NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the subsidiaries mentioned in Note 1 a., have been prepared on a consistent basis with those applied by the Company. The Note 1 to the Unaudited Basic Financial Statements details the most significant accounting policies. Below are the most relevant accounting policies adopted by the subsidiaries, which are not included in that note.

In addition to the description in the Unaudited Basic Financial Statements:

a. Revenue recognition

Revenues from admission rights, leases and services

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of (i) a monthly base rent (the Base Rent) and (ii) a specified percentage of the tenant s monthly gross retail revenues (the Percentage Rent) (which generally ranges between 4% and 10% of tenant s gross revenues).

Furthermore, pursuant to the rent escalation clause in most leases, a tenant s Base Rent generally increases between 7% and 12% each year during the term of the lease. Minimum rental income is recognized on the accrued criteria.

Certain lease agreements contain provisions, which provide for rents based on a percentage of revenues or based on a percentage of revenues volume above a specified threshold. APSA determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, APSA s lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six-months, upon not less than 60 days written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease.

Additionally, APSA charges its tenants a monthly administration fee related to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations. The administration fee is prorated among the tenants according to their leases, which varies from shopping center to shopping center. Administration fees are recognized monthly when earned.

In addition to rent, tenants are generally charged admission rights, a non-refundable admission fee that tenants may be required to pay upon entering into a lease or upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized using the straight-line method over the life of the respective lease agreements.

Lease agent operations

Fibesa S.A., company in which Alto Palermo S.A. has shares of 99.99996%, acts as the leasing agent for APSA bringing together the Company and potential lessees for the retail space available in certain of the APSA's shopping centers. Fibesa S.A.'s revenues are derived primarily from collected commissions calculated as a percentage of the final rental income value and admission rights. Revenues are recognized at the time that the transaction is successfully concluded.

Consumer Financing operations

Revenues derived from credit card transactions consist of commissions and financing income, charges to clients for life and disability insurance and for statements of account, among other. NOTE 20: NATIONAL PARKS ADMINISTRATION DISPUTE

- Provision for unexpired claims against Llao Llao Holding S.A.

The Company Llao Llao Holding S.A. (LLH) (in liquidation process following the merger with and into the Company), predecessor of Llao Llao Resorts S.A. (LLR) as operator of the Llao Llao Hotel, was sued in 1997 by the National Parks Administration seeking collection of the unpaid balance of the additional sale price, in Argentine External Debt Bond (EDB) amounting to US\$ 2.9 million. A ruling of the court of original jurisdiction sustained the claim. That ruling was appealed, and the Court of Appeals confirmed the judgment of the court of original jurisdiction, demanding payment from the company of US\$ 3.8 million, plus interest accrued through payment, penalties and attorney's fees. In March 2004, LLH paid Ps. 9,156 in cash and EDB.

The plaintiff requested the court of original jurisdiction to initiate an incidental procedure for execution of sentence by performing a settlement through the Ministry of Economy, the procedure having being questioned by LLR. In view of the fact that the information provided was not sufficient to evaluate the amount settled by the Ministry of Economy, it was requested that the execution be suspended until there is a sentence on the complaint recourse filed with the National Supreme Court for the denial of the extraordinary recourse soliciting that the debt be converted to pesos.

On July 2008 the Court of Appeal notified LLR that by means of a resolution dated June 18, 2008 it had confirmed the settlement approved by the court of original jurisdiction.

On March 17, 2009, the National Supreme Court admitted the incidental procedure and decided to suspend the enforcement of the judgment in so far as the extraordinary appeal lodged by LLR is not resolved.

On February 23, 2010, the Supreme Court of Justice dismissed the action, which rendered the judgment final and compelled LLR to pay the amount calculated by the State. On April 2010, LLR paid Ps. 13,122 in cash and bonds.

After LLR's filing was duly notified to the plaintiff, the latter in turn stated that the amounts deposited were in line with the settlement that, having taken place on June 30, 2007, was eventually approved in the framework of these proceedings on December 5, 2007. As a result, the Argentine Agency of National Parks argued that the interest accrued until actual payment were to be adjusted by application of the Argentine Central Bank's borrowing interest rate. As estimated by the Argentine Agency of National Parks, the outstanding balance, to be deposited by LLR would amount to US\$ 659.

NOTE 20: (Continued)

On June 10, 2010, LLR was notified of the newly-performed settlement: LLR filed an objection against it in due time and manner. On June 17, 2010, the court ordered that the plaintiff was to be served notice of the objection.

On August 6, 2010, the plaintiff filed a response to the most recent service of process. On September 10, 2010, the trial court judge resolved that the amount deposited by Llao Llao Resorts S.A. is not sufficient to cover the amount of the payment order. An appeal against this resolution was filed on behalf of Llao Llao Resorts S.A. alleging that there has been a material error incurred by the trial court.

In addition, on September 22, 2010, the judge calculated that the fees payable to the auctioneer who took part in the proceedings amount to Ps. 1.8 million. As soon as Llao Llao Resorts S.A. is officially notified of the fees as calculated by the court, it is going to lodge an appeal against them for considering them excessively high.

Based on the information provided by the legal advisors litigating these proceedings, LLR has booked Ps. 2,608 under Other current liabilities Payables to National Parks Administration, that is, the amount in Pesos equivalent to the interest claimed by the plaintiff.

(Indarsa) to Puerto Retiro S.A. Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro S.A. to sell or dispose in any manner the acquired real estate property from Tandanor S.A. in June 1993.

Indarsa had acquired 90% of the capital stock of Tandanor S.A. to a formerly estate owned company privatized in 1991, engaged in the shipyard industry.

Indarsa did not comply with the payment of the outstanding price for the acquisition of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa, pursuing to extend the bankruptcy to Puerto Retiro S.A.

The evidence steps of the legal procedures have been completed. Puerto Retiro S.A. appealed the precautionary measure, being the same confirmed by the Court on December 14, 2000. The parties have submitted their claims in due time. The

file was passed for the judge to issue a pronouncement, this being a decree adjourning the summoning of decisions to pronouncement in the understanding that there exists pre-judgment in respect of the penal cause filed against ex-officers of the Ministry of Defense and ex-directors of the Company. Consequently, the matter will not be solved until there is final judgment in penal jurisdiction.

The Management and legal advisors of Puerto Retiro S.A. estimate that there are legal and technical issues sufficient to consider that the request for bankruptcy will be denied by the court. However, taking the circumstances into account and the progress of the legal action, this position cannot be considered final.

(ii) Loan of Hoteles Argentinos S.A.

In March 2005, Credit Suisse First Boston (CSFB) acquired a loan for US\$ 11.1 million of Hoteles Argentinos S.A. (HASA), which had been in non-compliance since January 2002. As a guarantee for this transaction, the Company entered into a put option agreement with Standard Bank whereby the Bank receives the right to sell to the Company, which in turn agrees to purchase, 80% of the credit rights arising from the loan in the event of HASA defaulted the loan.

1. Creation of CYRSA-Horizons Project.

In January 2007, the Company acquired two adjacent plots of land located in Vicente López, Province of Buenos Aires (one of them, through the purchase of Rummaala S.A., which was the owner of that plot of land and currently is merged with CYRSA S.A.). The purchase price was US\$ 36.2 million of which US\$ 30.3 million will be cancelled by handing over certain units of the building to be constructed. As security for this obligation a pledge was constituted over the shares of Rummaala S.A. and a mortgage was constituted over the Company's building Suipacha 652.

In April 2007, the Company constituted CYRSA S.A. (CYRSA) and in August 2007, CYRELA was incorporated with the ownership of 50% of CYRSA capital stock. The Company contributed the plots of land and the related liability in kind for a net value of Ps. 21,495 and CYRELA contributed Ps. 21,495 in cash.

Then, a major real estate development known as Horizons was launched on the two plots of land mentioned.

From May 2008, CYRSA continued the marketing process of the building units to be constructed on the plot referred to above. Certain clients had made advances by means of signing preliminary sales contracts, reaching to the date 100% of the units to be marketed, which are disclosed in Customer advances.

The sale price set forth in these preliminary sales contracts consist of a fixed and determined portion and another portion to be determined in line with the future construction expenses.

The buyer can choose from the following purchase plans:

- The balance is cancelled in installments and is fully paid at the time of transfer and signature of deeds.

- Partial cancellation will be on installments payable up to the time of transfer / signatures of deeds, the remaining balance to be financed during 90 months' term with units having mortgaged guarantees.

Through preliminary sales agreements, CYRSA has committed to transfer the functional units before February 2011 to the latest.

As of September 30, 2010, the percentage of completion of the Horizons project was 86.98% considering the cost incurred in relation to the total estimated project costs.

2. Acquisition of Hersha Hospitality Trust (Hersha)

On August 4, 2009, the Company, through Real Estate Investment Group L.P. (REIG) acquired 5,700,000 million shares representing approximately 10.4% of Hersha's common stock and a call option that matures on August 4, 2014 to purchase an additional 5,700,000 million shares at an exercise price of US\$ 3.00 per share. Under the agreement, if starting on August 4, 2011 the quoted market price of Hersha's share were to exceed US\$ 5.00 per share during 20 consecutive trading sessions, Hersha may settle the call option by issuing and delivering a variable amount of shares to be determined in accordance with certain market values.

The total purchase price paid was US\$ 14.3 million. As part of the agreement, the Company's Chairman and CEO, Mr. Eduardo S. Elsztain, has been appointed to Hersha's Board of Trustees.

In January 2010 and March 2010, REIG purchased 8,653,917 additional shares of Hersha's common stock, for an aggregate purchase price of US\$ 30.8 million (4,769,917 shares at US\$ 3.00 and 3,864,000 at US\$ 4.25 per share, respectively).

As of September 30, 2010 the Company's interest in Hersha amounts to 10.85%. If the call option was exercised and the Company's interest was not diluted due to newly issued shares, the Company's interest in Hersha would be 14.34%. The Company accounts for its investment in Hersha at cost while the call option has been accounted for its fair value.(see note 26.1).

Hersha is a Real Estate Investment Trust (REIT) listed in the New York Stock Exchange (NYSE) under the HT symbol that holds majority interests in 77 hotels throughout the United States of America totaling approximately 9,951 rooms. These properties are operated under franchises that are leaders and enjoy widespread recognition in their markets, such as Marriot International, Intercontinental Hotel Group, Starwood Hotels, Hilton Hotels Corporation, Global Hyatt Corporation and Choice Hotels International.

3. Acquisition of Metropolitan

In July 2008, the Company (through its subsidiaries) acquired a 30% interest in Metropolitan 885 Third Ave. LLC (Metropolitan), a Delaware-based limited liability company, which main asset is a rental office building in New York City known as the Lipstick Building and debt related to that asset. The transaction included the acquisition of (i) a put right exercisable until July 2011 to sell a 50% of the interest acquired at the same value paid plus interest at 4.5% per annum and (ii) a right of first offer to acquire a 60% portion of the 5% interest of the shareholding. The total price paid was US\$ 22.6 million.

During 2009 and in the context of the financial crisis and shrinkage of the real estate market in New York, Metropolitan incurred significant losses, which resulted in negative equity mainly due to an impairment recognized in connection with the building. Since the Company's share in Metropolitan's losses exceeded its equity interest; the Company recognized a zero value on its investment although a liability of US\$ 1.5 million was booked under other liabilities, representing the Company's maximum commitment to fund Metropolitan's operations.

In addition, the put right has been adjusted to its value of US\$ 12.5 million as of September 30, 2010 in non-current other receivables.

To facilitate discussions in the framework of a debt renegotiation between Metropolitan 885 Third Ave. LLC once the Royal Bank of Canada, on August 4, 2010, the Company, through a subsidiary, entered into an Escrow Agreement with Fidelity National Title, Insurance Company, and transferred US\$ 15 million as a non-mandatory, good-faith deposit for the sole purpose of allowing discussions between the parties to move forward. The Company has reserved the right to extend the term of the agreement for an indefinite period at its sole criterion.

(Grupo Telecom Italia) in Sofora Telecomunicaciones S.A. NOTE 1: ACCOUNTING STANDARDS

Below are the most relevant accounting standards used by the Company to prepare these unaudited financial statements:

1.1. Preparation and presentation of financial statements

These unaudited financial statements are stated in thousands of Argentine pesos and were prepared in accordance with disclosure and valuation criteria contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas, approved with certain amendments by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires, in accordance with the resolutions issued by the National Securities Commission.

The Company's results for the three-month periods ended September 30, 2010 and 2009 have not been audited. The Company's management estimates that they include all the adjustments necessary to present fairly the results for each period.

The Company's three-month periods results do not necessarily reflect the proportion of the Company's full-year results.

1.2. Use of estimates

The preparation for financial statements requires the Company's Management, at a specific date, to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses for the period. The Company's Management makes estimations to calculate, for example, the allowance for doubtful accounts, depreciation and amortization, the impairment of long-lived assets, income taxes, contingencies allowances, fair value of assets acquired in a business combination, the fulfillment of certain conditions for valuation of inventories to its net realizable value and fair value of transaction of exchanges (barter). Future actual results could differ from the estimates and assumptions made at the date of these financial statements.

1.3. Recognition of the effects of inflation

The financial statements have been prepared in constant Argentine Pesos, reflecting the overall effects of inflation through August 31, 1995. From that date and until December 31, 2001 the Company discontinued the restatement of the financial statements due to a period of monetary stability. From January 1, 2002 up to February 28, 2003 the effects of inflation were recognized due to the existence of an inflationary period. As from that date, the restatement of the financial statements was discontinued.

NOTE 1: (Continued)

1.3. (Continued)

This criterion is not in line with current professional accounting standards, which establish that the financial statements should have been restated through September 30, 2003. However, due to the low level of inflation rates during the period from March to September 2003, this deviation has not had a material effect on the financial statements taken as a whole.

The rate used for restatement of items in these unaudited financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

1.4. Comparative information

Balances items as of June 30, 2010 shown in these unaudited financial statements for comparative purposes arise from audited annual financial statements for the year then ended.

Balances of the three-month period ended September 30, 2010 of the unaudited income, shareholders' equity and cash flow statements are shown for comparative purpose with the same period of the previous fiscal year.

The financial statements as of June 30, 2010 and September 30, 2009 originally issued have been subject to certain reclassifications required in order to present these figures comparatively with this period.

1.5. Significant accounting policies

a. Cash and banks

Cash on hand has been valued at face value.

b. Foreign currency assets and liabilities

Foreign currency assets and liabilities were valued at each period/year end exchange rates.

Operations denominated in foreign currency are converted into pesos at the exchange rates in effect at the date of settlement of the operation.

NOTE 1: (Continued)

1.5. (Continued)

c. Current investments

Current investments in debt securities and mutual funds were valued at their net realizable value.

d. Accounts receivable, net and trade accounts payable

Accounts receivable, net and trade accounts payable have been valued at nominal value. Values obtained by this do not differ significantly from those that had been valued at the estimated price applicable to spot operations at the time of the transaction plus interest and implicit financial components accrued at the internal rate of return determined at that moment.

e. Financial receivables and payables

Financial receivables and payables have been valued at nominal value plus accrued interest at the end of the period/year. Values obtained by this do not differ significantly from those that had been valued at the amount deposited and collected, respectively, net of the cost of the transaction, plus financial results accrued based on the internal rate of return estimated at the time of initial recognition.

f. Other receivables and liabilities

Other receivables and other liabilities have been valued at face value plus the financial results accrued at the closing of the corresponding period/year. The figures thus obtained are not significantly different from those that would have been obtained if valued on the basis of the best possible estimate of the amounts receivable and payable, respectively, discounted by application of a rate that reflects the time value of money and the specific risks inherent in the transaction as estimated at the time of recognizing the item in assets and liabilities, respectively.

Certain receivables and liabilities disclosed under other non-current receivables and liabilities, were valued based on the best estimate of the amount receivable and payable, respectively, discounted at an interest rate that reflect the value-time of money and the estimate specific transaction risks at the time of incorporation to assets and liabilities, respectively.

f. (Continued)

As established by the regulations of the accounting professional standards, deferred tax assets and liabilities and minimum presumed income tax (MPIT) have not been discounted.

g. Balances corresponding to financial transactions and sundry receivables and payables with related parties

Receivables and payables with related parties generated by financial transactions and other sundry transactions were valued in accordance with the terms agreed by the parties.

h. Inventories

A property is classified as inventories upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business over the next several years.

Properties classified as inventories have been valued at acquisition or construction cost restated as mentioned in Note 1.3. or estimated market value, whichever is lower. Costs include land and land improvements, direct construction costs, construction overhead costs, financial costs and real estate taxes.

Inventories on which advance payments that establish price have been received, and the operation's contract terms and conditions assure that the sale will be effectively accomplished and that the income will be realized, are valued at its net realizable value. Profits arising from such valuation are shown in the "Gain from recognition of inventories at net realizable value" caption of the Statements of Income.

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

Banco Hipotecario S.A. and Banco de Crédito y Securitización S.A.:

The financial statements of Banco Hipotecario S.A. and Banco de Crédito y Securitización S.A. are prepared in accordance with the Central Bank of the Argentine Republic (BCRA) standards. Undeveloped parcels of lands:

The Company acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. The Company s strategy for land acquisition and development is dictated by specific market conditions where the Company conducts its operations.

Land and land improvements are transferred to inventories or fixed assets when construction commences or their trade is decided.

Depreciation was computed under the straight-line method over the estimated useful lives of each asset applying annual rates in order to extinguish their values at the end of its useful life.

The Company has allowances for impairment of certain rental properties as disclosed in Exhibit A. Increases and decreases of such allowances are disclosed in Exhibit E.

Significant renewals and improvements, which improve or extend the useful life of the asset are capitalized and depreciated over its estimated remaining useful life. At the time depreciable assets are retired or otherwise disposed of, the cost and the accumulated depreciation of the assets are eliminated from the accounts and the resulting gain or loss is disclosed in the Unaudited Statements of Income.

Other properties and equipment:

k. Intangible assets, net

Intangible assets mainly corresponds to expenses that the Company avoids incurring as a result of acquiring effective rent contracts and the estimated costs of entering into rent contracts acquired (see Note 1.5.I.). These are shown net of their accumulated amortization.

Intangible assets are amortized during the average initial remaining useful life of the rent contracts acquired.

The value of these assets does not exceed its estimated recoverable value as of period/year-end.

l. Business combinations

Significant entities or net asset acquired by the Company were recorded in line with the purchased method set forth in Technical Resolution No. 18 and Technical Resolution No. 21. All assets and liabilities acquired to third independent parties were adjusted to show their fair value. The Company identified the assets and liabilities acquired, that included intangible assets such as: lease agreements acquired for prices and terms that are either higher or lower than in the market; costs of executing and delivering the lease agreements in force (costs that the Company avoids incurring as a result of acquiring effective lease agreements); the value of acquired brands, the value of any deposits associated to the investment and the intangible value inherent to customer relations.

The process of identification and the determination of the purchase price paid is a matter that requires complex judgments and significant estimates.

The Company uses the information contained in valuations estimated by independent appraisers as primary base for assigning the price paid for the land, buildings and shopping centers. The amounts assigned to all the other assets and liabilities are based on independent valuations or on the Company's own analysis on comparable assets and liabilities. The current value of tangible assets acquired considers the property value as if it was empty.

1. (Continued)

If the price paid is larger than the value of the tangible and intangible assets and liabilities as identified, the excess is considered to be goodwill.

m. Debt issuance costs

Expenses incurred in connection with the issuance of debt are amortized over the life of the related issuances. In the case of redemption or conversion of these notes, the related expenses are amortized using the accelerated depreciation method.

Amortization has been recorded under Financial results, net in the Unaudited Statements of Income as a greater financing expense.

n. Customer advances

Customer advances represent payments received in connection with the sale and rent of properties and has been valued according to the amount of money received.

o. Income tax

The Company has recognized the charge for income tax by the deferred tax liability method, recognizing timing differences between measurements of accounting and tax assets and liabilities (see Note 15).

To determine deferred assets and liabilities, the tax rate expected to be in effect at the time of reversal or use has been applied to timing differences identified and tax loss carryforwards, considering the legal regulations approved at the date of issuance of these financial statements.

p. MPIT

The Company calculates MPIT by applying the current 1% rate on computable assets at the end of the year. This tax complements income tax. The Company's tax obligation in each period will coincide with the higher of the two taxes. However, if MPIT exceeds income tax in a given period, that amount in excess will be computable as payment on account of income tax arising in any of the following ten years.

p. (Continued)

The Company has recognized MPIT accrued in the period and paid in previous years as credit, because the Company estimates that in the future years it may be computable as prepayment of income tax.

q. Allowances and Provisions

Allowance for doubtful accounts: the allowance for losses is recognized when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a case-by-case basis considering the present value of expected future cash flows. When it comes to its mortgage-secured receivables, the Company applies the collateral's realization value upon analyzing the recoverability of receivables with hints of uncollectibility.

While Management uses the information available to make assessments, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the assessments. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the financial statements reflect that consideration.

For impairment of assets: the Company regularly assesses its non-current assets for recoverability at the end of every year.

The Company has estimated the recoverable value of rental properties based on their economic use value, which is determined based on estimated future cash flows discounted. For the rest of the assets (inventories and undeveloped parcels of land) the Company makes a comparison with market values based on values of comparable properties. If the recoverable value of assets which had been impaired in prior years increases, the Company records the corresponding reversals of impairment loss as required by accounting standards.

Increases and decreases of allowances for impairment of assets during the period ended as of September 30, 2010 and the fiscal year ended as of June 30, 2010 are detailed in Exhibit E.

For lawsuits: the Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor issues. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the Company's lawyers' experience in contesting, litigating and settling other matters.

As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have an effect on the Company's future results of operations and financial condition or liquidity.

At the date of issuance of these unaudited financial statements, Company's Management understands that there are no elements to foresee other potential contingencies having a negative impact on these unaudited financial statements.

r. Shareholders' equity accounts

Amounts of shareholders' equity accounts have been restated following the guidelines detailed in Note 1.3. until February 28, 2003. Subsequent movements are stated in the currency of the month to which they correspond.

Common stock account was stated at historical nominal value. The difference between value stated in constant currency, following the guidelines detailed in Note 1.3., and historical nominal value is shown under Inflation adjustment of common stock forming part of the shareholders' equity.

Cumulative translation adjustment correspond to the exchange gains/losses arising from the conversion of Tyrus S.A, Torodur S.A. and subsidiaries of Ritelco S.A., financial statements.

s. Profit and loss accounts

The profit and loss for the period are shown as follows:

Amounts included in Unaudited Statements of Income are shown in currency of the month to which they correspond.

Charges for assets consumed (fixed asset depreciation, intangible asset amortization and cost of sales) were determined based on the values recorded for such assets.

Results from investments in subsidiary and equity investments were calculated under the equity method, by applying the percentage of the Company's equity interest to the results of such companies, with the adjustments for application of Technical Resolution No. 21.

t. Revenue recognition

t.1. Sales of properties

The Company records revenue from the sale of properties when all of the following criteria are met:

The sale has been consummated.

There is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property.

The Company's receivable is not subject to future subordination.

The Company has transferred the property to the buyer.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs according to budgeted costs. The Company does not recognize results until construction activities have begun. The percentage-of-completion method of accounting requires the Company's Management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

t.2 Revenues from leases

Revenues from leases are recognized on a straight-line basis over the life of the related lease contracts.

u. Cash and cash equivalents

The Company considers, for cash flow purposes, all highly liquid investments with original maturities of three months or less, consisting primarily of mutual funds, as cash equivalents.

v. Negative Goodwill, net

Goodwill has been restated following the guidelines mentioned in Note 1.3. and amortization has been calculated by the straight-line method based on an estimated useful life, considering the weighted-average of the remaining useful life of identifiable assets acquired subject to depreciation.

Includes goodwill originated from the purchase of shares of Palermo Invest S.A. (see Note 16.2.).

w. Dividends

IRSA's Board of Directors decided that its dividend policy shall consist in the distribution, pro rata amongst the Shareholders, of an amount equivalent to the highest of a) up to twenty per cent (20%) of revenues posted by the Offices and others segment that comes from the Net Operating Income by Business Segment as of June 30 of each year (Note 3 to the unaudited consolidated financial statements) or b) up to twenty per cent (20%) of net income as of June 30 of each year. This policy requires that the Company must at all times abide by the covenants imposed on it by virtue of its financial commitments.

1.6 Adoption of the International Financial Reporting Standards

The National Securities Commission through the Resolution No. 562 has mandated that the Technical Resolution No. 26 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas (FACPCE) is to be applied by the companies admitted to the Public Offering System under Law No. 17,811 in connection with either their capital and/or negotiable obligations, and/or by the companies that have applied for admission to the Public Offering System. FACPCE's Technical Resolution No. 26 adopts the International Financial Reporting Standards issued by the International Accounting Standards Board. The Company shall apply IFRS as from the fiscal year beginning on July 1st, 2012. On April 29, 2010, IRSA's Board of Directors has approved the specific implementation plan for the application of IFRS.

Buenos Aires, November 11, 2010 IRSA Inversiones y Representaciones Sociedad Anónima (NYSE: IRS) (BASE: IRSA), Argentina's leading real estate company, announces the results of its operations for the three month period ended on September 30, 2010.

In million of Ps.	IQ 11	IQ 10	var YoY (%)	FY 10	FY 09	var YoY (%)
Revenues	306.8	263.2	17%	1,323.3	1,220.6	8%

Net Income	56.2	131.4	-57%	334.5	158.6	111%

Revenues for the first quarter of fiscal year 2011 grew 17%, driven by a 31% increase in Shopping Centers and a 66% increase in the Hotels segment that showed a strong recovery.

These increases were offset by a lower level in sales in the Sales and Development segment, which dropped 70%, as no significant transactions were closed during this quarter.

The increase in Operating Income for the first quarter of fiscal year 2011 (+24%) is mainly explained by a 29.4% increase in Gross Income of Shopping Centers, Consumer Financing and Hotels.

As a result of the increase in Operating Income, mainly in Shopping Centers, EBITDA grew 17% compared to the first quarter of 2010.

Net Income for the first quarter of fiscal year 2011 decreased Ps. 75.3 million, mainly due to a drop in Gain on Equity Investees.

¹ EBITDA represents operating income plus depreciation and amortization (included in operating income). Our presentation of EBITDA does not reflect the methodology suggested by its acronym. We believe EBITDA provides investors with meaningful information with respect to our operating performance and facilitates comparisons to our historical operating results. However, our EBITDA measure has limitations as an analytical tool, and should not be considered in isolation, as an alternative to net income or as an indicator of our operating performance or as a substitute for analysis of our results as reported under Argentine GAAP. Some of these limitations include:

it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

it does not reflect changes in, or cash requirements for, our working capital needs;

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

it does not reflect our interest expense, or the cash requirements to service the interest or principal payments of our debt;

it does not reflect any cash income taxes or employees' profit sharing we may be required to pay;

it reflects the effect of non-recurring expenses, as well as investing gains and losses;

it is not adjusted for all non-cash income or expense items that are reflected in restatements of changes in financial position;
and

other companies in our industry could calculate this measure differently than we do, which may limit its usefulness as a comparative measure.

Because of these limitations, our EBITDA measure should not be considered a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. EBITDA is not a recognized financial measure under Argentine GAAP. You should compensate for these limitations by relying principally on our Argentine GAAP results and using our EBITDA measurement supplementally.

Highlights for the first quarter of fiscal year 2011, including references to significant situations occurred after the end of the period.

I. Offices and Other Non-Shopping Center Rental Properties

During the last quarter, the trend experienced by the market in the previous year has continued, resulting in stagnation in lease prices and a slight increase in office vacancy levels, mainly due to an increase in the surface built in the northern area of Buenos Aires and Greater Buenos Aires, a market that is still settling down. On the other hand, IRSA has most of its portfolio in the Plaza Roma Zone, which shows a 7.6% vacancy level with an average lease price over US\$ 31/sqm according to CBRE.

IRSA increased its portfolio by more than 11,200 sqm when it opened the DOT Building in the North Area. This building is located in a zone that is still stabilizing; therefore, it has a low occupancy level that affects the portfolio's total occupancy level. However, the occupancy level of the rest of the portfolio has continued to improve and maintained high levels.

During this period, IRSA's portfolio increased by 8.0% with the incorporation of Dot Building, an office building with more than 11,200 leaseable sqm developed by IRSA and located next to Dot Baires Shopping Center.

The incorporation of a new building into a still immature area has affected the portfolio's total occupancy level, causing it to drop to less than 88%. However, excluding Dot Building from the analysis, the portfolio's occupancy levels increased 93.5%.

The rent per leased surface area measured in Ps. / sqm increased by 1% accompanying the decrease in the exchange rate.

The growth in revenues and EBITDA lessened as a result of the smaller amount of leaseable properties resulting from sales of non-strategic assets made during fiscal year 2010.

II. Alto Palermo S.A. (APSA): Shopping Centers and Consumer Financing

Since the first quarter of fiscal year 2010, ended in September 2009, and for the last 12 months, the shopping center segment has shown a substantial increase in all of its levels. This was reflected in our tenants' sales, the revenues generated by the segment and, mainly, its EBITDA generation. This is the result of a significant improvement in economic activity and the increase in consumption levels.

Apart from leaving behind the shock of the 2009 global financial crisis, our shopping centers experienced a significant increase in tenant sales during the month of July.

The following information relates our subsidiary APSA, the company that operates our shopping center business, in which we held a 63.35% interest as of September 30, 2010. After this period end, our interest increased to 94.89% after acquiring Parque Arauco S.A.'s shareholding.

New Soleil Shopping Center

On July 1, 2010, APSA and INCSA executed the transfer of Soleil Factory Shopping Center's Goodwill. The total price for the transaction was US\$ 20.7 million plus VAT. A partial amount was paid on July 7, 2010. The balance amounts to US\$ 12.6 million and is payable on July 1, 2017 or upon the execution of the deed, whichever occurs last. As a result, APSA adds its 12th Shopping Center to its portfolio, which it plans to condition over the next months for it to reach the quality level of our portfolio. This addition implies a 4.5% increase in the size of the shopping center portfolio.

Acquisition of a Plot of land in Paraná, Entre Ríos for the future development of a Shopping Center.

On August 12, 2010, APSA and Wal-Mart Argentina executed a preliminary purchase and sale agreement for a plot of land of 10,022 sqm in the City of Paraná, Entre Ríos. The purchase price was US\$ 0.5 million, of which US\$ 0.15 million have already been paid. APSA will pay the US\$ 0.35 million balance upon execution of the title deed and surrender of possession, which will take place 60 days after APSA receives the relevant approvals to construct and operate a shopping center in this plot.

Acquisition of Parque Arauco S.A.'s interest in Alto Palermo S.A.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

After the end of this period, on October 15, 2010, IRSA announced the purchase of Parque Arauco S.A.'s direct and indirect equity interest in Alto Palermo S.A. (APSA), through the payment of US\$ 126 million, of which US\$ 6 million had already been paid at the time of purchase of the option announced in January 2010.

As result, the fruitful relationship developed with an excellent strategic partner such as Parque Arauco S.A. has reached optimum results, that will probably allow us to delineate a future that joins us again in new challenges.

Following such acquisition, IRSA holds 94.89% of Alto Palermo S.A.'s stock capital, thus increasing, for the benefit of its shareholders, its leading position in the Shopping Center segment and consolidating the equity expansion strategy rolled out by it at national and international levels.

The improvement of the macroeconomic situation and the increase in demand of foreign and local tourists have led to an increase in the average fee per room to approximately US\$ 180 compared to US\$ 170 in the same quarter of the previous year.

A good level of cash generation has been observed which drove EBITDA margins over sales to 15%.

V. Investments in Other Companies

Interest in Hersha Hospitality Trust (Hersha)

As of September 30, 2010, IRSA and its subsidiaries held 15,173,823 shares of Hersha amounting to an interest of 10.85%.

After the end of the period, in October 2010, Hersha opened a new process for the issuance of capital stock in which IRSA and its subsidiaries subscribed for 2,952,625 common shares for an approximate total amount of US\$ 17.1 million, at US\$ 5.8 per share. Accordingly, as of October 20, IRSA's and its subsidiaries' interest in Hersha amounted to 10.72%.

Additionally, IRSA, through its subsidiaries, holds an option for an initial term of 5 years over 5,700,000 additional common shares, at US\$ 3.00 each. Should it exercise such options, IRSA and its affiliates would have a 13.63% interest.

Hersha is a Real Estate Investment Trust (REIT) listed on the New York Stock Exchange (NYSE: HT), and is the holder of an indirect controlling interest in 77 hotels, mainly distributed in the northeastern coast of the United States, totaling approximately 9,951 rooms. IRSA's Chairman and CEO, Mr. Eduardo S. Elsztain, is member of the Board of Trustees since 2009.

Interest in Banco Hipotecario S.A.

During this period, in exercise of its preemptive right, IRSA participated in the preemptive offer to sell 36.0 million treasury shares resolved upon by the Board of Directors of Banco Hipotecario and acquired 26,197,564 Class D shares for a total amount of Ps. 36.2 million. As a result of these transactions, as of the end of the period, IRSA's interest in BHSA increased to 29.78% of BHSA's stock capital (without considering treasury shares).

Interest in Metropolitan

In July 2008, IRSA (through its subsidiaries) acquired a 30% equity interest in Metropolitan 885 Third Ave. LLC (Metropolitan), whose main asset is an office building known as Lipstick Building, and the debt related to this asset. The transaction included the acquisition of (i) put rights effective July 2011 over 50% of the interest purchased for a price equal to the amount invested plus interest at rate of 4.5% per annum and (ii) a right of first offering over 60% of the 5% interest. The price paid for the transaction was US\$ 22.6 million.

During fiscal year 2009, Metropolitan recorded losses which turned negative its shareholders' equity, mainly due to the recognition of an allowance for impairment of the referred building. Accordingly, the Company's interest in Metropolitan's losses exceeded its interest in its equity and therefore, the Company recognized the investment as zero and recorded liabilities for US\$ 1.5 million, which represents the maximum amount it intends to contribute for the financing of Metropolitan's transactions, if required.

In addition, the put option was revalued at its estimated value as of September 30, 2010, which amounts to US\$ 12.5 million.

On August 4, 2010, and for purposes of facilitating the negotiations, within the framework of a debt renegotiation started by Metropolitan 885 Third Avenue LLC with the Royal Bank of Canada, IRSA, through a subsidiary, executed an Escrow Agreement with the broker Fidelity National Title, Insurance Company and transferred the amount of US\$ 15.0 million as non-mandatory, good faith deposit, for the sole purpose of allowing further negotiations between the parties. The Escrow Agreement expired on September 27, 2010 and was extended to January 14, 2011.

Offer to Purchase a building located at 183 Madison Ave, New York, NY

On August 26, 2010, IRSA and other U.S. partners entered into a conditional agreement for the purchase of Rigby 183 LLC, a company that is owner of a 19-story building located at 183 Madison Avenue, New York, NY, which has around 22,893 sqm of leasable area. The price for the transaction amounted to US\$ 75.2 million. IRSA transferred to the seller the amount of US\$ 7.3 million as down payment under the executed agreement. As the seller is under reorganization proceedings, judicial authorizations are still pending to consummate the transaction. Should it be consummated, IRSA would become holder of 49% of Rigby 183 LLC's stock capital.

Purchase of TLGT S.A.'s Interest:

After the end of the period, on November 4, 2010, APSA purchased 5,214,662 registered non-endorable common shares, entitled to one vote each, issued by TLGT S.A., for an amount equivalent to Ps. 47.1 million.

Conversion of Notes

After the end of this period, on October 7, 2010, certain holders¹⁴ of convertible Notes of APSA exercised their conversion rights, resulting in the issuance of 477,544,197 common shares of Ps. 0.1 par value each, and the cancellation of Notes for a face value of US\$ 15.5 million.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

VI. Brief comment on future prospects for the next quarter

Our business segments have shown a robust and sound performance. The quality of IRSA's asset portfolio, as shown by its high occupancy levels, has allowed us to capitalize on the effects of the economic recovery and resume the rhythm of revenues and results.

Shopping centers maintain high occupancy levels and a strong commitment and adhesion by tenants. The rhythm of sales in the shopping centers has shown an important growth during this quarter, in line with the positive trend that has been observed during the last months. Tenants continue to be loyal and support our new proposals in this segment.

In addition, we will continue working to improve the services offered to our tenants and consumers, seeking to maintain our successful occupancy levels and traffic in our Shopping Centers. During this quarter, we have expanded our portfolio by adding Soleil, which expect to streamline over the next months for it reach to the management standards of the rest of our shopping centers. Furthermore, we are planning to launch our new project in Palermo through our subsidiary Arcos del Gourmet S.A. with a new business concept: an urban space in the open air.

We will continue working to improve and recondition our Shopping Centers in order to take advantage of all their potential and benefit our tenants and consumers.

As concerns the Consumer Financing business, we have completed the sale process of Tarshop S.A.'s majority interest to Banco Hipotecario S.A., that will endow Tarshop with an operating and financial performance capacity commensurate with its future business needs.

As concerns the Office and Other Non-Shopping Center Rental Properties segment, lease revenues have remained firm, both in pesos and dollars. We believe that there is some stagnation in the market in terms of occupancy rates and pricing levels caused by the global volatility conditions and the addition of footage, mainly in the northern area of the City of Buenos Aires and Greater Buenos Aires, a market that is in the process of maturing. On the other hand, we have a unique premium portfolio in downtown Buenos Aires that awakens interest among top-quality lessees in the market. We will continue working towards maintaining high occupancy levels and optimizing our portfolio mix.

Regarding the Development and Sale of Properties segment, we have already started the delivery of the properties of Caballito Nuevo Project, and will continue working to complete the sales of such project, which so far represent 73%. We will continue with the commercialization of Rosario's and El Encuentro's projects, in which we have already received the bartered properties. We will also make progress in the works schedule of the Horizons project through our subsidiary Cyrsa, where we have already started to recognize results and the degree of work progress is above 86.98%. We believe that our alliance with Cyrela in this company is an excellent opportunity to develop additional projects as successful as this one.

Finally, as concerns opportunities outside Argentina, we will continue developing our strategy of selected investments, as in the case of Hersha Hospitality Trust, involving top level assets with attractive prices or capital structures with potential of growth. We will make progress in the process of offering, jointly with other partners, the building located at 183 Madison Ave., New York, NY.

Given the solid level of cash generation of the company, its asset quality, indebtedness level, experience in taking advantage of opportunities and expertise in the international capital markets, we believe that we are on the right way to consolidate the best real estate portfolio in Argentina.
