PROXY STATEMENT

Annual Meeting of Shareholders

May 23, 2007

SOLICITATION OF PROXIES

This Proxy Statement is being furnished to the shareholders of Merit Medical Systems, Inc., a Utah corporation (the "Company"), in connection with the solicitation by the Board of Directors of the Company of proxies from holders of outstanding shares of the Company's common stock, no par value (the "Common Stock"), for use at the Annual Meeting of Shareholders of the Company to be held on Wednesday, May 23, 2007, at 2:00 p.m., at the Company's corporate offices at 1600 West Merit Parkway, South Jordan, Utah, and at any adjournment or postponement thereof (the "Annual Meeting"). This Proxy Statement, the Notice of Annual Meeting of Shareholders and the accompanying form of proxy are first being mailed to shareholders of the Company on or about April 25, 2007.

The Company will bear all costs and expenses relating to the solicitation of proxies, including the costs of preparing, printing and mailing to shareholders this Proxy Statement and accompanying materials. In addition to the solicitation of proxies by use of the mail, the directors, officers and employees of the Company, without receiving additional compensation, may solicit proxies personally or by telephone, electronic mail or facsimile. Arrangements will be made with brokerage firms and other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of the shares of Common Stock held by those persons, and the Company will reimburse those brokerage firms, custodians, nominees and fiduciaries for reasonable out-of-pocket expenses incurred by them in connection therewith.

VOTING

The Board of Directors has fixed the close of business on April 12, 2007 as the record date for determination of shareholders entitled to receive notice of and to vote at the Annual Meeting (the "Record Date"). As of the Record Date, there were issued and outstanding 27,362,198 shares of Common Stock. The holders of record of the shares of Common Stock on the Record Date entitled to be voted at the Annual Meeting are entitled to cast one vote per share on each matter submitted to a vote at the Annual Meeting.

Proxies

Shares of the Common Stock that are entitled to be voted at the Annual Meeting and are represented by properly executed proxies will be voted in accordance with the instructions on those proxies. If no instructions are indicated, those shares will be voted FOR the election of each of the three director nominees, FOR the ratification of the appointment of Deloitte & Touche LLP to be the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007, and, in the discretion of the proxy holder, as to any other matters that may properly come before the Annual Meeting if the Company did not receive notice of such matters a reasonable time prior to the Annual Meeting. The Company is not currently aware of any other matters that may be presented at the Annual Meeting.

A shareholder who has executed and returned a proxy may revoke it at any time prior to its exercise at the

Annual Meeting by executing and returning a proxy bearing a later date, by filing with the Secretary of the Company, at the address set forth above, a written notice of revocation bearing a later date than the proxy being revoked, or by voting the Common Stock covered thereby in person at the Annual Meeting.

Vote Required

A majority of the issued and outstanding shares of Common Stock entitled to vote, represented in person or by proxy, is required for a quorum at the Annual Meeting. Abstentions and broker non-votes, which are indications by a broker that it does not have discretionary authority to vote on a particular matter, will be counted as represented for the purpose of determining the presence or absence of a quorum. Under the Utah Revised Business Corporations Act, once a quorum is established, shareholder approval with respect to a particular proposal is generally obtained when the votes cast in favor of the proposal exceed the votes cast against the proposal,

Holders of shares of Common Stock are entitled to one vote at the Annual Meeting for each share of Common Stock held of record on the Record Date. In the election of directors, shareholders will not be allowed to cumulate their votes. The three nominees receiving the highest number of votes will be elected. For approval of the proposed ratification of Deloitte & Touche LLP to serve as the independent registered public accountants of the Company for the fiscal year ending December 31, 2007, the votes cast in favor of the proposal must exceed the votes cast against the proposal. Accordingly, abstentions and broker non-votes will not affect the outcome of the election of directors or the ratification of the appointment of the independent registered public accountants. Any other matter presented for approval by the shareholders at the Annual Meeting will generally be approved if the number of votes cast in favor of a matter exceeds the number of votes cast in opposition. With respect to any such matter, abstentions and broker non-votes are not likely to affect the outcome of a vote on such matter.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

At the Annual Meeting, three directors of the Company are to be elected to serve until the Annual Meeting of the Company's Shareholders in 2010 and until their successors are duly elected and qualified. If any of the nominees should be unavailable to serve, which is not now anticipated, the proxies solicited by this proxy statement will be voted for other persons as may be designated by the present Board of Directors. The three nominees receiving the highest number of votes at the Annual Meeting will be elected.

Classification of Board of Directors

The Company's Articles of Incorporation provide for the classification of the Board of Directors, also known as a staggered board. The current director nominees were recommended by the Nominating and Corporate Governance Committee and nominated by the Board of Directors including the independent members thereof. The Board of Directors has adopted a Nominating and Corporate Governance Committee Charter, a copy of which was attached as Exhibit A to the Company's proxy statement filed with the Securities and Exchange Commission in connection with the Company's 2005 Annual Meeting of Shareholders and is also available on the Company's Internet website www.merit.com.

Executive officers and directors are required by Commission regulations to furnish the Company with copies of all Section 16(a) reports they file. Based solely upon a review of the copies of those forms and written representations from the Company's executive officers and directors, the Company believes that all Section 16(a) reports required to be filed by the Company's officers and directors were filed.

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion and analysis provides information regarding the Company's executive compensation objectives and principles, procedures, practices and decisions, and is provided to help give perspective to the numbers and narratives that follow in the tables in this section. This discussion focuses on the Company's objectives, principles, practices and decisions with regards to the compensation of the following named executive officers of the Company (the "Named Executive Officers"):

Fred P. Lampropoulos, Chief Executive Officer and President

Martin R. Stephens, Executive Vice President of Sales

Kent W. Stanger, Chief Financial Officer

B. Leigh Weintraub, former Chief Operating Officer

Gregory L. Barnett, Chief Accounting Officer

Arlin D. Nelson, Chief Operating Officer

Executive Compensation Objectives

The Company's philosophy is that compensation paid to executive officers should be closely aligned with the values, objectives and performance of the Company on both a short- and long-term basis. The Company's executive compensation program is designed to achieve the following objectives:

- Attract and retain highly qualified individuals who are capable of making significant contributions to the long-term success of the Company;
- Reward executive officers for long-term strategic management and the enhancement of shareholder value; and
- Promote a performance-oriented environment that encourages Company and individual achievement.

Executive Compensation Procedures

In an effort to attain the Company's executive compensation objectives, the Company has established and implemented the following procedures.

Role of the Compensation Committee. The Compensation Committee has responsibility for establishing and monitoring the executive compensation programs of the Company and for making decisions regarding the compensation of the Named Executive Officers. The agenda for meetings of the Compensation Committee is determined by the Chairman of the Compensation Committee, in consultation with the Chief Executive Officer and Chief Legal Officer of the Company. Compensation Committee meetings are often attended by the Chief Executive Officer and the Chief Legal Officer. The Compensation Committee also meets in executive session. In determining compensation of the Named Executive Officers, the Compensation Committee reviews data which it believes is representative of the medical products industry, primarily by reviewing public disclosure of other public companies, as filed with the U.S. Securities and Exchange Commission. The Compensation Committee considers, among other factors, the Company's performance and relative shareholder return, the value of similar incentive awards to Chief Executive Officers at comparable companies, the awards given to the Chief Executive Officer in past years, and other factors considered relevant by the Committee. The Compensation Committee attempts to benchmark companies in the medical device or medical products industries with similar annual revenue, size and other factors. The Compensation Committee believes these are the companies with whom the Company is most likely to compete to attract and retain senior executives. Such benchmark companies include: Align Technology, Inc.; Closure Medical Corporation; Encore Medical; NPS Pharmaceuticals, Inc.; Nutraceutical International Corporation; Myriad Genetics, Inc.; Advanced

Neuromodulation Systems, Inc.; Sonosite, Inc.; Angiodynamics, Inc.; ICU Medical, Inc.; Cantel Medical Corp.; Conceptus, Inc.; Conmed Corporation; Datascope Corp; DHB Industries, Inc.; Kensey Nash Corporation; Molecular Devices Corporation; and Polymedica Corporation.

The Compensation Committee sets the compensation package of the Chief Executive Officer. The Compensation Committee also reviews the recommendations of the Chief Executive Officer with respect to the compensation of the other Named Executive Officers and, after reviewing such recommendations, sets the compensation

6

of the other Named Executive Officers. The Compensation Committee also monitors, administers and approves awards under the Company's various incentive compensation plans for all levels within the Company, including awards under the Company's 2006 Long-Term Incentive Plan.

The Compensation Committee typically meets toward the end or shortly after the end of the Company's fiscal year to approve base salaries of the Named Executive Officers for the coming year and to consider annual incentive bonus awards for the previous year for the Named Executive Officers. At that meeting, the Compensation Committee also reviews the status of long-term incentives available to the Named Executive Officers (historically limited to options to purchase shares of Common Stock) and considers whether any additional long-term incentive awards are appropriate. The Compensation Committee reviews and approves bonus and merit increase recommendations.

The Compensation Committee relies on its experience and judgment in making executive compensation decisions after reviewing the performance of the Company for the applicable fiscal year and evaluating the executive's performance and responsibilities with the Company, and current compensation arrangements. The compensation program for the Named Executive Officers and the Compensation Committee assessment process are designed to be flexible so as to better respond to the evolving business environment and individual circumstances.

Role of Consultants. The Company and the Compensation Committee has in limited circumstances, but not regularly, engaged the services of compensation consultants, but either or both may do so upon a case-by-case basis as circumstances warrant.

Executive Compensation Program

The following components of the Company's executive compensation program and the policies that govern their implementation are outlined briefly below:

- Base Salary
- Incentive Bonus
- Long-Term Equity Awards
- Retirement Benefits
- Other Personal Benefits

Base Salary. The base salary for the Chief Executive Officer is set at a level that the Compensation Committee believes is generally competitive with levels of compensation paid to chief executive officers of other comparably-sized medical device manufacturers. The overall performance of the Company, shareholder return, and the Company's progress toward achieving specific objectives are also important factors in setting compensation for the Chief Executive Officer. The Compensation Committee also considers, among other factors, the value of similar incentive awards to chief executive officers at comparable companies, the awards given to the Chief Executive Officer in past years, and other factors considered relevant by the Committee. The base salary for Named Executive Officers other than the Chief Executive Officer is based generally upon market data reflecting base salaries paid by comparably sized medical device manufacturers, internal review of the Named Executive Officer's compensation, both individually and relative to other officers of the Company, and individual performance of the executive. The Chief Executive Officer and Chief Legal Officer historically gather information about benchmark companies, and present it to the Compensation Committee for review. Compensation of the other Named Executive Officers is also based, in part, upon the executive's responsibilities as compared to similar positions in comparable companies. It is the practice of the Compensation Committee to solicit and review recommendations of the Chief Executive Officer when determining salary levels for the Named Executive Officers other than the Chief Executive Officer.

Incentive Bonus. The Compensation Committee has established a quarterly and annual incentive bonus program (the Bonus Program) for the Named Executive Officers and other officers of the Company. The Bonus Program is intended to reward short-term performance and help attract and retain qualified executive officers. Under the Bonus Program, the Named Executive Officers are eligible to receive a cash bonus periodically throughout each fiscal year

and following the conclusion of the fiscal year, contingent on the attainment during the year of predetermined performance goals and continued employment through year-end. The amount of the quarterly and annual incentive bonuses payable to each Named Executive Officer is determined by the Compensation Committee, following the

7

conclusion of each quarter or fiscal year. In determining the amount of the incentive bonus payable to each Named Executive Officer, the Compensation Committee considers the Company's attainment of pre-determined performance goals, the assessment of the contribution of the particular Named Executive Officers, and the input of the Chief Executive Officer.

The Named Executive Officers are eligible to receive annual and quarterly incentive bonuses based upon the Company's achievement of performance objectives approved by the Compensation Committee. If the Company exceeds or fails to meet the performance objectives set by the Compensation Committee, the amounts of incentive bonuses paid to the Named Executive Officers are set at levels which the Compensation Committee determines appropriate. For the Named Executive Officers, the performance targets for 2006 were based on the Company's sales, earnings, implementation of savings programs, control of inventory growth, assimilation of acquisitions and development of new products. The payment of incentive bonuses to the Named Executive Officers is made periodically as well as toward the close of the quarter or fiscal year to which the bonuses relate, once the Compensation Committee has finally determined the amount actually earned and payable. The Chief Executive Officer and Named Executive Officers establish performance objectives and criteria for the Compensation Committee to consider. The Compensation Committee and Board of Directors may exercise discretion to adjust bonus amounts.

The amount of incentive bonuses payable to the Named Executive Officers for each fiscal year is set at levels which the Compensation Committee believes are competitive with the Company's peers such that the combination of base salary and incentive bonuses results in an aggregate rate of cash salary and incentive bonus compensation within competitive, market standards when the Company meets the performance objectives set by the Compensation Committee.

For 2006, the Chief Executive Officer qualified for a partial incentive bonus because the Company achieved most of its goals established by the Compensation Committee in the categories of sales, earnings, implementation of savings programs, assimilation of acquisitions and development of new products, but did not achieve goals established by the Compensation Committee in the category of inventory growth. As a result, the incentive bonus was paid based on reaching seven out of eight goals. For 2006, the other Named Executive Officers qualified for a partial incentive bonus based upon the Company's achievement of seven of the eight goals.

For 2007, the Chief Executive Officer will be eligible to receive the full amount of the targeted incentive bonus if the Company achieves goals established by the Compensation Committee in the following categories: sales growth, earnings growth, expense reduction, assimilation of acquisitions, implementation of offshore manufacturing to reduce costs, increased productivity per employee, and development of new products. If a goal for a particular category is not completely achieved, a discretionary pro-rated portion of the targeted incentive bonus may be paid for that category. In addition, the Compensation Committee may declare and pay to the Chief Executive Officer additional bonus amounts in recognition of exceptional performance.

For 2007, the other Named Executive Officers will be eligible to receive the full amount of their targeted incentive bonuses if the Company achieves goals established by the Compensation Committee in the following categories: assimilation of acquisitions, expense reduction, sales growth, earnings growth, implementation of offshore manufacturing to reduce costs, increased productivity per employee and research and development of new products. If a goal for a particular category is not completely achieved, a pro-rated discretionary portion of the targeted incentive bonus may be paid for that category. In addition, the Compensation Committee may in its discretion declare and pay to the Named Executive Officers additional bonus amounts in recognition of exceptional performance.

Incentive bonus amounts earned by the Named Executive Officers for 2006 are reported under the caption heading "Non-Equity Incentive Plan Compensation" in the Summary Compensation Table that appears on page 11 below.

Long-Term Equity Awards. Long-term equity awards, in the form of stock options are granted at the Compensation Committee's discretion to the Named Executive Officers annually in an effort to provide long-term performance-based compensation, to encourage the Named Executive Officers to continue their engagement with the Company throughout the vesting periods and to align management and shareholder interests. In making awards under the Company's 2006 Long-Term Incentive Plan, the Compensation Committee considers grant size and the appropriate combination of equity-based awards. The amount of long-term equity awards granted to the Named Executive Officers is generally based upon the Compensation Committee's assessment of each Named Executive Officer's expected future

contributions to the Company. The Company generally grants long-term equity awards at the regularly scheduled Compensation Committee meeting held in December of each year. In 2006, there were no equity awards granted to the Named Executive Officers, except for Fred P. Lampropoulos and Kent W. Stanger, each of whom received a grant of 15,000 stock options for his service as a director.

Options are granted to Named Executive Officers with an exercise price equal to the closing price per share on the date of grant, (or if the market is closed, with the most immediately available recent closing price), and historically vest on an immediate, three-year, or five-year pro-rated basis. The 2006 Long-Term Incentive Plan allows for a minimum three-year vesting schedule. The Company does not grant options with an exercise price below 100% of the trading price of the underlying shares of Common Stock on the date of grant or grant options that are priced on a date other than the grant date (unless granted on a Saturday or day when the market is closed). Stock options only have a value to the extent the value of the underlying shares of Common Stock on the exercise date exceeds the exercise price. Accordingly, stock options provide compensation to the Named Executive Officers only if the underlying share price increases over the option term and the Named Executive Officers' employment continues with the Company until the vesting date.

In granting stock options to the Named Executive Officers, the Company also considers the impact of the grant on the Company's financial performance, as determined in accordance with the requirements of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* (SFAS 123(R)). For long-term equity awards, the Company records expense in accordance with SFAS 123(R). The amount of expense the Company records pursuant to SFAS 123(R) may vary from the corresponding compensation value used by the Company in determining the amount of the awards.

Retirement Benefits. The Company's policy is to provide an attractive benefit package to all employees. Named Executive Officers of the Company are generally eligible to participate, on the terms and conditions applicable to all eligible employees of the Company, in the Merit Medical Systems, Inc. 401(k) Profit Sharing Plan, a broad-based, tax-qualified contributory savings and profit sharing plan (the 401(k) Plan).

The Company also maintains the Merit Medical Systems, Inc. Deferred Compensation Plan, a nonqualified deferred compensation plan, for the benefit of certain of its highly-compensated management employees, including the Named Executive Officers. Under the non-qualified deferred compensation plan (the Deferred Compensation Plan), eligible executives, including the Named Executive Officers, may elect in advance of each calendar year to defer up to 100% of their cash salary and bonus compensation earned with respect to such year. Amounts deferred are credited to an unfunded liability account maintained by the Company on behalf of the applicable Named Executive Officer, which account is deemed invested in and earns a rate of return based upon certain notational, self-directed investment options offered under the plan. In its direction, the Company can credit each eligible employee's account under the Deferred Compensation Plan with an employer matching contribution; however, the Company has never made such a matching contribution. Participant account balances under the Deferred Compensation Plan are fully-vested and will be paid by the Company to each Named Executive Officer upon retirement or separation from employment, or on other specified dates, in a lump sum form or in installments according to a schedule elected in advance by the participant.

Effective in 2007, the Company adopted an early retiree program allowing certain Company employees, including the Named Executive Officers, to continue to purchase health benefits through the Company at the rate available to current employees plus ten percent (the Early Retiree Program). The Early Retiree Program applies only to retirees who served as Vice Presidents of the Company at the time of their retirement and is available for periods subsequent to December 31, 2006. In order to participate in the Early Retiree Programs, individuals must meet specific criteria, such as having a minimum of ten years of service, being at least 45 years old at the time of their retirement, and having participated in the Company-sponsored medical plan for a minimum of two years prior to retirement date. Retiree coverage ceases when the participant elects any other group health insurance coverage or when the participant becomes eligible for Medicare.

The Company and its subsidiaries do not maintain any other pension or retirement plans for the Named Executive Officers.

Other Personal Benefits. The Company also provides other traditional welfare benefits and limited perquisites to the Named Executive Officers in order to achieve a competitive pay package as detailed in the Summary Compensation Table on page 11 below. The Compensation Committee believes that those benefits are reasonable, competitive and

consistent with the Company's overall executive compensation objectives. Those benefits consist primarily of Company-paid premiums for health, life and disability insurance.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), imposes a \$1 million annual limit on the amount that a public company may deduct for compensation paid to the company's Chief Executive Officer during a tax year or to any of the company's four other most highly compensated executive officers who are still employed at the end of the tax year. The limit does not apply to compensation that meets the requirements of Code Section 162(m) for qualified performance-based compensation (i.e., compensation paid only if the executive meets pre-established, objective goals based upon performance criteria approved by the Company's shareholders).

The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code. In certain situations, the Compensation Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. No Named Executive Officer's compensation in 2006 exceeded the \$1 million deduction limit.

Option Exercises and Stock Vested

The following table sets forth information concerning the Named Executive Officers' exercise of stock options during the year ended December 31, 2006.

(a)	(b)	(c)

(1) Ms. Weintraub's employment with the Company was terminated on February 10, 2007

(2) The value realized on exercise is calculated by multiplying the number of shares acquired by the difference between the closing market price per share on the date of exercise and the exercise price per share of the stock options.

Nonqualified Deferred Compensation

Pursuant to the Deferred Compensation Plan, Named Executive Officers may elect prior to the beginning of each calendar year to defer the receipt of base salary and performance bonuses earned for the ensuing calendar year. Amounts deferred are credited to an unfunded liability account maintained by the Company on behalf of the applicable Named Executive Officer, which account is deemed invested in and earns a rate of return based upon certain notational, self-directed investment options offered under the plan. The Named Executive Officer's accounts under the plan may also be credited with a discretionary employer matching contribution, although no such discretionary contribution was made for 2006 or any other time since the plan's inception. Participant account balances under the Deferred Compensation Plan are fully-vested and will be paid by the Company to each Named Executive Officer upon retirement or separation from employment, or on other specified dates certain, in a lump sum form or in installments according to a schedule elected in advance by the participant.

The following table sets forth certain information regarding the account balances and amounts credited under the Deferred Compensation Plan in 2006 with respect to the Named Executive Officers.

(a) Name	(b) Executive Contributions in Last Fiscal Year \$ (1)	(c) Registrant Contributions in Last Fiscal Year \$	(d) Aggregate Earnings in Last Fiscal Year \$	(e) Aggregate Withdrawals/ Distributions \$	(f) Aggregate Balance at Last Fiscal Year's End \$

Potential Payments Upon Termination or Change of Control

Employment Agreements. The Board of Directors has approved Employment Agreements (the Employment Agreements) for each of the Named Executive Officers. The Employment Agreements provide payments and benefits in the event of termination of employment under certain circumstances, including in connection with a change of control.

The Employment Agreements provide for the continued employment of the applicable Named Executive Officer for two years following a change of control as defined below (three years in the case of Mr. Fred P. Lampropoulos) (the Employment Period) in essentially the position held prior to the change of control and at an annual base salary and average annual bonus based on the salary paid during the last fiscal year and the average of the bonuses paid during the three fiscal years prior to the change of control. The Employment Agreements generally define a change of control as

(i) the acquisition by any person of 20% or more of the Company's common stock or voting securities; (ii) certain changes in a majority of the board of directors of the Company; (iii) consummation of a merger or reorganization of the Company in which neither the Company nor another entity controlled by the Company's shareholders is the surviving entity; (iv) a sale or other disposition of all or substantially all of the Company's assets to another entity that is not controlled by the Company's shareholders; or (v) shareholder approval of a liquidation of the Company. In addition, during the Employment Period, the Named Executive Officers are entitled to participate in all retirement plans, benefit plans and other employee benefits in effect prior to the change of control or, if more favorable, in those benefit programs provided to employees after the change of control.

Upon termination of employment by the Company following a change of control, other than for death, disability or cause as defined below, or if the Named Executive Officer terminates employment for good reason as defined below, the Named Executive Officer is entitled to receive the sum of (i) his or her base salary and bonus through the date of termination, (ii) any accrued or deferred compensation or benefits, (iii) an amount equal to the Named Executive Officer's annual base salary and average annual bonus multiplied by the number of whole or fractional years remaining in the Employment Period, and (iv) continued coverage during the remainder of the Employment Period under the Company's benefit plans, programs, practices or policies. Cause generally means willful misconduct or gross negligence. The Employment Agreements define resignation for good reason as resignation on account of a material diminution in the executive's title, responsibility and authority, continuing breach of the Employment Agreement by the Company, and certain relocations of executive. The Employment Agreements also provide that the Named Executive Officers may voluntarily terminate employment during a 30-day window period following the first 12 months of the Employment Period and that such a termination will be deemed for good reason. If involuntary termination of the employment of a Named Executive Officer occurs that is not related to a change of control and is for other than death, disability or cause, or the Named Executive Officer resigns for good reason other than in connection with a change of control, the Named Executive Officer is entitled to receive the sum of (i) and (ii) above, plus a sum equal to his or her annual base compensation and average annual bonus (based on the base salary paid during the last fiscal year and bonuses paid during the three prior fiscal years).

If termination of employment of a Named Executive Officer occurs by reason of death or disability, he or she shall be entitled to payment of base salary and bonus through the date of termination, any deferred or accrued benefits, and other death or disability benefits equal to the most favorable benefits provided by the Company to other employees and their families. If the Named Executive Officer is terminated for Cause during the Employment Period, the Company is obligated to pay to the Named Executive Officer his or her annual base salary through the date of termination, the amount of any compensation previously deferred, and any other benefits due through the date of termination, in each case to the extent not previously paid.

Accelerated Stock Option Vesting Upon a Change in Control. Under the Company's 2006 Long-Term Incentive Plan and prior stock option plan, all otherwise unvested stock options held by Named Executive Officers become fully vested upon a change of control as defined below, without regard to whether the Named Executive Officer terminates employment. The Company's stock option plans generally define a change of control as (i) certain changes in the majority of the Company's board of directors within a 24 month period; (ii) the acquisition by any person of 50% or more of the Company's common stock or voting securities; (iii) consummation of a merger or reorganization of the Company in which neither the Company nor another entity controlled by the Company's shareholders is the surviving entity; (iv) a sale or other disposition of all or substantially all of the Company's assets to another entity that is not controlled by the Company's shareholders; or (v) shareholder approval of a liquidation of the Company. Additionally, in the case of stock options granted prior to 2006, such options remain exercisable following a change of control for their entire original term notwithstanding termination of the option holder's employment prior to the scheduled option expiration date.

Amounts Payable Upon a Change of Control without Termination of Employment.

The following table shows for each Named Executive Officer the unrealized intrinsic value of his or her otherwise unvested stock options on December 31, 2006 that would have vested had a change of control occurred on that date, calculated by multiplying the number of underlying shares by the closing price of Company stock on the last trading day of 2006 and by then subtracting the applicable option exercise price:

(a) Name	(b) Intrinsic Value of Stock Options \$
Fred Lampropoulos	238,237
Martin R. Stephens	4,080
Kent W. Stanger	151,519
B. Leigh Weintraub	86,719
Gregory L. Barnett	43,353
Arlin D. Nelson	21,677

The Employment Agreements do not provide for any additional payment merely upon a change of control absent a termination of employment.

If a change of control with respect to the Company results in acceleration of vesting of a Named Executive Officer's stock options, and if the value of such acceleration plus all other compensatory payments to the Named Executive Officer that are contingent on the change in control (including the salary and bonus continuation payments described below) exceeds 2.99 times the Named Executive Officer's average W-2 compensation with the Company for the five taxable years preceding the year of the change of control (the Base Period Amount), the acceleration would result in an excess parachute payment under Code Section 280G. A Named Executive Officer would be subject to a 20% excise tax, and the Company would be unable to deduct, the amount by which such parachute payments to a Named Executive Officer exceed one times the Named Executive Officer's Base Period Amount. The Company has not agreed to provide to its Named Executive Officers any gross-up or reimbursement for excise taxes imposed on excess parachute payments.

Amounts Payable upon Termination of Employment

Termination Without Cause or For Good Reason Upon or Following a Change of Control. The following table shows the amounts that would be payable to each Named Executive Officer if the Company had undergone a change of control on December 31, 2006 and the Named Executive Officer's employment with the Company terminated voluntarily for good reason or involuntarily without cause on December 31, 2006. The following amounts are in addition to accrued vacation and distributions from the 401(k) Plan that are payable to all salaried employees upon termination of employment:

The Company uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve as directors.
