The compensation covered by the SERP includes all earnings from the

Company as reported on the employee's W-2 form, for base pay, overtime, and bonus payments, plus salary deferrals. No maximum was applied to compensation covered under the SERP. Board Compensation

Officers of the Company who are Directors do not receive additional compensation for services as a Director. During fiscal 2008, non-employee Directors received an annual cash retainer of \$25,000 payable in four quarterly installments of \$6,250.

During fiscal 2008, each Director received meeting fees of \$1,500 for each Board of Directors meeting attended. In addition, each member on a Committee was paid at the rate of \$1,500 for each Committee meeting attended, with the exception of the Audit Committee Chairman who received Audit Committee meeting fees of \$2,500 for each meeting attended and the Compensation Committee Chairman who received Compensation Committee meeting fees of \$2,000 for each meeting attended. Non-committee member Directors who are requested in advance to participate in any Committee meeting are also paid the committee meeting fee. In addition, the Chief Executive Officer has the discretion to approve payments up to \$500 to independent Directors for incremental services. During fiscal 2008, each Committee Chairman received an annual fee of \$3,500.

Directors are reimbursed for travel and other expenses related to attendance at Board and Committee meetings. In addition, during fiscal year 2008 the Presiding Director is paid an annual fee of \$6,000. Currently, Handleman Company's Chairman of the Board is an outside Director (the Chairman and the Chief Executive Officer are independent roles). During the period that the Chairman is an outside Director there will not be a Presiding Director. During this period the Chairman will be paid the Presiding Director fee.

The 2004 Stock Plan allows restricted stock grants to non-employee Directors. In September 2007, each non-employee Director received a 2,000 share grant of restricted Handleman Company stock. These shares vest in equal increments over three years. In addition, non-employee Directors receive a one-time stock grant of 500 shares

when first joining the Board. This grant vests 100% three years from the date the Director first joins the Board. Under resolutions of the Board of Directors presently in effect, if certain Corporate, Division or Subsidiary Officers should die while serving in such capacity, the Company will pay to the surviving spouse, or if there is no surviving spouse then to the decedent's estate, the equivalent of one year's salary (excluding bonuses) based upon the amount being received by the decedent at the time of his or her death, in 24 equal monthly installments commencing one month after death. In the event a Director should die while serving the Company in such position, the Company shall pay to the deceased's surviving spouse, or if there is no surviving spouse to the deceased's estate, the equivalent of one year's cash retainer plus any accrued but unpaid board and committee meeting fees that the deceased was entitled to receive for such services from the Company at the time of his or her death, such amount to be paid in a lump sum one month from the date of death. In addition, the deceased Director's outstanding restricted stock grants shall immediately vest.

POTENTIAL PAYMENTS UPON A CHANGE IN CONTROL

At the end of the Company's 2008 fiscal year, the Company had entered into Change in Control Agreements (the Agreements) with Khaled Haram and Mark Albrecht in the event their employment were terminated as a result of, or in connection with, a change in control (as defined in the Agreements). The Agreements expire December 31, 2008 and are automatically renewed to December 31 of each subsequent year unless and until the Company or the named Executive Officer sends a written notice of termination to the other party by September 1st. Mr. Haram has left the Company since the end of the 2008 fiscal year and is no longer eligible to be paid benefits under his Change in Control Agreement.

Table of Contents

In the event of termination of employment or other specified changes in the employment relationship beginning 90 days before and ending two years after a change in control, the Agreements generally provide for payments of:

(a) All amounts earned or accrued by the Executive through the termination date but not paid as of the termination date, including base salary or compensation, reimbursement for reasonable and necessary expenses incurred by the Executive on behalf of the Company during the period ending on the termination date, vacation pay and sick leave; and

(b) A pro rata bonus for the Company's current fiscal year in an amount equal to (I) the average of the annual bonus accrued on behalf of the Executive during the Company's three (3) full fiscal years ended prior to the Effective Date, multiplied by (2) a fraction, the numerator of which is the number of days in the current fiscal year through the Termination Date and the denominator of which is 365; and

(c) The Company shall pay the Executive as severance pay and in lieu of any further compensation for periods subsequent to the termination date, in a single payment, an amount (the Severance Amount) in cash equal to I (one) times the sum of (I) the Executive's base salary at the highest rate in effect at any time within one hundred eighty (180) days prior to the Effective Date, and (2) the average of the annual bonus accrued on behalf of the Executive during the three (3) full fiscal years ended prior to the Effective Date; and

(d) For twelve (12) months following the Termination Date, the Company shall at its expense continue on behalf of the Executive and his dependents and beneficiaries the life insurance, disability, medical, prescription, dental and hospitalization benefits provided to the Executive at any time during the ninety (90) day period prior to the Effective Date.

In addition, all restrictions on any outstanding incentive awards (including restricted stock and rights to performance shares and performance units) granted to the Executive under any incentive plan or arrangement shall lapse and such incentive award shall become 100% vested and all stock options granted to the Executive under any incentive plan or arrangement will become 100% vested and immediately exercisable.

Based on current salaries and prior bonuses, if Messrs. Haram and Albrecht had terminated their employment as of May 3, 2008 under circumstances entitling them to severance pay as described above, they would have been entitled to receive lump sum cash payments of \$425,000 and \$236,000 respectively. The cost of life and health insurance benefits for three years following the termination date for Messrs. Haram and Albrecht would have been \$44,100 and \$42,600 respectively.

II. PROPOSAL TO APPROVE THE LIQUIDATION AND DISSOLUTION OF HANDLEMAN COMPANY

Background of the Proposal

Handleman Company, a Michigan corporation, is the successor to a proprietorship formed in 1934, and to a partnership formed in 1937. From that time, Handleman Company operated as a category manager and distributor of prerecorded music and console video game hardware, software and accessories to leading retailers in the United States

(U.S.), United Kingdom (UK) and Canada.

In recent years, music industry sales have declined at double-digit rates as the industry was impacted by digital distribution, downloading and piracy. In addition, the Company's gross margins were compressed because lower-margin promotional products became a greater proportion of annual sales. This level of continued erosion of CD music sales is expected to continue into the foreseeable future. In response to this dramatic decline, the Company implemented significant cost reduction plans to reduce expenses and streamline operations. These plans included work force reductions; the consolidation of the operations of two U.S. automated distribution facilities into one facility; the reduction of benefits programs and realignment of medical plans; initiatives to reduce customer product returns; and various other cost cutting initiatives. However, the reduction in music sales volume and loss of gross margin outpaced the Company's ability to reduce overhead costs and the Company experienced steep operating losses in the past two fiscal years.

The Company's customers have responded to the decline in music industry sales by contracting the amount of retail space devoted to music sales. Additionally, the Company violated certain debt covenants within its credit agreements in the fourth quarter of fiscal 2008, which ended May 3, 2008. Those violations were cured soon thereafter by an amendment to the credit facilities. In recent months, trade creditors have expressed concern about whether the Company might be contemplating or be required to file a bankruptcy proceeding. As a result, the Company became concerned about whether it would have access to sufficient financing and vendor credit to meet its business needs. The continuing decline of the music distribution industry in North America and Europe has caused a reduction in the Company's gross margins and its ability to meet all of its debt obligations. Although the Company has taken numerous steps to reduce its cost structure, it has been unable to reduce costs to the extent required to achieve profitable operations.

As a result of concerns about the prospects for the music business and the availability of financing, on June 2, 2008, Handleman announced that it was exiting the music business in North America and that it had sold a portion of its U.S. inventory and its U.S. music business related to Wal-Mart to Anderson Merchandising (Anderson). Handleman also announced that it would work with its other non-Wal-Mart U.S. customers to achieve a smooth transition to another music supplier. This transition occurred prior to the end of August 2008. Further, Handleman announced that it had executed a definitive agreement with Anderson for the sale of all of the inventory and fixed assets and all operations of its Canadian subsidiary, Handleman Canada. The sale of the assets of Handleman Canada received the required Canadian regulatory approval in August 2008. The closing occurred on September 2, 2008.

Table of Contents

Further, Handleman has reached an agreement in principle with Tesco Stores Limited (Tesco) in the UK regarding the sale of certain of its Handleman UK assets and operations. The closing is scheduled to occur in September 2008. In addition, Handleman closed on the sale of A2M assets in July 2008 for \$357,000, which primarily included inventory and intellectual property.

As a public company, the Company s administrative cost structure is, in the judgment of management and the Board of Directors, too great to support the reduced operations of the Company. After careful consideration of all relevant factors, the Board of Directors has come to the unanimous determination that a dissolution of the Company is fair to and in the best interests of Handleman and its shareholders. The Board has further determined that the best way to maximize shareholder value is through the adoption of the Plan of Liquidation set forth in Appendix C to this proxy statement. Such Plan of Liquidation authorizes the Company to sell or otherwise dispose of all of its remaining property and assets upon terms set by the Board of Directors. The proceeds of any transactions consummated under the Plan of Liquidation will then be used to pay all of the Company s claims and obligations, with any remainder distributed to the Company s shareholders.

Shareholder approval of the Company s dissolution is required by Michigan law, pursuant to which the Company is organized. The affirmative vote of a majority of Handleman s outstanding Common Stock will be required to approve the dissolution and Plan of Liquidation.

The Board of Directors has unanimously approved the dissolution of Handleman, has declared it advisable and unanimously recommends that you vote or give instruction to vote FOR the dissolution and Plan of Liquidation.

Summary of the Plan of Liquidation

This summary briefly describes the material terms of Handleman s proposed dissolution and Plan of Liquidation. This information is provided to assist shareholders in reviewing this proxy statement and considering the proposed dissolution and Plan of Liquidation, but it does not include all of the information contained elsewhere in this proxy statement and may not contain all of the information that is important to you. To understand fully the dissolution and Plan of Liquidation being submitted for shareholder approval, you should carefully read this proxy statement, including the accompanying copy of the Plan of Liquidation attached as Appendix C in its entirety.

The Plan of Liquidation authorizes the Company to sell or otherwise dispose of all of its property and assets. This liquidation is expected to commence as soon as practicable after approval of the dissolution and Plan of Liquidation by the Company s shareholders. Any sales of Company assets will be made in private or public transactions and on such terms as are approved by the Company s Board of Directors. The Company does not anticipate soliciting any further votes of the shareholders with respect to the approval of the specific terms of any particular sale of assets approved by the Company s Board of Directors.

If the Plan of Liquidation is approved by the shareholders, the Company anticipates that the Company s activities will be limited to actions the Company deems necessary or appropriate to accomplish the following:

- selling, collecting, or otherwise realizing the value of the Company s remaining assets;

- as provided in the Plan of Liquidation, paying or adequately providing for the payment of all claims and obligations of the Company;

- if there are insufficient assets to satisfy the Company s known and unknown liabilities, paying all such liabilities according to their priority and, among claims of equal priority, ratably to the extent of assets legally available;

- filing a Certificate of Dissolution with the Department of Labor and Economic Growth of the State of Michigan;

- distributing to the Company s shareholders, ratably in proportion to their interests, any proceeds remaining after the distribution of those funds necessary to satisfy claims and obligations against the Company;

winding up the Company's remaining business activities; and
making tax and other regulatory filings.

Table of Contents

Pursuant to the Plan of Liquidation, the Company will use the proceeds of such sales to pay or make provision for payment of the entirety of the Company's indebtedness and other obligations, prior to any distributions being made to the Company's shareholders.

The Company does not anticipate that any significant regulatory approvals will be required in connection with the Plan of Liquidation.

If the Company's shareholders do not vote to approve Handleman's dissolution and Plan of Liquidation, the Board of Directors will explore what, if any, alternatives are available for the future of Handleman. The Board of Directors believes, however, the dissolution and liquidation of the Company pursuant to the Plan of Liquidation is the best alternative available.

Other Information Relating to the Proposal.

Approval of Handleman's dissolution and Plan of Liquidation will require the affirmative vote of holders of a majority of Handleman's outstanding Common Stock. Approval of Proposal III (adjourning the meeting if necessary) requires the affirmative vote of holders of a majority of Common Stock present or represented by proxy at the annual meeting and voting on the proposal.

The Company cannot assure you that the proceeds it receives from the liquidation contemplated under the Plan of Liquidation will be sufficient to pay or provide for the claims and obligations of the Company. As such, the Company cannot assure you that you will receive any of such proceeds.

If you do not want the dissolution and Plan of Liquidation to be approved, you must abstain, not vote or vote against it. Shares represented by proxy cards received in time for the annual meeting that are properly signed, dated and returned without specifying choices will be voted FOR this proposal. You should be aware, however, that if the dissolution and Plan of Liquidation are not approved, Handleman will not be authorized to dissolve and liquidate. Whether or not you vote against it, if the dissolution and Plan of Liquidation are approved, all Company shareholders will be entitled to their pro rata portion of proceeds, if any, distributed to shareholders pursuant to the Plan of Liquidation.

If the dissolution and Plan of Liquidation are not approved, Handleman will not be authorized to dissolve and liquidate. If sufficient votes to approve the dissolution and Plan of Liquidation are not available at the meeting, or if a quorum is not present in person or by proxy, the Board of Directors or Chairman of the Board may seek to adjourn or postpone the meeting to continue to seek such approval.

ABSTAINING FROM VOTING OR NOT VOTING, EITHER IN PERSON OR BY PROXY OR BY VOTING INSTRUCTION, WILL HAVE THE SAME EFFECT AS A VOTE AGAINST THE DISSOLUTION AND PLAN OF LIQUIDATION PROPOSAL.

If your broker holds your shares in its name and you do not give the broker voting instructions, Financial Industry Regulatory Authority rules prohibit your broker from voting your shares on the dissolution and Plan of Liquidation proposal or the proposal to adjourn or postpone the annual meeting to solicit additional proxies. This is known as a broker non-vote. Abstentions or broker non-votes will have the same effect as a vote against the dissolution and Plan of Liquidation proposal. Abstentions or broker non-votes will not be counted as votes for or against the proposal to authorize management to adjourn or postpone the annual meeting, as the vote required to approve this discretionary authority is a majority of the common shares present in person or by proxy and entitled to vote.

If your shares are held in street name, consult your broker, bank or other nominee for instructions on how to revoke your proxy or change your vote. If an executed proxy card is returned by a broker, bank or other nominee holding Common Stock that indicates that it does not have discretionary authority to vote on the proposals, the Common Stock will be considered present at the meeting for purposes of determining the presence of a quorum but will not be considered to have been voted on the proposals. Your broker, bank or other nominee will vote your shares only if you provide instructions on how to vote by following the information provided to you by such broker, bank or other nominee.

Under Michigan law, shareholders are not entitled to dissenters' rights of appraisal in connection with Handleman's dissolution and liquidation.

Table of Contents

Status of Current Asset Sale Activity

Handleman's remaining operations include Crave Entertainment Group, Inc. (Crave), a full-service distributor of video game software, hardware and related accessories, and a specialty video game publisher; Handleman UK Limited (Handleman UK), a UK-based distributor and store merchandiser of music, video, books, computer games and other products; Artist to Market Distribution (A2M), an independent music distributor that works directly with branded artists and artists' management to streamline the supply chain and deliver new music product to the marketplace at a lower cost; and REPS LLC (REPS), a national in-store merchandiser.

Handleman retained the investment banking firm W.Y. Campbell & Company in April 2008 for the purpose of exploring a possible sale or other strategic options for Crave. In June 2008, an Offering Memorandum was completed and the Company began actively marketing Crave for sale at that time. In the first quarter of fiscal 2009, the Company also broadened the scope for W.Y. Campbell & Company to include strategic initiatives related to REPS as well. Further, Handleman has reached an agreement in principle with Tesco Stores Limited (Tesco) in the UK regarding the sale of certain of its Handleman UK assets and operations. The closing is scheduled to occur in September 2008. In addition, Handleman closed on the sale of A2M assets in July 2008 for \$357,000, which primarily included inventory and intellectual property.

Risk Factors to Be Considered in Connection With the Plan of Liquidation

There are a number of factors that the Company's shareholders should consider when deciding whether to vote to approve Handleman's dissolution and Plan of Liquidation, many of which could have substantial effects on the value (or existence) of distributions ultimately made to the shareholders pursuant to the Plan of Liquidation. Such factors include the following:

The Company cannot determine with certainty whether there will be distributions to shareholders.

The Company cannot determine at this time the amount of distributions to its shareholders pursuant to the Plan of Liquidation. This determination depends on a variety of factors, including, but not limited to, the amount required to settle known and unknown debts and liabilities, the resolution of litigation, and other contingent liabilities, the net proceeds, if any, from the sale of our remaining assets, and other factors. As a result, we cannot determine with certainty the amount of distributions to our shareholders.

Handleman cannot assure that distributions to shareholders will not be delayed.

If the Company's shareholders approve Handleman's dissolution and Plan of Liquidation, the Company intends to promptly sell or collect on its assets and pay its liabilities. There are a number of factors that could delay any distribution to shareholders, including the following:

delays in payment, or arrangement for payment or compromise, of Handleman's liabilities or obligations, if any;

lawsuits or other claims asserted against the Company; and

unanticipated legal, regulatory or administrative requirements.

The Board of Directors may delay implementation of the Plan of Liquidation, even if dissolution is approved by the Company's shareholders.

Even if Handleman's dissolution is approved by the Company's shareholders, the Board of Directors has reserved the right, in its discretion, to delay implementation of the Plan of Liquidation if it determines that doing so is in the best interests of Handleman and its shareholders. The Board of Directors is, however, unaware of any circumstances under which it would do so, unless obligated to do so by law, regulation or court order.

Table of Contents

The Company may not be able to settle all of its obligations to creditors.

The Company has current and future obligations to creditors. As part of the wind-down process, the Company will attempt to settle those obligations with its creditors. The Company cannot assure you that it will be able to settle all of these obligations or that they can be settled for the amount it has estimated for purposes of calculating the likely distribution to shareholders. If the Company is unable to reach an agreement with a creditor relating to an obligation, that creditor may bring a lawsuit against the Company. Amounts required to settle obligations or defend lawsuits in excess of the amounts estimated by the Company will reduce the amount of remaining capital available for distribution to shareholders.

Handleman cannot assure that it will have adequate financing arrangements with its lenders.

Handleman believes that cash provided from operations and the sale of assets could provide sufficient liquidity to fund the Company's day-to-day operations provided that the Company is able to sell its remaining assets within a reasonable period of time. If the Company is unable to sell its assets in a reasonable period of time, or if the Company receives substantially less than anticipated, the Company could be forced to seek protection under bankruptcy laws.

Handleman cannot assure the successful sale of its remaining assets or that the sale of its assets will be at anticipated terms.

While Handleman is reasonably confident that it will be able to successfully sell its remaining assets, it cannot make any assurances that there will be a reasonable demand for these assets. With the decline in the music and video industries, Handleman faces risks that further declines of sales in its operating markets will hinder its ability to successfully sell its assets.

Handleman anticipates that sales of its remaining assets will be made on terms that are approved by the Board of Directors and may be conducted by competitive bidding, public sales or privately negotiated sales. The prices at which the Company will be able to sell these assets will depend largely on factors beyond the Company's control, including, without limitation, the condition of financial markets, the availability of financing to prospective purchasers of the assets, public market perceptions and limitations on transferability of certain assets. Because some of the Company's remaining assets, particularly intellectual property assets, may decline in value over time, the consummation of the sale of these assets in time to generate meaningful value is critical. In addition, the Company may not obtain as high a price for its illiquid assets as might have been obtained were the Company not seeking strategic alternatives for its various business operations.

Handleman must resolve matters related to its Pension Plans.

Handleman's U.S. and Canadian pension plans are at risk related to the current economic downturn. To the extent that Handleman's pension plans have investments in volatile instruments, Handleman is at risk that its pension plans will be underfunded at any given time. Handleman is currently in the process of immunizing its pension funds thereby removing a significant portion of the economic risk. Handleman will increase the funds' investments in bonds, decreasing the funds' equity exposure. This significantly reduces asset/liability mismatch risk. While immunization would reduce Handleman's risk related to the fluctuating market, Handleman will still be subject to certain risks. If Handleman elects to terminate its pension plans, Handleman faces the risk that the pension plans would be significantly underfunded. If the pension plans are underfunded, then Handleman would be required to contribute cash to meet the shortfall. If Handleman elects not to terminate the funds, but does not want to continue to actively fund the pension plans, then Handleman would be required to purchase a non-participating group annuity contract for all participants. If Handleman purchases a non-participating group annuity contract, Handleman would be required to pay a large amount of cash to do so. Handleman's options, with the exception of purchasing a non-participating group annuity contract, increase Handleman's regulatory risk that Government regulators may force the plans' termination, which would require a large cash contribution to the Plan.

Table of Contents

Handleman foreign subsidiaries will have to pass a Solvency Test in order to remit a dividend to Handleman Company, the parent company.

As foreign operations are sold and cash is generated, Handleman must establish that its foreign subsidiaries are solvent prior to them paying a dividend to Handleman. To the extent that Handleman Company is relying on this dividend as part of its cash management efforts, a foreign subsidiary's inability to remit the dividend could create substantial financial risks for Handleman's liquidity. As the insolvency test relates to Handleman Canada, Handleman may have to meet its obligations related to the Canadian pension plan prior to the Canadian subsidiary remitting a dividend. As it relates to Handleman UK, Handleman Company may have to resolve all outstanding vendor payment disputes prior to the UK subsidiary remitting a dividend to Handleman. If foreign subsidiaries remit a dividend to Handleman during a period when such foreign subsidiaries are considered insolvent, then the Directors of those subsidiaries may be subjected to legal consequences, for which Handleman would have to provide them with indemnification.

Handleman's inability to retain the services of its current personnel may impact its ability to successfully sell the assets of the Company.

Handleman's ability to successfully sell the assets of the Company is dependent, in large part, upon its ability to retain its remaining personnel. The retention of qualified personnel is particularly difficult under the current circumstances. While Handleman has offered its critical employees retention and severance plans, there is no legal obligation that would require the employee to remain employed at Handleman. In the event critical employees decided to terminate their employee relationships with Handleman, Handleman would have to retain outside consultants to perform their duties or offer a premium salary in order to hire employees to work for the Company.

Handleman may eventually rely on outside consultants and advisors to perform critical functions.

As Handleman progresses in the sale of its assets, it may become more dependent on outside consultants and advisors to perform critical functions. While Handleman anticipates that it will maintain Handleman employees in certain critical accounting, finance and tax positions, Handleman may have to rely on consultants, outside legal counsel and other contractors to perform day-to-day tasks. There is a risk that these non-Handleman employees will have interests and arrangements that may be different from our shareholders' interests, including, but not limited to, other client priorities and relationships with entities that we may do business with in the future.

Dissolution Under Michigan Law

Section 804 of the Michigan Business Corporation Act (the "MBCA") provides that a corporation may dissolve upon the recommendation of dissolution by the corporation's Board of Directors followed by a favorable vote of the holders of a majority of the outstanding shares of the corporation entitled to vote. Following such approval, the dissolution will be effected by filing a certificate of dissolution with the State of Michigan. Once a Michigan corporation is dissolved, its existence is automatically continued solely for the purpose of winding up its business. The process of winding up includes:

Collecting its assets;

Selling or otherwise transferring assets which are not to be distributed to the shareholders;

Paying its debts and other liabilities; and

Doing all other acts incident to the liquidation of its business and affairs.

Table of Contents

Subject to the limitation that the existence of the Company after the filing of the certificate of dissolution is to be limited to purposes related to the winding-up of the business, pursuant to Section 834 of the MBCA the day-to-day corporate governance of the Company will remain largely unaffected. Without limiting the generality of the foregoing, the filing of the certificate of dissolution does not in any way affect the following:

The duties of the Directors (directors of the corporation are not deemed to be trustees of the Company's assets and shall be held to no greater standard than existed prior to the filing of the Certificate of Dissolution);

Title to the corporation's assets;

The corporation's pre-Certificate of Dissolution voting requirements;

The ability of the corporation's shares to be transferred; or

Legal suits or actions brought by or against the corporation.

The MBCA includes procedures pursuant to which written notice may be given to existing claimants of a dissolved corporation. Such notice must include a description of the information that must be included in a claim, the mailing address where claims may be sent, the deadline, not later than six months after the effective date of the notice, by which the dissolved corporation must receive the claim and a statement that claims will be barred if not received by the deadline. The MBCA also includes procedures pursuant to which the dissolved corporation may publish notice of dissolution, stating that claims that are not brought within one year of the publication date will be barred. Subject to certain specified exceptions, claims that are not brought within such periods will be barred.

Under Section 855a of the MBCA, before making a distribution to its shareholders, a dissolved corporation must pay or make provision for its debts, obligations and liabilities. Provision must also be made for the payment of debts, obligations and liabilities anticipated to arise after the effective date of the dissolution, but no provision need be made for any claim reasonably expected to be barred after notice or publication as provided above. After payment or provision for debts, obligations and liabilities, the remaining assets of the dissolved corporation are to be distributed to shareholders in accordance with their respective interests.

Certain U.S. Federal Income Tax Consequences

The following discussion is a general summary of certain U.S. federal income tax consequences of the Plan of Liquidation to Handleman and to current holders of the Company's common shares who are United States persons, as defined in the Internal Revenue Code of 1986, as amended (the Code), and who hold such shares as capital assets, as defined in the Code. The discussion does not purport to be a complete analysis of all of the potential tax effects of the Plan of Liquidation. Tax considerations applicable to a particular shareholder will depend on that shareholder's individual circumstances. The discussion addresses neither the tax consequences that may be relevant to particular categories of shareholders subject to special treatment under certain U.S. federal income tax laws (such as dealers in securities, banks, insurance companies, tax-exempt organizations, mutual funds, financial institutions, broker-dealers, regulated investment companies, real estate investment companies, real estate mortgage investment conduits and foreign individuals and entities) nor any tax consequences arising under the laws of any state, local or foreign jurisdiction. In addition, the discussion does not consider the tax treatment of partnerships or other pass-through entities or persons who hold the Company's shares through such entities.

The discussion is based upon the Code, U.S. Department of the Treasury regulations, rulings of the Internal Revenue Service (the IRS) and judicial decisions now in effect, all of which are subject to change or to varying interpretation at any time. Any such changes or varying interpretations may also be applied retroactively. The following discussion has no binding effect on the IRS or the courts, and assumes that the Company will liquidate substantially in accordance with the Plan of Liquidation.

The Company can give no assurance that the tax treatment described herein will remain unchanged. No ruling has been requested from the IRS with respect to the anticipated tax treatment of the Plan of Liquidation, and the Company will not seek either such a ruling or an opinion of counsel with respect to the anticipated tax treatment. If any tax consequences or facts prove not to be as anticipated and described herein, the result could be increased taxation at the shareholder level.

Table of Contents

This discussion of certain U.S. federal income tax consequences was not intended or written to be used as, and cannot be used by you, in the purpose of avoiding penalties that may be imposed on you. This discussion was written to support the solicitation of your vote or as instructions to vote your Common Stock.

Shareholders are urged to consult their own tax advisors as to the specific tax consequences to them in connection with the Company's dissolution and the Plan of Liquidation, including tax reporting requirements, the applicability and effect of foreign, federal, state, local and other applicable tax laws and the effect of any proposed changes in the tax laws.

Consequences to Handleman

Handleman may recognize gain or loss on the sale or other taxable disposition of any of its assets (including most in-kind liquidation distributions to its shareholders, if any) pursuant to the Plan of Liquidation to the extent of the difference between the amount realized on such sale (or the fair market value of the asset) and its tax basis in such asset.

Consequences to Shareholders

Gain or Loss on Liquidation. Amounts received by shareholders pursuant to the liquidation will be treated as full payment in exchange for their Common Stock. As a result of the Company's liquidation, a shareholder generally will recognize gain or loss equal to the difference between (i) the amount of cash and/or fair market value of property distributed to such shareholder, reduced by any known liabilities assumed by the shareholder or to which the distributed property is subject, and (ii) such shareholder's tax basis in the Common Stock.

A shareholder's gain or loss will be computed on a per share basis, so that gain or loss is calculated separately for blocks of Common Stock acquired at different dates or for different prices. Each liquidation distribution will be allocated proportionately to each share of Common Stock owned by a shareholder and will be applied first to recover a shareholder's tax basis with respect to such share of Common Stock. Gain will be recognized in connection with a liquidation distribution allocated to a share of Common Stock only to the extent that the aggregate value of all liquidation distributions received by a shareholder with respect to that share exceeds such shareholder's tax basis for that share. Any loss generally will be recognized only when a shareholder receives the Company's final distribution to shareholders and then only if the aggregate value of the liquidation distributions with respect to a share of Common Stock is less than the shareholder's tax basis for that share. If a shareholder is required to return any distribution, any payments by a shareholder in satisfaction of any contingent liabilities of the Company which are described in greater detail elsewhere in this proxy statement, would produce a loss in the year paid. Gain or loss recognized by a shareholder in connection with the Company's liquidation generally will be capital gain or loss, and will be long-term capital gain or loss if the share has been held for more than one year, and short-term capital gain or loss if the share has not been held for more than one year. Long-term capital gain of non-corporate taxpayers may be subject to more favorable tax rates than ordinary income or short-term capital gain. The deductibility of capital losses is subject to various limitations.

Back-Up Withholding. Unless a shareholder complies with certain reporting and/or Form W-9 certification procedures or is an exempt recipient under applicable provisions of the Code and Treasury Regulations, he, she or it may be subject to back-up withholding tax with respect to any payments received pursuant to the liquidation. The back-up withholding tax is currently imposed at a rate of 28%. Back-up withholding generally will not apply to payments made to some exempt recipients such as a corporation or financial institution or to a shareholder who furnishes a correct taxpayer identification number or provides a certificate of foreign status and provides certain other required information. If back-up withholding applies, the amount withheld is not an additional tax, but is credited against the shareholder's U.S. federal income tax liability.

The Board of Directors has unanimously adopted the Plan of Liquidation and unanimously recommends that you vote FOR the approval of Plan of Liquidation.

III. THE ADJOURNMENT PROPOSAL

The adjournment proposal allows the Board of Directors or the Chairman of the Board, in their discretion, to submit a proposal to adjourn the annual meeting to a later date or dates, if necessary, to permit further solicitation of proxies in the event, based on the tabulated votes, there are not sufficient votes at the time of the annual meeting to approve the dissolution and Plan of Liquidation.

Consequences if Adjournment Proposal is not Approved

If an adjournment proposal is presented at the meeting and is not approved by the shareholders, the Board of Directors or the Chairman of the Board may not be able to adjourn the annual meeting to a later date in the event, based on the tabulated votes, there are not sufficient votes at the time of the annual meeting to approve the dissolution and Plan of Liquidation. In such event, Handleman will not be able to dissolve and liquidate.

Required Vote

Adoption of the adjournment proposal requires the affirmative vote of a majority of the issued and outstanding shares of Common Stock represented in person or by proxy at the annual meeting.

The Company's Board of Directors unanimously recommends that the Company's shareholders vote FOR the approval of the adjournment proposal.

IV. RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Grant Thornton LLP and PricewaterhouseCoopers LLP served as the independent registered public accounting firms for the Company. Grant Thornton LLP reported on the Company's consolidated financial statements for the fiscal year ended May 3, 2008. PricewaterhouseCoopers LLP reported on the interim consolidated financial statements for the first, second, and third quarters of the fiscal year ended May 3, 2008 and reported on the Company's consolidated financial statements for the fiscal year ended April 28, 2007. For fiscal years 2008 and 2007, the Company's independent registered public accounting firm was appointed by the Audit Committee. The Board of Directors concurred with that selection in an advisory capacity.

The Sarbanes-Oxley Act requires that each corporation's audit committee be directly responsible for appointing the independent registered public accounting firm. The Audit Committee has selected Grant Thornton LLP as the Company's independent registered public accounting firm for the fiscal year ending May 2, 2009. The Board of Directors has concurred in an advisory capacity with that selection.

As a matter of good corporate governance, the Audit Committee has elected to submit its selection of the independent registered public accounting firm to the shareholders for ratification.

In the event the shareholders do not ratify this appointment, the Audit Committee will reconsider whether to engage Grant Thornton LLP, but may ultimately determine to engage Grant Thornton LLP or another independent registered public accounting firm without re-submitting the matter to the shareholders.

Even if the appointment is ratified by the shareholders, the Audit Committee, in its discretion, may appoint a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in the best interests of the Company and its shareholders.

The Audit Committee considers Grant Thornton LLP well qualified, with offices or affiliates in or near the Company's locations in the U.S. and other countries where the Company operates.

The lead and concurring partners of Grant Thornton LLP assigned to audit the Company rotate off the engagement after five years, and may not recur on the engagement for five years.

Table of Contents

Representatives from Grant Thornton LLP will be present at the Annual Meeting of Shareholders and will be provided the opportunity to make a statement at the meeting if they desire, and will also be available to respond to appropriate questions.

THE BOARD RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF GRANT THORNTON LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING MAY 2, 2009.

Independent Registered Public Accounting Firm Fees:

The Audit Committee's current practice on approval of services performed by the independent registered public accounting firm is to pre-approve all audit services and permissible non-audit services to be provided, providing the opportunity to assess the impact of the service on the auditor's independence. In addition, the Audit Committee has delegated authority to grant certain pre-approvals to the Audit Committee Chairman. Pre-approvals granted by the Audit Committee Chairman are reported to the full Audit Committee at its next regularly scheduled meeting. In fiscal 2008 all non-audit services were pre-approved by the Audit Committee.

The Audit Committee determined that the non-audit services provided (and the fees billed for such services) by Grant Thornton LLP and PricewaterhouseCoopers LLP during fiscal 2008 and 2007 were compatible with maintaining their independence.
