NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2005

Note 1 **ORGANIZATION AND NATURE OF BUSINESS**

Diamond Hill Investment Group, Inc. (the Company) is an Ohio corporation incorporated in May 2002, previously a Florida corporation since April 1990. The Company has one operating subsidiary.

Diamond Hill Capital Management, Inc. ( DHCM ), an Ohio corporation, is a wholly owned subsidiary of the Company and a registered investment advisor. DHCM is the investment adviser to the Diamond Hill Funds, a series of open-end mutual funds. DHCM is also the investment adviser to the Diamond Hill Investment Partners, L.P. ( DHIP ), a private investment partnership, and offers advisory services to institutional and individual investors.

Note 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses for the periods. Actual results could differ from those estimates. The following is a summary of the Company's significant accounting policies:

**Reclassifications**

Certain prior year amounts have been reclassified to conform to the current year financial presentation.

**Principles of Consolidation**

The accompanying consolidated financial statements include the operations of the Company and DHCM. All material inter-company transactions and balances have been eliminated in consolidation.

**Cash**

The Company has defined cash as demand deposits, certificate of deposits and money market accounts. The Company maintains its cash in three accounts with two financial institutions.

**Accounts Receivable**

Accounts receivable are recorded when they are due and are presented in the statement of financial condition net of any allowance for doubtful accounts. Accounts receivable are written off when they are determined to be uncollectible. Any allowance for doubtful accounts is estimated on the Company's historical losses, existing conditions in the industry, and the financial stability of those individuals that owe the receivable. No allowance for doubtful accounts was deemed necessary at March 31, 2005.

**Valuation of Investment Portfolio**

Investments in mutual funds are valued at their current net asset value. Investments in DHIP are valued based on readily available market quotations. Realized and unrealized gains and losses are included in investment profits and losses.

**Table of Contents**

DIAMOND HILL INVESTMENT GROUP, INC. AND SUBSIDIARIES  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 March 31, 2005

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)Limited Partnership Interests

DHCM is the managing member of Diamond Hill General Partner, LLC, the General Partner of DHIP, a limited partnership whose underlying assets consist of marketable securities. DHCM's investment in DHIP is accounted for using the equity method, under which DHCM's share of the net earnings or losses from the partnership is reflected in income as earned and distributions received are reflected as reductions from the investment. The Company is actively seeking additional unaffiliated investors for DHIP. Several board members, officers and employees of the Company are members in Diamond Hill General Partner, LLC. The capital of Diamond Hill General Partner, LLC is not subject to a management fee or an incentive fee.

Property and Equipment

Property and equipment, consisting of computer equipment, furniture, and fixtures, is carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over estimated lives of three to seven years.

Revenues

Securities transactions are accounted for on the trade date basis. Dividend income is recorded on the ex-dividend date and interest income is accrued as earned. Realized gains and losses from sale of securities are determined utilizing the specific identification method.

Earnings Per Share

Basic and diluted earnings per common share are computed in accordance with Statement of Financial Accounting Standards No. 128, Earnings per Share. A reconciliation of the numerators and denominators used in these calculations is shown below:

For the three months ended March 31, 2005:

	Numerator	Denominator	Amount
Basic Earnings	\$ 396,633	1,622,256	\$ 0.24
Diluted Earnings	\$ 396,633	1,963,632	\$ 0.20

For the three months ended March 31, 2004:

	Numerator	Denominator	Amount
Basic Earnings	\$ (80,222)	1,525,460	\$ (0.05)
Diluted Earnings	\$ (80,222)	1,525,460	\$ (0.05)

Stock options and warrants have not been included in the denominator of the diluted per-share computations for those periods with a net loss because the effect of their inclusion would be anti-dilutive.

Note 8 MUTUAL FUND ADMINISTRATION

DHCM has an administrative, fund accounting and transfer agency services agreement with Diamond Hill Funds, an Ohio business trust, under which DHCM performs certain services for each series of the trust. These services include mutual fund administration, accounting, transfer agency and other related functions. For performing these services, each series of the trust compensates DHCM a fee at an annual rate of 0.45% for Class A and Class C shares and 0.20% for Class I shares times each series' average daily net assets. In addition, DHCM finances the up-front commissions paid to brokers who sell C Shares of the Diamond Hill Funds. As financier, DHCM pays the commission to the selling broker at the time of sale. This commission payment is capitalized and expensed over 12 months to correspond with the matching revenues DHCM receives from the principal underwriter to recoup this commission payment. DHCM collected \$399,446 and \$204,467 for mutual fund administration revenue for the three months ended March 31, 2005 and 2004, respectively. In fulfilling its role under this agreement, DHCM has engaged several third-party providers, and the cost for their services is paid by DHCM. Note 9 EMPLOYEE INCENTIVE PLANS

Comprehensive Compensation Program

At the Company's annual shareholder meeting on May 12, 2005, shareholders approved the 2005 Employee and Director Equity Incentive Plan (2005 Plan). The 2005 Plan is intended to facilitate the Company's ability to attract and retain staff, provide additional incentive to employees, directors and consultants, and to promote the success of the

Company's business. The 2005 Plan is to be administered by the Board of Directors.

**Table of Contents**

DIAMOND HILL INVESTMENT GROUP, INC. AND SUBSIDIARIES

Note 9 EMPLOYEE INCENTIVE PLANS (Continued)

With the approval of the 2005 Plan, the board has initiated a review of the compensation of all Company staff including base salary, cash incentives and equity incentives. The review will include an assessment of the current compensation structure as compared to other organizations in the investment management industry and the performance of the company's staff, particularly its investment team. Based upon this review and the financial results of the Company, including growth in assets under management and revenues, the board expects to approve, by August 2005, a compensation program for 2005 which may include cash and equity incentives as authorized under the 2005 Plan.

Equity Compensation Grants

On May 13, 2004 the Company's shareholders approved terms and conditions of certain equity compensation grants to three key employees. Under the terms approved a total of 75,000 shares of restricted stock and restricted stock units were issued to the key employees on May 31, 2004. The restricted stock and restricted stock units are restricted from sale and do not vest until May 31, 2009.

Stock Option Plan

The Company adopted a Non-Qualified and Incentive Stock Option Plan in 1993 that authorizes the grant of options to purchase an aggregate of 500,000 shares of the Company's Common Stock. The Plan provides that the Board of Directors, or a committee appointed by the Board, may grant options and otherwise administer the Option Plan. The exercise price of each incentive stock option or non-qualified stock option must be at least 100% of the fair market value of the Common Stock at the date of grant, and no such option may be exercisable for more than ten years after the date of grant. However, the exercise price of each incentive stock option granted to any shareholder possessing more than 10% of the combined voting power of all classes of capital stock of the Company on the date of grant must not be less than 110% of the fair market value on that date, and no such option may be exercisable more than five years after the date of grant. This Plan expired by its terms in November 2003. Options issued under this Plan are not affected by the Plan's expiration. All outstanding options, reflected in the tables following, were issued under this plan. Of the warrants shown in the tables following, 80,400 were issued pursuant to this plan.

The Company applies Accounting Principles Board Opinion 25 and related Interpretations (APB 25) in accounting for stock options and warrants issued to employees and Directors. Accordingly, compensation cost is recognized based on the intrinsic value of the stock options or warrants.

Note 9 EMPLOYEE INCENTIVE PLANS (Continued)Stock Option Plan (Continued)

Had compensation cost for all of the Company's stock-based awards been determined in accordance with FAS 123, the Company's net income and earnings per share would have been reduced to the pro forma amounts indicated below:

	<b>Three Months Ended</b>	
	<b>March 31</b>	
	<b>2005</b>	<b>2004</b>
Net income, as reported	396,633	(80,222)
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(14,709)	(40,021)
Pro forma net income	381,924	(120,243)
Earnings per share:		
Basic as reported	0.24	(0.05)
Basic pro forma	0.24	(0.08)
Diluted as reported	0.20	(0.05)
Diluted pro forma	0.19	(0.08)

To make the computations of pro forma results under FAS 123, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: no dividend yield for all years and expected lives of ten years. The options and warrants granted under these plans are not registered and, accordingly, there is no quoted market price.

**Assets Under Management**

As of March 31, 2005, assets under management totaled \$678.7 million, a 30% increase from December 31, 2004. Assets under management grew by 125% as of March 31, 2005 in comparison to March 31, 2004. Asset growth for the three months and year ended March 31, 2005 is not necessarily indicative of the results that may be expected for the entire fiscal year ended December 31, 2005. The table below provides a summary of assets under management:

	3/31/2005	12/31/2004	3/31/2004
Individually Managed Accounts	\$ 309,994,262	\$ 265,428,049	\$ 173,152,284
Mutual Funds	321,252,657	237,625,466	115,482,398
Private Investment Partnership	47,511,904	20,739,964	13,439,292
Total Assets Under Management	\$ 678,758,823	\$ 523,793,479	\$ 302,073,974

**Three months ended March 31, 2005 compared to three months ended March 31, 2004**

Investment management revenues for the three months ended March 31, 2005 increased to \$1,188,990 compared to \$466,059 for the three months ended March 31, 2004, a 155% increase. This increase results primarily from the increase in assets under management from which the Company derives its revenues.

The Company increased its investment management revenue from all three of its investment products mutual funds, managed accounts and a private investment partnership, DHIP. Revenue from mutual funds for the three months ended March 31, 2005 and 2004 were \$522,717 and \$189,838, respectively, a 175% increase. Revenue from managed accounts increased 76% for the three months ended March 31, 2005 compared to the three months ended March 31, 2004. Investment management revenue collected from DHIP improved by 635% for the three months ended March 31, 2005 compared to the three months ended March

31, 2004. The primary driver of this significant increase was incentive fees earned due to the strong investment performance achieved during the quarter. The incentive fee revenue is based on investment performance and therefore there can be no assurance that this will be recurring revenue. Assets under management increased to \$678,758,823 as of March 31, 2005, a 125% increase since March 31, 2004. However, there can be no assurance that the Company will be able to achieve or maintain the critical threshold of assets under management to support future operations.

Operating expenses for the three months ended March 31, 2005 increased to \$848,515 compared to \$592,102 for the three months ended March 31, 2004, an increase of 43%. The majority of this increase was due to an increase in salaries, benefits and payroll taxes which grew by 50% to \$639,415 in 2005 versus \$423,466 in 2004.

Mutual fund administration, which represents administrative and financing fees collected in connection with the Company's mutual fund products net of all mutual fund administrative and financing expenses paid by the Company, increased from a net expense of \$55,358 for the three months ended March 31, 2004 to a net expense of \$74,133 for the three months ended March 31, 2005. This net expense increase is primarily due to the a one time expense related to the offering of new Class I shares, which are offered to institutions and advisors. DHCM has an administrative, fund accounting, transfer agency, and financing agreement with the Diamond Hill Funds, where DHCM performs certain services for each series of the trust. DHCM collected \$399,447 and \$204,467 for mutual fund administration revenue for the three months ended March 31, 2005 and 2004, respectively. In fulfilling its role under this agreement, DHCM has engaged several third-party providers and the cost for their services is paid by DHCM. Mutual fund administration expense for the three months ended March 31, 2005 and 2004 were \$473,578 and \$259,825, respectively. As assets under management grow in the mutual fund products, the Company expects fees collected to increase, while the Company expects expenses paid to increase but not as quickly as fees are collected; therefore, causing the net mutual fund administration expense to decrease.

The Company's net operating income improved from a net loss of \$126,043 for the three months ended March 31, 2004 to a net income of \$340,475 for the three months ended March 31, 2005. This improvement is primarily due to the significant increase in assets under management.

Investment return, net of interest expense, increased to a gain of \$130,291 for the three months ended March 31, 2005 from a gain of \$101,179 for the three months ended March 31, 2004. This increase in investment gain results primarily from increases in market values of investments in the private investment partnership. Management is unable to predict how future fluctuations in market values will impact the performance of the Company's investment portfolios.

**Liquidity and Capital Resources**

The Company's entire investment portfolio is in readily marketable securities, which, provide for cash liquidity, if needed, within three business days. Investments in mutual funds are valued at their current net asset value. Investments in DHIP are valued based on readily available market quotations.

On July 21, 2004, the Company sold 60,000 shares of the Company's common stock, from Treasury Stock through a private placement at a price of \$7.00, thereby increasing the liquidity and capital resources by approximately \$420,000.

As of March 31, 2005, the Company had working capital of approximately \$3.8 million compared to \$3.2 million at December 31, 2004 and compared to \$2.8 million at March 31, 2004. The increase is primarily due to the private placement issuance of \$420,000 and the exercise of previously issued stock options and warrants. Working capital

includes cash, securities owned and accounts and notes receivable, net of all liabilities. The Company has no long-term debt.

The Company's net cash balance decreased by \$11,953 during the three months ended March 31, 2005. Net cash used by operating activities was \$306,745. Financing activities provided \$294,793 of cash during the three months ended March 31, 2005, primarily from the sale of treasury stock.

The Company's net cash balance increased by \$110,580 during the three months ended March 31, 2004. Net cash used by operating activities was \$85,121. The primary use of cash flow was the net loss of \$80,222. Financing activities provided \$25,459 of cash during the three months ended March 31, 2004, primarily from the sale of treasury stock.

Investment management fees primarily fund the operations of the Company. Management believes that the Company's existing resources, including available cash and cash provided by operating activities, will be sufficient to satisfy its working capital requirements in the foreseeable future. However, no assurance can be given that additional funds will not be required. To the extent that returns on investments are less than anticipated, or expenses are greater than anticipated, the Company may be required to reduce its activities, liquidate the investment portfolio or seek additional financing. Further, this additional financing may not be available on acceptable terms, if at all. No significant capital expenditures are expected in the foreseeable future.

**Impact of Inflation and Other Factors**

The Company's operations have not been significantly affected by inflation. The Company's investment portfolios of equity and fixed income securities are carried at current market values. The Company's profitability is affected by general economic and market conditions. The Company's business is also subject to government regulation and changes in legal, accounting, tax and other compliance requirements. Changes in these regulations may have a significant effect on the Company's operations.
