INFORMATION TO BE INCLUDED IN THE REPORT

Item 8.01. Other Events.

During the third quarter of 2009, the Company adopted a plan to dispose of Montana Tunnels Mining, Inc. (“MTMI”), a previously reportable segment, which includes the Montana Tunnels and Diamond Hill mines. The Montana Tunnels mine (“Montana Tunnels”), a 50% joint venture, is an open pit mine and mill that produced gold doré and lead-gold and zinc-gold concentrates, located in the State of Montana. Montana Tunnels was placed under care and maintenance on April 30, 2009. The Diamond Hill mine, also located in the State of Montana, is currently under care and maintenance. MTMI has therefore been classified as discontinued operations and that change in classification was reported in our Form 10-Q for the period ended September 30, 2009. MTMI has identifiable cash flows that are largely independent of the cash flows of other groups of assets and liabilities and have been classified as discontinued operations.

The rules of the Securities and Exchange Commission (the “SEC”) require that when a registrant prepares a new registration, proxy or information statement (or amends a previously filed registration, proxy or information statement) that includes or incorporates by reference financial statements as of a date on or after the date a registrant reports a component as a discontinued operation, the registrant must also restate the prior period annual financial statements included or incorporated by reference in the registration, proxy or information statement to reflect the discontinued operation. Accordingly, we are filing this Form 8-K to restate our consolidated financial statements for each of the three years in the period ended December 31, 2008, to reflect the reclassification of MTMI from continuing operations to discontinued operations. We are presenting the following restated information in this Form 8-K:

Selected Financial Data,  
Management’s Discussion and Analysis of Financial Condition and Results of Operations, and  
Consolidated Financial Statements and Related Notes.

This Form 8-K does not reflect events occurring after the filing of the original Form 10-K for the year ended December 31, 2008, and does not modify or update the disclosures therein in any way, other than as required to reflect the changes in discontinued operations and minor changes to reflect comments made by the SEC in a comment later dated August 6, 2009. In particular, this Form 8-K does not update the disclosures contained in Management’s Discussion and Analysis of Financial Condition and Results of Operations or Note 24 (“Subsequent Events”) to the Consolidated Financial Statements, other than as required to reflect the reclassification MTMI from continuing operations to discontinued operations. Significant developments with respect to those disclosures have occurred and are described in subsequent filings with the SEC, including our Form 10-Q for the period ended September 30, 2009.
