ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On July 22, 2010, Cash America International, Inc. (the “Company”) reported that during the second quarter of 2010 the Company renamed its Internet Services Division as the E-commerce Division and realigned its operating segments into two reportable segments: retail services and e-commerce. The retail services segment covers all of the operations of the Company’s Retail Services Division, which is comprised of both domestic and foreign storefront locations that offer pawn lending, consumer loans (formerly referred to as cash advances), check cashing and other ancillary services, and the e-commerce segment covers all of the operations of the Company’s E-commerce Division, which is comprised of the Company’s domestic and foreign online channel (which covers the Company’s internet lending activities, as well as online gold buying activities and other ancillary services) and the Company’s micro line of credit (“MLOC”) services channel (formerly referred to as card services). The segment realignment was in response to a number of changing factors within the Company’s business. First, the Company’s business strategy at retail services locations now emphasizes a broad array of products such as pawn loans, gold buying, and consumer loans in most locations, such that the previously reported delineation of pawn and consumer loan-centric locations became obsolete. Second, the Company’s management performance assessment, allocation of resources, and operating decisions have migrated to a two segment structure with one Division President overseeing retail services activities and another Division President overseeing e-commerce activities. Third, the Company’s e-commerce products have expanded and now include activities such as the MLOC services and online gold buying. Financial information for prior years reflects the current segment structure. Certain amounts in the consolidated financial statements have been reclassified to reflect the current segment structure. These reclassifications have no impact on consolidated results previously reported.

The Company allocates corporate administrative expenses to each operating segment based on personnel expenses at each segment. In the e-commerce segment, certain administrative expenses are allocated between the domestic and foreign components based on the amount of loans written for each geographic location. For comparison purposes, all prior periods in the tables below reflect the current classification of administrative and operating expenses.

Edgar Filing: CASH AMERICA INTERNATIONAL INC - Form 8-K

The following tables set forth the Company's operating segment disclosures by quarter and for the respective year-to-date periods of 2010, 2009 and 2008 under the revised segment structure:
