***Item 2.01. Completion of Acquisition or Disposition of Assets.***

This Form 8-K/A amends and restates the initial 8-K filed by American Mortgage Acceptance Company ("AMAC" or the "the Registrant") on December 7, 2007, for the purposes of attaching a copy of the press release (Exhibit 99.1 hereto) that conforms to the press release issued by the Company on December 7, 2007.

As previously disclosed by American Mortgage Acceptance Company, recent market conditions have resulted in a reduction of liquidity across the credit spectrum of mortgage products. Market conditions have continued to decline, increasing the credit spreads on certain mortgage assets. This, coupled with a decline in yields on U.S. Treasury securities have lead to margin calls on repurchase facilities and interest rate derivatives whereby the Registrant was required to post additional cash collateral to the facility lenders and to derivative counterparties. As such, the Registrant has explored avenues to increase liquidity for future cash needs and sold assets as follows:

- On November 19 and 20, 2007, the Registrant sold its portfolio of Federal National Mortgage Association ("FNMA") and Government National Mortgage Association ("GNMA") securities (together, the "Debt Securities") to an unrelated third party. As a result, the Registrant received total proceeds of \$71.2 million, of which, \$67.5 million was used to repay a repurchase facility that collateralized these debt securities. Based on the amortized cost of \$73.4 million prior to the sale, the transactions resulted in realized losses of \$2.2 million.
- On December 3, 2007, the Registrant sold two Commercial Mortgage-Backed Securities ("CMBS") to an unrelated third party. This sale resulted in total proceeds of \$ 15.6 million, of which, \$14.0 million was used to repay a repurchase facility that collateralized these CMBS. Based on the amortized cost of \$25.9 million prior to the sale, the transactions resulted in realized losses of \$10.3 million.

As a result of these asset sales, the Registrant incurred \$1.0 million in net realized losses due to the termination of related interest rate derivatives.

If current market conditions continue to decline, the Registrant may be required to post additional cash collateral due to margin calls. Accordingly, the Registrant may sell additional assets and incur additional losses. At this time, the Registrant is unable to determine the amount of such losses if such sales were to occur.

In addition, should deterioration of the Registrant's liquidity impede its ability to hold certain investments, the Registrant may need to recognize changes in the fair value of those investments as permanent losses in the fourth quarter of 2007.

***Item 7.01. Regulation FD Disclosure.***

At this time management of the Registrant is withdrawing its previously issued earnings guidance for 2007. The portions of the Press Release attached as Exhibit 99.1 that relate to earnings guidance are deemed to be furnished, not filed.

***Item 8.01. Other Events.***

Due to the circumstances mentioned in *Item 2.01* of this 8-K, the Registrant's Board of Trustees resolved that no dividend be paid on its common shares of beneficial interest for the quarter ended December 31, 2007.
