SEMICONDUCTOR MANUFACTURING INTERNATIONAL CORPORATION

(Incorporated in the Cayman Islands with limited liability)

(STOCK CODE: 0981)

ISSUANCE AND REPURCHASE OF SHARES UNDER

SHARE OPTION PLANS OF THE COMPANY

Semiconductor Manufacturing International Corporation (the **Company**) has from time to time received enquiries from investors and other interested parties as to fluctuations in the Company's then outstanding share capital, which result from the issuances and repurchases of shares pursuant to certain share option plans operated by the Company.

The Company would like to assist investors and other interested parties in understanding share fluctuations in the Company's share capital and is therefore making this announcement to outline relevant aspects of the operation of share option plans which result in such fluctuations.

In order to further assist investors in understanding the effect on the Company's share capital of the share option plans and to give an illustration of the frequency and level of materiality of such share fluctuations, the Company also sets out below share issuances and repurchases made by the Company pursuant to such share option plans.

INTRODUCTION

The Company has from time to time received enquiries from investors and other interested parties as to fluctuations in the Company's share capital, which result from the issuances and repurchases of shares pursuant to certain share option schemes operated by the Company, namely the 2001 Stock Plan, 2001 Regulation S Stock Plan, 2001 Preference Shares Stock Plan, 2001 Regulation S Preference Shares Stock Plan and the 2004 Stock Option Plan (which have been approved by the Company's shareholders in general meeting and principal provisions of which were summarised in the Company's prospectus dated 8 March 2004) (together, the **SOP**).

The Company would like to assist investors and other interested parties in understanding such SOP-related share fluctuations and is therefore making this announcement to outline relevant aspects of the operation of the SOP which result in such fluctuations in the Company's share capital.

Edgar Filing: SEMICONDUCTOR MANUFACTURING INTERNATIONAL CORP - Form 6-K

In order to further assist investors in understanding the effect on the Company's share capital of the SOP and to give an illustration of the frequency and level of materiality of such SOP-related share fluctuations, the Company also sets out below share issuances and repurchases made by the Company pursuant to the SOP since 12 March 2004.

SHARE ISSUANCES AND REPURCHASE PURSUANT TO THE SOP

As described in the Company's prospectus dated 8 March 2004, pursuant to the SOP, certain eligible participants are granted options to acquire shares in the Company. These options vest as to a certain number of shares over certain intervals of time. Options which have vested may be exercised and upon the exercise of such vested options pursuant to the terms of the relevant SOP, the Company will issue to the relevant optionee the number of shares as to which the option is vested and exercised.

In some cases where the terms of the options granted so allow, optionees are entitled under the rules of the relevant SOP to exercise such options granted to them and be issued shares pursuant to such exercise even though the options have not yet vested (this is referred to as **early exercise**). In accordance with the terms of the relevant SOP, upon the termination of service of such optionees with the Company, any shares which have been issued to such optionees pursuant to an early exercise may not be retained by them and may be returned to the Company by way of transfer by the relevant departing optionee to the Company, immediately after which they will be cancelled (**Repurchase of Unvested Shares**).

The Company's share capital will fluctuate depending upon the exercise of options or the Repurchase of Unvested Shares in accordance with the SOP. If any optionee exercises the vested portion of an option, the Company's share capital will increase by the number of vested shares underlying such option. Upon a Repurchase of Unvested Shares, the Company's share capital will be reduced by the number of shares repurchased by the Company.

As at 19 November 2004, the Company has granted an aggregate of 902,503,390 outstanding options pursuant to the SOP to approximately 7,570 optionees. Options are exercised by such optionees at different points in time at the discretion of each individual optionee (subject, of course, to the terms of the relevant share option scheme). Therefore, share issues may be made by the Company pursuant to the exercise of options frequently from time to time. Further, termination of service of optionees with the Company occur from time to time, and many such instances may involve Repurchase of Unvested Shares.

ILLUSTRATION OF THE ISSUANCE AND REPURCHASE OF SHARES PREVIOUSLY MADE BY THE COMPANY PURSUANT TO THE SOP

The following table sets out the share issuances made by the Company pursuant to the exercise of options granted under the SOP for the periods stated:

<u>Period</u>	<u>Number of shares issued pursuant to exercise of options</u>	<u>As % of total issued share capital as of 19 November 2004*</u>
3/18/04-5/18/04	0	0%
5/19/04-7/18/04	0	0%
7/19/04-9/19/04	3,019,570	0.0166%
9/20/04-11/19/2004	6,936,379	0.0380%
Total number of shares issued between 18 March 2004 and 19 November 2004	9,955,949	0.0546%

Edgar Filing: SEMICONDUCTOR MANUFACTURING INTERNATIONAL CORP - Form 6-K

* being 18,233,166,799 ordinary shares in issue as of 19 November, 2004

The following table sets out the Repurchases of Unvested Shares made by the Company pursuant to the SOP. These Repurchases of Unvested Shares are made by private arrangement and not on or through The Stock Exchange of Hong Kong Limited (the Exchange) or any other stock exchange. The purchase price paid by the Company for each Repurchase of Unvested Share is the lower of the exercise price, calculated pursuant to the terms of the relevant SOP, at which optionees early exercised their options and the fair market value of the shares on the date of repurchase. Accordingly, as the Company may have on a particular repurchase date repurchased unvested shares from several departing optionees who had early exercised their options at different exercise prices, there may be a range of prices at which the Company repurchased unvested shares on a particular repurchase date. Further, the purchase price(s) on a particular repurchase date may therefore differ from the market price of the Company's shares on that date.

Repurchase date	Number of shares purchased	Price per share or highest price paid per share	Lowest price paid per share	Purchase price	As % of total issued share capital as of 19 November 2004*
		HK\$	HK\$	HK\$	
12/03/2004	210,000	0.8657		181,797	0.00115%

31/10/2004	725,000	0.8657		627,632.50	0.00398%
18/11/2004	365,000	0.8657		315,980.50	0.00200%
Total number of shares repurchased between 12 March and 19 November 2004	8,522,500			6,374,769.25	0.04674%

* being 18,233,166,799 ordinary shares in issue as of 19 November, 2004

The above share issuances and repurchases have been reported to the Exchange pursuant to the Company's Monthly Returns of Movement of Listed Equity Securities submitted to the Exchange rather than strictly pursuant to Rule 13.31 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. The Exchange is currently looking into the matter.

In summary, the net number of shares issued (that is, total number of shares issued less Repurchases of Unvested Shares) pursuant to the SOP between 12 March and 19 November 2004 was 1,433,449 shares, representing approximately 0.007862% of the total issued share capital as of 19 November 2004.
