Fund Information

The investment objective of NASDAQ Premium Income & Growth Fund Inc. (the Fund) is to provide stockholders with premium income and capital appreciation. The Fund pursues its objective principally through a two-part strategy. First, the Fund will invest substantially all of its net assets in a portfolio of investments designed to closely track the performance of the NASDAQ 100 Index[®]. Second, the Fund will use certain option strategies primarily consisting of writing NASDAQ 100 Index call options to generate premium income and reduce the volatility of the Fund's returns, with the intent of improving the Fund's risk adjusted returns. There can be no assurance that the Fund will achieve its investment objective.

Symbol on NASDAQ	QQQX
Initial Offering Date	January 30, 2007
Yield on Closing Market Price as of June 30, 2009 (\$12.33)*	15.00%
Current Quarterly Distribution per share of Common Stock**	\$0.4625
Current Annualized Distribution per share of Common Stock**	\$1.85

* Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price as of June 30, 2009. Past performance does not guarantee future results.

** The distribution is not constant and is subject to change. A substantial portion of the distribution may be deemed a tax return of capital at fiscal year end.

The table below summarizes the changes in the Fund's market price and net asset value for the six-month period:

	6/30/09 (a)	12/31/08	Change (b)	High	Low

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Fund's own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1(a) of the Notes to Financial Statements.

The following table summarizes the inputs used as of June 30, 2009 in determining the fair valuation of the Fund's investments:

Valuation Inputs	Investments in Securities	Other Financial Instruments
Level 1	\$ 234,626,639	\$ (3,935,995)
Level 2		
Level 3		
Total	\$ 234,626,639	\$ (3,935,995)

Notes to Financial Statements (Unaudited)

Significant Accounting Policies:

NASDAQ Premium Income & Growth Fund Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Fund's financial statements are prepared in conformity with U.S. generally accepted accounting principles, which may require the use of management accruals and estimates. Actual results may differ from these estimates. These unaudited financial statements reflect all adjustments, which are, in the opinion of management, necessary to present a fair statement of the results for the interim period. All such adjustments are of a normal, recurring nature. The Fund determines and makes available for publication the net asset value of its Common Stock on the last business day of each week. The Fund's Common Stock shares are listed on the NASDAQ Stock Market LLC (NASDAQ) under the symbol QQXX.

Investing in the Fund involves certain risks and the Fund may not be able to achieve its intended results for a variety of reasons, including, among others, the possibility that the Fund may not be able to structure derivative investments as defined below as anticipated. Because the value of your investment in the Fund will fluctuate, there is a risk that you will lose money. The following is a summary of significant accounting policies followed by the Fund.

(a) Valuation of investments Equity securities that are held by the Fund that are traded on stock exchanges or the NASDAQ Global Market are valued at the last sale price or official close price on the exchange, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price for long positions, and at the last available asked price for short positions. In cases where equity securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by or under the authority of the Board of Directors of the Fund. Long positions traded in the over-the-counter (OTC) market, NASDAQ Capital Market or Bulletin Board are valued at the last available bid price or yield equivalent obtained from one or more dealers or pricing services approved by the Board of Directors of the Fund. Short positions traded in the OTC market are valued at the last available asked price. Portfolio securities that are traded both in the OTC market and on an exchange are valued according to the broadest and most representative market. Other investments are valued at market value.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the options market in which the options trade. Options traded in the OTC market are valued at the last asked price (options written) or the last bid price (options purchased). Swap agreements are valued based upon quoted fair valuations received daily by the Fund from a pricing service or counterparty. Financial futures contracts and options thereon, which are traded on exchanges, are valued at their last sale price as of the close of such exchanges. Obligations with remaining maturities of 60 days or less are valued at amortized cost unless the investment adviser believes that this method no longer produces valuations.

Repurchase agreements are valued at cost plus accrued interest. The Fund employs pricing services to provide certain securities prices for the Fund. Securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including valuations furnished by the pricing services retained by the Fund, which may use a matrix system for valuations. The procedures of a pricing service and its valuations are reviewed by the officers of the Fund under the general supervision of the Fund's Board of Directors. Such valuations and procedures will be reviewed periodically by the Board of Directors of the Fund.

Generally, trading in foreign securities, as well as U.S. government securities, money market instruments and certain fixed income securities, is substantially completed each day at various times prior to the close of business on the NASDAQ. The values of such securities used in computing the net asset value of the Fund's shares are determined as of such times. Foreign currency exchange rates will generally be determined as of the close of business on the NASDAQ. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NASDAQ that may not be reflected in the computation of the Fund's net asset value. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities may be valued at their fair value as determined in good faith by the Fund's Board of Directors or by the investment adviser using a pricing service and/or procedures approved by the Fund's Board of Directors.

(b) Real Estate Investment Trusts (REITs) A portion of distributions received from REITs may constitute a return of capital. During the year an amount, based upon prior experience and guidance from the REITs is reclassified from dividend income and recorded as an adjustment to basis of the

Notes to Financial Statements (continued)

REIT holdings. The adjustment is a reduction in basis and is reflected in either unrealized appreciation (depreciation) or realized gain (loss).

(c) Derivative financial instruments The Fund will engage in various portfolio investment strategies both to enhance its returns or as a proxy for a direct investment in securities underlying the Fund's index. Losses may arise due to changes in the value of the contract due to an unfavorable change in the price of the underlying security or index, or if the counterparty does not perform under the contract. The counterparty, for certain instruments, may pledge cash or securities as collateral.

Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No.161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement no.133 (FAS 161) has been implemented by the Fund. The Fund utilizes derivatives to enhance return and management has determined the use of derivative instruments is not designed to hedge security positions. The Fund's use of derivatives involves risks different from, and possibly greater than, the risks associated with investing directly in the investments underlying these derivatives.

Derivatives may be volatile and involve significant risk, such as, among other things, credit risk, currency risk, leverage risk and liquidity risk. They also involve the risk of mispricing or improper valuation and correlation risk (i.e., the risk that changes in the value of the derivative may not correlate perfectly, or to any degree, with the underlying asset, interest rate or index). Using derivatives can disproportionately increase losses and reduce opportunities for gains when security prices, indices, currency rates or interest rates are changing in unexpected ways. The Fund may suffer disproportionately heavy losses relative to the amount of its investments in derivative contracts.

Derivative instruments utilized by the Fund are defined below and delineated in the statement of assets, liabilities and capital and statement of operations of the Fund.

Statement of Assets, Liabilities and Capital as of June 30, 2009

**Derivatives not accounted for
as hedging instruments pursuant
to FASB Statement 133**

	Liabilities	Amount
Equity Options	Options written, at value	\$ 3,935,995

Statement of Operations for the six months ended June 30, 2009

**Derivatives not accounted for
as hedging instruments pursuant
to FASB Statement 133**

	Realized gain (loss)	Change in unrealized appreciation (depreciation)
Written Equity Options	\$ 394,098	\$ (2,216,937)

Options The Fund writes covered call options. When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. The Fund provides the purchaser with the right to potentially receive a cash payment from the Fund equal to any appreciation in the cash value of the index over the strike price on the expiration date of the written option. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received (or gain or loss to the extent the cost of the closing transaction exceeds the premium received). Written options are non-income producing

investments.

Notes to Financial Statements (continued)

Writing (selling) covered call options subjects the Fund to certain additional risks. The Fund, by writing covered call options, will forgo the opportunity to benefit from potential increases in the value of the equity investments above the exercise prices of the options, but will continue to bear the risk of declines in the value of the equity investments. The premiums received from the options may not be sufficient to offset any losses sustained from the volatility of the equity securities over time.

The premium received from writing options and amounts available for distribution from the Fund's options may decrease in declining interest rate environments. The value of the equity investments also may be influenced by changes in interest rates. Higher yielding equity investments and those issuers whose businesses are substantially affected by changes in interest rates may be particularly sensitive to interest rate risk. A summary of option transactions is found in Note 3, Investments.

(d) Income taxes It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its stockholders. Therefore, no federal income tax provision is required.

FRS Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) requires an analysis of tax positions taken or to be taken on a tax return and whether such positions are more likely than not to be sustained upon examination based on their technical merit. To the extent they would not be sustained, tax expense (and related interest and penalties) would be recognized for financial statement reporting purposes. Management has evaluated the application of FIN 48 to the Fund, and has determined that FIN 48 does not have a material impact on the Fund's financial statements. The Fund files U.S. and various state tax returns. To the best of the Fund's knowledge, no income tax returns are currently under examination. All tax years of the Fund are open at this time.

(e) Security transactions and investment income Security transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest is recognized on the accrual basis.

(f) Dividends and distributions Dividends and distributions paid by the Fund are recorded on the ex-dividend dates. For the current period ended June 30, 2009, Fund management believes it is likely total dividends and distributions may exceed net investment income and accumulated realized capital gains, resulting in a portion of the total distribution treated as a tax return of capital. A portion of the distributions paid by the Fund during the year ended December 31, 2008 was characterized as a tax return of capital.

(g) Bank overdraft The Fund recorded a bank overdraft, which resulted from management estimates of available cash.

2. Investment Advisory and Management Agreement and Transactions with Affiliates:

The Fund has entered into an Investment Advisory and Management Agreement with IQ Investment Advisors LLC (IQ Advisors), an indirect, wholly owned subsidiary of Merrill Lynch & Co., Inc. (ML & Co.), which is a wholly owned subsidiary of Bank of America Corporation (Bank of America). IQ Advisors is responsible for the investment advisory, management and administrative services to the Fund. In addition, IQ Advisors provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Fund. For such services, the Fund pays a monthly fee at an annual rate equal to .90% of the average daily value of the Fund's net assets plus borrowings for leverage and other investment purposes.

In addition, IQ Advisors has entered into a Subadvisory Agreement with Nuveen HydePark Group, LLC (Nuveen HydePark). Pursuant to the agreement, Nuveen HydePark provides certain investment advisory services to IQ Advisors with respect to the Fund. For such services, IQ Advisors pays Nuveen HydePark a monthly fee at an annual rate equal to .39% of the average daily value of the Fund's net assets plus borrowings for leverage and other investment purposes. There is no increase in aggregate fees paid by the Fund for these services.

Notes to Financial Statements (concluded)

IQ Advisors has entered into an Administration Agreement with Princeton Administrators, LLC (the Administrator). The Administration Agreement provides that IQ Advisors pays the Administrator a fee from its investment advisory fee at an annual rate equal to .12% of the average daily value of the Fund's net assets plus borrowings for leverage and other investment purposes, for the performance of administrative and other services necessary for the operation of the Fund. There is no increase in the aggregate fees paid by the Fund for these services. The Administrator is an indirect, wholly owned subsidiary of BlackRock, Inc. (BlackRock). ML & Co. has a substantial financial interest in BlackRock.

Certain officers of the Fund are officers and/or directors of IQ Advisors and/or ML & Co. or their affiliates.

3. Investments:

Purchases and sales of investments, excluding short-term securities, for the six months ended June 30, 2009 were \$0 and \$19,862,468, respectively.

Transactions in options written for the six months ended June 30, 2009 were as follows:

Options written	2,496	9,806,328
Options closed	(2,366)	(11,906,518)
Options expired	(134)	(372,252)
Outstanding call options written, at end of period	796	\$ 3,486,258

4. Common Stock Transactions:

The Fund is authorized to issue 100,000,000 shares of stock par value \$.001 per share, all of which are initially classified as Common Stock. The Board of Directors is authorized, however, to classify and reclassify any unissued shares of Common Stock without approval of the holders of Common Stock.

Shares issued and outstanding during the six months ended June 30, 2009 and the year ended December 31, 2008 remained constant.

5. Capital Loss Carryforward:

As of December 31, 2008, the Fund had a net capital loss carryforward of \$4,607,477, all of which expires in 2015. This amount will be available to offset like amounts of any future taxable gains.
