-

## FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements as defined by United States securities laws that involve inherent risks and uncertainties. These statements relate to two uncompleted securities offerings. These statements are subject to completion of the respective securities offerings. Completion of these securities offerings requires, among other things, the satisfaction or waiver of the conditions to closing specified in the applicable underwriting agreement, including the absence of a material adverse change to State Street Corporation, and other customary conditions. Therefore, actual outcomes and results may differ materially from what is expressed in those statements. The forward-looking statements contained in this report speak only as of the date hereof, and State Street Corporation will not undertake efforts to revise those forward-looking statements to reflect events after this date.

### Item 8.01 Other Events

#### Floating Rate Capital Securities

On April 23, 2007, State Street Corporation and State Street Capital Trust IV, a wholly owned subsidiary of State Street, entered into an Underwriting Agreement with Credit Suisse Securities (USA) LLC, Goldman, Sachs & Co. and Morgan Stanley & Co. Incorporated, as representatives of the underwriters named in the Underwriting Agreement, for the sale of \$800,000,000 (in aggregate liquidation amount) of Floating Rate Capital Securities, liquidation amount \$1,000 per security, of State Street Capital Trust IV registered pursuant to an automatic shelf registration statement on Form S-3ASR (SEC File No. 333-132606). Each capital security offered will represent an undivided preferred beneficial interest in the assets of the Trust. The only assets of the Trust will be State Street's Floating Rate Junior Subordinated Debentures with an initial scheduled maturity date of June 15, 2037 and an initial final repayment date of June 1, 2067.

The Trust will pay distributions on the capital securities only from the proceeds, if any, of interest payments on the junior subordinated debentures. The junior subordinated debentures will pay interest at an annual rate of three-month LIBOR plus 1.00% from and including April 30, 2007 to but excluding June 15, 2047 and one-month LIBOR plus 1.99% thereafter. State Street has the right, on one or more occasions in specified circumstances, to defer interest payments on the junior subordinated debentures for one or more interest periods that do not exceed ten years without giving rise to an event of default. State Street may extend at its option in specified circumstances the initial scheduled maturity date of the junior subordinated debenture to June 15, 2047 and the final repayment date of the junior subordinated debentures to June 1, 2077. At State Street's option, the junior subordinated debentures may be redeemed in whole or in part at any time on or after June 15, 2012, or earlier, in whole, but not in part, in the event of significant tax, rating agency, capital treatment or investment company events, for a

## Edgar Filing: STATE STREET CORP - Form 8-K

redemption price equal to 100% of the principal amount plus accrued and unpaid interest through the date of redemption. The Trust will use the proceeds for redemption payments to redeem a like amount of capital securities.

The junior subordinated debentures will be subordinated to all of State Street's existing and future senior, subordinated and junior subordinated debt, including the junior subordinated debentures issued by State Street in connection with prior issuances of capital securities issued by its capital trusts, except that the junior subordinated debentures will rank *pari passu* with any future debt that by its terms is not superior in right of payment and any trade accounts payable and accrued liabilities arising in the ordinary course of business. The junior subordinated debentures will be effectively subordinated to all liabilities of State Street's subsidiaries. As a result, the capital securities also will be effectively subordinated to the same debt and liabilities. State Street will provide a limited guarantee of the capital securities on a subordinated basis.

The offering is scheduled to be completed on April 30, 2007 and is subject to customary closing conditions.

Copies of the Underwriting Agreement, opinions of counsel, the Amended and Restated Trust Agreement, the Floating Rate Capital Securities Certificate, the Guarantee Agreement, the Second Supplemental Indenture and the Replacement Capital Covenant, or forms thereof, associated with this offering are filed with this report and are incorporated by reference into the registration statement.

### Fixed and Floating Rate Notes

On April 25, 2007, State Street entered into an Underwriting Agreement with Lehman Brothers Inc., as representative of the underwriters named in the Underwriting Agreement, for the sale of \$450,000,000 in principal amount of Fixed Rate Notes due April 30, 2017 and \$250,000,000 in principal amount of Floating Rate Notes due April 30, 2012, each issued by State Street and registered pursuant to an automatic shelf registration statement on Form S-3ASR (SEC File No. 333-132606). The fixed rate notes and the floating rate notes are collectively referred to as the notes. The fixed rate notes will bear interest at a rate of 5.375% per annum. The floating rate notes will bear interest at a rate equal to the then applicable U.S. dollar three-month LIBOR rate plus 0.10% per annum.

The offering is scheduled to be completed on April 30, 2007 and is subject to customary closing conditions.

Copies of the Underwriting Agreement, an opinion of counsel, the Fixed Rate Note Certificate and the Floating Rate Note Certificate, or forms thereof, associated with this offering are filed with this report and are incorporated by reference into the registration statement. State Street may not redeem the notes prior to their maturity. There is no sinking fund for the notes. The notes are unsecured debt obligations of State Street.
