and Charles W. Chabot in connection with his assignment to Australia, the Company has agreed that if Mr. Chabot is still employed by the Company when his foreign assignment ends, he will, at the Company's discretion, be placed in a comparable position with the Company or given two years' salary continuation. The Assignment Letter also provides Mr. Chabot with a base salary of at least \$200,000 per year, housing, a foreign living allowance, travel expenses, relocation expenses and tax equalization payments in connection with his foreign assignment. Mr. Chabot ended his foreign assignment in February, 2002, and returned to the United States where he will continue as a senior officer of the Company.

**Report of the Compensation Committee With Respect to Executive Compensation**

The following discussion applies to the compensation of all of the Company's executive officers, including Mortimer B. Fuller, III, the Chief Executive Officer, and the other Named Executives.

***Executive Compensation Philosophy:***

The goals of the Company's executive compensation program are to align compensation with business objectives and performance, and to enable the Company to attract, retain and reward executives who contribute to the long-term success of the Company and its operating regions and to increasing stockholder value. The Company attempts to compensate its executives competitively. To ensure that compensation is competitive, the Company periodically compares its compensation practices with those of comparable companies and adjusts its compensation parameters, if necessary, based on this review. More importantly, the Company's executive compensation program relies to a great degree on incentive compensation, both annual and long-term.

Executives are rewarded based upon Company-wide performance, regional performance (in the case of executives who are regional managers) and individual performance. Company-wide performance and regional performance are evaluated by reviewing the extent to which strategic and business plan objectives are met, including such factors as achieving operating profit and operating efficiencies. For example, pre-determined levels of profitability must be met before any incentive compensation is paid, so that every executive is motivated to achieve profitability for his region (or, in the case of executives who are not regional managers, for the Company as a whole). Individual performance is evaluated by reviewing each executive's performance against set annual objectives.

***Executive Compensation Program:***

The Company's executive compensation program is structured to attract and retain key executives capable of increasing revenues, promoting innovation, fostering teamwork and motivating employees, all with the ultimate goal of improving profitability and enhancing stockholder value. The Company's executive compensation program currently consists of annual salary, annual incentive compensation in the form of cash bonuses, and long-term incentive compensation in the form of stock options.

## **Table of Contents**

*Salaries.* The annual cash compensation paid to executives consists of base salary and cash bonuses. Salaries are reviewed by the Compensation Committee at the end of each year and may be changed at that time based on recommendations of the Chief Executive Officer. Factors considered are an executive's performance, changes in competitive compensation levels and changes in the executive's responsibilities in the Company.

*Bonuses.* Annual incentive compensation in the form of cash bonuses are awarded under the Company's cash bonus plan. Under this plan, the Company awards annual bonuses to certain key employees (including the 12 current executive officers) based on pre-tax earnings targets and the meeting of individual performance objectives.

At the beginning of each year, each executive officer provides the Chief Executive Officer or the Chief Operating Officer with his individualized objectives for the year, which include financial, business and operational goals (for example, an improved safety program). The Chief Executive Officer or the Chief Operating Officer reviews, modifies (if necessary) and approves each executive's individual objectives, and during the year he gives executives ongoing feedback on their progress in meeting those objectives. After the end of each year, the Chief Executive Officer or the Chief Operating Officer evaluates each executive's accomplishment of his objectives and provides performance appraisals to the Compensation Committee. The Chief Executive Officer also provides the Compensation Committee with his recommendations for each executive's cash bonus for the year just ended, which are based on (i) the Company's financial performance for the year, (ii) in the case of an executive who is a regional manager, his region's financial performance for the year, and (iii) the executive's success in meeting his objectives for the year. The performance appraisals and the Chief Executive Officer's recommendations are considered by the Compensation Committee in deciding the amount of each executive's bonus (if any) for the year just ended. Similar objective-setting, feedback and evaluation with respect to the Chief Executive Officer's performance and recommended bonus compensation is provided by the Chairman of the Compensation Committee.

Maximum bonus percentages under the cash bonus plan currently range from 15% to 70% of annual salary. The maximum bonus percentage assigned to each executive depends on the degree to which he is responsible for financial results. In addition, the Compensation Committee has discretion to award cash bonuses outside the parameters of the cash bonus plan in the case of extraordinary performance by an executive. In 2001, the Compensation Committee approved additional bonus amounts for the performance contributions of cross-functional teams. Based on the Company's financial performance in 2001 and their respective individual and team performances, the Chief Executive Officer and all of the other executive officers were awarded cash bonuses for 2001 aggregating \$1,036,550.

*The Option Plan.* Long-term incentives are provided through the grant of stock options under the Option Plan. For a description of the Option Plan, see PROPOSAL TO AMEND THE 1996 STOCK OPTION PLAN below.

The Compensation Committee views stock options as a means of aligning the long range interests of key employees, including executives, with those of the stockholders by providing them with the opportunity to build a meaningful stake in the Company. Options are granted at the discretion of the Compensation Committee based on its evaluation of each key employee's contribution and expected future contribution to the Company's financial success. In 2001, the Compensation Committee granted to 159 employees (including 11 of the executive officers) options to purchase an aggregate of 330,977 shares of Class A Common Stock. See EXECUTIVE COMPENSATION STOCK OPTIONS above.

*401(k) Savings Plan.* Executive and other employees are also entitled to participate in the Company's 401(k) Savings Plan, which provides retirement, death and disability benefits to employees and includes both employer and employee contributions.

### ***Chief Executive Officer Compensation:***

The key performance measure used to determine the 2001 compensation package for Mortimer B. Fuller, III was the Compensation Committee's assessment of his ability and dedication to provide the leadership and vision necessary to enhance the long-term value of the Company.

Mr. Fuller has no employment agreement with the Company. The Compensation Committee fixes Mr. Fuller's salary each year based on its evaluation of Mr. Fuller's performance during the prior year and the

**Table of Contents**

challenges the Compensation Committee believes the Company and its Chief Executive Officer will face in the coming year. The Compensation Committee fixed Mr. Fuller's salary for 2001 at \$510,000. The Compensation Committee believes that Mr. Fuller's salary is fixed at a level that is comparable to the base salaries paid to other chief executive officers with comparable qualifications, experience, responsibilities and proven results at comparable companies engaged in similar businesses.

Consistent with the Company's executive compensation philosophy, Mr. Fuller's total compensation package depends to a large degree on annual and long-term incentive compensation. The annual incentive component is currently made up of a cash bonus under the Company's cash bonus plan, which is paid after the end of the year and is based on the profitability of the Company and Mr. Fuller's individual performance. The long-term incentive component currently takes the form of the grant of stock options under the Option Plan. Both the annual and long-term components of Mr. Fuller's incentive compensation are variable and closely tied to corporate performance in a manner that encourages dedication to building profitability and stockholder value.

In evaluating the performance and setting the compensation of Mr. Fuller as the Company's Chief Executive Officer, the Compensation Committee noted several accomplishments in 2001. Specifically, the Company acquired all of the issued and outstanding shares of common stock of South Buffalo Railway from Bethlehem Steel Corp., negotiated and executed a stock purchase agreement for the purchase by the Company of The Emons Transportation Group, Inc. (which transaction closed on February 22, 2002), successfully completed a public offering of 3,862,500 split-adjusted shares of its Class A Common Stock, and integrated into the Company the operations of ARG and those other businesses acquired by the Company in prior years.

The Compensation Committee views these accomplishments as attributable in large measure to Mr. Fuller's leadership, vision and hard work. In addition, Mr. Fuller has continued to expand the Company's top management team and has established a strong record of innovation, quality improvement and efficiency.

Mr. Fuller's annual and long-term incentive compensation package for 2001 included a cash bonus in the amount of \$355,400 and the grant of options to purchase 56,250 shares of Class A Common Stock. Mr. Fuller's compensation package has successfully focused on the importance of increasing profitability and stockholder value by providing him with significant short-term and long-term incentive compensation during periods when performance objectives have been met or exceeded.

**Insider Participation in Compensation Committee**

The Chief Executive Officer of the Company consults with the Compensation Committee. He participates in discussions of the Compensation Committee and makes recommendations to it, but he does not vote or otherwise participate in the Compensation Committee's ultimate determinations. The Board of Directors believes that it is wise and prudent to have the Chief Executive Officer so participate in the operations of the Compensation Committee because his evaluations and recommendations with respect to the compensation and benefits paid to executives other than himself are extremely valuable to the Compensation Committee. However, the Chief Executive Officer neither participates in nor is otherwise involved in the deliberations of the Compensation Committee with respect to his own compensation and benefits.

**REPORT OF THE AUDIT COMMITTEE  
TO STOCKHOLDERS**

The Audit Committee of the Board of Directors is comprised of three members of the Board of Directors, each of whom is independent pursuant to the Nasdaq National Market's listing standards. The duties and responsibilities of the Audit Committee are set forth in the Audit Committee Charter which was appended to the Proxy Statement for the Company's 2001 Annual Meeting of Stockholders. Among other things, the Audit Committee recommends to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K, and recommends the selection of the independent auditors to audit the Company's books and records.

The Audit Committee has:

reviewed and discussed the Company's audited financial statements for 2001 with the Company's management and with Arthur Andersen LLP, the Company's independent auditors for the year ending December, 2001;

discussed with the Company's independent auditors the matters required to be discussed by SAS 61 (Codification for Statements on Auditing Standards); and

received and discussed the written disclosures and the letter from the Company's independent auditors required by Independence Standards Board Statement No. 1 (Independent Discussions with Audit Committees).

Based on such review and discussions with management and the independent auditors, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for 2001 for filing with the SEC.

Further, the Audit Committee has recommended to the Company's Board of Directors that the Company not renew the engagement of Arthur Andersen LLP and has recommended to the Company's Board of Directors that it select PricewaterhouseCoopers LLP as the Company's independent auditors for the fiscal year ending December 31, 2002. This determination followed the Company's decision to seek proposals from independent accountants to audit the Company's financial statements for the fiscal year ending December 31, 2002. See **SELECTION OF INDEPENDENT AUDITORS** below.

**Auditors Fee**

**Audit Fees:** For professional services rendered by them for the audit of the Company's annual financial statements for 2001, and reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q for 2001, Arthur Andersen LLP billed the Company fees in the aggregate amount of \$391,000.

**Financial Information Systems Design and Implementation Fees:** Arthur Andersen LLP billed the Company no fees for professional services rendered in 2001 in connection with financial information systems design and implementation.

**All Other Fees:** For professional services other than those described above rendered by them in 2001, Arthur Andersen LLP billed the Company: (i) the aggregate amount of \$401,000 for audit-related services, including services related to acquisitions, a stock offering, benefit plans and comfort letters; and (ii) the aggregate amount of \$543,000 for other services, including tax compliance services and bonus plan consulting.

The Audit Committee has considered whether the provision of services described above under **All Other Fees** was compatible with maintaining the independence of Arthur Andersen LLP.

The Company, Mortimer B. Fuller, III, the other 11 executive officers of the Company (the Other Executives ) and all holders of the Class B Common Stock are parties to a Class B Stockholders Agreement dated as of May 20, 1996. Under that agreement, if a party proposes to transfer shares of Class B Common Stock in a transaction that will not result in the automatic conversion of those shares into shares of Class A Common Stock, the Other Executives have the right to purchase up to an aggregate of 50% of those shares, and Mr. Fuller has the right to purchase the balance, all at the then-current market price of the Class A Common Stock. C. Murray Benz, the wife of James W. Benz, an executive officer, is Vice President-Sales and Marketing of the Company's Rail Link, Inc. subsidiary. As such, in 2001 she received salary and benefits of \$128,786, \$33,500 of gain treated as compensation on the exercise and sale of options, and was granted a five-year option to purchase 3,375 shares of Class A Common Stock at \$10.5833 per share.

Pursuant to a Stock Purchase Agreement between the Company and the 1818 Fund dated October 19, 2000 (the Stock Purchase Agreement ), on December 12, 2000 the Company issued to the 1818 Fund 20,000 shares of Preferred Stock for a purchase price of \$20,000,000. As a condition to the transaction, Mortimer B. Fuller, III, the Company and the 1818 Fund entered into a letter agreement (the Letter Agreement ) under which Mr. Fuller has agreed, so long as the 1818 Fund continues to own at least 20% of the shares of Class A Common Stock issued or issuable upon conversion of the Preferred Stock, to vote substantially all Stock (whether now or hereafter acquired) owned or, to the extent permitted by law, controlled by him in order to cause the election to the Board of Directors of the designee of the 1818 Fund. Additionally, the 1818 Fund has been granted tag-along rights, subject to certain exceptions, in the event Mr. Fuller transfers 15% or more of the shares of Class A Common Stock or Class B Common Stock owned by him in a single or series of related private transactions. The Company and the 1818 Fund have also entered into a Registration Rights Agreement dated December 12, 2000 pursuant to which the Company has agreed, under the terms and conditions set forth therein, to register under the Securities Act of 1933, as amended, the Class A Common Stock issuable upon the conversion of the shares of Preferred Stock held by the 1818 Fund and all other shares of Class A Common Stock held by the 1818 Fund. On December 11, 2001, the 1818 Fund exercised an option to purchase an additional 5,000 shares of Preferred Stock for a purchase price of \$5,000,000, thus bringing the total number of shares of Preferred Stock owned by the 1818 Fund after such purchase to 25,000.

**PROPOSAL TO AMEND AND RESTATE THE 1996 STOCK OPTION PLAN**

**Background of Plan and Description of Proposed Amendment**

The Genesee & Wyoming Inc. 1996 Stock Option Plan (the "Option Plan") was approved by the stockholders at the 1996 Annual Meeting. The Option Plan is designed to create an incentive for executive and other employees of the Company and its subsidiaries to remain in the employ of the Company and its subsidiaries and to contribute to their success by providing the opportunity for stock ownership.

**Proposal to Approve and Ratify an Amendment and Restatement of the Option Plan that Increases the Number of Shares Available for Option Grants from 2,362,500 to 3,112,500**

The Option Plan originally provided for the grant of options to purchase up to 1,012,500 shares of Class A Common Stock. That maximum was increased to 1,462,500 shares by the stockholders at the 1997 Annual Meeting, increased again to 1,912,500 shares by the stockholders (coupled with a 450,000-share reduction in the shares available under the Genesee & Wyoming Inc. Employee Stock Purchase Plan) at the 1998 Annual Meeting, and increased again to 2,362,500 by the stockholders at the 2000 Annual Meeting. (All of the above share amounts have been adjusted to reflect: (i) a three-for-two common stock split, effected in the form of a 50% common stock dividend, payable June 15, 2001, to stockholders of record as of May 31, 2001; and (ii) a three-for-two common stock split, effected in the form of a 50% common stock dividend, payable March 14, 2002, to stockholders of record as of February 28, 2002.)

The Company has adopted a policy of granting options to purchase shares of Class A Common Stock to a large number of key employees at various levels of employment, and the Board of Directors believes that such grants have helped to motivate the Company's employees to excel in their work by aligning their prospects with those of the Company's stockholders. The Board of Directors further believes that the Company's revenues and earnings success is due in part to this policy and the incentives it provides to key employees.

In furtherance of this policy, the Company has to date granted to over 223 key employees, including the Named Executives and the Company's other executive officers, as well as new employees resulting from the Company's various acquisitions, options to purchase an aggregate of 2,208,189 (1,069,501 of which have already been exercised as of the Record Date) of the 2,362,500 shares of Class A Common Stock currently available under the Option Plan. This currently leaves only 154,311 shares remaining for future option grants. Therefore, the Company will be unable to make significant additional option grants to new key employees, particularly those resulting from possible future acquisitions, or as further incentive to existing key employees, including the Named Executives and the Company's other executive officers. The Board of Directors believes that increasing the number of shares available for options granted under the Option Plan will assist the Company in continuing to attract, hire, retain and motivate superior employees and thus continue to contribute to the success of the Company.

Therefore, on April 5, 2002, the Board of Directors approved and adopted an amendment and restatement of the Option Plan which amends Section 4 of the Option Plan to increase the number of shares available for option grants thereunder from 2,362,500 to 3,112,500 (the "Proposed Share Increase Amendment"). The Proposed Share Increase Amendment was approved and adopted by the Board of Directors subject to approval and ratification by the stockholders at the Meeting. The Board of Directors believes that the Proposed Share Increase Amendment is in the best interests of the Company and its stockholders because it will permit the Company to continue to receive the benefits of the Option Plan described above.

**Description of Option Plan as Proposed to be Amended**

The following is a summary of the principal features of the Option Plan and the Proposed Share Increase Amendment.

***Increase of Shares Available.*** The Option Plan currently provides for the granting of stock options to purchase up to an aggregate of 2,362,500 shares of Class A Common Stock (subject to anti-dilution adjustment as described below). The Proposed Share Increase Amendment, if approved by the stockholders, would increase the

## **Table of Contents**

number of shares of Class A Common Stock available for option grants thereunder from 2,362,500 to 3,112,500 (subject to anti-dilution adjustment as described below). If any option granted under the Option Plan expires or terminates without having been exercised in full, shares subject to the unexercised portion of such option may again be available for other option grants under the Option Plan.

***Nature of Options.*** The Company may grant under the Option Plan both incentive stock options within the meaning of Section 422 of the Code ( Incentive Stock Options ) and stock options that do not qualify for treatment as Incentive Stock Options ( Nonstatutory Stock Options ). If any Incentive Stock Option is for any reason disqualified as an incentive stock option within the meaning of Section 422 of the Code, it will instead remain in full force and effect, in accordance with its terms, as a Nonstatutory Stock Option. The Company receives no consideration for the grant of any options under the Option Plan.

***Term.*** The Option Plan will continue in effect until all shares of Class A Common Stock subject to issuance under options granted thereunder have been purchased, provided that no options may be granted under the Option Plan after June 23, 2006.

***Administration.*** The Option Plan is administered by the Compensation Committee. Each member of the Compensation Committee must be a Non-Employee Director within the meaning of Rule 16b-3 promulgated under the Exchange Act. Subject to the express provisions of the Option Plan, the Compensation Committee has authority in its discretion and without limitation: (i) to determine the recipients of options, whether an option is intended to be an Incentive Stock Option or Nonstatutory Stock Option, the times of option grants, the number of shares subject to each option, the exercise price of each option, the term of each option, the date(s) when each option becomes exercisable, and the vesting schedule (if any) of each option; (ii) to accelerate the vesting of any option, irrespective of its vesting schedule; (iii) to modify unilaterally the terms of any option grant or exercise so as to avoid variable accounting treatment under Accounting Principles Board Opinion No. 25 or any Financial Accounting Standards Board interpretation; and (iv) to make all other determinations necessary or advisable for administering the Option Plan, which determinations will be final and binding on all persons.

***Eligibility.*** Options under the Option Plan may be granted to those persons selected from time to time by the Compensation Committee from the full-time employees of the Company and its subsidiaries, including employees who are also officers or directors of the Company. As of March 31, 2002, the Company had approximately 1,708 full-time employees.

***Terms and Conditions of Options; Option Price.*** The minimum option price of any option granted under the Option Plan is the market value of the Class A Common Stock on the grant date of the option, and the term of the option, which is determined by the Compensation Committee, may not exceed ten years from the grant date; notwithstanding the foregoing, in the case of an Incentive Stock Option granted to any person owning stock possessing more than 10% of the voting power of the Company, the option price must be at least 110% of the market value of the Class A Common Stock on the grant date, and the term of the option may not exceed five years from the grant date. In addition, the aggregate fair market value (determined as of the grant date) of the shares with respect to which Incentive Stock Options are exercisable for the first time by any grantee during any calendar year may not exceed \$100,000.

The market value of the Class A Common Stock (reflected by the last sale price thereof as reported by The Nasdaq Stock Market) on March 28, 2002 was \$23.67 per share.

Upon exercise, an optionee may pay for the shares subject to the option by one or any combination of the following methods, as determined by the Compensation Committee as of the option grant date: (i) in cash, or (ii) by delivery of shares of Class A Common Stock (valued at its then market value) already owned by the optionee and held for any holding period required by law or regulation.

***Annual Per Person Limitation on Option Grants.*** The Option Plan currently imposes a 450,000-share limit (subject to anti-dilution adjustments as described below) on the number of options that could be granted under the Option Plan to any one employee in any calendar year.

***Effect of Death or Termination of Employment.*** During the lifetime of an optionee, an option may be exercised only while he is an employee of the Company or its subsidiaries and has been an employee

## **Table of Contents**

continuously since the option grant, except that options may be exercised for stated periods after termination of employment in the case of the optionee's death, permanent and total disability or termination for other reason.

***Non-Transferability in Most Circumstances.*** During the lifetime of an optionee, options issued under the Option Plan may not be transferred, whether voluntarily or otherwise, except if and to the extent that a transfer of a Nonstatutory Stock Option is permitted by the Compensation Committee, in its discretion, pursuant to the express terms of a stock option agreement, and subject to any terms and conditions which the Compensation Committee may impose.

***Vesting Acceleration.*** Under the Option Plan, all outstanding options not then exercisable become immediately exercisable in full upon the occurrence of certain defined events constituting a change in control of the Company.

***Anti-Dilution Adjustments.*** In the event of a merger, consolidation, recapitalization, stock split or similar event, the aggregate number and kind of shares available for options under the Option Plan, the number and kind of shares covered by each outstanding option, the per share exercise price thereof, and the 450,000-share per person annual option limit will be appropriately adjusted by the Compensation Committee.

***Amendments.*** The Board of Directors, without further stockholder approval, may at any time further amend the Option Plan, provided that (except for amendments made pursuant to the anti-dilution adjustment provisions described above), no amendment may be made without the approval of the stockholders which would: (i) increase the maximum number of shares that may be issued under the Option Plan; (ii) reduce the minimum option exercise price; (iii) change the class of employees eligible to be granted options; (iv) extend the period for granting or exercising options; or (v) otherwise materially increase the benefits accruing to participants under the Option Plan. In the event that any amendment to the Option Plan so requires approval by the stockholders, prior to such approval the Compensation Committee may grant conditional options, which may not be exercised, transferred or encumbered prior to such approval, and which will be automatically cancelled if the stockholders fail to approve such amendment at their next meeting.

***Securities Act Registration.*** The Company has filed with the SEC Registration Statements on Form S-8 registering the 2,362,500 shares currently issuable upon exercise of options granted and to be granted under the Option Plan. If the Proposed Share Increase Amendment is approved and ratified by the stockholders at the Meeting, the Company intends to register the 750,000 additional shares issuable upon exercise of options granted and to be granted under the Option Plan, pursuant to a Registration Statement on Form S-8, as soon as practicable.

***Federal Income Tax Consequences.*** The following summarizes the federal income tax consequences to participants and the Company of the grant and exercise of Nonstatutory Stock Options and Incentive Stock Options under the Option Plan. This discussion is merely a summary and does not purport to be a complete description of the federal income tax consequences of the Option Plan. This description does not cover state and local tax treatment of participation in the Option Plan.

***Nonstatutory Stock Options:*** The grant of a Nonstatutory Stock Option under the Option Plan will not result in the recognition of gross income to the optionee or a deduction to the Company at the time of the grant. Upon the exercise of a Nonstatutory Option, the optionee will recognize ordinary income for federal income tax purposes in an amount equal to the excess of the fair market value of the shares purchased over the exercise price, unless he could be subject to liability under Section 16(b) of the Exchange Act if he were to sell the shares at a profit at such time (in which case, unless the optionee makes a special election under the Code within 30 days after exercise, the optionee will recognize ordinary income for federal income tax purposes six months after the date of the exercise equal to the excess at such time; if the optionee timely makes such election, he will recognize ordinary income at the time of exercise).

The Company is required to withhold tax on the amount of income recognized by the optionee and is entitled to a tax deduction equal to the amount of income recognized by the optionee for the fiscal year of the Company in which ends the taxable year of the optionee in which such amount is included in the optionee's gross income.

**Table of Contents**

If an optionee disposes of any shares acquired upon the exercise of a Nonstatutory Stock Option, the optionee will recognize a capital gain or loss equal to the difference between the optionee's tax basis in the shares (generally the fair market value of such shares at the time ordinary income was recognized) and the amount realized on disposition of such shares. Any gain will be taxed as short-term capital gain at ordinary income rates if the shares have been held for one year or less, and as long-term capital gain subject to a maximum tax rate of either 10% or 20% (depending upon the taxpayer's income) if held for more than one year. Any loss will be netted against gain of a like type and, subject to certain limitations on the deductibility of capital losses, any net loss deducted from other income. The Company is not entitled to any tax deduction in connection with such disposition of shares.

***Incentive Stock Options:*** In general, no income will be recognized by the optionee and no deduction will be allowed to the Company at the time of the grant or exercise of an Incentive Stock Option. The difference between the exercise price and the fair market value of the shares on the date the Incentive Stock Option is exercised is, however, an item of tax preference to the optionee for purposes of the alternative minimum tax. Depending upon the optionee's individual tax circumstances, there may be minimum tax liability in the year of exercise as a result of the tax preference item. Further, depending upon the optionee's individual tax circumstances, a credit against regular tax corresponding to this minimum tax liability may be allowed in a subsequent year. In computing alternative minimum taxable income in the year in which the optionee disposes of shares acquired through the exercise of an Incentive Stock Option, the basis for alternative minimum tax purposes of the shares so acquired will be increased by the excess of the fair market value of the shares on the date of exercise over the exercise price.

When the shares acquired upon the exercise of an Incentive Stock Option are sold, the optionee will recognize capital gain or loss equal to the difference between the amount realized and the exercise price of the Incentive Stock Option, provided that the sale of the shares is not made within two years from the date of grant of the Incentive Stock Option or within one year of the date of issuance of such shares to the optionee. If such holding period requirements of the Code are not met, the sale of the shares acquired upon exercise of an Incentive Stock Option is a disqualifying disposition and, in general, at the time of such disposition, the optionee will recognize (i) ordinary income in an amount equal to the difference between the exercise price and the lesser of the fair market value of the shares on the date the Incentive Stock Option is exercised or the amount realized on such disqualifying disposition, and (ii) capital gain to the extent the amount realized on such disqualifying disposition exceeds the fair market value of the shares on the date the Incentive Stock Option is exercised. Alternatively, if the amount realized on such disqualifying disposition is less than the exercise price, the optionee will recognize a capital loss in the amount of the difference. Any capital gain or loss will be long-term or short-term, as described above, depending upon the holding period of the shares sold. In the event of a disqualifying disposition, the Company may claim a deduction in the taxable year of the disqualifying disposition equal to the amount taxable to the optionee as ordinary income. In the absence of any disqualifying disposition, the Company is denied any deduction in respect of shares transferred upon the exercise of an Incentive Stock Option.

**New Plan Benefits**

If the Proposed Share Increase Amendment is approved by the stockholders, each of the Named Executives and other executive officers of the Company is eligible to be granted additional options under the Option Plan.

The following table sets forth the amount and dollar value of all options actually granted during 2001 under the Option Plan to the Named Executives and to certain groups of individuals (including options that have subsequently lapsed unexercised due to employment terminations). The benefits or amounts to be received by or allocated to the Named Executives or such groups in the future are not determinable, because option grants under the Option Plan are in the discretion of the Compensation Committee.

**Required Votes and Board Recommendations**

A majority in the affirmative of the votes cast, in person or by proxy, at the Meeting, without regard to broker non-votes, by stockholders entitled to vote at the Meeting is required for the approval and ratification of the Proposed Share Increase Amendment. The Board of Directors recommends votes in favor of the Proposed Share Increase Amendment and the persons named in the enclosed proxy (unless otherwise instructed therein) will vote such proxies FOR the Proposed Share Increase Amendment.

**SELECTION OF INDEPENDENT AUDITORS**

The firm of Arthur Andersen LLP, certified public accountants, served as the independent auditors of the Company for 2001. In addition to the audit of the 2001 financial statements, the Company engaged Arthur Andersen LLP to perform certain services for which it was paid professional fees. See REPORT OF THE AUDIT COMMITTEE TO STOCKHOLDERS above.

On April 5, 2002, the Company's Board of Directors determined not to renew the engagement of Arthur Andersen LLP and selected PricewaterhouseCoopers LLP as the Company's independent auditors for the fiscal year ending December 31, 2002. This selection will be presented to the stockholders for their approval at the Meeting. The Board of Directors recommends a vote in favor of the proposal to approve and ratify this selection,

**Table of Contents**

and the persons named in the enclosed proxy (unless otherwise instructed therein) will vote such proxies FOR such proposal. If the stockholders do not approve this selection, the Board of Directors will reconsider its choice.

This determination followed the Company's decision to seek proposals from independent accountants to audit the Company's financial statements for the fiscal year ending December 31, 2002. The decision not to renew the engagement of Arthur Andersen LLP and to retain PricewaterhouseCoopers LLP was approved by the Company's Board of Directors upon the recommendation of its Audit Committee. The decision was based on proposals from large accounting firms and reflected the Audit Committee's judgment as to which firm was best suited to deliver external audits to the Company in light of relevant factors such as the firm's depth of experience, breadth of resources, commitment to provide exceptional service, ability to handle transition issues and location of key personnel.

The Company expects that a representative of PricewaterhouseCoopers LLP will be present at the Meeting and expects such representative to be available to respond to appropriate questions. In addition, the Company intends to give such representative an opportunity to make any statements if he should so desire.

During the Company's two most recent fiscal years ended December 31, 2001, and the subsequent interim period preceding the Company's determination not to renew the engagement of Arthur Andersen LLP, there were no disagreements between the Company and Arthur Andersen LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreement(s), if not resolved to Arthur Andersen LLP's satisfaction, would have caused them to make reference to the subject matter of the disagreement(s) in connection with its reports.

None of the reportable events described under Item 304(a)(1)(v) of Regulation S-K occurred within the Company's two most recent fiscal years and the subsequent interim period preceding the Company's determination not to renew the engagement of Arthur Andersen LLP.

The audit reports of Arthur Andersen LLP on the financial statements of the Company as of and for the fiscal years ended December 31, 2000 and December 31, 2001 make reference to other auditors that audited the financial statements of Australian Railroad Group Pty Ltd., a significant investee of the Company. Except as set forth in the previous sentence, the audit reports of Arthur Andersen LLP on the financial statements of the Company as of and for the fiscal years ended December 31, 2001 and 2000 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

During the Company's two most recent fiscal years ended December 31, 2001, and any subsequent interim period prior to engaging PricewaterhouseCoopers LLP, the Company did not consult PricewaterhouseCoopers LLP in connection with any of the matters specified in Item 304(a)(2)(i) or (ii) of Regulation S-K.

**STOCKHOLDER PROPOSALS FOR 2003 ANNUAL MEETING**

In order for any stockholder proposal to be included in the Company's proxy statement to be issued in connection with the 2003 Annual Meeting of Stockholders, such proposal must be received at the principal executive offices of the Company, 66 Field Point Road, Greenwich, Connecticut 06830 (Attention: Mark W. Hastings, Secretary) no later than December 20, 2002. If such proposal is in compliance with all of the requirements of Rule 14a-8 under the Exchange Act, it will be included in the proxy statement and set forth on the form of proxy issued for such Annual Meeting. Stockholder proposals that are not submitted for inclusion in the Company's proxy materials pursuant to Rule 14a-8 under the Exchange Act may be brought before the 2003 Annual Meeting of Stockholders if notice thereof is received by the Company, as described immediately above, no later than March 6, 2003.

**OTHER MATTERS**

The Board of Directors does not know of any other matters that are to be presented for action at the Meeting. Should any other matter come before the Meeting, however, the persons named in the enclosed proxy will have discretionary authority to vote all proxies with respect to such matter in accordance with their judgment.
