CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

In order to utilize the "Safe Harbor" provisions of the United States Private Securities Litigation Reform Act of 1995 (the "Reform Act"), Marconi plc (the "Company") is providing the following cautionary statement. Except for historical information contained herein, statements contained in this Report on Form 6-K may constitute "forward-looking statements" within the meaning of the Reform Act. The words "believe", "anticipate", "expect", "intend", "estimate", "plan", "assume", "positioned", "will", "may", "risk" and other similar expressions which are predictions of or indicate future events and future trends which do not relate to historical matters identify forward-looking statements.

Edgar Filing: MARCONI PLC - Form 6-K

Reliance should not be placed on such statements because they involve known and unknown risks, uncertainties and other factors which are in some cases beyond the control of the Company, together with its subsidiaries (the "Group"), and may cause the actual results, performance or achievements of the Group to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements (and from past results, performance or achievement). Certain factors that may cause such differences include but are not limited to the following: (1) any major disruption in production at our key facilities; (2) changes in the environmental, tax and other laws and regulations, which, among other things, could cause us to incur substantial additional capital expenditures and operation and maintenance costs; and (3) adverse changes in the markets for our products, including as a result of increased competition in the highly competitive international markets for such products. These and other risks, uncertainties and factors are discussed in the Company's Registration Statement on Form F-1 and other filings with the Securities and Exchange Commission, including this Form 6-K. Shareholders and prospective investors are cautioned not to place undue reliance on these forward-looking statements which speak only as to the Company's judgment as of the date hereof. Any such forward-looking statements are not intended to give any assurance as to future results. The Company undertakes no obligation to publicly update or revise any of these forward-looking statements, whether to reflect new information or future events or circumstances or otherwise.

MARCONI PLC RESTRUCTURING UPDATE

London, December 4, 2002 - Following Marconi's announcement on 21 November 2002 on progress towards its financial restructuring (the Restructuring), Marconi's Board has now finalised a set of revised proposals with a coordinating committee of syndicate banks and an informal ad-hoc committee of bondholders which will allow the Restructuring to be formally documented and launched. These revised proposals were submitted to the full bank syndicate earlier today.

As a result of these developments, Marconi will delay the publication of its interim results until it makes a full announcement regarding the Restructuring. The Company expects to make such an announcement shortly and confirms that its interim trading results remain consistent with the updates published at the end of the first and second quarters.

Marconi still expects to complete the Restructuring in line with the terms announced in August, including the initial cash distribution of GBP260 million to creditors, of which GBP95 million has already been paid in the form of interest payments.

Marconi's Board continues to believe that the proposed restructuring is in the best interests of Marconi, and its stakeholders as a whole. The Board expects that it will continue to receive the support of both the syndicate banks and the informal ad-hoc committee of bondholders.

ENDS/...

About Marconi plc

Marconi plc is a global telecommunications equipment and solutions company headquartered in London. The company's core business is the provision of innovative and reliable optical networks, broadband routing and switching and broadband access technologies and services.
