

PRENTISS PROPERTIES TRUST/MD

Form 425

November 01, 2005

Filed by Brandywine Realty Trust Pursuant to Rule 425

Under the Securities Act of 1933

And deemed filed pursuant to Rule 14a-12 under the Securities Exchange Act of 1934

Subject Company: Prentiss Properties Trust

Commission File No.: 1-14516

This filing relates to a proposed acquisition (the Acquisition) by Brandywine Realty Trust (Brandywine) of Prentiss Properties Trust (Prentiss) pursuant to the terms of an Agreement and Plan of Merger, dated as of October 3, 2005 (the Merger Agreement), by and among Brandywine and Prentiss. The Merger Agreement is on file with the Securities and Exchange Commission (the Commission) as an exhibit to the Current Report on Form 8-K filed by Brandywine on October 4, 2005. The Merger Agreement is incorporated by reference into this filing.

On November 1, 2005, Brandywine issued a press release reporting its financial results for the quarter and nine-months ended September 30, 2005. The press release has been furnished by Brandywine on Form 8-K. The text of the press release is as follows:

Brandywine Realty Trust Announces Third Quarter 2005 Earnings

PLYMOUTH MEETING, PA, November 1, 2005 Brandywine Realty Trust (NYSE:BDN) announced today that diluted earnings per share (EPS) was \$0.24 for the third quarter of 2005, as compared to \$0.39 for the third quarter of 2004. Net income was \$15.8 million for the third quarter, as compared to \$21.2 million for the third quarter of 2004. Diluted EPS was \$0.50 for the nine months ended September 30, 2005, as compared to \$1.07 per share for the nine months ended September 30, 2004. Net income was \$34.1 million for the nine months ended September 30, 2005, as compared to \$51.8 million for the nine months ended September 30, 2004.

The change in net income reflects increased depreciation and amortization expense of \$10.3 million and \$33.9 million for the three and nine months ended September 30, 2005, respectively as compared to similar periods in 2004. This non-cash increase is largely due to depreciation and amortization related to the 14 assets included in the Company's acquisition of The Rubenstein Company, L.P. in September, 2004. Additionally, the Company recognized \$6.8 million in net gain on sale of interests in real estate and disposition of discontinued operations in the third quarter and nine months ended September 30, 2005 as compared to \$4.2 million and \$5.6 million in similar periods in 2004. During the nine months ended September 30, 2004, the Company recognized a \$4.5 million gain on the redemption of preferred shares.

Funds from operations (FFO) was \$36.2 million or \$0.62 per share for the third quarter 2005 compared to \$33.7 million or \$0.67 per share for the third quarter of 2004. FFO for the nine months ended September 30, 2005 was \$107.7 million or \$1.86 per share as compared to \$95.0 million or \$1.93 per share for the same period of 2004.

FFO represents a non-generally accepted accounting principle (GAAP) financial measure. A table reconciling FFO to net income, the GAAP measure that the Company believes to be most directly comparable, is within the consolidated financial statements included in this release.

Brandywine President and Chief Executive Officer, Gerard H. Sweeney, commented, "We are pleased with our results in what remains a competitive leasing environment in the Philadelphia suburban office

market. GAAP rental rates on new leases continue to move in a positive direction and capital costs have begun to stabilize and move toward historical levels. Our team in Richmond has produced a strong performance with our owned portfolio 96.8% leased at the end of the quarter. Mr. Sweeney went on to state, Our recent acquisitions in Conshohocken represent the tactical investments we will continue to make in our existing core markets. We look forward to the opportunity to create additional shareholder value by investing in developments and acquisitions in the three core markets we will be adding through our merger with Prentiss.

Brandywine Realty Trust Summary Portfolio Performance

FFO payout ratio was 71.0% for the quarter

Quarterly rental rates on new leases declined 4.4% on a straight-line basis

Quarterly rental rates on renewals declined 1.3% on a straight-line basis

Quarterly retention rate was 70.8%

Portfolio was 90.2% occupied and 91.5% leased as of September 30, 2005

Leases expired or were terminated for approximately 1,223,000 square feet during the quarter

Leases were renewed for approximately 866,000 square feet during the quarter

New leases were signed for approximately 157,000 square feet during the quarter

Distributions

On September 20, 2005, the Board of Trustees declared a regular quarterly dividend distribution of \$0.44 per common share that was paid October 17, 2005 to shareholders of record as of October 5, 2005. The Company also declared its dividend for the third quarter of \$0.46875 per 7.50% Series C Cumulative Redeemable Preferred Share and \$0.46094 per 7.375% Series D Cumulative Redeemable Preferred Share that was paid on October 17, 2005 to holders of record of the Series C and Series D Preferred Shares as of September 30, 2005.

2005 Financial Outlook

Our outlook for the fourth quarter continues to be predicated upon the following key and variable assumptions:

The same-store portfolio (which represents approximately 79% of total square footage and 77% of projected 2005 net operating income) to achieve the following percentage changes from 2004 results:

GAAP rents and reimbursements (not including termination fees) to decline 0.50% to 1.50%

Net operating income to range from unchanged to a decline of 2.0%

Average occupancy to range from an increase of 0.50% to a decrease of 0.50%

The completion of all development projects in accordance with the estimates identified in our supplemental disclosure as of September 30, 2005.

Based on these key assumptions, we expect the fourth quarter EPS to be \$0.11 to \$0.12 and expect FFO per share to be \$0.61 to \$0.62. These estimates may be positively or negatively impacted primarily by the timing and terms of property leases, actual operating expenses and interest rates as compared to our forecast.

Our Merger with Prentiss Properties Trust

On October 3, 2005, we announced the execution of a merger agreement pursuant to which we agreed to acquire Prentiss Properties Trust in a transaction valued at approximately \$3.3 billion. As part of the transaction, Prudential Real Estate Investors (PREI) has agreed to acquire a portfolio of Prentiss Properties with a value of approximately \$753 million. We presently anticipate that the merger will be completed during the fourth quarter of 2005 or in the first quarter of 2006. Consummation of the merger is subject to customary closing conditions, including approval of the merger by our shareholders and shareholders of Prentiss Properties. Prior to closing, Prentiss Properties intends to proceed with its previously announced Chicago and Detroit divestitures.

Through the merger, we will acquire Prentiss Properties' assets in Washington, D.C., northern and southern California, its properties in Austin and Dallas, Texas, as well as related land holdings. Upon completion of the merger, Brandywine will own/manage a portfolio of 49 million square feet of space. Brandywine and PREI have also entered into an agreement whereby Brandywine will provide management and leasing for the PREI assets with the exception of the Denver market.

The total consideration payable in the merger (including proceeds from the sale to PREI and expected transaction expenses) will be approximately \$3.3 billion, consisting of \$2.2 billion in cash and assumption of Prentiss Properties debt and approximately 35.5 million Brandywine common shares and units. Each holder of Prentiss Properties common shares will receive \$21.50 per share in cash and 0.690 Brandywine common shares for each Prentiss Properties common share.

We anticipate entering into a new revolving credit facility prior to the closing of the Prentiss transaction. In connection with this financing we would write-off approximately \$1.8 million (\$0.03 FFO per share) of costs associated with our existing line of credit. Our EPS and FFO per share guidance does not give effect to this estimated charge.

2006 Financial Outlook

Our 2006 financial outlook is being presented on a Brandywine stand-alone basis. We expect that the Prentiss transaction will be \$0.04 to \$0.06 additive to our stand-alone FFO outlook. We will provide specific guidance for the combined Company following the closing of the transaction.

As of the date of this release, we expect our full year 2006 EPS to be \$0.54 to \$0.62 and FFO per share to be \$2.55 to \$2.63. The Company's projections are based on several key and variable assumptions and estimates, including the following:

Same-Store Results

Edgar Filing: PRENTISS PROPERTIES TRUST/MD - Form 425

In 2006, the Company expects its same-store portfolio (which represents 89% of total square footage owned and 80% of projected 2006 net operating income) to achieve the following percentage changes from currently projected 2005 results:

% change 2005 - 2006

GAAP rent and reimbursements: (Not including termination fees)	1.25% - 1.75%
Expenses:	5.5% - 6.0%
NOI:	(2.00%) - (0.50%)

Occupancy: 0% - 1.0%

The Company's projections for same-store activity are based upon competitive market conditions and continued pressure on market rents. The Company's projections for operating expenses

include continued increases in real estate taxes and energy costs.

The Company's financial outlook for 2006 as presented above takes into account certain lease termination fees that management is currently able to forecast. During the first nine months of 2005 the Company recognized approximately \$0.10 of FFO per share on account of lease terminations, settlements, and other similar items.

Acquisitions, Dispositions, Development

The Company's stand-alone 2006 outlook assumes a very limited amount of disposition activity. The Company's outlook assumes the completion of all development projects identified in its supplemental disclosure as of September 30, 2005. Accurately forecasting the timing and dollar amount of potential acquisitions is complex and these two variables have a high degree of sensitivity on forecasted results. While the acquisition market remains aggressively priced, we intend to use the financial capacity we have created to take advantage of select opportunities. Targeted acquisitions continue to be a component of the Company's strategy, but the low end of the above guidance does not assume any incremental contribution to FFO per share or EPS from acquisitions.

Financing Activity

The Company's stand-alone guidance assumes that we will term-out with long-term fixed rate debt \$250 - \$300 million of the outstanding borrowings under our line of credit.

Forward-Looking Statements

Estimates of future earnings per share and FFO per share and certain other statements in this release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance, achievements or transactions of the Company and its affiliates to be materially different from any future results, performance, achievements or transactions expressed or implied by such forward-looking statements. Such risks, uncertainties and other factors relate to, among others: the Company's ability to lease vacant space and to renew or relet space under expiring leases at expected levels, competition with other real estate companies for tenants, the potential loss or bankruptcy of major tenants, interest rate levels, the availability of debt and equity financing, competition for real estate acquisitions and risks of acquisitions, dispositions and developments, including the cost of construction delays and cost overruns, unanticipated operating and capital costs, the Company's ability to obtain adequate insurance, including coverage for terrorist acts, dependence upon certain geographic markets, and general and local economic and real estate conditions, including the extent and duration of adverse changes that affect the industries in which the Company's tenants compete.

Additional information on factors which could impact the Company and the forward-looking statements contained herein are included in the Company's filings with the Securities and Exchange Commission, including the Company's Annual Report for the year ended December 31, 2004. The Company assumes

no obligation to update or supplement forward-looking statements that become untrue because of subsequent events.

Non-GAAP Supplemental Financial Measures

Funds from Operations (FFO)

FFO is a widely recognized measure of REIT performance. Although FFO is a non-GAAP financial measure, the Company believes that information regarding FFO is helpful to shareholders and potential investors. The Company computes FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (NAREIT), which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than the Company. NAREIT defines FFO as net income (loss) before minority interest of unit holders (preferred and common) and excluding gains

Edgar Filing: PRENTISS PROPERTIES TRUST/MD - Form 425

(losses) on sales of depreciable operating property and extraordinary items (computed in accordance with GAAP); plus real estate related depreciation and amortization (excluding amortization of deferred financing costs), and after adjustment for unconsolidated joint ventures. The GAAP measure that the Company believes to be most directly comparable to FFO, net income, includes depreciation and amortization expenses, gains or losses on property sales and minority interest. In computing FFO, the Company eliminates substantially all of these items because, in the Company's view, they are not indicative of the results from the Company's property operations. To facilitate a clear understanding of the Company's historical operating results, FFO should be examined in conjunction with net income (determined in accordance with GAAP) as presented in the financial statements included elsewhere in this release. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered to be an alternative to net income (loss) (determined in accordance with GAAP) as an indication of the Company's financial performance or to be an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company's liquidity, nor is it indicative of funds available for the Company's cash needs, including its ability to make cash distributions to shareholders.

Cash Available for Distribution (CAD)

Cash available for distribution, CAD, is a non-GAAP financial measure that is not intended to represent cash flow for the period and is not indicative of cash flow provided by operating activities as determined under GAAP. CAD is presented solely as a supplemental disclosure with respect to liquidity because the Company believes it provides useful information regarding the Company's ability to fund its dividends. Because all companies do not calculate CAD the same way, the presentation of CAD may not be comparable to similarly titled measures of other companies.
