ENGLOBAL CORPORATION ANNOUNCES SECOND QUARTER RESULTS

HOUSTON, TX, AUGUST 9, 2004 - ENGlobal Corporation (AMEX: ENG), a leading provider of engineering services, today reported net income of \$0.02 per share for the quarter ended June 30, 2004, equivalent to results from the same period in 2003. Revenues increased by \$5,011,000, or 17%, for the three months ended June 30, 2004 compared to the three months ended June 30, 2003. The engineering segment reported a significant increase in sales during the period, while the systems segment reported a decrease. This increase in revenue was primarily due to revenue recognized in the Company's engineering segment from procurement and subcontracting activities on a large co-generation project that began in 2003.

The Company's gross profit decreased by \$84,000 for the three months ended June 30, 2004 as compared to the three months ended June 30, 2003. The gross profit for engineering services, after excluding procurement and subcontract activities, increased to 17.8% from 17.3% for the three months ended June 30, 2003. Overall, the engineering segment's gross profit decreased \$117,000 while the systems segment's gross profit increased \$33,000 when results from the three months ended June 30, 2004 are compared to the results for the three months ended June 30, 2003. Expenses related to selling, general and administrative, including depreciation and amortization, increased \$254,100 or 8.2% for the three months ended June 30, 2004 as compared to the same period in 2003. The increase was primarily from the combined selling, general and administrative expenses relating to internal growth initiatives that began operations during the fourth quarter of 2003 and the first quarter of 2004.

The Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2004 will be filed with the Securities and Exchange Commission on or about August 10, 2004 reflecting these results.
