**1Q14****1. BALANCE SHEET****1.1. Assets**

As of March, 2014, Bancolombia's assets totaled COP 130,443 billion, which represents a decrease of 0.3% compared to 4Q13 and an increase of 26.5% compared to 1Q13. The annual growth was explained 16.5% by the contribution of Banistmo (formerly HSBC Panama) and 10.4% by the organic growth of the existing operation before the consolidation of Banistmo.

The decrease in assets in the quarter was explained by the reduction of cash that was used to reduce the most expensive liabilities. The annual growth of the assets was mainly explained by the consolidation of Banistmo's assets in 4Q13 and the organic growth of loans and finance leases, which represented 67% of the assets at the end of 1Q14

The most relevant aspects regarding the evolution of the loan portfolio during 1Q14 were:

- The growth of commercial, mortgage loans and financial leases in Colombia during 1Q14 indicate a sustained credit demand.
  
- Net loans in USD correspond to loans originated in Colombia (USD 4,123 million, 29%), El Salvador (USD 2,644 million, 19%), Panamá (USD 7,098 million, 50%), and other countries (USD 412 million, 3%). USD denominated loans represented 31% of total loans as of 1Q14.
  
- COP depreciated 2.2% versus USD during 1Q14 and 7.5% in the last 12 months.
  
- Mortgage loans denominated in COP presented a dynamic performance, growing 22.5% year on year. The dynamism of mortgage lending in Colombia is explained by the lower long-term interest rates, as well as by the Colombian government's interest rate subsidy programs. On the other hand, the mortgage balance denominated in USD from our operation in El Salvador and Panama represented 36% of the mortgage loans at the end of 1Q14.
  
- Financial leases, of which 90% are denominated in COP, increased 1.2% during the quarter and 11.8% as compared to 1Q13. Operating leases, net of depreciation, increased 5.0% during 1Q14 and 28.6% in the last 12 months. These two products are mainly used by enterprises in order to finance equipment, commercial real estate and commercial vehicles.

**1Q14**

When analyzing the loan portfolio according to the customer categories established by Bancolombia in order to manage its commercial strategy (see table below), it becomes clear that commercial loans led the growth during 1Q14, as they increased 2.9% with respect to 4Q13. The growth is explained by the credit demand for business investment. This is the segment that contributes the most to the nominal growth of the total loan book. Consumer and SMEs loans increased by 1.1% when compared with 4Q13, which indicates a moderate credit demand versus the growth of previous quarters.

Total reserves (allowances in balance sheet) for loan losses increased by 1.7% during 1Q14 and totaled COP 4,136 billion, or 4.5% of gross loans at the end of the quarter. For further explanation regarding coverage of the loan portfolio and credit quality trends, see section “2.4. Asset Quality, Provision Charges and Balance Sheet Strength”.

### 1.3. Investment Portfolio

As of March 31, 2014, Bancolombia's net investment portfolio totaled COP 15,385 billion, 11.4% higher than that reported in 4Q13 and 8.1% higher when compared to that reported in 1Q13. This growth resulted from the investment of the proceeds of the issuance of shares in March 2014, which totaled COP 2,656 billion. The investment portfolio consisted primarily of debt securities, which represented 88% of Bancolombia's total investments and 10% of assets at the end of 1Q14. Investments denominated in USD totaled USD 2,146 million and represented 27% of the investment portfolio.

Additionally, the Bank had COP 863 billion in net mortgage backed securities, which represented 5.6% of the investment portfolio.

At the end of 1Q14, the portfolio of investments in debt securities had a duration of 15.8 months and a yield to maturity of 4.01%.

**1Q14****1.4. Goodwill**

As of 1Q14, Bancolombia's goodwill totaled COP 3,616 billion, increasing 0.7% compared to the amount reported in 4Q13 and 527.5% compared to 1Q13. This annual variation is explained by the acquisition of Banistmo which generated goodwill of approximately 1,500 million USD and the quarterly increase is explained by the depreciation of the peso against the dollar during the quarter. Under Colombian GAAP, goodwill is amortized within a maximum period of 20 years.

**1.5. Funding**

As of March 31, 2014, Bancolombia's liabilities totaled COP 115,481 billion, decreasing 2.4% compared to 4Q13 and increasing 25.9% compared to 1Q13. The annual growth was explained, 17.5% by the contribution of Banistmo and 6.5% by the organic growth of the existing operation before the consolidation of Banistmo.

Deposits totaled COP 83,043 billion (or 72% of liabilities) at the end of 1Q14, decreasing 4.1% during the quarter and increasing 23.7% over the last 12 months. The net loans to deposits ratio (including borrowings from domestic development banks) was 99% at the end of 1Q14, increasing compared to the 94% reported in 4Q13, and the 98% reported in 1Q13.

Bancolombia's funding strategy during the quarter was to reduce the most expensive deposits and liabilities while maintaining the liquidity position. This strategy allowed the bank to reduce the cost on deposits during the quarter. The ultimate goal is to defend the net interest margin.

At the end of 1Q14, Bancolombia had outstanding bonds for USD 3,972 million in international markets and for COP 4,612 billion in local markets. The maturities of these bonds range from 2 to 10 years.

#### 1.6. Shareholders' Equity and Regulatory Capital

Shareholders' equity at the end of 1Q14 was COP 14,962 billion, increasing 30.8% or COP 3,525 billion, with respect to the 11,437 billion reported at the end of 1Q13 as a result of the proceeds of the issuance of 110 million shares in March 2014, which totaled COP 2,656 billion, and the appropriation of 2013 earnings.

Bancolombia's capital adequacy ratio was 13.66%, 305 basis points above the 10.61% for 4Q13 and 330 basis points below the 16.96% at the end of 1Q13. The quarterly increase in the capital adequacy was due to the new capital, proceeds from the issuance of shares and retained earnings of the previous year, as defined in the general shareholders' meeting of March 17, 2014; while the annual decrease was due to the implementation in Colombia of a new capital regulation for banks, which increased deductions from the tier 1 calculation and the incorporation of Banistmo's risk weighted assets.

**1Q14**

Bancolombia's capital adequacy ratio was 466 basis points above the minimum level required by Colombia's regulator, while the basic capital ratio (Tier 1) to risk weighted assets was 8.88%, 438 basis points above the regulatory minimum of 4.5% . The tangible capital ratio, defined as shareholders' equity minus goodwill and intangible assets divided by tangible assets, was 8.5% at the end of 1Q14.

**1Q14****2. INCOME STATEMENT**

Net income totaled COP 508 billion in 1Q14, or COP 580 per share - USD 1.18 per ADR. This net income represents an increase of 4.0% compared to 4Q13 and 3.2% compared to 1Q13. Bancolombia's annualized ROE was 15.3% for 1Q14.

**2.1. Net Interest Income**

Net interest income totaled COP 1,455 billion in 1Q14, 7.9% higher than that reported in 4Q13, and 3.6% higher than the figure for 1Q13. The performance of this line was driven by higher loan volumes, the expansion of the loans interest margin, and the performance of the securities portfolio, that even though 55% lower compared to the same period last year, show an improvement against 4Q13.

During 1Q14, the investment portfolio generated COP 155 billion, product of the good performance of the Colombian government debt securities. The strategy for the last quarters has been maintaining low the volatility and duration of the portfolio.

**Net Interest Margin**

The annualized net interest margin expanded in 1Q14 to 5.5% for the quarter.

The annualized net interest margin for investments was 1.8%, higher than the 0.1% of 4Q13 due to the better performance on debt securities of the Colombian government. The annualized net interest margin of the loan portfolio, financial leases, overnight funds and interbank loans was 6.1%, higher than the 6.0% of 4Q13, due to higher interest rates and the reduction in the funding cost.

The funding cost decreased during 1Q14 due to the low interest rates, greater liquidity and management of the liabilities structure, which reduced the most expensive funding sources. Savings and checking accounts kept their share during the quarter, and the annualized average weighted cost of deposits was 2.3% in 1Q14, decreasing compared to the 2.6% for 4Q13 and the 3.2% for 1Q13.

**1Q14****2.2. Fees and Income from Services**

During 1Q14, net fees and income from services totaled COP 542 billion, increasing 3.3% with respect to 4Q13 and 24.3% with respect to 1Q13. Fees from credit and debit cards increased 3.3% compared to 4Q13 due to a greater volume of transactions and the contribution of three months of Banistmo, against only two in 4Q13. Fees from banking services decreased 3.7% compared to 4Q13 but increased 53.8% compared to 1Q13; this line includes fees from insurance distribution throughout the distribution networks in Colombia and in El Salvador. Fees from asset management and trust services increased 6% in 1Q14 as a result of the growth of assets under management.

**2.3. Other Operating Income**

Total other operating income was COP 261 billion in 1Q14, 1.1% higher than that in 4Q13, and 14.1% higher than in 1Q13. Income from foreign exchange gains and derivatives denominated in foreign currencies increased in the quarter due to the net effect of the active and passive positions the bank had in foreign currency.

Edgar Filing: BANCOLOMBIA SA - Form 6-K

During 1Q14 the bank received COP 45.9 billion in dividends from companies in which Bancolombia and its subsidiaries have interests, especially from Protección S.A. (COP 14.4 billion), Odinsa S.A. (COP 9.7 billion), EPSA S.A. E.S.P (COP 4.2 billion) and Titularizadora Colombiana S.A. (COP 3.7 billion).

Revenues aggregated in the communication, rent and others line totaled COP 139 billion in 1Q14, which is 14.3% higher as compared to 4Q13 and 30.7% higher as compared to those in 1Q13. This line includes revenues from commercial discounts and operating leases payments, which have increased as this product grows.

**1Q14****2.4. Asset Quality, Provision Charges and Balance Sheet Strength**

The quality of the loan portfolio showed a slight deterioration in 1Q14 due to the incorporation of Banistmo's assets in 4Q13 that under Colombian rule resulted in an increase in the past due loans and the formation of nonperforming loans by a seasonal effect of the first quarter. Colombian standards consider those loans overdue more than 30 days as delinquent while Panamanian standard considers them past due after 90 days or more. Thus, past due loans (those that are overdue for more than 30 days) totaled COP 2.913 billion at the end of 1Q14, representing 3.2% of total gross loans for 1Q14, and increasing compared to the 2.9% reported in 4Q13 and the 3.0% reported in 1Q13. Charge-offs totaled COP 261 billion in 1Q14.

The coverage, measured by the ratio of allowances for loans losses (principal) to PDLs (overdue 30 days), was 142% at the end of 1Q14, decreasing with respect to the 157% of 4Q13 and the 156% of 1Q13. Likewise, the coverage measured by the ratio of allowances for loans losses to loans classified as C, D and E, was 111% at the end of 1Q14, remaining stable with respect to the 111% reported in 4Q13 and decreasing with respect to the 117% reported in 1Q13. These reductions are explained by seasonality effects in Colombia and Panama where delinquencies in the first months of the year tend to be higher.

The deterioration of the loan portfolio (new past due loans including charge-offs) was COP 577 billion in 1Q14, which represented 1.0% of the loan portfolio at the beginning of the quarter, increasing with respect to the COP 524 billion in 1Q13.

Provision charges (net of recoveries) totaled COP 308 billion in 1Q14. Provisions as a percentage of the average gross loans were 1.36% for 1Q14.

Bancolombia maintains a strong balance sheet supported on an adequate level of loan loss reserves. Allowances for loan losses totaled COP 4,136 billion, or 4.52% of total loans at the end of 1Q14. This proportion decreased with respect to the 4.54% presented at the end of 4Q13, and with respect to the 4.67% for 1Q13.

For all other loans and financial leasing operations of any type, interest is no longer accumulated after they are more than 30 days past due.

(2) Under Colombian Bank regulations, a loan is past due when it is at least 31 days past the actual due date.

**2.5. Operating Expenses**

During 1Q14, operating expenses totaled COP 1,172 billion, decreasing 2.9% with respect to 4Q13 and increasing 7.4% with respect to 1Q13.

Personnel expenses (salaries, bonus plan payments and compensation) totaled COP 467 billion in 1Q14, increasing 18.9% as compared to 4Q13 and 9.7% as compared to 1Q13. This increase was explained by higher salaries expenses

due to the higher number of employees as well as by the 2014 wage increases. In addition, in 1Q14 are reflected 3 months of Banistmo's expenses versus just the two that were reflected in 4Q13.

During 1Q14, administrative expenses totaled COP 535 billion, decreasing 18.9% as compared to 4Q13 and increasing 0.2% as compared to 1Q13.

Depreciation expenses totaled COP 127 billion in 1Q14, increasing 7.1% as compared to 4Q13 and 33.0% as compared to 1Q13. The increase in this type of expense is explained by the increase of operating leases from Leasing Bancolombia whose assets given on lease are depreciated.

At the end of 1Q14, Bancolombia had 28,798 employees, 1,086 branches and 4,332 ATMs.
