Report of Independent Registered Public Accounting Firm

The Board of Directors and Plan Participants
Target Corporation

We have audited the accompanying statements of net assets available for benefits of the Target Corporation 401(k) Plan (the Plan) as of December 31, 2007 and 2006, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2007 and 2006, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2007, and reportable transactions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

Target Corporation 401(k) Plan

Notes to Financial Statements

December 31, 2007

1. Description of the Plan

Employees of Target Corporation (the Company) who meet certain eligibility requirements of age and hours worked can participate in the Target Corporation 401(k) Plan (the Plan). Under the terms of the Plan, participants can invest up to 80% of their current gross cash compensation in the Plan, within Employee Retirement Income Security Act (ERISA) limits.

Before January 1, 2007, participants vested in the Company's matching deposits over time, beginning with the day they became eligible to participate in the Plan, in accordance with the following schedule:

Years	Vested Percentage
Upon Eligibility	20%
1	40
2	70
3	100

Beginning January 1, 2007, participants immediately became vested in the Company's matching deposits both historically and prospectively.

Participant contributions are fully vested at all times. Prior to January 1, 2007, participants who left the Plan forfeited unvested company contributions, which were then used to reduce future company contributions. Total forfeitures for the year ended December 31, 2006, were \$4,763,000. In 2007, the trust received the final forfeiture amount of \$407,000 from the prior year, which reduced employer contributions for the year. Consistent with the new vesting guidelines, there were no forfeitures for the year ended December 31, 2007.

Participants are allowed to make contributions to the Plan, in any combination of before-tax and/or after-tax contributions, except for highly compensated participants. Highly compensated participants, as defined by the Internal Revenue Code (the Code), can only make before-tax contributions to the Plan. Participants can contribute up to the annual contribution limits established by the Internal Revenue Service (IRS) (\$15,500 starting January 1, 2007, plus a \$5,000 catch-up for participants age 50 and older).

Target Corporation 401(k) Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participants may receive benefits upon termination, death, disability, or retirement as either a lump-sum amount equal to the vested value of their account or installments, subject to certain restrictions. Participants may also withdraw some or all of their account balances prior to termination, subject to certain restrictions.

Expenses paid by the Plan include the following: fund management fees (which are netted against investment interest income), trustee fees, monthly processing costs (including record-keeping fees), quarterly participant account statement preparation and distribution, and other third-party administrative expenses.

The Plan allows for two types of loans, one for the purchase of a primary residence and the other a general-purpose loan, both subject to certain restrictions as defined in the Plan. Participants may have one of each type of loan outstanding at any given time. Repayment of loans, including interest, is allocated to participants' investment accounts in accordance with each participant's investment election in effect at the time of the repayment.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA.

For more detailed information regarding the Plan, participants may refer to the Summary Plan Description available from the Company.

2. Accounting Policies

Accounting Method

All investments are carried at fair market value except for fully benefit-responsive investment contracts, which are adjusted from fair value to contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay plan benefits. Common stock is valued at the quoted market price on the last business day of the plan year. Collective investment fund values are based on the fair value of the underlying securities (as determined by quoted market prices) as of the last business day of the plan year. Participant loans are valued at the unpaid principal balance, which approximates fair value.

Target Corporation 401(k) Plan

Notes to Financial Statements (continued)

2. Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ significantly from those estimates.

Fully Benefit-Responsive Investment Contracts

As described in Financial Accounting Standards Board (FASB) Staff Position (FSP) AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in two synthetic investment contracts (synthetic GICs). As required by the FSP, the statement of net assets available for benefits presents the fair value of the fully benefit-responsive investment contracts as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The underlying investments of the synthetic GICs are valued at quoted market values on the last business day of the Plan's year-end. The fair value of the wrap contracts for the synthetic GICs provided by the insurance companies is the replacement cost, and it is based on the wrap contract fees. The contract value of the fully-benefit responsive investment contracts represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Recent Accounting Pronouncement

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 establishes a framework for measuring fair value under U.S. generally accepted accounting principles (GAAP), clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15,

Target Corporation 401(k) Plan

Notes to Financial Statements (continued)

2. Accounting Policies (continued)

2007. The Company adopted SFAS 157 as of February 3, 2008, subsequent to the Plan's financial statement date. Plan management is currently evaluating the effect that the provisions of SFAS 157 will have on the Plan's financial statements.

3. Investments

At December 31, 2007, the Plan allows participants to allocate their investments among 13 investment funds. Participants may change their investment elections for existing account balances for past and future contributions on a daily basis.

The Plan's investments are held by State Street Bank, the trustee. The Plan's investments, including investments bought and sold, as well as investments held during the year, appreciated or depreciated in fair value as follows:

		Net Appreciation (Depreciation) in Fair Value During Year (In Thousands)
Year ended December 31, 2007:		
Collective investment funds	\$	107,351
Target Corporation common stock		(256,547)
	\$	(149,196)
Year ended December 31, 2006:		
Collective investment funds	\$	175,473
Target Corporation common stock		102,468
	\$	277,941

Target Corporation 401(k) Plan

Notes to Financial Statements (continued)

3. Investments (continued)

The fair values of individual investments representing 5% or more of the Plan's net assets are as follows:

	December 31	
	2007	2006
	<i>(In Thousands)</i>	
Target Corporation common stock*	\$2,201,451	\$2,794,425
State Street Bank & Trust Co. S&P 500 Flagship Fund Class A*	354,503	282,403
Russell 3000 Index Lending	257,302	213,015
AIG Financial Products Group Annuity Contract No. 130221	300,440	290,459
Pacific Mutual Life Insurance Co. Group Annuity Contract No. 26255	300,440	290,459

*Indicates issuer is a party in interest to the Plan.

4. The Stable Value Fund

The Plan invests in fully benefit-responsive synthetic GICs with two separate insurance companies as part of offering the Stable Value Fund (the Fund) investment option to participants. Contributions to this fund are invested in a portfolio of high-quality short- and intermediate-term U.S. bonds, including U.S. government treasuries, corporate debt securities, and other high-credit-quality asset-backed securities. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Fund has entered into two wrap contracts with insurance companies under which the insurance companies provide guarantees with respect to the availability of funds to make distributions from this investment option. These insurance contracts are carried at contract value in the participants' accounts.

Target Corporation 401(k) Plan

Notes to Financial Statements (continued)

4. The Stable Value Fund (continued)

Participant accounts in the Fund are credited with interest at a fixed rate that is reset quarterly. The primary variables impacting the future crediting rates include (1) the current yield of the assets underlying the contract, (2) the duration of the assets underlying the contracts, and (3) the existing difference between the fair value of the securities and the contract value of the assets within the insurance contract. The crediting rate of security-backed contracts will track current market yields on a trailing basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

To the extent that the underlying portfolio has unrealized and/or realized losses, a positive adjustment is made when reconciling from fair value to contract value under contract value accounting. As a result, the future crediting rate may be lower over time than the current market rates. Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made when reconciling from fair value to contract value, and in the future, the crediting rate may be higher than the current market rates. The insurance contracts cannot credit an interest rate that is less than zero percent.

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events are limited to premature termination of the contracts by the Plan or plan termination. The plan sponsor has not expressed any intention to take either of these actions.

As described in Note 2, because the synthetic GICs are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the synthetic GICs. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The average yields earned by the Fund at December 31, 2007 and 2006, are as follows:

Average yields for synthetic GICs	2007	2006
Based on actual earnings	5.21%	5.42%
Based on interest rate credited to participants	5.09	4.62

Target Corporation 401(k) Plan

Notes to Financial Statements (continued)

5. Nonparticipant-Directed Investments

The Company matches 100% of participants' contributions up to 5% of each participant's gross cash compensation. The Company's contributions to the Plan are initially invested in the Target Corporation Common Stock Fund. As of January 1, 2007, all actively employed participants became fully vested in their employer match contributions. As a result, participants can immediately diversify the investment of employer match funds to other plan investment options. Prior to January 1, 2007, some of the investments of the Company's stock could not be directed to other investment options because full vesting had not yet been achieved. At December 31, 2006, approximately \$69 million in investments of the Company's stock were deemed to be nonparticipant-directed investments. For the year ended December 31, 2006, employer contributions of nonparticipant-directed funds were \$38 million. As of December 31, 2007, there were no nonparticipant-directed investments.

6. Transactions With Parties in Interest

During the plan year 2007 and 2006, the Plan engaged in the following exempt party-in-interest transactions related to the Company's common stock:

	2007	2006
	<i>(In Thousands)</i>	
Number of common shares purchased	7,254	2,444
Cost of common shares purchased	\$ 433,359	\$ 128,615
Number of common shares sold	11,935	6,432
Market value of common shares sold	\$ 753,077	\$ 349,323
Cost of common shares sold	\$ 323,235	\$ 160,034
Number of common shares distributed to plan participants	272	483
Market value of common shares distributed to plan participants	\$ 16,709	\$ 25,608
Cost of common shares distributed to plan participants	\$ 7,367	\$ 11,977
Dividends received (net of pass-through dividends)	\$ 22,912	\$ 21,650

During 2007 and 2006, the Plan received match-related dividends of \$15,879,000 and \$14,153,000, respectively, on the Company's common stock.

Target Corporation 401(k) Plan

Participant contribution receivable	(7,847)	
Employer contribution receivable	(5,771)	
Total income per the Form 5500	\$ 357,792	\$ 686,463

9. Income Tax Status

The Plan has received a determination letter from the IRS dated September 12, 2001, stating that the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. Subsequent to the issuance of this determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.
