#### PROPOSAL 1

##### THE NAME CHANGE

The Board has determined that it would be in the best interests of the Company to adopt the Name Change.

##### Purpose for the Name Change

The Name Change is intended to convey more clearly a sense of the Company's business. As the Company has grown, we have expanded our service offering beyond the Company's website and into entertainment, arts and distribution of feature films. The Company has five business segments: Investments in Entertainment Arts Productions, Online Membership Services Software sales, Importing and exporting of goods, e-commerce and Media and Marketing Management. The Company's expanded business focus and enhanced offering is better described in a corporate name that reflects the Company's more comprehensive business.

##### Effects of the Name Change

Changing our name will not have any effect on our corporate status or the rights of stockholders. Our ticker (trading) symbol, which is currently "MYST" and the CUSIP number of our stock will both change as a result of the name change.

##### Effective Date

Under applicable federal securities laws, the Name Change cannot be effective until at least twenty (20) calendar days after this Information Statement is sent to or given to our stockholders. The Name Change will become effective upon the filing of the Company's Amended Certificate of Incorporation, attached hereto as Exhibit A, with the Secretary of State of the State of Delaware.

#### PROPOSAL 2

##### THE REVERSE STOCK SPLIT

The Board has determined that it would be in the best interests of the Company to approve the Reverse Stock Split.

A majority of the Company's shareholders were asked to grant the Board the authority to amend the Certificate of Incorporation for the purpose of effecting the Reverse Stock Split.

### Reasons for the Reverse Stock Split

The current number of outstanding shares of Common Stock is atypical for a company of the Company's size. The Board believes that the Reverse Stock Split is in the best interests of the Company and may provide the Company with additional financing alternatives in the future.

Management of the Company is not aware of any present efforts of any persons to accumulate Common Stock or to change control of the Company, and the proposed Reverse Stock Split is not intended to be an anti-takeover device.

Furthermore, by effectuating the Reverse Stock Split of the existing shares of the Company on a one (1) for one hundred (100) basis, the Company also hopes to increase its price per share. There can be no guarantee that the Reverse Stock Split will result in a higher price per share. Our Board has discretion not to carry out the Reverse Stock Split if it determines that these actions will not be beneficial.

### Exchange of Stock Certificates

When the Board effects the Reverse Stock Split, the Company will file an amendment to its Certificate of Incorporation with the Secretary of State of the State of Delaware. The Reverse Stock Split will become effective on the date of the filing of the amended Certificate of Incorporation with the Secretary of State of the State of New Delaware (the "Effective Date") and the shareholders will be notified on or after the Effective Date that the Reverse Stock Split has been effected. The Company's transfer agent, Corporate Stock Transfer, will act as its exchange agent (the "Exchange Agent") for holders of Common Stock in implementing the exchange of their certificates.

As soon as practicable after the Effective Date, shareholders shall be notified and requested to surrender their old certificates to the Exchange Agent in exchange for the proper number of new certificates. Beginning on the Effective Date, each old certificate will be deemed for all corporate purposes to evidence ownership of the reduced number of shares of Common Stock as a result of the Reverse Stock Split.

### Fractional Shares

Shareholders who would be entitled to receive fractional shares of Common Stock because they hold a number of shares of Common Stock not evenly divisible, will have any such fractional shares of Common Stock rounded up to the nearest whole number.

### Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of the material federal income tax consequences of the Reverse Stock Split. This discussion is based on the Internal Revenue Code, the Treasury Regulations promulgated thereunder, judicial opinions, published positions of the Internal Revenue Service, and all other applicable authorities as of the date of this document, all of which are subject to change (possibly with retroactive effect). This discussion does not describe all of the tax consequences that may be relevant to a holder in light of his particular circumstances or to holders subject to special rules (such as dealers in securities, financial institutions, insurance companies, tax-exempt organizations, foreign individuals and entities, and persons who acquired their Common Stock as compensation). In addition, this summary is limited to stockholders that hold their Common Stock as capital assets. This discussion also does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction.

ACCORDINGLY, EACH STOCKHOLDER IS STRONGLY URGED TO CONSULT WITH A TAX ADVISOR TO DETERMINE THE PARTICULAR FEDERAL, STATE, LOCAL OR FOREIGN INCOME OR OTHER TAX CONSEQUENCES TO SUCH STOCKHOLDER OF THE REVERSE STOCK SPLIT.

No gain or loss should be recognized by a stockholder upon such stockholder's exchange of pre-reverse stock split shares for post-reverse stock split shares pursuant to the Reverse Stock Split. The aggregate tax basis of the post-reverse stock split shares received in the Reverse Stock Split will be the same as the stockholder's aggregate tax basis in the pre-reverse stock split shares exchanged therefore. The stockholder's holding period for the post-reverse stock split shares will include the period during which the stockholder held the pre-reverse stock split shares surrendered in the Reverse Stock Split.

The tax treatment of each stockholder may vary depending upon the particular facts and circumstances of such stockholder. Each stockholder is urged to consult with such stockholder's own tax advisor with respect to all of the potential tax consequences of the Reverse Stock Split.

### PROPOSAL 3

#### THE SHARE INCREASE AMENDMENT

The Board has determined that it would be in the best interests of the Company to approve the Share Increase Amendment.

#### Reasons for the Share Increase

We intend to inquire into business acquisition opportunities. Our goal is to increase stockholder value by changing our operations to a business that has the potential to generate greater returns to our stockholders and potential investors than the business we are currently in. The authorized shares of Common Stock will need to be increased in order for the Company to have the necessary flexibility and ability to act quickly in connection with any business acquisition opportunities.

#### Effectiveness of the Share Increase Amendment

The Share Increase Amendment will be effective upon the filing of the amendment to the Company's Certificate of Incorporation with the Secretary of State of the State of Delaware, the Company's state of incorporation. Currently, there are no agreements that the Company has entered into or plans to enter into in connection with a future stock issuance. There can be no assurance that the Company will enter into such agreements.

#### Effects of the Share Increase

The overall effect will be an increase in the authorized shares of the Company's common stock. The unissued shares may be issued by our Board in its discretion. Any future issuance will have the effect of diluting the percentage of stock ownership and voting rights of the present holders of Common Stock.

The Board believes it advisable to increase in the number of authorized shares for the reasons set forth above. However, this action is not being recommended by the Board as part of an anti-takeover strategy although the Board is aware that the increase in the number of authorized but unissued shares of Common Stock may have a potential anti-takeover effect. Our ability to issue additional shares could be used to thwart persons, or otherwise dilute the stock ownership of stockholders seeking to control us.

## DESCRIPTION OF SECURITIES

### GENERAL

The following description of our capital stock and provisions of our Certificate of Incorporation is a summary thereof and is qualified by reference to our Certificate of Incorporation, copies of which may be obtained upon request. Our authorized capital consists of 300,000,000 shares of Common Stock, par value \$.001 per share, of which approximately 247,924,316 shares are issued and outstanding. We are authorized to issue 50,000,000 shares of preferred stock, of which no shares are issued or outstanding.

### COMMON STOCK

Holders of shares of Common Stock are entitled to share, on a ratable basis, such dividends as may be declared by the Board out of funds, legally available therefor. Upon our liquidation, dissolution or winding up, after payment to creditors, our assets will be divided pro rata on a per share basis among the holders of our Common Stock.

Each share of Common Stock entitles the holders thereof to one vote. Holders of Common Stock do not have cumulative voting rights, which means that the holders of more than 50% of the shares voting for the election of directors can elect all of the directors if they choose to do so, and, in such event, the holders of the remaining shares will not be able to elect any directors. Our By-Laws require that only a majority of our issued and outstanding shares need be represented to constitute a quorum and to transact business at a stockholders' meeting. Our Common Stock has no preemptive, subscription or conversion rights and is not redeemable by us.

### PREFERRED STOCK

Our Certificate of Incorporation authorize our Board to create and issue series of preferred stock from time to time, with such designations, preferences, conversion rights, cumulative, relative, participating, optional or other rights, including voting rights, qualifications, limitations or restrictions thereof as permitted under Delaware law.

- attract, retain and motivate qualified personnel; and
- upgrade our technology to support increased traffic and expanded services.

Subaye.com achieved profitability as of the quarter ended December 31, 2006. We have experienced growth in recent periods, in part, due to the growth in the PRC's online marketing industry, which may not be representative of future growth or be sustainable. We cannot assure that our historical financial information is indicative of our future operating results or financial performance, or that our profitability will be sustained.

The Company has provided its services on the www.x381.com website to its members free of charge since the website was acquired in February 2008. In July 2009 the Company expects to begin charging annual membership fees of approximately \$100 which we currently estimate will generate revenues of approximately \$1,000,000 for the year ended September 30, 2009.

#### Other Websites

We also plan to launch the www.goongood.com and www.goongreen.org websites during the summer of 2009. We currently estimate an additional \$1.2 million in revenues could be generated by these two websites during the year ended September 30, 2009.

#### MyStarU.com and Icurls.com

The Company purchased www.mystaru.com on October 1, 2006, and www.icurls.com on November 20, 2006. We expect to use the two websites in 2009 to continue to develop the Company's offerings in the arts education market. From October 1, 2006 and through the date of this report, the Company sold approximately \$1.8 million in "master franchise licenses" and approximately \$1.7 million in "end user licenses" to unrelated parties in the PRC. The third party purchasers are intent on utilizing the Company's education-related web-based offerings in certain sectors of the PRC and across potential large portions of the PRC population within each sector.

The system is a prototype for state-of-the-art delivery of streaming video performing education courses in the music and movie industries in the PRC. The new courseware was developed using the Guangzhou Subaye's EDU v5.0 Education Management System and is delivered to viewers via the MYST platform. The multimedia content is produced using Adobe Flash(r) video synchronized presentations and demonstrative video clips. Users can view multimedia training presentations that include downloadable video files of course materials and are then able to upload their own video files to teachers for analysis, which affords users the opportunity to have questions answered by course teachers. MYST intends to use this new capability to reach hundreds of thousands of young people who are interested in entering the performing arts, music and movie industries. MYST's goal is to deliver education content online without meaningful limitations or restrictions.

In a country with significant mobile phone usage, the growth opportunities remain tremendous. The PRC has more than 1.33 billion people, and mobile services will remain a strong area of growth. Entertainment content for these mobile devices is in high demand and MYST is intent on becoming a dominant player within this space.

#### Liquidity and Capital Resources

We believe that our currently-available working capital, consistent cashflow from our online membership services business segment and the collection of our accounts receivable, should be adequate to sustain our operations through September 30, 2009.

As of June 30, 2009, we had a cash balance of \$770,228, consisting of cash held in PRC and Hong Kong banks and cash in hand. We currently have no cash positions in the United States of America.

Management has invested substantial time evaluating and considering numerous proposals for possible investments, acquisitions or business combinations, either sought out by management or presented to management by investment professionals, the Company's advisers and others. We continue to consider acquisitions, business combinations, or start up proposals, which could be advantageous to our shareholders. No assurance can be given that any such project, acquisition or combination will be concluded, or that all these actions will be approved by our Board of Directors.

Net cash provided by operations for the nine months ended June 30, 2009 was \$2,106,649. Net income for the nine months ended June 30, 2009 was \$6,006,589. Noncash charges totaled \$6,928,223 for the three months ended June 30, 2009. Changes in assets and liabilities for the nine months ended June 30, 2009 utilized \$10,828,163. In the future, we may use cash in our operations due to our continuing efforts to rapidly expand our operations.

Our future growth is dependent on our ability to continue to generate significant and consistent cashflow through the online membership services business segment, raise capital for expansion as necessary, and to continually seek additional revenue sources. If we decide to pursue any acquisition opportunities or other expansion opportunities, we may need to raise additional capital, although there can be no assurances that such capital-raising activities would be successful.
