

HEWLETT PACKARD CO  
Form FWP  
February 26, 2008

Filed Pursuant to Rule 433

Registration Statement No. 333-134327

Pricing Term Sheet

February 25, 2008

**Hewlett-Packard Company**

**Floating Rate Notes Due September 3, 2009**

In addition to the securities described in the preliminary prospectus supplement, the Issuer is also issuing a series of Floating Rate Global Notes due September 3, 2009. Certain of the terms of the Floating Rate Global Notes are described below. In addition to the terms described below, the following subsections from the section of the preliminary prospectus supplement entitled **Description of the Global Notes** relate to the description of the Floating Rate Global Notes: the introductory paragraph, **General**, **Book-Entry Notes**, **Defeasance**, **Sinking Fund** and **Governing Law**, and the section of the base prospectus entitled **Description of the Debt Securities**.

<b>Issuer:</b>	<b>Hewlett-Packard Company</b>
<b>Ticker:</b>	HPQ
<b>Format:</b>	SEC Registered Global
<b>Security Ratings:</b>	A2 (Moody's Investors Service) / A (Standard & Poor's) / A+ (Fitch Ratings)
<b>Trade Date:</b>	February 25, 2008
<b>Settlement Date:</b>	March 3, 2008

We expect that delivery of the notes will be made against payment therefor on or about March 3, 2008, which will be the 5th business day following the date of pricing of the Global Notes (such settlement cycle being herein referred to as **T + 5**). Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Global Notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the Global Notes initially will settle **T + 5**, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of Global Notes who wish to trade such notes on the date of pricing or the next succeeding business day should consult their own advisor.

<b>Maturity Date:</b>	September 3, 2009
<b>Aggregate Principal Amount Offered:</b>	\$750,000,000
<b>Price to Public (Issue Price):</b>	100%

**Global Note Denominations:**

Rather than stated in the Prospectus dated May

---

22, 2006, the Notes will be issued in the form of one or more fully registered global securities in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

3-Month USD LIBOR

3-Month USD LIBOR +0.40%

Quarterly on the 3<sup>rd</sup> of March, June, September, December of each year, beginning on June 3, 2008 (subject to modified following business day convention)

Actual/360

Two London business days prior to each interest reset date

**Benchmark:**

**Interest Rate:**

**Interest Payment Dates and Interest Reset Dates:**

**Method of Calculation:**

**Interest Determination Date:**

**Description of Floating Rate Global Notes:**

The Floating Rate Global Notes will bear interest for each interest period at a rate determined by the calculation agent. The calculation agent is The Bank of New York Trust Company, N.A. until such time as we appoint a successor calculation agent. The interest rate on the Floating Rate Global Notes for a particular interest period will be a per annum rate equal to three-month USD LIBOR as determined on the interest determination date plus 0.40%. The interest determination date for an interest period will be the second London business day preceding the first day of such interest period. Promptly upon determination, the calculation agent will inform the Trustee and us of the interest rate for the next interest period. Absent manifest error, the determination of the interest rate by the calculation agent shall be binding and conclusive on the holders of the Floating Rate Global Notes, the Trustee and us. A London business day is a day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

Interest on the Floating Rate Global Notes will be paid to but excluding the relevant interest payment date. We will make interest payments on the Floating Rate Global Notes quarterly in arrears on March 3, June 3, September 3 and December 3 of each year, beginning on June 3, 2008, to the person in whose name those notes are registered at the close of business on the business day immediately preceding the interest payment date. Interest on the Floating Rate Global Notes will accrue from and including March 3, 2008, to but excluding the first interest payment date and then from and including the immediately preceding interest payment date to which interest has been paid or duly provided for to but excluding the next interest payment date or maturity date, as the case may be. We refer to each of these periods as an interest period. The amount of accrued interest that we will pay for any interest period can be calculated by multiplying the face amount of the Floating Rate Global Notes then outstanding by an accrued interest factor. This accrued interest factor is computed by adding the interest factor calculated for each day from March 3, 2008, or from the last date we paid interest to you, to the date for which accrued interest is being calculated. The interest factor for each day is computed by dividing the interest rate applicable to that day by 360. If an interest payment date for the Floating Rate Global Notes falls on a day that is not a business day, the interest payment date shall be postponed to the next succeeding business day unless such next succeeding business day would be in the following month, in which case, the interest payment date shall be the immediately preceding business day.

On any interest determination date, LIBOR will be equal to the offered rate for deposits in U.S. dollars having an index maturity of three months, in amounts of at least \$1,000,000, as such rate appears on Reuters Page LIBOR01 at approximately 11:00 a.m., London time, on such interest determination date. If on an interest determination date, such rate does not appear on the Reuters Page LIBOR01 as of 11:00 a.m., London time, or if the Reuters Page LIBOR01 is not available on such date, the calculation agent will obtain such rate from Bloomberg L.P.'s page BBAM.

If no offered rate appears on Reuters Page LIBOR01 or Bloomberg L.P. page BBAM on

## Edgar Filing: HEWLETT PACKARD CO - Form FWP

an interest determination date at approximately 11:00 a.m., London time, then the calculation agent (after consultation with us) will select four major banks in the London interbank market and shall request each of their principal London offices to provide a quotation of the rate at which three-month deposits in U.S. dollars in amounts of at least \$1,000,000 are offered by it to prime banks in the London interbank market, on that date and at that time, that is representative of single transactions at that time. If at least two quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, the calculation agent will select three major banks in New York City and shall request each of them to provide a quotation of the rate offered by them at approximately 11:00 a.m., New York City time, on the interest determination date for loans in U.S. dollars to leading European banks having an index maturity of three months for the applicable interest period in an amount of at least \$1,000,000 that is representative of single transactions at that time. If three quotations are provided, LIBOR will be the arithmetic average of the quotations provided. Otherwise, the rate of LIBOR for the next interest period will be set equal to the rate of LIBOR for the then current interest period.

Upon request from any holder of Floating Rate Global Notes, the calculation agent will provide the interest rate in effect for the Floating Rate Global Notes for the current interest period and, if it has been determined, the interest rate to be in effect for the next interest period.

All percentages resulting from any calculation of the interest rate on the Floating Rate Global Notes will be rounded to the nearest one hundred-thousandth of a percentage point with five one millionths of a percentage point rounded upwards (*e.g.*, 9.876545% (or .09876545) would be rounded to 9.87655% (or .0987655)), and all dollar amounts used in or resulting from such calculation on the Floating Rate Global Notes will be rounded to the nearest cent (with one-half cent being rounded upward). Each calculation of the interest rate on the notes by the calculation agent will (in absence of manifest error) be final and binding on the holders and us.

The interest rate on the Floating Rate Global Notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application.
