## **REPORT OF INDEPENDENT ACCOUNTANTS**

#### To the Board of Directors and Stockholders of Companhia Vale do Rio Doce

In our opinion, based upon our audits and the reports of other auditors, the accompanying consolidated balance sheets and the related consolidated statements of income, of cash flows and of changes in stockholders' equity, present fairly, in all material respects, the financial position of Companhia Vale do Rio Doce and its subsidiaries at December 31, 2002 and 2001, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of certain affiliates, the investments in which total US\$343 million and US\$441 million at December 31, 2002 and 2001, respectively, and equity in earnings of US\$60 million, US\$53 million and US\$213 million for 2002, 2001 and 2000, respectively. Also, we did not audit the financial statements of certain majority-owned subsidiaries as at and for the years ended December 31, 2002, 2001 and 2000, which statements reflect total assets of US\$969 million and US\$500 million at December 31, 2002 and 2001, respectively, and total revenues of US\$426 million, US\$407 million and US\$480 million for 2002, 2001 and 2000, respectively. The financial statements of these affiliates and subsidiaries were audited by other auditors whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts for these affiliates and subsidiaries, is based solely on the reports of the other auditors. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for the opinion expressed above.

### Notes to the Consolidated Financial Statements Expressed in millions of United States dollars, unless otherwise stated

#### 1 The Company and its operations

Companhia Vale do Rio Doce (CVRD) is a limited liability company, duly organized and existing under the laws of the Federative Republic of Brazil. Our operations are carried out through CVRD and its subsidiary companies, joint ventures and affiliates, and mainly consist of mining, non-ferrous metal production and logistics, as well as energy, aluminum and steel activities. We disposed of most of our investments in pulp and paper during 2001. Further details of our operations and those of our joint ventures and affiliates are described in Note 16.

The main operating subsidiaries we consolidate during the three years ended December 31, 2002 are as follows:

| Subsidiary   | %<br>ownership | Head<br>office<br>location | Principal<br>activity           |

#### 2 Summary of significant accounting policies

In preparing the consolidated financial information, we are required to use estimates to account for certain assets, liabilities, revenues and expenses. Our consolidated financial information therefore includes various estimates concerning the selection of useful lives of property, plant and equipment, provisions necessary for contingent liabilities, fair values assigned to assets and liabilities acquired in business combinations, income tax valuation allowances, employee post-retirement benefits and other similar evaluations; actual results may vary from our estimates.

#### (a) Basis of presentation

We have prepared the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America ([US GAAP]), which differ in certain respects from the Brazilian accounting principles that we use in preparing our statutory financial information.

The U.S. dollar amounts for the period presented have been remeasured (translated) from the Brazilian currency amounts in accordance with the criteria set forth in Statement of Financial Accounting Standards 52 [] []Foreign Currency Translation[] (SFAS 52).

Prior to July 1, 1997, Brazil was considered under SFAS 52 to have a highly inflationary economy and accordingly, up to June 30, 1997, we adopted the U.S. dollar as both our functional currency and reporting currency.

As from July 1, 1997, we concluded that the Brazilian economy had ceased to be highly inflationary and changed our functional currency from the reporting currency (U.S. dollars) to the local currency (Brazilian reais), for Brazilian operations and extentions thereof. Accordingly, we translated the U.S. dollar amounts of non-monetary assets and liabilities into reais at the current exchange rate, and those amounts became the new accounting bases for such assets and liabilities.

We have remeasured all assets and liabilities into U.S. dollars at the current exchange rate at each balance sheet date (R\$3.5333 and R\$2.3204 to US\$1.00 at December 31, 2002 and 2001, respectively),

and all accounts in the statements of income (including amounts relative to local currency indexation and exchange variances on assets and liabilities denominated in foreign currency) at the average rates prevailing during the period. The translation gain or loss resulting from this remeasurement process is included in the cumulative translation adjustments account in stockholders[] equity.

The net exchange transaction loss included in our statement of income was 515, 410 and 115 in 2002, 2001 and 2000, respectively, included within the line [Foreign exchange and monetary losses, net].

#### (b) Basis of consolidation

All majority-owned subsidiaries where we have both share and management control are consolidated, with elimination of all significant intercompany accounts and transactions. Investments in unconsolidated affiliates and joint ventures are reported at cost less amortized goodwill plus our equity in undistributed earnings or losses. Included in this category are certain joint ventures in which we have majority ownership but, by force of shareholders[] agreements, do not have effective management control. We provide for losses on equity investments with negative stockholders[] equity where applicable (see Note 10).

We evaluate the carrying value of our listed investments relative to publicly available quoted market prices. If the quoted market price is below book value, and such decline is considered other than temporary, we write-down our equity investments to quoted market value.

We define joint ventures as businesses in which we and a small group of other partners each participate actively in the overall entity management, based on a shareholders agreement. We define affiliates as businesses in which we participate as a minority stockholder but with significant influence over the operating and financial policies of the investee.

#### (c) Business combinations

We adopt the procedures determined by SFAS 141  $\Box$  Business Combinations to recognize acquisitions of interests in other companies. The method of accounting used in our business combination transactions is the Durchase method, which requires that acquirers reasonably determine the fair value of the identifiable assets and liabilities of acquired companies, individually, in order to determine the goodwill paid in the purchase to be recognized as an intangible asset. On the acquisition of assets which include the rights to mine reserves of natural resources, the establishment of values for these assets includes the placing of fair values on purchased reserves, which are classified in the balance sheet as property, plant and equipment.

Goodwill was amortized in a systematic manner over the periods estimated to be benefited through December 31, 2001. As required by SFAS 142  $\square$   $\square$ Goodwill and Other Intangible Assets $\square$  from January 1, 2002 goodwill resulting from the acquisitions is not amortized, but is tested for impairment at least annually and reduced to fair value to the extent any such impairment is identified.

#### (d) Inventories

Inventories are stated at the average cost of purchase or production, lower than replacement or realizable values. We record allowances for slow-moving or obsolete inventories when considered appropriate, reflecting our periodic assessment of recoverability. A write-down of inventory utilizing the allowance establishes a new cost basis for the related inventory.

Finished goods inventories include all related materials, labor and direct production expenditures, and exclude general and administrative expenses.

#### (e) Property, plant and equipment

Property, plant and equipment are recorded at cost, including interest cost incurred during the construction of major new facilities. We compute depreciation on the straight-line basis at rates which take into consideration the useful lives of the items, principally an average of 80 years for the railroads, 20 years for ships, 25 years for

buildings and improvements and between 10 to 20 years for mining and other equipment. Expenditures for maintenance and repairs are charged to operating costs and expenses as incurred.

We capitalize the costs of developing major new ore bodies or expanding the capacity of operating mines and amortize these to operations on the unit-of-production method based on the total probable and proven quantity of ore to be recovered. Exploration costs are expensed until viability of mining activities is established; subsequently such costs are capitalized together with further exploration costs. We capitalize mine development costs as from the time we actually begin such development.

#### (f) Available-for-sale equity securities

Equity securities classified as [available-for-sale] are recorded in accordance with SFAS 115 [Accounting for Certain Investments in Debt and Equity Securities]. Accordingly, we exclude unrealized holding gains and losses, net of taxes, if applicable, from income and recognize them as a separate component of stockholders] equity until realized.

#### (g) Revenues and expenses

Revenues are recognized when title has transferred to the customer or services are rendered. Expenses and costs are recognized on the accrual basis. Revenue from exported products is recognized when such products are loaded on board the ship. Revenue from products sold in the domestic market is recognized when delivery is made to the customer. Revenue from transportation services, other than shipping operations, is recognized when the service order has been fulfilled. Shipping operations are recorded on the completed voyage basis and net revenue, costs and expenses of voyages not completed at period-end are deferred. Anticipated losses on voyages are provided when probable and can be reasonably estimated.

#### (h) Environmental and site reclamation and restoration costs

Expenditures relating to ongoing compliance with environmental regulations are charged against earnings or capitalized as appropriate. These ongoing programs are designed to minimize the environmental impact of our activities. With respect to our two major iron ore mines at Itabira and Carajás, which have extensive remaining reserves, liabilities for final site reclamation and restoration costs will be recorded when the respective reclamation and restoration strategies can be reasonably determined and the related costs can be reasonably estimated.

#### (i) Compensated absences

We fully accrue the future employees compensation liability for vacations vested during the year.

#### (j) Income taxes

In accordance with SFAS 109 - [Accounting for Income Taxes], the deferred tax effects of temporary differences have been recognized in the consolidated financial statements. A valuation allowance is made when we believe that it is more likely than not that tax assets will not be fully recoverable in the future.

#### (k) Statement of cash flows

Cash flows relating to overnight financing and investment are reported net. Short-term investments that have a ready market and maturity to us, when purchased, of 90 days or less are considered cash equivalents.

#### (l) Earnings per share

Earnings per share are computed by dividing net income by the weighted average number of common and preferred shares outstanding during the period.

#### (m) Interest attributed to stockholders

As from January 1, 1996 Brazilian corporations are permitted to attribute interest on stockholders[] equity. The calculation is based on the stockholders[] equity amounts as stated in the statutory accounting records and the interest rate applied may not exceed the long-term interest rate (TJLP) determined by the Brazilian Central Bank. Also, such interest may not exceed the greater of 50% of net income for the year or 50% of retained earnings plus revenue reserves.

The amount of interest attributed to stockholders is deductible for income tax purposes. Accordingly, the benefit to us, as opposed to making a dividend payment, is a reduction in our income tax charge equivalent to the statutory tax rate applied to such amount. Income tax is withheld from the stockholders relative to interest at the rate of 15%, except for interest due to the Brazilian Government which is exempt from tax withholdings.

We have opted to pay such tax-deductible interest to our stockholders and have therefore accrued the amounts due as of December 31, 2002, 2001 and 2000, with a direct charge to stockholders' equity.

Under Brazilian law interest attributable to stockholders is considered as part of the annual minimum dividend (See Note 13). Accordingly such distributions are treated as dividends for accounting purposes.

#### (n) Derivatives and hedging activities

As of January 1, 2001 we adopted SFAS 133 - "Accounting for Derivative Financial Instruments and Hedging Activities", as amended by SFAS 137 and SFAS 138. Those standards require that we recognize all derivative financial instruments as either assets or liabilities on our balance sheet and measure such instruments at fair value. Changes in the fair value of derivatives are recorded in each period in current earnings or in other comprehensive income, in the later case depending on whether a transaction is designated as an effective hedge.

The transition adjustment relating to the fair value of derivatives existing as of December 31, 2000 is recorded as a charge of \$8 in our statement of income for the year ended December 31, 2001. In view of the immateriality of this effect of a change in accounting principle the corresponding amount was included with other non-operating expenses. Certain of our affiliated companies and joint ventures also recorded similar charges, of which our portion of \$4 is included in the caption "Equity in results of affiliates and joint ventures" in the statement of income.

Further information about our derivatives and hedging activities is included in Note 19.

#### (o) Comprehensive income

We have disclosed comprehensive income as part of the Statement of Changes in Stockholders[] Equity, in compliance with SFAS 130 [] []Reporting Comprehensive Income[].

#### (p) Recently-issued accounting pronouncements

In June 2001 and August 2001, respectively, the FASB issued SFAS 143 - "Accounting for Asset Retirement Obligations" and SFAS 144 - "Accounting for the Impairment or Disposal of Long-Lived Assets" . SFAS 143 is effective for us as from January 1, 2003 and we are still studying the potential effects that adoption may have on our financial statements.

In June 2002, FASB has issued SFAS 146 - "Accounting for Costs Associated with Exit or Disposal Activities". The standard requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. SFAS 146 is to be applied prospectively to exit or disposal activities initiated after December 31, 2002. We believe that the adoption of SFAS 146, will not have significant impact on our financial position or results of operations.

In November 2002 the FASB issued FIN 45 - "Guarantor]'s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others". The Interpretation elaborates on the existing disclosure requirements for most guarantees, including loan guarantees such as standby letters of credit. It also clarifies that at the time a company issues a guarantee, the company must recognize an initial liability for the fair value, or market value, of the obligations it assumes under that guarantee and must disclose that information in its interim and annual financial statements. The initial recognition and initial measurement provisions apply on a prospective basis to guarantees issued or modified after December 31, 2002, regardless of the guarantor]'s fiscal year-end. The disclosure requirements in the Interpretation, applicable at December 31, 2002 are disclosed in Note 15. We are studying the effect that adoption of the accounting requirements of FIN 45 will have on our financial statements.

#### (q) Reclassification

Certain reclassifications have been made to the financial statements for 2001 and 2000 to make them comparable with the 2002 presentation.

#### **3** Our privatization

In May 1997, we were privatized by the Brazilian Government, which transferred voting control to Valepar S.A. ([Valepar]). The Brazilian Government has retained certain rights with respect to our future decisions and those of Valepar and has also caused us to enter into agreements which may affect our activities and results of operations in the future. These rights and agreements are:

- Preferred Special Share. The Brazilian Government holds a preferred special share of CVRD which confers upon it permanent veto rights over changes in our (i) name, (ii) headquarters location, (iii) corporate purpose with respect to mineral exploration, (iv) continued operation of our integrated iron ore mining systems and (v) certain other matters.
- Preferred Class A Share of Valepar. The Brazilian Government holds a preferred class A share of Valepar which confers upon it approval rights for a period of five years in respect of (i) concentration of ownership of Valepar by particular types of investors in excess of prescribed limitations and (ii) changes in the Valepar holding company structure relating to ownership of our common shares.
- Shareholder revenue interests. On July 7, 1997, we issued to shareholders of record on April 18, 1997 (including the Brazilian Government) revenue interests providing holders thereof with the right to receive semi-annual payments based on a percentage of our net revenues above threshold production volumes from identified mining resources. These instruments are not secured by the corresponding mineral reserves and deposits.

In addition to the preferred special share mentioned above, the National Treasury and the Banco Nacional de Desenvolvimento Econômico e Social [] BNDES, the Government [] owned development bank, together held 32% of our common shares and 4% of our preferred shares, which in aggregate represented 22% of our total capital at December 31, 2001. These common shares were sold through a public offering in Brazil and abroad which was completed on March 27, 2002.

#### 4 Major acquisitions and disposals during the years presented

We made the following acquisitions during the periods presented. Pro forma information with respect to results of operations is not presented since the effects are not considered material to an understanding of our consolidated financial statements, except with respect to our acquisition of the control of Alunorte in June 2002 (see Note 4 (h)).

- (a) On May 11, 2000, we acquired the entire capital of Mineração SOCOIMEX S.A., a non-public company whose main activity is production and commercialization of iron ore, for the total price of \$55, being an initial cash payment of \$47 and two further cash payments of \$3 and \$5, in 2001 and 2002, respectively. The increment of the fair value over the book value of SOCOIMEX at the date of purchase was entirely attributable to its mineral reserves, which are included in the property, plant and equipment. In August 2000 SOCOIMEX was merged into CVRD.
- (b) On May 30, 2000, we became the controlling shareholder of S.A. Mineração Trinidad □ SAMITRI, through the acquisition of 79.27% of the voting capital and 63.06% of the total capital for \$520 in cash. At the date of the purchase, SAMITRI was a publicly listed Brazilian iron ore mining company, which also owned a 51% interest in the voting capital of SAMARCO Mineração S.A., a large iron ore pellets producer (see Note 10). On June 29, 2000, we sold 1% of the voting capital of SAMARCO to BHP Brasil Ltda. (BHP), a subsidiary of The Broken Hill Proprietary Company Limited of Australia, for \$8, to equalize our shareholdings in the joint venture.
  F 12

(c) The assets and liabilities acquired as a result of the above transactions and corresponding goodwill were as follows:

|  |   | olidated<br>diaries   |
|--|---|---|
| Unconsolidated<br>joint venture<br>SAMARCO | SAMITRI   | SOCOIMEX  |
| 1,006                                      | 293   | 77  |
| (450)                                      | (144)   | (22)  |
| 556  | 149   | 55  |
| 50.00%                                     | 63.06%  | 100.00%   |
| 278  | 94  | 55  |
| (103)                                      |   |   |
| 31   |   |   |
| 206  | 94  | 55  |
| 252  | 268   | 55  |
| 46   | 174   |   |
|  | joint venture<br>SAMARCO<br>1,006<br>(450)<br>556<br>50.00%<br>278<br>(103)<br>31<br>206<br>252 | Subsi           Unconsolidated<br>joint venture<br>SAMARCO         SAMITRI           1,006         293           (450)         (144)           556         149           50.00%         63.06%           278         94           (103)         31           206         94 |

The main assets for which fair values differ from book values are inventories and property, plant and equipment. We determined the fair values of inventories based on the current replacement costs for raw materials and the estimated selling prices for finished goods, net of disposal costs and a selling margin. The fair values of property, plant and equipment were determined based on current replacement costs for similar capacity and the estimated market value of purchased reserves. Deferred taxes were recorded for the differences between fair values and tax bases.

For SAMARCO, SAMITRI and SOCOIMEX inventories were valued at \$36, \$38 and \$9, respectively, property, plant and equipment were valued at \$830, \$161 and \$58, respectively, and the deferred tax liability was \$60, \$49 and \$15, respectively.

We had adopted a policy to amortize the goodwill on the SAMITRI and SAMARCO purchases on the straight-line basis over a period of 6 years, starting on the date of acquisition. However, as explained in Note 2 (c), upon adoption of SFAS 142 on January 1, 2002 such straight-line amortization ceased.

- (d) On September 22, 2000 we increased our ownership of SAMITRI, via public tender to 99.25% of the voting capital and 99.19% of the total capital. The cash cost of this purchase was \$180 and resulted in additional goodwill of \$27, all attributed to SAMARCO.
- (e) In October 2000, we acquired 50% of Gulf Industrial Investment Company (GIIC), a pelletizing company located in Bahrain, for \$91, including goodwill of \$20, now totally amortized.
- (f) On April 27, 2001 we acquired 100% of Ferteco Mineração S.A. FERTECO, a non-public company whose main activity is production and commercialization of iron ore and pellets, for \$523 in cash.

The assets and liabilities acquired and corresponding goodwill were as follows:

| Fair value of assets      | 401   |
|---------------------------|-------|
| Fair value of liabilities | (251) |
| Net assets at fair value  | 150   |
| Purchase price            | 523   |
| Goodwill                  | 373   |

For FERTECO inventories were valued at \$57, property, plant and equipment were valued at \$178, and the deferred tax liability was \$24.

(g) In December 2001, acting through our wholly-owned foreign subsidiary Itabira Rio Doce Company Ltd. -ITACO, we acquired 659,375,000 common shares of Caemi Mineração e Metalurgia S.A. (Caemi), corresponding to 16.82% of its total capital and 50% of its voting capital from Cayman Iron Ore Investment Co., Ltd., a wholly-owned subsidiary of Mitsui & Co., Ltd. (MITSUI) for US\$ 279. Caemi is a Brazilian company headquartered in Rio de Janeiro, which operates in the iron ore, kaolin, refractory bauxite and railroad sectors and is accounted for as an equity investee.

This acquisition was approved by the European Commission subject to the commitment for Caemi to sell its equity investment in Quebec Cartier Mining Company (QCM), a Canadian producer of iron ore and pellets.

CVRD and Mitsui, each of which holds 50% of Caemi's common shares, entered into a shareholder agreement requiring both shareholders to approve all major decisions affecting Caemi.

The estimated net assets and corresponding goodwill were as follows:

|   | December 31, 2001 |
|---|-------------------|
| Estimated fair value of assets<br>Estimated fair value of liabilities             | 1,127<br>(734)    |
| Net assets at fair value  | 393               |
| Interest in total capital acquired<br>Estimated fair value of net assets acquired | 16.82%<br>66      |
| Purchase price  | 279               |
| Goodwill  | 213               |

(h) On June 27, 2002 we acquired a further 12.62% of the capital of ALUNORTE for \$42, increasing our participation to 57.03% (represented by 62.09% of total common stock and 19.05% of total preferred stock). ALUNORTE has been consolidated as from this date.

Unaudited pro forma information with respect to the effect on our consolidated statement of income, reflecting the consolidation of ALUNORTE as if control has been acquired as at January 1, 2001 is as follows:

|                                       |                      |                                 | 2002                     |                      |          | 2001                     |
|---------------------------------------|----------------------|---------------------------------|--------------------------|----------------------|----------|--------------------------|
|                                       | CVRD<br>Consolidated | Pre-<br>acquisition<br>ALUNORTE | Pro Forma<br>(unaudited) | CVRD<br>Consolidated | ALUNORTE | Pro Forma<br>(unaudited) |
| Net operating<br>revenues             | 4,113                | 138                             | 4,251                    | 3,935                | 294      | 4,229                    |
| Operating<br>costs and<br>expenses    | (2,684)              | (151)                           | (2,835)                  | (2,973)              | (219)    | (3,192)                  |

- (i) On January 14, 2000 we sold 20.81% of the capital of Alumina do Norte do Brasil S.A.- ALUNORTE and a beneficial interest in 8% of the capital of Mineração Rio do Norte S.A. MRN owned by us for an aggregate of \$164, resulting in a gain of \$54. The total consideration of \$164 was received in cash; however, \$120 was received through the issue and sale of Perpetual Notes with a fair value of \$55 and this fair value continues to be reported as a liability and periodically adjusted based on an early termination formula reflecting the underlying profitability of MRN.
- (j) On March 9, 2001 we transferred our 10.33% interest in Companhia Siderúrgica Nacional CSN to VALIA, as a special pension plan contribution, for \$249 (fair market value determined based on the weighted average price of the last thirty trading sessions at the São Paulo stock exchange in the period ended on March 9, 2001). This transfer resulted in a gain of \$107. We have provided VALIA with a guarantee that we will make additional contributions to the pension plan if the market value of the CSN shares falls below threshold levels prior to the sale thereof by VALIA. At December 31, 2002 we have provided \$5 in respect of this commitment. F 14

- (k) On April 27, 2001 we concluded the sale of our 32.00% interest in Bahia Sul Celulose S.A. BSC for \$318, received in cash on May 7, 2001. This operation resulted in a gain of \$170.
- (I) On June 6, 2001 we concluded the sale of our 51.48% interest in Celulose Nipo-Brasileira S.A. CENIBRA for \$671, received in cash on September 14, 2001. This operation resulted in a gain of \$507.

#### **5** Income taxes

Income taxes in Brazil comprise federal income tax and social contribution, which is an additional federal tax. The statutory enacted tax rates applicable in the periods presented are as follows:

|                     | Year ended December 31<br>- % |      |             |  |
|---------------------|-------------------------------|------|-------------|--|
|                     | 2002                          | 2001 | 2000        |  |
| Federal income tax  | 25                            | 25   | 25          |  |
| Social contribution | 9                             | 9    | 12 to 9     |  |
| Composite tax rate  | 34                            | 34   | 37 to<br>34 |  |

The amount reported as income tax benefit in our consolidated financial statements is reconciled to the statutory rates as follows:

|   | Year end | Year ended December 31 |       |  |
|---|----------|------------------------|-------|--|
|   | 2002     | 2001                   | 2000  |  |
| Income before income taxes, equity results and minority interests             | 601      | 1,120                  | 731   |  |

|   |          |                        |       |  |

We have certain tax incentives relative to our iron ore and manganese operations in Carajás and others from gold and potash operations. The incentives comprise full income tax exemption on defined production levels up to 2005 and partial exemption up to 2013. An amount equal to the tax saving must be appropriated to a reserve account within stockholders[] equity (Note 13) and may not be distributed in the form of cash dividends.

The major components of the deferred tax accounts in the balance sheet are as follows:

|  | As of De | cember<br>31 |
|--|----------|--------------|
|  | 2002     | 2001         |

Losses on disposals of property, plant and equipment totaled \$62, \$79 and \$47 in 2002, 2001 and 2000, respectively. Disposals mainly relate to impairment of gold mines, sales of ships and trucks, locomotives and other equipment which were replaced in the normal course of business.

In 2002 we sold certain forestry assets of our subsidiary Florestas Rio Doce S.A. for \$59 and recorded a gain on this sale of \$49.

(c) **Hydroelectric projects**We participate in several jointly-owned hydroelectric plants, already in operation or under construction. We have an undivided interest in these plants and are responsible for our proportionate share of the costs of construction and operation and are entitled to our proportionate share of the energy produced.

The situation of these projects at December 31, 2002 is as follows:

| Project            | Date of<br>completion<br>/<br>expected<br>completion | Our<br>interest | Plant<br>in<br>service | Our<br>share<br>of<br>plant in<br>service | Accumulated<br>depreciation | Plant under<br>construction | Our share<br>of plant<br>under<br>construction |

(1) Based on US GAAP financial information.

- (2) Value based on quoted market price at December 31, 2002 is \$46 compared to net book value of \$0.
- (3) Investments sold in 2001.
- (4) Value based on quoted market price at December 31, 2002 is \$ 130 compared to net book value of \$ 27.
  (5) Value based on quoted market price at December 31, 2002 is \$ 33 compared to net book value of \$ 25.
- (6) Alunorte and Salobo Metais S.A. are consolidated at December 31, 2002, after aquisition of control.
- (7) Value based on quoted market price at December 31, 2002 is \$ 97 compared to net book value of \$ 77, equity adjustment for 2002 also includes \$ 86 of goodwill writte-off as at September 30, 2002.
- (8) Includes losses of MRS Logística in 2002 and related equity adjustments of \$ 20.

F - 20

Goodwill included in the above investments is as follows:

|   | As of December<br>31 |      |  |  |
|---|----------------------|------|--|--|
| Investee                                | 2002                 | 2001 |  |  |
| Alumina do Norte do Brasil S.A ALUNORTE |                      | 24   |  |  |
| SAMARCO Mineraç ã o S.A                 | 30                   | 41   |  |  |
| Caemi Mineraç ã o e Metalurgia S.A      |                      | 223  |  |  |
|   |                      |      |  |  |
|   | 30                   | 288  |  |  |
|   |                      |      |  |  |

Based on our revised expectation for profitability and other economic facts, we fully amortized the remaining goodwill relative to FCA and GIIC in 2001. The goodwill relative to Caemi was written-off in September 2002 because the quoted market value for this investment was lower than our acquisition cost over the whole nine-month period to that date.

Information with respect to other major affiliates [] financial position and results of operations is as follows:

(\*) Six months ended June 30.

The financial position and results of operations of our affiliates in the steel sector are no longer significant to our consolidated financial statements.

The provision for losses on equity investments of \$27 and \$9 at December 31, 2002 and 2001, respectively, relates to our investments in affiliates which have reported negative stockholders equity in their financial statements prepared in accordance with US GAAP and in circumstances where we have assumed commitments to fund our share of the accumulated losses, if necessary, through additional capital contributions or other means. Accordingly we (a) first reduce the value of the investment to zero and (b) subsequently provide for our portion of negative equity. The provision is comprised as follows:

F - 21

Our participation in ALUNORTE (45.58% at December 31, 2001) changed several times during the periods presented, but we did not consolidate the financial statements of this investee due to the expected temporary nature of our increased holding (until we acquired control in June 2002).

Movements on the investment account and related provision up to June 2002 are as follows:

|                                       | Total<br>shares of<br>ALUNORTE<br>(in<br>thousands) | ALUNORTE<br>shares<br>owned<br>by CVRD<br>(in<br>thousands) | Investment | Goodwill | Provision | Net  |

On January 14, 2000 we entered into a structured transaction with an unrelated party to sell both 20.81% of the capital of ALUNORTE and a beneficial interest in 8% of the capital of MRN owned by us for a total of \$164, resulting in a net gain to us of \$54, recorded in other operating income, as follows:

| Book value of 124,491 thousand shares of ALUNORTE sold | (7)  |
|--|------|
| Goodwill amortized                                     | (48) |
| Book value of beneficial interest in 8% of MRN         |      |
|  |      |
|  | (55) |
| Cash received by us                                    |      |
| On transfer of ALUNORTE shares                         | 44   |
| On issue and sale of Perpetual Notes                   | 120  |
| Fair value of Perpetual Notes                          | (55) |
|  |      |
| Gain recognized on the transaction                     | 54   |

The Perpetual Notes are exchangeable for 48 billion preferred shares of the affiliate MRN (initially equivalent to 8% of the total number of shares of MRN owned by us). Interest is payable on the Notes in an amount equal to dividends paid on the underlying preferred shares, relative to periods starting as from the 2000 fiscal year. The Notes may be redeemed at our option or the Noteholders at any time by transfer of the underlying preferred shares to the Noteholders, providing the rights of pre-emption of the existing shareholders of MRN have been waived or have expired. Redemption by transfer of the underlying net assets of MRN is compulsory if certain events occur, including the liquidation or merger of MRN or the transfer of MRN\_Is asset and liabilities to a consortium formed by its shareholders to take over the operations of MRN. In the event of early termination the Notes may be redeemed, at the option the Noteholders, in lieu of transfer of the shares, for a cash sum equal to \$48 plus the net present value of average annual earnings declared and paid by MRN for the three years immediately preceding such termination multiplied by 20 and discounted by 10% per year. This latter amount represents a fair value at December 31, 2002 of \$63.

### 11 Short-term debt

Our short-term borrowings are principally from commercial banks and include import and export financing denominated in United States dollars, as follows:

|                 | As of December<br>31 |      |  |
|-----------------|----------------------|------|--|
|                 | 2002                 | 2001 |  |
| Export          | 163                  | 498  |  |
| Import          |                      | 1    |  |
| Working Capital | 21                   | 90   |  |
|                 | 184                  | 589  |  |

Average annual interest rates on short-term borrowings were 3.97%, 4.96% and 8.18% in 2002, 2001 and 2000, respectively.

|  | 39                 | 69                   | 357                     | 182   |  |
| Total  | 717                | 296                  | 2,359                   | 2,170 |  |

The long-term portion at December 31, 2002 becomes due in the following years:

| 2004  | 819   |
|---|-------|
| 2005  | 404   |
| 2006  | 299   |
| 2007  | 443   |
| 2008 and thereafter   | 331   |
| No due date (Perpetual notes and shareholders revenue interest) | 63    |
|   |       |
|   | 2,359 |
|   |       |

At December 31, 2002 annual interest rates on long-term debt were as follows:

| Up to 7%                   | 1,682 |
|----------------------------|-------|
| 7.1% to 9%                 | 753   |
| 9.1% to 11%                | 517   |
| Over 11%                   | 61    |
| Variable (Perpetual notes) | 63    |
|                            |       |
|                            | 3,076 |
|                            |       |

The indexes applied to debt and respective percentage variations in each year were as follows:

| 2002  | 2001          | 2000  |
|-------|---------------|---|
|       |               |   |
| 3.71  | 3.34          | 4.56  |
| 25.31 | 10.40         | 9.95  |
| 52.27 | 18.70         | 9.30  |
|       | 3.71<br>25.31 | 3.71         3.34           25.31         10.40 |

Long-term debt at December 31, 2002 is guaranteed or secured as follows:

|  | Amount<br>of debt |
|--|-------------------|
| Federal Government guarantee (for which we have provided counter-guarantees) | 295               |
| Third party guarantees   | 28                |
| Export receivables (securitization)  | 300               |
| Ships  | 2                 |

On March 8, 2002 our wholly-owned subsidiary, Vale Overseas Limited, issued \$300 of 8.625% Enhanced Guaranteed Notes due March 8, 2007, unconditionally guaranteed by us.

## 13 Stockholders' equity

Each holder of common and preferred class A stock is entitled to one vote for each share on all matters that come before a stockholders' meeting, except for the election of the Board of Directors, which is restricted to the holders of common stock. As described in Note 3, the Brazilian Government holds a preferred special share which confers on it permanent veto rights over certain matters.

As of December 31, 2002, we had acquired 4,719,651 shares to be held in treasury for subsequent disposal or cancellation at an average weighted unit cost of R\$27.80 (minimum cost of R\$20.07 and maximum of R\$52.09).

Both common and preferred stockholders are entitled to receive a dividend of at least 25% of annual net income, upon approval at the annual stockholders meeting. In the case of preferred stockholders, this dividend cannot be less than 6% of the preferred capital as stated in the statutory accounting records. With respect to each of 2002, 2001 and 2000 we distributed dividends to preferred stockholders in excess of this limit. Interest attributed to stockholders as from January 1, 1996 is considered part of the minimum dividend.

Brazilian law permits the payment of cash dividends only from retained earnings as stated in the statutory accounting records and such payments are made in Reais. At December 31, 2002, we had no undistributed retained earnings. In addition, appropriated retained earnings at December 31, 2002 includes \$1,705, related to the unrealized income and expansion reserves, which could be freely transferred to retained earnings and paid as dividends, if approved by the stockholders.

No withholding tax is payable on distribution of profits earned as from January 1, 1996, except for distributions in the form of interest attributed to stockholders as explained in Note 2 (m).

Brazilian laws and our By-laws require that certain appropriations be made from retained earnings to reserve accounts on an annual basis, all determined in accordance with amounts stated in the statutory accounting records, as detailed below:

|                                      |       |       | r ended<br>nber 31 |

| Balance December 31                  |       | 23    | 39                 |
| Total appropriated retained earnings | 2,230 | 3,212 | 3,537              |

The purpose and basis of appropriation to such reserves is described below :

- Unrealized income reserve this represents principally our share of the earnings of affiliates and joint ventures, not yet received in the form of cash dividends.
- Expansion reserve this is a general reserve for expansion of our activities.
- •

Legal reserve - this reserve is a requirement for all Brazilian corporations and represents the appropriation of 5% of annual net income under Brazilian GAAP up to a limit of 20% of capital stock under Brazilian GAAP.

- Fiscal incentive depletion reserve this represents an additional amount relative to mineral reserve depletion equivalent to 20% of the sales price of mining production, which is deductible for tax purposes providing an equivalent amount is transferred from retained earnings to the reserve account. This fiscal incentive expired in 1996.
- Fiscal incentive investment reserve this reserve results from an option to designate a portion of income tax otherwise payable for investment in government approved projects and is recorded in the year following that in which the taxable income was earned. As from 2000, this reserve also contemplates the tax incentives described in Note 5.

## 14 Pension plans

Since 1973 we have sponsored a defined benefit pension plan (the [Old Plan]) covering substantially all employees, with benefits based on years of service, salary and social security benefits. This plan is administered by Fundaç ã o Vale do Rio Doce de Seguridade Social [] VALIA and was funded by monthly contributions made by us and our employees, calculated based on periodic actuarial appraisals.

In May 2000, we implemented a new pension plan, which is primarily a defined contribution plan with a defined benefit feature relative to service prior to May 2000 (the []New Plan[]), and offered our active employees the opportunity of transferring to the New Plan. Over 98% of our active employees opted to transfer to the New Plan. The Old Plan will continue in existence, covering almost exclusively retired participants and their beneficiaries.

The following information details the status of the defined benefit elements of our plans in accordance with SFAS 132 - [Employers] Disclosure about Pensions and Other Post-retirement Benefits]:

## (a) Change in benefit obligation

|   | As of December<br>31 |       |  |
|---|----------------------|-------|--|
|   | 2002                 | 2001  |  |
| Benefit obligation at beginning of year | 1,388                | 1,596 |  |
| Service cost                            | 2                    | 2     |  |
| Interest cost                           | 120                  | 180   |  |
| Benefits paid                           | (94)                 | (88)  |  |
| Effect of exchange rate changes         | (288)                | (354) |  |
| Actuarial loss                          | 180                  | 52    |  |
| Benefit obligation at end of year       | 1,308                | 1,388 |  |

## (b) Change in plan assets

|  | As of December<br>31 |       |
|--|----------------------|-------|
|  | 2002                 | 2001  |
| Fair value of plan assets at beginning of year | 1,374                | 1,189 |
| Actual return on plan assets                   | 277                  | 220   |
| Employer contributions                         | 12                   | 266   |
| Benefits paid                                  | (94)                 | (88)  |
| Effect of exchange rate changes                | (284)                | (213) |
|  |                      |       |
| Fair value of plan assets at end of year       | 1,285                | 1,374 |

Plan assets at December 31, 2002 include \$102 of portfolio investments in our own shares (\$83 at December 31, 2001) and \$8 of shares of related parties (\$12 at December 31, 2001), as well as \$387 of Federal Government Securities (\$551 at December 31, 2001).

## (c) Accrued pension cost liability (prepaid pension cost)

|   | As of December<br>31 |                    |
|---|----------------------|--------------------|
|   | 2002                 | 2001               |
| Funded status, excess of benefit obligation over plan assets<br>Unrecognized net transitory obligation<br>Unrecognized net actuarial loss | 23<br>(65)<br>(37)   | 14<br>(94)<br>(19) |
| Accrued pension cost liability (prepaid pension cost)   | (79)                 | (99)               |

## (d) Assumptions used in each period (expressed in nominal terms)

|  | 2002   | 2001   |
|--|--------|--------|
|  |        |        |
| Discount rate                                  | 11.30% | 11.30% |
|  | p.a    | p.a    |
| Expected return on plan assets                 | 11.30% | 11.30% |
| Expected retarn on plan assets                 | p.a    | p.a    |
| Rate of compensation increase - up to 47 years | 6.91%  | 6.82%  |
| Nate of compensation increase - up to 47 years | p.a    | p.a.   |
| on cost includes the following components:     |        |        |

Net pension cost includes the following components:

|  | Year ended December 31 |       |       |
|--|------------------------|-------|-------|
|  | 2002                   | 2001  | 2000  |
| Service cost - benefits earned during the period | 2                      | 2     | 10    |
| Interest cost on projected benefit obligation    | 120                    | 180   | 171   |
| Actual return on assets                          | (277)                  | (220) | (128) |
| Amortization of initial transitory obligation    | 9                      | 12    | 15    |
| Net deferral                                     | 157                    | 58    | (22)  |
|  |                        |       |       |
|  | 11                     | 32    | 46    |
| Employee contributions                           |                        |       | (5)   |
|  |                        |       |       |
| Net periodic pension cost                        | 11                     | 32    | 41    |

In addition to benefits provided under our pension plan, accruals have been made relative to supplementary benefits extended in previous periods as part of early-retirement programs. Such accruals included in long-term liabilities totaled \$141 and \$173, at December 31, 2002 and 2001, respectively, plus \$23 and \$28 in current liabilities.

The cost recognized in the years 2002, 2001 and 2000 relative to the defined contribution element of the New Plan was 5, 5 and 3, respectively.

## **15** Commitments and contingencies

(a) At December 31, 2002, we had extended guarantees for borrowings obtained by affiliates and joint ventures in the amount of \$516, of which \$405 is denominated in United States dollars and the remaining \$111 in local currency, as follow:

| Affiliate or Joint Venture | Amount of <sub>De</sub><br>guarantee | enominated<br>currency | Purpose        | Final<br>maturity | Counter<br>guarantees |
|----------------------------|--------------------------------------|------------------------|----------------|-------------------|-----------------------|
| ALBRAS                     | 302                                  | US\$                   | Debt guarantee | 2007              | None                  |
|                            | 44                                   | R\$                    | Debt guarantee | 2010              | None                  |
| FCA                        | 51                                   | US\$                   | Debt guarantee | 2009              | None                  |
|                            | 62                                   | R\$                    | Debt guarantee | 2012              | None                  |
| KOBRASCO                   | 13                                   | US\$                   | Debt guarantee | 2003              | None                  |
| SEPETIBA TECON             | 19                                   | US\$                   | Debt guarantee | 2005              | None                  |
|                            | 4                                    | R\$                    | Debt guarantee | 2012              | None                  |
| SAMARCO                    | 14                                   | US\$                   | Debt guarantee | 2020              | None                  |
| VALESUL                    | 1                                    | R\$                    | Debt guarantee | 2006              | None                  |
| NIBRASCO                   | 6                                    | US\$                   | Debt guarantee | 2004              | Collateral<br>Pledge  |

We expect no losses to arise as a result of the above guarantees. We have made no charges for extending these guarantees.

(b) CVRD and its subsidiaries are defendants in numerous legal actions in the normal course of business. Based on the advice of our legal counsel, management believes that the provision made against contingent losses is sufficient to cover probable losses in connection with such actions.

The provision for contingencies and the related judicial deposits are composed as follows:

| As of December        |                             |                      |                             |                      |
|-----------------------|-----------------------------|----------------------|-----------------------------|----------------------|
|                       |                             | 2002                 |                             | 2001                 |
|                       | Provision for contingencies | Judicial<br>deposits | Provision for contingencies | Judicial<br>deposits |
| Labor claims          | 109                         | 52                   | 147                         | 50                   |
| Civil claims          | 95                          | 32                   | 123                         | 53                   |
| Tax - related actions | 220                         | 153                  | 177                         | 131                  |
| Others                | 4                           | 2                    | 5                           | 1                    |
|                       | 428                         | 239                  | 452                         | 235                  |
| Long-term             | 428                         | 239                  | 452                         | 235                  |

Labor-related actions principally comprise employee claims for (i) payment of time spent travelling from their residences to the work-place, (ii) additional payments for alleged dangerous or unhealthy working conditions and (iii) various other matters, often in connection with disputes about the amount of indemnities paid upon dismissal.

Civil actions principally relate to claims made against us by contractors in connection with losses alleged to have been incurred by them as a result of various past government economic plans during which full indexation of contracts for inflation was not permitted.

Tax-related actions principally comprise our challenges of changes in basis of calculation and rates of certain revenue taxes and of the tax on financial movements  $\square$  CPMF.

We continue to vigorously pursue our interests in all the above actions but recognize that probably we will incur some losses in the final instance, for which we have made provisions.

Our judicial deposits are made as required by the courts for us to be able to enter or continue a legal action. When judgment is favorable to us, we receive the deposits back; when unfavorable, the deposits are delivered to the prevailing party.

Contingencies settled in the years December 31, 2002, 2001 and 2000 aggregated \$178, \$6 and, \$36 respectively, and additional provisions aggregated \$53, \$79 and \$101 in these years, respectively.

- (c) We are defendants in two actions seeking substantial compensatory damages brought by the Municipality of Itabira, State of Minas Gerais, which we believe are without merit. Due to the remote likelihood that any loss will arise therefrom no provision has been made in the financial statements with respect to these two actions.
- (d) We are committed under a take-or-pay agreement to take delivery of approximately 207,660 metric tons per year of aluminum from ALBRAS at market prices. This estimate is based on 51% of ALBRAS expected production and, at a market price of \$1,348.00 per metric ton at December 31, 2002, represents an annual commitment of \$279. Actual take from Albras was \$257, \$220 and \$242 in 2002, 2001 and 2000, respectively.
- (e) We and BNDES entered into a contract, known as the Mineral Risk Contract, in March 1997, relating to prospecting authorizations for mining regions where drilling and exploration are still in their early stages. The Mineral Risk Contract provides for the joint development of certain unexplored mineral deposits in approximately two million identified hectares of land in the Carajás region, as well as proportional participation in any financial benefits earned from the development of such resources. Iron ore and manganese deposits already identified and subject to development are specifically excluded from the Mineral Risk Contract.

Pursuant to the Mineral Risk Contract, we and BNDES each agreed to provide \$205, which represents half of the \$410 in expenditures estimated as necessary to complete geological exploration and mineral resource development projects in the region over a period of five years. Under certain circumstances, this period may be extended for an additional two years. We oversee these projects and BNDES advances us half of our costs on a quarterly basis. Under the Mineral Risk Contract, as of December 31, 2002, each of us and BNDES had remaining commitments to contribute an additional \$54 toward exploration and development activities. In the event that either of us wishes to conduct further exploration and development after having spent such \$205, the contract provides that each party may either choose to match the other party[]s contributions, or may choose to have its financial interest proportionally diluted. If a party[]s participation in the project is diluted to an amount lower than 40% of the amount invested in connection with exploration and development projects, then the Mineral Risk Contract provides that the diluted party will lose (1) all the rights and benefits provided for in the Mineral Risk Contract and (2) any amount previously contributed to the project.

Under the Mineral Risk Contract, BNDES has agreed to compensate us for our contribution of existing development and ownership rights in the Carajás region through a finder see production royalty on mineral resources that are discovered and placed into production. This finder is fee is equal to 3.5% of the revenues derived from the sale of gold, silver and platinum group metals and 1.5% of the revenues derived from the sale of other minerals, including copper, except for gold and other minerals discovered at Serra Leste, for which the finder is fee is equal to 6.5% of revenues.

(f) At the time of our privatization in 1997, we issued shareholder revenue interests known in Brazil as [debentures] to our then-existing shareholders, including the Brazilian Government. The terms of the [debentures], which are described below, were set to ensure that our pre-privatization shareholders, including the Brazilian Government, would participate alongside us in potential future financial benefits that we are able to derive from exploiting our mineral resources.

In preparation for the issuance of the debentures, we issued series B preferred shares on a one-for-one basis to all holders of our common shares and series A preferred shares. We then exchanged all of the series B shares for the debentures at par value. The debentures are not redeemable or convertible, and do not trade on a stapled basis or otherwise with our common or preferred shares. During 2002 we registered the debentures with the CVM in order to permit trading.

#### Back to Contents

Under Brazilian Central Bank regulations, pre-privatization shareholders that held their shares through our preferred share American Depositary Receipt, or ADR, program were not permitted to receive the debentures or any financial benefits relating to the debentures. We sought approval from the Central Bank to distribute the debentures to the ADR holders, but the Central Bank rejected our request. We intend to renew our request to the Central Bank, but we cannot be sure that we will succeed. If the Central Bank does not approve our request, the ADR depositary will not be able to distribute the debentures to the ADR holders and will not be able to sell the debentures. Therefore, unless the Central Bank approves our request, the debentures will not have any value for ADR holders.

Under the terms of the debentures, holders will have the right to receive semi-annual payments equal to an agreed percentage of our net revenues (revenues less value added tax) from certain identified mineral resources that we owned as of May 1997, to the extent that we exceed defined threshold production volumes of these resources, and from the sale of mineral rights that we owned as of May 1997. Our obligation to make payments to the holders will cease when the relevant mineral resources are exhausted at which time we are required to repay the original par value plus accrued interest. Based on current production levels, and estimates for new projects, we expect to start payments referring to copper resources in 2004, to iron ore resources in approximately 2012, and payments related to other mineral resources in later years.

The table below summarizes the amounts we will be required to pay under the debentures based on the net revenues we earn from the identified mineral resources and the sale of mineral rights.

| Area  | Mineral                                     | Required Payments by CVRD   |
|---|---|---|
| Southern System                                 | Iron ore                                    | 1.8% of net revenue, after total<br>production from May 1997 exceeds 1.7<br>billion tons.                                 |
| Northern System                                 | Iron ore                                    | 1.8% of net revenue, after total<br>production from May 1997 exceeds 1.2<br>billion tons.                                 |
| Pojuca, Andorinhas,<br>Liberdade and<br>Sossego | Gold and copper                             | 2.5% of net revenue from the beginning of commercial production.  |
| Igarapé Bahia and<br>Alemão                     | Gold and copper                             | 2.5% of net revenue, after total<br>production from the beginning of<br>commercial production exceeds 70 tons<br>of gold. |
| Fazenda Brasileiro                              | Gold  | 2.5% of net revenue after total<br>production from the beginning of<br>commercial production exceeds 26 tons.             |
| Other areas, excluding<br>Carajás/ Serra Leste  | Gold  | 2.5% of net revenue.  |
| Other areas owned as of May 1997                | Other minerals                              | 1% of net revenue, 4 years after the beginning of commercial production.  |
| All areas                                       | Sale of mineral rights owned as of May 1997 | 1% of the sales price.  |

(g) At December 31, 2002 we have provided \$15 for environmental liabilities. Such provisions relate to site restoration at mines already closed or which are expected to be closed in the next two years.

We use various judgments and assumptions when measuring our environmental liabilities. Changes in circumstances, law or technology may affect our estimates and we periodically review the amounts accrued and adjust them as necessary. Our accruals do not reflect unasserted claims because we are currently not aware of any such issues. Also the amounts provided are not reduced by any potential recoveries under cost sharing, insurance or indemnification arrangements because such recoveries are considered uncertain .

## 16 Segment and geographical information

In 1999 we adopted SFAS 131 [Disclosures about Segments of an Enterprise and Related Information] with respect to the information we present about our operating segments. SFAS 131 introduced a [management approach] concept for reporting segment information, whereby financial information is required to be reported on the basis that the top decision-maker uses such information internally for evaluating segment performance and deciding how to allocate resources to segments. Our business segments are currently organized as follows:

Ferrous products [] comprises iron ore mining and pellet production, as well as the Northern and Southern transportation systems, including railroads, ports and terminals, as they pertain to mining operations. Manganese mining and ferrous alloys are also included in this segment.

Non-ferrous products [] comprises the production of gold and other non-ferrous minerals.

Logistics [] comprises our transportation systems as they pertain to operation of our ships, ports and railroads for third-party cargoes.

Holdings [] divided into the following sub-groups:

- Pulp and paper up to 2001 comprises our forestation activities and investments in joint ventures and affiliates engaged in the manufacture of pulp and paper products. In 2001 we disposed of most of our investments in pulp and paper and no longer consider this as a major business activity.
- Aluminum comprises aluminum trading activities and investments in subsidiaries, joint ventures and affiliates engaged in bauxite mining, alumina refining and aluminum metal smelting.
- Steel comprises our investments in joint ventures and affiliates operating in the steel industry.
- Others comprises our investments in joint ventures and affiliates engaged in other businesses.

In 2002 we started to allocate our Corporate Center costs to segments. Information for 2001 and 2000 has been reclassifed to reflect this same treatment on a comparative basis.

Information presented to top management with respect to the performance of each segment is generally derived directly from the accounting records maintained in accordance with Brazilian corporate law together with certain minor inter-segment allocations.

F - 32

Consolidated net income and principal assets are reconciled as follows:

|  |         |                |           | Ho                     | ldings |        |              |              |
|--|---------|----------------|-----------|------------------------|--------|--------|--------------|--------------|

|                                       |                        |         |        |         |        |         |  |

#### **18 Fair value of financial instruments**

The carrying amount of our current financial instruments generally approximates fair market value because of the short-term maturity or frequent repricing of these instruments.

The market value of long-term investments, where available, is disclosed in Note 10 to these financial statements.

Based on borrowing rates currently available to us for bank loans with similar terms and average maturities, the fair market value of long-term debt at December 31, 2002 and 2001 is estimated as follows:

|                                     | As of De       | As of December<br>31 |  |  |
|-------------------------------------|----------------|----------------------|--|--|
|                                     | 2002           | 2001                 |  |  |
| Fair market value<br>Carrying value | 2,134<br>2,359 | 2,102<br>2,170       |  |  |

Fair market value estimates are made at a specific point in time, based on relevant market information and information about the financial instruments. Changes in assumptions could significantly affect the estimates.

#### **19** Derivative financial instruments

Volatility of interest rates, exchange rates and commodity prices are the main market risks to which we are exposed - all three are managed through derivative operations. These have the exclusive aim of reducing exposure to risk. We do not use derivatives for speculation purposes.

We monitor and evaluate our derivative positions on a regular basis and adjust our strategy in response to market conditions. We also periodically review the credit limits and credit worthiness of our counter-parties in these transactions. In view of the policies and practices established for operations with derivatives, management considers the occurrence of non-measurable risk situations as unlikely.

As from January 1, 2001 we adopted SFAS 133 - [Accounting for Derivative Financial Instruments and Hedging Activities], as amended by SFAS 137 and SFAS 138, and began to recognize all derivatives on our balance sheet at fair value. Accordingly we recognized an initial transition adjustment of \$12 as a charge in our statement of income relative to net unrealized losses on contracts open as of December 31, 2000. Subsequently to January 1, 2001 all derivatives have been adjusted to fair market value at each balance sheet date and the change included in current earnings.

For the years ended December 31, 2002 and 2001 the movement of unrealized and realized gains or losses on derivative financial instruments is as follows:

|  |      |                              |            | Net Gai | ns (losses) |
|--|------|------------------------------|------------|---------|-------------|
|  | Gold | Interest<br>rates<br>(libor) | Currencies | Alumina | Total       |
| Initial unrealized gains and losses at January 1, 2001 | 9    | (8)                          | (4)        | -       | (3)         |
| Change in the period                                   | 2    | (36)                         | (4)        | -       | (38)        |
| (Gains) and losses realized in the period              | (4)  | 8                            | 4          | -       | 8           |
|  |      |                              |            |         |             |
| Unrealized gains and (losses)<br>at December 31, 2001  | 7    | (36)                         | (4)        | -       | (33)        |
|  |      |                              |            |         |             |
| Gain recognized upon<br>consolidation of Alunorte      | -    | -                            | -          | 2       | 2           |
| Change in the period                                   | (2)  | 24                           | 3          | 1       | 26          |
| (Gains) and losses realized in the period              | (22) | (68)                         | (2)        | -       | (92)        |
| Effect of exchange rate changes                        | 2    | 20                           | 2          | -       | 24          |
| Unrealized gains and (losses)<br>at December 31, 2002  | (15) | (60)                         | (1)        | 3       | (73)        |

Realized and unrealized gains and losses are included in our income statement under the following captions:

Gold [] operating costs and expenses; Interest rates [] financial expenses; Currencies [] foreign exchange and monetary losses, net.

Final maturity dates for the above instruments are as follows:

| Gold                   | December<br>2006 |
|------------------------|------------------|
| Interest rates (libor) | May 2007         |
| Currencies             | May 2005         |

#### (a) Interest Rate and Exchange Rate Risk

Interest rate risks mainly relate to that part of the debt borrowed at floating rates. The foreign currency debt is largely subject to fluctuations in the London Interbank Offered Rate - LIBOR. That portion of local currency denominated debt that is subject to floating rates is linked to the Long Term Interest Rate - TJLP, fixed quarterly by the Brazilian Central Bank. Since May 1998, we have used derivative instruments to protect overselves against fluctuations in the LIBOR rate.

There is an exchange rate risk associated with our foreign currency denominated debt. On the other hand, a substantial proportion of our revenues are denominated in, or automatically indexed to, the U.S. dollar, while the majority of costs are expressed in reais. This provides a natural hedge against any devaluation of

the Brazilian real against the U.S. dollar. When events of this nature occur, the immediate negative impact on foreign currency denominated debt is offset over time by the positive effect of devaluation on future cash flows.

With the advent of a floating exchange rate regime in Brazil in January 1999, we adopted a strategy of monitoring market fluctuations, using derivatives to protect against specific risks from exchange rate variation.

From time to time we enter into foreign exchange derivative swap transactions seeking to change the characteristics of our real-denominated cash investments to US dollar-indexed instruments. The extent of such transactions depends on our perception of market and currency risk, but is never speculative in nature. All such operations are marked-to-market at each balance sheet date and the effect included in financial income or expense. During the years ended December 31, 2002 and 2001 our use of such instruments was not significant.

F - 42

#### (b) Commodity Price Risk

We also use derivative instruments to manage exposure to changing gold prices. Derivatives allow the fixing of an average minimum profit level for future gold production. However, they may also have the effect of eliminating potential gains on certain price increases in the spot market for gold. We manage our contract positions actively, and the results are reviewed at least monthly, allowing adjustments to targets and strategy to be made in response to changing market conditions.

In the case of gold derivatives, our policy has been to settle all contracts through cash payments or receipts, without physical delivery of product.

Our affiliate Albras manages the risk of fluctuating aluminum prices using derivatives, allowing an average minimum profit level for future production and ensuring stable cash generation. However, they may also have the effect of eliminating potential gains on certain price increases in the spot market for aluminum. We account for Albras using the equity method.

#### 20 Information about independent accountants

Our consolidated financial statements are audited by PricewaterhouseCoopers Auditores Independentes. The financial statements of certain of our subsidiaries and affiliates have been audited by independent accountants other than PricewaterhouseCoopers Auditores Independentes and, as mentioned in their report, PricewaterhouseCoopers Auditores Independentes has relied on such audits when expressing their opinion on our consolidated financial statements.

The following entities prepare financial statements in US GAAP which are audited in accordance with auditing standards generally accept in the United States of America:

|  | Auditors    | Years<br>Audited       | City             | State | Country |

#### PART I

#### Expressed in millions of reais

1- MANAGEMENT S DISCUSSIONAND ANALYSISOF THE OPERATING RESULTSFOR THE YEAR ENDED DECEMBER 31, 2002 COMPAREDWITH THE YEAR ENDED DECEMBER 31, 2001 1.1- General Aspects

#### (a) The Company s segments of business are mining, logistics and energy, as follows:

Ferrous minerals: iron ore and pellets as well as manganese and ferrous-alloys;

Non-ferrous minerals: gold, potash, kaolin and copper;

Logistics: railroads, ports and maritime terminals and shipping;

Energy: electric power generation; and

Shareholdings: equity holdings in producers of aluminum, steel and fertilizers.

#### Ferrous Minerals

#### Iron Ore and Pellets

The main mining activities involve iron ore, through two world-class integrated systems for ore production and distribution, each consisting of mines, railroads and maritime terminals. The Southern System, based in the states of Minas Gerais and Espírito Santo, has total proven and probable iron ore reserves of approximately 2.3 billion tons. The Northern System, based in the states of Pará and Maranhão, has total proven and probably reserves of some 1.2 billion tons. Currently CVRD operates nine pelletizing plants, six of them in joint ventures with international partners. The Company also has a 50% interest in Samarco, which owns and operates two pelletizing plants. The São Luís pelletizing plant was inaugurated on March 26, 2002, with annual capacity of 6 million tons.

Iron ore export sales are generally made pursuant to long-term supply contracts which provide for annual price negotiations. Cyclical changes in the world demand for steel products affect sales prices and volumes in the world iron ore market. Different factors, such as the iron content of specific ore deposits, the various beneficiation and purifying processes required to produce the desired final product, particle size, moisture content, and the type and concentration of contaminants (such as phosphorus, alumina and manganese) in the ore, influence contract prices for iron ore. Contract prices also depend on transportation costs. Fines, lump ore and pellets command different prices. Annual price negotiations generally occur from November to February of each year, with separate prices established for the Asian and European iron ore markets. In the Asian market, the renegotiated prices are effective as of April of each year. In the European market, the renegotiated prices are effective as of January of each year. Because of the wide variety of iron ore and pellet quality and physical characteristics, iron ore and pellets are less commodity-like than other minerals. This factor combined with the structure of the market has prevented the development of an iron ore futures market. Currently, the Company does not hedge its exposure to iron ore and pellet price volatility.

#### Manganese and Ferrous-alloys

This activity is carried out through the subsidiaries Sibra, Urucum and Rio Doce Manganèse (in France). The ore is extracted from the Azul Mine in the Carajás region, in the state of Pará, and the Urucum Mine in the Pantanal region, in the state of Mato Grosso do Sul. Beneficiation is done on site at both units.

#### Non-ferrous Minerals

#### Gold

Gold operations are carried out by the Company itself. These operations began in 1984 and currently there is one major mine in operation, Fazenda Brasileiro, located in the state of Bahia.

#### Potash

The potash is found in natural deposits and is an important raw material for making fertilizers. The Company leases a potash mine in the state of Sergipe from Petróleo Brasileiro S.A. - PETROBRAS. It is the only mine of its type in the country and its present capacity is some 600 thousand tons a year.

#### Kaolin

Kaolin is a fine white aluminum silicate clay, used in the paper, ceramic and pharmaceutical industries as a coating and filler. Kaolin activities are conducted through the subsidiary Pará Pigmentos S.A. and through Cadam (indirectly through Caemi). Pará Pigmentos began operations in 1996 with installed capacity of 300 thousand tons/year and in the second half of 2002 completed expansion to 600 thousand tons/year. Cadam carries out extraction and beneficiation of kaolin. The mines are located in the state of Amapá, near the beneficiation and shipping installations, and in the state of Pará. Total productive capacity is 810 thousand tons/year.

#### Copper

CVRD's copper activities are still in the implementation phase. The Company holds 100% of the Sossego and Salobo mine projects in the Carajás region, with estimated yearly capacity of 140 thousand and 200 thousand tons of copper, respectively, as well as participating in four joint-ventures involving four projects in Brazil. These six projects contain approximately 1.7 billion tons of ore with an average metal content of 1.02%.

#### Logistics

The Company provides transport and related services to various clients. Built originally to serve the Company is iron ore business, the logistics system includes the Vitória-Minas Railroad and Tubarão complex port in the Southern System, and the Carajás Railroad and Ponta da Madeira Marine Terminal in the Northern System. In addition, in the last five years the Company has acquired stakes in four privatized railroads. The principal cargo of CVRD is railroad is the Company sown iron ore, along with steel, coal, pig iron and limestone carried for steel manufacturers located in the states of Minas Gerais and Espírito Santo. The railroads charge market rates for third-party cargo, which vary based upon the distance traveled and the density of the freight in question.

#### Energy

The Company has equity holdings in ten hydroelectric plants, three of which are in operation, with another two scheduled to come on line by 2004. Construction still has not begun on the remaining five projects. In 2002, the Company became part of another consortium to build and operate the Estreito hydroelectric plant, located on the Tocantins-Maranhão state border. This project is designed for installed capacity of 1,087 MW and should start operating in 2007. CVRD[]s investments in the sector seek to optimize the Group[]s supply of electric power. Depending on market conditions, the power generated by these plants will be sold or used in own operations.

#### **Equity Holdings**

#### Aluminum Operations

The Company sells aluminum to an active world market in which prices are determined based on prices for the metal quoted on the London Metals Exchange or the Commodity Exchange, Inc (COMEX) at the time of delivery.

The wholly-owned subsidiary ALUVALE conducts aluminum operations basically through joint ventures. These include mining of bauxite, which is refined into alumina and then smelted into aluminum for commercialization. ALUVALE operates its bauxite extraction activities through a 40% participation in the joint venture Mineraç ã o Rio do Norte S.A. - MRN, which holds substantial reserves of bauxite with a low separation index and high recovery rate. ALUVALE has a 57.03% interest in the voting capital of ALUNORTE, which refines the bauxite into alumina. The Company also acts in aluminum smelting through ALBRAS, in which it detains a 51% interest, and through Valesul, of which it owns 54.51%.

#### Steel

Commercial activities in the steel industry are conducted through the jointly-controlled company CST, which sells steel slabs to the domestic and foreign market, CSI, located in California, which manufacturers various processed steel products and the affiliated company USIMINAS.

#### (b) Acquisitions

#### Steel

On December 20, 2002, CVRD and Arcelor made a joint proposal to acquire the holding of Acesita S.A. (Acesita) in Companhia Siderurgica de Tubarão (CST). The average offer price to Acesita was US\$ 21.58 per group of a thousand shares. In order to acquire the indirect holding of Acesita in the voting capital of CST, to gain control of the latter, KSC and CSI must waive their purchase preference on these shares. The increase in CVRD[]s holding in CST will only be temporary. The proposed transaction reflects the intention already expressed by CVRD to participate in the restructuring of the Brazilian steel industry, to facilitate its growth and thus create opportunities to expand the Company[]s iron ore and pellet sales.

4

#### Back to Contents

#### Aluminum

On June 27, 2002, the Company acquired from its associated company Mineração Rio do Norte S.A. (MRN), for R\$ 119, 12.62% of the capital of ALUNORTE. With this acquisition, ALUNORTE became a consolidated subsidiary of CVRD.

On July 1, 2002, the Company, through Vale do Rio Doce Alumínio S.A. - ALUVALE, acquired 64% of the shares of its affiliate Mineração Vera Cruz S.A. (MVC) held by companies of the Paranapanema Group, for R\$ 6, becoming sole owner of MVC.

#### Copper

On June 19, 2002, CVRD acquired the totality of interests held by Anglo American Brasil Ltda. (Anglo) controlled by Anglo American Plc, in Salobo Metais S.A (Salobo) represented by 44,172,369 common shares corresponding to 50% of Salobo s capital, in the amount of R\$ 136. After this acquisition, the company holds 100% of Salobo. The Salobo project has recoverable reserves estimated in 784 million tons with a copper content of 0.96%, in addition to 0.6 grams of gold per ton.

#### (c) Divestitures Paper and Pulp

On September 30, 2002, the Company and its subsidiary Florestas Rio Doce S.A (FRDSA) entered into an agreement with Aracruz Celulose S.A. (Aracruz) and Bahia Sul Celulose S.A. (Bahia Sul) to sell the assets owned by FRDSA in the São Mateus region in the state of Espírito Santo. The value of the transaction is R\$ 191, realizing an intention announced publicly on June 10, 2002. The price covers approximately 40 thousand hectares of planted eucalyptus forest and the assignment to Aracruz and Bahia Sul of the existing contract to supply wood to third parties. The sale of the FRDSA completed the divestiture by CVRD of its pulp and paper interests, determined as part of its long-term strategy.

(d) The variations of the main currencies and indices in terms of percentages in relation to the *real*, which impacted the results of the Company and its subsidiaries, jointly controlled companies and affiliates, were as follows:

| Change in % Currencies / |      |       |       |      |      |        |        |

About 63% of the Company s gross revenue in 2002 (about 64% of the consolidated revenue) is derived from exports and part of domestic sales are denominated in U.S. dollars, while the costs are mainly incurred in *reais*. Consequently, fluctuations in the exchange rate between the two currencies have a significant impact on the operating cash flows.

Approximately 95% of the short-term and long-term loans of the Company at 12/31/02 (94% consolidated) are denominated in U.S. dollars. As a result, exchange rate fluctuations have a significant impact on the financial expenses (Notes 9.12 and 9.21).

#### 1.2- Comments on the Parent Company Results

The net income of the Company in 2002 was R\$ 2,043 compared with net income of R\$ 3,051 in 2001, (the earnings per share corresponds to R\$ 5.32 in 2002 versus R\$ 7.95 in 2001). The 2002 results include a gain on discontinued operations due to sale of the holding in Florestas Rio Doce in the amount of R\$ 111, and in 2001 include a gain on investments in the amount of R\$ 1,771, mainly due to the sale of Bahia Sul and Cenibra.

The gross margin remained stable at 49.8% in 2002, against 48.3% in 2001. The gross revenue rose 29.5% (from R\$ 6,617 in 2001 to R\$ 8,570 in 2002), while cost of products and services increased 25.2% (from R\$ 3,300 in 2001 to R\$ 4,133 in 2002).

On December 20, 2002, the Company paid interest on stockholder s equity of R\$ 1,029, equivalent to remuneration of R\$ 2.68 per outstanding common or preferred share.

In 2002, total capital expenditures reached US\$ 748 million, 52.7% less than in 2001 (US\$ 1,581 million). The Company has budgeted capital expenditures of approximately US\$ 1,843 million in 2003.

#### 1.2.1- Gross Revenues

The 29.5% increase in gross revenues (from R\$ 6,617 in 2001 to R\$ 8,570 in 2002), reflects the strengthening of the dollar against the *real* (85% of revenues are linked to the U.S. dollar) as well as growth in iron ore and potash sales volumes, as shown in the table below. The increase in iron ore sales is due to growth of the Chinese, American and European markets as well as mining operations previously belonging to Samitri. However, this latter event resulted in a decrease in gross revenue from railroad transport and port services, since CVRD ceased to sell these services to that company and absorbed related costs as part of its own activities. The reduction in transport services was 4,533 thousand tons.

The following table shows sales volume and revenues by products and services:

|                             | In thousands of metric tons |               |           |       |                             |           |  |

(\*) Part of sales to the internal market are linked to the U.S. dollars.

#### 1.2.2- Cost of Products and Services

The increase of 25.2% in the cost of products and services (from R\$ 3,300 in 2001 to R\$ 4,133 in 2002) is due principally to: increased sales volume and the effect of exchange rate variation on 34% of the associated costs; amortization of goodwill of a merged company (Samitri); increased expenses for maintenance of assets and equipment required to maintain their operating capacity and an increase in the acquisition of property, plant and equipment causing higher depreciation expenses.

The following graph depicts the composition of costs of products and services:

The following table shows each component of the cost of products and services, and the variation for the year:

#### By Nature

#### 1.2.3- Result of Shareholdings by Business Area

The results of shareholdings by business area are as follows:

| Business Area                | 2002  | 2001  |
|------------------------------|-------|-------|
| Ferrous                      |       |       |
| Iron ore and pellets         | 1,331 | 279   |
| Manganese and ferrous-alloys | 230   | 4     |
| Non-ferrous                  | (64)  | (140) |
| Logistics                    | (384) | (334) |
| Investments                  |       |       |
| Steel                        | 302   | 160   |
| Pulp and paper               | (16)  | (93)  |
| Aluminum                     | 76    | 170   |
| Fertilizers                  | 26    | 14    |
| Others                       | (48)  | (23)  |
|                              | 1,453 | 37    |

The numbers reported per area do not necessarily reflect the individual results of each company, but rather the amounts effectively applicable to the business area.

8

#### Back to Contents

Equity earnings increased from a gain of R\$ 37 in 2001 to a gain of R\$ 1,453 in 2002, due to a combination of the following factors:

The positive effects of the 52.3% devaluation of the *real* against the U.S. dollar in 2002 (as compared to 18.7% in 2001) in the companies located abroad, offset by the negative effects on the companies in Brazil with debt denominated in U.S. dollars.

Recognition of the provision for losses and full amortization of the goodwill on investments with negative equities (Note 9.10). Ferrous

#### (a) Iron ore and pellets

(b)

FERTECO - An improved equity result of R\$ 181 (a gain of R\$ 121 in 2002 against a loss of R\$ 60 in 2001) due to the better operational result, in addition to the recording in 2001 of one-time financial expenses and exchange rate variation on loans indexed in dollars for purchase of the company (occurring in April 2001). In 2002, R\$ 104 was booked as amortization of goodwill, net of income tax and social contribution on profit.

CAEMI - The company was acquired in December 2001. In 2002, a negative equity result of R\$ 32 was booked due to the provision for the loss in QCM. In operational terms, in 2002 total sales volume was 34,148 thousand tons at an average price of US\$ 13.07 per ton.

GIIC - An improved equity result of R\$ 3 (a gain of R\$ 18 in 2002 against a gain of R\$ 15 in 2001) due basically to the effect of exchange rate variation on the result. In operational terms, sales volume rose 0.7% (3,074 thousand tons in 2002 against 3,053 thousand tons in 2001), offset by a fall in the average sales price of 1.6% (US\$ 40.98 per ton in 2002 against US\$ 41.66 per ton in 2001).

ITACO/RDE - An improved equity result of R\$ 1,071 (a gain of R\$ 1,374 in 2002 against a gain of R\$ 303 in 2001), caused mainly by the fall in the value of the *real* against the dollar (positive exchange rate variation of R\$ 812 in 2002 versus positive exchange rate variation of R\$ 11 in 2001). In operational terms, iron ore sales volume rose 27.5% (86,606 thousand tons in 2002 compared with 67,907 thousand tons in 2001), including sales by the subsidiary CVRD Overseas.

KOBRASCO - A reduced equity result of R\$ 42 (a loss of R\$ 61 in 2002 against a loss of R\$ 19 in 2001), due to an increase in the negative effects of exchange rate variation on debt, a 2.7 % decrease in the average sales price (US\$ 30.09 per ton in 2002 against US\$ 30.93 per ton in 2001), along with 3.6% lower sales volume (4,034 thousand tons in 2002 versus 4,184 thousand tons in 2001).

NIBRASCO - An improved equity result of R\$ 17 (a gain of R\$ 10 in 2002 against a loss of R\$ 7 in 2001), due to the recording in 2001 of R\$ 15 as a provision for losses on the realization of ICMS (VAT) credits. In operational terms, sales volume rose 3.2% (7,215 thousand tons in 2002 against 6,993 thousand tons in 2001) and the average sales price fell 3.9% (US\$ 28.64 per ton in 2002 versus US\$ 29.80 per ton in 2001).

SAMARCO - An improved equity result of R\$ 41 (a gain of R\$ 100 in 2002 against a gain of R\$ 59 in 2001), due to a 28.9% rise in sales volume (14,442 thousand tons in 2002 against 11,201 thousand tons in 2001), offset partly by a 3.7% decrease in the average sales price (US\$ 28.60 per ton in 2002 against US\$ 29.70 per ton in 2001) and the negative effect of exchange rate variation on debt. Manganese and Ferrous-alloys

RDME - An improved equity result of R\$ 73 (a gain of R\$ 93 in 2002 compared with a gain of R\$ 20 in 2001), caused basically by the fall of the *real* against the euro. Operationally, ferrous-alloy sales rose 5.6% (225 thousand tons in 2002 against 213 thousand tons in 2001).

SIBRA - An improved equity result of R\$ 13 (a gain of R\$ 84 in 2002 versus a gain of R\$ 71 in 2001), due to a 48.6% increase in ferrous-alloy sales (327 thousand tons in 2002 against 220 thousand tons in 2001) and positive effects of exchange rate variation on exports, offset partly by an average sales price decrease of 16.3% (US\$ 453.43 per ton in 2002, against US\$ 541.77 per ton in 2001).

URUCUM - An improved equity result of R\$ 17 (a gain of R\$ 19 in 2002 against a gain of R\$ 2 in 2001), basically due to a 92.3% increase in manganese sales volume (350 thousand tons in 2002 versus 182 thousand tons in 2001). Non-ferrous Minerals

PARÁ PIGMENTOS - An improved equity result of R\$ 79 (a loss of R\$ 62 in 2002 against a loss of R\$ 141 in 2001), caused basically by the amortization of R\$ 83 of goodwill, recorded only in 2001. In operational terms, sales volume remained stable (338 thousand tons in 2002 against 339 thousand tons in 2001), while gross profits rose 24.5% due to the positive effects of exchange rate variation on

exports, offset partly by the negative effects thereof on debt.

10

#### Logistics

DOCENAVE - An improved equity result of R\$ 148 (a gain of R\$ 104 in 2002 against a loss of R\$ 44 in 2001), due to the rise in the value of the dollar against the *real*, offset partly by a 30.9% decrease in average freight rates (US\$ 4.91 per ton carried in 2002 versus US\$ 7.11 per ton in 2001).

DOCEPAR - R\$ 51 was booked as a provision for losses on assets with no expectative of realization in the short-term.

FCA - A negative result of R\$ 346 was booked in 2002 (R\$ 137 as a provision for losses and R\$ 209 as amortization of goodwill), against R\$ 244 in 2001 (R\$ 97 as a provision for losses and R\$ 147 as amortization of goodwill), due basically to the negative effects of exchange rate variation on debt. CVRD s holding in this company is through its subsidiary Mineração Tacumã.

MRS - In 2002, R\$ 32 was recorded as a provision for losses, due to the negative effects on debt of exchange rate variation, and R\$ 17 of amortization of goodwill. CVRD s holding in MRS is through Ferteco Mineração S.A. and indirectly through Minerações Brasileiras Reunidas S.A. - MBR.

Shareholdings

#### (a) Steel

CSI - An improved equity result of R\$ 241 (a gain of R\$ 296 in 2002 against a gain of R\$ 55 in 2001), due to an increase in sales volume of 10.2% (2,014 thousand tons in 2002 against 1,828 thousand tons in 2001) and the rise in the value of the dollar against the real (positive exchange rate variation of R\$ 234 in 2002 against a positive exchange rate variation of R\$ 67 in 2001).

CSN - R\$ 108 of positive equity result was booked in 2001 as a result of the unwinding of the CVRD/CSN cross-holdings carried out in March/2001.

CST - An improved equity result of R\$ 32 (a gain of R\$ 46 in 2002 against a gain of R\$ 14 in 2001), due mainly to a 13% increase in the average sales price, partly offset by a 1.5% decrease in the quantity of steel slabs sold (4,651 thousand tons in 2002 against 4,722 thousand tons in 2001) and the effects of exchange rate variation on debt.

USIMINAS - A descrease in the equity result of R\$ 14 (a loss of R\$ 13 in 2002 against a gain of R\$ 1 in 2001), due mainly to the increased negative effects of exchange rate on debt. In 2001 R\$55 of amortization of goodwill was registered.

#### (b) Pulp and Paper

CELMAR - A provision for losses on assets of R\$ 20 was booked in 2002, against R\$ 115 in 2001.

#### (c) Aluminum

ALBRAS - A reduced equity result of R\$ 3 (a gain of R\$ 14 in 2002 versus a gain of R\$ 17 in 2001). In operational terms, sales volume went up 22.3 % (406 thousand tons in 2002 against 332 thousand tons in 2001), offset by an 8.6% fall in the average sales price (US\$ 1,306.38 per ton in 2002 against US\$ 1,428.99 per ton in 2001) and the increased negative effects of exchange rate variation on debt.

ALUNORTE - A reduced equity result of R\$ 66 (a loss of R\$ 89 in 2002 versus a loss of R\$ 23 in 2001), due to increased negative effects of exchange rate variation on debt. In operational terms, the average price of alumina fell 11.3% (US\$ 164.56 per ton in 2002 against US\$ 185.51 per ton in 2001) and sales volume increased by 3.4% (1,592 thousand tons in 2002 against 1,540 thousand tons in 2001).

MRN - The equity result was virtually the same as the previous year (a gain of R\$ 97 in 2002 versus a gain of R\$ 98 in 2001). Operationally, sales volume fell 9.3% (9,928 thousand tons in 2002 against 10,952 thousand tons in 2001) and the average sales price dropped 8.1% (US\$ 18.95 per ton in 2002 versus US\$ 20.63 per ton in 2001), offset by the increase in export revenue.

VALESUL - An improved equity result of R\$ 20 (a gain of R\$ 43 in 2002 against a gain of R\$ 23 in 2001), due to an 18.4% increase in sales volume (90 thousand tons in 2002 against 76 thousand tons in 2001), while the average sales price fell 13.2% (US\$ 1,661.77 per ton in 2002 against US\$ 1,913.54 per ton in 2001).

ALUVALE - The equity result (own operations) fell by R\$ 6 (a gain of R\$ 25 in 2002 against a gain of R\$ 31 in 2001), basically because of a reduction in the financial result.

ITACO - A reduction in the result of R\$ 38 (a loss of R\$ 14 in 2002 against a gain of R\$ 24 in 2001), due to increased financial expenses. In operational terms, the average sales prices of aluminum, alumina and bauxite decreased, respectively, by 8.5%, 51.6% and 30.8%, while the sales volume for these products increased, respectively, by 28.1%, 46.7% and 30.5%.

#### 1.2.4- Operating Expenses

The operating expenses remained stable (R\$ 1,078 in 2001 compared to R\$ 1,089 in 2002), with the reduction in other expenses having been offset by increases in:

selling expenses, due to an increase in commissions, in turn caused by higher export sales;

expenses for research and studies;

other operating expenses (Note 9.24).

#### 1.2.5- Net Financial Result

The net financial result increased negatively by R\$ 2,105 (R\$ 1,121 in 2001 compared to R\$ 3,226 in 2002), mainly due to the increased effect of exchange rate variation on the Company s net debt in 2002 (Note 9.21).

#### 1.2.6- Discontinued Operations

The result in 2002 refers to gain on sale of assets of Florestas Rio Doce, and in 2001 reflects, basically, gains on sale of the Company sholdings in Bahia Sul and Cenibra, of R\$ 230 and R\$ 1,472 respectively.

#### 1.2.7- Cash Flow

The operating cash flow measured by EBITDA (earnings before interest, income tax and depreciation, amortization and depletion) was R\$ 4,050 in 2002, reflecting an increase of 24.4% over 2001, which was R\$ 3,254 (Note 9.26).

#### 1.2.8- Income Tax and Social Contribution

Income tax and social contribution was a credit of R\$ 690 (credit of R\$ 357 in 2001), mainly due to the tax deduction on losses from exchange rate variation in the period and the tax/social contribution benefit based on the payment of interest on shareholders equity of R\$ 350 in 2002 (R\$ 603 in 2001) (Note 9.9).

#### 1.3- Comments on the Consolidated Results

#### 1.3.1- Consolidated Gross Revenue

The following table shows sales volume and revenues by products and services:

|                |               | In thousands of metric tons |           |                             |       |           |  |
|----------------|---------------|-----------------------------|-----------|-----------------------------|-------|-----------|--|
|                | (except gold) |                             |           | In millions of <i>reais</i> |       |           |  |
|                |               |                             | Change in |                             |       | Change in |  |
|                | 2002          | 2001                        | %         | 2002                        | 2001  | %         |  |
| Iron ore       | 135,187       | 120,708                     | 12.0      | 5,987                       | 4,193 | 42.8      |  |
| Pellets        | 28,729        | 26,261                      | 9.4       | 2,741                       | 1,726 | 58.8      |  |
|                | 163,916       | 146,969                     | 11.5      | 8,728                       | 5,919 | 47.5      |  |
|                |               |                             |           |                             |       |           |  |
| Transportation |               |                             |           |                             |       |           |  |
| services       | 76,323        | 56,649                      | 34.7      | 1,101                       | 1,233 | (10.7)    |  |
| Port services  | 27,288        | 22,571                      | 20.9      | 334                         | 257   | 30.0      |  |
| Gold (kg)      | 10,310        | 15,815                      | (34.8)    | 280                         | 331   | (15.4)    |  |
| Steel          | 1,925         | 1,607                       | 19.8      | 1,713                       | 1,147 | 49.3      |  |

#### Back to Contents

Revenue from iron ore and pellets grew 47.5% (R\$ 8,728 in 2002 versus R\$ 5,919 in 2001) because of the change in the product mix, along with the 18.9% rise in the average value of the dollar against the *real*, partly offset by a fall in prices in 2002. New acquisitions also contributed to the higher revenue (Caemi as of January 2002 and Ferteco from April 2001).

Revenues from transport services fell 10.7% (R\$ 1,101 in 2002 against R\$ 1,233 in 2001), due basically to a drop in ocean-going shipment of bulk cargoes by the subsidiary Docenave, which reduced its fleet from 10 to 5 vessels. The fall in revenue was partially offset by an increase in railroad transport services.

Revenues from steel products grew 49.3% (R\$ 1,713 in 2002 against R\$ 1,147 in 2001). This result refers to the performance of CSI and CST, discussed in Item 1.2.3 Shareholdings (a) Steel.

Revenues in the aluminum area rose 58.1% (R\$ 1,767 in 2002 against R\$ 1,118 in 2001) due to the mix of products and refers to the performance of ALBRAS, ALUNORTE, MRN, Valesul and ALUVALE, discussed in Item 1.2.3 Shareholdings (c) Aluminum.

Revenues from manganese and ferrous-alloys grew 34.6% (R\$ 845 in 2002 versus R\$ 628 in 2001), referring to Sibra, RDME and Urucum, discussed in Item 1.2.3 Ferrous Minerals (b) Manganese and Ferrous-alloys.

Kaolin revenues increased 115.7% (R\$ 179 in 2002 against R\$ 83 in 2001). This increase was basically due to the acquisition of the Company s indirect participation in Cadam, through the investment in Caemi.

(\*) Part of sales to the internal market are in U.S. dollars.

#### 1.3.2- Consolidated Cost of Products and Services

#### By Nature

|                                  | Denominated |       |       |       |           |
|----------------------------------|-------------|-------|-------|-------|-----------|
|                                  |             |       |       |       | Change in |
|                                  | R\$         | US\$  | 2002  | 2001  | %         |
| Personnel                        | 855         | 118   | 973   | 852   | 14.2      |
| Material                         | 764         | 289   | 1,053 | 757   | 39.1      |
| Oil and gas                      | 468         | 382   | 850   | 616   | 38.0      |
| Outsourced services              | 503         | 575   | 1,078 | 809   | 33.3      |
| Energy                           | 408         | 159   | 567   | 451   | 25.7      |
| Raw Material                     | 214         | 1,187 | 1,401 | 697   | 101.0     |
| Depreciation and depletion       | 832         | 77    | 909   | 813   | 11.8      |
| Amortization of deferred charges | 101         |       | 101   | 38    | 165.8     |
| Others                           | 358         | 356   | 714   | 551   | 29.6      |
| Total                            | 4,503       | 3,143 | 7,646 | 5,584 | 36.9      |
|                                  | 59%         | 41%   | 100%  |       |           |

The cost of products and services increasing of 35.2% is due to the following:

growth of CVRD s costs which represents to 55.0% of the increase - see item 1.2.2.

increase in our percentage consolidation of ALUNORTE (from 45.58% to 100%) R\$ 201, as from July, 2002.

acquisition of FERTECO in April, 2001, leading to its costs being fully accounted in 2002, compared to eight months in 2001 (R\$ 140).

acquisition of CAEMI, aggregating its corresponding costs in proportion to our participation (R\$ 170).

increasing of sales volumes of SAMARCO, CSI and SIBRA (R\$ 140).

reduction of DOCENAVE s costs relating to partial sale of its assets which led to a decrease in its operating activities (R\$ 168).
