LETTER FROM THE CHAIRMAN

=====

[PHOTO OMITTED]

R. JAY GERKEN, CFA

Chairman, President and
Chief Executive Officer

Dear Shareholder,

I am pleased to provide you with the shareholder letter for the Intermediate Muni Fund, Inc. for the 12 months ended December 31, 2003. After a formidable run, municipal bonds lost some of the gains they had generated earlier in the year as signs of a sharp pick-up in the pace of economic growth exerted pressure on U.S. Treasuries and other fixed-income markets. Although many municipalities grappled with budgetary pressures brought on by the weak economy, tax revenues reportedly grew during the third quarter of 2003.

Please read on for a more detailed look at prevailing economic and market conditions during the fund's fiscal year and to see how those conditions may have affected fund performance.

Information About Your Fund

In recent months several issues in the mutual fund industry have come under the scrutiny of federal and state regulators. The fund's Adviser and some of its affiliates have received requests for information from various government regulators regarding market timing, late trading, fees and other mutual fund issues in connection with various investigations. The fund has been informed that the Adviser and its affiliates are responding to those information requests, but are not in a position to predict the outcome of these requests and investigations.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you continue to meet your financial goals.

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

Sincerely,

/s/ R. Jay Gerkin

MANAGER OVERVIEW

=====

[PHOTO OMITTED]

PETER M. COFFEY

Vice President

Performance Review

During the 12 months ended December 31, 2003, the fund returned 13.33%, based on its American Stock Exchange ("AMEX") market price and 6.22% based on its net asset value ("NAV") (i) per share. In comparison, the Lehman Brothers Municipal Bond Index(ii) returned 5.31%, and the fund's Lipper general municipal debt (leveraged) closed-end funds category average was 8.53% over the same time frame.(iii) Please note that Lipper performance returns are based on each fund's NAV.

During the period we structured the fund to be less susceptible to rising interest rates by placing an emphasis on bonds with higher coupons, maintaining a lower average life, and selling U.S. Treasury futures to hedge the portfolio against interest rate risk.(iv) This lower-duration strategy at times limited the fund's full participation in market rallies such as during the first half of the year, which detracted from the fund's performance versus many of its peers. However, it helped reduce its volatility during the period, which favorably contributed to its performance during periods when long-term bond yields were rising, particularly during the sharp spike in yields the market experienced from mid-June through the end of July. Sector- and security-specific factors also impacted the fund's relative performance. The effect of leveraging positively impacted the fund's performance over the period.

FUND PERFORMANCE
AS OF DECEMBER 31, 2003

Price Per Share	Annualized Distribution Yield	12 Month Total Return
\$10.26 (NAV)	5.96%	6.22%
\$10.19 (AMEX)	6.01%	13.33%

Total returns are based on changes in NAV or the market price, respectively. Total returns assume the reinvestment of all dividends and/or capital gains distributions, if any, in additional common shares. Annualized distribution yield is the common shareholders' current monthly income dividend rate, annualized, and then divided by the NAV or the market price noted in this report. The annualized distribution yield assumes a current monthly income dividend rate of \$0.051 for 12 months. This rate is as of December 31, 2003 and is subject to change.

2

2003 Annual Report

During the 12-month period, the fund distributed dividends to shareholders totaling \$0.61 per common share. The performance table shows the fund's 12-month total return based on its NAV and market price as of December 31, 2003. Certain investors may be subject to the federal Alternative Minimum Tax, and state and local taxes will apply. Capital gains, if any, are fully taxable. Please consult your personal tax adviser. Past performance is not indicative of future results.

Market Overview

During the spring many states continued to wrestle with addressing budgetary challenges stemming from a faltering economy. In an effort to jumpstart the economy, the Fed cut its target for the federal funds rate, (v) which dropped to its lowest level since the Eisenhower Administration.

U.S. Treasury bonds subsequently sold off, particularly in July, as signs emerged that economic growth was more robust than previously thought, which triggered concerns that inflation could pick up. Bond prices have typically performed less favorably during times when inflation concerns arise. However, municipal bonds collectively held up better than Treasury bonds during this tumultuous time. Although the U.S. Treasury bond market regained some of its footing in September, bonds collectively vacillated during the fall as third-quarter economic indicators showed stronger-than-expected results.

Despite an improving economy and vibrant stock market, investors' interest in tax-exempt municipal bonds held firm over 2003 as the Fed signaled that it was in no hurry to raise short-term interest rates. Consequently, investors gravitated to the municipal bond market as higher-rated issues offered favorable taxable equivalent yields(vi) compared to comparable-maturity U.S. Treasuries and Agencies.(vii)

Additionally, 2003 was a banner year for municipalities in terms of bond issuance. Municipalities collectively issued over \$380 billion of debt to fund new projects and refinance outstanding bonds.(viii) Tax-exempt new issue volume exceeded last year's previous record of approximately \$358 billion.(viii) Despite historically low nominal yields, demand was strong as property and casualty insurance companies, institutions and individual investors combined to absorb the massive supply.

Intermediate Muni Fund, Inc.

3

Selection of Municipal Bonds

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

The fund has invested primarily in revenue bonds, which generally provide higher yields than general obligation ("GO") bonds. While the creditworthiness of revenue bonds is less correlated to tax receipts than GOs because revenue issues are backed by revenue streams of specific projects, GOs are considered safer because they are backed by the full faith and credit of the issuing state or municipality. At the end of the year, the portfolio's heaviest exposure was to revenue bonds in the hospital, education, water and sewer, and transportation sectors.

While a few holdings suffered substantial price declines due to credit-quality deterioration since our last report at mid-year 2003, the impact on NAV was offset by significant appreciation in other holdings that have benefited from improving economic conditions.

We remain fairly defensive in terms of interest rate risk. Even though recent employment results have been lackluster and inflation has so far remained contained, interest rates have remained quite low by historical standards and the economy has continued to exhibit strong growth.

Looking for Additional Information?

The fund is traded under the symbol "SBI" and its closing market price is available in most newspapers under the American Stock Exchange listings. The daily NAV is available online under symbol XSBIX. Barron's and The Wall Street Journal's Monday editions carry closed-end fund tables that will provide additional information. In addition, the fund issues a quarterly allocation press release that can be found on most major financial web sites as well as www.citigroupassetmanagement.com.

In a continuing effort to provide information concerning the fund, shareholders may call 1-888-735-6507, Monday through Friday from 8:00 a.m. to 6:00 p.m. Eastern Time, for the fund's current net asset value, market price and other information.

4

2003 Annual Report

Thank you for your investment in the Intermediate Muni Fund, Inc. We appreciate that you have entrusted us to manage your money and value our relationship with you.

Sincerely,

/s/ Peter M. Coffey

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

Portfolio holdings and breakdowns are as of December 31, 2003 and are subject to

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

change and may not be representative of the portfolio manager's current or future investments. Please refer to pages 7 through 15 for a list and percentage breakdown of the fund's holdings.

All index performance reflects no deduction for fees, expenses or taxes.

- i NAV is a price that reflects the value of the fund's underlying portfolio plus other assets, less the fund's liabilities. However, the price at which an investor may buy or sell common shares of the fund is at the fund's market price as determined by supply of and demand for the fund's common shares, which may be more or less than the fund's NAV.
- ii The Lehman Brothers Municipal Bond Index is a broad measure of the municipal bond market with maturities of at least one year. Please note that an investor cannot invest directly in an index.
- iii Lipper, Inc. is a major independent mutual-fund tracking organization. Returns are based on the 12-month period ended December 31, 2003, calculated among the 64 funds in the fund's Lipper category including the reinvestment of dividends and capital gains, if any.
- iv Derivatives, such as options and futures, can be illiquid and harder to value, especially in declining markets. A small investment in certain derivatives may have a potentially large impact on the fund's performance. Derivatives can disproportionately increase losses as stated in the prospectus.
- v The federal funds rate is the interest rate that banks with excess reserves at a Federal Reserve district bank charge other banks that need overnight loans.
- vi The taxable equivalent yield applies to income taxation on a federal (not state and local) level. This yield would be slightly lower for an investor below the federal income tax bracket of 31% and slightly higher for an investor in a higher tax bracket.
- vii The face-value principal and coupon payments of U.S. Government bonds, in contrast to municipals, are guaranteed by full faith and credit of the U.S. Government.
- viii Source: Lehman Brothers

Take Advantage of the Fund's Dividend Reinvestment Plan!

As an investor in the Fund, you can participate in its Dividend Reinvestment Plan ("Plan"), a convenient, simple and efficient way to reinvest your dividends and capital gains distributions, if any, in additional shares of the Fund. Below is a short summary of how the Plan works.

Plan Summary

If you are a Plan participant who has not elected to receive your dividends in the form of a cash payment, then your dividend and capital gain distributions will be reinvested automatically in additional shares of the Fund.

The number of common stock shares in the Fund you will receive in lieu of a cash dividend is determined in the following manner. If the market price of the common stock is equal to or exceeds the net asset value per share ("NAV") on the determination date, you will be issued shares by the Fund at a price reflecting the NAV, or 95% of the market price, whichever is greater.

If the market price is less than the NAV at the time of valuation (the close of

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

business on the determination date), PFPC Inc. ("Plan Agent") will buy common stock for your account in the open market.

If the Plan Agent begins to purchase additional shares in the open market and the market price of the shares subsequently rises above the previously determined NAV before the purchases are completed, the Plan Agent will attempt to terminate purchases and have the Fund issue the remaining dividend or distribution in shares at the greater of the previously determined NAV or 95% of the market price. In that case, the number of Fund shares you receive will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares.

A more complete description of the current Plan appears in the section of this report beginning on page 34. To find out more detailed information about the Plan and about how you can participate, please call PFPC Inc. at (800) 331-1710.

=====
Bond Ratings (unaudited)
=====

The definitions of the applicable rating symbols are set forth below:

Standard & Poor's Ratings Service ("Standard & Poor's") -- Ratings from "AA" to "CCC" may be modified by the addition of a plus (+) or a minus (-) sign to show relative standings within the major rating categories.

- AAA -- Bonds rated "AAA" have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.
- AA -- Bonds rated "AA" have a very strong capacity to pay interest and repay principal and differs from the highest rated issue only in a small degree.
- A -- Bonds rated "A" have a strong capacity to pay interest and repay principal although it is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
- BBB -- Bonds rated "BBB" are regarded as having an adequate capacity to pay interest and repay principal. Whereas it normally exhibits adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for debt in this category than in higher rated categories.
- BB, B
CCC and CC -- Bonds rated "BB", "B", "CCC" and "CC" are regarded, on balance, as predominantly speculative and with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. "BB" represents a lower degree of speculation than "B", and "CC" the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.

Moody's Investors Service ("Moody's") -- Numerical modifiers 1, 2, and 3 may be applied to each generic rating from "Aa" to "Caa", where 1 is the highest and 3

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

the lowest rating within its generic category.

- Aaa -- Bonds rated "Aaa" are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt edge." Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.
- Aa -- Bonds rated "Aa" are judged to be of high quality by all standards. Together with the "Aaa" group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in "Aaa" securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in "Aaa" securities.
- A -- Bonds rated "A" possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.
- Baa -- Bonds rated "Baa" are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
- Ba -- Bonds rated "Ba" are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments may be very moderate, and therefore not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.
- B -- Bonds rated "B" generally lack characteristics of the desirable investments. Assurance of interest and principal payments or maintenance of other terms of the contract over any long period of time may be small.
- Caa -- Bonds rated "Caa" are of poor standing. These issues may be in default, or there may be present elements of danger with respect to principal or interest.

16

2003 Annual Report

=====
Bond Ratings (unaudited) (continued)
=====

- Ca -- Bonds rated "Ca" represent obligations which are speculative in a high degree. Such issues are often in default or have other marked shortcomings.
- C -- Bonds rated "C" are the lowest rated class of bonds, and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.

Fitch Ratings ("Fitch") -- Ratings from "AA" to "BBB" may be modified by the addition of a plus (+) sign or minus (-) sign to show relative standings within

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

the major ratings categories.

- AA -- Bonds rated "AA" are considered to be investment-grade and of very high credit quality. The obligor's ability to pay interest and/or dividends and repay principal is very strong.
- A -- Bonds and preferred stock considered to be investment-grade and of high credit quality. The obligor's ability to pay interest and/or dividends and repay principal is considered to be strong, but may be more vulnerable to adverse changes in economic conditions and circumstances than debt or preferred securities with higher ratings.
- BBB -- Bonds rated "BBB" are considered to be investment-grade and of satisfactory credit quality. The obligor's ability to pay interest or dividends and repay principal is considered to be adequate. Adverse changes in economic conditions and circumstances, however, are more likely to have adverse impact on these securities and, therefore, impair timely payment. The likelihood that the ratings of these bonds will fall below investment grade is higher than for securities with higher ratings.
- NR -- Indicates that the bond is not rated by Standard & Poor's, Moody's or Fitch.

=====
Short-Term Security Ratings (unaudited)
=====

- SP-1 -- Standard & Poor's highest rating indicating very strong or strong capacity to pay principal and interest; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- A-1 -- Standard & Poor's highest commercial paper and variable-rate demand obligation ("VRDO") rating indicating that the degree of safety regarding timely payment is either overwhelming or very strong; those issues determined to possess overwhelming safety characteristics are denoted with a plus (+) sign.
- VMIG 1 -- Moody's highest rating for issues having a demand feature -- VRDO.

The Intermediate Muni Fund, Inc. ("Fund"), a Maryland corporation, is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

The significant accounting policies consistently followed by the Fund are:(a) security transactions are accounted for on trade date;(b) securities are valued at the mean between the bid and asked prices provided by an independent pricing service that are based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various relationships between securities; (c) securities for which market quotations are not available will be valued in good faith at fair value by or under the direction of the Board of Directors; (d) securities maturing within 60 days are valued at cost plus accreted discount, or minus amortized premium, which approximates value; (e) gains or losses on the sale of securities are calculated by using the specific identification method; (f) interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis; (g) dividends and distributions to shareholders are recorded monthly by the Fund on the ex-dividend date for the shareholders of Common Stock based on net investment income. The holders of the Municipal Auction Rate Cumulative Preferred Stock shall be entitled to receive dividends in accordance with an auction that will normally be held weekly and out of funds legally available to shareholders; (h) the character of income and gains to be distributed is determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. At December 31, 2003, reclassifications were made to the Fund's capital accounts to reflect permanent book/tax differences and income and gains available for distributions under income tax regulations. Net investment income, net realized gains and net assets were not affected by this change; (i) the Fund intends to comply with the applicable provisions of the Internal Revenue Code of 1986, as amended, pertaining to regulated investment companies and to make distributions of taxable income sufficient to relieve it from substantially all Federal income and excise taxes; (j) the net asset value of the Fund's Common Stock is determined by dividing the value of the net assets available to Common Stock by the total number of shares of common stock outstanding. For the purpose of determining the net asset value per share of the common stock, the value of the Fund's net assets shall be deemed to equal the value of the Fund's assets less (1) the Fund's liabilities, (2) the aggregate liquidation value (i.e., \$25,000 per outstanding share) of the Municipal Auction Rate Cumulative Preferred Stock and (3) accumulated and unpaid dividends on the outstanding Municipal Auction Rate Cumulative Preferred Stock issue; and (k) estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets result-

Intermediate Muni Fund, Inc.

21

=====
Notes to Financial Statements (continued)
=====

ing from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

2. Exempt-Interest Dividends and Other Distributions

The Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from Federal income tax and from designated state income taxes, to retain such tax-exempt status when distributed to the shareholders of the Fund.

Capital gains distributions, if any, are taxable to shareholders, and are declared and paid at least annually.

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

3. Management Agreement and Transactions with Affiliated Persons

Smith Barney Fund Management LLC ("SBFM"), an indirect wholly-owned subsidiary of Citigroup Inc. ("Citigroup"), acts as investment manager to the Fund. As compensation for its services, the Fund pays SBFM a management fee calculated at an annual rate of 0.60% of the Fund's average daily net assets. For purposes of calculating the management fee, the liquidation value of any preferred stock of the Fund is not deducted in determining the Fund's average daily net assets. This fee is calculated daily and paid monthly.

All officers and one Director of the Fund are employees of Citigroup or its affiliates.

4. Investments

During the year ended December 31, 2003, the aggregate cost of purchases and proceeds from sales of investments (including maturities of long-term investments, but excluding short-term investments) were as follows:

Purchases	\$40,258,291
Sales	40,889,194

At December 31, 2003, the aggregate gross unrealized appreciation and depreciation of investments for Federal income tax purposes were as follows:

Gross unrealized appreciation	\$11,359,098
Gross unrealized depreciation	(2,807,893)
Net unrealized appreciation	\$ 8,551,205

Notes to Financial Statements (continued)

5. Futures Contracts

Securities or cash equal to the initial margin amount are either deposited with the broker or segregated by the custodian upon entering into the futures contract. Additional securities are also segregated up to the current market value of the futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by "marking to market" on a daily basis to reflect the market value of the contract at the end of each day's trading. Variation margin payments are received or made and recognized as assets due from or liabilities due to broker, depending upon whether unrealized gains or losses are incurred. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contract. The Fund enters into such contracts typically to hedge a portion of its portfolio. The Fund bears the market risk that arises

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

from changes in the value of the financial instruments and securities indices.

At December 31, 2003, the Fund had the following open futures contracts:

	Number of Contracts	Expiration	Basis Value	Market Value	Unreal Loss
Contracts to Sell:					
U.S. 10 Year Treasury Note	450	3/04	\$48,348,437	\$49,190,625	\$(842,188)

6. Municipal Auction Rate Cumulative Preferred Stock

On January 28, 2002, the Fund issued 2,000 shares of Series M Municipal Auction Rate Cumulative Preferred Stock ("ARCPS"). The underwriting discount of \$500,000 and offering expenses of \$278,731 associated with the ARCPS offering were recorded as a reduction of the capital paid in excess of par value of common stock for the year ended December 31, 2002. The ARCPS' dividends are cumulative at a rate determined at an auction and the dividend period is typically 7 days. The dividend rates ranged from 0.61% to 1.30% during the year ended December 31, 2003. At December 31, 2003, the dividend rate was 1.05%.

The ARCPS are redeemable under certain conditions by the Fund, or subject to mandatory redemption (if the Fund is in default of certain coverage requirements) at a redemption price equal to the liquidation preference, which is the sum of \$25,000 per share plus accumulated and unpaid dividends.

The Fund is required to maintain certain asset coverages with respect to the ARCPS. If the Fund fails to maintain these coverages and does not cure any such failure within the required time period, the Fund is required to redeem a requisite number of the ARCPS in order to meet the applicable requirement.

Intermediate Muni Fund, Inc. 23

Notes to Financial Statements (continued)

Additionally, failure to meet the foregoing asset coverage requirements would restrict the Fund's ability to pay dividends to common shareholders.

Citigroup Global Markets Inc. ("CGM") (formerly known as Salomon Smith Barney Inc.), another indirect wholly-owned subsidiary of Citigroup, also currently acts as a broker/dealer in connection with the auction of ARCPS. After each auction, the auction agent will pay to each broker/dealer, from monies the Fund provides, a participation fee at the annual rate of 0.25% of the purchase price of the ARCPS that the broker/dealer places at the auction. For the year ended December 31, 2003, CGM earned \$125,095 as a participating broker/dealer.

7. Capital Loss Carryforward

At December 31, 2003, the Fund had, for Federal income tax purposes, approximately \$7,064,000 of unused capital loss carryforwards available to offset future capital gains. To the extent that these carryforward losses are

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

used to offset capital gains, it is probable that the gains so offset will not be distributed.

The amount and year of expiration for each carryforward loss is indicated below. Expiration occurs on December 31 of the year indicated:

	2006	2007	2008	2010	2011
Carryforward Amounts	\$38,000	\$1,896,000	\$514,000	\$4,047,000	\$569,000

8. Income Tax Information and Distributions to Shareholders

The tax basis components of distributable earnings at December 31 were:

	2003	2002
Undistributed tax-exempt income	\$ 950,395	\$ 708,351
Accumulated capital losses	(7,064,168)	(6,494,699)
Unrealized appreciation	8,551,205	8,428,521

At December 31, 2003 and 2002, the differences between book basis and tax basis unrealized appreciation and depreciation were attributable primarily to wash sale loss deferrals, the treatment of accretion of discounts and amortization of premiums and mark to market of derivative contracts.

The tax character of distributions paid during the year ended December 31 was:

	2003	2002
Tax-exempt income	\$ 9,072,888	\$ 8,738,103
Ordinary income	--	14,487
Total	\$ 9,072,888	\$ 8,752,590

24

2003 Annual Report

Notes to Financial Statements (continued)

9. Additional Information

The Fund has received the following information from Citigroup Asset Management ("CAM"), the Citigroup business unit which includes the Fund's Investment Manager and other investment advisory companies, all of which are indirect, wholly-owned subsidiaries of Citigroup. CAM is reviewing its entry, through an affiliate, into the transfer agent business in the period 1997-1999. As CAM currently understands the facts, at the time CAM decided to enter the transfer agent business, CAM sub-contracted for a period of five years certain of the transfer agency services to a third party and also concluded a revenue guarantee agreement with this sub-contractor providing that the sub-contractor would

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

guarantee certain benefits to CAM or its affiliates (the "Revenue Guarantee Agreement"). In connection with the subsequent purchase of the sub-contractor's business by an affiliate of the current sub-transfer agent (PFPC Inc.) used by CAM on many of the funds it manages, this Revenue Guarantee Agreement was amended eliminating those benefits in exchange for arrangements that included a one-time payment from the sub-contractor.

The Boards of CAM-managed funds (the "Boards") were not informed of the Revenue Guarantee Agreement with the sub-contractor at the time the Boards considered and approved the transfer agent arrangements. Nor were the Boards informed of the subsequent amendment to the Revenue Guarantee Agreement when that occurred.

CAM has begun to take corrective actions. CAM will pay to the applicable funds approximately \$17 million (plus interest) that CAM and its affiliates received from the Revenue Guarantee Agreement and its amendment. CAM also plans an independent review to verify that the transfer agency fees charged by CAM were fairly priced as compared to competitive alternatives. CAM is instituting new procedures and making changes designed to ensure no similar arrangements are entered into in the future.

CAM has briefed the SEC, the New York State Attorney General and other regulators with respect to this matter, as well as the U.S. Attorney who is investigating the matter. CAM is cooperating with governmental authorities on this matter, the ultimate outcome of which is not yet determinable.

The Fund's transfer agent is PFPC Inc., which is not affiliated with CAM.

(1) Effective January 1, 2001, the Fund adopted a change in the accounting method that requires the Fund to amortize premiums and accrete all discounts. Without the adoption of this change, for the year ended December 31, 2001, the ratio of net investment income to average net assets would have been 5.31%. Per share information, ratios and supplemental data for the periods prior to January 1, 2001 have not been restated to reflect this change in presentation. In addition, the impact of this change to net investment income and net realized and unrealized gain was less than \$0.01 per share.

(2) The total return calculation assumes that dividends are reinvested in

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

- accordance with the Fund's dividend reinvestment plan.
- (3) Calculated on basis of average net assets of common shareholders. Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (4) On January 28, 2002, the Fund issued 2,000 shares of Series M Municipal Auction Rate Cumulative Preferred Stock at \$25,000 a share.
- (5) Excludes accumulated and unpaid dividends.
- * Amount represents less than \$0.01 per share.

=====
Independent Auditors' Report
=====

The Shareholders and Board of Directors
of Intermediate Muni Fund, Inc.:

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Intermediate Muni Fund, Inc. ("Fund") as of December 31, 2003, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2003, by correspondence with the custodian and broker. As to securities sold but not yet delivered, we performed other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of December 31, 2003, and the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with accounting principles generally accepted in the United States of America.

- o 100% of the dividends paid by the Fund from net investment income as tax exempt for regular Federal income tax purposes.

Intermediate Muni Fund, Inc.

33

=====
Dividend Reinvestment Plan (unaudited)
=====

Under the Fund's Dividend Reinvestment Plan ("Plan"), a shareholder whose shares of common stock are registered in his own name will have all distributions from the fund reinvested automatically by PFPC Inc. ("PFPC"), as purchasing agent under the plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in street name) will be reinvested by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker or nominee or the shareholder elects to receive distributions in cash. Investors who own common stock registered in street name should consult their broker-dealers for details regarding reinvestment. All distributions to shareholders who do not participate in the plan will be paid by check mailed directly to the record holder by or under the direction of First Data as dividend paying agent.

The number of shares of common stock distributed to participants in the plan in lieu of a cash dividend is determined in the following manner. When the market price of the common stock is equal to or exceeds the net asset value per share of the common stock on the determination date (generally, the record date for the distribution), Plan participants will be issued shares of common stock by the fund at a price equal to the greater of net asset value determined as described below under "Net Asset Value" or 95% of the market price of the common stock.

If the market price of the common stock is less than the net asset value of the common stock at the time of valuation (which is the close of business on the determination date), PFPC will buy common stock in the open market, on the AMEX or elsewhere, for the participants' accounts. If following the commencement of the purchases and before PFPC has completed its purchases, the market price exceeds the net asset value of the common stock as of the valuation time, PFPC will attempt to terminate purchases in the open market and cause the fund to issue the remaining portion of the dividend or distribution in shares at a price equal to the greater of (a) net asset value as of the valuation time or (b) 95% of the then current market price. In this case, the number of shares received by a Plan participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the fund issues the remaining shares. To the extent PFPC is unable to stop open market purchases and cause the Fund to issue the remaining shares, the average per share purchase price paid by PFPC may exceed the net asset value of the common stock as of the valuation time, resulting in the acquisition of fewer shares than if the dividend or capital gains distribution had been paid in common stock issued by the Fund at such net asset value. PFPC will begin to purchase common stock on

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

the open market as soon as practicable after the determination date for the dividend or capital gains distribution, but in no event

34

2003 Annual Report

=====
Dividend Reinvestment Plan (unaudited) (continued)
=====

shall such purchases continue later than 30 days after the payment date for such dividend or distribution, or the record date for a succeeding dividend or distribution, except when necessary to comply with applicable provisions of the federal securities laws.

PFPC maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in each account, including information needed by a shareholder for personal and tax records. The automatic reinvestment of dividends and capital gains distributions will not relieve plan participants of any income tax that may be payable on the dividends or capital gains distributions. Common stock in the account of each plan participant will be held by PFPC in uncertificated form in the name of the plan participant.

Plan participants are subject to no charge for reinvesting dividends and capital gains distributions under the Plan. PFPC's fees for handling the reinvestment of dividends and capital gains distributions will be paid by the fund. No brokerage charges apply with respect to shares of common stock issued directly by the fund under the Plan. Each plan participant will, however, bear a proportionate share of any brokerage commissions actually incurred with respect to any open market purchases made under the plan.

Experience under the Plan may indicate that changes to it are desirable. The Fund reserves the right to amend or terminate the plan as applied to any dividend or capital gains distribution paid subsequent to written notice of the change sent to participants at least 30 days before the record date for the dividend or capital gains distribution. The plan also may be amended or terminated by PFPC, with the fund's prior written consent, on at least 30 days' written notice to plan participants. All correspondence concerning the plan should be directed by mail to PFPC Inc., P.O. Box 8030, Boston, Massachusetts 02266-8030 or by telephone at (800) 331-1710.

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by telephoning the Fund (toll-free) at 1-800-451-2010 and by visiting the SEC's web site at www.sec.gov.

ITEM 2. CODE OF ETHICS.

The registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Board of Directors of the registrant has determined that Jane F. Dasher, the Chairman of the Board's Audit Committee, possesses the technical attributes identified in Instruction 2(b) of Item 3 to Form N-CSR to qualify as an "audit committee financial expert," and has designated Ms. Dasher as the Audit Committee's financial expert. Ms. Dasher is an "independent" Director pursuant to paragraph (a) (2) of Item 3 to Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

- (a) Audit Fees for Intermediate Muni Fund, Inc. were \$15,000 and \$15,000 for the years ended 12/31/03 and 12/31/02.
- (b) Audit-Related Fees for Intermediate Muni Fund, Inc. were \$12,500 and \$7,000 for the years ended 12/31/03 and 12/31/02. These amounts represent procedures performed and prepared for agreed upon procedures letter in accordance with the terms of the Supplementary Articles.
- (c) Tax Fees for Intermediate Muni Fund, Inc. were \$2,100 and \$2,000 for the years ended 12/31/03 and 12/31/02. These amounts represent aggregate fees paid for tax compliance, tax advice and tax planning services, which include (the filing and amendment of federal, state and local income tax returns, timely RIC qualification review and tax distribution and analysis planning) rendered by the Accountant to Intermediate Muni Fund, Inc.
- (d) There were no all other fees for Intermediate Muni Fund, Inc. for the years ended 12/31/03 and 12/31/02.
- (e) (1) Audit Committee's pre-approval policies and procedures described in paragraph (c) (7) of Rule 2-01 of Regulation S-X.

The Charter for the Audit Committee (the "Committee") of the

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

Board of each registered investment company (the "Fund") advised by Smith Barney Fund Management LLC or Salomon Brothers Asset Management Inc or one of their affiliates (each, an "Adviser") requires that the Committee shall approve (a) all audit and permissible non-audit services to be provided to the Fund and (b) all permissible non-audit services to be provided by the Fund's independent auditors to the Adviser and any Covered Service Providers if the engagement relates directly to the operations and financial reporting of the Fund. The Committee may implement policies and procedures by which such services are approved other than by the full Committee.

The Committee shall not approve non-audit services that the Committee believes may impair the independence of the auditors. As of the date of the approval of this Audit Committee Charter, permissible non-audit services include any professional services (including tax services), that are not prohibited services as described below, provided to the Fund by the independent auditors, other than those provided to the Fund in connection with an audit or a review of the financial statements of the Fund. Permissible non-audit services may not include: (i) bookkeeping or other services related to the accounting records or financial statements of the Fund; (ii) financial information systems design and implementation; (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (iv) actuarial services; (v) internal audit outsourcing services; (vi) management functions or human resources; (vii) broker or dealer, investment adviser or investment banking services; (viii) legal services and expert services unrelated to the audit; and (ix) any other service the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval by the Committee of any permissible non-audit services is not required so long as: (i) the aggregate amount of all such permissible non-audit services provided to the Fund, the Adviser and any service providers controlling, controlled by or under common control with the Adviser that provide ongoing services to the Fund ("Covered Service Providers") constitutes not more than 5% of the total amount of revenues paid to the independent auditors during the fiscal year in which the permissible non-audit services are provided to (a) the Fund, (b) the Adviser and (c) any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the Fund during the fiscal year in which the services are provided that would have to be approved by the Committee; (ii) the permissible non-audit services were not recognized by the Fund at the time of the engagement to be non-audit services; and (iii) such services are promptly brought to the attention of the Committee and approved by the Committee (or its delegate(s)) prior to the completion of the audit.

- (f) N/A
- (g) Non-audit fees billed - \$100,000 and \$1.2 million for the years ended 12/31/2003 and 12/31/2002.
- (h) Yes. Intermediate Muni Fund, Inc.'s Audit Committee has considered whether the provision of non-audit services that were rendered to Service Affiliates which were not pre-approved (not requiring pre-approval) is compatible with maintaining the Accountant's independence. All services provided by the Accountant to Intermediate Muni Fund, Inc. or to Service

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

Affiliates which were required to be pre-approved were pre-approved as required.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable.

ITEM 6. [RESERVED]

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Board of Directors of the Fund has delegated the authority to develop policies and procedures relating to proxy voting to the Manager. The Manager is part of Citigroup Asset Management ("CAM"), a group of investment adviser affiliates of Citigroup, Inc. ("Citigroup"). Along with the other investment advisers that comprise CAM, the Manager has adopted a set of proxy voting policies and procedures (the "Policies") to ensure that the Manager votes proxies relating to equity securities in the best interest of clients.

In voting proxies, the Manager is guided by general fiduciary principles and seeks to act prudently and solely in the best interest of clients. The Manager attempts to consider all factors that could affect the value of the investment and will vote proxies in the manner that it believes will be consistent with efforts to maximize shareholder values. The Manager may utilize an external service provider to provide it with information and/or a recommendation with regard to proxy votes. However, such recommendations do not relieve the Manager of its responsibility for the proxy vote.

In the case of a proxy issue for which there is a stated position in the Policies, CAM generally votes in accordance with such stated position. In the case of a proxy issue for which there is a list of factors set forth in the Policies that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above and considering such enumerated

factors. In the case of a proxy issue for which there is no stated position or list of factors that CAM considers in voting on such issue, CAM votes on a case-by-case basis in accordance with the general principles set forth above. Issues for which there is a stated position set forth in the Policies or for which there is a list of factors set forth in the Policies that CAM considers in voting on such issues fall into a variety of categories, including election of directors, ratification of auditors, proxy and tender offer defenses, capital structure issues, executive and director compensation, mergers and corporate restructurings, and social and environmental issues. The stated position on an issue set forth in the Policies can always be superseded, subject to the duty to act solely in the best interest of the beneficial owners of accounts, by the investment management professionals responsible for the account whose shares are being voted. Issues applicable to a particular industry may cause CAM to abandon a policy that would have otherwise applied to issuers generally. As a result of the independent investment advisory services provided by distinct CAM business units, there may be occasions when different business units or different portfolio managers within the same business unit vote differently on the same issue.

In furtherance of the Manager's goal to vote proxies in the best

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

interest of clients, the Manager follows procedures designed to identify and address material conflicts that may arise between the Manager's interests and those of its clients before voting proxies on behalf of such clients. To seek to identify conflicts of interest, CAM periodically notifies CAM employees (including employees of the Manager) in writing that they are under an obligation (i) to be aware of the potential for conflicts of interest with respect to voting proxies on behalf of client accounts both as a result of their personal relationships and due to special circumstances that may arise during the conduct of CAM's and the Manager's business, and (ii) to bring conflicts of interest of which they become aware to the attention of compliance personnel. The Manager also maintains and considers a list of significant relationships that could present a conflict of interest for the Manager in voting proxies. The Manager is also sensitive to the fact that a significant, publicized relationship between an issuer and a non-CAM affiliate might appear to the public to influence the manner in which the Manager decides to vote a proxy with respect to such issuer. Absent special circumstances or a significant, publicized non-CAM affiliate relationship that CAM or the Manager for prudential reasons treats as a potential conflict of interest because such relationship might appear to the public to influence the manner in which the Manager decides to vote a proxy, the Manager generally takes the position that non-CAM relationships between Citigroup and an issuer (e.g. investment banking or banking) do not present a conflict of interest for the Manager in voting proxies with respect to such issuer. Such position is based on the fact that the Manager is operated as an independent business unit from other Citigroup business units as well as on the existence of information barriers between the Manager and certain other Citigroup business units.

CAM maintains a Proxy Voting Committee, of which the Manager personnel are members, to review and address conflicts of interest

brought to its attention by compliance personnel. A proxy issue that will be voted in accordance with a stated position on an issue or in accordance with the recommendation of an independent third party is not brought to the attention of the Proxy Voting Committee for a conflict of interest review because the Manager's position is that to the extent a conflict of interest issue exists, it is resolved by voting in accordance with a pre-determined policy or in accordance with the recommendation of an independent third party. With respect to a conflict of interest brought to its attention, the Proxy Voting Committee first determines whether such conflict of interest is material. A conflict of interest is considered material to the extent that it is determined that such conflict is likely to influence, or appear to influence, the Manager's decision-making in voting proxies. If it is determined by the Proxy Voting Committee that a conflict of interest is not material, the Manager may vote proxies notwithstanding the existence of the conflict.

If it is determined by the Proxy Voting Committee that a conflict of interest is material, the Proxy Voting Committee is responsible for determining an appropriate method to resolve such conflict of interest before the proxy affected by the conflict of interest is voted. Such determination is based on the particular facts and circumstances, including the importance of the proxy issue and the nature of the conflict of interest. Methods of resolving a material conflict of interest may include, but are not limited to, disclosing the conflict to clients and obtaining their consent before voting, or suggesting to clients that they engage another party to vote the proxy on their

Edgar Filing: INTERMEDIATE MUNI FUND INC - Form N-CSR

behalf.

ITEM 9. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934.
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that have materially affected, or are likely to materially affect the registrant's internal control over financial reporting.
