ITEM 8.01 Other Events

On July 21, 2010, the Dodd Frank Wall Street Reform and Consumer Protection Act (the Act) was enacted. Section 1503 of the Act included new reporting requirements related to mine safety, including disclosing on a Current Report on Form 8-K the receipt of an imminent danger order under Section 107(a) of the Federal Mine Safety and Health Act of 1977 (the Mine Act) issued by the Federal Mine Safety and Health Administration (MSHA).

On October 18, 2011, at approximately 11:05 a.m., Excel Mining, LLC (Excel), an operating subsidiary of Alliance Resource Partners, L.P., received an imminent danger order under Section 107(a) of the Mine Act at the Van Lear Mine. The imminent danger order alleged the existence of excessive methane in the mine atmosphere of the 011/012 mechanized mining units. As a result of MSHA's allegations and the scope of the order, production at the Van Lear Mine has been idled. No miners were injured as a result of any conditions alleged in the order.
