As previously announced on August 31, 2006, Wind River Systems, Inc. (the Company) commenced a voluntary review of its historical stock option granting practices and the related accounting during the second quarter of fiscal 2007. The Audit Committee of Wind River's Board of Directors (the Audit Committee), comprised of three independent board members, is leading the review. At this time, the review has not been completed, is ongoing, and the Audit Committee has not reached any final conclusions. Because the Audit Committee has not reached a final conclusion, the Company is not able to file its Quarterly Report on Form 10-Q (Form 10-Q) by the September 11, 2006 prescribed due date.

As of the date of this filing, the Audit Committee is in the process of reviewing and analyzing the findings regarding the measurement date for certain stock option grants made by the Company and is evaluating the measurement dates used for accounting purposes for these certain grants. The Audit Committee has not yet concluded whether the accounting measurement dates used for such grants are correct, nor has it concluded whether differences, if any are determined to exist, would result in material non-cash compensation and related charges. If the measurement dates used for these grants are incorrect, and if the impact of these differences should be determined to result in material non-cash compensation and related charges, the Company would be required to evaluate the impact on its previously issued consolidated financial statements and its evaluations of internal control over financial reporting.

The Company is committed to resolving these issues as quickly as possible and plans to file its Form 10-Q for the second quarter of fiscal 2007 and any restated financial statements, if required, as soon as practicable following the conclusion of the Audit Committee's review.

This Form 12b-25 contains forward-looking statements regarding the Company's ability to file its Form 10-Q on or before the fifth calendar day following the prescribed due date and whether the Company anticipates making any significant change to its results of operations from the corresponding prior period. Because the Audit Committee has not completed its review of the Company's historical stock option granting practices and the related accounting, the Company cannot provide any assurance that its Form 10-Q will be filed within the fifth day following the prescribed due date for the Form 10-Q or whether there will be any significant change to its results of operations from the corresponding prior period.
