Item 2.05 Costs Associate with Exit or Disposal Activities.

On June 22, 2005, I-trax, Inc. commenced implementation of a restructuring plan pursuant to which I-trax will:

- o Write-off software development costs associated with products that are no longer sold by I-trax and that will not be supported in the future.
- o Record a goodwill impairment charge related to the acquisitions of iSummit Partners, LLC and WellComm Group, Inc., which I-trax acquired in 2001 and 2002, respectively.
- o Incur expenses associated with terminating 33 employees and other restructuring charges.

I-trax commenced the restructuring plan following an in-depth analysis of its structure and product development efforts. This analysis led to the conclusion that certain I-trax products and services were no longer essential to the company's integrated business model, and that certain contracts, personnel, goodwill, intangible assets, and software associated with these non-core products and services should be terminated or written off. The restructuring is expected to make a material improvement in I-trax's profitability and cash flow. I-trax expects to substantially complete the restructuring by June 30, 2005.

I-trax anticipates that the total charges associated with the restructuring will be in the range of \$12 to \$16 million. I-trax expects to recognize most of these charges during the three month reporting period ending June 30, 2005. Up to \$12.5 million of the charges will be associated with impairment of goodwill, software development costs and other assets. Up to \$3.5 million of the charges will be associated with other restructuring expenses, including employee terminations.

A press release announcing the restructuring is attached to this Current Report as Exhibit 99.1.

Item 2.06 Material Impairments.

I-trax's disclosure in Item 2.05 above is incorporated in this Item 2.06 by reference.

Item 9.01 Financial Statements and Exhibits.
