Section 1 Registrant's Business and Operations

Item 1.01 Entry into a Definitive Material Agreement.

Effective as of May 30, 2008, Hexcel Corporation and its lenders entered into the second amendment to its senior secured credit facility pursuant to which Hexcel borrowed \$80 million of additional term loans. The net proceeds were used to pay down the revolving loan balance under the credit facility and to provide for cash on hand, creating additional liquidity to help Hexcel meet significant growth expected in its core markets. Immediately after giving effect to the new borrowing, Hexcel had \$167.4 million of term loans outstanding under its credit facility, and a revolving loan commitment of \$125.0 million. As of May 30, 2008, \$13.5 million of the revolving loan commitment was utilized for Letters of Credit, and there were no revolving loan borrowings outstanding.

The additional term loans under the facility mature on April 1, 2012, one month after maturity of the existing term loans under the credit facility. Principal payments on the new term loans are due quarterly in similar proportion to the existing term loans, with substantially all of the principal due in the second half of 2011 and the first half of 2012. Any voluntary or mandatory prepayments of term loans by Hexcel will be applied pro rata among the previously existing term loans and the new term loans. The interest rate for the new term loans is based on LIBOR plus a margin, and was determined based on current market pricing. In accordance with the terms of the credit facility regarding the borrowing of additional loans, the interest rate margin on the existing term loans was increased as well, to a level slightly below that of the new term loans.

All other terms of the credit facility, including the collateral package, subsidiary guarantees and financial and other covenants, remain unchanged.

The above summary of the second amendment to the credit facility is qualified in its entirety by reference to such agreement, a copy of which is filed as exhibit 10.1 hereto and is incorporated herein by reference.
