CHESAPEAKE LODGING TRUST

(Exact name of registrant as specified in its charter)

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

MARYLAND
(State or Other Jurisdiction of

27-0372343
(I.R.S. Employer

Incorporation or Organization)

Identification No.)

1997 Annapolis Exchange Parkway, Suite 410, Annapolis, Maryland 21401

(Address and zip code of principal executive offices)

(410) 972-4140

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities Exchange Act of 1934). Yes No

As of August 1, 2012, the registrant had 32,133,386 common shares issued and outstanding.

CHESAPEAKE LODGING TRUST

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

1. Organization and Description of Business

Chesapeake Lodging Trust (the Trust) is a self-advised real estate investment trust (REIT) that was organized in the state of Maryland in June 2009. The Trust is focused on investments primarily in upper-upscale hotels in major business and convention markets and, on a selective basis, premium select-service hotels in urban settings or unique locations in the United States of America (U.S.). The Trust completed its initial public offering (IPO) on January 27, 2010. As of June 30, 2012, the Trust owned 12 hotels with an aggregate of 3,516 rooms in six states and the District of Columbia.

Substantially all of the Trust's assets are held by, and all of its operations are conducted through, Chesapeake Lodging, L.P., a Delaware limited partnership, which is wholly owned by the Trust (the Operating Partnership). For the Trust to qualify as a REIT, it cannot operate hotels. Therefore, the Operating Partnership leases its hotels to CHSP TRS LLC (CHSP TRS), which is a wholly owned subsidiary of the Operating Partnership. CHSP TRS then engages hotel management companies to operate the hotels pursuant to management agreements. CHSP TRS is treated as a taxable REIT subsidiary for federal income tax purposes.

2. Summary of Significant Accounting Policies

Basis of Presentation The consolidated financial statements presented herein include all of the accounts of Chesapeake Lodging Trust and its subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

The information in these consolidated financial statements is unaudited but, in the opinion of management, reflects all adjustments necessary for a fair presentation of the results for the periods covered. All such adjustments are of a normal, recurring nature unless disclosed otherwise. These consolidated financial statements, including notes, have been prepared in accordance with the applicable rules of the Securities and Exchange Commission (SEC) and do not include all of the information and disclosures required by U.S. generally accepted accounting principles (GAAP) for complete financial statements. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Trust's Form 10-K for the year ended December 31, 2011.

Cash and Cash Equivalents The Trust considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Restricted Cash Restricted cash includes reserves held in escrow for normal replacements of furniture, fixtures and equipment (FF&E), property improvement plans (each, a PIP), real estate taxes, and insurance pursuant to certain requirements in the Trust's hotel management, franchise, and loan agreements.

Investments in Hotels The Trust allocates the purchase prices of hotels acquired based on the fair value of the acquired property, FF&E, and identifiable intangible assets and the fair value of the liabilities assumed. In making estimates of fair value for purposes of allocating the purchase price, the Trust utilizes a number of sources of information that are obtained in connection with the acquisition of a hotel, including valuations performed by independent third parties and cost segregation studies. The Trust also considers information obtained about each hotel as a result of its pre-acquisition due diligence in estimating the fair value of the tangible and intangible assets acquired. Hotel acquisition costs, such as transfer taxes, title insurance, environmental and property condition reviews, and legal and accounting fees, are expensed in the period incurred.

Property and equipment are depreciated using the straight-line method over the estimated useful lives of the assets, generally 15 to 40 years for buildings and building improvements and three to ten years for FF&E. Leasehold improvements are amortized over the shorter of the lease term or the useful lives of the related assets. Replacements and improvements at the hotels are capitalized, while repairs and maintenance are expensed as incurred. Upon the sale or retirement of property and equipment, the cost and related accumulated depreciation are removed from the Trust's accounts and any resulting gain or loss is recognized in the consolidated statements of operations.

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

Intangible assets and liabilities are recorded on non-market contracts, including air rights, lease, management, and franchise agreements, assumed as part of the acquisition of certain hotels. Above-market and below-market contract values are based on the present value of the difference between contractual amounts to be paid pursuant to the contracts assumed and the Trust's estimate of the fair market contract rates for corresponding contracts measured over a period equal to the remaining non-cancelable term of the contracts assumed. No value is allocated to market contracts. Intangible assets and liabilities are amortized using the straight-line method over the remaining non-cancelable term of the related contracts.

Table of Contents

The Trust reviews its hotels for impairment whenever events or changes in circumstances indicate that the carrying values of the hotels may not be recoverable. Events or circumstances that may cause a review include, but are not limited to, adverse changes in the demand for lodging at the properties due to declining national or local economic conditions and/or new hotel construction in markets where the hotels are located. When such conditions exist, management performs an analysis to determine if the estimated undiscounted future cash flows from operations and the proceeds from the ultimate disposition of a hotel exceed its carrying value. If the estimated undiscounted future cash flows are less than the carrying amount of the asset, an adjustment to reduce the carrying amount to the related hotel's estimated fair market value is recorded and an impairment loss is recognized. No impairment losses have been recognized for the three and six months ended June 30, 2012 and 2011.

The Trust classifies a hotel as held for sale in the period in which it has made the decision to dispose of the hotel, a binding agreement to purchase the property has been signed under which the buyer has committed a significant amount of nonrefundable cash, and no significant financing contingencies exist which could cause the transaction not to be completed in a timely manner. If these criteria are met, depreciation and amortization of the hotel will cease and an impairment loss will be recognized if the fair value of the hotel, less the costs to sell, is lower than the carrying amount of the hotel. The Trust will classify the loss, together with the related operating results, as discontinued operations in the consolidated statements of operations and classify the assets and related liabilities as held for sale in the consolidated balance sheets. As of June 30, 2012, the Trust had no assets held for sale or liabilities related to assets held for sale.

Revenue Recognition Revenues from operations of the hotels are recognized when the services are provided. Revenues consist of room sales, food and beverage sales, and other hotel department revenues, such as parking, telephone, and gift shop sales.

Prepaid Expenses and Other Assets Prepaid expenses and other assets consist of prepaid real estate taxes, prepaid insurance, deposits on hotel acquisitions and loan applications, deferred franchise costs, loan receivables, inventories, and other assets.

Deferred Financing Costs Deferred financing costs are recorded at cost and consist of loan fees and other costs incurred in issuing debt. Amortization of deferred financing costs is computed using a method that approximates the effective interest method over the term of the related debt and is included in interest expense in the consolidated statements of operations.

Derivative Instruments The Trust is a party to interest rate swaps and an interest rate cap, which are considered derivative instruments, in order to manage its interest rate exposure. The Trust's interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows. The Trust records these derivative instruments at fair value as either assets or liabilities and has designated them as cash flow hedging instruments at inception. The Trust evaluates the hedge effectiveness of the designated cash flow hedging instruments on a quarterly basis and records the effective portion of the change in the fair value of the cash flow hedging instruments as other comprehensive income (loss). Amounts reported in accumulated other comprehensive income (loss) related to cash flow hedging instruments are reclassified to interest expense as interest payments are made on the variable-rate debt being hedged. The Trust does not enter into derivative instruments for trading or speculative purposes and monitors the financial stability and credit standing of its counterparties.

Fair Value Measurements The Trust accounts for certain assets and liabilities at fair value. In evaluating the fair value of both financial and non-financial assets and liabilities, U.S. GAAP outlines a valuation framework and creates a fair value hierarchy that distinguishes between market assumptions based on market data (observable inputs) and the reporting entity's own assumptions about market data (unobservable inputs). The three levels of the fair value hierarchy are as follows:

Level 1 Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date. An active market is defined as a market in which transactions occur with sufficient frequency and volume to provide pricing on an ongoing basis.

Level 2 Inputs include quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active (markets with few transactions), inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data correlation or other means.

Level 3 Unobservable inputs reflect the reporting entity's own assumptions about the pricing of an asset or liability when observable inputs are not available or when there is minimal, if any, market activity for an identical or similar asset or liability at the measurement date.

Income Taxes The Trust has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code. As a REIT, the Trust generally will not be subject to federal income tax on that portion of its net income (loss) that does not relate to CHSP TRS, the Trust's wholly owned taxable REIT subsidiary, and that is currently distributed to its shareholders. CHSP TRS, which leases the Trust's hotels from the Operating Partnership, is subject to federal and state income taxes.

Table of Contents

The Trust accounts for income taxes using the asset and liability method under which deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Valuation allowances are provided if based upon the weight of the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

Share-Based Compensation From time-to-time, the Trust grants restricted share awards to employees and trustees. To-date, the Trust has granted two types of restricted share awards: (1) awards that vest solely on continued employment or service (time-based awards) and (2) awards that vest based on the Trust achieving specified levels of relative total shareholder return and continued employment (performance-based awards). The Trust measures share-based compensation expense for the restricted share awards based on the fair value of the awards on the date of grant. The fair value of time-based awards is determined based on the closing price of the Trust's common shares on the measurement date, which is generally the date of grant. The fair value of performance-based awards is determined using a Monte Carlo simulation. For time-based awards, share-based compensation expense is recognized on a straight-line basis over the life of the entire award. For performance-based awards, share-based compensation expense is recognized over the requisite service period for each award. No share-based compensation expense is recognized for awards for which employees or trustees do not render the requisite service.

Earnings Per Share Basic earnings per share is computed by dividing net income, adjusted for dividends declared on and undistributed earnings allocated to unvested time-based awards, by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed by dividing net income, adjusted for dividends declared on and earnings allocated to unvested time-based awards, by the weighted-average number of common shares outstanding, plus potentially dilutive securities, such as unvested performance-based awards, during the period. The Trust's unvested time-based awards are entitled to receive non-forfeitable dividends, if declared. Therefore, unvested time-based awards qualify as participating securities, requiring the allocation of dividends and undistributed earnings under the two-class method to calculate basic earnings per share. The percentage of undistributed earnings allocated to the unvested time-based awards is based on the proportion of the weighted-average unvested time-based awards outstanding during the period to the total of the weighted-average common shares and unvested time-based awards outstanding during the period. No adjustment is made for shares that are anti-dilutive during the period.

Segment Information The Trust has determined that its business is conducted in one reportable segment, hotel ownership.

Use of Estimates The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements In May 2011, the Financial Accounting Standards Board (FASB) issued updated accounting guidance that amends the accounting standard on fair value measurements. The new accounting guidance provides for a consistent definition and measurement of fair value, as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. The new accounting guidance changes certain fair value measurement principles, clarifies the application of existing fair value measurement, and expands the fair value measurement disclosure requirements, particularly for Level 3 fair value measurements. The new accounting guidance is to be applied prospectively and is effective for interim and annual periods beginning after December 15, 2011. The Trust adopted the new guidance on January 1, 2012. The Trust does not believe that the adoption of this guidance has a material impact to the consolidated financial statements.

In June 2011, the FASB issued updated accounting guidance which requires the presentation of components of other comprehensive income with the components of net income in either (1) a continuous statement of comprehensive income that contains two sections, net income and other comprehensive income, or (2) two separate but consecutive statements. The new accounting guidance eliminates the option to present components of other comprehensive income as part of the statement of shareholders' equity, and is effective for interim and annual periods beginning after December 15, 2011. The Trust adopted the new guidance on January 1, 2012. The Trust does not believe that the adoption of this guidance has a material impact to the consolidated financial statements.

Table of Contents**3. Acquisition of Hotels**

The Trust has acquired the following hotels since its IPO (in thousands, except rooms data):

Hotel	Location	Rooms	Net Assets Acquired	Acquisition Date
2010 Acquisitions:				
Hyatt Regency Boston	Boston, MA	502	\$ 113,145	March 18, 2010

Table of Contents**6. Long-Term Debt**

Long-term debt as of June 30, 2012 and December 31, 2011 consisted of the following (in thousands):

	June 30, 2012	December 31, 2011
Revolving credit facility	\$ 158,000	\$ 145,000
Term loan	130,000	130,000
Other mortgage loans	130,743	131,716
	418,743	406,716
Unamortized premium	915	1,020
Long-term debt	\$ 419,658	\$ 407,736

On October 14, 2011, the Trust entered into an amended credit agreement providing for a three-year secured revolving credit facility, maturing on October 14, 2014. The amended credit agreement provides for maximum borrowings of up to \$200.0 million, and provides for the possibility of further future increases, up to a maximum of \$300.0 million, in accordance with the terms of the amended credit agreement. Subject to certain conditions, the amended credit agreement allows for a one-year extension. The interest rate for borrowings under the revolving credit facility is LIBOR plus 2.75% 3.75% (the spread over LIBOR based on the Trust's consolidated leverage ratio). As of June 30, 2012, the interest rate in effect for borrowings under the revolving credit facility was 3.50%. The amount that the Trust can borrow under the revolving credit facility is based on the value of the Trust's hotels included in the borrowing base, as defined in the amended credit agreement. As of June 30, 2012, the revolving credit facility was secured by seven hotels providing borrowing availability of \$200.0 million, of which \$42.0 million remained available. The amended credit agreement contains standard financial covenants, including certain leverage ratios, coverage ratios, and a minimum tangible net worth requirement.

On June 30, 2011, the Trust entered into a loan agreement to obtain a \$95.0 million loan which matures in July 2016 and is secured by the Hyatt Regency Boston. The loan carries a fixed interest rate of 5.01% per annum, with principal and interest payments calculated based on a 30-year amortization. In addition, the loan agreement contains standard provisions that require the loan servicer to maintain escrow accounts for certain items, including the completion of a PIP and real estate taxes.

On June 30, 2011, in connection with the acquisition of the Courtyard Washington Capitol Hill/Navy Yard, the Trust assumed an existing loan agreement with an outstanding principal balance of \$37.5 million. The loan matures in November 2016 and is secured by the Courtyard Washington Capitol Hill/Navy Yard. The loan carries a fixed interest rate of 5.90% per annum, with principal and interest payments calculated based on a 30-year amortization. Based on interest rates on similar types of debt instruments at the time of assumption, the Trust recorded the loan at its estimated fair value of \$38.6 million, which included a premium on mortgage loan of \$1.1 million. Amortization of premium on mortgage loan is computed using a method that approximates the effective interest method over the term of the loan agreement and is included in interest expense in the consolidated statements of operations. In addition, the loan agreement contains standard provisions that require the loan servicer to maintain escrow accounts for certain items, including normal replacements of FF&E, the completion of a PIP, and real estate taxes.

On July 8, 2011, the Trust entered into a loan agreement to obtain a \$130.0 million term loan maturing in July 2014, including two one-year extension options that may be exercised subject to certain conditions. The loan is secured by the Le Meridien San Francisco and the W Chicago City Center. The loan bears interest equal to LIBOR plus 3.65%, subject to a LIBOR floor of 1.00%. Contemporaneous with the closing of the \$130.0 million term loan, the Trust entered into an interest rate swap to effectively fix the interest rate on the term loan for the first two years of its term at 4.65% per annum. Under the terms of the interest rate swap, the Trust pays fixed interest of 1.00% per annum on a notional amount of \$130.0 million and receives floating rate interest equal to the one-month LIBOR. The effective date of the interest rate swap is July 8, 2011 and matures on July 1, 2013. The Trust also purchased an interest rate cap that effectively limits variable rate interest payments on the term loan when one-month LIBOR exceeds 5.00%. The notional amount of the interest rate cap is \$130.0 million and equals the principal of the term loan being hedged. The effective date of the interest rate cap is July 1, 2013 and matures on July 8, 2014, which correlates with the maturity date of the term loan.

Table of Contents

As of June 30, 2012, the Trust was in compliance with all financial covenants under its borrowing arrangements. As of June 30, 2012, the Trust's weighted-average interest rate on its long-term debt was 4.41%. Future scheduled principal payments of debt obligations (assuming no exercise of extension options) as of June 30, 2012 are as follows (in thousands):

Year	Amounts
2012	\$ 999
2013	2,100
2014	290,215
2015	2,337
2016	123,092
Thereafter	
	\$ 418,743

See Note 12, Subsequent Events, to our consolidated financial statements for additional information relating to other long-term debt entered into subsequent to June 30, 2012.

7. Earnings Per Share

The following is a reconciliation of the amounts used in calculating basic and diluted earnings per share (in thousands, except share and per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Numerator:				
Net income	\$ 9,053	\$ 2,037	\$ 8,257	\$ 368
Less: Dividends declared on unvested time-based awards	(34)	(61)	(68)	(120)
Less: Undistributed earnings allocated to unvested time-based awards	(10)			
Net income available to common shareholders	\$ 9,009	\$ 1,976	\$ 8,189	\$ 248
Denominator:				
Weighted-average number of common shares outstanding basic and diluted	31,910,921	31,794,886	31,892,431	26,993,332
Net income available per common share basic and diluted	\$ 0.28	\$ 0.06	\$ 0.26	\$ 0.01

8. Shareholders Equity

Common Shares The Trust is authorized to issue up to 400,000,000 common shares, \$.01 par value per share. Each outstanding common share entitles the holder to one vote on all matters submitted to a vote of shareholders. Holders of the Trust's common shares are entitled to receive distributions when authorized by the Trust's board of trustees out of assets legally available for the payment of distributions.

For the six months ended June 30, 2012, the Trust issued 2,274 unrestricted common shares and 5,500 restricted common shares to its trustees and repurchased 36,008 common shares from employees to satisfy the minimum statutory tax withholding requirements related to the vesting of their previously granted restricted common shares. As of June 30, 2012, the Trust had 32,133,386 common shares outstanding.

Table of Contents

For the six months ended June 30, 2012, the Trust paid or its board of trustees declared the following dividends to its common shareholders:

	Record Date	Payment Date	Dividend Per Common Share
Fourth Quarter 2011	December 31, 2011	January 13, 2012	\$ 0.20
First Quarter 2012	March 31, 2012	April 13, 2012	\$ 0.22
Second Quarter 2012	June 30, 2012	July 13, 2012	\$ 0.22

Preferred Shares The Trust is authorized to issue up to 100,000,000 preferred shares, \$.01 par value per share. The Trust's board of trustees is required to set for each class or series of preferred shares the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications, and terms or conditions of redemption. No preferred shares were outstanding at June 30, 2012 or December 31, 2011. See Note 12, *Subsequent Events*, to our consolidated financial statements for additional information relating to a preferred share offering completed subsequent to June 30, 2012.

Universal Shelf In February 2011, the Trust filed a Registration Statement on Form S-3 with the SEC, registering equity securities with a maximum aggregate offering price of up to \$500.0 million. As of June 30, 2012, equity securities with a maximum aggregate offering price of \$259.5 million remained available to issue under this Registration Statement. See Note 12, *Subsequent Events*, to our consolidated financial statements for additional information relating to a preferred share offering completed subsequent to June 30, 2012.

9. Equity Plan

In January 2010, the Trust established the Chesapeake Lodging Trust Equity Plan (the *Plan*), which provides for the issuance of equity-based awards, including restricted shares, unrestricted shares, share options, share appreciation rights (SARs), and other awards based on the Trust's common shares. Employees and trustees of the Trust and other persons that provide services to the Trust are eligible to participate in the Plan. The compensation committee of the board of trustees administers the Plan and determines the number of awards to be granted, the vesting period, and the exercise price, if any.

The Trust initially reserved 454,657 common shares for issuance under the Plan at its establishment. In May 2012, the Trust's common shareholders approved an amendment to the Plan such that the number of shares available for issuance under the Plan was increased by 2,750,000. Shares that are issued under the Plan to any person pursuant to an award are counted against this limit as one share for every one share granted. If any shares covered by an award are not purchased or are forfeited, if an award is settled in cash or if an award otherwise terminates without delivery of any shares, then the number of common shares counted against the aggregate number of shares available under the Plan with respect to the award will, to the extent of any such forfeiture or termination, again be available for making awards under the Plan. As of June 30, 2012, subject to increases that may result in the case of any future forfeiture of currently outstanding awards, 2,752,360 common shares were reserved and available for future issuances under the Plan.

The Trust will make appropriate adjustments in outstanding awards and the number of shares available for issuance under the Plan, including the individual limitations on awards, to reflect share dividends, share splits, spin-offs and other similar events. While the compensation committee can terminate or amend the Plan at any time, no amendment can adversely impair the rights of grantees with respect to outstanding awards. In addition, an amendment will be contingent on approval of the Trust's common shareholders to the extent required by law or if the amendment would materially increase the benefits accruing to participants under the Plan, materially increase the aggregate number of shares that can be issued under the Plan, or materially modify the requirements as to eligibility for participation in the Plan. Unless terminated earlier, the Plan will terminate in January 2020, but will continue to govern unexpired awards.

Table of Contents

As of June 30, 2012, there was approximately \$1.8 million of unrecognized share-based compensation expense related to restricted common shares. The unrecognized share-based compensation expense is expected to be recognized over a weighted-average period of 0.6 years. The following is a summary of the Trust's restricted common shares for the six months ended June 30, 2012:

	Number of Shares	Weighted-Average Grant-Date Fair Value
Restricted common shares as of December 31, 2011	366,734	\$ 17.75
Granted	5,500	\$ 17.78
Vested	(154,181)	\$ 18.66
Forfeited		\$
Restricted common shares as of June 30, 2012	218,053	\$ 17.12

10. Commitments and Contingencies

Management Agreements The Trust's hotels operate pursuant to management agreements with various third-party management companies. Each management company receives a base management fee generally between 1% and 4% of hotel revenues. The management companies are also eligible to receive an incentive management fee if hotel operating income, as defined in the management agreements, exceeds certain performance thresholds. The incentive management fee is generally calculated as a percentage of hotel operating income after the Trust has received a priority return on its investment in the hotel.

Franchise Agreements As of June 30, 2012, seven of the Trust's hotels operated pursuant to franchise agreements with international hotel companies, four hotels operated pursuant to management agreements that allowed them to operate under their respective brands, and one hotel operated as an independent hotel. Under the seven franchise agreements, the Trust generally pays a royalty fee ranging from 3% to 6% of room revenues and up to 3% of food and beverage revenues, plus additional fees for marketing, central reservation systems, and other franchisor costs that amount to between 1% and 5% of room revenues.

Purchase and Sale Agreements As of June 30, 2012, the Trust had the 185-room Hyatt Place New York Midtown South, currently under development, under contract for a purchase price of \$76.2 million, plus customary pro-rated amounts and closing costs. The Trust expects to fund the purchase price with available cash and cash equivalents and by borrowing under its revolving credit facility. The Trust has already deposited \$2.0 million under the purchase and sale agreement, which is non-refundable except in the event of (1) a default under the purchase and sale agreement by the seller or (2) expressly otherwise provided by the purchase and sale agreement. In conjunction with signing the definitive agreement, the Trust agreed to loan the seller \$6.5 million, the proceeds of which will be used toward completing construction of the hotel. As of June 30, 2012, the Trust had \$4.8 million outstanding under the hotel construction loan. The loan bears interest at 6.0% per annum and is secured by a second mortgage lien on the hotel. The loan matures at the earlier of the closing on the hotel acquisition or December 31, 2012, but may be extended under certain circumstances as set forth in the loan agreement. Given the acquisition is subject to completion of the hotel by the third-party developer and customary closing conditions, the Trust can give no assurance that the acquisition will be consummated. Failure to complete this acquisition could subject the Trust to risks relating to the recovery of the amount of the hotel construction financing it has provided, and cause the Trust to incur costs in its efforts to make such recoveries. See Note 12, Subsequent Events, to our consolidated financial statements for additional information relating to purchase and sale agreements entered into subsequent to June 30, 2012.

FF&E Reserves Pursuant to its management, franchise and loan agreements, the Trust is required to establish a FF&E reserve for each hotel to cover the cost of replacing FF&E. Contributions to the FF&E reserve are based on a percentage of gross revenues at each hotel. The Trust is generally required to contribute between 3% and 5% of gross revenues over the term of the agreements.

Litigation The Trust is not involved in any material litigation nor, to its knowledge, is any material litigation threatened against the Trust.

Table of Contents**11. Fair Value Measurements and Derivative Instruments**

The following table sets forth the Trust's financial assets and liabilities measured at fair value by level within the fair value hierarchy (in thousands). Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Fair Value at June 30, 2012			
	Total	Level 1	Level 2	Level 3
Assets:				
Interest rate cap (included within prepaid expenses and other assets)	\$ 24		\$ 24	
	\$ 24		\$ 24	
Liabilities:				
Interest rate swap (included within other liabilities)	\$ 861		\$ 861	
	\$ 861		\$ 861	

Derivative instruments are classified within Level 2 of the fair value hierarchy as they are valued using third-party pricing models which contain inputs that are derived from observable market data. Where possible, the values produced by the pricing models are verified to market prices. Valuation models require a variety of inputs, including contractual terms, market prices, yield curves, credit spreads, measure of volatility, and correlations of such inputs.

The Trust's financial instruments in addition to those disclosed in the table above include cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses, loan receivables and long-term debt. The carrying values reported in the consolidated balance sheets for cash and cash equivalents, restricted cash, accounts receivable, and accounts payable and accrued expenses approximate fair value. The Trust estimates the fair value of its fixed rate debt by discounting the future cash flows of each instrument using estimated market rates of debt instruments with similar maturities and credit profiles. These inputs are classified as level 3 within the fair value hierarchy. As of June 30, 2012, the carrying values reported in the consolidated balance sheet for its loan receivable and long-term debt approximated their fair values.

12. Subsequent Events

On July 3, 2012, the Trust entered into a loan agreement to obtain a \$60.0 million term loan maturing in July 2014, including three one-year extension options that may be exercised subject to certain conditions. At the initial closing, \$25.0 million was advanced by the lender and is secured by the 122-room Holiday Inn New York City Midtown 31st Street. The remaining \$35.0 million is expected to be advanced by the lender upon closing on the acquisition of the Hyatt Place New York Midtown South and satisfaction of certain customary closing conditions. Following that subsequent closing, the entire \$60.0 million principal amount of the loan will be secured by both hotels. The loan bears interest equal to LIBOR plus 3.25%. Contemporaneous with the closing of the \$60.0 million term loan, the Trust entered into an interest rate swap to effectively fix the interest rate on the initial \$25.0 million advance for the original two-year term at 3.75% per annum. Under the terms of the interest rate swap, the Trust pays fixed interest of 0.50% per annum on a notional amount of \$25.0 million and receives floating rate interest equal to the one-month LIBOR. The effective date of the interest rate swap is July 3, 2012 and matures on July 3, 2014. Net proceeds from the initial advance under the \$60.0 million term loan were used to repay outstanding borrowings under the Trust's revolving credit facility and for general business purposes.

On July 17, 2012, the Trust completed an underwritten public offering of 5,000,000 of its 7.75% Series A Cumulative Redeemable Preferred Shares, including 600,000 shares sold pursuant to the underwriters' exercise of their over-allotment option. The Trust generated net proceeds of approximately \$120.8 million after deducting underwriting fees and estimated offering costs. The Trust used the net proceeds of the offering to repay outstanding borrowings under the Trust's revolving credit facility and for general business purposes.

On July 27, 2012, the Trust entered into a loan agreement to obtain a \$70.0 million loan secured by the Denver Marriott City Center. The loan has a term of 30 years, but is callable by the lender after 10 years, and the Trust expects the lender to call the loan at that time. The loan carries a fixed interest rate of 4.90% per annum, with principal and interest based on a 30-year amortization. Proceeds from the loan were used to repay the remaining outstanding borrowings under the Trust's revolving credit facility and for general business purposes. Contemporaneous with the

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

closing of the \$70.0 million loan, the Denver Marriott City Center was removed from the collateral pool securing the Trust's revolving credit facility, which reduced the borrowing capacity under the revolving credit facility at that time to \$164.5 million.

Table of Contents

On July 31, 2012, the Trust entered into a definitive agreement to acquire a full-service hotel located in San Diego, California for \$62.0 million. The Trust intends to fund the acquisition with available cash and cash equivalents and by borrowing under its revolving credit facility. The Trust expects the acquisition to close in the third quarter 2012, subject to customary closing conditions, but can give no assurance that the acquisition will be consummated during that time period, or at all.

On August 5, 2012, the Trust entered into a definitive agreement to acquire a full-service hotel located in Chicago, Illinois for \$126.0 million. The Trust intends to fund the acquisition with available cash and cash equivalents and by borrowing under its revolving credit facility. The Trust expects the acquisition to close in the third quarter 2012, subject to customary closing conditions, but can give no assurance that the acquisition will be consummated during that time period, or at all.

Table of Contents

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations* Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, and as such may involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, are generally identified by our use of words, such as intend, plan, may, should, will, project, estimate, anticipate, expect, continue, potential, opportunity, and similar expressions, whether in the negative or affirmative. We cannot guarantee that we actually will achieve these plans, intentions or expectations. All statements regarding our expected financial position, business and financing plans are forward-looking statements. Factors which could have a material adverse effect on our operations and future prospects include, but are not limited to:

U.S. economic conditions generally and the real estate market and the lodging industry specifically;

management and performance of our hotels;

our plans for renovation of our hotels;

our financing plans and the terms on which capital is available to us;

supply and demand for hotel rooms in our current and proposed market areas;

our ability to acquire additional properties and the risk that potential acquisitions may not be completed or perform in accordance with expectations;

legislative/regulatory changes, including changes to laws governing taxation of real estate investment trusts; and

our competition.

These risks and uncertainties, together with the information contained in our Form 10-K for the year ended December 31, 2011 under the caption Risk Factors, should be considered in evaluating any forward-looking statement contained in this report or incorporated by reference herein. All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are qualified by the cautionary statements in this section. We undertake no obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of this report, except as required by law.

Overview

We were organized as a self-advised REIT with a focus on investments primarily in upper-upscale hotels in major business and convention markets and, on a selective basis, premium select-service hotels in urban settings or unique locations in the U.S. We completed our IPO in January 2010 and have since acquired the following 12 hotels:

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

Hotel	Location	Rooms	Acquisition Date
Hyatt Regency Boston	Boston, MA	502	March 18, 2010
Hilton Checkers Los Angeles	Los Angeles, CA	188	June 1, 2010
Courtyard Anaheim at Disneyland Resort	Anaheim, CA	153	July 30, 2010
Boston Marriott Newton	Newton, MA	430	July 30, 2010
Le Meridien San Francisco	San Francisco, CA	360	December 15, 2010
Homewood Suites Seattle Convention Center	Seattle, WA	195	May 2, 2011
W Chicago - City Center	Chicago, IL	368	May 10, 2011
Hotel Indigo San Diego Gaslamp Quarter	San Diego, CA	210	June 17, 2011
Courtyard Washington Capitol Hill/Navy Yard	Washington, DC	204	June 30, 2011
Hotel Adagio	San Francisco, CA	171	July 8, 2011
Denver Marriott City Center	Denver, CO	613	October 3, 2011
Holiday Inn New York City Midtown 31 Street	New York, NY	122	December 22, 2011

As of the date of this filing, we also have committed to acquire the Hyatt Place New York Midtown South, a hotel located in San Diego, California, and a hotel located in Chicago, Illinois for aggregate purchase prices of \$264.2 million.

Table of Contents

Hotel Operating Metrics

We believe that the results of operations of our hotels are best explained by three key performance indicators: occupancy, average daily rate (ADR) and revenue per available room (RevPAR), which is room revenue divided by total number of available rooms. RevPAR does not include food and beverage revenues or other ancillary revenues, such as parking, telephone or other guest services provided by the hotel.

Occupancy is a major driver of room revenue, as well as other revenue categories, such as food and beverage and parking. ADR helps to drive room revenue as well; however, it does not have a direct effect on other revenue categories. Fluctuations in occupancy are accompanied by fluctuations in most categories of variable operating costs, such as utility costs and certain labor costs such as housekeeping, resulting in varying levels of hotel profitability. Increases in ADR typically result in higher hotel profitability since variable hotel expenses generally do not increase correspondingly. Thus, increases in RevPAR attributable to increases in occupancy are accompanied by increases in most categories of variable operating costs, while increases in RevPAR attributable to increases in ADR are accompanied by increases in limited categories of operating costs, such as management fees and franchise fees.

Executive Summary

Our hotel portfolio performed exceptionally well and significantly outperformed the overall U.S. lodging industry in RevPAR during the quarter. We believe our outperformance was a result of our intense asset management and because our hotels are located in major markets, and specifically, in several of the strongest performing markets in the U.S., including Boston, San Francisco, Los Angeles, and San Diego. Occupancy at our hotels is primarily driven by business transient customers, from which segment we continue to see high demand for rooms. Because occupancy levels at our hotels were at stabilized levels of over 75%, our hotels were able to exercise pricing power and aggressively increase ADR and as a result, also significantly increase hotel profitability. We expect these positive operating trends to continue through the remainder of 2012.

We will continue to proactively asset manage our current hotel portfolio and invest in select return-on-investment projects to generate strong internal growth, which include the substantially completed renovation and repositioning of our Hotel Adagio and the ongoing addition of 35 rooms to the top two vacant floors of our W Chicago City Center. We are also in the process of, or plan to complete in the near future, certain capital projects at Hyatt Regency Boston, Denver Marriott City Center, Le Meridien San Francisco, Hotel Indigo San Diego Gaslamp Quarter, Hilton Checkers Los Angeles, and Holiday Inn New York City Midtown 31 Street.

The hotel transaction market has seen a progressive increase in activity since the beginning of the year. We have remained active in growing our hotel portfolio since June 30, 2012 and through the date of this filing, committing to acquire two high-quality hotels located in major markets with high barriers-to-entry for an aggregate purchase price of \$188.0 million. We expect these two acquisitions to close in the third quarter 2012 and the acquisition of the previously announced Hyatt Place New York Midtown South, currently under development, to close in the fourth quarter 2012.

Results of Operations

Comparison of three months ended June 30, 2012 and 2011

Results of operations for the three months ended June 30, 2012 include the operating activity of 12 hotels for the full quarter, whereas the results of operations for the three months ended June 30, 2011 include the operating activity of five hotels for the full quarter and four hotels for part of the quarter. As a result, comparisons of results of operations between the periods are not meaningful.

Revenues Total revenue for the three months ended June 30, 2012 and 2011 was \$67.0 million and \$40.3 million, respectively. Total revenue for the three months ended June 30, 2012 included rooms revenue of \$51.6 million, food and beverage revenue of \$13.3 million, and other revenue of \$2.1 million. Total revenue for the three months ended June 30, 2011 included rooms revenue of \$29.9 million, food and beverage revenue of \$9.2 million, and other revenue of \$1.2 million.

For the three months ended June 30, 2012, RevPAR for our hotel portfolio was \$163.55, driven by occupancy of 82.0% and ADR of \$199.41.

Hotel operating expenses Hotel operating expenses, excluding depreciation and amortization, for the three months ended June 30, 2012 and 2011 were \$41.7 million and \$25.5 million, respectively. Direct hotel operating expenses for the three months ended June 30, 2012 included rooms expense of \$11.0 million, food and beverage expense of \$9.2 million, and other direct expenses of \$0.9 million. Direct hotel operating expenses for the three months ended June 30, 2011 included rooms expense of \$6.8 million, food and beverage expense of \$6.4 million, and other direct expenses of \$0.6 million. Indirect hotel operating expenses, which includes management and franchise fees, real estate taxes,

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

insurance, utilities, repairs and maintenance, advertising and sales, and general and administrative expenses, for the three months ended June 30, 2012 and 2011 were \$20.6 million and \$11.8 million, respectively.

Table of Contents

Depreciation and amortization Depreciation and amortization expense for the three months ended June 30, 2012 and 2011 was \$6.7 million and \$3.8 million, respectively. The increase in depreciation and amortization expense was directly attributable to the increase in investment in hotels since June 30, 2011.

Air rights contract amortization Air rights contract amortization expense associated with the Hyatt Regency Boston for the three months ended June 30, 2012 and 2011 was \$0.1 million.

Corporate general and administrative Total corporate general and administrative expenses for the three months ended June 30, 2012 and 2011 were \$2.9 million and \$6.1 million, respectively. Included in corporate general and administrative expenses for the three months ended June 30, 2012 and 2011 was \$0.8 million of non-cash share-based compensation expense and \$0.1 million and \$3.7 million, respectively, of hotel acquisition costs. The decrease in corporate general and administrative expense is primarily a result of a decrease in hotel acquisition costs as a result of no hotel acquisitions occurring during the three months ended June 30, 2012, as compared to four hotel acquisitions occurring during the three months ended June 30, 2011.

Interest income Interest income on cash and cash equivalents for the three months ended June 30, 2012 and 2011 was \$19 thousand and \$57 thousand, respectively.

Interest expense Interest expense for the three months ended June 30, 2012 and 2011 was \$5.1 million and \$1.9 million, respectively. The increase in interest expense is directly related to the increase in long-term debt outstanding.

Income tax expense Income tax expense for the three months ended June 30, 2012 and 2011 was \$1.5 million and \$0.9 million, respectively. Income tax expense is related to taxable income generated by our TRS during the periods.

Comparison of six months ended June 30, 2012 and 2011

Results of operations for the six months ended June 30, 2012 include the operating activity of eleven hotels for the full period and one hotel for part of the period whereas the results of operations for the six months ended June 30, 2011 include the operating activity of five hotels for the full period and four hotels for part of the period. As a result, comparisons of results of operations between the periods are not meaningful.

Revenues Total revenue for the six months ended June 30, 2012 and 2011 was \$117.3 million and \$64.3 million, respectively. Total revenue for the six months ended June 30, 2012 included rooms revenue of \$89.8 million, food and beverage revenue of \$23.8 million, and other revenue of \$3.7 million. Total revenue for the six months ended June 30, 2011 included rooms revenue of \$47.2 million, food and beverage revenue of \$15.1 million, and other revenue of \$2.0 million.

For the six months ended June 30, 2012, RevPAR for our hotel portfolio was \$142.67, driven by occupancy of 77.1% and ADR of \$184.95.

Hotel operating expenses Hotel operating expenses, excluding depreciation and amortization, for the six months ended June 30, 2012 and 2011 were \$79.5 million and \$44.6 million, respectively. Direct hotel operating expenses for the six months ended June 30, 2012 included rooms expense of \$20.7 million, food and beverage expense of \$17.4 million, and other direct expenses of \$1.8 million. Direct hotel operating expenses for the six months ended June 30, 2011 included rooms expense of \$11.4 million, food and beverage expense of \$11.2 million, and other direct expenses of \$1.1 million. Indirect hotel operating expenses, which includes management and franchise fees, real estate taxes, insurance, utilities, repairs and maintenance, advertising and sales, and general and administrative expenses, for the six months ended June 30, 2012 and 2011 were \$39.6 million and \$20.9 million, respectively.

Depreciation and amortization Depreciation and amortization expense for the six months ended June 30, 2012 and 2011 was \$13.2 million and \$6.8 million, respectively. The increase in depreciation and amortization expense was directly attributable to the increase in investment in hotels over periods.

Air rights contract amortization Air rights contract amortization expense associated with the Hyatt Regency Boston for the six months ended June 30, 2012 and 2011 was \$0.3 million.

Corporate general and administrative Total corporate general and administrative expenses for the six months ended June 30, 2012 and 2011 were \$6.0 million and \$8.7 million, respectively. Included in corporate general and administrative expenses for the six months ended June 30, 2012 and 2011 was \$1.6 million and \$1.5 million, respectively, of non-cash share-based compensation expense and \$0.4 million and \$3.9 million, respectively, of hotel acquisition costs. The decrease in corporate general and administrative expense is primarily a result of a decrease in hotel acquisition costs as a result of no hotel acquisitions occurring during the six months ended June 30, 2012, as compared to four hotel

acquisitions occurring during the six months ended June 30, 2011.

Table of Contents

Interest income Interest income on cash and cash equivalents for the six months ended June 30, 2012 and 2011 was \$22 thousand and \$124 thousand, respectively.

Interest expense Interest expense for the six months ended June 30, 2012 and 2011 was \$10.2 million and \$3.9 million, respectively. The increase in interest expense is directly related to the increase in long-term debt outstanding.

Income tax benefit Income tax benefit for the six months ended June 30, 2012 and 2011 was \$0.1 million. Income tax benefit is related to taxable losses generated by our TRS during the periods.

Pro forma hotel performance

We assess the operating performance of our hotels irrespective of the hotel owner during the periods compared. Included in the following table are comparisons of, on a pro forma basis, occupancy, ADR, RevPAR, Adjusted Hotel EBITDA, and Adjusted Hotel EBITDA Margin for the three and six months ended June 30, 2012 and 2011. Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin are non-GAAP financial measures. For further information on the calculation of Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin, why we believe they are useful, and the limitations on their use, see *Non-GAAP Financial Measures* below.

The pro forma operating metrics reflect the operating results of 10 of our 12 hotels owned as of June 30, 2012. The pro forma operating metrics do not include operating results for the Holiday Inn New York City Midtown 31 Street, as the hotel opened for business on January 19, 2012, and the Hotel Adagio, as the hotel was under renovation during the period.

	Three Months Ended June 30,			Six Months Ended June 30,		
	2012	2011	Change	2012	2011	Change
Occupancy	83.2%	82.7%	50 bps	78.1%	75.6%	250 bps
ADR	\$ 199.12	\$ 182.57	9.1%	\$ 184.90	\$ 172.72	7.1%
RevPAR	\$ 165.64	\$ 151.05	9.7%	\$ 144.43	\$ 130.52	10.7%
Adjusted Hotel EBITDA ⁽¹⁾	\$ 23,906	\$ 20,887	14.5%	\$ 36,104	\$ 30,101	19.9%
Adjusted Hotel EBITDA Margin	37.9%	35.5%	240 bps	32.7%	29.7%	300 bps

⁽¹⁾ In thousands.

The increase in pro forma RevPAR for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011 was primarily driven by pro forma RevPAR increases at our Hyatt Regency Boston, Hilton Checkers Los Angeles, Boston Marriott Newton, Le Meridien San Francisco, Homewood Suites Seattle Convention Center, and Hotel Indigo San Diego Gaslamp Quarter. The increases in pro forma RevPAR at the aforementioned hotels were primarily a result of our hotel managers aggressively increasing ADR during the three months ended June 30, 2012 as occupancy had reached stabilized levels at many of the hotels. Offsetting the pro forma RevPAR increases at the above hotels were the Denver Marriott City Center, which experienced no change in pro forma RevPAR, and the W Chicago City Center, which experienced a minimal increase in pro forma RevPAR for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011, as a result of lower occupancy between the periods.

The increase in pro forma RevPAR for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011 was primarily driven by pro forma RevPAR increases at our Hyatt Regency Boston, Boston Marriott Newton, Le Meridien San Francisco, Homewood Suites Seattle Convention Center, and Hotel Indigo San Diego Gaslamp Quarter. Offsetting the pro forma RevPAR increases at the aforementioned hotels were the Courtyard Washington Capitol Hill/Navy Yard, which experienced no change in pro forma RevPAR, and the Denver Marriott City Center, which experienced a minimal increase in pro forma RevPAR for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011.

The increase in pro forma Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011 was primarily driven by pro forma Adjusted Hotel EBITDA increases at our Hyatt Regency Boston, Hilton Checkers Los Angeles, Le Meridien San Francisco, Homewood Suites Seattle Convention Center, Courtyard Washington Capitol Hill/Navy Yard, and Hotel Indigo San Diego Gaslamp Quarter. Offsetting the pro forma Adjusted Hotel EBITDA increases at the aforementioned hotels were the W Chicago City Center, which experienced a decrease in pro forma Adjusted Hotel EBITDA as a result of an expected increase in real estate tax expense, and the Denver Marriott City Center.

Table of Contents

The increase in pro forma Adjusted Hotel EBITDA and Adjusted Hotel EBITDA Margin for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011 was primarily driven by pro forma Adjusted Hotel EBITDA increases at our Hyatt Regency Boston, Hilton Checkers Los Angeles, Le Meridien San Francisco, Homewood Suites Seattle Convention Center, Courtyard Washington Capitol Hill/Navy Yard, and Hotel Indigo San Diego Gaslamp Quarter. Offsetting the pro forma Adjusted Hotel EBITDA increases at the aforementioned hotels were the W Chicago City Center, which experienced a decrease in pro forma Adjusted Hotel EBITDA as a result of an expected increase in real estate tax expense.

Non-GAAP Financial Measures

Non-GAAP financial measures are measures of our historical financial performance that are different from measures calculated and presented in accordance with U.S. GAAP. We report the following seven non-GAAP financial measures that we believe are useful to investors as key measures of our operating performance: (1) Funds from operations (FFO), (2) Adjusted FFO (AFFO), (3) Corporate EBITDA, (4) Adjusted Corporate EBITDA, (5) Hotel EBITDA, (6) Adjusted Hotel EBITDA, and (7) Adjusted Hotel EBITDA Margin.

FFO We calculate FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (NAREIT), which defines FFO as net income (calculated in accordance with GAAP), excluding depreciation and amortization, gains (losses) from sales of real estate, the cumulative effect of changes in accounting principles, and adjustments for unconsolidated partnerships and joint ventures. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most industry investors consider presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. By excluding the effect of depreciation and amortization and gains (losses) from sales of real estate, both of which are based on historical cost accounting and which may be of lesser significance in evaluating current performance, we believe that FFO provides investors a useful financial measure to evaluate our operating performance.

AFFO We further adjust FFO for certain additional recurring and non-recurring items that are not in NAREIT's definition of FFO. Specifically, we adjust for hotel acquisition costs and non-cash amortization of intangible assets and unfavorable contract liabilities. We believe that AFFO provides investors with another financial measure of our operating performance that provides for greater comparability of our core operating results between periods.

The following table reconciles net income to FFO and AFFO for the three and six months ended June 30, 2012 and 2011 (in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net income available to common shareholders	\$ 9,009	\$ 1,976	\$ 8,189	\$ 248
Add: Depreciation and amortization	6,677	3,767	13,207	6,751
FFO available to common shareholders	15,686	5,743	21,396	6,999
Add: Hotel acquisition costs	134	3,671	443	3,917
Non-cash amortization ⁽¹⁾	60	136	120	271
AFFO available to common shareholders	\$ 15,880	\$ 9,550	\$ 21,959	\$ 11,187
FFO available per common share basic and diluted	\$ 0.49	\$ 0.18	\$ 0.67	\$ 0.26
AFFO available per common share basic and diluted	\$ 0.50	\$ 0.30	\$ 0.69	\$ 0.41

(1) Includes non-cash amortization of ground lease asset, deferred franchise costs, unfavorable contract liability, and air rights contract.
Corporate EBITDA Corporate EBITDA is defined as earnings before interest, income taxes, and depreciation and amortization. We believe that Corporate EBITDA provides investors a useful financial measure to evaluate our operating performance, excluding the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization).

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

Adjusted Corporate EBITDA We further adjust Corporate EBITDA for certain additional recurring and non-recurring items. Specifically, we adjust for hotel property acquisition costs and non-cash amortization of intangible assets. We believe that Adjusted Corporate EBITDA provides investors with another financial measure of our operating performance that is more comparable between periods.

Table of Contents

The following table reconciles net income to Corporate EBITDA and Adjusted Corporate EBITDA for the three and six months ended June 30, 2012 and 2011 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Net income	\$ 9,053	\$ 2,037	\$ 8,257	\$ 368
Add: Depreciation and amortization	6,677	3,767	13,207	6,751
Interest expense	5,106	1,875	10,190	3,902
Income tax expense (benefit)	1,486	914	(110)	(132)
Less: Interest income	(19)	(57)	(22)	(124)
Corporate EBITDA	22,303	8,536	31,522	10,765
Add: Hotel acquisition costs	134	3,671	443	3,917
Non-cash amortization ⁽¹⁾	60	136	120	271
Adjusted Corporate EBITDA	\$ 22,497	\$ 12,343	\$ 32,085	\$ 14,953

(1) Includes non-cash amortization of ground lease asset, deferred franchise costs, unfavorable contract liability, and air rights contract.
Hotel EBITDA Hotel EBITDA is defined as total revenues less total hotel operating expenses. We believe that Hotel EBITDA provides investors a useful financial measure to evaluate our hotel operating performance.

Adjusted Hotel EBITDA We further adjust Hotel EBITDA for certain additional recurring and non-recurring items. Specifically, we adjust for non-cash amortization of intangible assets and unfavorable contract liabilities. We believe that Adjusted Hotel EBITDA provides investors with another useful financial measure to evaluate our hotel operating performance.

Adjusted Hotel EBITDA Margin Adjusted Hotel EBITDA Margin is defined as Adjusted Hotel EBITDA as a percentage of total revenues. We believe that Adjusted Hotel EBITDA Margin provides investors another useful measure to evaluate our hotel operating performance.

The following table calculates for comparable 10-hotel portfolio pro forma Hotel EBITDA, Adjusted Hotel EBITDA, and Adjusted Hotel EBITDA Margin for the three and six months ended June 30, 2012 and 2011 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Total revenue	\$ 63,100	\$ 58,800	\$ 110,508	\$ 101,497
Less: Total hotel operating expenses	39,124	37,919	74,264	71,407
Hotel EBITDA	23,976	20,881	36,244	30,090
Less: Non-cash amortization ⁽¹⁾	(70)	6	(140)	11
Adjusted Hotel EBITDA	\$ 23,906	\$ 20,887	\$ 36,104	\$ 30,101
Adjusted Hotel EBITDA Margin	37.9%	35.5%	32.7%	29.7%

(1) Includes non-cash amortization of ground lease asset, deferred franchise costs, and unfavorable contract liability.
None of FFO, AFFO, Corporate EBITDA Adjusted Corporate EBITDA, Hotel EBITDA, or Adjusted Hotel EBITDA represent cash generated from operating activities as determined by GAAP, nor shall any of these measures be considered as an alternative to GAAP net income (loss), as an indication of our financial performance, or to GAAP cash flow from operating activities, as a measure of liquidity. In addition, FFO, AFFO,

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

Corporate EBITDA Adjusted Corporate EBITDA, Hotel EBITDA, or Adjusted Hotel EBITDA are not indicative of funds available to fund cash needs, including the ability to make cash distributions.

Sources and Uses of Cash

For the six months ended June 30, 2012, net cash flows from operating activities were \$23.6 million; net cash flows used in investing activities were \$21.1 million, including \$11.7 million for improvements and additions to our hotels and \$4.8 million for investment in a hotel construction loan; and net cash flows used in financing activities were \$3.6 million, including \$13.5 million in dividend payments to common shareholders, offset by \$12.0 million in net borrowings. As of June 30, 2012, we had cash and cash equivalents of \$19.9 million.

Table of Contents

On January 13, 2012, we paid a dividend of \$0.20 per share to common shareholders of record as of December 31, 2011. On April 13, 2012, we paid a dividend of \$0.22 per share to common shareholders of record as of March 31, 2012. On July 13, 2012, we paid a dividend of \$0.22 per share to common shareholders of record as of June 30, 2012. We expect to continue declaring distributions to shareholders, as required to maintain our REIT status, although no assurances can be made that we will continue to generate sufficient income to distribute similar aggregate amounts in the future. The per share amounts of future distributions will depend on the number of our common and preferred shares outstanding from time-to-time and will be determined by our board of trustees following its periodic review of our financial performance and capital requirements, and the terms of our existing borrowing arrangements.

Liquidity and Capital Resources

We expect our primary source of cash to meet operating requirements, including payment of dividends in accordance with the REIT requirement of the U.S. federal income tax laws, payment of interest on any borrowings and funding of any capital expenditures, will be from our hotels operations and existing cash and cash equivalent balances. We currently expect that our operating cash flows will be sufficient to fund our continuing operations. We intend to incur indebtedness to supplement our investment capital and to maintain flexibility to respond to industry conditions and opportunities. We are targeting an overall debt level not to exceed 50% of the aggregate purchase prices of all of our portfolio hotels.

We expect to meet long-term liquidity requirements, including for new hotel acquisitions and scheduled debt maturities, through additional secured and unsecured borrowings and the issuance of equity securities. Our ability to raise funds through the issuance of equity securities depends on, among other things, general market conditions for hotel companies and REITs and market perceptions about us. We will continue to analyze alternate sources of capital in an effort to minimize our capital costs and maximize our financial flexibility.

On July 3, 2012, we entered into a loan agreement to obtain a \$60.0 million term loan maturing in July 2014, subject to three one-year extension options that may be exercised subject to certain conditions. At the initial closing, \$25.0 million was advanced by the lender and is secured by the 122-room Holiday Inn New York City Midtown 31st Street. The remaining \$35.0 million is expected to be advanced by the lender upon closing on the acquisition of the Hyatt Place New York Midtown South and satisfaction of certain customary closing conditions. Following that subsequent closing, the entire \$60.0 million principal amount of the loan will be secured by both hotels. Net proceeds from the initial advance under the \$60.0 million term loan were used to repay outstanding borrowings under our revolving credit facility and for general business purposes.

On July 17, 2012, we completed an underwritten public offering of 5,000,000 of our 7.75% Series A Cumulative Redeemable Preferred Shares, including 600,000 shares sold pursuant to the underwriters' exercise of their over-allotment option. We generated net proceeds of approximately \$120.8 million after deducting underwriting fees and estimated offering costs, which we used to repay outstanding borrowings under our revolving credit facility and for general business purposes.

On July 27, 2012, we entered into a loan agreement to obtain a \$70.0 million loan secured by the Denver Marriott City Center. The loan has a term of 30 years, but is callable by the lender after 10 years, and we expect the lender to call the loan at that time. The loan carries a fixed interest rate of 4.90% per annum, with principal and interest based on a 30-year amortization. Proceeds from the loan were used to repay the remaining outstanding borrowings under our revolving credit facility and for general business purposes. Contemporaneous with the closing of the \$70.0 million loan, the Denver Marriott City Center was removed from the collateral pool securing our revolving credit facility.

As of the date of this filing, we currently have approximately \$58 million of cash and cash equivalents and borrowing availability of \$164.5 million under our revolving credit facility. See the notes to our consolidated financial statements for additional information relating to our revolving credit facility and other long-term debt.

We have entered into definitive agreements to acquire the Hyatt Place New York Midtown South, a hotel located in San Diego, California and a hotel located in Chicago, Illinois for purchase prices of \$76.2 million, \$62.0 million and \$126.0 million, respectively. We have already deposited an aggregate of \$15.0 million under these three purchase and sale agreements. We expect to fund the purchase prices with available cash and cash equivalents and by borrowing under our revolving credit facility. In conjunction with signing the definitive agreement to acquire the Hyatt Place New York Midtown South, we agreed to loan the seller \$6.5 million, the proceeds of which will be used toward completing construction of the hotel. As of the date of this filing, we have \$6.0 million outstanding under the hotel construction loan.

Giving effect to the pending acquisitions of the Hyatt Place New York Midtown South, the hotel located in San Diego, California, and the hotel located in Chicago, Illinois, and based on our targeted overall debt level, we have approximately \$75 million of remaining investment capacity to continue to grow our hotel portfolio. Furthermore, as of the date of this filing, we have equity securities with a maximum aggregate offering price of \$134.5 million available to issue under a universal shelf registration statement.

Table of Contents**Capital Expenditures**

We maintain each hotel in good repair and condition and in conformity with applicable laws and regulations and in accordance with the franchisor's standards and the agreed-upon requirements in our management and loan agreements. The cost of all such routine improvements and alterations will be paid out of property improvement reserves, which will be funded by a portion of each hotel's gross revenues. Routine capital expenditures will be administered by the management companies. However, we will have approval rights over the capital expenditures as part of the annual budget process.

From time-to-time, certain of our hotels may be undergoing renovations as a result of our decision to upgrade portions of the hotels, such as guestrooms, meeting space, and/or restaurants, in order to better compete with other hotels in our markets. In addition, often after we acquire a hotel, we are required to complete a PIP in order to bring the hotel up to the respective franchisor's standards. If permitted by the terms of the management agreement, funding for a renovation will first come from the FF&E reserve. To the extent that the FF&E reserve is not adequate to cover the cost of the renovation, we will fund the remaining portion of the renovation with cash and cash equivalents on hand or available borrowings under our revolving credit facility.

Contractual Obligations

The following table sets forth our contractual obligations as of June 30, 2012, and the effect such obligations are expected to have on our liquidity and cash flow in future periods (in thousands). There were no other material off-balance sheet arrangements at June 30, 2012, except for the pending acquisition of the Hyatt Place New York Midtown South for a purchase price of \$76.2 million.

Contractual Obligations	Total	Payments Due by Period			
		Less Than One Year	One to Three Years	Three to Five Years	More Than Five Years
Revolving credit facility, including interest ⁽¹⁾	\$ 171,303	\$ 5,607	\$ 165,696	\$	\$
Term loan, including interest ⁽¹⁾	142,879	6,129	136,750		
Other mortgage loans, including interest	158,975	8,968	17,936	132,071	
Corporate office lease	1,177	210	440	467	60
Ground leases	7,647	82	164	164	7,237
	\$ 481,981	\$ 20,996	\$ 320,986	\$ 132,702	\$ 7,297

- (1) Assumes no additional borrowings under the revolving credit facility and interest payments on the revolving credit facility and term loan are based on the interest rate in effect as of June 30, 2012. Also assumes that no extension options are exercised. See the notes to our consolidated financial statements for additional information relating to our revolving credit facility and term loan.

Inflation

Operators of hotels, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates.

Seasonality

Demand in the lodging industry is affected by recurring seasonal patterns. For non-resort properties, demand is generally lower in the winter months due to decreased travel and higher in the spring and summer months during the peak travel season. For resort properties, demand is generally higher in the winter months. We expect that our operations will generally reflect non-resort seasonality patterns. Accordingly, we expect that we will have lower revenue, operating income and cash flow in the first and fourth quarters and higher revenue, operating income and cash flow in the second and third quarters. These general trends are, however, expected to be greatly influenced by overall economic cycles.

Critical Accounting Policies

Edgar Filing: Chesapeake Lodging Trust - Form 10-Q

Our consolidated financial statements have been prepared in conformity with U.S. GAAP, which requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. We evaluate our estimates and judgments on an ongoing basis. We base our estimates on experience and on various other assumptions that are believed to be reasonable under the circumstances. All of our critical accounting policies are disclosed in our Form 10-K for the year ended December 31, 2011.

Table of Contents

Recently Adopted Accounting Pronouncements

See Note 2, Summary of Significant Accounting Policies, to our consolidated interim financial statements for additional information relating to recently adopted accounting pronouncements.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

We earn interest income from cash and cash equivalent balances. Based on our cash and cash equivalents as of June 30, 2012, if interest rates increase or decrease by 1.00%, our interest income will increase or decrease by approximately \$0.2 million annually, respectively.

As of June 30, 2012, we had \$158.0 million of debt outstanding from borrowings under our revolving credit facility. Amounts borrowed under our revolving credit facility bear interest at variable rates based on LIBOR plus 2.75% 3.75% (the spread over LIBOR based on our consolidated leverage ratio). If prevailing LIBOR on our debt under our revolving credit facility were to increase or decrease by 1.00%, the increase or decrease in interest expense on our debt would increase or decrease future earnings and cash flows by approximately \$1.6 million annually, assuming that the amount outstanding under our revolving credit facility was to remain at \$158.0 million, the balance at June 30, 2012.

Item 4. *Controls and Procedures*

The Chief Executive Officer and Chief Financial Officer of the Trust have evaluated the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as required by paragraph (b) of Rules 13a-15 and 15d-15 under the Exchange Act, and have concluded that as of the end of the period covered by this report, the Trust's disclosure controls and procedures were effective at a reasonable assurance level.

There was no change in the Trust's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act during the Trust's most recent fiscal quarter that materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.
