**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

International Truck and Engine Corporation:

We have audited the accompanying statements of net assets available for benefits of the International Truck and Engine Corporation 401(k) Plan for Represented Employees (the Plan ) as of December 31, 2006 and 2005, and the related statement of changes in net assets available for benefits for the year ended December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for benefits for the year ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2006, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As discussed in note B, the Plan adopted Financial Accounting Standards Board Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans*, as of December 31, 2006 and 2005.

**International Truck and Engine Corporation**

**401(k) Plan for Represented Employees**

**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2006 and 2005**

**NOTE A - DESCRIPTION OF THE PLAN**

The following description of the International Truck and Engine Corporation 401(k) Plan for Represented Employees (the *Plan*) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

***General***

The Plan is sponsored by International Truck and Engine Corporation (the *Company*) to provide savings and retirement benefits for certain eligible represented employees of the Company and of certain affiliates participating under the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (*ERISA*), as amended.

***Eligibility***

The Plan is offered to eligible Company employees who are represented by a labor organization under a collective bargaining agreement who have met certain seniority or service requirements under the terms of the respective bargaining agreements. The Plan was established on October 1, 1991.

***Contributions***

Participant contributions may be made to the Plan only on a pretax basis and are subject to annual maximum limits equal to the lesser of 25% of the participant's eligible compensation or a prescribed Internal Revenue Service dollar amount. In addition, for 2006 and 2005, those participants who were age 50 or over during the Plan year were permitted to contribute additional amounts on a pretax basis. Subject to Company approval, certain eligible employees are allowed to make rollover contributions to the Plan if such contributions satisfy applicable regulations. Such employees are not required to be participants for any other purpose than their rollover account; however, no pretax salary reduction contributions may be made until such time as such employee would otherwise become eligible to and does elect participation in the Plan. Participant salary reduction contributions and rollover contributions are fully vested immediately.

For the 2006 and 2005 Plan years, certain collective bargaining agreements provide for an employer retirement contribution. This contribution is employer-provided and is allocated among eligible members of the applicable bargaining unit based on the participant's age at year-end and eligible compensation. Certain collective bargaining agreements also provide for an employer matching contribution of 25% of the first 6% of eligible compensation deferred by the participant.

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2006 and 2005**

**NOTE A - DESCRIPTION OF THE PLAN - Continued**

*Contributions - Continued*

The employer retirement and matching contributions credited to an eligible participant's account are subject to one of three vesting schedules, depending upon the collective bargaining agreement. Non-vested contributions are forfeited when a participant retires or terminates service. Such forfeitures are used to offset future Company contributions. At December 31, 2006 and 2005, forfeited non-vested accounts totaled \$106,898 and \$71,625, respectively. For the Plan year ended December 31, 2006, no forfeitures were used to offset Company contributions.

*Investment Options*

Participants direct the investment of their account balances and future contributions. Investment options during 2006 and 2005 consisted of funds classified as mutual funds, commingled funds, separate accounts or Navistar International Corporation ( Navistar ) common stock.

*Participant Accounts*

Individual accounts are maintained for each Plan participant. Contributions and assets allocated to a specific investment fund are commingled with those of other participants and are invested in accordance with the nature of the specific fund. Realized and unrealized appreciation and depreciation, dividends and interest are allocated to participants based on their proportionate share of the funds. Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option. All other administrative costs related to the Plan are paid directly by the Company.

*Participant Loans*

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of 50% of their total account balance or \$50,000. Loan transactions are treated as a transfer between the applicable investment funds and the loan fund. Loan terms range from one to five years, with the exception of loans made for the purchase of a principal residence, which may be repaid in installments over a period of up to ten years. The loans are secured by the balance in the participant's account and bear interest at a rate based on the yield on Federal government securities of equivalent maturity plus two percentage points for loans made before April 1, 1997, and at a rate equal to prime plus one percentage point for loans made on or after April 1, 1997.

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2006 and 2005**

**NOTE A - DESCRIPTION OF THE PLAN - Continued**

*Payment of Benefits*

Participants may request either an in-service or hardship withdrawal of certain of their account assets. Participants may only withdraw authorized pretax salary reduction contributions after attaining age 59-<sup>1</sup>/<sub>2</sub>, or on a hardship basis prior to attaining age 59-<sup>1</sup>/<sub>2</sub>. The employer retirement contributions, matching contributions and investment earnings thereon are not eligible for in-service withdrawal. The amount of any withdrawal, distribution or loan is first charged against the participant's interest in Plan investments other than the Navistar Stock Fund on a pro rata basis. Any subsequent distributions of an account invested in the Navistar Stock Fund will be made in the form of Navistar common stock.

*Vesting*

Participants vest in employer contributions in accordance with the vesting schedule set forth by the participant's respective collective bargaining agreement. A participant's vested account is distributable at the time a participant separates from service with the Company, suffers a total and permanent disability or dies. When the participant terminates employment, the vested portion of the account will be distributed if the asset value is \$1,000 or less. If the asset value is more than \$1,000 but not more than \$5,000, and the participant has not elected to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover, or to receive the distribution directly in accordance with the provisions of the Plan, then the Plan will pay the distribution in a direct rollover to an individual retirement plan as designated by the Plan. If the asset value is more than \$5,000, the participant has the option of receiving the account upon separation or deferring receipt until no later than age 65. Accounts are distributed in a single sum.

**NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Basis of Presentation*

The financial statements of the Plan are presented on the accrual basis of accounting.

**December 31, 2006 and 2005**

**NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

*Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust that is part of the International Truck and Engine Corporation Defined Contribution Plans Master Trust (the Master Trust). As required by the FSP, the statements of net assets available for benefits present the proportionate share of the fair value of the investment held by the Master Trust as well as the adjustment of the investment in the Master Trust from fair value to contract value relating to investment contracts. The statement of changes in net assets available for benefits is prepared on a contract-value basis. The FSP was adopted during the 2006 Plan year and was retrospectively applied to the statement of net assets available for benefits for December 31, 2005.

*Risks and Uncertainties*

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

*Investment Valuation and Income Recognition*

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

**International Truck and Engine Corporation**

**401(k) Plan for Represented Employees**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2006 and 2005**

**NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

*Investment Valuation and Income Recognition - Continued*

The investments held by the Master Trust are valued as follows:

Shares of mutual funds and common stock are valued at the net asset value of shares held at year-end. The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end. The fair value of the wrap contract for one of the collective trusts is determined using the market approach discounting methodology, which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated swap rate as of period end.

Participant loans are valued at their outstanding balances, which approximate market value. Security transactions are accounted for on the trade-date basis. Dividend income is accrued on the ex-dividend date.

*Participant Withdrawals*

As of December 31, 2006 and 2005, there were no benefits that were due to former participants who have withdrawn from participation in the Plan. Benefits are recorded when paid.

*Administrative Fees*

Most administrative expenses of the Plan are paid by the Company.

**NOTE C - MASTER TRUST**

All of the Plan's investment assets are held in a trust account at JPMorgan Chase Bank (the Trustee) and consist of a divided interest in an investment account of the Master Trust, a master trust established by the Company and administered by the Trustee. Use of the Master Trust permits the commingling of Plan assets with the assets of other defined contribution plans sponsored by the Company and its affiliated companies for investment and administrative purposes. Although assets of all plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

**NOTE D - CONTINGENCY**

The Company failed to file its financial results for fiscal year 2005 with the Securities and Exchange Commission on a timely basis. Because of the delay and until such results are filed, participants were not allowed to acquire additional shares of Navistar common stock through the 401(k) plans. However, participants were allowed to sell shares of Navistar common stock if they elected to do so. The Company intends to file its annual report (Form 10-K) as soon as possible, but cannot estimate a date at this time. The suspension of participants' ability to purchase shares of Navistar common stock should have been effective March 1, 2006, but the restriction was not placed into effect until April 6, 2006. Accordingly, participants who may have purchased Navistar common stock during the period March 1, 2006 through April 6, 2006, have been notified by letter that there will be a rescission offer extended to them and that they are not required to take any action with respect to the Navistar common stock at this time. Participants will be notified by Navistar at the time it conducts its rescission offer. There were 560 participants who collectively purchased approximately 25,500 shares of Navistar common stock at a total cost of approximately \$725,000 during the period March 1, 2006 through April 6, 2006, and who will be notified by Navistar of the rescission offer when it is ready to be extended.

**401(k) Plan for Represented Employees**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2006 and 2005**

**NOTE E - TAX STATUS OF THE PLAN**

The Plan obtained its latest determination letter dated September 17, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ( IRC ). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that, in all material respects, the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan s financial statements.

**NOTE F - TERMINATION OF THE PLAN**

Although the Company expects to continue the Plan indefinitely, the Company, at its discretion, reserves the right to amend, modify, suspend or terminate the Plan, provided that no such action shall deprive any person of any rights to contributions made under the Plan. If the Plan is terminated, the interest of each participant in the funds will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and ERISA. If the Plan is terminated, Plan participants will become fully vested in any funds allocated to them.

**NOTE G - RELATED-PARTY TRANSACTIONS**

Certain Master Trust investments are shares of mutual funds managed by JPMorgan. JPMorgan Retirement Plan Services is the record keeper as defined by the Master Trust and, therefore, these transactions qualify as party-in-interest transactions. Also qualifying as party-in-interest transactions are transactions relating to participant loans and Navistar common stock. Fees paid by the Plan for investment management services are computed as a basis point reduction of the return earned on each investment option, and are included in net earnings of the Master Trust.
