AMERICAN HOSPITAL RESOURCES, INC. AND SUBSIDIARY

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [*Continued*]

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company s December 31, 2002 audited financial statements. The results of operations for the periods ended June 30, 2003 and 2002 are not necessarily indicative of the operating results for the full year.

Consolidation - The consolidated financial statements include the accounts of Parent, Parent's wholly owned AHR Subsidiary, Parent's wholly owned NPT Subsidiary and Parent's wholly owned RX Subsidiary. All significant intercompany transactions have been eliminated in consolidation.

Cash and Cash Equivalents - The Company considers all highly liquid debt investments purchased with a maturity of three months or less to be cash equivalents.

Accounts and Loans Receivable - The Company records accounts and loans receivable at the lower of cost or fair value. The Company determines the lower of cost or fair value of non-mortgage loans on an individual asset basis. The Company recognizes interest income on an account receivable based on the stated interest rate for past-due accounts over the period that the account is past due. The Company recognizes interest income on a loan receivable based on the stated interest rate over the term of the loan. The Company accumulates and defers fees and costs associated with establishing a receivable to be amortized over the estimated life of the related receivable. The Company estimates allowances for doubtful accounts and loan losses based on the aged receivable balances and historical losses. The Company records interest income on delinquent accounts and loans receivable only when payment is received. The Company first applies payments received on delinquent accounts and loans receivable to eliminate the outstanding principal. The Company charges off uncollectible accounts and loans receivable when management estimates no possibility of collecting the related receivable. The Company considers accounts and loans receivable to be past due or delinquent based on contractual terms.

Inventory - Inventory is stated at the lower of cost or market using the first-in, first-out method [*See Note 7*].

Property and Equipment - Property and equipment are stated at cost. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized upon being placed in service. Expenditures for maintenance and repairs are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets of five to ten years. In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Company periodically reviews their property and equipment for impairment.

#

AMERICAN HOSPITAL RESOURCES, INC. AND SUBSIDIARY

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [Continued]

Website Costs - The Company has adopted the provisions of Emerging Issues Task Force 00-2, Accounting for Web Site Development Costs. Costs incurred in the planning stage of a website are expensed as research and development while costs incurred in the development stage are capitalized and amortized over the life of the asset, estimated to be five years. As of June 30, 2003, the Company has capitalized a total of \$2,955 of website costs which are included in property and equipment. The Company did not incur any planning costs and did not record any research and development costs for the six months ended June 30, 2003 and 2002.

Intangible Assets - The Company accounts for their intangible assets in accordance with Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets. SFAS No. 142 establishes three classifications for intangible assets including definite-life intangible assets, indefinite-life intangible assets and goodwill and requires different accounting treatment and disclosures for each classification. In accordance with SFAS No. 142, the Company periodically reviews their intangible assets for impairment. No impairment was recorded during the six months ended June 30, 2003 and 2002.

Acquisition Costs - Costs related to proposed acquisitions are deferred and will be included in the acquisition price. In the event an acquisition is unsuccessful, the costs related to the acquisition will be written off to expense.

Stock Offering Costs - Costs related to proposed stock offerings are deferred and will be offset against the proceeds of the offering. In the event a stock offering is unsuccessful, the costs related to the offering will be written off to expense.

Revenue Recognition - The Company's revenue comes primarily from the retail sale of medications as a closed-door pharmacy. Revenue from pharmacy sales is recognized upon shipment of the product. All sales are final when shipment is made. The Company also generates revenue from hospital management consulting. Revenue from consulting and managing hospitals is recognized over the term of the underlying agreement. A portion of the consulting services is subcontracted out by the Company to third party vendors. These direct costs are recorded by the Company as general and administrative expenses. Revenue from facilitating the sale of hospital property is recorded when property is sold. The Company has purchased the right to receive a portion of the revenues from a consulting and asset sale agreement. Revenue derived from the purchased contract rights is recorded as received on a net basis. On a net basis, only the share of revenue belonging to the Company is recorded as revenue.

Stock-Based Compensation - The Company has two stock-based employee compensation plans [*See Note 15*]. The Company accounts for their plans under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and related Interpretations. The following table illustrates the effect on net income and loss per share if the Company had applied the fair value recognition provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, to the Company's stock-based employee compensation.

NOTE 3 - ACQUISITION AND VOIDING OF ACQUISITION OF NIPSI

On December 13, 2002, Parent signed an asset purchase agreement with NIPSI Healthcare of Houston Limited Partnership (NIPSI) and NIPSI of Houston, Inc. (NIPSI General Partner). The agreement provided for Parent to

assume certain liabilities of NIPSI and to sign an unsecured 18-month \$150,000 note payable to NIPSI for most of the operating assets of NIPSI. The agreement also included a non-compete covenant from NIPSI and NIPSI General Partner. The acquisition closed December 16, 2002; however, in April 2003, the court entered a default judgment against NIPSI. The court found that NIPSI had fraudulently transferred assets to the Company to avoid the claims of AmeriSource. The court voided and nullified the transfer of assets from NIPSI to the Company and ordered NIPSI to pay \$551,264 to AmeriSource. As a result of these proceedings, the asset purchase agreement between the Company, NIPSI and NIPSI General Partner was voided and the Company was released as a defendant. Also, NIPSI General Partner sent a demand letter to the Company to rescind the asset purchase agreement and claiming damages of \$120,000 against the Company [*See Note 20*]. The financial statements reflect the acquisition as having been voided or rescinded and any expenses associated with the voided acquisition have been classified as costs of the unsuccessful NIPSI acquisition.

NOTE 4 - ACQUISITION OF AMERICAN HOSPITAL RESOURCES, INC.

On April 3, 2002, Parent signed an agreement and plan of reorganization with Phase One, LLC and AHR Subsidiary. The agreement provided for Parent to issue 3,196,873 shares of its common stock for all 1,500 shares of AHR Subsidiary's common stock. In connection with the proposed agreement, Parent previously issued a total of 13,000,000 shares of its common stock to Phase One, LLC for \$130,000 in financing. The agreement called for former shareholders of AHR Subsidiary to receive up to 12,870,000 shares of the common stock issued to Phase One, LLC based on the performance of the Company. In connection with the agreement, Parent amended its articles of incorporation to authorize 10,000,000 shares of preferred stock and to change its name to American Hospital Resources, Inc. Also in connection with the agreement, Parent and AHR Subsidiary entered into three-year consulting agreements with both Synergistic Connections, Inc. and Corporate Dynamics, Inc. [*See Note 20*]. As a result of the agreement, the former officers and directors of the Company resigned and new officers and directors were appointed. The acquisition closed June 17, 2002 and has been accounted for as a purchase of AHR Subsidiary. The Company recorded goodwill of \$60,321 as a result of the acquisition. On December 31, 2002, the agreement and plan of reorganization was amended to exchange the 13,000,000 shares of the Company's common stock that had been issued to Phase One, LLC for 2,600,000 shares of the Company's Series A preferred stock. The agreement was further amended to issue the 2,600,000 shares of Series A preferred stock to the Company's Chief Executive Officer for value received by Phase One, LLC, which effected a change in control of the Company. The amended agreement also grants the Company's Chief Executive Officer the right to convert, at any time, any or all of the common stock that he

received under the agreement into Series A preferred stock at a rate of five shares of common stock into one share of Series A preferred stock.

NOTE 14 - PREFERRED STOCK

The Company has authorized 10,000,000 shares of preferred stock, no par value, with such rights, preferences and designations and to be issued in such series as determined by the Company's Board of Directors. In December 2002, the Company's Board of Directors designated 5,000,000 shares as Series A and 5,000,000 shares as Series B. In June 2003, the Company's Board of Directors modified the preferred stock distributions to designate 2,600,000 shares as Series A, 5,000,000 shares as Series B and 1,200,000 as Series C. Although the Company has not yet designated any shares of preferred stock as Series D1, the Company plans to designate enough shares as Series D1 to allow for a stock dividend declared on June 2, 2003 [*See Below and Note 22*]. The Series C preferred stock ranks senior to the Series A, B and D1 preferred stocks in liquidation preference and the Series B preferred stock ranks senior to the Series A preferred stock in liquidation preference.

Series A Preferred Stock - Series A preferred stock is only available to the Company's management, directors and existing shareholders. Each share of Series A preferred stock has the voting rights of five shares of common stock and is convertible at the shareholder's option into five shares of common stock. If shares of the Series A preferred stock are required to be converted as part of a sale or merger of the Company, then each share of Series A preferred stock is convertible into 5.5 shares of common stock. Each share of Series A preferred stock is entitled to receive a \$.0575 annual dividend payable monthly. The total annual dividend for all shares of Series A preferred stock is limited to 50% of the Company's earnings before interest, taxes, depreciation and amortization for the year and the monthly payments are adjusted accordingly. For the six months ended June 30, 2003, the Company has negative earnings before interest, taxes, depreciation and amortization; therefore, no dividend is due on the Series A preferred stock and no accrual for future dividend payments has been recorded in the accompanying financial statements. In June 2003, the Company's Board of Directors modified the mandatory conversion and dividend provisions of the Series A preferred stock. Effective July 1, 2003, if there is a merger, reorganization, recapitalization or similar event in which the Company is not the surviving entity, then each share of Series A preferred stock will be converted into 5.5 shares of common stock. Effective July 1, 2003, each share of Series A preferred stock is entitled to receive a cumulative \$.0575 annual dividend payable monthly with no limitation based on earnings.

In May and June 2003, the Company issued 14,933 shares of their previously authorized but unissued Series A preferred stock for cash of \$28,000, or approximately \$1.875 per share. Due to the beneficial conversion feature, the Company recorded a dividend of \$22,185 upon the issuance of the shares. Stock offering costs of \$127 were netted against the proceeds.

In May 2003, the Company issued 8,000 shares of their previously authorized but unissued Series A preferred stock for cash of \$10,000, or \$1.25 per share. Due to the beneficial conversion feature, the Company recorded a dividend of \$10,000 upon the issuance of the shares.

In May 2003, a shareholder of the Company returned 720,000 shares of Series A preferred stock to the Company for cancellation.

NOTE 14 - PREFERRED STOCK [*Continued*]

In April 2003, the Company issued 47,000 shares of their previously authorized but unissued Series A preferred stock for cash of \$23,500, or \$.50 per share. Due to the beneficial conversion feature, the Company recorded a dividend of \$24,200 upon the issuance of the shares.

In December 2002, the Company issued 2,600,000 shares of their previously authorized but unissued Series A preferred stock in exchange for 13,000,000 shares of the Company's common stock.

Series B Preferred Stock - Series B preferred stock is only available to parties who sell a business to the Company. Each share of Series B preferred stock has no voting rights and is convertible into five shares of common stock. Each

share of Series B preferred stock is entitled to receive a cumulative 6% annual dividend payable quarterly based on the purchase price paid to the Company or the consideration received by the Company. Series B preferred stock may not be transferred without the express written consent of the Company. At June 30, 2003, there were 720,000 shares of Series B preferred stock issued and outstanding which are recorded at \$540,000. Accordingly, at June 30, 2003, the Company has recorded a quarterly dividend of \$8,100.

In May 2003, in connection with a Stock Purchase Agreement, the Company issued 720,000 shares of their previously authorized but unissued Series B preferred stock in the acquisition of RX Subsidiary [See Note 2].

Series C Preferred Stock - Each share of Series C preferred stock has no voting rights and is entitled to receive a cumulative \$.475 annual dividend payable quarterly. Each share of Series C preferred stock is convertible at the shareholder's option into five shares of common stock after a two-year waiting period following issuance. If there is a merger, reorganization, recapitalization or similar event in which the Company is not the surviving entity, then each share of Series C preferred stock will be converted into five shares of common stock. Series C preferred stock may not be transferred without the express written consent of the Company. At June 30, 2003, there were 6,400 shares of Series C preferred stock issued and outstanding. Accordingly, at June 30, 2003, the Company has recorded a quarterly dividend of \$760.

Private Series C Preferred Stock Offering - The Company is offering 600 units at a price of \$10,000 per unit. Each unit consists of 2,000 shares of the Company's previously authorized but unissued Series C preferred stock. The offering price of \$10,000 per unit was arbitrarily determined by the Company. The Company expects to use one or more agents in the offering and expects to pay up to 10% in sales commissions. Some shares will be offered and may be sold by an officer of the Company who will receive no sales commissions or other compensation in connection with the offering except for reimbursement of expenses actually incurred on behalf of the Company in connection with the offering. Stock offering costs are estimated to be approximately \$700,000 and will be offset against the proceeds of the offering. The offering is expected to close August 31, 2003. As of June 30, 2003, the Company has sold 3.2 units for cash of \$32,000. At June 30, 2003, the Company has incurred stock offering costs of \$1,568 which have been netted against the proceeds.

NOTE 14 - PREFERRED STOCK [Continued]

Series D1 Preferred Stock Dividend - Series D1 preferred stock is only available to shareholders of record on July 15, 2003. Each share of Series D1 preferred stock has no voting or dividend rights. The Series D1 preferred stock shareholders are entitled to 5% of the net sale or liquidation value of RX Subsidiary. If there is a merger, reorganization, recapitalization or similar event in which the Company is not the surviving entity, then the Series D1 preferred stock shareholders will be entitled to 5% of the net proceeds attributable to RX Subsidiary. Series D1 preferred stock may not be transferred except as required by applicable state and federal law. On June 2, 2003, the Company's Board of Directors declared a dividend of one share of Series D1 preferred stock for every 20 shares of common stock or common stock equivalent preferred stock held as of July 15, 2003. The Company has not yet designated any shares of preferred stock as Series D1. The Company plans to designate enough shares as Series D1 to allow for this stock dividend [*See Note 22*].

NOTE 16 - INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes . SFAS No. 109 requires the Company to provide a net deferred tax asset or liability equal to the expected future tax benefit or expense of temporary reporting differences between book and tax accounting methods and any available operating loss or tax credit carryforwards. At June 30, 2003, the Company has available unused operating loss carryforwards of approximately \$310,000, which may be applied against future taxable income and which expire in various years through 2023. Due to certain substantial changes in the Company's ownership, there is an annual limitation on the amount of net operating loss carryforwards which can be utilized.

At June 30, 2003, the total of all deferred tax assets was approximately \$243,000 and the total of all deferred tax liabilities was approximately \$5,400. The amount of and ultimate realization of the benefits from the deferred tax assets for income tax purposes is dependent, in part, upon the tax laws in effect, the future earnings of the Company, and other future events, the effects of which cannot be determined. Because of the uncertainty surrounding the realization of the loss carryforwards, the Company has established a valuation allowance of approximately \$238,000. The net change in the valuation allowance was approximately \$33,000 during the six months ended June 30, 2003.

The temporary differences gave rise to the following deferred tax asset (liability):

NOTE 17 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has just recently commenced operations and has current liabilities in excess of current assets. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through sales of their stock or through a possible business combination with another company. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

The Company is not currently named in, nor are they aware of, any such claims or suits against NIPSI. The Company's management believes that the Company would be successful in defending against any such claims. No accrual for possible losses or settlements has been recorded in the accompanying financial statements. Description of Business

General

American Hospital Resources, Inc. ("AMHR" or the "Company") originally incorporated in the State of Utah on May 9, 1972, under the name High-Line Investment & Development Company. In 1977, the Company changed its name to Gayle Industries, Inc. In 1978 the Company merged into its subsidiary, Swing Bike, keeping the Swing Bike name.

In 1979 the Company changed its name from Swing Bike to Horizon Energy Corp. In 1992 the Company changed its name to Millennium Entertainment Corp.

In 1993 the Company changed its name to New Horizon Education, Inc. and began focusing on marketing computer education programs. The Company was not successful and in 1995 the Company sold its assets and suspended operations. The Company remained essentially dormant from 1998 through 2000.

In 2001, the Company recommenced operations and in June of 2002, finalized an Agreement and Plan of Reorganization with American Hospital Resources, Inc., a Delaware corporation founded on August 27, 1999. Under the Agreement, American Hospital Resources Inc. became a wholly owned subsidiary of the Company and the Company changed its name from New Horizon Education, Inc. to American Hospital Resources, Inc. The Company also authorized a class of 10,000,000 shares of Preferred Stock at no par value per share and changed its business strategy to focus on providing health care and pharmaceutical services and management consulting.

The Company's common stock is quoted on the OTCBB under the symbol AMHR.

Nature of Business

American Hospital Resources is a healthcare services company that provides pharmacy services to long-term care providers and specialty hospitals as well as other acute care consulting and management services. We are currently focusing on the acquisition and consolidation of profitable pharmacy outsourcing businesses. These consolidated pharmacy outsourcing companies provide pharmacy management services and pharmaceutical supplies predominantly to long-term care facilities such as nursing homes and hospices. As part of our business strategy, we have structured a program designed to merge profitable regional pharmacy outsourcers into a national team. We believe these regional providers will benefit from the enhanced buying power and market presence of a consolidated healthcare entity.

Since acquiring our subsidiary and implementing our business plan in the summer of 2002, we have been actively engaged in identifying pharmaceutical and healthcare companies to join our healthcare network. During the past year we identified three companies that we thought would be suitable for potential acquisition and/or management.

In October of 2002, we began negotiations to acquire the assets of Coastalmed Inc. and its subsidiary, Coastalmed of Panama City, Inc. Although we have been actively engaged in negotiations, the proposed acquisition has not been finalized at the date of this report. We are currently offering a total of \$8,400,000 to acquire the assets of Coastalmed, payable as \$4,900,000 in cash, \$1,625,000 as a five-year 6.5% note payable with interest only payments through the first 18 months and \$1,875,000 as Series B preferred stock. Pursuant to the proposed acquisition, in January of 2003 we issued 1,000,000 shares of common stock to the owner of Coastalmed as partial consideration of \$250,000 towards the purchase price.

In December of 2002 we reported on Form 8-K an agreement to acquire the assets of NIPSI Healthcare of Houston LP from its general partner. For a brief time in early 2003, we operated the assets of NIPSI pursuant to this agreement. However, we returned the assets in March of 2003 when we learned of a lawsuit filed by AmeriSource Bergen Corporation against NIPSI. The suit sought the return of NIPSI's assets to satisfy a prior claim by AmeriSource. In April of 2003, a Texas State court entered a default judgment against NIPSI in favor of AmeriSource. As a result, the asset transfer was voided by act of law and AMHR was released from any claims.

On May 8, 2003 we finalized a Stock Purchase Agreement to acquire and operate Rx Solutions, Inc., a Mississippi healthcare corporation. The agreement was effective as of May 1, 2003, making Rx Solutions a wholly owned subsidiary of AMHR.

Under the Agreement, AMHR acquired 1,000 shares of Rx Solutions common stock representing all of the issued and outstanding shares of Rx Solutions. In exchange, AMHR issued 720,000 shares of AMHR Series B preferred stock and short and long term notes totaling \$900,000 to the shareholders of Rx Solutions. A summary of the terms follows:

-

The \$300,000 short-term note matures on August 8, 2003. Any unpaid balance after August 8, 2003 is subject to an 18% interest rate. Subsequent to the date of this report, the maturity date on the note was extended to September 29,

2003.

•

The long term notes are payable to Mr. Lang and Mr. Myers, the two former shareholders of Rx Solutions. Mr. Myers received a note for \$306,000 and Mr. Lang received a note for \$294,000. The notes accrue interest at 7% per annum and mature on April 30, 2008.

•

Each share of AMHR Series B preferred stock is convertible to five shares of AMHR common stock. The Series B stock is also entitled to receive a 6% annual dividend payable quarterly. Chris Wheeler, an officer and director of AMHR, has the right to repurchase up to 300,000 shares of Series B preferred stock at \$2.50 per share within 18 months of closing.

Concurrent with the acquisition, AMHR entered into a three-year management contract with the two former shareholders of Rx Solutions. Mr. Myers and Mr. Lang will each receive an \$8,500 monthly salary and be eligible for growth bonuses in exchange for managing the operations of Rx Solutions.

We intend to continue seeking suitable healthcare and pharmaceutical companies for potential acquisition, consulting or management opportunities.

Three and Six Month Periods Ended June 30, 2003

Total revenue during the three months and six months ended June 30, 2003 was \$969,264. All revenue derived from pharmacy sales by our subsidiary, Rx Solutions, during the last two months of the second quarter of 2003. Cost of goods sold during the same period was \$692,813 resulting in gross profit of \$276,451.

Total expenses for the three months ended June 30, 2003 were \$259,738 consisting of \$257,732 in general and administrative expenses and \$2,006 in costs resulting from our unsuccessful attempt to acquire NIPSI. We also had \$12,730 in interest expense during this period resulting in net income of \$3,983 for the three months ended June 30, 2003. For the six months ended June 30, 2003 expenses consisted of \$344,570 in general and administrative costs, \$2,006 in failed acquisition costs and interest expense of \$12,730. As a result of these factors, we realized a net loss of \$82,855 during the first six months of 2003. General and administrative expenses during both periods consisted of professional fees, executive compensation, operating overhead and legal and accounting fees.

Three and Six Month Periods Ended June 30, 2002

Total revenue during the three months and six months ended June 30, 2002 was \$58,100 with no cost of sales. All revenue derived from fees paid for consulting services provided during the second quarter of 2002. As a result of these factors, AMHR realized a gross profit of \$58,100 during the three month and six month periods ended June 30, 2002.

Expenses during the three months ended June 30, 2002 consisted of general and administrative expenses of \$60,449 and interest expense of \$526. Expenses during the six months ended June 30, 2002 consisted of \$85,857 in general and administrative expenses and \$1,122 in interest expenses. As a result of the factors, AMHR realized a net loss of \$2,875 during the three months ended June 30, 2002 and a cumulative net loss of \$28,879 through the first six months of 2002. General and administrative expenses during both periods consisted of executive compensation, consulting and negotiation services, office rental, legal and accounting costs and other administrative expenses.

Higher general and administrative expenses in 2003 are largely attributable to payroll costs associated with implementing our business plan.

Liquidity and Capital Resources

Total assets at June 30, 2003 were \$3,511,106 compared to total assets of \$1,173,342 at December 31, 2002. Current assets at June 30, 2003 were \$716,546 consisting of \$8,530 in cash, \$433,859 in net accounts receivable, \$273,864 in inventory and \$293 in prepaid expenses. At June 30, 2003, the Company had net property and equipment of \$162,393. Other assets at June 30, 2003 totaled \$2,632,167 consisting of \$1,312,936 in goodwill, \$1,059,609 in deferred stock offering costs, \$250,000 in deferred acquisition costs and \$9,622 in deposits. The majority of accounts receivable, inventory and equipment at June 30, 2003 were related to the operations of Rx Solutions.

Current assets at December 31, 2002 were \$51,854 consisting of \$6,779 in cash, \$15,000 in an advance due from NIPSI and \$30,075 in prepaid expenses. At December 31, 2002, AMHR had net property and equipment of \$1,743. Other assets at December 31, 2002 were \$1,119,745 consisting of \$60,321 in goodwill and \$1,059,424 in deferred stock offering costs.

Total liabilities at June 30, 2003 were \$2,736,164. Current liabilities totaled \$1,890,850 consisting of \$1,221,068 in accounts payable, \$430,069 in the current portion of notes payable, \$170,287 in accrued expenses, \$60,566 in current portion of lease obligations and \$8,860 in dividends payable. Long-term debt at June 30, 2003 was \$845,314 consisting of \$796,681 in notes payable and \$48,633 in capital lease obligations.

Liabilities at December 31, 2002 were \$1,198,090 consisting of \$1,088,150 in accounts payable and \$109,940 in accrued expenses. The significant increase in liabilities through June 30, 2003 was primarily due to signing \$900,000 in notes payable to acquire a subsidiary, Rx Solutions, Inc. The company also recorded accrued payroll and associated interest expense during both periods. These accrued expenses were \$170,287 at June 30, 2003 compared to \$109,940 at December 31, 2002.

During the next six months we hope to reduce liabilities and bring current our outstanding debts. We anticipate that our operating expenses for the rest of the year will be approximately \$500,000 consisting mainly of operating expenses, salaries and consulting fees. We will also have ongoing legal and auditing expenses relating to our public reports as well as office rental and other expenses.

Management hopes to generate sufficient operating capital through continuing operations, cash on hand, anticipated revenues from our subsidiary and anticipated cash collections from accounts receivable. However, we will require additional capital for acquisition costs to fully implement our business plan and build our health care network. In November of 2002 we entered an equity line of credit agreement with Cornell Capital Partners, LP that will provide up to \$10,000,000 of equity financing should we require it. To activate the line of credit, we would have to register the equity line with the Securities and Exchange Commission. At the date of this report, we have not filed a registration statement with the SEC.

We have also retained a consultant to negotiate a five-year \$6,000,000 loan and a line of credit to provide additional operating capital. Should it become necessary to raise additional capital, we may consider securing loans from officers and directors, selling additional stock or entering into debt financing. Other than as discussed in this report, we have no material commitments for capital expenditures.

Item 3. Controls and Procedures

Within the 90-day period prior to the date of this report, we evaluated the effectiveness and operation of our disclosure controls and procedures pursuant to Rule 13a-14 of the Securities Exchange Act of 1934. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective. There have been no significant changes in internal controls or other factors that could significantly affect internal controls subsequent to the date we carried out our evaluation.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Management is aware of a potential suit in the Circuit Court of the County of St. Louis, State of Missouri, Cause No. 03AC-002539TCV, dated March 25, 2003. The suit is being brought by Pre-Employment Screening, Inc., Lawrence J. Altman, Gateway Legal Services, Inc. and Fun Services of Kansas City, Inc. against American Hospital Resources, Inc. f/k/a New Horizon Resources, Inc. The suit is a petition for damages arising from an alleged violation of the Telephone Consumer Protection Act. The petition alleges that the company breached the Act by sending unsolicited advertising faxes to plaintiffs and requests damages of \$12,000 and such other relief as the court deems proper. Management denies transmitting any faxes to the plaintiffs and regards the lawsuit as frivolous and opportunistic. Should AMHR be formally served with this suit, it intends to deny all charges and defend itself appropriately.

Management was notified via facsimile dated March 18, 2003, that they were to be joined as defendants in a suit brought by AmeriSource Bergen Corporation against NIPSI Healthcare of Houston, LP, Case No. 03-1972-A, filed in the county court at law, Court Number One, Dallas County, Texas. In the original complaint dated February 19, 2003, AmeriSource sought to recover \$480,335.28 from defendant NIPSI Healthcare of Houston for failing to honor a prior contract. In a supplemental petition dated March 18, 2003, AmeriSource alleged that AMHR was conducting business in Texas under the name NIPSI Pharmacy of Texas and sought to enjoin any transfer of assets from NIPSI to AMHR. On April 16, 2003, the court entered an interlocutory default judgment against NIPSI. The court found that NIPSI had fraudulently transferred assets to AMHR to avoid the claims of AmeriSource. The court voided the transfer of assets from NIPSI to AMHR and ordered NIPSI to pay AmeriSource \$551,264.48 in actual damages, interest and attorney's fees with interest accruing at 10% per annum. As a result of these proceedings, the December 2002 Asset Purchase Agreement between NIPSI and AMHR was nullified by act of law and AMHR was released as a defendant. The possibility exists that other creditors may attempt to join AMHR as co-defendant in claims against NIPSI based on the voided agreement. However, AMHR is not aware of any other suits or claims against NIPSI and management believes AMHR would be successful in defending themselves should any such claims arise.

AMHR received by facsimile a demand letter from National Institutional Pharmacy Services, LP, the general partner of NIPSI Healthcare of Houston, LP, dated March 18, 2003. The letter sought to rescind the December 2002 Asset Purchase Agreement between NIPSI and the Company by alleging fraud and demanding \$120,000. AMHR denies it has any obligation to NIPSI and regards the Asset Purchase Agreement as being voided by the April 16, 2003 default judgment entered against NIPSI. At the date of this report, AMHR has not responded to the demand letter and neither party has initiated formal legal proceedings.

Item 2. Changes in Securities and Use of Proceeds

At the date this report was filed, the D1 preferred shares had not been issued.

In December of 2002, AMHR issued 2,600,000 shares of Series A preferred stock to Phase One, LLC in exchange for 13,000,000 shares of common stock held by Phase One. The 13,000,000 shares of common stock were then cancelled. The former Rx shareholders had a preexisting relationship with AMHR and had access to the company's financial records. Accordingly, they are considered accredited investors. The shares were issued in a private transaction without registration in reliance on the exemption provided by Section 4(2) of the Securities Act. No broker was involved and no commissions were paid in the transaction.

In June of 2003, AMHR undertook a private placement of Series C stock to accredited investors. AMHR is offering 600 units consisting of 2,000 shares of Series C preferred stock at \$10,000 per unit or \$5.00 per share. The note was originally due on August 8, 2003. The agreement also provides for renegotiating the purchase price of the Rx Solutions acquisition.

On August 11, 2003 the Board of Directors adopted a resolution that the four series of preferred stock be designated as classes of preferred stock. Effective August 11, 2003, the four classes of preferred stock are to be known as Class A, Class B, Class C and Class D.
