EXPLANATORY NOTE

We are filing this Amendment No. 1 on Form 10-Q/A (the Amended Filing) to our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2013 originally filed with the Securities and Exchange Commission (Commission) on August 12, 2013 (the Original Filing) to restate our financial statements as of June 30, 2013 and for the three- and nine-month periods ended June 30, 2013 to record a non-cash deemed dividend of approximately \$293,000 related to a beneficial conversion feature present in the Company s 6% Senior Convertible Preferred Stock, par value \$0.01 per share (the Convertible Preferred Stock), which was issued on June 28, 2013, to adjust the related carrying value of the convertible preferred stock and warrants, and to update the related disclosures in the Original Filing.

Description of the Restatement

The effect of the non-cash deemed dividend is to increase net loss applicable to common equity by approximately \$293,000 and to increase the basic and diluted loss per share from continuing operations by \$0.04 for the three-month period ended June 30, 2013 and to decrease net income available to common equity by approximately \$293,000 and to decrease basic and diluted earnings per share from continuing operations by approximately \$0.04 for the nine-month period ended June 30, 2013. Additionally, the effect on the consolidated balance sheet at June 30, 2013 was to increase both additional paid-in capital and the accumulated deficit by approximately \$293,000. The effect of adjusting the carrying value of the convertible preferred stock and warrants was to increase accrued expenses and other current liabilities and reduce convertible preferred stock by approximately \$51,000 on the consolidated balance sheet as of June 30, 2013. The adjustments did not have an effect on our previously reported net loss for the three and nine months ended June 30, 2012, or assets on the consolidated balance sheet as of June 30, 2013 or the consolidated statement of cash flows for the nine month period ended June 30, 2013.

Items Amended in this Filing

This Amended Filing amends and restates the following items of our Original Filing for the quarterly period ended June 30, 2013:

Part I Item 1. Financial Statements, including Note 2, Restatement of Previously Issued Financial Statements

Part I Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

Part I Item 4. Controls and Procedures

Part II Item 1A. Risk Factors

Part II Item 6. Exhibits

Edgar Filing: FORWARD INDUSTRIES INC - Form 10-Q/A

In accordance with applicable Commission rules, this Amended Filing includes new certifications as required by Rule 12b-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act) from our Principal Executive Officer and Principal Financial Officer dated as of the date of filing this Amended Filing.

Except for the items noted above, no other information included in the Original Filing is being amended or updated by this Amended Filing. This Amended Filing continues to describe the conditions as of the date of the Original Filing, and, except as contained herein, we have not updated or modified the disclosures contained in the Original Filing. Accordingly, this Amended Filing should be read in conjunction with our filings made with the Commission subsequent to the filing of the Original Filing, including any amendment to those filings.

Forward Industries, Inc.

NOTE 1 OVERVIEW

Forward Industries, Inc. ("Forward" or the Company) was incorporated under the laws of the State of New York and began operations in 1961 as a manufacturer and distributor of specialty and promotional products. The Company designs, markets, and distributes carry and protective solutions, primarily for hand held electronic devices. The Company's principal customer market is original equipment manufacturers, or OEMs (or the contract manufacturing firms of these OEM customers), that either package its products as accessories in box together with their branded product offerings, or sell them through their retail distribution channels. The Company's OEM products include carrying cases and other accessories for medical monitoring and diagnostic kits and a variety of other portable electronic and non-electronic products (such as sporting & recreational products, bar code scanners, smartphones, GPS location devices, tablets, and firearms). The Company's OEM customers are located in the Americas, the EMEA Region, and the APAC Region. The Company does not manufacture any of its OEM products and sources substantially all of its OEM products from independent suppliers in China (refer to Note 10 Buying Agency and Supply Agreement).

On June 21, 2012, the Company determined to exit its global Retail business and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business.

In the opinion of management, the accompanying consolidated financial statements presented in this Quarterly Report on Form 10-Q/A reflect all normal recurring adjustments necessary to present fairly the financial position and results of operations and cash flows for the interim periods presented herein, but are not necessarily indicative of the results of operations for the fiscal year ending September 30, 2013. These financial statements should be read in conjunction with the Company's audited consolidated financial statements included in its Annual Report on Form 10-K for the fiscal year ended September 30, 2012, and with the disclosures and risk factors presented herein and therein, respectively. The September 30, 2012 balance sheet has been derived from the audited consolidated financial statements.

NOTE 2 RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

The Company has restated its financial statements for the three- and nine-month periods ended June 30, 2013, due to the recognition of a non-cash deemed dividend of approximately \$293,000 related to a beneficial conversion feature present in the Company's 6% Senior Convertible Preferred Stock which was issued on June 28, 2013. Additionally, the Company has restated its consolidated balance sheet as of June 30, 2013 to adjust the carrying value of the convertible preferred stock and warrants by approximately \$51,000. See Note 6. The adjustments did not have an effect on the Company's previously reported net income (loss) for the three and nine month periods ended June 30, 2013, total assets on the consolidated balance sheet as of June 30, 2013, or the consolidated statement of cash flows for the nine

months ended June 30, 2013.

A summary of the impact of the restatement on the Consolidated Balance Sheet and Consolidated Statements of Operations and Comprehensive Income (Loss) are as follows:

NOTE 3 ACCOUNTING POLICIES

Accounting Estimates

The preparation of the Company's consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of Forward and its wholly owned subsidiaries (Forward US, Forward Switzerland, Forward HK, Forward APAC, and Forward UK). All significant intercompany transactions and balances have been eliminated in consolidation.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of cash on deposit and highly liquid money market accounts, short-term bonds, and certificates of deposit with original contractual maturities of three months or less, predominately in U.S. dollar denominated instruments. The Company may purchase these short-term bonds with anticipated maturity of 90 days or less at a premium or discount. The Company records these investments as cash and cash equivalents net of amortization of premium or discount. The Company minimizes its credit risk associated with cash and cash equivalents by investing in high quality instruments and by periodically evaluating the credit quality of the primary financial institution issuers of such instruments. The Company holds cash and cash equivalents at major financial institutions in the United States, at which cash amounts may significantly exceed the Federal Deposit Insurance Corporation's insured limits. At June 30, 2013, this amount was approximately \$3.8 million. Historically, the Company has not experienced any losses due to such cash concentrations.

Marketable Securities

At June 30, 2013, the Company has investments in marketable securities that are classified as trading and are recorded at fair value with the corresponding unrealized holding gains or losses recognized in earnings. The fair value of marketable securities is determined based on quoted market prices at the consolidated balance sheet dates. The cost of marketable securities sold is determined by the specific identification method. At September 30, 2012, the Company

classified its investments in marketable securities as available-for-sale. Securities that are classified as available-for-sale are recorded at fair value with the corresponding unrealized holding gains and losses, net of taxes, are recorded as a separate component of Accumulated Other Comprehensive Loss within shareholders' equity.

Accounts Receivable

Accounts receivable consist of unsecured trade accounts with customers or their contract manufacturers. The Company performs periodic credit evaluations of its customers including an evaluation of days outstanding, payment history, recent payment trends, and perceived creditworthiness, and believes that adequate allowances for any uncollectible receivables are maintained. Credit terms to customers generally range from net thirty (30) days to net ninety (90) days. The Company has not historically experienced significant credit or collection problems with its OEM customers or their contract manufacturers. At June 30, 2013, the allowance for doubtful accounts with respect to its continuing operations was approximately \$22,000. The Company did not require an allowance for doubtful accounts with respect to its continuing operations at September 30, 2012.

Forward Industries, Inc.

NOTE 3 ACCOUNTING POLICIES (CONTINUED)

Inventories

Inventories consist primarily of finished goods and are stated at the lower of cost (determined by the first-in, first-out method) or market. Based on management's estimates, an allowance is made to reduce excess, obsolete, or otherwise un-saleable inventories to net realizable value. The allowance is established through charges to cost of goods sold in the Company's consolidated statements of operations and comprehensive income (loss). As reserved inventory is disposed of, the Company charges off the associated allowance. In determining the adequacy of the allowance, management's estimates are based upon several factors, including analyses of inventory levels, historical loss trends, sales history, and projections of future sales demand. The Company's estimates of the allowance may change from time to time based on management's assessments, and such changes could be material. The Company did not require an allowance for obsolete inventory with respect to its continuing operations at June 30, 2013. At September 30, 2012, the allowance for obsolete inventory of the Company's continuing operations was approximately \$99,000.

Property and Equipment

Property and equipment consist of furniture, fixtures, and equipment and leasehold improvements and are recorded at cost. Expenditures for major additions and improvements are capitalized, and minor replacements, maintenance, and repairs are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method. The estimated useful life for furniture, fixtures and equipment ranges from three to ten years. Amortization of leasehold improvements is computed using the straight-line method over the shorter of the remaining lease term or the estimated useful lives of the improvements. For the three-month periods ended June 30, 2013 and 2012, the Company recorded approximately \$19,000 and \$30,000 of depreciation and amortization expense from continuing operations, respectively. For the nine-month periods ended June 30, 2013 and 2012, the Company recorded approximately \$56,000 and \$83,000 of depreciation and amortization expense from continuing operations, respectively.

Income Taxes

The Company accounts for its income taxes in accordance with accounting principles generally accepted in the United States of America, which requires, among other things, recognition of future tax benefits and liabilities measured at enacted rates attributable to temporary differences between financial statement and income tax bases of assets and liabilities and to net tax operating loss carry-forwards to the extent that realization of these benefits is more likely than not. The Company periodically evaluates the realizability of its net deferred tax assets. See Note 8 to these Notes to Consolidated Financial Statements. The Company's policy is to account for interest and penalties relating to income taxes, if any, in income tax expense in its consolidated statements of operations and comprehensive income (loss) and

include accrued interest and penalties within the accrued liabilities in its consolidated balance sheets, if applicable. For the three and nine month periods ended June 30, 2013 and 2012, no income tax related interest or penalties were assessed or recorded.

6% Senior Convertible Preferred Stock

Temporary Equity

In accordance with Accounting Standards Codification (ASC) 480-10-s99 and Accounting Series Release (ASR) ASR 268, equity securities are required to be classified out of permanent equity and classified as temporary equity, as the redemption of the convertible preferred stock is not solely within the control of the Company since it is at the option of the holder.

Forward Industries, Inc.

NOTE 3 ACCOUNTING POLICIES (CONTINUED)

6% Senior Convertible Preferred Stock (Continued)

Warrants

In accordance with ASC 815-40, the Company's warrants have been classified as a liability, at fair value, as a result of a related registration rights agreement that contains certain requirements for registering the underlying common shares, but has no provision for penalties upon the failure to register. At each balance sheet date, this liability's fair value will be re-measured and adjusted. The liability associated with the warrants is included in the Accrued expenses and other current liabilities line of the consolidated balance sheet.

Preferred Stock Accretion

The carrying amount of the convertible preferred stock is less than the redemption value. As a result of the Company's determination that redemption is probable, the carrying value will be increased by periodic accretions so that the carrying value will equal the redemption amount at the earliest redemption date. Such accretion is recorded as a preferred stock dividend.

Preferred Stock Beneficial Conversion Feature

On the date of issuance, the fair value, or carrying amount, of the securities could be converted into common stock at a discount to the market price of the underlying common stock at the conversion date. Such embedded beneficial conversion feature, which is equal to the difference between the accounting conversion price and the fair value of the common stock, is analogous to a dividend and has been recorded as a return to preferred stockholders as of the date of issuance, which is the earliest possible conversion date.

Revenue Recognition

The Company generally recognizes revenue from product sales to its customers when: (1) title and risk of loss are transferred (in general, these conditions occur at either point of shipment or point of destination, depending on the terms of sale); (2) persuasive evidence of an arrangement exists; (3) the Company has no continuing obligations to the customer; and (4) collection of the related accounts receivable is reasonably assured.

Shipping and Handling Costs

The Company classifies shipping and handling costs including inbound and outbound freight charges, purchasing and receiving costs, inspection costs, warehousing costs, internal transfer costs, and other costs associated with the Company's Asia-based distribution capability, as a component of cost of goods sold in the accompanying consolidated

statements of operations and comprehensive income (loss).

Foreign Currency Transactions

The functional currency of the Company and its wholly-owned foreign subsidiaries is the U.S. dollar (except for Forward UK, which is the British Pound). Foreign currency transactions may generate receivables or payables that are fixed in terms of the amount of foreign currency that will be received or paid. Fluctuations in exchange rates between such foreign currency and the functional currency increase or decrease the expected amount of functional currency cash flows upon settlement of the transaction. These increases or decreases in expected functional currency cash flows are foreign currency transaction gains or losses that are included in other income (expense), net in the accompanying consolidated statements of operations and comprehensive income (loss). The approximate net losses from foreign currency transactions for continuing operations was \$(3,000) and \$(26,000) for the three-month periods ended June 30, 2013 and 2012, respectively. For the nine-month periods ended June 30, 2013 and 2012, the Company recorded \$(17,000) and \$(46,000), respectively, in approximate foreign currency transaction losses. Such foreign currency transaction losses were primarily the result of Euro denominated sales to certain customers.

Forward Industries, Inc.

NOTE 3 ACCOUNTING POLICIES (CONTINUED)

Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss, which is included as a component of shareholders' equity, includes unrealized gains or losses on available-for-sale securities (as of September 30, 2012) and currency translation adjustments related to the Company's foreign subsidiaries.

Fair value of financial instruments

For certain of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, and other accrued liabilities, the carrying amount approximates fair value due to the short-term maturities of these instruments. The Company records its financial instruments that are accounted for under Accounting Standard Codification (ASC) 320, Investments-Debt and Equity Securities (ASC 320) at fair value. In addition, the Company records its warrant liability at fair value. The determination of fair value is based upon the fair value framework established by ASC 820 Fair Value Measurement. ASC 820 provides that a fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The fair value hierarchy is broken down into three levels based on the source of inputs as follows: (a) Level 1 valuations based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities; (b) Level 2 valuations based on quoted prices in markets that are not active, or financial instruments for which all significant inputs are observable; either directly or indirectly; and (c) Level 3 valuations based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable, thus, reflecting assumptions about the market participants.

Share-Based Compensation

The Company recognizes share-based compensation in its consolidated statements of operations and comprehensive income (loss) at the grant-date fair value of stock options and other equity-based compensation. The determination of grant-date fair value is estimated using the Black-Scholes option-pricing model, which includes variables such as the expected volatility of the Company's share price, the exercise behavior of its grantees, interest rates, and dividend yields. These variables are projected based on the Company's historical data, experience, and other factors. In the case of awards with multiple vesting periods, the Company has elected to use the graded vesting attribution method, which recognizes compensation cost on a straight-line basis over each separately vesting portion of the award as if the award was, in-substance, multiple awards. Refer to Note 6 Share-Based Compensation. In addition, the Company recognizes share-based compensation to non-employees based upon the fair value, using the Black-Scholes option pricing model, determined at the deemed measurement dates over the related contract service period.

Recent Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update 2013-02 Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income (ASU 2013-02). ASU 2013-02 requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. ASU 2013-02 is effective for annual periods and interim periods within those periods beginning after December 15, 2012. ASU 2013-02 will be effective for the Company beginning in the first quarter of fiscal 2014 and is not expected to have a material impact on the Company's Consolidated Financial Statements.

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes (ASC Topic 740) - Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The objective is to end some inconsistent practices with regard to the presentation on the balance sheet of unrecognized tax benefits. The update is effective for financial statement periods beginning after December 15, 2013, with early adoption permitted. The Company will adopt this standard beginning January 1, 2014. The Company does not expect these changes to have a material impact on its consolidated financial statements.

Forward Industries, Inc.**NOTE 4 DISCONTINUED OPERATIONS**

On June 21, 2012, the Company determined to exit its global Retail business and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. Accordingly, the results of operations for the Retail division have been recorded as discontinued operations in the accompanying consolidated financial statements for the fiscal periods presented. Summarized operating results of discontinued operations are presented in the following table:

	For the Three-Month Periods Ended June 30		For the Nine-Month Periods Ended June 30,

The above asset amounts as of June 30, 2013, include approximately \$311,000 relating to expected payments pursuant to a Settlement Agreement and General Release (Settlement Agreement) executed on July 3, 2013 between the Company and G-Form LLC (G-Form) in exchange for certain retail inventories, the Company's cooperation with

certain administrative matters, and a mutual general release. G-Form paid \$31,000 of the settlement in July 2013 with the balance due 60 days after delivery of the retail inventory, which occurred in August 2013. The Company has substantially completed its exit of its Retail business as of March 31, 2013. The Company has not had, and does not expect to have, any continuing involvement in the Retail business after this date.

Forward Industries, Inc.**NOTE 5 MARKETABLE SECURITIES**

The Company classifies its marketable securities as either (i) held-to-maturity, (ii) trading, or (iii) available-for-sale. Effective October 1, 2012, the Company changed its classification of marketable equity securities and corporate bonds from available-for-sale to trading. As a result of this reclassification, a gross gain of \$4,764 and a gross loss of \$(28,508) was reclassified out of accumulated other comprehensive income (loss) and charged to earnings using a specific identification basis. Equity securities are carried at fair value, as determined by quoted market prices, which is a Level 1 input, as established by the fair value hierarchy under ASC 820. Corporate bonds are carried at amortized cost, which approximates market value. The corresponding unrealized holding gains or losses are recognized in earnings. The Company's marketable securities are summarized in the table below:

	June 30, 2013	September 30, 2012

NOTE 6 SHAREHOLDERS EQUITY

Blank Check Preferred Stock

The Company is authorized to issue up to 4,000,000 shares of "blank check" preferred stock. The Board of Directors (the Board) has the authority and discretion, without shareholder approval, to issue preferred stock in one or more series for any consideration it deems appropriate, and to fix the relative rights and preferences thereof including their redemption, dividend and conversion rights. Of these shares, 1,500,000 shares have been authorized as the 6% Senior Convertible Preferred Stock and 100,000 shares have been authorized as the Series A Preferred Stock.

6% Senior Convertible Preferred Stock with Warrants

On June 28, 2013, the Company completed the sale of (i) 381,674 shares of its newly authorized 6% Senior Convertible Preferred Stock, par value \$0.01 per share (the Convertible Preferred Stock) and (ii) warrants to purchase a total of 381,674 shares of the Company's common stock (Common Stock) (the Warrants) and together with the Convertible Preferred Stock, the Securities) to accredited investors (Investors) in a private placement (the Private Placement) pursuant to the terms of securities purchase agreements, dated June 28, 2013 (the Purchase Agreements), by and between the Company and each Investor. The total purchase price paid by Investors for each share of Convertible Preferred Stock and Warrant purchased by them was \$1.965, consisting of (i) a fair value of \$1.145 in respect of the Convertible Preferred Stock, plus (ii) a fair value of \$0.82 in respect of the Warrant. The Private Placement resulted in gross proceeds of approximately \$750,000 to the Company. The Company has received \$180,000 of these proceeds in cash as of June 30, 2013, net of issuance costs of approximately \$69,000, which is reflected in the Cash and cash equivalents line of the Company's consolidated balance sheets. These proceeds of \$750,000 have been allocated to the Convertible Preferred Stock and the Warrants based upon their fair values assigned (net of issuance costs of approximately \$69,000) of approximately \$397,000 and \$284,000, respectively. The remaining approximate \$500,000 of proceeds was received in July 2013 and is reflected in Prepaid expenses and other current assets line on the Company's consolidated balance sheet as of June 30, 2013. The Company may sell additional shares of Convertible Preferred Stock, together with related Warrants, in one or more subsequent closings.

The Private Placement included purchases of Securities by two directors of the Company that, in the aggregate, purchased 114,502 shares of Convertible Preferred Stock and Warrants.

The Warrants have an initial exercise price of \$1.84 per share, subject to adjustment upon the occurrence of certain customary events. The Warrants are exercisable at any time on or after January 1, 2014 (the Initial Exercise Date) and terminate on the 10-year anniversary of the Initial Exercise Date.

Each share of Convertible Preferred Stock is convertible into shares of Common Stock at an initial conversion price of \$1.84 per share, subject to adjustment upon the occurrence of certain customary events (the Conversion Price). At the initial Conversion Price, the 381,674 shares of Preferred Stock issued at the initial closing are convertible into an aggregate of 407,599 shares of Common Stock.

As of June 30, 2013, the carrying value of the Convertible Preferred Stock was approximately \$397,000 and is included on the Company's consolidated balance sheets as temporary equity. The change in the carrying value, or accretion, of the Convertible Preferred Stock from the issuance date to June 30, 2013 is classified as a preferred stock dividend in the amount of approximately \$400 and is included as a component of Net loss applicable to common equity in calculating loss per share for the three and nine month periods ended June 30, 2013. As a result of the Convertible Preferred Stock containing a beneficial conversion feature, whereby the accounting conversion price is less than the fair value of the common stock, the Company recorded a preferred stock dividend in the amount of approximately \$293,000 for the three and nine months ended June 30, 2013. This amount has also been recorded as an increase to additional paid-in capital and included as a component of Net loss applicable to common equity for the three and nine months ended June 30, 2013.

Forward Industries, Inc.

NOTE 6 SHAREHOLDERS EQUITY (CONTINUED)

6% Senior Convertible Preferred Stock with Warrants (Continued)

Dividends on the Convertible Preferred Stock will be payable, on a cumulative basis, in cash, at the rate per annum of 6% of the Liquidation Preference (as defined below) and will be payable quarterly, in arrears, on each March 31, June 30, September 30 and December 31, commencing on September 30, 2013. The Company is prohibited from paying any dividend with respect to shares of Common Stock or other junior securities in any quarter unless full dividends are paid on the Convertible Preferred Stock in such quarter.

In the event of a liquidation (or deemed liquidation, as described below) of the Company, the holders of the Convertible Preferred Stock shall receive in preference to the holders of Common Stock and any junior securities of the Company an amount (the Liquidation Preference) equal to (i) \$1.965 (the Original Issue Price) per each outstanding share of Convertible Preferred Stock (subject to adjustment upon the occurrence of certain customary events), plus (ii) any accrued but unpaid dividends. A Change of Control of the Company (as defined in the Certificate of Amendment) will be treated as a liquidation at the option of the holders of a majority of the Convertible Preferred Stock; provided that the amount paid to holders of Convertible Preferred Stock in such event will be equal to 101% of the Original Issue Price, plus accrued but unpaid dividends.

Each share of Convertible Preferred Stock is convertible at any time, at the option of the holder, into one share of Common Stock at the then applicable Conversion Price. In addition, upon the consent of 80% of the holders of the Convertible Preferred Stock, the Convertible Preferred Stock automatically will be converted to shares of Common Stock at the then-applicable Conversion Price.

On or after June 28, 2018, the Company may, at its option and upon at least 30 days prior written notice to the holders of the Convertible Preferred Stock, redeem all or any portion of the outstanding Convertible Preferred Stock in cash at a redemption price equal to the full Liquidation Preference as of the redemption date. In addition, at any time on or after June 28, 2023, each holder of the Convertible Preferred Stock will have the right to require the Company to redeem (provided that funds are legally available to do so) all or any portion of such holder's outstanding Convertible Preferred Stock at a redemption price equal to the full Liquidation Preference of such shares of Convertible Preferred Stock as of the redemption date.

The Convertible Preferred Stock will vote together with the Common Stock on an as-converted basis on all matters except as required by law. In addition, for so long as 50% of the shares of Convertible Preferred Stock remains outstanding, without the approval of the holders of a majority of the Convertible Preferred Stock, voting as a separate class, the Company may not: (i) authorize or issue any equity security senior to the Convertible Preferred Stock; (ii) declare or pay any dividends on the Common Stock or any series of preferred stock that ranks junior to the Convertible Preferred Stock; (iii) increase or decrease the total number of authorized shares of Convertible Preferred Stock; (iv) alter or change the rights, preferences or privileges of the Convertible Preferred Stock so as to affect

materially and adversely the Convertible Preferred Stock; or (v) increase the authorized capitalization of the Company, or otherwise amend its certificate of incorporation or bylaws in a manner which adversely affects the rights or preferences of the Convertible Preferred Stock.

As of June 30, 2013, the liability associated with the Warrants was approximately \$284,000 (net of issuance costs of approximately \$29,000) and is included in the Accrued expenses and other current liabilities line of the Company's consolidated balance sheets.

Forward Industries, Inc.**NOTE 6 SHAREHOLDERS EQUITY (CONTINUED)****6% Senior Convertible Preferred Stock with Warrants (Continued)**

The fair value of the Warrants was determined using a Black-Scholes closed-form call option pricing model, which is considered a level 3 instrument under the fair value hierarchy. The fair value of the Warrants were estimated using the following assumptions as of June 30, 2013

Risk-free interest rate	2.5%

Anti-takeover Provisions*Shareholder Rights Plan*

On April 26, 2013, the Board adopted a Shareholder Rights Plan, as set forth in the Rights Agreement dated as of April 26, 2013 (the Rights Agreement), between the Company and American Stock Transfer & Trust Company, LLC, as Rights Agent. Pursuant to the Rights Agreement, the Board declared a dividend distribution of one Right (a Right) for each outstanding share of Company Common Stock, par value \$0.01 per share (the Common Stock) to shareholders of record at the close of business on May 6, 2013, which date will be the record date, and for each share of Common Stock issued (including shares distributed from treasury) by the Company thereafter and prior to the Distribution Date (as described below and defined in the Rights Agreement). Each Right entitles the registered holder, subject to the terms of the Rights Agreement, to purchase from the Company one one-thousandth of a share of Series A Participating Preferred Stock, \$0.01 par value per share (the Series A Preferred Stock), at an exercise price of \$4.00 per one one-thousandth of a share of Series A Preferred Stock, subject to adjustment.

Forward Industries, Inc.**NOTE 6 SHAREHOLDERS EQUITY (CONTINUED)****Anti-takeover Provisions (Continued)***Shareholder Rights Plan*

Initially, no separate Rights Certificates will be distributed and instead the Rights will attach to all certificates representing shares of outstanding Common Stock. Subject to certain exceptions specified in the Rights Agreement, the Rights will separate from the Common and become exercisable on the distribution date (the Distribution Date), which will occur on the earlier of (i) the 10th business day (or such later date as may be determined by the Board) after the public announcement that an Acquiring Person (as defined in the Rights Agreement) has acquired beneficial ownership of 20% or more of the Common Stock then outstanding or (ii) the 10th business day (or such later date as may be determined by the Board) after a person or group announces a tender or exchange offer that would result in a person or group of affiliated and associated persons beneficially owning 20% or more of the Common Stock then outstanding.

Blank Check Preferred Stock

As discussed above, the Company is authorized to issue up to 4,000,000 shares of "blank check" preferred stock. The Board has the authority and discretion, without shareholder approval, to issue preferred stock in one or more series for any consideration it deems appropriate, and to fix the relative rights and preferences thereof including their redemption, dividend and conversion rights. Of these shares, 1,500,000 shares have been authorized as the 6% Senior Convertible Preferred Stock and 100,000 shares have been authorized as the Series A Participating Preferred Stock.

Stock Repurchase

In September 2002 and January 2004, the Board authorized the repurchase of up to an aggregate of 486,200 shares of outstanding common stock. Under those authorizations, as of June 30, 2013, the Company had repurchased an aggregate of 172,603 shares at a cost of approximately \$403,000, but none during the three and nine-month periods ended June 30, 2013 and 2012.

NOTE 7 SHARE-BASED COMPENSATION

2011 Long Term Incentive Plan

In March 2011, shareholders of the Company approved the 2011 Long Term Incentive Plan (the 2011 Plan), which authorizes 850,000 shares of common stock for grants of various types of equity awards to officers, directors, employees, consultants, and independent contractors. Under the 2011 Plan, as of June 30, 2013, the Compensation Committee of the Company's Board of Directors (the Compensation Committee) has approved awards of stock options to purchase an aggregate of 1,315,000 shares of common stock to certain of the Company's executive officers and employees (1,020,000 shares), a consultant (160,000 shares), non-employee directors (130,000 shares), and to a non-employee executive officer (5,000 shares). Of these awards, as of June 30, 2013, 530,500 shares were forfeited and reverted to, and are eligible for re-grant under, the 2011 Plan. The total shares of common stock available for grants of equity awards under the 2011 Plan was 65,500 as of June 30, 2013. The prices at which equity awards may be granted and the exercise prices of stock options granted may not be less than the fair market value of the common stock as quoted at the close on the Nasdaq Stock Market on the grant date. The Compensation Committee administers the 2011 Plan. Options generally expire ten years after the date of grant and vest one year from the date of grant for non-employee directors, and, in the case of initial grants to officers and employees, vest over five years with 50%, 25% and 25% vesting on the third, fourth, and fifth anniversary of the grant date, respectively. Options granted under a consulting agreement in November 2011 expire three years after the grant date and vested equally over the term of the consulting agreement, which concluded February 29, 2012.

2007 Equity Incentive Plan

The 2007 Equity Incentive Plan (the 2007 Plan), which was approved by shareholders of the Company in May 2007, and, as amended in February 2010, authorizes an aggregate of 800,000 shares of common stock for grants of restricted common stock and stock options to officers, employees, and non-employee directors of the Company. Under the 2007 Plan, the Compensation Committee approved awards of restricted common stock and stock options of 977,375, in the aggregate, to certain officers, employees and non-employee directors. Of these awards, as of June 30, 2013, 278,366 shares were forfeited and reverted to, and are eligible for re-grant under, the 2007 Plan. The total shares of common stock available for grants of equity awards under the 2007 Plan was 100,991 as of June 30, 2013. The prices at which restricted common stock may be granted and the exercise price of stock options granted may not be less than the fair market value of the common stock as quoted at the close on the Nasdaq Stock Market on the grant date. The Compensation Committee administers the 2007 Plan. Options generally expire ten years after the date of grant, and in the case of non-employee directors, vest on the first anniversary of the date of grant. In the case of officers and employees, options either vest in equal amounts over three to five years or vest over five years with 50%, 25% and 25% vesting on the third, fourth, and fifth anniversary of the grant date, respectively. Restricted stock grants generally vest in equal proportions over three years.

1996 Stock Incentive Plan

The Company's 1996 Stock Incentive Plan (the "1996 Plan") expired in accordance with its terms in November 2006. The exercise price of incentive options granted under the 1996 Plan to officers, employees, and non-employee directors of the Company was required by 1996 Plan provisions to be equal at least to the fair market value of the common stock at the date of grant. In general, options under this plan expire ten years after the date of grant and generally vest in equal proportions over three years. Unexercised options granted prior to 1996 Plan expiration remain outstanding until the earlier of exercise or option expiration. Under the 1996 Plan 30,000 fully vested common stock options are the only awards that remain outstanding and unexercised, all at exercise prices higher than the fair market value of the common stock at June 30, 2013.

Forward Industries, Inc.**NOTE 7 SHARE-BASED COMPENSATION (CONTINUED)****Stock Option Awards**

Under the 2011 and 2007 Plans, the Compensation Committee has approved awards of stock options to purchase an aggregate of 1,737,500 shares of common stock to the Company's current and certain former non-employee directors, to certain key employees, to current and certain former Company officers, and to a consultant, of which awards covering 255,000 shares from the 2007 Plan and 530,500 shares from the 2011 Plan of common stock were forfeited, with such shares reverting to the respective plans and eligible for grant. The exercise prices of the awards granted was, in each case equal, to the closing market value of the Company's common stock on the Nasdaq Stock Market on the various grant dates.

The Company recognized an expense of approximately \$48,000 and a recovery of \$(81,000) of compensation in continuing operations for stock option awards in its consolidated statements of operations and comprehensive income (loss) for the three-month periods ended June 30, 2013 and 2012, respectively; and an expense of \$176,000 and a recovery of \$(142,000) for the nine-month periods ended June 30, 2013 and 2012, respectively

As of June 30, 2013, there was approximately \$193,000 of total unrecognized compensation cost related to 414,834 shares of unvested stock option awards granted under the 2007 and 2011 Plans, which is expected to be recognized over the remainder of the weighted average vesting period (extending to August 2016).

The following table summarizes stock option activity under the 2011 Plan and 2007 Plan, from September 30, 2012 through June 30, 2013 (there was no activity during such period with respect to the 1996 Plan grants):

During the nine-month period ended June 30, 2013, the Company granted 120,000 stock options at a weighted average grant date fair value of \$0.61. During the nine-month period ended June 30, 2012 the Company granted 420,000 stock options at a weighted average grant date fair value of \$0.96.

Forward Industries, Inc.**NOTE 7 SHARE-BASED COMPENSATION (CONTINUED)****Stock Option Awards (Continued)**

The fair value of each stock option on the date of grant was estimated using the Black-Scholes option-pricing formula applying the following assumptions for each respective period:

	For the Nine-Month Periods Ended June 30,	
	2013	2012
Expected term (in years)	5.0	3.0 to 5.0
Risk-free interest rate.....	0.6%-0.7%	0.04% to 0.83%
Expected volatility.....	70.0%-70.4%	63% to 69%
Expected dividend yield.....	0%	0%
Forfeiture rate.....	5%	13%

The expected term represents the period over which the stock option awards are expected to be outstanding. The Company based the risk-free interest rate used in its assumptions on the implied yield currently available on U.S. Treasury zero-coupon issues with a remaining term equivalent to the award's expected term. The volatility factor used in the Company's assumptions is based on the historical price of its stock over the most recent period commensurate with the expected term of the award. The Company historically has not paid any dividends on its common stock and had no intention to do so on the date the share-based awards were granted. Accordingly, the Company used a dividend yield of zero in its assumptions. The Company estimates the expected term, volatility and forfeitures of share-based awards based upon historical data. The Company adjusted its estimated forfeiture rate effective October 1, 2011 and recognized a recovery of approximately \$46,000 during the three-month period ended December 31, 2011.

Restricted Stock Awards

Under the 2011 Plan and 2007 Plan, the Compensation Committee has approved and granted awards of 554,875 shares of restricted stock, in the aggregate, to certain key employees. Of these awards, 160,134 have vested and 23,366 shares of restricted stock were forfeited and reverted to, and are eligible for re-grant under, the 2007 Plan. Vesting of restricted stock awards is generally subject to a continued service condition with one-third of the awards vesting each year on the three successive anniversary dates of the grant date, typically commencing on the first such anniversary date. The fair value of the awards granted was equal to the closing market value of the Company's common stock as quoted on the Nasdaq Stock Market on the grant date. During the three-month periods ended June 30, 2013 and 2012, the Company recognized approximately \$59,000 and \$1,000, respectively, of compensation expense in continuing operations in its consolidated statements of operations and comprehensive income (loss) related to restricted stock awards; and approximately \$157,000 and \$4,000 for the nine-month periods ended June 30, 2013 and 2012, respectively.

Forward Industries, Inc.**NOTE 7 SHARE-BASED COMPENSATION (CONTINUED)****Restricted Stock Awards (Continued)**

The following table summarizes restricted stock activity under the 2011 Plan and 2007 Plan from September 30, 2012, through June 30, 2013.

	Shares	Weighted Average Grant Date Fair Value

Shares vested.....	(7,500)	2.02
Shares forfeited.....	--	--
Non-vested balance at June 30, 2013	371,375	\$1.16

As of June 30, 2013, there was approximately \$230,000 of total unrecognized compensation cost related shares of unvested restricted stock awards (reflected in the table above) granted under the 2011 Plan and 2007 Plan. That cost is expected to be recognized over the remainder of the requisite service (vesting) periods. The total grant date fair value of restricted stock that vested during the nine-month period ended June 30, 2013 was approximately \$15,000.

Warrants

As of June 30, 2013, warrants to purchase 75,000 shares of the Company's common stock at an exercise price of \$1.75 issued in fiscal year ended 1999 were outstanding. By their terms these warrants expire 90 days after a registration statement registering common stock (other than pursuant to employee benefit plans) is declared effective by the Securities and Exchange Commission. As of June 30, 2013, no such registration statement has been filed with the Securities and Exchange Commission.

NOTE 8 INCOME TAXES (CONTINUED)

Income tax benefit from discontinued operations of approximately \$(9,000) and \$(100) recorded in the three-month periods ended June 30, 2013 and 2012, respectively, and income tax expense (benefit) from discontinued operations of \$(6,000) and \$5,000 recorded in the nine-month period ended June 30, 2013 and 2012, respectively, is attributable to Forward UK.

As of June 30, 2013, and September 30, 2012, the Company has no unrecognized income tax benefits. At June 30, 2013, the Company had available total net operating loss carryforwards for U.S. Federal and state income tax purposes of approximately \$8,154,000 and \$6,515,000, respectively, expiring through 2033, resulting in deferred tax assets in respect of U.S. Federal and state income taxes of approximately \$2,643,000 and \$224,000, respectively. In addition, at June 30, 2013, the Company had total available net operating loss carryforwards for foreign income tax purposes of approximately \$4,986,000 resulting in a deferred tax asset of \$439,000 approximately, expiring through 2020. Total net deferred tax assets, before valuation allowances, was \$3,742,000 at June 30, 2013 and \$3,818,000 at September 30, 2012, respectively. Undistributed earnings of the Company's foreign subsidiaries are considered to be permanently invested; therefore, in accordance with U.S. generally accepted accounting principles, no provision for U.S. Federal and state income taxes would result. As of June 30, 2013, there were no accumulated earnings of any of the Company's foreign subsidiaries.

As of June 30, 2013, as part of its periodic evaluation of the necessity to maintain a valuation allowance against its deferred tax assets, and after consideration of all factors, both positive and negative (including, among others, projections of future taxable income, current year net operating loss carryforward utilization and the extent of the Company's cumulative losses in recent years), the Company determined that, on a more likely than not basis, it would not be able to use its remaining deferred tax assets (except in respect of United States income taxes in the event the Company elects to effect the repatriation of certain foreign source income of its Swiss subsidiary, which income is currently considered to be permanently invested and for which no United States tax liability has been accrued). Accordingly, the Company has determined to maintain a full valuation allowance against its total deferred tax assets. As of June 30, 2013 and September 30, 2012, the valuation allowances were approximately \$3,742,000 and \$3,818,000, respectively. If the Company determines in a future reporting period that it will be able to use some or all of its deferred tax assets, the adjustment to reduce or eliminate the valuation allowance would reduce its tax expense and increase after-tax income. Changes in deferred tax assets and valuation allowance are reflected in the Income tax expense (benefit) line item of the Company's consolidated statements of operations and comprehensive income (loss).

As of June 30, 2013 and September 30, 2012, the Company has not accrued any interest and penalties related to uncertain tax positions. It is the Company's policy to recognize interest and/or penalties, if any, related to income tax matters in income tax expense in the consolidated statements of operations and comprehensive income (loss). For the periods presented in the accompanying consolidated statements of operations and comprehensive income (loss), no income tax related interest or penalties were assessed or recorded. All fiscal years prior to the fiscal year ended September 30, 2009 are closed to Federal and State examination, except with respect to net operating losses generated in prior fiscal years.

NOTE 9 INCOME (LOSS) PER SHARE

Basic per share data for each period presented is computed using the weighted-average number of shares of common stock outstanding during each such period. Diluted per share data is computed using the weighted-average number of common and dilutive common-equivalent shares outstanding during each period. Dilutive common-equivalent shares consist of shares that would be issued upon the exercise of stock options and warrants, computed using the treasury stock method. Diluted loss per share data for the three-month periods ended June 30, 2013 and 2012, and the nine-month period ended June 30, 2013 and 2012, exclude 1,650,487 and 1,224,500 of outstanding common equivalent shares as inclusion of such shares would be anti-dilutive.

NOTE 10 COMMITMENTS AND CONTINGENCIES

Employment and Agreements

Robert Garrett Jr. Employment Agreement

Under his employment agreement, which was effective as of March 1, 2012, Mr. Robert Garrett Jr. is currently employed as the Company's Chief Executive Officer at an annual salary of \$250,000. In executing his employment agreement, Mr. Garrett received a signing bonus of \$9,167. During Mr. Garrett's first year of employment he received a bonus of \$50,000. In addition, during each year of his employment, Mr. Garrett is eligible to receive an annual bonus at the discretion of the Compensation Committee in a combination of cash or equity-based compensation. Mr. Garrett's employment agreement also entitles him to awards of stock options to purchase an aggregate of 200,000 shares of the Company's common stock pursuant to the 2011 Plan, which have been granted in their entirety.

Mr. Garrett's employment agreement provides for successive one-year renewal terms, unless either party provides written notice of its intention not to renew the agreement not later than 90 days prior to the end of the term (or renewal period). In the event of the termination of Mr. Garrett's employment, depending on the circumstances, Mr. Garrett could be entitled to receive a severance payment which could be up to (12) twelve months of his salary, and under certain circumstances, the immediate vesting of any unvested options pursuant to applicable equity compensation plans, as well as any accrued discretionary bonus.

Mr. Garrett's employment agreement binds him to customary non-competition and non-solicitation covenants of up to one year following the expiration of the employment term.

James O. McKenna Employment Agreement

James O. McKenna serves as the Company's Chief Financial Officer, Treasurer and Assistant Secretary pursuant to an Amended Employment Agreement, dated as of April 1, 2011 (the "Employment Agreement"), between the Company and Mr. McKenna. On November 8, 2012, Mr. McKenna's Employment Agreement was further amended (the "Amendment") in connection with the logistical coordination, planning and implementation of the move of the Company's executive offices to West Palm Beach, Florida from Santa Monica, California, and his relocation from California to Florida at the Company's request. Among other things, the Amendment reduced his base salary to \$210,000 per annum from \$225,000 per annum, eliminated his housing allowance of \$90,000 per annum (paid pursuant to the Employment Agreement), and provided for a bonus payment in the amount of \$172,456, less applicable withholdings and deductions, all subject to the provisions provided in the Amendment. Approximately \$86,000 of such bonus payment is attributed as a bonus to Mr. McKenna in Fiscal 2012, with the remainder to be attributed to future periods. Up to one half of such bonus payment may be applied to reduce future bonuses due to Mr. McKenna, if any, on or prior to September 2014, pursuant to the terms and provisions of the Amendment. The term of the Employment Agreement expires on December 31, 2013, with automatic renewal for successive terms of one year each. Pursuant to the Employment Agreement, Mr. McKenna is entitled to a payment equal to one year of his salary as severance in the event of his termination without cause and termination for good reason (as such terms are defined in the Employment Agreement).

Guarantee Obligation

In February 2010, Forward Switzerland and its European logistics provider (freight forwarding and customs agent) entered into a Representation Agreement (the "Representation Agreement") whereby, among other things, the European logistics provider agreed to act as Forward Switzerland's Fiscal representative in The Netherlands for the purpose of providing services in connection with any value added tax matters. As part of this agreement, which succeeds a substantially similar agreement (except as to the amount and term of the undertaking) between the parties that expired June 30, 2009, Forward Switzerland agreed to provide an undertaking (in the form of a bank letter of guarantee) to the

logistics provider with respect to any value added tax liability arising in The Netherlands that the logistics provider is required to pay to Dutch tax authorities on its behalf.

Forward Industries, Inc.

NOTE 10 COMMITMENTS AND CONTINGENCIES (CONTINUED)

Guarantee Obligation (Continued)

As of February 1, 2010, Forward Switzerland entered into a guarantee agreement with a Swiss bank relating to the repayment of any amount up to €75,000 (equal to approximately \$98,000 as of June 30, 2013) paid by such bank to the logistics provider in order to satisfy such undertaking pursuant to the bank letter of guarantee. Forward Switzerland would be required to perform under the guarantee agreement only in the event that: (i) a value added tax liability is imposed on the Company's sales in The Netherlands, (ii) the logistics provider asserts that it has been called upon in its capacity as surety by the Dutch Receiver of Taxes to pay such taxes, (iii) Forward Switzerland or the Company on its behalf fails or refuses to remit the amount of value added tax due to the logistics provider upon its demand, and (iv) the logistics provider makes a drawing under the bank letter of guarantee. Under the Representation Agreement, Forward Switzerland agreed that the letter of guarantee would remain available for drawing for three years following the date that its relationship terminates with the logistics provider to satisfy any value added tax liability arising prior to expiration of the Representation Agreement but asserted by The Netherlands after expiration.

The initial term of the bank letter of guarantee expired February 28, 2011, but renews automatically for one-year periods until February 28, 2014, unless Forward Switzerland provides the Swiss bank with written notice of termination at least 60 days prior to the renewal date. It is the intent of Forward Switzerland and the logistics provider that the bank letter of guarantee amount be adjusted annually. In consideration of the issuance of the letter of guarantee, Forward Switzerland has granted the Swiss bank a security interest in all of its assets on deposit with, held by, or credited to Forward Switzerland's accounts with, the Swiss bank (approximately \$1,245,000 at June 30, 2013). As of June 30, 2013, the Company had not incurred a liability in connection with this guarantee.

NOTE 11 BUYING AGENCY AND SUPPLY AGREEMENT

On March 12, 2012, the Company, entered into a Buying Agency and Supply Agreement (the Agreement) with Forward Industries Asia-Pacific Corporation (f/k/a Seaton Global Corporation), a British Virgin Islands corporation (Forward China), dated as of March 7, 2012. The Agreement provides that, upon the terms and subject to the conditions set forth therein, Forward China shall act as the Company's exclusive buying agent and supplier of Products (as defined in the Agreement) in the Asia Pacific region. The Company shall purchase products at Forward China's cost, and shall pay a service fee on the net purchase price. The Agreement shall terminate on March 11, 2014, subject to renewal. Terence Wise, a director of the Company, is a principal of Forward China. In addition, Jenny P. Yu, a Managing Director of Forward China, owns shares of the Company's common stock. The Company recognized approximately \$306,000 and \$270,000, respectively, during the three-month periods ended June 30, 2013 and 2012, and \$798,000 and \$332,000, respectively, during the nine-month periods ended June 30, 2013 and 2012, of Forward China service fees, which are included as a component of costs of goods sold in continuing operations in the accompanying consolidated statements of operations and comprehensive income (loss).

Forward Industries, Inc.

NOTE 12 INVESTMENT MANAGEMENT AGREEMENT

On April 16, 2013, the Company entered into an Investment Management Agreement (the Agreement) with LaGrange Capital Administration, L.L.C. (LCA), pursuant to which the Company retained LCA to manage certain investment accounts funded by the Company (collectively, the Account). Frank LaGrange Johnson, the Company's Chairman of the Board, serves as the Managing Member of LCA.

Pursuant to the Agreement, LCA is authorized, subject to supervision of the Investment Committee of the Board and the terms and conditions of the Agreement, to take all actions and make all decisions regarding the investment and reinvestment of the assets of the Account utilizing the Investment Strategy (as defined in the Agreement). As compensation for its services to the Company, LCA shall be entitled to advisory fees, comprised of an asset-based fee and a performance fee, as provided in the Agreement. The asset-based fee will equal 1% per annum of the average Account Net Asset Value (Account NAV). The performance fee will equal 20% of the increase (if any) in the Account NAV over an annual period. No performance fee will be payable for any annual period in which the Account NAV at the end of such annual period is below the highest Account NAV at the end of any previous annual period. In addition to such advisory fees, the Company will reimburse LCA for certain investment and operational expenses. Under the Agreement, the Company or its designees may make cash withdrawals from the Account on March 31, June 30, September 30 or December 31 of each year upon 45 days prior written notice to LCA; provided, that, in the event of a breach of certain terms of the Agreement, the Company may make a complete cash withdrawal from the Account immediately without LCA's consent. During the three and nine-month periods ended June 30, 2013, the Company recognized approximately \$6,000 of expense in continuing operations in its consolidated statements of operations and comprehensive income (loss) related to asset based advisory fees. The Company has not recorded any expense related to performance based advisory fees during the three and nine-month periods ended June 30, 2013.

The Agreement is effective as of February 1, 2013 and shall continue until the second anniversary of the effective date. Thereafter, the term of the Agreement shall automatically renew for additional one year terms unless terminated in accordance with the terms of the Agreement or if a party provides notice to the other party no less than 60 days prior to the end of a term of its decision to terminate the Agreement at the end of the then current term.

NOTE 13 LEGAL PROCEEDINGS

From time to time, the Company may become a party to other legal actions or proceedings in the ordinary course of its business. As of June 30, 2013, there were no such actions or proceedings, either individually or in the aggregate, that, if decided adversely to the Company's interests, the Company believes would be material to its business.

NOTE 14 OPERATING SEGMENT INFORMATION

As of June 30, 2013, the Company reported and managed its continuing operations based on a single operating segment: the design and distribution of carry and protective solutions, primarily for hand held electronic devices. Products designed and distributed by this segment include carrying cases and other accessories for medical monitoring and diagnostic kits, portable consumer electronic devices (such as smartphones, tablets, personnel computers, notebooks, and GPS devices), and a variety of other portable electronic and non-electronic products (such as firearms, sporting, and other recreational products). This segment operates in geographic regions that include primarily APAC, the Americas, and Europe. Geographic regions are defined by reference primarily to the location of the customer or its contract manufacturer.

On June 21, 2012, the Company determined to wind down its Retail segment, which commenced during the three-month period ended December 31, 2011, and focus solely on growing its OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. The Company has substantially completed its exit of its Retail business as of March 31, 2013. The Company has not had, and does not expect to have, any

continuing involvement in the Retail business after this date.

NOTE 15 SUBSEQUENT EVENTS

On August 7, 2013, the Company completed the sale of (i) an additional 216,282 shares of 6% Senior Convertible Preferred Stock and (ii) Warrants to purchase a total of 216,282 shares of Common Stock to accredited investors in the Private Placement pursuant to the terms of securities purchase agreements (Purchase Agreements), dated August 7, 2013. The Purchase Agreements were entered into in connection with the second closing under the Private Placement (the Second Closing) following the initial closing under the Private Placement which occurred on June 28, 2013 (the Initial Closing). See Note 6 to our Consolidated Financial Statements - Shareholders Equity - 6% Senior Convertible Preferred Stock and Part II. Other Information, Item 2. Unregistered Sales of Equity Securities and Use of Proceeds in this Form 10-Q/A for a description of the Initial Closing.

The Second Closing resulted in gross proceeds of approximately \$425,000 to the Company and, together with the gross proceeds of approximately \$750,000 from the Initial Closing, amounts to total gross proceeds of approximately \$1,175,000 from the Private Placement through the date of the Second Closing. Together with the Securities sold in the Initial Closing, the Company sold a total of 597,956 shares of 6% Senior Convertible Preferred Stock and Warrants to purchase 597,956 shares of Common Stock in the Private Placement as of the date of the Second Closing. The Company may sell additional shares of 6% Senior Convertible Preferred Stock, together with related Warrants, in one or more subsequent closings.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our unaudited consolidated financial statements, and the notes thereto, and other financial information appearing elsewhere in this Quarterly Report on Form 10-Q/A and the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2012. The following discussion and analysis compares our consolidated results of operations for the three months ended June 30, 2013 (the 2013 Quarter), with those for the three months ended June 30, 2012 (the 2012 Quarter) and our consolidated results of operations for the nine-months ended June 30, 2013 (the 2013 Period) with the nine-months ended June 30, 2012 (the 2012 Period). All figures in the following discussion are presented on a consolidated basis. All dollar amounts and percentages presented herein have been rounded to approximate values.

The financial statements previously issued for the 2013 Quarter and the 2013 Period, which were filed with the Commission on August 12, 2013, contained an error pertaining to the accounting and financial disclosure of the embedded beneficial conversion feature of the Company's Convertible Preferred Stock. As a result, we have restated our financial statements for the 2013 Quarter and the 2013 Period to reflect the embedded beneficial conversion feature, which we have classified as a preferred stock dividend and to adjust the related carrying values of the convertible preferred stock and warrants. The effect of the non-cash deemed dividend is to increase net loss available to common equity by approximately \$293,000 and to increase the basic and diluted loss per share from continuing operations by \$0.04 for the three-month period ended June 30, 2013 and to decrease net income available to common equity by approximately \$293,000 and to decrease basic and diluted earnings per share from continuing operations by approximately \$0.04 for the nine-month period ended June 30, 2013. Additionally, the effect on the balance sheet at June 30, 2013 was to increase both additional paid-in capital and the accumulated deficit by approximately \$293,000. The effect of adjusting the carrying value of the convertible preferred stock and warrants was to increase accrued expenses and other current liabilities and reduce convertible preferred stock by approximately \$51,000, respectively, on the consolidated balance sheet as of June 30, 2013. The adjustments did not have an effect on our previously reported net loss or assets on the balance sheet or the statement of cash flows. The discussion and analysis for the results of operations for the 2013 Quarter and the 2013 Period gives effect to the restatement, which is to reflect a correction in the manner in which the Company has accounted for the calculation of value of the Company's Convertible Preferred Stock. More information regarding the restatement and the impact of the correction of errors is set forth in Part 1, Item 1, Note 2 of this Form 10-Q/A.

Cautionary statement for purposes of the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995

The following management's discussion and analysis includes forward-looking statements, as such term is used within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are not based on historical fact and involve assessments of certain risks, developments, and uncertainties in our business looking to

the future. Such forward-looking statements can be identified by the use of forward-looking terminology such as may , will , should , expect , anticipate , estimate , intend , continue , or believe , or the negatives or other variations or comparable terminology. Forward-looking statements may include projections, forecasts, or estimates of future performance and developments. Forward-looking statements contained in this Quarterly Report on Form 10-Q/A are based upon assumptions and assessments that we believe to be reasonable as of the date of this Quarterly Report on Form 10-Q/A. Whether those assumptions and assessments will be realized will be determined by future factors, developments, and events, which are difficult to predict and may be beyond our control. Actual results, factors, developments, and events may differ materially from those we assumed and assessed. Risks, uncertainties, contingencies, and developments, including those discussed in this Management's Discussion and Analysis of Financial Condition and Results of Operations and those identified in Risk Factors in Item 1A of Forward's Annual Report on Form 10-K for the fiscal year ended September 30, 2012, could cause our future operating results to differ materially from those set forth in any forward-looking statement. There can be no assurance that any such forward-looking statement, projection, forecast or estimate contained can be realized or that actual returns, results, or business prospects will not differ materially from those set forth in any forward-looking statement.

Forward Industries, Inc.

Given these uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the results of any revisions to any of the forward-looking statements contained herein to reflect future results, events or developments.

BUSINESS OVERVIEW

Trends and Economic Environment

In June 2012, the Company made the strategic decision to focus solely on our core OEM business. Initially, we implemented several key restructuring measures in order to improve our operating performance and return the Company to profitability. These actions included replacing our legacy sourcing and quality assurance infrastructure with a variable, lower cost, solution through our use of an exclusive, Asia-based sourcing agent (refer to Note 11 in our Notes to Consolidated Financial Statements) and rationalizing our fixed operating expenses, including office closures and headcount reductions. The impact of these restructuring measures continues to be more fully reflected in our financial results as we make our way through Fiscal 2013.

With the restructuring behind us, we have turned our focus to protecting the strong competitive position we have built across several key product categories, especially our Diabetic Products line. We have reinvested a portion of the savings generated by the restructuring towards expanding and better incentivizing our sales, design and sales support teams, which we believe has improved our ability to provide proactive and responsive support to our existing customer base. We also believe that these investments are expanding our ability to provide innovative and differentiated solutions to our existing and prospective customers.

We remain challenged by a highly concentrated customer base and product offering, especially with respect to our Diabetic products line, where we operate in a price sensitive environment in which we continue to experience volatility in demand and downward pricing pressure from our major Diabetic Products customers. We believe that the investments we are making in our sales, design and sales support teams increase our ability to expand and diversify our customer base, which we believe, is essential to overcoming these challenges and the impact they have on our gross margins. In addition, the Diabetic Products sector seems to be undergoing significant changes that, we believe, present us with meaningful opportunities if managed proactively.

In addition to reducing customer concentration, we believe that supplier diversification is a key component to achieving our objective of restoring our gross margins to levels consistent with those realized in fiscal 2010. We continue to be challenged by rising costs from our China-based supplier base, which causes our gross margins to narrow when we are not able to fully pass cost increases through to customers. However, our dedicated Asia-based sourcing agent is making meaningful progress in diversifying our supplier base, as well as in other areas such as quality assurance and overall operational performance, which we believe will better position us to overcome these challenges.

In connection with the exit of our retail business, we entered into a definitive Settlement Agreement and General Release (Settlement Agreement) with G-Form on July 3, 2013, which replaces the second Memorandum of Understanding entered into with G-Form in June 2012. Pursuant to the Settlement Agreement, G-Form has agreed to pay us approximately \$0.3 million in exchange for certain retail inventories, our cooperation with certain administrative matters, and a mutual general release.

Variability of Revenues and Results of Operations

Because a high percentage of our sales revenues is highly concentrated in a few large customers, and because the volumes of these customers order flows to us are highly variable, with short lead times, our quarterly revenues, and consequently our results of operations, are susceptible to significant variability over a relatively short period of time.

Forward Industries, Inc.

Critical Accounting Policies and Estimates

This management's discussion and analysis of financial condition and results of operations is based upon or derived from the unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q/A, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates and such differences could be significant.

We discuss the material accounting policies that are critical in making these estimates and judgments in our Annual Report on Form 10-K for the fiscal year ended September 30, 2012, under the caption "Management's Discussion and Analysis - Critical Accounting Policies and Estimates". There has been no material change in critical accounting policies or estimates since September 30, 2012, except those described below.

The notes to our audited consolidated financial statements contained in our Annual Report on Form 10-K for the year ended September 30, 2012, and the notes to our unaudited consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q/A contain additional information related to our accounting policies and should be read in conjunction with the following discussion and analysis relating to our overall financial performance, operations and financial position.

Marketable Securities

At June 30, 2013, the Company has investments in marketable securities that are classified as trading and are recorded at fair value with the corresponding unrealized holding gains or losses, net of taxes, recognized in earnings. The fair value of marketable securities is determined based on quoted market prices at the consolidated balance sheet dates. The cost of marketable securities sold is determined by the specific identification method. At September 30, 2012, the Company classified its investments in marketable securities as "available-for-sale". Securities that are classified as available-for-sale are recorded at fair value with the corresponding unrealized holding gains and losses are recorded as a separate component of "Accumulated Other Comprehensive Loss" within shareholders' equity. Refer to Note 5 "Marketable Securities" to our consolidated financial statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q/A.

6% Senior Convertible Preferred Stock

Temporary Equity

In accordance with Accounting Standards Codification (ASC) 480-10-s99 and Accounting Series Release (ASR) 268, equity securities are required to be classified out of permanent equity and classified as temporary equity, as the redemption of the convertible preferred stock is not solely within our control since it is at the option of the holder.

Warrants

In accordance with ASC 815-40, our warrants have been classified as a liability, at fair value, as a result of a related registration rights agreement that contains certain requirements for registering the underlying common shares, but have no provision for penalties upon the failure to register. The fair value of the warrants are determined using a Black-Scholes closed-form call option pricing model. At each balance sheet date the fair value of the warrant liability is marked-to-market each reporting period with the change in fair value reported in the Company's Consolidated Statements of Operations and Comprehensive Loss.

Preferred Stock Accretion

The carrying amount, at the date of issue is less than the redemption value. As a result of our determination that redemption is probable, the carrying value will be increased by periodic accretions so that the carrying value will equal the redemption amount at the earliest redemption date. Such accretion is recorded as a preferred stock dividend.

Forward Industries, Inc.*Preferred Stock Beneficial Conversion Feature*

On the date of issuance, the fair value, or carrying amount, of the securities could be converted into common stock at a discount to the market price of the underlying common stock at the conversion date. Such embedded beneficial conversion feature, which is equal to the difference between the accounting conversion price and the fair value of the common stock, is analogous to a dividend and has been recorded as a return to preferred stockholders as of the date of issuance, which is the earliest possible conversion date. As a result of the dividend being recorded upon issuance, there will be no future impact on the Company's consolidated financial statements.

RESULTS OF OPERATIONS FOR THE 2013 QUARTER COMPARED TO THE 2012 QUARTER**Loss from Continuing Operations**

Loss from continuing operations was \$0.2 million in the 2013 Quarter compared to \$0.6 million in the 2012 Quarter. The improvement is primarily due to increased gross profit on a higher sales base, which was offset, in part, by an increase in Other Expense, net, as reflected in the table below:

	Main Components of Net Loss from Continuing Operations		
	(millions of dollars)

Loss from continuing operations per basic and diluted share was \$(0.07) and \$(0.08) for the 2013 Quarter and 2012 Quarter, respectively.

Net Sales

Net sales of \$8.6 million in the 2013 Quarter increased \$0.9 million from \$7.7 million in the 2012 Quarter primarily due to higher sales of Diabetic products, and to a lesser extent, higher sales of Other products. The tables below set forth sales by channel, product line, and geographic location of our customers for the periods indicated.

Diabetic Product Sales

We design to the order of, and sell carrying cases for blood glucose diagnostic kits directly to, OEMs (or their contract manufacturers). The OEM customer or its contract manufacturer packages our carry cases in box as a custom accessory for the OEM's blood glucose testing and monitoring kits, or to a lesser extent, sell them through their retail distribution channels.

Sales of Diabetic products increased \$0.7 million to \$6.8 million in the 2013 Quarter, from \$6.1 million in the 2012 Quarter. This increase was primarily due to higher sales in respect of new and replacement programs with two long-standing, major, Diabetic products customers (Diabetic Customers A and C). These increases were offset, in part, by sales declines from several newer programs with Diabetic Customer D that were launched in Fiscal 2012. To a lesser extent, shifts from long-standing to successor programs with Diabetic Customer B resulted in lower sales to such customer in the 2013 Quarter.

The following table sets forth our sales by Diabetic Products customer for the periods indicated.

	(millions of dollars)		
	2013 Quarter	2012 Quarter	Increase (Decrease)
Diabetic Customer A.....	\$3.0	\$2.6	\$0.4
Diabetic Customer B.....	0.9	1.0	(0.1)

All other Diabetic Customers.....	0.5	0.5	--
Totals*	\$6.8	\$6.1	\$0.7

* Table may not total due to rounding.

Sales of carrying cases for blood glucose monitoring kits represented 79% of our total net sales in the 2013 and 2012 Quarters.

Other Product Sales

We design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as smartphones, tablets, GPS devices, and bar code scanners), as well as a variety of other products (such as firearms, sporting, and other recreational products) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Forward Industries, Inc.

Sales of Other Products increased \$0.2 million to \$1.8 million in the 2013 Quarter from \$1.6 million in the 2012 Quarter. This increase was primarily due to \$0.6 million in higher sales contributed by several new programs with a long-standing, sports and recreational customer, our largest within our Other product lines, in the 2013 Quarter. This increase was offset, in part, by the loss of a firearm customer and laptop customer, each of which had contributed \$0.2 million to Other products sales in the 2012 Quarter. Decreases in several other customer accounts, of which none were individually material also served to dampen the overall increase in sales of Other products in the 2013 Quarter.

Sales of Other Products represented 21% of our net sales in the 2013 Quarter and 2012 Quarter.

Gross Profit

Gross profit increased \$1.0 million, or 143%, to \$1.8 million in the 2013 Quarter from \$0.8 million in the 2012 Quarter. As a percentage of sales, our gross profit improved to 21.5% in the 2013 Quarter from 9.9% in the 2012 Quarter.

This margin improvement was driven primarily by cost savings realized in the 2013 Quarter from the restructure of our Asia-based sourcing and quality assurance operations (refer to Note 11 to our consolidated financial statements - Buying Agency and Supply Agreement), which were initiated in March 2012 and substantially completed as of September 30, 2012. Such sourcing and quality assurance costs were 4.6% of our net sales in the 2013 Quarter compared to 9.2% of net sales in the 2012 Quarter.

In addition, during the 2012 Quarter, we experienced several quality issues with two of our major Diabetic Products customers. In our efforts to remediate these quality issues, we incurred significantly higher inspection, warehousing, handling, and freight costs that, in the aggregate, negatively impacted our gross profit margin by approximately 4% in the 2012 Quarter. We experienced no such quality issues during the 2013 Quarter. As a result, during the 2013 Quarter, our inspection, warehousing, handling and freight costs returned to levels consistent with those included in quarterly results reported prior to the 2012 Quarter.

To a lesser extent, a combination of factors, including cost reductions and shifts in product mix from program successions, impacting our four major Diabetic Customers, resulted in an overall improvement in gross margin from our Diabetic Products line.

These improvements were offset, in part, by lower gross profit margin contributed by our Other Products division in the 2013 Quarter, which is primarily due to the loss of a firearm customer and laptop customer, and to a lesser extent shifts in programs with several of such customers whereby certain new and replacement programs contributed less gross profit margin in the 2013 Quarter than their predecessor programs in the 2012 Quarter.

Sales and Marketing Expenses

Sales and marketing expenses increased \$0.3 million, or 113%, to \$0.6 million in the 2013 Quarter compared to \$0.3 million in the 2012 Quarter due primarily to higher personnel costs. Personnel costs increased \$0.3 million in the 2013 Quarter primarily as a result of expanding and restructuring our sales and sales support departments, including their respective compensation schemes. Increases in other components of Sales and Marketing Expenses were not material individually or in the aggregate.

General and Administrative Expenses

Edgar Filing: FORWARD INDUSTRIES INC - Form 10-Q/A

General and administrative expenses decreased \$0.3 million, or 27% to \$0.8 million in the 2013 Quarter from \$1.1 million in the 2012 Quarter due primarily to lower personnel costs. Personnel costs decreased \$0.2 million resulting primarily from restructuring our finance and information technology departments, which included headcount reductions and salary decreases made in conjunction with the relocation of our corporate headquarters from California to Florida. Fluctuations in other components of General and Administrative Expenses were not material individually or in the aggregate.

Other Expense, net

Other expense, net, consisting primarily of realized and unrealized gains and losses on investments in marketable securities, was \$0.7 million of expense in the 2013 Quarter compared to \$20 thousand of expense in the 2012 Quarter. This fluctuation was due primarily to \$2.0 million of realized and unrealized losses on investments in marketable securities, which were offset in part by realized and unrealized gains on investments in marketable securities of \$1.3 million in the 2013 Quarter. There was no such investing activity in marketable securities in the 2012 Quarter.

Forward Industries, Inc.

RESULTS OF DISCONTINUED OPERATIONS FOR THE 2013 QUARTER COMPARED TO THE 2012 QUARTER

On June 21, 2012, we determined to exit our global Retail business and focus solely on growing our OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. Accordingly, the results of operations for the Retail division have been recorded as discontinued operations in the accompanying consolidated financial statements for the fiscal years presented.

Loss from Discontinued Operations

Loss from discontinued operations was \$19 thousand in the 2013 Quarter compared to \$2.7 million in the 2012 Quarter. This improvement was due primarily to a \$1.5 million reduction in gross loss combined with a \$1.1 million decrease in operating expenses in the 2013 Quarter. Loss from discontinued operations per basic and diluted share was \$(0.00) for the 2013 Quarter and \$(0.33) 2012 Quarter, respectively.

Net Sales

Net sales from discontinued operations consisted of \$10 thousand in sales returns in the 2013 Quarter. Net sales from discontinued operations consisted of \$0.4 million, net of sales returns, discounts, markdowns, and co-op advertising programs of \$1.0 million in the aggregate in the 2012 Quarter.

Gross Loss

Gross loss from discontinued operations of \$10 thousand in the 2013 Quarter reflects sales returns of retail products, which we deem to be unsaleable. Gross loss from discontinued operations was \$1.5 million in the 2012 Quarter.

Operating Expenses

Operating expenses of discontinued operations decreased \$22 thousand in the 2013 Quarter from Operating expenses of \$1.1 million in the 2012 Quarter.

Other Expense

Operating income (expense) from discontinued operations was not material in the 2013 or 2012 Quarter.

RESULTS OF OPERATIONS FOR THE 2013 PERIOD COMPARED TO THE 2012 PERIOD

Income (loss) from Continuing Operations

Income from continuing operations was \$0.2 million in the 2013 Period compared to a loss from continuing operations of \$1.6 million in the 2012 Period. The improvement is primarily due to increased gross profit on a higher sales base, lower general and administrative expenses, and higher other income, which were offset, in part, by higher selling and marketing expenses, as reflected in the table below:

Forward Industries, Inc.

Income (loss) from continuing operations per basic and diluted share was \$(0.01) and \$(0.20) for the 2013 Period and 2012 Period, respectively.

Net Sales

Net sales of \$23.3 million in the 2013 Period increased \$3.4 million from \$20.0 million in the 2012 Period due to higher sales of Diabetic products, which increased \$3.5 million. The increase in sales of Diabetic products was offset, in part, by lower sales of Other products, which decreased \$0.1 million. Diabetic Product Sales

Sales of Diabetic products increased \$3.5 million to \$18.3 million in the 2013 Period from \$14.8 million in the 2012 Period. This increase was primarily due to higher sales in respect of new and replacement programs with a long-standing, major, Diabetic products customer (Diabetic Customer C), as well as a larger sales contribution in the 2013 Period from a new major Diabetic products customer (Diabetic Customer D), which had just begun to contribute in the 2012 Period. To a lesser extent, higher sales in respect of new and replacement programs from a second long-standing, major Diabetic products customer (Diabetic Customer B), also contributed to the overall sales increase. These increases were offset, in part, by lower sales to our historically largest Diabetic products customer (Diabetic Customer A).

Forward Industries, Inc.

* Table may not total due to rounding.

Sales of carrying cases for blood glucose monitoring kits represented 78% of our total net sales in the 2013 Period compared to 74% of our total net sales in the 2012 Period.

Other Product Sales

Sales of Other Products decreased \$0.1 million to \$5.1 million in the 2013 Period from \$5.2 million in the 2012 Period. This decrease was primarily driven by lower sales to a long-standing cellular customer, which decreased \$1.0 million in the 2013 Period, as well as the loss of a firearms customer, a GPS customer, and a laptop customer in the 2013 Period, which in the aggregate, contributed \$0.9 million of sales to our Other products line in the 2012 Period. A decrease in sales of \$0.2 million in the 2013 Period from a tablet customer also contributed to the overall decrease in sales of Other products. Lesser fluctuations in several other customer accounts between the 2013 and 2012 Periods were not individually material.

Sales of Other Products represented 22% of our net sales in the 2013 Period compared to 26% of our total net sales in the 2012 Period.

Gross Profit

Gross profit increased \$1.8 million, or 59%, to \$4.9 million in the 2013 Period from \$3.1 million in the 2012 Period. As a percentage of sales, our gross profit improved to 20.8% in the 2013 Period, compared to 15.3% in the 2012 Period.

This improvement was driven primarily by cost savings realized in the 2013 Period from the restructure of our Asia-based sourcing and quality assurance operations (refer to Note 11 to our consolidated financial statements - Buying Agency and Supply Agreement) which were initiated in March 2012 and substantially completed as of September 30, 2012. Such sourcing and quality assurance costs were 4.6% of our net sales in the 2013 Period compared to 8.5% of net sales in the 2012 Period.

Edgar Filing: FORWARD INDUSTRIES INC - Form 10-Q/A

In addition, during the 2012 Period, we experienced several quality issues with two of our major Diabetic Products customers. In our efforts to remediate these quality issues, we incurred significantly higher inspection, warehousing, handling, and freight costs that, in the aggregate, negatively impacted our gross profit margin by approximately 2.5% in the 2012 Period. We experienced no such quality issues during the 2013 Period. As a result, during the 2013 Quarter, our inspection, warehousing, handling and freight costs returned to levels consistent with those included in quarterly results reported prior to the 2012 Quarter.

To a lesser extent, program shifts relative to several customers within the Other Products division also contributed to the improvement in our gross profit margin.

Forward Industries, Inc.

These improvements to our gross margin, were offset, in part, by a decline in the overall gross profit margin of our Diabetic Products business, and in particular, factors specific to two major Diabetic customers. Whereas, our net sales to Diabetic Customers B and C increased 82% between the 2013 Period and 2012 Period; our average sales prices in respect of certain new and replacement programs for these customers were significantly lower than the average sales prices of predecessor programs in the 2012 Period. In addition, our average purchase costs for certain of these successor programs during the 2013 Period were significantly higher than the average purchase costs of predecessor programs in the 2012 Period. As a result, our overall gross margin on net sales to Diabetic Customers B and C compressed in the 2013 Period.

Sales and Marketing Expenses

Sales and marketing expenses increased \$0.7 million, or 75%, to \$1.6 million in the 2013 Period compared to \$0.9 million in the 2012 Period due primarily to higher personnel costs. Personnel costs increased \$0.6 million in the 2013 Period primarily as a result expanding and restructuring our sales and sales support departments, including their respective compensation schemes. Fluctuations in other components of Sales and Marketing Expenses were not material individually or in the aggregate.

General and Administrative Expenses

General and administrative expenses decreased \$1.2 million, or 31%, to \$2.7 million in the 2013 Period from \$3.8 million in the 2012 Period due primarily to the following:

- \$0.6 million decrease in personnel costs resulting primarily from restructuring our finance and information technology departments, which included headcount reductions and salary decreases made in conjunction with the relocation of our corporate headquarters from California to Florida.
- \$0.5 million decrease in professional fees resulting primarily from consulting fees, expense reimbursements, and equity compensation paid to our Chief Executive Officer prior to his appointment to such position while serving as a strategic consultant to the Company during the 2012 Period, as well as, lower legal fees. These decreases were offset, in part, by higher accounting fees in the 2013 Period.

Fluctuations in other components of General and Administrative Expenses, that aggregated a net decrease of \$0.1 million were individually not material.

Other Income (Expense), net

Other income (expense), net, consisting of realized and unrealized gains and losses on investments in marketable securities, was \$(0.4) million of expense in the 2013 Period compared to \$43 thousand of income in the 2012 Period. This fluctuation was due primarily to \$2.7 million of realized and unrealized losses on investments in marketable securities, which were offset, in part by realized and unrealized gains on investments in marketable securities of \$2.4 million in the 2013 Period. There was no such investing activity in marketable securities in the 2012 Period.

RESULTS DISCONTINUED OPERATIONS FOR THE 2013 PERIOD COMPARED TO THE 2012 PERIOD

On June 21, 2012, we determined to exit our global Retail business and focus solely on growing our OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. Accordingly, the results of operations for the Retail division have been recorded as discontinued operations in the accompanying consolidated financial statements for the fiscal years presented.

Loss from Discontinued Operations

Loss from discontinued operations was \$0.2 million in the 2013 Period compared to \$4.7 million in the 2012 Period. This improvement was due primarily to a \$1.0 million reduction in gross loss, combined with a \$3.3 million decrease in operating expenses in the 2013 Period. Loss from discontinued operations per basic and diluted share was \$(0.02) and \$(0.58) for the 2013 Period and 2012 Period, respectively.

Forward Industries, Inc.

Net Sales

Net sales from discontinued operations were \$0.4 million in the 2013 Period compared to \$2.1 million in the 2012 Period, which were net of sales returns, discounts, markdowns, and co-op advertising programs of \$0.2 million and \$1.3 million for the 2013 and 2012 Period, respectively.

Gross Profit (Loss)

Gross profit from discontinued operations of \$86 thousand in the 2013 Period reflects the liquidation of our Retail inventory, whereby in certain cases the net realizable value of this inventory has exceeded its selling price in the 2013 Period. Gross loss from discontinued operations was \$1.1 million in the 2012 Period.

Operating Expenses

Operating expenses of discontinued operations were \$0.3 million in the 2013 Period compared to \$3.6 million in the 2012 Period. This decrease was due primarily to:

- 1 lower personnel expenses, which decreased \$1.2 million in the 2013 Period;
- 1 lower travel and entertainment expenses, which decreased \$0.3 million in the 2013 Period;
- 1 lower royalty and commissions expenses, which decreased \$0.2 million in the 2013 Period;
- 1 lower product development and design costs, which decreased \$0.1 million in the 2013 Period; and
- 1 lower advertising, promotion, and sampling costs, which decreased \$0.1 million in the 2013 Period.

Lesser fluctuations in other components of operating expenses were not material.

Other Income (Expense)

Other income from discontinued operations was \$8 thousand in the 2013 Period compared to \$42 thousand of other expense from discontinued operations in the 2012 Period, consisting of foreign currency losses in both periods.

LIQUIDITY AND CAPITAL RESOURCES

During the 2013 Period, we generated \$0.6 million of cash from operations, which consisted of net income of \$42 thousand, adjusted by \$0.8 million for non-cash items (primarily realized and unrealized losses on marketable securities and share based compensation), and a net use in working capital items of \$0.3 million. As to working capital items, cash used in operating activities consisted of decreases in accounts payable and accrued expenses of \$1.7 million and \$1.2 million, respectively. These changes were offset, in part, by decreases in accounts receivable, inventories, and prepaid and other current assets of \$1.3 million, \$1.2 million, and \$0.2 million, respectively.

The decrease in accounts receivable is primarily due: i) to the timing and lower volume of sales recorded in the 2013 Quarter compared to the three-month period ended September 30, 2012; ii) sales credits, returns, and write-downs during the 2013 Period of accounts receivable as of September 30, 2012 that related to our discontinued operations; and iii) to an improvement in our cash collections cycle. The decrease in

inventories is primarily due to: i) lower purchases and staging of inventory resulting from a decrease in our visible sales demand for the months immediately following the 2013 Quarter compared to the sales levels seen during the three month-period ended September 30, 2012; and ii) write-downs of inventory to expected net realizable value that related to our discontinued operations. The decrease in accounts payable is primarily due to the same factors that drove the decrease in inventories, in addition to lower average days payable outstanding in the 2013 Period resulting from changes in our payment terms with certain of our suppliers. The decrease in accrued expenses and other current liabilities is primarily due to payment of certain accrued expenses including professional fees incurred in connection with the settlement of the Targus lawsuit, and severances incurred in connection with our restructuring.

In the 2012 Period, we used \$8.7 million of cash in operations, which consisted of a net loss of \$6.4 million, adjusted by \$0.3 million for non-cash items (primarily share-based compensation), and a net use in working capital items of \$2.5 million. As to working capital items, cash used in operating activities consisted of increases in accounts receivable and inventories of \$3.3 million and \$2.3 million, respectively. These changes were offset, in part, by increases in accounts payable and accrued expenses and other current liabilities of \$1.6 million and \$1.3 million, respectively, and a decrease in prepaid and other current assets of \$0.2 million, which had the effect of generating cash from operating activities.

Forward Industries, Inc.

In the 2013 Period, net investing activities used \$0.4 million, which consisted of \$55 million used for purchases of marketable equity securities, \$55 million generated from sales of marketable equity securities, and \$40 thousand used for purchases of property and equipment. In the 2012 Period, net investing activities generated \$0.9 million of cash, which consisted of \$1.0 million in payments received on a loan made to a prospective strategic partner and \$54 thousand used for purchases of property and equipment.

In the 2013 Period, net financing activities generated \$0.2 million from the issuance of 6% senior convertible preferred shares (refer to Note 6 to our Notes to Consolidated Financial Statements – Shareholders Equity). There were no financing activities in the 2012 Period.

At June 30, 2013, our current ratio (current assets divided by current liabilities) was 2.91; our quick ratio (current assets less inventories divided by current liabilities) was 2.45; and our working capital (current assets less current liabilities) was \$9.9 million. As of such date, we had no short or long-term debt outstanding.

Our primary source of liquidity is our cash and cash equivalents, and marketable securities on hand. The primary demands on our working capital currently are: i) operating losses, should they occur, and ii) accounts payable arising in the ordinary course of business, the most significant of which arise when we order products from our suppliers. Historically, our sources of liquidity have been adequate to satisfy working capital requirements arising in the ordinary course of business. We anticipate that our liquidity and financial resources for the next twelve months will be adequate to manage our operating and financial requirements. We have substantially completed our exit of our Retail business as of March 31, 2013, and have not had, and do not expect to have, any continuing involvement in the Retail business after this date.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e)) under the Exchange Act) that is designed to ensure that information required to be

disclosed by the Company in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In accordance with Exchange Act Rule 13a-15(b), our management, under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, performed an evaluation of the effectiveness of the Company's disclosure controls and procedures as of the end of the fiscal quarter covered by this Quarterly Report on Form 10-Q/A. Based on that evaluation, the Company's Principal Executive Officer and Principal Financial Officer concluded that due to the material weakness discussed below, the Company's disclosure controls and procedures were not effective, as of the end of the 2013 Quarter, to provide reasonable assurance that information required to be disclosed in the Company's reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms.

Forward Industries, Inc.

Convertible Preferred Stock and Warrants

In connection with our restatement of results of operations for the three-month period ended June 30, 2013, our Principal Executive Officer and our Principal Financial Officer concluded that Forward did not maintain effective controls over the accounting and financial disclosures for its sale of Convertible Preferred Stock and Warrants (together, the Securities) to accredited investors through a private placement. Specifically, controls were not designed effectively to provide reasonable assurance that the purchase price of the Securities was allocated properly between the Convertible Preferred Stock and Warrants. The material weakness resulted in an error in the accounting and financial disclosure of the embedded beneficial conversion feature of the Convertible Preferred Stock that resulted in a correction of Forward's consolidated financial statements for the quarter ended June 30, 2013. Additionally, this material weakness could result in misstatements of the aforementioned accounts and disclosures that would result in a material misstatement of the consolidated financial statements that would not be prevented or detected.

Communication of Significant Financial Matters

In addition, in December of 2013, the Management of the Company became aware of a failure in the operation of its designed internal controls to ensure that the communication of significant financial matters are made known to senior management, including the Company's Chief Financial Officer. This failure resulted in the omission of the accrual of a certain item of expense.

Because of these material weaknesses, management concluded that Forward did not maintain effective internal control over financial reporting as of June 30, 2013 based on criteria in Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO").

Remediation Steps Taken to Address Material Weaknesses

Forward has discussed these matters with its independent registered public accounting firm and its Audit Committee. Further, with oversight of management and its Audit Committee, Forward has initiated the following steps to address and remediate the material weaknesses:

Convertible Preferred Stock and Warrants

In the first quarter of our fiscal year ended September 30, 2014, we implemented additional controls related to the process for evaluating the impact of complex non-routine financing transactions, such as engaging outside experts to assist in determining the proper valuation and accounting treatment for securities through private placements. In addition, we have restated our financial statements for the three- and nine-month periods ended June 30, 2013 to correct the error related to the material weakness.

Although the Company concluded that there was a material weakness regarding the valuation, accounting, and financial disclosure of the Securities at June 30, 2013, Forward believes these steps have strengthened its controls over financial reporting and addressed the material weakness. Forward will test and evaluate these controls as part of Forward's assessment of internal controls over financial reporting for its fiscal year ending September 30, 2014.

Communication of Significant Financial Matters

We intend to design and implement policies and procedures to remediate this material weakness in our internal control over financial reporting in Fiscal 2014. The development of these policies and procedures will ensure that members of senior management will be aware of all material financial events.

Management does not believe that any of our annual or interim financial statements issued to date contain a material misstatement as a result of the aforementioned material weakness in our internal controls over financial reporting.

Changes in internal control

Our management, with the participation of our Principal Executive Officer and Principal Financial Officer, performed an evaluation required by Rule 13a-15(d) of the Exchange Act as to whether any change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during the 2013 Quarter. Based on that evaluation, our Principal Executive Officer and our Principal Financial Officer concluded that no change occurred in the Company's internal control over financial reporting during the 2013 Quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. The material weakness associated with the financial reporting relating to the proper valuation and accounting treatment for the Company's Securities discussed above was subsequently identified and resulted in remediation activities subsequent to the 2013 Quarter.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company may become a party to legal actions or proceedings in the ordinary course of its business. As of June 30, 2013, there were no other such actions or proceedings, either individually or in the aggregate, that, if decided adversely to the Company's interests, the Company believes would be material to its business.

Forward Industries, Inc.

ITEM 1A. RISK FACTORS

Please review our Annual Report on Form 10-K for the fiscal year ended September 30, 2012, for a complete statement of Risk Factors that pertain to our business. Please refer to ITEM 2. CAUTIONARY STATEMENT FOR PURPOSES OF THE "SAFE HARBOR" PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995 on page 27 of this Quarterly Report on Form 10-Q/A as well as Management's Discussion and Analysis of Financial Condition and Results of Operations for further discussion of certain of such risk factors.

In addition to the risk factors described in our Annual Report on Form 10-K for the fiscal year ended September 30, 2012, the Company has identified the following additional risk factor in connection with the restatement of our previously issued financial statements:

If we fail to maintain an effective system of internal controls over financial reporting, we may not be able to accurately report our financial results. As a result, current and potential stockholders could lose confidence in our financial reporting, which could harm our business and the trading price of our stock.

Effective internal controls over financial reporting are necessary for us to provide reliable financial reports. If we cannot maintain effective controls and reliable financial reports, our business and operating results could be harmed. For example, our management determined that we had a material weakness related to the operation of our controls over financial reporting primarily associated with a complex non-routine financing transaction in the three-month period ended June 30, 2013, as well as a material weakness related to a failure in communication of significant financial matters through and including the year ended September 30, 2013. Although we continue to work on improvements to our internal controls over financial reporting, there can be no assurance that this or another material weakness will not occur in the future. Any failure to implement and maintain controls over our financial reporting or difficulties encountered in the implementation of improvements in our controls, could cause us to fail to meet our reporting obligations. Any failure to improve our internal controls over financial reporting or to address identified weaknesses in the future, if they were to occur, could also cause investors to lose confidence in our reported financial information, which could have a negative impact on the trading price of our stock.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On June 28, 2013 the Company completed the sale of (i) 381,674 shares of 6% Senior Convertible Preferred Stock, and (ii) warrants to purchase an aggregate of 381,674 shares of Common Stock. See Note 6 to our Consolidated Financial Statements - Shareholders' Equity - 6% Senior Convertible Preferred Stock. A description of this issuance was provided in the Current Report on Form 8-K filed on July 3, 2013. On August 7, 2013, 216,282 additional shares of 6% Senior Convertible Preferred Stock were sold. See Item 5. Other Information.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not Applicable.

ITEM 5. OTHER INFORMATION

On August 7, 2013, the Company completed the sale of (i) an additional 216,282 shares of 6% Senior Convertible Preferred Stock and (ii) Warrants to purchase a total of 216,282 shares of Common Stock to accredited investors (the August 7 Investors) in the Private Placement pursuant to the terms of securities purchase agreements, dated August 7, 2013 (the August 7 Purchase Agreements), by and between the Company and each August 7 Investor. The August 7 Purchase Agreements were entered into in connection with the second closing under the Private Placement (the Second Closing) following the initial closing under the Private Placement which occurred on June 28, 2013 (the Initial Closing). See Notes 6 and 15 to our Consolidated Financial Statements - Shareholders Equity - 6% Senior Convertible Preferred Stock and Subsequent Events , and Item 2. Unregistered Sales of Equity Securities and Use of Proceeds for a description of the Initial Closing.

Forward Industries, Inc.

The Second Closing resulted in gross proceeds of approximately \$425,000 to the Company and, together with the gross proceeds of approximately \$750,000 from the Initial Closing, amounts to total gross proceeds of approximately \$1,175,000 from the Private Placement through the date of the Second Closing. Together with the Securities sold in the Initial Closing, the Company sold a total of 597,956 shares of 6% Senior Convertible Preferred Stock and Warrants to purchase 597,956 shares of Common Stock in the Private Placement as of the date of the Second Closing. The Company may sell additional shares of 6% Senior Convertible Preferred Stock, together with related Warrants, in one or more subsequent closings.

Except for the respective dates thereof, the terms and provisions of the Securities purchased by the August 7 Investors in the Second Closing are identical to the Securities purchased by the Investors in the Initial Closing and the August 7 Purchase Agreements are identical to the purchase agreements the Company entered into with Investors in the Initial Closing.

The total purchase price paid by August 7 Investors for each share of 6% Senior Convertible Preferred Stock and Warrant purchased by them in the Second Closing was \$1.965, consisting of (i) \$1.84 in respect of the 6% Senior Convertible Preferred Stock, plus (ii) \$0.125 in respect of the Warrant. The Warrants have an initial exercise price of \$1.84 per share, subject to adjustment upon the occurrence of certain customary events. The Warrants are exercisable at any time on or after January 1, 2014 (the Initial Exercise Date) and terminate on the 10-year anniversary of the Initial Exercise Date.

Each share of 6% Senior Convertible Preferred Stock is convertible into one share of Common Stock at an initial conversion price of \$1.84 per share, subject to adjustment upon the occurrence of certain customary events (the Conversion Price). At the initial Conversion Price, the 216,282 shares of 6% Senior Convertible Preferred Stock issued at the Second Closing are convertible into an aggregate of 230,973 shares of Common Stock, and the total of 597,956 shares of 6% Senior Convertible Preferred Stock issued in the Private Placement as of the date of the Second Closing are convertible into an aggregate of 638,572 shares of Common Stock.

The terms, rights, obligations and preferences of the 6% Senior Convertible Preferred Stock are set forth in a Certificate of Amendment of the Certificate of Incorporation of the Company (the Certificate of Amendment) filed with the Department of State of the State of New York and are described in further detail in Note 6 to our Consolidated Financial Statements - Shareholders Equity - 6% Senior Convertible Preferred Stock.

In connection with the sale of the Securities to the August 7 Investors in the Second Closing, the Company entered into a Registration Rights Agreement with the August 7 Investors dated as of August 7, 2013 with the same terms and provisions as the Registration Rights Agreement the Company entered into with the Investors in the Initial Closing.

The issuance of the Securities in the Private Placement was made in reliance upon the exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended (the Securities Act), and the provisions of Regulation D promulgated thereunder. The Securities and the shares of Common Stock issuable upon conversion of

the 6% Senior Convertible Preferred Stock and exercise of the Warrants may not be offered or sold in the United States absent registration under the Securities Act and applicable state securities laws or an applicable exemption from those registration requirements.
