**NON-GAAP FINANCIAL MEASURES**

To supplement our results prepared in accordance with United States Generally Accepted Accounting Principles ( GAAP ), we have included in this prospectus supplement certain non-GAAP measures, including Adjusted EBITDA and Free Cash Flow, which are non-GAAP measures as defined by the SEC. These non-GAAP financial measures are not intended as substitutes and should not be considered in isolation from measures of financial performance prepared in accordance with GAAP. In addition, our use of non-GAAP financial measures may be different from non-GAAP measures used by other companies, limiting their usefulness for comparison purposes. The presentation of Adjusted EBITDA and Free Cash Flow are intended to enhance the usefulness of our financial information by providing measures which management internally uses to assess and evaluate the overall performance of its business and those of possible acquisition candidates, and highlight trends in the overall business.

We use Adjusted EBITDA to provide further information that is useful to an understanding of the financial covenants contained in Covanta Energy's credit facilities, and as an additional way of viewing aspects of its operations that, when viewed with the GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, we believe provide a more complete understanding of our business. Adjusted EBITDA is defined as earnings before interest, taxes, depreciation and amortization, as adjusted for additional items subtracted from or added to net income. For further information on these additional items, see Summary historical consolidated financial information.

Adjusted EBITDA should not be considered as an alternative to net income or cash flow provided by operating activities as indicators of our performance or liquidity or any other measures of performance or liquidity in accordance with GAAP.

We use the non-GAAP measure of Free Cash Flow as a criterion of liquidity and performance-based components of employee compensation. Free Cash Flow is defined as cash flow provided by operating activities

less maintenance capital expenditures, which are capital expenditures primarily to maintain our existing facilities. We use Free Cash Flow as a measure of liquidity to determine amounts we can reinvest in our businesses, such as making acquisitions, investing in construction of new projects or making principal payments on debt. For further information, see Summary historical consolidated financial information.

Free Cash Flow should not be considered as an alternative to cash flow provided by operating activities as an indicator of our liquidity or any other measure of liquidity in accordance with GAAP.

**SUMMARY**

**Our company**

Covanta is one of the world's largest owners and operators of infrastructure for the conversion of waste to energy (known as energy-from-waste or EfW). We conduct all of our operations through subsidiaries which are engaged predominantly in the businesses of waste and energy services. Energy-from-waste serves two key markets as both a sustainable waste disposal solution that is environmentally superior to landfilling and as a source of clean energy that reduces overall greenhouse gas (GHG) emissions and is considered renewable under the laws of many states and under federal law. Our facilities are critical infrastructure assets that allow our customers, which are principally municipal entities, to provide an essential public service.

Our EfW facilities earn revenue from both the disposal of waste and the generation of electricity, generally under long-term contracts, as well as from the sale of metal recovered during the energy-from-waste process. In the United States, we process approximately 19 million tons of solid waste annually, representing approximately 5% of solid waste generation in the United States. In total, these assets produce approximately 10 million megawatt hours of baseload electricity annually, representing approximately 7% of the United States non-hydroelectric renewable power. We operate and/or have ownership positions in 46 energy-from-waste facilities, which are primarily located in North America, and 15 additional energy generation facilities, including other renewable energy production facilities in North America (wood biomass and hydroelectric). We also operate waste management infrastructure that is complementary to our core EfW business.

We own and hold equity interests in EfW facilities in China and Italy. We are pursuing additional growth opportunities in parts of Europe, primarily in the United Kingdom, where the market demand, regulatory environment or other factors encourage technologies, such as energy-from-waste, to reduce dependence on landfilling for waste disposal and fossil fuels for energy production in order to reduce greenhouse gas emissions.

During 2011, we generated \$1,650 million of revenue, \$492 million of Adjusted EBITDA and \$280 million of Free Cash Flow from continuing operations.

***The energy-from-waste process***

Energy-from-waste facilities produce energy through the combustion of non-hazardous municipal solid waste (MSW) in specially-designed power plants. Most of our facilities are mass-burn facilities, which combust the MSW on an as-received basis without any pre-processing such as shredding, sorting, or sizing. In a typical mass-burn facility, waste collection trucks deliver waste to the facility, where it is dumped into a concrete storage pit, then loaded by an overhead crane into a feed chute leading to a furnace. The waste is combusted in a self-sustaining process at temperatures greater than 2,000 degrees Fahrenheit, and heat from the combustion process converts water inside steel tubes that form the furnace walls and boilers into steam. A superheater further heats the steam before it is either sent to a turbine generator to produce electricity (in most facilities), or sold directly to industrial or commercial users. From the boiler, the cooled gases enter an advanced air pollution control system, where scrubbers neutralize any acid-forming gases and a high-efficiency fabric baghouse captures more than 99% of particulate matter. The process reduces the waste to an inert ash that is only about 10% of its original volume. In addition, ferrous and non-ferrous metals are removed and recycled during the process. On average, each ton of waste processed yields approximately 550 kilowatt hours of electricity and approximately 50 pounds of recycled metal. The amount of waste generated annually by a family of four could power an average home for roughly two months. New facilities currently under development are even more efficient and can recover 700 to 800 kilowatt hours of electricity or more from each ton of waste processed.

In addition to our mass-burn facilities, we own and/or operate additional facilities that use other processes or technologies, such as refuse-derived fuel facilities which process waste prior to combustion and a gasification technology, in which waste is heated to create gases which are then combusted.

### **Revenue sources**

Our EfW projects generate revenue from three main sources: (1) fees charged for operating projects or processing waste received, (2) the sale of electricity and/or steam, and (3) the sale of ferrous and non-ferrous metals that are recycled as part of the EfW process. We may also generate additional revenue from the construction or expansion of a facility when a municipal client owns the facility. Our customers for waste disposal or facility operations are principally municipal entities, though we also market disposal capacity at certain facilities to commercial waste haulers. Our facilities sell energy primarily to utilities at contracted rates or, in situations where a contract is not in place, at prevailing market rates in regional markets (primarily the Pennsylvania-New Jersey-Maryland Interconnection ( PJM ), the New England Power Pool ( NEPOOL ) and the New York Independent System Operator ( NYISO ) in the Northeastern U.S.). Our revenue is highly contracted, with over 75% of our waste and service revenue under contract for the year ended December 31, 2011. Further, over 75% of our energy revenue was under contract or hedged and not subject to market price fluctuation for the year ended December 31, 2011.

### **Energy-from-waste contract structures**

Most of our energy-from-waste projects were developed and structured contractually as part of competitive procurement processes conducted by municipal entities. As a result, many of these projects have common features. However, each individual project structure is different, reflecting the specific needs and concerns of a client community, applicable regulatory requirements and/or other factors.

Our EfW projects can generally be divided into three categories, based on the applicable contract structure at a project: (1) Tip Fee projects, (2) Service Fee projects that we own, and (3) Service Fee projects that we do not own but operate on behalf of a municipal owner. At Tip Fee projects, we receive a per-ton fee for processing waste, and we typically retain all of the revenue generated from the energy and recycled metal sales. We generally own or lease the Tip Fee facilities. At Service Fee projects, we typically charge a fixed fee for operating the facility, and the facility capacity is dedicated either primarily or exclusively to the host community client, which also retains the majority of any revenue generated from energy and recycled metal sales. As a result of these distinctions, the revenue generated at Tip Fee projects tends to be more dependent on operating performance, as well as market conditions, than the revenue at Service Fee projects.

**Table of Contents**

Our projects were generally financed at construction with project debt in the form of tax-exempt municipal bonds issued by a sponsoring municipality, which generally mature at the same time the initial term of our service contract expires and are repaid over time based on set amortization schedules. At Tip Fee facilities, our project subsidiary is responsible for meeting any debt service or lease payment obligations out of the revenue generated by the facility. At Service Fee projects that we own and where project debt is in place, a portion of our monthly fee from the municipal client is dedicated, dollar-for-dollar, to project debt service. We are not responsible for debt service for projects that we neither own nor lease. When the service contract expires and the debt is paid off, the project owner (either Covanta or the municipal entity) will determine the form of any new contractual arrangements.

The following summarizes the typical contractual and economic characteristics of the three project structures in North America:

	<b>Tip fee</b>	<b>Service fee (owned)</b>	<b>Service fee (operated)</b>

**Industry****Waste disposal**

The United States generates approximately 390 million tons of waste annually (over 1.2 tons for every person), which is approximately 15% of the world's total. Of that amount, approximately 24% is recycled, 69% is landfilled, and 7% is processed by energy-from-waste (of which approximately two-thirds is processed by us). While waste generation in the United States has declined over the past three years, reflecting the downward trend in the Gross Domestic Product, over the past 19 years it has steadily increased, growing at an average rate of 1.3%. At the same time, the number of landfills in the United States has decreased dramatically, from over 7,500 in 1986 to fewer than 2,000 today. We believe that these longer-term trends, and the fact that waste disposal is an essential service, will provide meaningful long-term opportunities for our industry.

S-3

## **Table of Contents**

Energy-from-waste is an important part of the waste management infrastructure of the United States, with approximately 86 facilities currently in operation, processing over 25 million tons and serving the needs of over 25 million people, while producing enough electricity for 1.3 million homes. The use of energy-from-waste is even more prevalent in Western Europe and many countries in Asia, such as Japan. Over 2,000 energy-from-waste facilities are in use today around the world, with the capacity to process over 300 million tons of waste per year. In the waste management hierarchies of the U.S. Environmental Protection Agency ( EPA ) and the European Union ( EU ), energy-from-waste is designated as a superior solution to landfilling.

### ***Renewable energy***

Public policy in the U.S., at both the state and national levels, has developed over the past several years in support of increased generation of renewable energy as a means of combating the potential effects of climate change, as well as increasing domestic energy security. Today in the U.S., approximately 11% of electricity is generated from renewable sources, two-thirds of which is hydroelectric power.

Energy-from-waste contributes approximately 10% of the nation's non-hydroelectric renewable power. Energy-from-waste is designated as renewable energy in 25 states, the District of Columbia, and Puerto Rico, as well as in several federal statutes and policies. Unlike most other renewable resources, EfW generation can serve base-load demand and is more often located near population centers where demand is greatest, minimizing the need for expensive incremental transmission infrastructure.

### ***Environmental benefits of energy-from-waste***

We believe that energy-from-waste offers solutions to public sector leaders around the world in addressing two key issues: sustainable waste disposal and renewable energy generation. We believe that the environmental benefits of energy-from-waste, as an alternative to landfilling, are clear and compelling: by processing municipal solid waste in energy-from-waste facilities we reduce GHG emissions (as the methane emitted by landfills is over 20 times more potent a GHG than carbon dioxide), lower the risk of groundwater contamination, and conserve land. At the same time, energy-from-waste generates clean, reliable energy from a renewable fuel source, thus reducing dependence on fossil fuels, the combustion of which is itself a major contributor of GHG emissions. Based on estimates using the U.S. EPA's Decision Support Tool, one ton of CO<sub>2</sub>-equivalent is reduced relative to landfilling for every ton of waste processed. In addition, each ton of waste processed eliminates the need to consume approximately one barrel of oil or one-quarter ton of coal, in order to generate the equivalent amount of electricity. As public planners in North America, Europe and Asia address their needs for more environmentally sustainable waste disposal and energy generation in the years ahead, we believe that energy-from-waste will be an increasingly attractive alternative.

### ***Competitive strengths***

#### ***World Leader in energy-from-waste with consistently strong long-term operating performance***

We are one of the world's largest owners and operators of energy-from-waste facilities, operating an estimated two-thirds of the energy-from-waste capacity in North America. We believe that we have more experience in developing, constructing and operating energy-from-waste facilities than any other company in the world. We operate over 10 different types of energy-from-waste technologies, representing many of the commercially viable systems in the world. In addition, we believe that we have earned a strong reputation in our industry for maintaining successful long-term partnerships with our host communities, which are critical to our long-term success.

As a result of our experience and expertise in facility operations and maintenance, we have a track record of consistently high availability, and our facilities have processed nearly 350 million tons of waste. Our facilities

S-4

## **Table of Contents**

have maintained average boiler availability above 90% since 2001, which is significantly in excess of our contractually-required levels. In 2011, we achieved our highest portfolio availability on record at 91.7%. Consistent production allows us to provide steady and reliable service for our customers. In addition, we believe that our maintenance practices are critical to maximizing the long-term value of our assets. Most of our facilities have been in operation for over 15 years, and we are confident that their useful lives will extend at least as long into the future.

Note: Figures presented for North American EfW operations.

The depth and scope of our experience is also evident in our outstanding record of environmental performance, where our emphasis is to go beyond mere compliance with legal and permit requirements. Our U.S.-based EfW facilities routinely achieve emission levels for various measures ranging from 60% to 90% below the established requirements of the U.S. EPA. We believe that this approach to environmental performance is an important element of our corporate risk management strategy, which enhances both the service we provide our customers and our prospects for growth.

### ***Highly contracted revenue with creditworthy counterparties***

Our revenue is highly contracted, with over 75% of our waste and service revenue under contract during 2011. Further, over 75% of our energy revenue was under contract or hedged and not subject to market price fluctuation during 2011. As our existing service agreements and waste contracts expire, we will generally seek to renew or replace these contracts in order to maintain a substantial portion of our facility capacity under contract. We have historically been able to renew or extend our waste and service contracts on commercially agreeable terms. As our energy contracts expire, we will also pursue opportunities to enter into new contracts; however, we expect that the percentage of our energy revenue sold at market prices will increase over time, but with a substantial contracted profile remaining in place over the next several years.

Our customers for waste services are principally municipal entities for whom waste disposal is an essential public service. For facility capacity that we market to private waste haulers, we primarily contract with large, national and regional waste companies. For energy sales, we generally contract with regulated utilities, and where we do not sell under long-term contracts, we sell directly into the electricity grid and are paid by the independent system operator. Overall, our revenue sources are also highly diversified, with no facility or counterparty contributing more than 7% of total revenue during 2011.

## **Table of Contents**

### ***Substantial and consistent free cash flow generation and strong balance sheet***

Our business generates substantial Free Cash Flow. In 2011, we generated \$360 million of cash flow from operating activities and \$280 million of Free Cash Flow (after maintenance capital expenditures). This Free Cash Flow represented 17% of revenue and 57% of Adjusted EBITDA. See Summary historical consolidated financial information.

Our project debt is repaid over time based on set amortization schedules, with payments often made directly by our municipal clients as a component of our fees paid under service agreements. We repaid \$137 million in project debt in 2011. As of December 31, 2011, we had \$672 million of project debt principal outstanding, and based on existing bond maturity schedules, approximately 41% of that principal is scheduled to be repaid by 2013. This ongoing project debt repayment enhances the strength of our credit over time.

We believe that these financial characteristics provide us with an important competitive advantage, as they enable us to pursue attractive growth opportunities, and we believe that they also provide our municipal clients with confidence that we will have the ability to serve as long-term partners and continue to satisfy our contractual obligations for facility performance well into the future.

### ***Strong industry fundamentals in attractive geographic markets***

Our energy-from-waste facilities are critical infrastructure assets that provide a necessary and essential service to our client communities. While the economic downturn has negatively impacted waste generation rates, industry fundamentals overall have remained strong, as per capita waste generation in North America remains the highest in the world and waste disposal capacity is constrained in many of the geographic markets where we operate.

Our energy-from-waste facilities in North America are concentrated in the attractive Northeastern U.S. where population density and constraints on landfill capacity drive the highest waste disposal fees of any region in the country. In addition, our facilities are typically located near or within the populations that they serve, and often enjoy a geographic advantage over competing landfills, which are increasingly located farther away from the sources of waste in less populated areas where landfill capacity is less expensive and easier to permit. As a result, landfills generally must incur greater transportation costs than our facilities, and we believe that these costs will increase to the extent that fossil fuel costs rise in the future.

The Northeast is also an attractive regional electricity market, where similar drivers (dense populations and constrained capacity) have supported prices over time. The majority of our merchant electricity sales are in the PJM, NEPOOL and NYISO markets, which are among the most liquid electricity markets in the country. In addition, our facilities are generally located near or within the load centers of the regions they serve, where market electricity prices are typically at a premium due to transmission congestion.

### ***Critical infrastructure assets that are difficult to replicate***

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

Waste disposal infrastructure is difficult and costly to replicate or expand. While all aspects of waste disposal are subject to extensive regulation, and energy-from-waste is among the most highly regulated sectors of the market, EfW requires a larger initial investment than most waste disposal alternatives. There are currently approximately 86 EfW facilities in operation in the United States, and while we expect that there will be new facilities built in the future, it has been 17 years since the last new facility was constructed. The 140,000 tons per day ( tpd ) EfW facility we are constructing in Durham Region, Canada is the first, large-scale, commercial EfW project in North America since 1995.

Landfills represent our primary competition in the waste disposal market and in the densely populated areas of the Northeast where the majority of our facilities are located. Construction of new landfill capacity is

S-6

## **Table of Contents**

constrained due to increased regulation and the difficulty of building or expanding landfills close to urban areas. The number of landfills in the U.S. overall has decreased dramatically, from over 7,500 facilities in 1986 to fewer than 2,000 today. While less costly than EfW in terms of initial investment, we believe that the environmental disadvantages of landfilling are now widely recognized and factored into the development of energy and waste management policies, as they have been in other countries for many years. As a result, we believe that our existing EfW asset base will become increasingly valuable over time, and our EfW focus and experience will enhance our ability to expand our business with new project development.

### ***Favorable environmental and regulatory trends***

We believe that the environmental benefits of energy-from-waste as both a sustainable waste disposal solution and source of clean, renewable energy will continue to support a favorable regulatory framework in the markets where we operate. Examples of this include the EU Landfill Directive, which directs member states to substantially reduce their reliance on landfills over the next 10 years (and thus, in many cases, rely more heavily on energy-from-waste as an alternative), and existing legislation in numerous U.S. states that support energy-from-waste as a renewable energy source. In addition, we believe that the benefits of energy-from-waste as a net reducer of GHG emissions should increasingly be recognized as regulations are developed to combat climate change, and that our other renewable energy operations will benefit from such regulations as well.

### ***Experienced operational management team with long continuity***

We believe that our senior operational management has a level of experience in energy-from-waste and continuity at Covanta that is unmatched in our industry. Our President and CEO, Anthony Orlando, has been with Covanta for 25 years and held the position of CEO for 8 years. John Klett, our Chief Operating Officer, has 35 years of industry experience, including 26 years with Covanta. Each member of our senior-level operating team has worked for us for more than 20 years.

## **Strategy**

Our mission is to be the leading energy-from-waste company in the world, which we intend to pursue through the following key strategies:

*Grow the value of our existing portfolio.* We intend to grow the long-term value of our existing portfolio by working in partnership with our client communities, continuing to operate at our historic production levels, maintaining our facilities in optimal condition, continuously improving safety, health and environmental performance and managing our expenses. We also intend to effect organic growth through adding or extending waste and service contracts, seeking incremental revenue opportunities by investing in and enhancing the capabilities of our existing assets, deploying new or improved technologies targeted at increasing revenue or reducing costs and expanding our customer base and service offerings.

*Expand through development and/or acquisitions in selected attractive markets.* We seek to expand our portfolio primarily through the development of new facilities and acquisitions where we believe that market and regulatory conditions will enable us to invest our capital at attractive risk-adjusted rates of return. We are currently focusing on development opportunities in the U.S. and Canada, which we consider to be our core markets. In addition, we believe that there are numerous attractive opportunities in the United Kingdom, where national policies, such as a substantial tax on landfill use, are intended to achieve compliance with the EU Landfill Directive.

We believe that our approach to development opportunities is highly-disciplined, both with regard to our required rates of return and the manner in which potential new projects will be structured and financed. In general, prior to the commencement of construction of a new facility, we intend to enter

into long-term contracts with municipal and/or commercial customers for a majority of the disposal capacity and obtain non-recourse project financing for a majority of the capital investment. We intend to finance new projects in a prudent manner, minimizing the impact on our balance sheet and credit profile at the parent company level where possible.

*Develop and commercialize new technology.* We believe that our efforts to protect and expand our business will be enhanced by the development of additional technologies in such fields as emission controls, residue disposal, alternative waste treatment processes, gasification, and combustion controls. We have advanced our research and development efforts in these areas, and have developed and have patents pending for major advances in controlling nitrogen oxide ( NOx ) emissions and have a patent for a proprietary process to improve the handling of the residue from our energy-from-waste facilities. We have also entered into various agreements with multiple partners to invest in the development, testing or licensing of new technologies related to the transformation of waste materials into renewable fuels or the generation of energy, as well as improved environmental performance.

*Advocate for public policy favorable to energy-from-waste.* We seek to educate policymakers and regulators about the environmental and economic benefits of energy-from-waste and advocate for policies and regulations that appropriately reflect these benefits. Energy-from-waste is a highly regulated business, and as such we believe that it is critically important for us, as an industry leader, to play an active role in the debates surrounding potential policy developments that could impact our business.

*Allocate capital efficiently.* We plan to allocate capital to maximize stockholder value by investing in our existing businesses to maintain and enhance assets, effecting organic growth, investing in high value core business development projects and strategic acquisitions when available, and by returning surplus capital to our stockholders.

Our business offers sustainable solutions to energy and environmental problems, and our corporate culture is increasingly focused on themes of sustainability in all of its forms. We seek to achieve continuous improvement in environmental performance, beyond mere compliance with legally required standards.

## **Corporate information**

We were incorporated in Delaware as a holding company in 1992. We conduct all of our operations through subsidiaries, which are predominantly engaged in the businesses of waste and energy services. We also have investments in subsidiaries that are engaged in insurance operations in California, primarily in property and casualty insurance; however, these collectively account for only approximately 1% of our consolidated revenue.

## **Recent developments**

### *Refinancing of credit facilities*

We are currently in discussions with potential lenders concerning refinancing Covanta Energy's existing secured credit facilities (consisting of a \$300 million revolving credit facility, a \$320 million funded letter of credit facility and a \$650 million term loan facility), with new secured credit facilities. We have not obtained a commitment for the full amount of the new credit facilities or finalized the credit documentation governing the new credit facilities. However, we expect the credit facilities to consist of a revolving credit facility of approximately \$900 million and a term loan B facility of approximately \$300 million, and for the final documentation to include collateral, guarantees, representations,

covenants and events of default consistent with, but no less favorable to us or Covanta Energy (taken as a whole) than, those in Covanta Energy's existing credit facilities. See Description of other indebtedness Credit agreement. In addition, we anticipate that the full amount of the new revolving credit facility will be available for letters of credit, which will replace the letter of credit capacity currently provided under Covanta Energy's existing credit facility.

The closing of this offering of notes is not conditioned on the refinancing of Covanta Energy's existing credit facilities, and we cannot assure you that Covanta Energy will enter into new credit facilities on acceptable terms, or at all.

***Increases in dividend and share repurchase authorization***

On March 5, 2012, we announced the authorization by our board of directors of a 100% increase in our quarterly dividend to \$0.15 per share of our common stock, representing a dividend of \$0.60 per share on an annualized basis. Our board of directors also approved \$100 million for share repurchases to be added to the \$75 million remaining as of December 31, 2011 under our existing share repurchase program.

***Environmental investigation***

On March 5, 2012, we received a letter from the Department of Toxic Substances Control of the State of California (the Department) notifying us that the Department and several District Attorneys offices in the State of California are investigating the operation of our facilities in California focusing on issues relating to (i) the feedstock at our facilities and the impact of that fuel on the quality and character of the ash residue generated at these facilities and (ii) our compliance with California's environmental laws. We believe that our operations in California are in compliance with existing environmental laws and regulations in all material respects. We intend to fully cooperate with the Department's and District Attorneys' investigation. Although the investigation is in the initial stages and therefore the outcome is uncertain, we do not believe that the investigation or any matters arising therefrom will have a material adverse effect on our consolidated financial position or results of operations.

### Organization and indebtedness

The following chart illustrates, in summary form, our organization and indebtedness (principal amounts) as of December 31, 2011, after giving effect to this offering and the use of proceeds therefrom as described under Use of proceeds. In addition, the chart reflects the purchase on February 1, 2012 and the expected redemption on March 23, 2012 (collectively, the Debenture Redemption ) of an aggregate of \$25 million of our 1.00% Senior Convertible Debentures due 2027 (the Debentures ), which represents the remaining outstanding balance of such debentures as of December 31, 2011 (see Description of other indebtedness 1.00% senior convertible debentures due 2027 ). We are currently in discussions with potential lenders concerning the refinancing of our existing credit facilities. See Recent developments Refinancing of credit facilities above.

- (1) As of December 31, 2011, we had no borrowings outstanding under our revolving credit facility, with the full \$300 million of capacity available, of which up to \$200 million was available to be utilized for issuance of letters of credit. For additional information, see Description of other indebtedness.
- (2) As of December 31, 2011, we had \$277 million in letters of credit outstanding under our \$320 million funded letter of credit facility, with remaining capacity of up to an additional \$43 million. For additional information, see Description of other indebtedness.
- (3) Guaranteed by Covanta Holding and each of Covanta Energy's domestic subsidiaries (as such term is defined in the Credit and Guaranty Agreement dated February 9, 2007).
- (4) Reflects the repayment of \$392 million of Covanta Energy's term loan as the application of the proceeds from this offering, as further described in Use of proceeds.
- (5) Project debt is included as the principal portion of Project debt (short- and long-term) in our consolidated financial statements incorporated by reference herein. Generally, project debt is secured by the revenues generated by the project and other project assets, including the related facility. The only recourse to Covanta Holding or Covanta Energy with respect to project debt arises under the operating performance guarantees described under Description of other indebtedness. Certain subsidiaries have project debt which is recourse to our subsidiary Covanta ARC Holdings, Inc., but is non-recourse to Covanta Holding or Covanta Energy, which as of December 31, 2011 aggregated to \$209 million.

<b>Ranking</b>	The notes will be the Issuer's senior unsecured obligations and:

will rank senior in right of payment to all of the Issuer's existing and future subordinated indebtedness;

will be effectively subordinated to any of the Issuer's existing and future secured debt, to the extent of the value of the assets securing such debt; and

will be structurally subordinated to all of the existing and future liabilities (including trade payables) of each of our subsidiaries.

we would have had approximately \$2,149 million of total consolidated indebtedness (including the notes), of which \$842 million would have ranked equally with the notes;

of our total consolidated indebtedness, Covanta Energy would have had approximately \$227 million of secured indebtedness under its term loan to which the notes would have been effectively subordinated;

Covanta Energy would have had commitments available to be borrowed under the revolving loan facility of \$300 million, and an additional \$43 million available under the funded letter of credit facility (after giving effect to the \$277 million of outstanding letters of credit) to which the notes would have been effectively subordinated; and

our subsidiaries (including Covanta Energy) would have had \$2,222 million of total liabilities (excluding intercompany liabilities), all of which would have been structurally senior to the notes.

**Covenants**

The Issuer will issue the notes under its existing indenture with Wells Fargo Bank, National Association, as trustee, as supplemented by a supplemental indenture to be entered into on the closing date of this offering. The indenture will, among other things, limit the Issuer's ability and the ability of its restricted subsidiaries to:

incur additional indebtedness;

pay dividends or make other distributions or repurchase or redeem their capital stock;

prepay, redeem or repurchase certain debt;

make loans and investments;

sell assets;

incur liens;

enter into transactions with affiliates;

alter the businesses they conduct;

enter into agreements restricting our subsidiaries' ability to pay dividends; and

consolidate, merge or sell all or substantially all of their assets.

These covenants will be subject to a number of important exceptions and qualifications. In addition, if and for so long as the notes have an investment grade rating from both Standard & Poor's Ratings Group Inc. and Moody's Investors Service, Inc. and no default under the indenture has occurred, certain of the covenants listed above will be suspended. For more details, see Description of notes.

**Absence of public market for the notes**

The notes are a new issue of securities and there is currently no established trading market for the notes. We do not intend to apply for a listing of the notes on any securities exchange or an automated dealer quotation system. Accordingly, there can be no assurance as to the development or liquidity of any market for the notes. The underwriters have advised us that they currently intend to make a market in the notes. However, they are not obligated to do so, and any market making with respect to the notes may be discontinued without notice.

**U.S. federal income tax considerations**

Holders are urged to consult their own tax advisors with respect to the U.S. federal, state, local and foreign tax consequences of purchasing, owning and disposing of the notes. See Material U.S. federal income tax considerations.

**Use of proceeds**

We estimate that our net proceeds from this offering will be approximately \$392 million, after deducting discounts and commissions and estimated offering expenses. We intend to use the net proceeds of this offering to repay a portion of the amounts outstanding under Covanta Energy's \$650 million term loan facility. Pending such use, we may invest the net proceeds in short-term interest-bearing accounts, securities or similar investments. See Use of proceeds.

**Risk factors**

In evaluating an investment in the notes, prospective investors should carefully consider, along with the other information in this prospectus supplement, the specific factors set forth under Risk factors for risks involved with an investment in the notes.

(1) For all periods presented, Adjusted EBITDA is defined as earnings before interest, taxes, depreciation and amortization, as adjusted for additional items subtracted from or added to net income. The presentation of Adjusted EBITDA is intended to enhance the usefulness of our financial information by providing a measure which management internally uses to assess and evaluate the overall performance of its business. We use Adjusted EBITDA to provide further information that is useful to an understanding of the financial covenants contained in the credit

facilities of our most significant subsidiary, Covanta Energy, and as additional ways of viewing aspects of its operations that, when viewed with the GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provide a more complete understanding of our business. The calculation of Adjusted EBITDA is based on the definition in Covanta Energy's credit facilities as described below under Description of other indebtedness, which credit facilities we have guaranteed, and is substantially similar to that of Consolidated Adjusted EBITDA as defined in the indenture, but may differ in certain respects including the inclusion of operating results of unrestricted subsidiaries. Because our business is substantially comprised of that of Covanta Energy, our financial performance is substantially similar to that of Covanta Energy. For this reason, and in order to avoid use of multiple financial measures which are not all from the same entity, the calculation of Adjusted EBITDA and other financial measures presented herein are measured on a consolidated basis. Under its credit facilities, Covanta Energy is required to satisfy certain financial covenants, including certain ratios of which Adjusted EBITDA is an important component. Compliance with such financial covenants is expected to be the principal limiting factor which will affect our ability to engage in a broad range of activities in furtherance of our business, including making certain investments, acquiring businesses and incurring additional debt. Adjusted EBITDA should not be considered as an alternative to net income or cash flow provided by operating activities as indicators of our performance or liquidity or any other measures of performance or liquidity derived in accordance with GAAP. - (A) For the year ended December 31, 2011, the income tax provision includes a \$24 million benefit due to the reversal of uncertain tax positions, following the expiration of applicable statutes of limitations related to pre-emergence tax matters in the Covanta Energy bankruptcy. Since March 2004, we had held \$20 million in restricted funds intended to cover those uncertain tax positions. The restricted funds were included in other assets on our consolidated balance sheet. The expiration of the statutes of limitations triggered a liability to pre-petition claimants of approximately 73% of the restricted fund balance. Therefore, we recorded approximately \$15 million as other expense during the year ended December 31, 2011. For additional information, see Note 16 to our audited financial statements included in our annual report on Form 10-K for the year ended December 31, 2011, and incorporated by reference herein.
- (B) In 2010, we recorded a non-cash write-down of assets related to a note receivable from our Harrisburg EfW facility, the write-down of assets related to the Dublin project, and the write-down to fair value of corporate real estate and certain other assets.
- (C) During the year ended December 31, 2011, we recorded a non-cash write-off of \$5 million of capitalized development costs related to a development project which we ceased to pursue in the United Kingdom.
- (D) As a result of the purchase of outstanding Debentures, we recorded a loss on extinguishment of debt which is comprised of the difference between the fair value and carrying value of the liability component of the Debentures tendered the write-off of financing costs and fees incurred in conjunction with the tender offer.
- (E) In 2011, we recorded a \$9 million gain on the sale of two landfill gas projects. We received cash proceeds of approximately \$12 million.
- (F) Formally labeled Decrease in Unbilled Service Receivables. This amount represents a true-up between (a) revenue recognized in the period for client payments of project debt principal under service fee contract structures, which is accounted for on a straight-line basis over the term of the project debt, and (b) actual billings to clients for debt principal payments in the period. As a result of this adjustment, Adjusted EBITDA reflects the actual amounts billed to clients for debt service principal, not the straight-lined revenue as recognized.
- (G) Includes certain non-cash items and transaction-related costs that are added back under the definition of Adjusted EBITDA in Covanta Energy's credit agreement.

- (2) For all periods presented, Free Cash Flow is defined as cash flow provided by operating activities less maintenance capital expenditures, which are capital expenditures primarily to maintain our existing facilities. We use the non-GAAP measure of Free Cash Flow as a criterion of liquidity and performance-based components of employee compensation. We use Free Cash Flow as a measure of liquidity to determine the amounts we can reinvest in our businesses, such as amounts available to make acquisitions, invest in construction of new projects or make principal payments on debt, or amounts we can return to our stockholders through dividends and/or stock repurchases. Free Cash Flow should not be considered as an alternative to cash flow provided by operating activities as an indicator of our liquidity or any other measure of liquidity in accordance with GAAP. The following is a summary reconciliation of net cash provided by operating activities to Free Cash Flow for the three years ended December 31, 2009, 2010 and 2011:

(dollars in millions)	Years Ended December 31,

<b>Total purchase of property, plant and equipment</b>	<b>\$ 74</b>	<b>\$ 115</b>	<b>\$ 118</b>

- (3) For all periods presented, Adjusted Debt is calculated as total debt, less restricted funds held in trust for the express purpose of repayment of debt principal. The definition of Adjusted Debt is consistent with that of Consolidated Indebtedness as defined in the indenture, which is used in the calculation of Combined Leverage Ratio in the indenture. Adjusted Debt should not be considered as an alternative to total debt as an indicator of our liquidity or any other measures of liquidity derived in accordance with GAAP. **RISK FACTORS**

*You should carefully consider the following factors and other information contained or incorporated by reference in this prospectus supplement, including the risk factors set forth in our annual report on Form 10-K for the year ended December 31, 2011, before deciding to invest in the notes. Any of these risks or other risks and uncertainties not presently known to us or that we currently deem immaterial could materially adversely affect our business, financial condition, results of operations and cash flow, which could in turn materially adversely affect the price of the notes. If any of the following risks and uncertainties develop into actual events, our business, financial condition, results of operations or cash flows could be materially adversely affected. In that case, the trading price of the notes could decline and you may lose all or part of your investment.*

*This prospectus supplement also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of the risks faced by us described below and elsewhere in this prospectus supplement and the documents incorporated by reference herein. Please see Cautionary statement regarding forward-looking statements.*

**Risks relating to this offering**

**Our substantial indebtedness could adversely affect our business, financial condition and results of operations and our ability to meet our payment obligations under our indebtedness, including the notes.**

As of December 31, 2011, after giving effect to this offering and the use of proceeds therefrom as described under Use of proceeds and the Debenture Redemption, we would have had approximately \$2,149 million of total consolidated indebtedness (including the notes), of which \$842 million would have ranked equally with the notes; of our total consolidated indebtedness, Covanta Energy would have had approximately \$227 million of secured indebtedness under our term loan to which the notes would have been effectively subordinated; Covanta Energy would have had commitments available to be borrowed under the revolving loan facility of \$300 million and an additional \$43 million available under the funded letter of credit facility (after giving effect to \$277 million of outstanding letters of credit) to which the notes would have been effectively subordinated; and our subsidiaries (including Covanta Energy) would have had \$2,222 million of total liabilities (excluding intercompany liabilities), all of which would have been structurally senior to the notes.

The level of our consolidated indebtedness could have significant consequences on our future operations, including:

making it difficult for us to meet our payment and other obligations under our outstanding indebtedness;

limiting our ability to obtain additional financing to fund working capital, capital expenditures, acquisitions and other general corporate purposes;

subjecting us to the risk of increased sensitivity to interest rate increases on indebtedness under Covanta Energy's credit facilities;

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

limiting our flexibility in planning for, or reacting to, and increasing our vulnerability to, changes in our business, the industries in which we operate and the general economy; and

placing us at a competitive disadvantage compared to our competitors that have less debt or are less leveraged.

Any of the above-listed factors could have an adverse effect on our business, financial condition and results of operations and our ability to meet our payment obligations under the notes, the 7.25% Senior Notes, the Cash Convertible Notes (each as defined in Description of other indebtedness ) and our subsidiaries debt.

S-19

## Table of Contents

### **We cannot assure you that our cash flow from operations will be sufficient to service our indebtedness.**

Our ability to meet our obligations under our indebtedness, including the notes, depends on our ability to receive dividends and distributions from our subsidiaries in the future. This, in turn, is subject to many factors, some of which are beyond our control, including the following:

the continued operation and maintenance of our facilities, consistent with historical performance levels;

maintenance or enhancement of revenue from renewals or replacement of existing contracts and from new contracts to expand existing facilities or operate additional facilities;

market conditions affecting waste disposal and energy pricing, as well as competition from other companies for contract renewals, expansions and additional contracts, particularly after our existing contracts expire;

the continued availability of the benefits of our net operating loss carryforwards ( NOLs ); and

general economic, financial, competitive, legislative, regulatory and other factors.

We cannot assure you that our business will generate cash flow from operations, or that future borrowings will be available to us under Covanta Energy's credit facilities or otherwise, in an amount sufficient to enable us to meet our payment obligations under our outstanding indebtedness, including the notes, and to fund other liquidity needs. If we are not able to generate sufficient cash flow to service our debt obligations, we may need to refinance or restructure our debt, including the notes, sell assets, reduce or delay capital investments, or seek to raise additional capital. If we are unable to implement one or more of these alternatives, we may not be able to meet our payment obligations under our outstanding indebtedness, including the notes, which could have a material and adverse effect on our financial condition.

### **We may not have access to the cash flow and other assets of our subsidiaries that may be needed to make payments on our indebtedness, including the notes.**

All of our business is conducted through our subsidiaries. Our ability to make payments on the notes is dependent on the earnings of, and the distribution of funds to us from, our subsidiaries. Certain of our subsidiaries and affiliates are currently subject to project and other financing arrangements that restrict their ability to make dividends or distributions to us. While the indenture governing the notes and the agreements governing certain of our other existing indebtedness will limit the ability of our subsidiaries to incur consensual restrictions on their ability to pay dividends or make intercompany payments to us, these limitations are subject to qualifications and exceptions.

We derive our cash flow principally from our domestic and international project operations and businesses. A material portion of our domestic cash flows are expected to be derived from projects where financial tests and other covenants contained in respective debt arrangements must be satisfied in order for project subsidiaries to make cash distributions to our intermediate subsidiaries. We cannot assure you that our project subsidiaries will be able to satisfy such financial tests and covenants in the future, and that we will be able to receive cash distributions from such subsidiaries. In the event that we do not receive distributions from our subsidiaries, we may be unable to make required principal and interest payments on our indebtedness, including the notes.

**The notes will be effectively subordinated to any of our existing and future secured indebtedness and to any existing and future indebtedness and other liabilities of our subsidiaries.**

The notes will be our unsecured obligations and therefore will be effectively junior to our existing and future secured indebtedness to the extent of the value of the assets securing such indebtedness. Further, the indenture governing the notes will allow us to incur senior secured indebtedness in the future. As a result, in the event of our bankruptcy, liquidation, dissolution, reorganization, or similar proceeding, our assets will be available to satisfy obligations of our secured indebtedness before any payment may be made on the notes. To the extent that such assets cannot satisfy in full our secured indebtedness, the holders of such indebtedness would have a claim for any shortfall that would rank equally in right of payment with the notes. In such an event, we may not have sufficient assets remaining to pay amounts on any or all of the notes.

S-20

---

## **Table of Contents**

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes or, subject to existing or future contractual obligations between us and our subsidiaries, to provide us with funds for our payment obligations on our indebtedness or guarantees, whether by dividends, distributions, loans or other payments. Our right to receive any assets of any of our subsidiaries upon liquidation or reorganization, and, as a result, the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of that subsidiary's creditors, including lenders under Covanta Energy's credit facilities and lenders under the project level indebtedness.

As of December 31, 2011, after giving effect to this offering and the use of proceeds therefrom as described under "Use of proceeds" and the Debenture Redemption, we would have had approximately \$2,149 million of total consolidated indebtedness (including the notes), of which \$842 million would have ranked equally with the notes; of our total consolidated indebtedness, Covanta Energy would have had approximately \$227 million of secured indebtedness under our term loan to which the notes would have been effectively subordinated; Covanta Energy would have had commitments available to be borrowed under the revolving loan facility of \$300 million and an additional \$43 million available under the funded letter of credit facility (after giving effect to \$277 million of outstanding letters of credit) to which the notes would have been effectively subordinated; and our subsidiaries (including Covanta Energy) would have had \$2,222 million of total liabilities (excluding intercompany liabilities), all of which would have been structurally senior to the notes.

**Despite our current and anticipated indebtedness levels, we may still incur substantially more indebtedness or take other actions which would intensify the risks associated with our substantial indebtedness.**

Despite our current and anticipated consolidated indebtedness levels, we may be able to incur substantial additional indebtedness in the future, in connection with acquisitions or otherwise. Under Covanta Energy's credit facilities, upon the request of Covanta Energy, and subject to the satisfaction of certain conditions, additional term loan facilities and/or additional revolving credit facility commitments and incremental funded letter of credit facilities up to an aggregate of \$400 million may become available to Covanta Energy. Similarly, under Covanta Energy's contemplated new credit facilities, we anticipate having a revolving credit facility available for borrowings, including letters of credit, of approximately \$900 million. Although the terms of Covanta Energy's credit facilities, the indenture governing the 7.25% Senior Notes and the indenture that will govern the notes contain, and the terms of Covanta Energy's new credit facilities are expected to contain, restrictions on the incurrence of additional indebtedness by us, Covanta Energy and certain of our subsidiaries, these restrictions are, or are expected to be (in the case of Covanta Energy's new credit facilities), subject to a number of qualifications and exceptions and, under certain circumstances, indebtedness incurred in compliance with these restrictions could be substantial. If new indebtedness is added to our current or anticipated indebtedness levels, the substantial risks described above would intensify. Our ability and Covanta Energy's and its project subsidiaries' ability to recapitalize, incur additional debt, secure existing or future debt, and take a number of other actions that are not limited by the terms of the indenture for the notes could have the effect of diminishing our ability to make payments on the notes when due.

**Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.**

Borrowings under our senior credit facility are at variable rates of interest and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness will increase even though the amount borrowed remained the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease. Assuming all revolving loans are fully drawn, each quarter point change in interest rates would result in a \$3.1 million change in annual interest expense on our indebtedness under our senior credit facility. In the future, we may enter into interest rate swaps that involve the exchange of floating for fixed rate interest payments in order to reduce interest rate volatility. However, we may not maintain interest rate swaps with respect to all of our variable rate indebtedness, and any swaps we enter into may not fully mitigate our interest rate risk.

## **Table of Contents**

### **We may not be able to repurchase the notes upon a change of control.**

Upon the occurrence of specific kinds of change of control events, we will be required to offer to repurchase all outstanding notes at 101% of their principal amount, plus accrued and unpaid interest to the purchase date. Additionally, under the senior credit facility, a change of control (as defined therein) constitutes an event of default that permits the lenders to accelerate the maturity of borrowings under the respective agreements and terminate their commitments to lend. The source of funds for any purchase of the notes and repayment of borrowings under our senior credit facility would be our available cash or cash generated from our subsidiaries' operations or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the notes upon a change of control because we may not have sufficient financial resources to purchase all of the debt securities that are tendered upon a change of control and repay our other indebtedness that will become due. We may require additional financing from third parties to fund any such purchases, and we may be unable to obtain financing on satisfactory terms or at all. Further, our ability to repurchase the notes may be limited by law. In order to avoid the obligations to repurchase the notes and events of default and potential breaches of the credit agreement governing our senior credit facility, we may have to avoid certain change of control transactions that would otherwise be beneficial to us.

In addition, some important corporate events, such as leveraged recapitalizations, may not, under the indenture that will govern the notes, constitute a change of control that would require us to repurchase the notes, even though those corporate events could increase the level of our indebtedness or otherwise adversely affect our capital structure, credit ratings or the value of the notes. See Description of notes Change of control.

### **Holders of the notes may not be able to determine when a change of control giving rise to their right to have the notes repurchased has occurred following a sale of substantially all of our assets.**

The definition of change of control in the indenture that will govern the notes includes a phrase relating to the sale of all or substantially all of our assets. There is no precise established definition of the phrase substantially all under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase its notes as a result of a sale of less than all our assets to another person may be uncertain.

### **Federal and state fraudulent transfer laws may permit a court to void the notes, and if that occurs, you may not receive any payments on the notes.**

Federal and state fraudulent transfer and conveyance statutes may apply to the issuance of the notes. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the notes could be voided as a fraudulent transfer or conveyance if we (a) issued the notes with the intent of hindering, delaying or defrauding creditors or (b) received less than reasonably equivalent value or fair consideration in return for either issuing the notes and, in the case of (b) only, one of the following is also true at the time thereof:

we were insolvent or rendered insolvent by reason of the issuance of the notes;

the issuance of the notes left us with an unreasonably small amount of capital or assets to carry on the business;

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

we intended to, or believed that we would, incur debts beyond our ability to pay as they mature; or

we were a defendant in an action for money damages, or had a judgment for money damages docketed against us, and the judgment is unsatisfied after final judgment.

As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or a valid antecedent debt is secured or satisfied. A court would likely find that we did not receive reasonably equivalent value or fair consideration for the notes to the extent we did not obtain a reasonably equivalent benefit directly or indirectly from the issuance of the notes.

S-22

## Table of Contents

We cannot be certain as to the standards a court would use to determine whether or not we were insolvent at the relevant time or, regardless of the standard that a court uses, whether the notes would be subordinated to our other debt. In general, however, a court would deem an entity insolvent if:

the sum of its debts, including contingent and unliquidated liabilities, was greater than the fair saleable value of all of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they became due.

If a court were to find that the issuance of the notes was a fraudulent transfer or conveyance, the court could void the payment obligations under the notes and could subordinate the notes to presently existing and future indebtedness of us. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the notes. Further, the avoidance of the notes could result in an event of default with respect to our and our subsidiaries' other debt that could result in acceleration of that debt.

Finally, as a court of equity, the bankruptcy court may subordinate the claims in respect of the notes to other claims against us under the principle of equitable subordination if the court determines that (1) the holder of notes engaged in some type of inequitable conduct, (2) the inequitable conduct resulted in injury to our other creditors or conferred an unfair advantage upon the holders of notes and (3) equitable subordination is not inconsistent with the provisions of the bankruptcy code.

**There is currently no public market for the notes, and an active trading market may not develop for the notes. The failure of a market to develop for the notes could adversely affect the liquidity and value of your notes.**

The notes are a new issue of securities for which there is currently no active trading market. We do not intend to apply for listing of the notes on any securities exchange or for quotation of the notes on any automated dealer quotation system. We have been advised by the underwriters that following the completion of this offering, certain of the underwriters intend to make a market in the notes. However, they are not obligated to do so and any market-making activities with respect to the notes may be discontinued by them at any time without notice. In addition, any market-making activity will be subject to limits imposed by law. A market may not develop for the notes, and there can be no assurance as to the liquidity of any market that may develop for the notes. If an active, liquid market does not develop for the notes, the market price and liquidity of the notes may be adversely affected. If any of the notes are traded after their initial issuance, they may trade at a discount from their initial offering price.

The liquidity of the trading market, if any, and future trading prices of the notes will depend on many factors, including, among other things, prevailing interest rates, our operating results, financial performance and prospects, the market for similar securities and the overall securities market, and may be adversely affected by unfavorable changes in these factors. It is possible that the market for the notes will be subject to disruptions which may have a negative effect on the holders of the notes, regardless of our operating results, financial performance or prospects.

**The market price of the notes may be volatile.**

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

The market price of the notes will depend on many factors that may vary over time and some of which are beyond our control including:

our financial performance;

the amount of indebtedness we have outstanding;

S-23

**Table of Contents**

market interest rates;

the market for similar securities;

competition;

the size and liquidity of the market for the notes; and

general economic conditions.

As a result of these factors, you may only be able to sell your notes at prices below those you believe to be appropriate, including prices below the price you paid for them.

**An increase in interest rates could result in a decrease in the relative value of the notes.**

In general, as market interest rates rise, notes bearing interest at a fixed rate generally decline in value. Consequently, if you purchase the notes and market interest rates increase, the market value of your notes may decline. We cannot predict the future level of market interest rates.

**Any decline in the ratings of our corporate credit could adversely affect the value of the notes.**

Any decline in the ratings of our corporate credit or any indications from the rating agencies that their ratings on our corporate credit are under surveillance or review with possible negative implications could adversely affect the value of the notes. In addition, a ratings downgrade could adversely affect our ability to access capital.

**We will have broad discretion as to the use of any proceeds of this offering.**

As described under the "Use of proceeds" section, we will have significant flexibility in allocating any of the net proceeds of this offering. We intend to use the net proceeds of this offering to repay a portion of the amounts outstanding under Covanta Energy's term loan. See "Summary - Recent developments - Refinancing of credit facilities." Pending such use, we may invest the net proceeds in short-term interest-bearing accounts, securities or similar investments. If we fail to spend these funds effectively, it could harm our financial condition and result in lost business opportunities.

**Provisions of our restated certificate of incorporation, our amended and restated bylaws, our senior credit facility, the Cash Convertible Notes and the indentures governing each of the 7.25% Senior Notes and the notes could discourage an acquisition of us by a third party.**

Certain provisions of the Cash Convertible Notes, our senior credit facility and the indentures governing each of the 7.25% Senior Notes and the notes could make it more difficult or more expensive for a third party to acquire us. Upon the occurrence of certain transactions constituting a fundamental change, the Cash Convertible Notes, our senior credit facility and the holders of our 7.25% Senior Notes and the notes will have the right to require Covanta Holding or Covanta Energy, as the case may be, to repurchase their 7.25% Senior Notes, notes or Cash Convertible Notes or repay the facility, as applicable. We may also be required to increase the conversion rate of the Cash Convertible Notes. In addition, provisions of our restated certificate of incorporation and amended and restated bylaws, each as amended, could make it more difficult for a third party to acquire control of us. For example, our restated certificate of incorporation authorizes our board of directors to issue preferred stock without requiring any stockholder approval, and preferred stock could be issued as a defensive measure in response to a takeover proposal. All these provisions could make it more difficult for a third party to acquire us or discourage a third party from acquiring us even if an acquisition might be in the best interest of our stockholders.

S-24

## **Table of Contents**

**The notes will be initially held in book-entry form and therefore you must rely on the procedures of DTC to exercise any rights and remedies.**

Unless and until definitive notes are issued in exchange for book-entry interests in the notes, owners of the book-entry interests will not be considered owners or holders of notes. Instead, a nominee of DTC will be the sole holder of the notes.

Payments of amounts owing in respect of the global notes will be made by us to the paying agent. The paying agent will, in turn, make such payments to DTC or its nominee, which will distribute such payments to participants in accordance with their respective procedures.

Unlike holders of the notes themselves, owners of book-entry interests will not have the direct right to act upon solicitations for consents or requests for waivers or other actions from holders of notes. Instead, if you own a book-entry interest, you will be permitted to act only to the extent you have received appropriate proxies to do so from DTC or, if applicable, from a participant. We cannot assure you that procedures implemented for the granting of such proxies will be sufficient to enable you to vote on any requested actions on a timely basis.

The lack of physical certificates could also:

result in payment delays to you because the trustee will be sending distributions on the notes to DTC instead of directly to you;

make it difficult or impossible for you to pledge certificates if physical certificates are required by the party demanding the pledge; and

hinder your ability to resell notes because some investors may be unwilling to buy notes that are not in physical form.

**Our credit facilities and the indentures governing each of the notes and the 7.25% Senior Notes contain covenant restrictions that may limit our ability to operate our business.**

Covanta Energy's existing credit facilities contain, and Covanta Energy's contemplated new credit facilities are expected to contain, operating and financial restrictions and covenants that impose operating and financial restrictions on us and require us to meet certain financial tests. Additionally, the indentures governing each of the notes and the 7.25% Senior Notes contain operating and financial restrictions and covenants that impose operating and financial restrictions on us and require us to meet certain financial tests. Complying with these covenant restrictions may have a negative impact on our business, results of operations and financial condition by limiting our ability to engage in certain transactions or activities, including:

incurring additional indebtedness or issuing guarantees, in excess of specified amounts;

creating liens, in excess of specified amounts;

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

making certain investments, in excess of specified amounts;

entering into transactions with our affiliates;

selling certain assets, in excess of specified amounts;

making cash distributions or paying dividends to us, in excess of specified amounts;

redeeming capital stock or making other restricted payments to us, in excess of specified amounts; and

merging or consolidating with any person.

Our ability to comply with these covenants is dependent on our future performance, which will be subject to many factors, some of which are beyond our control, including prevailing economic conditions. As a result of these covenants, our ability to respond to changes in business and economic conditions and to obtain additional financing, if needed, may be restricted, and we may be prevented from engaging in transactions that might

S-25

**Table of Contents**

otherwise be beneficial to us. In addition, the failure to comply with these covenants in Covanta Energy's existing or contemplated new credit facilities could result in a default thereunder and a default under the notes and the 7.25% Senior Notes. Upon the occurrence of such an event of default, the lenders under Covanta Energy's existing or contemplated new credit facilities could elect to declare all amounts outstanding under such agreement, together with accrued interest, to be immediately due and payable. If the lenders accelerate the payment of the indebtedness under Covanta Energy's existing or contemplated new credit facilities, we cannot assure you that the assets securing such indebtedness would be sufficient to repay in full indebtedness under the notes and our other indebtedness, which could have a material and adverse affect on our financial condition.

For purposes of computing the ratio of earnings to fixed charges, earnings consists of income before income tax expense and equity in net income from unconsolidated investments plus dividends from unconsolidated investments and fixed charges less capitalized interest. **USE OF PROCEEDS**

We estimate that our net proceeds from this offering will be approximately \$392 million, after deducting discounts and commissions and estimated offering expenses.

We intend to use the net proceeds of this offering to repay a portion of the amounts outstanding under Covanta Energy's \$650 million term loan facility, which borrowings were incurred for general corporate purposes. Pending such use, we may invest the net proceeds in short-term interest-bearing accounts, securities or similar investments.

At December 31, 2011, outstanding borrowings under Covanta Energy's \$650 million term loan facility totaled \$619 million. Borrowings under Covanta Energy's term loan facility bear interest at LIBOR plus 1.50% per annum.

For additional information regarding the refinancing of Covanta Energy's credit facilities, See Summary Recent developments Refinancing of credit facilities.

**Table of Contents****DESCRIPTION OF OTHER INDEBTEDNESS****Credit agreement**

Our existing credit facilities are comprised of:

a \$300 million revolving credit facility due 2013, which includes a \$200 million sub-facility for the issuance of letters of credit (the Revolving Credit Facility );

a \$320 million funded letter of credit facility due 2014 (the Funded L/C Facility ); and

a term loan facility, due 2014, in the initial amount of \$650 million and of which \$619 million was outstanding as of December 31, 2011 (the Term Loan Facility ).

Under the existing credit facilities, we are obligated to apply a portion of excess cash flow (as defined in the existing credit agreement) calculated on an annual basis to repay borrowings under the credit facilities. The portion of excess cash flow to be used for this purpose is 50%, 25%, or 0%, based on the leverage ratio during the relevant period.

Covanta Energy is the borrower under our existing credit facilities, and Covanta Energy's obligations thereunder are guaranteed by Covanta Holding and each of Covanta Energy's domestic restricted subsidiaries (excluding special purpose project company subsidiaries and subsidiaries restricted from providing guarantees by contract, regulatory limitation or otherwise). The obligations of Covanta Energy and each guarantor in respect of the existing credit facilities are secured by a perfected first priority security interest in their tangible and intangible assets, including all of the capital stock of Covanta Energy and each of its restricted subsidiaries (limited, in the case of foreign subsidiaries, to 65% of the capital stock of first tier foreign subsidiaries and other limited exceptions).

We are currently in discussions with potential lenders concerning the refinancing of these credit facilities. The table below illustrates Covanta Energy's current and proposed new credit facilities. See Summary Recent developments Refinancing of credit facilities.

	<b>Existing Credit Facilities</b>	<b>Proposed New Credit Facilities</b>
Term loan facility	\$650 million	\$300 million
Revolving credit facility	\$300 million	\$900 million
Letter of credit sublimit under revolving credit facility	\$200 million	\$900 million
Funded letter of credit facility	\$320 million	Included in revolving credit facility

*Financial Covenants*

The loan documentation under Covanta Energy's existing credit facilities contains customary affirmative and negative covenants and financial covenants as discussed in Note 11 to our audited financial statements incorporated by reference herein. We are in compliance with the covenants

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

under these credit facilities. The maximum Covanta Energy capital expenditures that could have been incurred in 2011 to maintain existing operating businesses was approximately \$230 million as of December 31, 2011.

## **Table of Contents**

The financial covenants of these credit facilities, which are measured on a trailing four quarter period basis, include the following:

maximum Covanta Energy leverage ratio of 3.50 to 1.00 for the four quarter period ended December 31, 2011 and thereafter, which measures Covanta Energy's principal amount of consolidated debt less certain restricted funds dedicated to repayment of project debt principal and construction costs ( Consolidated Adjusted Debt ) to its adjusted earnings before interest, taxes, depreciation and amortization, as calculated under the Credit Facilities ( Adjusted EBITDA ). The definition of Adjusted EBITDA in the credit facilities excludes certain non-cash charges, and for purposes of calculating the leverage ratio and interest coverage ratios is adjusted on a pro forma basis for acquisitions and dispositions made during the relevant period;

maximum Covanta Energy capital expenditures incurred to maintain existing operating businesses of \$100 million per fiscal year, subject to adjustment due to an acquisition by Covanta Energy; and

minimum Covanta Energy interest coverage ratio of 3.00 to 1.00, which measures Covanta Energy's Adjusted EBITDA to its consolidated interest expense plus certain interest expense of ours, to the extent paid by Covanta Energy.

#### **7.25% Senior Notes Due 2020**

In 2010, we sold \$400 million aggregate principal amount of 7.25% Senior Notes due 2020 (the 7.25% Senior Notes ). Net proceeds from the sale of the 7.25% Senior Notes were \$390 million, consisting of gross proceeds of \$400 million net of \$10 million in offering expenses. We used \$317 million of the net proceeds of the 7.25% Senior Notes offering to purchase 85% of the total outstanding 1.00% Senior Convertible Debentures due 2027 (described below). The remaining net proceeds were used for general corporate purposes.

The 7.25% Senior Notes are senior unsecured obligations, ranking equally in right of payment with the notes offered hereby and all of our other existing and future senior unsecured indebtedness and senior to our future subordinated indebtedness. The 7.25% Senior Notes are effectively subordinated to our existing and future secured indebtedness to the extent of the value of the assets securing that indebtedness and to the existing and future indebtedness and other liabilities of our subsidiaries. None of our subsidiaries guarantees the 7.25% Senior Notes.

Interest on the 7.25% Senior Notes is payable semi-annually on June 1 and December 1 of each year, commencing on June 1, 2011 and the 7.25% Senior Notes will mature on December 1, 2020 unless earlier redeemed or repurchased.

At our option, the 7.25% Senior Notes are subject to redemption at any time on or after December 1, 2015 at the redemption prices set forth in the indenture for such 7.25% Senior Notes, together with accrued and unpaid interest, if any, to the date of redemption. At any time prior to December 1, 2013, we may redeem up to 35% of the original principal amount of the 7.25% Senior Notes with the proceeds of certain equity offerings at a redemption price of 107.25% of the principal amount of the 7.25% Senior Notes, together with accrued and unpaid interest, if any, to the date of redemption. In addition, at any time prior to December 1, 2015, we may redeem the 7.25% Senior Notes, in whole but not in part, at a price equal to 100% of the principal amount, plus accrued and unpaid interest, plus a make-whole premium. If we sell certain of our assets or experience specific kinds of changes in control, we must offer to purchase the 7.25% Senior Notes.

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

The 7.25% Senior Notes contain covenants and events of default substantially the same as those contained in the notes offered hereby.

### **3.25% Cash Convertible Senior Notes Due 2014**

In 2009, we sold \$460 million aggregate principal amount of 3.25% Cash Convertible Senior Notes due 2014 (the "Cash Convertible Notes"). Net proceeds from the sale of the Cash Convertible Notes were \$387 million, consisting of gross proceeds of \$460 million from the 3.25% Notes and \$54 million of proceeds from the Warrants (described below), less the \$112 million purchase price for the Note Hedge (described below) and \$14 million of purchase discounts and other offering expenses. We used these net proceeds for general corporate purposes.

The Cash Convertible Notes are senior unsecured obligations, ranking equally in right of payment with the notes offered hereby and all of our other existing and future senior unsecured indebtedness and senior to our future subordinated indebtedness. The Cash Convertible Notes are effectively subordinated to our existing and future secured indebtedness to the extent of the value of the assets securing that indebtedness and to the existing and future indebtedness and other liabilities of our subsidiaries. None of our subsidiaries guarantees the Cash Convertible Notes.

Interest on the Cash Convertible Notes is payable semi-annually on June 1 and December 1 of each year, commencing on December 1, 2009, and the Cash Convertible Notes will mature on June 1, 2014. Under limited circumstances, we may be required to pay contingent interest on the Cash Convertible Notes as a result of failure to comply with the reporting obligations in the indenture, failure to file required SEC documents and reports or if the holders cannot freely trade the Cash Convertible Notes. When applicable, the contingent interest payable on the Cash Convertible Notes ranges from 0.25% to 0.50% per annum over the applicable term as provided under the indenture for the Cash Convertible Notes.

Under limited circumstances, the Cash Convertible Notes are convertible by the holders thereof into cash only, based on a conversion rate of 60.3521 shares of our common stock per \$1,000 principal amount of 3.25% Notes (which represents a conversion price of approximately \$16.57 per share) subject to certain customary adjustments as provided in the indenture for the Cash Convertible Notes. Subject to the limited exception described in the indenture, we will not deliver common stock (or any other securities) upon conversion under any circumstances.

In order to reduce our exposure to potential cash payments in excess of the principal amount of the Cash Convertible Notes resulting from the cash conversion option, we entered into two separate privately negotiated transactions with affiliates of certain of the initial purchasers of the Cash Convertible Notes (the "Option Counterparties") for a net cash outflow of \$58 million.

We purchased, for \$112 million, net cash-settled call options on our common stock (the "Note Hedge") initially correlating to the same number of shares as those initially underlying the Cash Convertible Notes, subject to customary adjustments similar to those of the cash conversion option embedded in the Cash Convertible Notes. The Note Hedge is a derivative which is recorded at fair value quarterly and is recorded in other noncurrent assets in our consolidated balance sheets. The strike price of the call options is approximately \$16.57 per share and is subject to customary adjustments.

We sold, for \$54 million, warrants (the "Warrants") correlating to the same number of shares as those initially underlying the Cash Convertible Notes, which are net share settled and could have a dilutive effect to the extent that the market price of our common stock exceeds the then effective strike price of the Warrants. The strike price of the Warrants is approximately \$22.99 per share and is subject to customary adjustments. The Warrants are recorded at the amounts received net of expenses within additional paid-in capital in our consolidated balance sheets.

We have certain contingent obligations related to the Cash Convertible Notes. These are:

Holders may require us to repurchase the Cash Convertible Notes, if a fundamental change occurs; and

S-34

**Table of Contents**

Holders may exercise their conversion rights upon the occurrence of certain events, which would require us to pay the conversion settlement amount in cash.

For a detailed description of the terms and accounting treatment of the Cash Convertible Notes, the Note Hedge and the Warrants, see Notes 11, 13 and 14 to our audited financial statements incorporated herein by reference.

**1.00% Senior Convertible Debentures Due 2027**

In November 2010, we commenced a tender offer to purchase for cash any and all of our outstanding 1.00% Senior Convertible Debentures due 2027 (the "Debentures"). We offered to purchase the Debentures at a purchase price of \$990 for each \$1,000 principal amount of Debentures, plus accrued and unpaid interest. During the years ended December 31, 2011 and 2010, \$32 million and \$317 million, respectively, of the Debentures were purchased. We used a portion of the net proceeds of the 7.25% Senior Note offering discussed above to fund the purchase price and accrued and unpaid interest of the Debentures. As of December 31, 2011, there were \$25 million aggregate principal amount of the Debentures outstanding. On February 1, 2012, holders of \$23 million of outstanding Debentures exercised their option for us to redeem the Debentures at par. We expect to exercise our call option and redeem the remaining \$2 million of Debentures on March 23, 2012.

**Project debt*****Americas project debt***

Financing for the energy-from-waste projects is generally accomplished through tax-exempt and taxable municipal revenue bonds issued by or on behalf of the municipal client. For such facilities that are owned by a subsidiary of ours, the municipal issuers of the bond loan the bond proceeds to our subsidiary to pay for facility construction. For such facilities, project-related debt is included as Project debt (short- and long-term) in our consolidated financial statements. Generally, such project debt is secured by the revenues generated by the project and other project assets including the related facility. The only potential recourse to us (other than recourse to specific project subsidiaries or certain subsidiaries of Covanta ARC Holdings, Inc.) with respect to project debt arises under the operating performance guarantees described below under Other commitments and performance guarantees. Certain subsidiaries had recourse liability for project debt which is recourse to certain Covanta ARC Holdings, Inc. subsidiaries, but is otherwise non-recourse to us and as of December 31, 2011 was as follows (dollars in millions):

Covanta Niagara, L.P. Series 2001 Bonds	\$ 165
Covanta Southeastern Connecticut Company Corporate Credit Bonds	44
<b>Total</b>	<b>\$ 209</b>

***International project debt***

Financing for projects in which we have an ownership or operating interest is generally accomplished through commercial loans from local lenders or financing arranged through international banks, bonds issued to institutional investors and from multilateral lending institutions based

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

in the United States. Such debt is generally secured by the revenues generated by the project and other project assets and is without recourse to us other than with respect to certain performance guarantees in instances where our subsidiaries operate the project. In most projects, the instruments defining the rights of debt holders generally provide that the project subsidiary may not make distributions to its parent until periodic debt service obligations are satisfied and other financial covenants are complied with.

S-35

**Table of Contents*****Restricted funds held in trust***

Restricted funds held in trust are primarily amounts received by third-party trustees relating to certain projects we own which may be used only for specified purposes. We generally do not control these accounts. They primarily include debt service reserves for payment of principal and interest on project debt, and deposits of revenues received with respect to projects prior to their disbursement, as provided in the relevant indenture or other agreements. Such funds are invested principally in money market funds, bank deposits and certificates of deposit, United States treasury bills and notes, and United States government agency securities.

Restricted fund balances are as follows (dollars in millions):

	As of December 31,			
	Current	2011 Noncurrent	Current	2010 Noncurrent
Debt service funds principal	\$ 56	\$ 57	\$ 85	\$ 72
Debt service funds interest	8		6	
Total debt service funds	64	57	91	72
Revenue funds	16		18	
Other funds	21	33	17	35
Total	\$ 101	\$ 90	\$ 126	\$ 107

Of the \$191 million in total restricted funds as of December 31, 2011, approximately \$113 million was designated for future payment of project debt principal.

***Other commitments and performance guarantees***

Other commitments as of December 31, 2011 were as follows (dollars in millions):

	Commitments Expiring by Period		
	Total	Less Than One Year	More Than One Year
Letters of credit	\$ 277	\$ 6	\$ 271
Surety bonds	354		354
Total other commitments net	\$ 631	\$ 6	\$ 625

The letters of credit were issued under various credit facilities (primarily the funded L/C facility) to secure our performance under various contractual undertakings related to the projects or to secure obligations under our insurance program. Each letter of credit relating to a project is

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

required to be maintained in effect for the period specified in related project contracts, and generally may be drawn if it is not renewed prior to expiration of that period.

We believe that we will be able to fully perform under our contracts to which these existing letters of credit relate, and that it is unlikely that letters of credit would be drawn because of a default of our performance obligations. If any of these letters of credit were to be drawn by the beneficiary, the amount drawn would be immediately repayable by us to the issuing bank. If we do not immediately repay such amounts drawn under these letters of credit, unreimbursed amounts would be treated under the credit facilities as additional term loans in the case of letters of credit issued under the funded L/C facility, or as revolving loans in the case of letters of credit issued under the revolving loan facility.

S-36

**Table of Contents**

The surety bonds listed on the table above relate primarily to performance obligations (\$341 million) and support for closure obligations of various energy projects when such projects cease operating (\$13 million). Were these bonds to be drawn upon, we would have a contractual obligation to indemnify the surety company.

We have issued or are party to guarantees and related contractual support obligations undertaken pursuant to agreements to construct and operate waste and energy facilities. For some projects, such performance guarantees include obligations to repay certain financial obligations if the project revenues are insufficient to do so, or to repurchase interests of project investors under limited circumstances, or to obtain or guarantee financing for a project. With respect to our businesses, we have issued guarantees to municipal clients and other parties that our subsidiaries will perform in accordance with contractual terms, including, where required, the payment of damages or other obligations. Additionally, damages payable under such guarantees for our energy-from-waste facilities could expose us to recourse liability on project debt. If we must perform under one or more of such guarantees, our liability for damages upon contract termination would be reduced by funds held in trust and proceeds from sales of the facilities securing the project debt and is presently not estimable. Depending upon the circumstances giving rise to such damages, the contractual terms of the applicable contracts, and the contract counterparty's choice of remedy at the time a claim against a guarantee is made, the amounts owed pursuant to one or more of such guarantees could be greater than our then-available sources of funds. To date, we have not incurred material liabilities under such performance guarantees. See the section entitled "Risk Factors" We have provided guarantees and financial support in connection with our projects included in our annual report on Form 10-K for the year ended December 31, 2011, and incorporated by reference herein.

We are pursuing additional growth opportunities in the United Kingdom, Ireland, Canada and the United States through the development and construction of new waste and energy facilities. Due to permitting and other regulatory factors, these projects generally evolve over lengthy periods and project financing is generally obtained at the time construction begins, at which time we can more accurately determine our commitment for a development project.

On and after April 1, 2017, the Company may redeem the Notes, in whole or in part, upon not less than 30 nor more than 60 days' notice, at the following redemption prices (expressed as a percentage of principal amount of the Notes to be redeemed) set forth below, plus accrued and unpaid interest on the Notes, if any, to the applicable date of redemption, (subject to the right of Holders of record on the relevant record date to receive interest due on an interest payment date following on or prior to such redemption date), if redeemed during the twelve-month period beginning on April 1 of the years indicated below:

In addition, at any time prior to April 1, 2017, the Company may redeem the Notes, in whole but not in part, upon not less than 30 nor more than 60 days' prior notice mailed to each Holder or otherwise in accordance with the procedures of the depositary at a redemption price equal to 100% of the aggregate principal amount of the Notes plus the Applicable Premium, plus accrued and unpaid interest, if any, to the redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on an interest payment date falling on or prior to such redemption date).

If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount thereof to be redeemed. A new Note in principal amount equal to the unredeemed portion thereof will be issued in the name of the Holder thereof upon cancellation of the original Note.

Any redemption or notice may, at the Company's discretion, be subject to one or more conditions precedent, including completion of an Equity Offering or other corporate transaction.

## **Table of Contents**

### **Mandatory redemption; open market purchases**

The Company is not required to make any mandatory redemption or sinking fund payments with respect to the Notes. However, under certain circumstances, the Company may be required to offer to purchase the Notes as described under the caption **Repurchase at the option of holders**.

The Company may acquire Notes by means other than a redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws, so long as such acquisition does not otherwise violate the terms of the Indenture.

### **Ranking**

The Notes will be general unsecured obligations of the Company that rank senior in right of payment to all existing and future Indebtedness that is expressly subordinated in right of payment to the Notes. The Notes will rank equally in right of payment with all existing and future Indebtedness of the Company that is not so subordinated and will be effectively subordinated to all of our Secured Indebtedness (to the extent of the value of the assets securing such Indebtedness) and liabilities of our Subsidiaries, none of which will Guarantee the Notes. In the event of bankruptcy, liquidation, reorganization or other winding up of the Company or upon a default in payment with respect to, or the acceleration of, any senior Secured Indebtedness, the assets of the Company that secure such senior Secured Indebtedness will be available to pay obligations on the Notes only after all Indebtedness under such senior Secured Indebtedness and certain hedging obligations and cash management obligations has been repaid in full from such assets. We advise you that there may not be sufficient assets remaining to pay amounts due on any or all the Notes then outstanding.

Assuming that we had applied the net proceeds we receive from the offering in the manner described under **Use of proceeds** and after giving effect to the Debenture Redemption, as of December 31, 2011:

outstanding Indebtedness of the Company (including its Guarantee under the Senior Credit Facility) would have been \$2,149 million, \$907 million of which would have been secured, and Covanta Energy Corporation would have additional commitments of \$300 million under the Senior Credit Facility available to it (after giving effect to \$277 million of outstanding letters of credit), all of which would, if drawn, be Guaranteed by the Company on a senior secured basis;

the Company would have had no Subordinated Obligations; and

the Company's Subsidiaries (including Covanta Energy), none of which will Guarantee the Notes, would have had \$2,222 million of liabilities (excluding intercompany liabilities).

Although the Indenture will limit the amount of Indebtedness that the Company and its Restricted Subsidiaries may Incur, such Indebtedness may be substantial and a significant portion of such Indebtedness may be Secured Indebtedness or structurally senior to the Notes.

### **Repurchase at the option of holders**

*Change of control*

If a Change of Control occurs, unless the Company has exercised its right to redeem all of the Notes as described under *Optional redemption*, the Company will make an offer to purchase all of the Notes (the *Change of Control Offer*) at a purchase price in cash equal to 101% of the principal amount of the Notes plus accrued and unpaid interest, if any, to the date of purchase (the *Change of Control Payment*) (subject to the right of Holders of record on the relevant record date to receive interest due on an interest payment date falling on or prior to the date of purchase).

S-41

**Table of Contents**

Within 30 days following any Change of Control, unless the Company has exercised its right to redeem all of the Notes as described under Optional redemption, the Company will mail a notice of such Change of Control Offer to each Holder, with a copy to the Trustee, stating:

(1) that a Change of Control Offer is being made and that all Notes properly tendered pursuant to such Change of Control Offer will be accepted for purchase by the Company at a purchase price in cash equal to 101% of the principal amount of such Notes plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of Holders of record on a record date to receive interest on an interest payment date);

(2) the purchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed) (the *Change of Control Payment Date*); and

(3) the procedures determined by the Company, consistent with the Indenture, that a Holder must follow in order to have its Notes repurchased.

On the Change of Control Payment Date, the Company will, to the extent lawful:

(1) accept for payment all Notes or portions of Notes (of \$2,000 or larger integral multiples of \$1,000 in excess thereof) properly tendered pursuant to the Change of Control Offer;

(2) deposit with the paying agent an amount equal to the Change of Control Payment in respect of all Notes or portions of Notes so tendered; and

(3) deliver or cause to be delivered to the Trustee for cancellation the Notes so accepted together with an Officers Certificate stating the aggregate principal amount of Notes or portions of Notes being purchased by the Company in accordance with the terms of this covenant.

The Paying Agent will promptly mail to each Holder of Notes so tendered the Change of Control Payment for such Notes, and the Trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; *provided* that each such new Note will be in a principal amount of \$2,000 or integral multiples of \$1,000 in excess thereof.

If the Change of Control Payment Date is on or after an interest record date and on or before the related interest payment date, any accrued and unpaid interest to the Change of Control Payment Date will be paid on the relevant interest payment date to the Person in whose name a Note is registered at the close of business on such record date.

The Change of Control provisions described above will be applicable whether or not any other provisions of the Indenture are applicable. Except as described above with respect to a Change of Control, the Indenture does not contain provisions that permit the Holders to require that the Company repurchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

Prior to making a Change of Control Payment, and as a condition to such payment (1) the requisite holders of each issue of Indebtedness issued under an indenture or other agreement that may be violated by such payment shall have consented to such Change of Control Payment being made and waived the event of default, if any, caused by the Change of Control or (2) the Company will repay all outstanding Indebtedness issued under an indenture or other agreement that may be violated by a Change of Control Payment or the Company will offer to repay all such Indebtedness, and make payment to the holders of such Indebtedness that accept such offer, and obtain waivers of any event of default arising under the relevant indenture or other agreement from the remaining holders of such Indebtedness. The Company covenants to effect such repayment or obtain such consent prior to making a Change of Control Payment, it being a default of the Change of Control provisions of the Indenture if the Company fails to comply with such covenant. A default under the Indenture may result in a cross-default under the Senior Credit Facility.

S-42

## **Table of Contents**

The Company will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

The Company will comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with provisions of the Indenture, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations described in the Indenture by virtue of the conflict.

The Change of Control provisions described above may deter certain mergers, tender offers and other takeover attempts involving the Company by increasing the capital required to effectuate such transactions. The definition of "Change of Control" includes a disposition of all or substantially all of the property and assets of the Company and its Restricted Subsidiaries taken as a whole to any Person. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of all or substantially all of the property or assets of a Person. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder may require the Company to make an offer to repurchase the Notes as described above.

### ***Asset sales***

The Company will not, and will not permit any of its Restricted Subsidiaries to, cause, make or suffer to exist any Asset Disposition *unless*:

(1) the Company or such Restricted Subsidiary, as the case may be, receives consideration at least equal to the Fair Market Value (such Fair Market Value to be determined as of the date of entering into a contractual agreement for such Asset Disposition) of the shares and assets subject to such Asset Disposition;

(2) except in the case of a Permitted Asset Swap, at least 75% of the consideration from such Asset Disposition received by the Company or such Restricted Subsidiary, as the case may be, is in the form of cash or Cash Equivalents; and

(3) an amount equal to 100% of the Net Available Cash from such Asset Disposition is applied by the Company or such Restricted Subsidiary, as the case may be, within 365 days from the later of the date of such Asset Disposition or the receipt of such Net Available Cash, as follows:

(a) to permanently reduce (and permanently reduce commitments with respect thereto): (x) obligations under the Senior Credit Facility or (y) Secured Indebtedness of the Company (other than any Disqualified Stock or Subordinated Obligations) or Secured Indebtedness of a Restricted Subsidiary (other than any Disqualified Stock) (in each case other than Indebtedness owed to the Company or an Affiliate of the Company);

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

(b) to permanently reduce obligations under other Indebtedness of the Company (other than any Disqualified Stock or Subordinated Obligations) or Indebtedness of a Restricted Subsidiary (other than any Disqualified Stock), in each case other than Indebtedness owed to the Company or an Affiliate of the Company; *provided* that except in the case of the reduction in obligations of Indebtedness of a Restricted Subsidiary, the Company shall equally and ratably reduce Obligations under the Notes as provided under Optional redemption, through open market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Disposition Offer) to all Holders to purchase their Notes at 100% of the principal amount thereof, plus the amount of accrued but unpaid interest on the amount of Notes that would otherwise be prepaid; or

(c) to invest in Additional Assets;

*provided* that pending the final application of any such Net Available Cash in accordance with clause (a), (b) or (c) above, the Company and its Restricted Subsidiaries may temporarily reduce Indebtedness (including under a revolving Senior Credit Facility) or otherwise invest such Net Available Cash in any manner not prohibited by the Indenture; *provided* further that in the case of clause (c), a binding commitment to invest in Additional Assets shall be treated as a permitted application of the Net Available Cash from the date of such commitment so long as the Company or such other Restricted Subsidiary enters into such commitment with the good faith expectation that such Net Available Cash will be applied to satisfy such commitment within 270 days of such commitment (an *Acceptable Commitment* ) and, in the event any Acceptable Commitment is later cancelled or terminated for any reason before the Net Available Cash is applied in connection therewith, the Company or such Restricted Subsidiary enters into another Acceptable Commitment (a *Second Commitment* ) within 90 days of such cancellation or termination and with the good faith expectation that such Net Available Cash will be applied within 180 days of such Second Commitment, it being understood that if a Second Commitment is later cancelled or terminated for any reason before such Net Available Cash is applied, then such Net Available Cash shall constitute Excess Proceeds.

For the purposes of clause (2) above and for no other purpose, the following will be deemed to be cash:

(1) any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet) of the Company or any Restricted Subsidiary (other than liabilities that are by their terms subordinated to the Notes) that are assumed by the transferee of any such assets and from which the Company and all Restricted Subsidiaries have been validly released by all creditors in writing;

(2) any securities, notes or other obligations received by the Company or any Restricted Subsidiary from the transferee that are converted by the Company or such Restricted Subsidiary into cash (to the extent of the cash received) within 180 days following the closing of such Asset Disposition; and

(3) any Designated Noncash Consideration received by the Company or any of its Restricted Subsidiaries in such Asset Disposition having an aggregate Fair Market Value, taken together with all other Designated Noncash Consideration received pursuant to this clause (3) that is at that time outstanding, not to exceed the greater of (x) \$100.0 million and (y) 2.5% of Total Tangible Assets at the time of the receipt of such Designated Noncash Consideration (with the Fair Market Value of each item of Designated Noncash Consideration being measured at the time received without giving effect to subsequent changes in value).

Any Net Available Cash from Asset Dispositions that are not applied or invested as provided in the preceding paragraph will be deemed to constitute *Excess Proceeds*. On the 366th day after an Asset Disposition, if the aggregate amount of Excess Proceeds exceeds \$25.0 million, the Company will be required to make an offer ( *Asset Disposition Offer* ) to all Holders and, to the extent required by the terms of outstanding Pari Passu Indebtedness, to all holders of such Pari Passu Indebtedness, to purchase the maximum aggregate principal amount of Notes and any such Pari Passu Indebtedness that may be purchased out of the Excess Proceeds, at an offer price in cash in an amount equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of purchase (subject to the right of Holders of record on a record date to receive interest on the relevant interest payment date), in accordance with the procedures set forth in the Indenture or the agreements governing the Pari Passu Indebtedness, as applicable, in each case in denominations of \$2,000 and larger integral multiples of \$1,000 in excess thereof. The Company shall commence an Asset Disposition Offer with respect to Excess Proceeds by mailing (or otherwise communicating in accordance with the procedures of DTC) the notice required pursuant to the terms of the Indenture, with a copy to the Trustee. To the extent that the aggregate amount of Notes and Pari Passu Indebtedness validly tendered and not properly withdrawn pursuant to an Asset Disposition Offer is less than the Excess Proceeds, the Company may use any remaining Excess Proceeds for general corporate purposes, subject to other covenants contained in the Indenture. If the aggregate principal amount of Notes surrendered by Holders thereof and other Pari Passu Indebtedness

## Table of Contents

surrendered by holders or lenders, collectively, exceeds the amount of Excess Proceeds, the Trustee shall select the Notes and Pari Passu Indebtedness to be purchased on a *pro rata* basis on the basis of the aggregate accreted value or principal amount of tendered Notes and Pari Passu Indebtedness. Upon completion of such Asset Disposition Offer, the amount of Excess Proceeds shall be reset at zero.

The Asset Disposition Offer will remain open for a period of 20 Business Days following its commencement, except to the extent that a longer period is required by applicable law (the *Asset Disposition Offer Period* ). No later than five Business Days after the termination of the Asset Disposition Offer Period (the *Asset Disposition Purchase Date* ), the Company will apply all Excess Proceeds to the purchase of the aggregate principal amount of Notes and, if applicable, Pari Passu Indebtedness (on a *pro rata* basis, if applicable) required to be purchased pursuant to this covenant (the *Asset Disposition Offer Amount* ) or, if less than the Asset Disposition Offer Amount of Notes (and, if applicable, Pari Passu Indebtedness) has been so validly tendered, all Notes and Pari Passu Indebtedness validly tendered in response to the Asset Disposition Offer. Payment for any Notes so purchased will be made in the same manner as interest payments are made.

If the Asset Disposition Purchase Date is on or after an interest record date and on or before the related interest payment date, any accrued and unpaid interest will be paid to the Person in whose name a Note is registered at the close of business on such record date.

On or before the Asset Disposition Purchase Date, the Company will, to the extent lawful, accept for payment, on a *pro rata* basis to the extent necessary, the Asset Disposition Offer Amount of Notes and Pari Passu Indebtedness or portions thereof validly tendered and not properly withdrawn pursuant to the Asset Disposition Offer, or if less than the Asset Disposition Offer Amount has been validly tendered and not properly withdrawn, all Notes and Pari Passu Indebtedness so tendered, in the case of integral multiples of \$1,000; *provided* that if, following repurchase of a portion of a Note, the remaining principal amount of such Note outstanding immediately after such repurchase would be less than \$2,000, then the portion of such Note so repurchased shall be reduced so that the remaining principal amount of such Note outstanding immediately after such repurchase is \$2,000. The Company will deliver, or cause to be delivered, to the Trustee the Notes so accepted and an Officers Certificate stating the aggregate principal amount of Notes or portions thereof so accepted and that such Notes or portions thereof were accepted for payment by the Company in accordance with the terms of this covenant. In addition, the Company will deliver all certificates and notes required, if any, by the agreements governing the Pari Passu Indebtedness. The Paying Agent or the Company, as the case may be, will promptly, but in no event, later than five Business Days after termination of the Asset Disposition Offer Period, mail or deliver to each tendering Holder or holder or lender of Pari Passu Indebtedness, as the case may be, an amount equal to the purchase price of the Notes or Pari Passu Indebtedness so validly tendered and not properly withdrawn by such holder or lender, as the case may be, and accepted by the Company for purchase, and the Company will promptly issue a new Note, and the Trustee, upon delivery of an authentication order from the Company, will authenticate and mail or deliver (or cause to be transferred by book-entry) such new Note to such Holder (it being understood that, notwithstanding anything in the Indenture to the contrary, no Opinion of Counsel or Officers Certificate will be required for the Trustee to authenticate and mail or deliver such new Note) in a principal amount equal to any unpurchased portion of the Note surrendered; *provided* that each such new Note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof. In addition, the Company will take any and all other actions required by the agreements governing the Pari Passu Indebtedness. Any Note not so accepted will be promptly mailed or delivered by the Company to the Holder thereof. The Company will publicly announce the results of the Asset Disposition Offer on the Asset Disposition Purchase Date.

The Company will comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to an Asset Disposition Offer. To the extent that the provisions of any securities laws or regulations conflict with provisions of the Indenture, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Indenture by virtue of any conflict.

**Certain covenants**

*Effectiveness of covenants*

Following the first day:

(a) the Notes have an Investment Grade Rating from both of the Rating Agencies; and

(b) no Default or Event of Default has occurred and is continuing under the Indenture,

the Company and its Restricted Subsidiaries will not be subject to the provisions of the Indenture summarized under the headings below:

Repurchase at the option of holders    Asset sales,

Limitation on indebtedness,

Limitation on restricted payments,

Limitation on restrictions on distributions from restricted subsidiaries,

Limitation on affiliate transactions    and

Clause (4) of the first paragraph of    Merger and consolidation,

(collectively, the *Suspended Covenants* ). If at any time the Notes' credit rating is downgraded from an Investment Grade Rating by any Rating Agency or if a Default or Event of Default occurs and is continuing, then the Suspended Covenants will thereafter be reinstated as if such covenants had never been suspended (the *Reinstatement Date* ) and be applicable pursuant to the terms of the Indenture (including in connection with performing any calculation or assessment to determine compliance with the terms of the Indenture), unless and until the Notes subsequently attain an Investment Grade Rating from both of the Rating Agencies and no Default or Event of Default is in existence (in which event the Suspended Covenants shall no longer be in effect for such time that the Notes maintain an Investment Grade Rating from both of the Rating Agencies and no Default or Event of Default is in existence); *provided, however*, that no Default, Event of Default or breach of any kind shall be deemed to exist under the Indenture or the Notes with respect to the Suspended Covenants based on, and none of the Company or any of its Subsidiaries shall bear any liability for, any actions taken or events occurring during the Suspension Period (as defined below), regardless of whether such actions or events would have been permitted if the applicable Suspended Covenants remained in effect during such period. The period of time between the date of suspension of the covenants and the Reinstatement Date is referred to as the *Suspension Period*.

On the Reinstatement Date, the amount of Excess Proceeds from Asset Dispositions shall be reset at zero. In addition, all Indebtedness Incurred during the Suspension Period will be classified to have been Incurred pursuant to the first paragraph of Limitation on indebtedness or one of the clauses set forth in the second paragraph of Limitation on indebtedness (to the extent such Indebtedness would be permitted to be Incurred thereunder as of the Reinstatement Date and after giving effect to Indebtedness Incurred prior to the Suspension Period and outstanding on the Reinstatement Date). To the extent such Indebtedness would not be so permitted to be Incurred pursuant to the first or second paragraph of

Limitation on indebtedness, such Indebtedness will be deemed to have been outstanding on the Issue Date, so that it is classified under clause (3) of the second paragraph of Limitation on indebtedness. Calculations made after the Reinstatement Date of the amount available to be made as Restricted Payments under Limitation on restricted payments will be made as though the covenants described under Limitation on restricted payments had been in effect since the Prior Issue Date and throughout the Suspension Period. Accordingly, Restricted Payments made during the Suspension Period will reduce the amount available to be made as Restricted Payments under the first paragraph of Limitation on restricted payments.

## **Table of Contents**

During any period when the Suspended Covenants are suspended, neither the Board of Directors of the Company nor Senior Management may designate any of the Company's Subsidiaries as Unrestricted Subsidiaries or Excluded Project Subsidiaries pursuant to the Indenture.

### ***Limitation on indebtedness***

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, Incur any Indebtedness (including Acquired Indebtedness); *provided, however*, that the Company and its Restricted Subsidiaries may Incur Indebtedness if on the date thereof and after giving effect thereto on a *pro forma* basis:

(1) the Consolidated Coverage Ratio for the Company and its Restricted Subsidiaries is at least 2.00 to 1.00;

(2) in the case of Indebtedness Incurred by a Restricted Subsidiary, the Combined Leverage Ratio for the Company's Restricted Subsidiaries is no greater than 4.00 to 1.00; and

(3) no Default or Event of Default will have occurred or be continuing or would occur as a consequence of Incurring the Indebtedness or entering into the transactions relating to such Incurrence.

The first paragraph of this covenant will not prohibit the Incurrence of the following Indebtedness:

(1) Indebtedness of the Company or any Restricted Subsidiary Incurred under a Debt Facility and the issuance and creation of letters of credit and bankers' acceptances thereunder (with undrawn trade letters of credit and reimbursement obligations relating to trade letters of credit satisfied within 30 days being excluded, and bankers' acceptances being deemed to have a principal amount equal to the face amount thereof) together with the principal component of amounts outstanding under Qualified Receivables Transactions in an aggregate amount up to \$1,800.0 million, less the aggregate principal amount of all principal repayments with the proceeds from Asset Dispositions made pursuant to clause 3(a) of the first paragraph of Repurchase at the option of holders' Asset sales in satisfaction of the requirements of such covenant;

(2) Indebtedness represented by the Notes (other than any Additional Notes);

(3) Indebtedness of the Company and its Restricted Subsidiaries in existence on the Issue Date (other than Indebtedness described in clauses (1), (2), (4), (5), (7), (9), (10) and (11) of this paragraph);

(4) Guarantees by (a) Excluded Project Subsidiaries of Indebtedness of any other Excluded Project Subsidiary; and (b) Restricted Subsidiary of Indebtedness Incurred by Restricted Subsidiaries in accordance with the provisions of the Indenture;

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

(5) Indebtedness of the Company owing to and held by any Restricted Subsidiary (other than a Receivables Entity) or Indebtedness of a Restricted Subsidiary owing to and held by the Company or any other Restricted Subsidiary (other than a Receivables Entity); *provided, however, that*

(a) any subsequent issuance or transfer of Capital Stock or any other event which results in any such Indebtedness being beneficially held by a Person other than the Company or a Restricted Subsidiary (other than a Receivables Entity) of the Company; and

(b) any sale or other transfer of any such Indebtedness to a Person other than the Company or a Restricted Subsidiary (other than a Receivables Entity) of the Company shall be deemed, in each case, to constitute an Incurrence of such Indebtedness by the Company or such Restricted Subsidiary, as the case may be;

(6) Indebtedness of Persons Incurred and outstanding on the date on which such Person became a Restricted Subsidiary or was acquired by, or merged into, the Company or any Restricted Subsidiary (whether or not Incurred (a) to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Restricted Subsidiary became a Restricted Subsidiary or was otherwise acquired by the Company or (b) otherwise in connection with, or in contemplation of, such acquisition); *provided, however*, that at the time such Person is acquired, either: (a) the Company would have been able to Incur \$1.00 of additional Indebtedness pursuant to the first paragraph of this covenant after giving effect to the Incurrence of such Indebtedness pursuant to this clause (6) or (b) the Consolidated Coverage Ratio would be greater than immediately prior to such acquisition;

(7) Indebtedness under Hedging Obligations that are Incurred in the ordinary course of business (and not for speculative purposes);

(8) Indebtedness (including Capitalized Lease Obligations) of the Company or a Restricted Subsidiary (excluding Acquired Indebtedness) Incurred (i) to finance (whether prior to or within 270 days after) all or any part of the cost of the purchase, lease, construction or improvement of any property, plant or equipment used or to be used in the business of the Company or such Restricted Subsidiary or (ii) as a result of entering into of any extension of an operating lease entered into to finance all or any portion of the cost of the purchase, lease, construction or improvement of any property, plant or equipment used or to be used in the business of the Company or such Restricted Subsidiary, and any Indebtedness of a Restricted Subsidiary which serves to refund or refinance any Indebtedness Incurred pursuant to this clause (8) in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred pursuant to this clause (8) and then outstanding, will not exceed the greater of (x) \$200.0 million and (y) 5.0% of Total Tangible Assets at any time outstanding;

(9) Indebtedness Incurred by the Company or its Restricted Subsidiaries in respect of workers' compensation claims, health, disability or other employee benefits or property, casualty or liability insurance, self-insurance obligations, performance, bid, surety statutory, appeal, payment and similar bonds and completion guarantees (not for borrowed money) (including any bonds or letters of credit issued with respect thereto and all reimbursement and indemnity agreements entered into in connection therewith) and Indebtedness consisting solely of obligations under Insurance Premium Financing Arrangements or reinsurance arrangements, provided in the ordinary course of business;

(10) Indebtedness arising from agreements of the Company or a Restricted Subsidiary providing for indemnification, adjustment of purchase price or similar obligations, in each case, Incurred or assumed in connection with the disposition or acquisition of any business or assets of the Company or any business, assets or Capital Stock of a Restricted Subsidiary, other than Guarantees of Indebtedness Incurred by any Person acquiring all or any portion of such business, assets or a Subsidiary for the purpose of financing such acquisition; *provided that*:

(a) the maximum aggregate liability in respect of all such Indebtedness shall at no time exceed (i) in the case of a disposition the gross proceeds, including non-cash proceeds (the Fair Market Value of such non-cash proceeds being measured at the time received and without giving effect to subsequent changes in value), actually received by the Company and its Restricted Subsidiaries in connection with such disposition and (ii) in the case of an acquisition, the Fair Market Value of such acquired business, asset or Subsidiary being measured at the time received and without giving effect to subsequent changes in value; and

(b) such Indebtedness is not reflected on the balance sheet of the Company or any of its Restricted Subsidiaries (contingent obligations referred to in a footnote to financial statements and not otherwise reflected on the balance sheet will not be deemed to be reflected on such balance sheet for purposes of this clause (10));

**Table of Contents**

(11) Indebtedness (x) arising from the honoring by a bank or other financial institution of a check, draft or similar instrument (except in the case of daylight overdrafts) drawn against insufficient funds in the ordinary course of business; *provided, however*, that such Indebtedness is extinguished within five Business Days of Incurrence, and (y) in respect of netting services, overdraft protections and otherwise in connection with deposit accounts; *provided, however*, that such Indebtedness remains outstanding only for 10 Business Days or less;

(12) the Incurrence or issuance by the Company or any Restricted Subsidiary of Refinancing Indebtedness that serves to refund or refinance any Indebtedness Incurred as permitted under the first paragraph of this covenant and clauses (2), (3), (6) and this clause (12) of the second paragraph of this covenant, or any Indebtedness issued to so refund or refinance such Indebtedness, including additional Indebtedness Incurred to pay premiums (including reasonable, as determined in good faith by the Company, tender premiums), defeasance costs, accrued interest and fees and expenses in connection therewith;

(13) the Incurrence of Non-Recourse Debt by any Excluded Project Subsidiary;

(14) the Incurrence of Non-Recourse Debt by any Restricted Subsidiary that is not an Excluded Project Subsidiary to (i) fund Construction Capital Expenditures; *provided* the amount of such Non-Recourse Debt does not exceed 75% of the cost of the addition or improvement to the Project that is funded by such Non-Recourse Debt or (ii) refund or refinance any Non-Recourse Debt Incurred by such Restricted Subsidiary as permitted by the Indenture, including additional Indebtedness Incurred to pay premiums (including reasonable, as determined in good faith by the Company, tender premiums), defeasance costs, accrued interest and fees and expenses in connection therewith;

The Company will not Incur any Indebtedness under the preceding paragraph if the proceeds thereof are used, directly or indirectly, to refinance any Subordinated Obligations of the Company unless such Indebtedness will be subordinated to the Notes to at least the same extent as such Subordinated Obligations. No Restricted Subsidiary may Incur any Indebtedness if the proceeds are used to refinance Indebtedness of the Company, except for Indebtedness of the Company constituting Guarantees of the Restricted Subsidiary Indebtedness being refinanced.

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

For purposes of determining compliance with, and the outstanding principal amount of any particular Indebtedness Incurred pursuant to and in compliance with, this covenant:

(1) in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness described in the second paragraph of this covenant, the Company, in its sole discretion, will classify such item of Indebtedness on the date of Incurrence and may later classify such item of Indebtedness in any manner that

S-49

complies with the second paragraph of this covenant and only be required to include the amount and type of such Indebtedness in one of such clauses under the second paragraph of this covenant; *provided* that all Indebtedness outstanding on the Issue Date under the Senior Credit Facility shall be deemed Incurred under clause (1) of the second paragraph of this covenant and not the first paragraph or clause (3) of the second paragraph of this covenant and may not later be reclassified;

(2) Guarantees of, or obligations in respect of letters of credit relating to, Indebtedness that is otherwise included in the determination of a particular amount of Indebtedness shall not be included;

(3) if obligations in respect of letters of credit are Incurred pursuant to a Debt Facility and are being treated as Incurred pursuant to clause (1) of the second paragraph above and the letters of credit relate to other Indebtedness, then such other Indebtedness shall not be included;

(4) the principal amount of any Disqualified Stock of the Company or a Restricted Subsidiary, or Preferred Stock of a Restricted Subsidiary, will be equal to the greater of the maximum mandatory redemption or repurchase price (not including, in either case, any redemption or repurchase premium) or the liquidation preference thereof;

(6) the principal amount of any Indebtedness outstanding in connection with a Qualified Receivables Transaction is the Receivables Transaction Amount relating to such Qualified Receivables Transaction; and

(7) the amount of Indebtedness issued at a price that is less than the principal amount thereof will be equal to the amount of the liability in respect thereof determined in accordance with GAAP.

Accrual of interest, accrual of dividends, the accretion of accreted value, the amortization of debt discount, the payment of interest in the form of additional Indebtedness and the payment of dividends in the form of additional shares of Preferred Stock or Disqualified Stock will not be deemed to be an Incurrence of Indebtedness for purposes of this covenant. The amount of any Indebtedness outstanding as of any date shall be (i) the accreted value thereof in the case of any Indebtedness issued with original issue discount or the aggregate principal amount outstanding in the case of Indebtedness issued with interest payable in kind and (ii) the principal amount or liquidation preference thereof, together with any interest thereon that is more than 30 days past due, in the case of any other Indebtedness.

Except as otherwise provided above, the Company will not permit any of its Unrestricted Subsidiaries or its Excluded Project Subsidiaries to Incur any Indebtedness or issue any shares of Disqualified Stock, other than Non-Recourse Debt.

For purposes of determining compliance with any U.S. dollar-denominated restriction on the Incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was Incurred, in the case of term Indebtedness, or first committed, in the case of revolving credit Indebtedness; *provided* that if such Indebtedness is Incurred to refinance other Indebtedness denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated

restriction shall be deemed not to have been exceeded so long as the principal amount of such Refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced. Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that the Company may Incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in the exchange rate of currencies. The principal amount of any Indebtedness Incurred to refinance other Indebtedness, if Incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such Refinancing Indebtedness is denominated that is in effect on the date of such refinancing.

(2) the Successor Company (if other than the Company) expressly assumes all of the obligations of the Company under the Notes and the Indenture pursuant to a supplemental indenture or other documents or instruments in form reasonably satisfactory to the Trustee;

(3) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing;

(4) immediately after giving *pro forma* effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of the applicable four-quarter period,

(a) the Successor Company would be able to Incur at least \$1.00 of additional Indebtedness pursuant to the first paragraph of the Limitation on indebtedness covenant, or

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

(b) the Consolidated Coverage Ratio for the Successor Company and its Restricted Subsidiaries would be no less than such ratio for the Company and its Restricted Subsidiaries immediately prior to such transaction; and

(5) the Company shall have delivered to the Trustee an Officers Certificate and an Opinion of Counsel, each stating that such consolidation, merger, winding up or disposition, and such supplemental indenture, if any, comply with the Indenture.

Notwithstanding clauses (3) and (4) of the preceding paragraph,

(1) any Restricted Subsidiary may consolidate with, merge with or into or transfer all or part of its properties and assets to the Company so long as no Capital Stock of the Restricted Subsidiary is distributed to any Person other than the Company; *provided* that, in the case of a Restricted Subsidiary that merges into the Company, the Company will not be required to comply with clause (5) of the preceding paragraph; and

## **Table of Contents**

(2) the Company may merge with an Affiliate of the Company solely for the purpose of reincorporating the Company in another state or territory of the United States or the District of Columbia, so long as the amount of Indebtedness of the Company and its Restricted Subsidiaries is not increased thereby.

For purposes of this covenant, the sale, assignment, conveyance, transfer, lease or other disposition of all or substantially all of the properties and assets of one or more Subsidiaries of the Company, which properties and assets, if held by the Company instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of the Company on a consolidated basis, will be deemed to be the disposition of all or substantially all of the properties and assets of the Company.

Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve all or substantially all of the property or assets of a Person.

The Company will be released from its obligations under the Indenture and the Successor Company will succeed to, and be substituted for, and may exercise every right and power of, the Company under the Indenture and such Notes; *provided* that, in the case of a lease of all or substantially all its assets, the Company will not be released from the obligation to pay the principal of and interest on the Notes.

### ***Payments for consent***

The Company will not, and will not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes unless such consideration is offered to be paid and is paid to all Holders that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or amendment.

### ***Limitation on Company activities***

The Company shall not conduct, transfer or otherwise engage in any business or operations other than the operation of Similar Businesses through its direct and indirect Subsidiaries, activities incidental thereto and other activities to the extent permitted by, and in compliance with, the Senior Credit Facility.

### **Events of default**

Each of the following is an Event of Default :

(1) default in any payment of interest or on any Note when due, continued for 30 days;

(2) default in the payment of principal of or premium, if any, on any Note when due at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration or otherwise;

(3) failure by the Company to comply with its obligations under Certain covenants Merger and consolidation ;

(4) failure by the Company to comply for 30 days after notice as provided below with any of their obligations under the covenants described under Repurchase at the option of holders above or under the covenants described under Certain covenants above (in each case, other than (a) a failure to purchase Notes which constitutes an Event of Default under clause (2) above, (b) a failure to comply with Certain covenants Merger and consolidation which constitutes an Event of Default under clause (3) above or (c) a failure to comply with Certain covenants SEC reports or Certain covenants Payments for consent which constitutes an Event of Default under clause (5) below);

S-60

**Table of Contents**

(5) failure by the Company to comply for 60 days after notice as provided below with its other agreements contained in the Indenture or the Notes;

(6) default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Company or any of its Restricted Subsidiaries (or the payment of which is Guaranteed by the Company or any of its Restricted Subsidiaries), other than Indebtedness owed to the Company or a Restricted Subsidiary, whether such Indebtedness or Guarantee now exists, or is created after the Issue Date, which default:

(a) is caused by a failure to pay principal of, or interest or premium, if any, on such Indebtedness prior to the expiration of the grace period provided in such Indebtedness ( *payment default* ); or

(b) results in the acceleration of such Indebtedness prior to its maturity (the *cross acceleration provision* );

and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a payment default or the maturity of which has been so accelerated, aggregates \$50.0 million or more (or its foreign currency equivalent); *provided*, that this clause (6) shall not apply to Non-Recourse Debt of the Company or any of its Subsidiaries (except to the extent that the Company or any of its Restricted Subsidiaries that are not parties to such Non-Recourse Debt becomes directly or indirectly liable, including pursuant to any contingent obligation for any such Non-Recourse Debt and such liability, which individually or in the aggregate, exceeds \$50.0 million);

(7) failure by the Company or any Significant Subsidiary (or any group of Restricted Subsidiaries that, taken together (as of the date of the latest audited consolidated financial statements of the Company and its Restricted Subsidiaries), would constitute a Significant Subsidiary) to pay final judgments aggregating in excess of \$50.0 million (or its foreign currency equivalent) (net of any amounts that a reputable and creditworthy insurance company has acknowledged liability for in writing), which judgments are not paid, discharged or stayed for a period of 60 days or more after such judgment becomes final and non-appealable (the *judgment default provision* ); or

(8) certain events of bankruptcy, insolvency or reorganization of the Company or a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements of the Company and its Restricted Subsidiaries), would constitute a Significant Subsidiary (the *bankruptcy provisions* ).

However, a default under clauses (4) and (5) of this paragraph will not constitute an Event of Default until the Trustee or the Holders of 25% in principal amount of the then outstanding Notes notify the Company of the default and the Company does not cure such default within the time specified in clauses (4) and (5) of this paragraph after receipt of such notice.

If an Event of Default (other than an Event of Default described in clause (8) above) occurs and is continuing, the Trustee by written notice to the Company, specifying the Event of Default, or the Holders of at least 25% in principal amount of the then outstanding Notes by notice to the Company and the Trustee, may, and the Trustee at the request of such Holders shall, declare the principal of, premium, if any, and accrued and unpaid interest, if any, on all the Notes to be due and payable. Upon such a declaration, such principal, premium, if any, and accrued and unpaid interest, if any, will be due and payable immediately. In the event of a declaration of acceleration of the Notes because an Event of Default described in clause (6) under *Events of default* has occurred and is continuing, the declaration of acceleration of the Notes shall be automatically

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

annulled if the default triggering such Event of Default pursuant to clause (6) shall be remedied or cured by the Company or a Restricted Subsidiary or waived by the holders of the relevant Indebtedness within 20 days after the declaration of acceleration with respect thereto and if (1) the annulment of the acceleration of the Notes would not conflict with any judgment or decree of a court of competent jurisdiction and (2) all existing Events of Default, except

S-61

**Table of Contents**

nonpayment of principal, premium, if any, or interest on the Notes that became due solely because of the acceleration of the Notes, have been cured or waived. If an Event of Default described in clause (8) above occurs and is continuing, the principal of, premium, if any, and accrued and unpaid interest, if any, on all the Notes will become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holders. The Holders of a majority in principal amount of the outstanding Notes may waive all past defaults (except with respect to nonpayment of principal, premium or interest) and rescind any such acceleration with respect to the Notes and its consequences if (1) rescission would not conflict with any judgment or decree of a court of competent jurisdiction and (2) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived.

Subject to the provisions of the Indenture relating to the duties of the Trustee, if an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture and the Notes at the request or direction of any of the Holders unless such Holders have offered to the Trustee indemnity or security satisfactory to it against any loss, liability or expense.

Except to enforce the right to receive payment of principal, premium, if any, or interest when due, no Holder may pursue any remedy with respect to the Indenture or the Notes *unless*:

- (1) such Holder has previously given the Trustee written notice that an Event of Default is continuing;
- (2) Holders of at least 25% in principal amount of the then outstanding Notes have requested the Trustee to pursue the remedy;
- (3) such Holders have offered the Trustee security or indemnity satisfactory to the Trustee against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity; and
- (5) the Holders of a majority in principal amount of the then outstanding Notes have not given the Trustee a direction that, in the opinion of the Trustee, is inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of a majority in principal amount of the then outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Indenture provides that in the event an Event of Default has occurred and is continuing, the Trustee will be required in the exercise of its powers to use the degree of care that a prudent person would use under the circumstances in the conduct of its own affairs. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or the Notes, or that the Trustee determines in good faith is unduly prejudicial to the rights of any other Holder or that would involve the Trustee in personal liability. Prior to taking any action under the Indenture, the Trustee will be entitled to indemnity or security satisfactory to it against all losses and expenses caused by taking such action.

The Indenture provides that if a Default occurs and is continuing and is actually known to the Trustee, the Trustee will mail to each Holder notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal of, premium, if any, or interest on

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

any Note, the Trustee may withhold from the Holders notice of any continuing Default if the Trustee determines in good faith that withholding the notice is in the interests of the Holders. In addition, the Company is required to deliver to the Trustee, within 90 days after the end of each fiscal year ending after the Issue Date, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Company also is required to deliver to the Trustee, within 10 Business Days after the occurrence thereof, written notice of any events which would constitute a Default, their status and what action the Company is taking or proposing to take in respect thereof.

**Amendments and waivers**

Except as provided in the next two succeeding paragraphs, the Indenture and the Notes may be amended or supplemented with the consent of the Holders of a majority in principal amount of the Notes then outstanding (including without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes) and, subject to certain exceptions, any past default or compliance with any provisions may be waived with the consent of the Holders of a majority in principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes). However, without the consent of each Holder of an outstanding Note affected, no amendment, supplement or waiver may, among other things:

(1) reduce the principal amount of Notes whose Holders must consent to an amendment, supplement or waiver;

(2) reduce the stated rate of interest or extend the stated time for payment of interest on any Note;

(3) reduce the principal of or extend the Stated Maturity of any Note;

(4) waive a Default or Event of Default in the payment of principal of, premium, if any, or interest on the Notes (except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of the then outstanding Notes with respect to a nonpayment default and a waiver of the payment default that resulted from such acceleration);

(5) reduce the premium payable upon the redemption or repurchase of any Note or change the time at which any Note may be redeemed or repurchased as described above under Optional redemption, Repurchase at the option of holders Change of control or Repurchase at the option of holders Asset sales whether through an amendment or waiver of provisions in the covenants, definitions or otherwise (except amendments to the definition of Change of Control );

(6) make any Note payable in money other than that stated in the Note;

(7) impair the right of any Holder to receive payment of principal of, premium, if any, or interest on such Holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's Notes; or

(8) make any change in the amendment or waiver provisions which require each Holder's consent.

Notwithstanding the foregoing, without the consent of any Holder, the Company and the Trustee may amend the Indenture and the Notes to:

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

(1) cure any ambiguity, omission, defect or inconsistency;

(2) provide for the assumption by a successor of the obligations of the Company under the Indenture in accordance with Certain covenants Merger and Consolidation ;

(3) provide for or facilitate the issuance of uncertificated Notes in addition to or in place of certificated Notes; *provided* that the uncertificated Notes are issued in registered form for purposes of Section 163(f) of the Code or in a manner such that the uncertificated Notes are described in Section 163(f)(2)(B) of the Code;

(4) to comply with the rules of any applicable Depositary;

(5) secure the Notes;

(6) add covenants of the Company and its Restricted Subsidiaries or Events of Default for the benefit of Holders or to make changes that would provide additional rights to the Holders or to surrender any right or power conferred upon the Company;

S-63

**Table of Contents**

(7) make any change that does not adversely affect the legal rights under the Indenture of any Holder;

(8) comply with any requirement of the SEC in connection with any required the qualification of the Indenture under the Trust Indenture Act;

(9) evidence and provide for the acceptance of an appointment under the Indenture of a successor trustee; *provided* that the successor trustee is otherwise qualified and eligible to act as such under the terms of the Indenture;

(10) conform the text of the Indenture or the Notes to any provision of this Description of notes to the extent that such provision in this Description of notes was intended to be a verbatim recitation of a provision of the Indenture or the Notes as confirmed in an Officer's Certificate; or

(11) make any amendment to the provisions of the Indenture relating to the transfer and legending of Notes as permitted by the Indenture, including, without limitation to facilitate the issuance and administration of the Notes or, if Incurred in compliance with the Indenture, Additional Notes; *provided, however*, that (A) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (B) such amendment does not materially and adversely affect the rights of Holders to transfer Notes.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment, supplement or waiver. It is sufficient if such consent approves the substance of the proposed amendment or supplement. A consent to any amendment, supplement or waiver under the Indenture by any Holder given in connection with a tender of such Holder's Notes will not be rendered invalid by such tender. After an amendment, supplement or waiver under the Indenture becomes effective, the Company is required to give to the Holders a notice briefly describing such amendment, supplement or waiver. However, the failure to give such notice to all the Holders, or any defect in the notice will not impair or affect the validity of the amendment, supplement or waiver.

**Defeasance**

The Company may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding Notes issued under the Indenture ( *legal defeasance* ) except for:

(1) the rights of Holders to receive payments in respect of the principal of, premium, if any, or interest on such Notes when such payments are due, solely out of the trust referred to below;

(2) the Company's obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for Note payments held in trust;

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

(3) the rights, powers, trusts, duties and immunities of the Trustee, and the Company's obligations in connection therewith; and

(4) the legal defeasance provisions of the Indenture.

The Company at any time may terminate its obligations described under "Repurchase at the option of holders" and under the covenants described under "Certain covenants (other than Merger and consolidation)", the operation of the cross-default upon a payment default, cross acceleration provisions, the bankruptcy provisions with respect to Significant Subsidiaries, the judgment default provision described under "Events of default" above and the limitations contained in clauses (4) and (5) under "Certain covenants Merger and consolidation" above ( *covenant defeasance* ).

The Company may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Company exercises its legal defeasance option, payment of the Notes may not be accelerated because of an Event of Default with respect to the Notes. If the Company exercises its covenant

S-64

defeasance option, payment of the Notes may not be accelerated because of an Event of Default specified in clause (3) (only with respect to the failure of the Company to comply with clause (4) under Certain covenants Merger and consolidation above), (4) (only with respect to covenants that are released as a result of such covenant defeasance), (5), (6), (7), or (8) (with respect only to Significant Subsidiaries or any group of Restricted Subsidiaries that, taken together (as of the date of the latest audited consolidated financial statements of the Company and its Restricted Subsidiaries) would constitute a Significant Subsidiary).

In order to exercise either legal defeasance or covenant defeasance under the Indenture:

(1) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders, cash in U.S. dollars, Government Securities, or a combination thereof, in amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants without consideration of any reinvestment of interest, to pay the principal of, and premium, if any, and interest due on the outstanding Notes on the Stated Maturity or on the applicable redemption date, as the case may be, and the Company must specify whether the Notes are being defeased to maturity or to a particular redemption date;

(2) in the case of legal defeasance, the Company has delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that (a) the Company has received from, or there has been published by, the Internal Revenue Service a ruling, or (b) since the Issue Date, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and based thereon such Opinion of Counsel will confirm that, subject to customary assumptions and exclusions, the Holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such legal defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such legal defeasance had not occurred;

(3) in the case of covenant defeasance, the Company has delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions, the Holders will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such covenant defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such covenant defeasance had not occurred;

(4) such legal defeasance or covenant defeasance will not result in a breach or violation of, or constitute a default under any material agreement or instrument (other than the Indenture) to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound;

(5) no Default or Event of Default has occurred and is continuing on the date of such deposit (other than a Default or an Event of Default resulting from the borrowing of funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith) or insofar as Events of Default resulting from the borrowing of funds or insolvency events are concerned, at any time in the period ending on the 91st day after the date of deposit;

(6) the Company will have delivered to the Trustee an Opinion of Counsel to the effect that, as of the date of such opinion and subject to customary assumptions and exclusions, including, that no intervening bankruptcy of the Company between the date of deposit and the 91st day following the deposit and assuming that no Holder is an insider of the Company under applicable bankruptcy law, after the 91st day following the deposit, the trust funds will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization of similar laws affecting creditors' rights generally;

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

(7) the Company has delivered to the Trustee an Officers Certificate stating that the deposit was not made by the Company with the intent of defeating, hindering, delaying or defrauding creditors of the Company or others;

S-65

**Table of Contents**

(8) the Company has delivered to the Trustee an Officers Certificate and an Opinion of Counsel (which Opinion of Counsel may be subject to customary assumptions and exclusions), each stating that all conditions precedent relating to the legal defeasance or the covenant defeasance, as the case may be, have been complied with; and

(9) the Company has delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be (which instructions may be contained in the Officers Certificate referred to in clause (8) above).

**Satisfaction and discharge**

The Indenture will be discharged and will cease to be of further effect as to all Notes issued thereunder, when either:

(1) all Notes that have been authenticated, except lost, stolen or destroyed Notes that have been replaced or paid and Notes for whose payment money has been deposited in trust and thereafter repaid to the Company, have been delivered to the Trustee for cancellation; or

(2) (a) all Notes not theretofore delivered to the Trustee for cancellation have become due and payable by reason of the giving of a notice of redemption or otherwise, will become due and payable within one year or may be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company, and the Company has irrevocably deposited or caused to be deposited with the Trustee, as trust funds in trust solely for the benefit of the Holders, cash in U.S. dollars, Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, without consideration of any reinvestment of interest, to pay and discharge the entire Indebtedness on the Notes not theretofore delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption;

(b) no Default or Event of Default has occurred and is continuing on the date of the deposit or will occur as a result of the deposit (other than a Default or an Event of Default resulting from borrowing of funds to be applied to such deposit and the grant of any Lien securing such borrowing) and the deposit will not result in a breach or violation of, or constitute a default under, the Senior Credit Facility or any other material agreement or instrument to which the Company is a party or by which the Company is bound;

(c) the Company has paid or caused to be paid all sums payable by it under the Indenture; and

(d) the Company has delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be.

In addition, the Company must deliver an Officers Certificate and an Opinion of Counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

**No personal liability of directors, officers, employees and stockholders**

No past, present or future director, officer, employee, incorporator, member, partner or stockholder of the Company, shall have any liability for any obligations of the Company under the Notes or the Indenture or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. The waiver may not be effective to waive liabilities under the federal securities law.

**Notices**

Notices given by publication will be deemed given on the first date on which publication is made, and notices given by first-class mail, postage prepaid, will be deemed given five calendar days after mailing.

## Table of Contents

For purposes of this definition, whenever *pro forma* effect is to be given to any calculation under this definition, the *pro forma* calculations will be determined in good faith by a responsible financial or accounting officer of the Company (including *pro forma* expense and cost reductions calculated on a basis consistent with Regulation S-X under the Securities Act). If any Indebtedness bears a floating rate of interest and is being given *pro forma* effect, the interest expense on such Indebtedness will be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Interest Rate Agreement applicable to such Indebtedness if such Interest Rate Agreement has a remaining term in excess of 12 months). If any Indebtedness that is being given *pro forma* effect bears an interest rate at the option of any Restricted Subsidiary, the interest rate shall be calculated by applying such optional rate chosen by such Restricted Subsidiary.

*Commodity Agreement* means any long-term or forward purchase contract or option contract to buy, sell or exchange commodities, commodity futures contract, commodity swap, commodity option or other similar agreement or arrangement entered into by the Company or any Restricted Subsidiary designed to protect the Company or any of its Restricted Subsidiaries against fluctuations in the price of commodities in the ordinary course of business of the Company and its Restricted Subsidiaries.

(c) consolidated depreciation expense; *plus*

(g) decreases in unbilled service receivables; *plus*

(h) other non-cash charges reducing Consolidated Net Income, including any write-offs or write-downs (excluding any such non-cash charge to the extent it represents an accrual of or reserve for cash charges in any future period or amortization of a prepaid cash expense that was capitalized at the time of payment) and non-cash compensation expense recorded from grants of stock appreciation or similar rights, stock options, restricted stock or other rights to officers, directors or employees;

(2) decreased (without duplication) by (a) non-cash items increasing Consolidated Net Income of such Person for such period (excluding any items which represent the reversal of any accrual of, or reserve for, anticipated cash charges that reduced Consolidated Adjusted EBITDA in any prior period) and (b) increases in unbilled service receivables, and

*provided, however*, that Consolidated Adjusted EBITDA (except for the purposes of clause 4(c)(i) under the caption "Certain Covenants - Limitation on restricted payments") will exclude the Consolidated Adjusted EBITDA attributable to any Excluded Project Subsidiaries to the extent that the declaration or payment of dividends or similar distributions by the Excluded Project Subsidiaries of that Consolidated Adjusted EBITDA is not, as a result of an Excluded Project Subsidiary Debt Default, then permitted by operation of the terms of the relevant Excluded Project Subsidiary Debt Agreement (*provided* that the Consolidated Adjusted EBITDA of the Excluded Project Subsidiary will only be so excluded for that portion of the period during which the condition described in the preceding proviso has occurred and is continuing).

Notwithstanding the foregoing, clauses (1)(b) through (h) relating to amounts of a Restricted Subsidiary of a Person will be added to Consolidated Net Income to compute Consolidated Adjusted EBITDA of such Person only to the extent (and in the same proportion) that the net income (loss) of such Restricted Subsidiary was included in calculating the Consolidated Net Income of such Person and, to the extent the amounts set forth in clauses (1)(b) through (h) are in excess of those necessary to offset a net loss of such Restricted Subsidiary or if such Restricted Subsidiary has net income for such period included in Consolidated Net Income, only if a corresponding amount would be permitted at the date of determination to be dividended to the Company by such Restricted Subsidiary without prior approval (that has not been obtained), pursuant to the terms of its charter and all agreements, instruments, judgments, decrees, orders, statutes, rules and governmental regulations applicable to that Restricted Subsidiary or its stockholders.

(1) if the Company or any Restricted Subsidiary:

(a) has Incurred any Indebtedness since the beginning of such period that remains outstanding on such date of determination or if the transaction giving rise to the need to calculate the Consolidated Coverage Ratio includes an Incurrence of Indebtedness, Consolidated Adjusted EBITDA and Consolidated Interest Expense for such period will be calculated after giving effect on a *pro forma* basis to such Indebtedness as if such Indebtedness had been Incurred on the first day of such period (except that in making such computation, the amount of Indebtedness under any

(2) if since the beginning of such period, the Company or any Restricted Subsidiary will have made any Asset Disposition or disposed of or discontinued (as defined under GAAP) any company, division, operating unit, segment, business, group of related assets or line of business or if the transaction giving rise to the need to calculate the Consolidated Coverage Ratio includes such a transaction:

(a) the Consolidated Adjusted EBITDA for such period will be reduced by an amount equal to the Consolidated Adjusted EBITDA (if positive) directly attributable to the assets that are the subject of such disposition or discontinuation for such period or increased by an amount equal to the Consolidated Adjusted EBITDA (if negative) directly attributable thereto for such period; and

(b) Consolidated Interest Expense for such period will be reduced by an amount equal to the Consolidated Interest Expense directly attributable to any Indebtedness of the Company or any Restricted Subsidiary repaid, repurchased, redeemed, retired, defeased or otherwise discharged (to the extent the related commitment is permanently reduced) with respect to the Company and its continuing Restricted Subsidiaries in connection with such transaction for such period (or, if the Capital Stock of any Restricted Subsidiary is sold, the Consolidated Interest Expense for such period directly attributable to the Indebtedness of such Restricted Subsidiary to the extent the Company and its continuing Restricted Subsidiaries are no longer liable for such Indebtedness after such sale);

(3) if since the beginning of such period the Company or any Restricted Subsidiary (by merger or otherwise) (a) will have made an Investment in any Restricted Subsidiary (or any Person that becomes a Restricted Subsidiary or is merged with or into the Company or a Restricted Subsidiary) or (b) an acquisition of assets, including any acquisition of assets occurring in connection with a transaction causing a calculation to be made hereunder, which constitutes all or substantially all of a company, division, operating unit, segment, business, group of related assets or line of business, Consolidated Adjusted EBITDA and Consolidated Interest Expense for such period will be calculated after giving *pro forma* effect thereto (including the Incurrence of any Indebtedness) as if such Investment or acquisition occurred on the first day of such period; and

(4) if since the beginning of such period any Person (that subsequently became a Restricted Subsidiary or was merged with or into the Company or any Restricted Subsidiary since the beginning of such period) will have Incurred any Indebtedness or discharged any Indebtedness, made any disposition or any Investment or acquisition of assets that would have required an adjustment pursuant to clause (1), (2) or (3) above if made by the Company or a Restricted Subsidiary during such period, Consolidated Adjusted EBITDA and Consolidated Interest Expense for such period will be calculated after giving *pro forma* effect thereto as if such transaction occurred on the first day of such period.

For purposes of this definition, whenever *pro forma* effect is to be given to any calculation under this definition, the *pro forma* calculations will be determined in good faith by a responsible financial or accounting officer of the Company (including *pro forma* expense and cost reductions calculated on a basis consistent with Regulation S-X under the Securities Act). If any Indebtedness bears a floating rate of interest and is being given *pro forma* effect, the interest expense on such Indebtedness will be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Interest Rate Agreement applicable to such Indebtedness if such Interest Rate Agreement has a remaining term in excess of 12 months). If any Indebtedness that is being given *pro forma* effect bears an interest rate at the option of the Company, the interest rate shall be calculated by applying such optional rate chosen by the Company.

**MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS**

The following is a summary of the material U.S. federal income tax considerations of the purchase, ownership and disposition of notes, but does not purport to be a comprehensive description of all the tax consequences that may be applicable to an investment in the notes. This summary is based upon provisions of the Internal Revenue Code of 1986, as amended (the Code), applicable regulations, administrative rulings and judicial decisions in effect as of the date hereof, any of which may subsequently be changed, possibly retroactively, so as to result in U.S. federal income tax consequences different from those discussed below. This summary deals only with a note held as a capital asset (generally, property held for investment) by a beneficial owner who purchased the note on original issuance at its issue price (the first price at which a substantial portion of the notes is sold to persons other than bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). This summary does not address all aspects of U.S. federal income taxes and does not deal with all tax consequences that may be relevant to holders in light of their personal circumstances or particular situations, such as:

tax consequences to holders who may be subject to special tax treatment, including dealers in securities or currencies, financial institutions, regulated investment companies, real estate investment trusts, tax-exempt entities, insurance companies, or traders in securities that elect to use a mark-to-market method of accounting for their securities;

tax consequences to persons holding notes as a part of a hedging, integrated or conversion transaction or a straddle or persons deemed to sell notes under the constructive sale provisions of the Code;

tax consequences to U.S. holders (as defined below) of notes whose functional currency is not the U.S. dollar;

tax consequences to U.S. expatriates;

tax consequences to investors in partnerships or other pass-through entities;

alternative minimum tax consequences, if any;

any state, local or foreign tax consequences; and

any U.S. federal tax consequences, such as the estate and gift tax or the Medicare tax on net investment income, other than U.S. federal income tax consequences.

If a partnership (or an entity treated as a partnership for U.S. federal income tax purposes) holds notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner in a partnership holding the notes, you should consult your tax advisors.

As used herein, the term U.S. holder means a beneficial owner of notes that is, for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust, if it (i) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (ii) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

A non-U.S. holder is a beneficial owner (other than a partnership, or any entity treated as a partnership for U.S. federal income tax purposes) of notes that is not a U.S. holder. **If you are considering the purchase of notes, you should consult your tax advisors concerning the U.S. federal income tax consequences to you in light of your own specific situation, as well as consequences arising under the laws of any state, local or foreign jurisdiction.**

### **Possible application of rules governing contingent payment debt instruments**

The terms of the notes provide for payments in excess of stated interest and principal under certain circumstances. For example, in the event of a Change of Control, we would generally be required to offer to repurchase the notes at 101% of their principal amount plus accrued and unpaid interest (see Description of notes Repurchase at the option of holders Change of control ). Under applicable Treasury regulations, the possibility that certain payments in excess of stated interest and principal will be made will not cause the notes to be treated as contingent payment debt instruments for U.S. federal income tax purposes (which are subject to special rules, as described below) if there is only a remote likelihood as of the issue date of the notes that these payments will be made, and/or if the amounts thereof are considered incidental. We intend to take the position that, as of the issue date of the notes, the likelihood that we will pay these excess amounts is remote and/or these amounts are incidental, and therefore that the notes will not be considered contingent payment debt instruments. Our position is binding on a holder unless the holder discloses that it is taking a contrary position in the manner required by applicable Treasury regulations. Our position is not, however, binding on the Internal Revenue Service (the IRS ), and if the IRS were to challenge this position, a U.S. holder might be required to use the accrual method, even if it was otherwise a cash method taxpayer, to take into account interest income on the notes at a rate higher than the stated interest rate and to treat as ordinary income rather than capital gain any income that you realize on the taxable disposition of a note. The following discussion assumes the notes are not treated as contingent payment debt instruments.

### **Consequences to U.S. holders**

#### **Payment of interest**

It is anticipated, and this discussion assumes, that the notes will not be issued with more than a *de minimis* amount of original issue discount for U.S. federal income tax purposes. In such case, interest on a note will generally be taxable to a U.S. holder as ordinary income at the time it is paid or accrued in accordance with the U.S. holder's usual method of accounting for tax purposes.

#### **Sale, exchange or other taxable disposition of notes**

A U.S. holder will generally recognize gain or loss upon the sale, exchange or other taxable disposition of a note equal to the difference between the amount realized (less any portion attributable to accrued interest, which will be taxable as a payment of interest, as described above) upon the sale, exchange or other taxable disposition and such U.S. holder's tax basis in the note. A U.S. holder's tax basis in a note will generally be equal to the amount that the U.S. holder paid for the note. Any gain or loss recognized on a sale, exchange or other taxable disposition of the note will be capital gain or loss. If, at the time of the sale, exchange or other taxable disposition of the note, a U.S. holder held the note for more than one year, such gain or loss will be a long-term capital gain or loss. Long-term capital gains of non-corporate U.S. holders are generally eligible for preferential rates of taxation. A U.S. holder's ability to deduct capital losses may be limited.

#### **Information reporting and backup withholding**

Information reporting requirements generally will apply to payments of interest on the notes and to the proceeds of a sale, exchange or other taxable disposition (including a retirement or redemption) of a note unless the U.S. holder is an exempt recipient. Backup withholding may apply to those payments if the U.S. holder fails to provide its correct taxpayer identification number, or certification of exempt status, or if the U.S. holder is notified by the IRS that it has failed to report in full payments of interest and dividend income. Any amounts withheld under the

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

backup withholding rules will be allowed as a credit against a U.S. holder's U.S. federal income tax liability and may entitle the holder to a refund, provided the required information is timely furnished to the IRS.

S-96

## **Table of Contents**

### **Consequences to non-U.S. holders**

#### **Payments of interest**

Under the portfolio interest rule, U.S. federal income or withholding tax will not be applied to any payment of interest on a note to a non-U.S. holder, *provided* that:

the non-U.S. holder does not own (actually or constructively) 10% or more of the total combined voting power of all classes of our stock that are entitled to vote within the meaning of section 871(h)(3) of the Code;

the non-U.S. holder is not a controlled foreign corporation that is related to us (actually or constructively) through stock ownership;

interest paid on the note is not effectively connected with the non-U.S. holder's conduct of a trade or business in the United States;

the non-U.S. holder is not a bank whose receipt of interest on a note is described in section 881(c)(3)(A) of the Code; and

either (a) the non-U.S. holder provides its name and address, and certifies, under penalties of perjury, that it is not a U.S. person (which certification may be made on an IRS Form W-8BEN (or other applicable form)) or (b) the non-U.S. holder holds the notes through specified foreign intermediaries or specified foreign partnerships, and the non-U.S. holder and the foreign intermediaries or foreign partnerships satisfy the certification requirements of applicable Treasury regulations.

If a non-U.S. holder cannot satisfy the requirements described above, payments of interest will be subject to 30% U.S. federal withholding tax, unless the non-U.S. holder provides us with a properly executed (1) IRS Form W-8BEN (or applicable successor form) claiming an exemption from or reduction in withholding under the benefit of an applicable income tax treaty or (2) IRS Form W-8ECI (or applicable successor form) stating that interest paid on the notes is not subject to withholding tax because it is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States. If a non-U.S. holder is engaged in a trade or business in the United States and interest on the notes is effectively connected with the conduct of that trade or business and, if provided by an applicable income tax treaty, is attributable to a U.S. permanent establishment, then (although the non-U.S. holder will be exempt from the 30% withholding tax, *provided* the certification requirements discussed above are satisfied) the non-U.S. holder will be subject to U.S. federal income tax on that interest in the same manner as if the non-U.S. holder were a U.S. holder. In addition, if the non-U.S. holder is a foreign corporation, it may be subject to a branch profits tax equal to 30% (or lesser rate if provided by an applicable income tax treaty) of its earnings and profits for the taxable year, subject to adjustments, that are effectively connected with its conduct of a trade or business in the United States.

#### **Sale, exchange or other taxable dispositions of notes**

Gain realized by a non-U.S. holder on the sale, exchange or other taxable disposition of a note will not be subject to U.S. federal income or withholding tax unless:

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

that gain is effectively connected with a non-U.S. holder's conduct of a trade or business in the United States (and, if provided by an applicable income treaty, is attributable to a U.S. permanent establishment); or

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and other conditions are met.

A non-U.S. holder described in the first bullet point above will be subject to U.S. federal income tax on the net gain derived from the sale, exchange or other taxable disposition of a note, generally in the same manner as if the non-U.S. holder were a U.S. holder. A non-U.S. holder described in the second bullet point above will be

S-97

---

## **Table of Contents**

subject to a flat 30% tax on the gain recognized on the sale, exchange or other taxable disposition of a note (which gain may be offset by U.S. source capital losses). In addition, a non-U.S. holder that is a foreign corporation and is described in the first bullet point above may be subject to a branch profits tax equal to 30% (or lesser rate if provided by an applicable income tax treaty) of its earnings and profits for the taxable year, subject to adjustments, that are effectively connected with its conduct of a trade or business in the United States.

Any amounts which a non-U.S. holder receives on a sale, exchange or other taxable disposition of a note which are attributable to accrued but unpaid interest will be subject to U.S. federal income tax in accordance with the rules for taxation of interest described above under **Consequences to non-U.S. holders Payments of interest.**

### **Information reporting and backup withholding**

Generally, we must report annually to the IRS and to non-U.S. holders the amount of interest paid to non-U.S. holders and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such interest and withholding may also be made available to the tax authorities in the country in which a non-U.S. holder resides under the provisions of an applicable income tax treaty. In general, a non-U.S. holder will not be subject to backup withholding with respect to payments on the notes that we make, *provided* the statement described above in the last bullet point under **Consequences to non-U.S. holders Payments of interest** has been received (and we do not have actual knowledge or reason to know that the holder is a United States person, as defined under the Code, that is not an exempt recipient). In addition, a non-U.S. holder will be subject to information reporting and, depending on the circumstances, backup withholding with respect to payments of the proceeds of the sale of a note within the United States or conducted through specified U.S.-related financial intermediaries, unless the statement described above has been received (and the payor does not have actual knowledge or reason to know that the holder is a United States person, as defined under the Code, that is not an exempt recipient) or the non-U.S. holder otherwise establishes an exemption. Any amounts withheld under the backup withholding rules will be allowed a credit against a non-U.S. holder's U.S. federal income tax liability and may entitle the holder to a refund, *provided* the required information is timely furnished to the IRS.

In addition, recently enacted legislation generally will impose a U.S. federal withholding tax of 30% on U.S. source interest paid on or after January 1, 2014 and the gross proceeds of a disposition of any property which can produce U.S. source interest paid on or after January 1, 2015 to a foreign financial institution unless such institution enters into an agreement with the IRS to withhold on certain payments and to provide the IRS with information regarding U.S. account holders of such institutions (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners). The legislation also generally will impose a U.S. federal withholding tax of 30% on U.S. source interest paid on or after January 1, 2014 and the gross proceeds of a disposition of any property which can produce U.S. source interest paid on or after January 1, 2015 to a non-financial foreign entity unless such entity provides the withholding agent with a certification identifying the direct and indirect substantial U.S. owners of the entity. The legislation contains a grandfathering provision that exempts from withholding any payment under, or gross proceeds from a disposition of, an obligation that is outstanding on March 18, 2012, and recently proposed Treasury regulations, which are not currently in effect, would extend this grandfathering provision to obligations that are outstanding on January 1, 2013 unless, in each case, the obligations are treated as significantly modified, within the meaning of the Code, on or after such date.

Prospective investors should consult with their own tax advisors regarding the possible implications of this legislation on their investment in the notes.

**Table of Contents**

**CERTAIN ERISA CONSIDERATIONS**

The following is a summary of certain considerations associated with the purchase of the notes by employee benefit plans that are subject to Title I of the Employee Retirement Income Security Act of 1974, as amended ( ERISA ), plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Internal Revenue Code of 1986, as amended (the Code ) or provisions under any federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of ERISA or the Code (collectively, Similar Laws ), and entities whose underlying assets are considered to include plan assets of any such plan, account or arrangement (each, a Plan ).

**General fiduciary matters**

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (an ERISA Plan ) and prohibit certain transactions involving the assets of an ERISA Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such an ERISA Plan or the management or disposition of the assets of such an ERISA Plan, or who renders investment advice for a fee or other compensation to such an ERISA Plan, is generally considered to be a fiduciary of the ERISA Plan.

In considering an investment in the notes of a portion of the assets of any Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Law relating to a fiduciary's duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

**Prohibited transaction issues**

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving plan assets with persons or entities who are parties in interest, within the meaning of ERISA, or disqualified persons, within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the ERISA Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code. The acquisition and/or holding of notes by an ERISA Plan with respect to which the issuer of the notes or an underwriter is considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption.

In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions, or PTCEs, that may provide exemptive relief for direct or indirect prohibited transactions resulting from the sale, purchase or holding of the notes. These class exemptions include, without limitation, PTCE 84-14 respecting transactions determined by independent qualified professional asset managers, PTCE 90-1 respecting insurance company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts, and PTCE 96-23 respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide limited relief from the prohibited transaction provisions of ERISA and Section 4975 of the Code for certain transactions, provided that neither the issuer of the securities nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any ERISA Plan involved in the transaction and provided further that the ERISA Plan pays no more than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied.

## **Table of Contents**

Because of the foregoing, the notes should not be purchased or held by any person investing plan assets of any Plan, unless such purchase and holding will not constitute a non-exempt prohibited transaction under ERISA and the Code or similar violation of any applicable Similar Laws.

## **Representation**

Accordingly, by acceptance of a note each purchaser and subsequent transferee will be deemed to have represented and warranted that either (i) no portion of the assets used by such purchaser or transferee to acquire or hold the notes constitutes assets of any Plan or (ii) the acquisition and holding of the notes by such purchaser or transferee will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or similar violation under any applicable Similar Laws.

The foregoing discussion is general in nature and is not intended to be all-inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering purchasing the notes on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such investment and whether an exemption would be applicable to the purchase and holding of the notes.

Purchasers of the notes have the exclusive responsibility for ensuring that their purchase and holding of the notes complies with the fiduciary responsibility rules of ERISA and does not violate the prohibited transaction rules of ERISA, the Code or applicable Similar Laws.

The underwriters initially propose to offer the notes to the public at the public offering price that appears on the cover page of this prospectus supplement. The underwriters may offer the notes to selected dealers at the public offering price minus a concession of up to 0.375% of the principal amount. In addition, the underwriters may allow, and those selected dealers may reallow, a concession of up to 0.250% of the principal amount to certain other dealers. After the initial offering, the underwriters may change the public offering price and any other selling terms. The underwriters may offer and sell notes through certain of their affiliates.

The following table shows the underwriting discounts and commissions to be paid to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

In the underwriting agreement, we have agreed that:

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

We will not offer or sell any of our debt securities (other than the notes) for a period of 90 days after the date of this prospectus supplement without the prior consent of Morgan Stanley & Co. LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated.

We will pay our expenses related to the offering, which we estimate will be approximately \$1 million.

We will indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in respect of those liabilities.

The notes are a new issue of securities, and there is currently no established trading market for the notes. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the notes, but they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time at their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable.

**Table of Contents**

In connection with this offering of the notes, the underwriters may engage in overallotments, stabilizing transactions and syndicate covering transactions in accordance with Regulation M under the Exchange Act. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes, as applicable. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

It is expected that delivery of the notes will be made against payment therefor on or about March 19, 2012, which is the seventh business day following the date of this prospectus supplement (such settlement cycle being referred to as T+7). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the date of this prospectus supplement or the next succeeding three business days will be required, by virtue of the fact that the notes initially will settle in T+7, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement. Purchasers of the notes who wish to trade the notes on the date of this prospectus supplement or the next three business days should consult their own advisors.

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of notes to the public in that Relevant Member State prior to the publication of a prospectus in relation to the notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive and the 2010 PD Amending Directive to the extent implemented, except that it may, with effect from and including the Relevant Implementation Date, make an offer of notes to the public in that Relevant Member State at any time:

to any legal entity which is a qualified investor as defined in the Prospectus Directive or the 2010 PD Amending Directive if the relevant provision has been implemented;

to fewer than (i) 100 natural or legal persons per Relevant Member State (other than qualified investors as defined in the Prospectus Directive or the 2010 PD Amending Directive if the relevant provision has been implemented) or (ii) if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150 natural or legal persons per Relevant Member State (other than qualified investors as defined in the Prospectus Directive or the 2010 PD Amending Directive if the relevant provision has been implemented), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

in any circumstances falling within Article 3(2) of the Prospectus Directive or Article 3(2) of the 2010 PD Amending Directive to the extent implemented.

For the purposes of this provision, the expression an offer of notes to the public, in relation to any notes in any Relevant Member State, means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe the notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EC.

Each underwriter has represented and agreed that:

(a) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (b) it has not offered or sold and will not offer or sell the notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses;

it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000) received by it in connection with the issue or sale of the notes in circumstances in which Section 21(1) of the Financial Services and Markets Act 2000 does not apply to us; and

**Other relationships**

Certain of the underwriters and their affiliates have engaged, and may in the future engage, in investment banking, commercial banking and other financial advisory and commercial dealings with us and our associates. They have received (or will receive) customary fees and commissions for these transactions. Merrill Lynch, Pierce, Fenner & Smith Incorporated is a syndication agent, joint lead arranger and bookrunner under Covanta Energy's credit facilities. Bank of America, N.A., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated is a documentation agent and lender under Covanta Energy's credit facilities. Affiliates of each of Barclays Capital Inc., Credit Agricole Securities (USA) Inc., J.P. Morgan Securities LLC, Mitsubishi UFJ Securities (USA), Inc. and TD Securities (USA) LLC act as lenders under Covanta Energy's credit facilities. Certain of the underwriters and their affiliates may serve in a lending or other capacity under Covanta Energy's new credit facility. Those underwriters and their affiliates that serve as lenders under Covanta Energy's existing credit facilities may receive a portion of the offering proceeds. See Use of proceeds.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and instruments of ours or our affiliates. Certain of the underwriters and their affiliates that have a lending relationship with us routinely hedge, and certain other of those underwriters may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their respective affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or financial instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

In addition, as of December 31, 2011, affiliates of Morgan Stanley & Co. LLC, an underwriter in this offering, are beneficial owners of approximately 9.5% of Covanta's common stock.

### **Covanta Holding Corporation**

We are one of the world's largest owners and operators of infrastructure for the conversion of waste to energy (known as energy-from-waste or EfW), as well as other waste disposal and renewable energy production businesses. We are organized as a holding company which was incorporated in Delaware on April 16, 1992. We conduct all of our operations through subsidiaries which are engaged predominantly in the businesses of waste and energy services.

Energy-from-waste serves two key markets as both a sustainable waste disposal solution that is environmentally superior to landfilling and as a source of clean energy that reduces overall greenhouse gas emissions and is considered renewable under the laws of many states and under federal law. Our facilities are critical infrastructure assets that allow our customers, which are principally municipal entities, to provide an essential public service.

We operate and/or have ownership positions in 44 energy-from-waste facilities, which are primarily located in North America, and 17 additional energy generation facilities, including other renewable energy production facilities in North America (wood biomass, landfill gas and hydroelectric) and an independent power production facility in Asia. We also operate waste management infrastructure that is complementary to our core EfW business.

We also hold equity interests in energy-from-waste facilities in China and Italy. We are pursuing additional growth opportunities in parts of Europe, where the market demand, regulatory environment or other factors encourage technologies such as energy-from-waste to reduced dependence on landfilling for waste disposal and fossil fuels for energy production in order to reduce greenhouse gas emissions. We are focusing primarily on the United Kingdom where we continue to pursue several billion dollars worth of energy-from-waste development opportunities.

Our principal executive offices are located at 445 South Street, Morristown, New Jersey 07960, and our telephone number is (862) 345-5000.

Fixed charges consist of interest expense, capitalized interest and imputed interest for operating leases.

*Covenants Contained in Indenture*

We will set forth in the applicable prospectus supplement any restrictive covenants applicable to any issue of debt securities.

*Consolidation, Merger and Sale of Assets*

We may not consolidate with or merge with or into, or convey, transfer or lease all or substantially all of our properties and assets to, any person unless:

we are the surviving corporation or the successor person is a corporation organized and validly existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture; and

immediately after giving effect to the transaction, no event of default, and no event which, after notice or lapse of time, or both, would become an event of default, shall have occurred and be continuing under the indenture.

*Events of Default and Remedies*

An event of default with respect to any series of debt securities is defined in the indenture as being:

default in the payment of any interest upon any debt security of that series when it becomes due and payable, and continuance of that default for a period of 30 days (unless the entire amount of the payment is deposited by us with the trustee or with a paying agent prior to the expiration of the 30-day period);

default in the payment of principal of any debt security of that series when due and payable;

default in the deposit of any sinking fund payment, within 30 days when and as due in respect of any series;

default in the performance or breach of any other covenant or warranty by us in the indenture (other than a covenant or warranty that has been included in the indenture solely for the benefit of a series of debt securities other than that series), which default continues uncured for a period of 90 days after we receive written notice from the trustee or we and the trustee receive written notice from the holders of not less than 25% in principal amount of the outstanding debt securities of that series as provided in the indenture;

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

certain events of bankruptcy, insolvency or reorganization of Covanta or certain of our subsidiaries; and

any other event of default provided with respect to debt securities of that series that is described in the applicable prospectus supplement.

---

**Table of Contents**

No event of default with respect to a particular series of debt securities (except as to certain events of bankruptcy, insolvency or reorganization) necessarily constitutes an event of default with respect to any other series of debt securities. The occurrence of certain events of default or an acceleration under the indenture may constitute an event of default under certain indebtedness of ours or our subsidiaries outstanding from time to time.

If an event of default with respect to debt securities of any series at the time outstanding occurs and is continuing, then the trustee or the holders of not less than 25% in principal amount of the outstanding debt securities of that series may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal of and accrued and unpaid interest, if any, on all debt securities of that series. In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization, the principal (or such specified amount) of and accrued and unpaid interest, if any, on all outstanding debt securities will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of outstanding debt securities. At any time after a declaration of acceleration with respect to debt securities of any series has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in principal amount of the outstanding debt securities of that series may rescind and annul the acceleration if all events of default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series, have been cured or waived as provided in the indenture and we have paid or deposited with the trustee a sum sufficient to pay, among other things, all overdue interest, if any, on that series of debt securities and all sums paid or advanced by the trustee pursuant to the indenture.

The indenture provides that the trustee will be under no obligation to exercise any of its rights or powers under the indenture unless the trustee receives indemnity satisfactory to it against any loss, liability or expense. Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series.

No holder of any debt security of any series will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

that holder has previously given to the trustee written notice of a continuing event of default with respect to debt securities of that series; and

the holders of not less than 25% in principal amount of the outstanding debt securities of that series have made written request, and offered reasonable indemnity or security, to the trustee to institute the proceeding as trustee, and the trustee has not received from the holders of not less than 25% in principal amount of the outstanding debt securities of that series a direction inconsistent with that request and has failed to institute the proceeding within 60 days.

Notwithstanding the foregoing, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of and any interest on that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment.

The indenture requires us, within 120 days after the end of our fiscal year, to furnish to the trustee a statement as to compliance with the indenture. The indenture provides that the trustee may withhold notice to the holders of debt securities of any series of any default or event of default (except in payment on any debt securities of that series) with respect to debt securities of that series if in good faith determines that withholding notice is in the interest of the holders of those debt securities.

## **Table of Contents**

### *Modification and Waiver*

We may modify and amend the indenture with the consent of the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments. We may not make any modification or amendment without the consent of the holders of each affected debt security then outstanding if that amendment will:

change the amount of debt securities whose holders must consent to an amendment, supplement or waiver;

reduce the rate of or extend the time for payment of interest (including default interest) on any debt security;

reduce the principal or change the stated maturity of any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation;

reduce the principal amount of discount securities payable upon acceleration of maturity;

waive a default or event of default in the payment of the principal or interest on any debt security (except a rescission of acceleration of the debt securities of any series by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);

make the principal of or interest on any debt security payable in currency other than that stated in the debt security;

make any change to certain provisions of the indenture relating to, among other things, the right of holders of debt securities to receive payment of the principal of and interest on those debt securities and to institute suit for the enforcement of any such payment and to waivers or amendments; or

waive a redemption payment with respect to any debt security.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive our compliance with provisions of the indenture. The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all the debt securities of such series waive any past default under the indenture with respect to that series and its consequences, except a default in the payment of the principal of or any interest on any debt security of that series; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from the acceleration.

### *Defeasance of Debt Securities and Certain Covenants in Certain Circumstances*

**Legal Defeasance.** The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, we may be discharged from any and all obligations in respect of the debt securities of any series (except for certain obligations to register the transfer or exchange of debt securities of such series, to replace stolen, lost or mutilated debt securities of such series, and to maintain paying agencies and certain provisions relating to the treatment of funds held by paying agents). We will be so discharged upon the deposit with the trustee, in trust, of money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, foreign government obligations, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay and discharge each installment of principal and interest on and any mandatory sinking fund or analogous payments in respect of the debt securities of that series on the stated maturity of those payments.

Edgar Filing: COVANTA HOLDING CORP - Form 424B2

This discharge may occur only if, among other things, we have delivered to the trustee an opinion of counsel stating that we have received from, or there has been published by, the United States Internal Revenue Service a

ruling or, since the date of execution of the indenture, there has been a change in the applicable United States federal income tax law, in either case to the effect that, and based thereon such opinion shall confirm that, the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to United States federal income tax on the same amount and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred.

Defeasance of Certain Covenants. The indenture provides that, unless otherwise provided by the terms of the applicable series of debt securities, upon compliance with certain conditions:

we may omit to comply with the covenant described under the heading *Consolidation, Merger and Sale of Assets* and certain other covenants set forth in the indenture, as well as any additional covenants which may be set forth in the applicable prospectus supplement; and

any omission to comply with those covenants will not constitute a default or an event of default with respect to the debt securities of that series ( *covenant defeasance* ).

The conditions include:

depositing with the trustee money and/or U.S. government obligations or, in the case of debt securities denominated in a single currency other than U.S. dollars, foreign government obligations, that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient in the opinion of a nationally recognized firm of independent public accountants to pay and discharge each installment of principal of and interest on and any mandatory sinking fund or analogous payments in respect of the debt securities of that series on the stated maturity of those payments; and

delivering to the trustee an opinion of counsel to the effect that the holders of the debt securities of that series will not recognize income, gain or loss for United States federal income tax purposes as a result of the deposit and related covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit and related covenant defeasance had not occurred.

*Governing Law*

The indenture and the debt securities will be governed by, and construed in accordance with, the internal laws of the State of New York, without regard to conflicts of laws principles thereof.

*Global Securities*

We may issue the debt securities of any series in the form of one or more fully registered global debt securities, referred to in this prospectus as a global security. The global securities will be deposited with a depositary or with a nominee for a depositary identified in the prospectus supplement relating to such series and registered in the name of the depositary or its nominee. In that case, one or more global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal amount of outstanding registered debt securities of the series to be represented by such global securities. Unless and until the depositary exchanges a global security in whole for debt securities in definitive registered form, the global securities may not be transferred except as a whole:

by the depositary to a nominee of the depositary;

by a nominee of the depositary to the depositary or another nominee of the depositary; or

## Edgar Filing: COVANTA HOLDING CORP - Form 424B2

by the depositary or any nominee to a successor of the depositary or nominee of the successor.  
The specific terms of the depositary arrangement with respect to any portion of a series of debt securities to be represented by a global security will be described in the prospectus supplement relating to that series.
