(unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Description of Business

Monster Worldwide, Inc. (together with its consolidated subsidiaries, the Company, Monster, Monster Worldwide, we, our, or us) has operations that consist of three reportable segments: Careers-North America, Careers-International and Internet Advertising & Fees. Revenue in the Company's Careers segments is primarily earned from the placement of job advertisements on the websites within the Monster network, access to the Monster network of online resume databases, recruitment media services and other career-related services. Revenue in the Company's Internet Advertising & Fees segment is primarily earned from the display of advertisements on the Monster network of websites, click-throughs on text based links and leads provided to advertisers. The Company's Careers segments provide online services to customers in a variety of industries throughout North America, Europe, and the Asia-Pacific region, while Internet Advertising & Fees delivers online services primarily in North America.

In May 2014, Monster revealed its strategy to drive the business and enhance its competitive position at the Company's Strategy Briefing event held in Weston, Massachusetts. Monster's strategy focuses on adding massive scale to its business to expand its total addressable market and the value it can provide to customers through a variety of new products, technologies and business models to successfully connect more people with more jobs.

Basis of Presentation

The consolidated interim financial statements included herein are unaudited and have been prepared by the Company pursuant to the rules and regulations of the United States Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) have been omitted pursuant to such rules and regulations; however, the Company believes that the disclosures are adequate to make the information presented not misleading.

The consolidated interim financial statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. Investments in which the Company does not have a controlling interest or is not the primary beneficiary, but has the ability to exert significant influence, are accounted for under the equity method of accounting. All inter-company accounts and transactions have been eliminated in consolidation. The noncontrolling interest in our South Korean subsidiary is recorded net of tax as Net income attributable to noncontrolling interest.

These statements reflect all normal recurring adjustments that, in the opinion of management, are necessary for fair presentation of the information contained herein. These consolidated interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. The Company adheres to the same accounting policies in preparing interim financial statements. As permitted under U.S. GAAP, interim accounting for certain expenses, including income taxes, are based on full year assumptions. Such amounts are expensed in full in the year incurred. For interim financial

reporting purposes, income taxes are recorded based upon estimated annual income tax rates.

We have reclassified certain amounts previously reported in our financial statements to conform to the current presentation. Unless noted otherwise, discussions in these notes pertain to our continuing operations.

2. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-08, which amends the guidance in Accounting Standard Codification (ASC) 205, *Presentation of Financial Statements* as it relates to reporting discontinued operations. The revised guidance raises the threshold for a disposal to qualify as a discontinued operation and requires new disclosures of both discontinued operations and certain other disposals that do not meet the revised definition of a discontinued operation. This amended guidance is to be applied prospectively and is effective for reporting periods (interim and annual) beginning after December 15, 2014, for public companies, with early adoption permitted. The implementation of the amended accounting guidance is not expected to have a material impact on our consolidated financial position or results of operations.

Table of Contents

In May 2014, the FASB issued ASU No. 2014-09, which supersedes the revenue recognition guidance in ASC 605, *Revenue Recognition*. The new guidance clarifies the principles for recognizing revenue and develops a common revenue standard for U.S. GAAP and International Financial Reporting Standards. The standard outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes the most current revenue recognition guidance. This amended guidance is effective retrospectively for reporting periods (interim and annual) beginning after December 15, 2016. We are currently assessing the potential impact of this ASU on our consolidated financial position and results of operations.

3. EARNINGS PER SHARE ATTRIBUTABLE TO MONSTER WORLDWIDE, INC.

Basic earnings per share is calculated using the Company's weighted-average outstanding common shares. When the effects are dilutive, diluted earnings per share is calculated using the weighted-average outstanding common shares, participating securities and the dilutive effect of all other stock-based compensation awards as determined under the treasury stock method. Certain stock options and stock issuable under employee compensation plans were excluded from the computation of earnings per share due to their anti-dilutive effect.

A reconciliation of shares used in calculating basic and diluted earnings per share is as follows (shares in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2014	2013	2014	2013
Basic weighted-average shares outstanding	87,080	110,932	89,080	111,166
Effect of common stock equivalents - stock options and non-vested stock under employee compensation plans	2,875	1,005	3,094	1,253
Diluted weighted-average shares outstanding	89,955	111,937	92,174	112,419
Weighted-average anti-dilutive common stock equivalents	5,083	4,956	4,305	6,008

Share Repurchase Plan

On April 30, 2013, the Board of Directors of the Company authorized a share repurchase program of up to \$200,000. Under the share repurchase program, shares of common stock will be purchased on the open market or through privately negotiated transactions from time-to-time through April 30, 2015. The timing and amount of purchases will be based on market conditions, corporate and legal requirements and other factors. The share repurchase program does not obligate the Company to acquire any specific number of shares in any period, and may be modified, suspended, extended or discontinued at any time without prior notice. During the six months ended June 30, 2014, the Company repurchased 7,025,988 shares for a total of \$51,376, excluding commissions, at an average price of \$7.31 per share. From the date of the inception of this repurchase program through June 30, 2014, the Company repurchased 27,617,428 shares for a total of \$158,131, excluding commissions, at an average price of \$5.73 per share. The Company currently has \$41,869 remaining under this repurchase program.

4. STOCK-BASED COMPENSATION

Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense ratably over the requisite service period, which is generally the vesting period, net of estimated forfeitures.

The Company awards non-vested stock to employees, directors and executive officers in the form of Restricted Stock Awards (RSAs) and Restricted Stock Units (RSUs), market-based RSAs and RSUs, performance-based RSAs and RSUs and stock options. The Compensation Committee of the Company's Board of Directors approves stock-based compensation awards for all employees and executive officers of the Company. The Corporate Governance and Nominating Committee of the Company's Board of Directors approves stock-based compensation awards for all non-employee directors of the Company. The Company uses the fair-market value of the Company's common stock on the date the award is approved to measure fair value for service-based and performance-based awards, a Monte Carlo simulation model to determine both the fair value and requisite service period of market-based awards and the Black-Scholes option-pricing model to determine the fair value of stock option awards. The Company presents as a financing activity in the consolidated statement of cash flows the benefits of tax deductions in excess of the tax-effected compensation of the related stock-based awards for the options exercised and vested RSAs and RSUs.

Compensation expense for stock option awards and service-based awards is recognized ratably over the requisite service period. For market-based awards, compensation expense is recognized over the requisite service period as derived using a Monte Carlo simulation model. If an award includes both a market and performance or service condition, the requisite service period is adjusted in the event the market condition is satisfied prior to the end of the derived service period. For performance-based awards, compensation expense is recognized based on the probability of achieving the performance conditions associated with the respective shares, as determined by management.

Table of Contents

The Company recognized pre-tax compensation expense recorded in salaries and related in the consolidated statements of operations as follows:

	Three months ended June 30,		Six months ended June 30,	
	2014	2013	2014	2013
Non-vested stock, included in salaries and related	\$ 9,063	\$ 5,470	\$ 17,236	\$ 12,264

During the first six months of 2014, the Company granted an aggregate of 191,115 service-based RSUs. The RSUs vest in various increments on the anniversaries of the individual grant dates, through June 4, 2018, subject to the recipient's continued employment or service through each applicable vesting date. The Company also granted 35,000 RSUs subject to certain specified performance-based conditions.

The Company's non-vested stock activity is as follows (shares in thousands):

	Six months ended June 30		Six months ended June 30	
	2014	2013	2014	2013

5. NONCONTROLLING INTEREST

In December 2013, the Company sold a 49.99% interest in JobKorea Ltd., its wholly owned subsidiary in South Korea, to H&Q Korea for an aggregate purchase price of \$90,000. H&Q Korea, an affiliate of H&Q Asia Pacific, is a pioneer in the development of Korea's private equity industry and one of the top private equity managers in the country. Based on the terms of the agreement, Monster maintains a controlling interest in the subsidiary and, accordingly, will continue to consolidate the results of JobKorea Ltd. in its consolidated financial statements. The noncontrolling interest's share of income from continuing operations and net income was \$1,462 and \$2,636 for the three and six months ended June 30, 2014, respectively.

Table of Contents

The following table reflects the changes in stockholders' equity attributed to the Company and the noncontrolling interest in the six months ended June 30, 2014:

6. BUSINESS COMBINATIONS

In the first quarter of 2014, the Company's Careers-North America segment purchased TalentBin, Inc., a social profile talent search engine, and Gozaik LLC, a developer of social jobs aggregation and distribution technology. Aggregate consideration for the acquisitions was \$27,005 in cash, net of cash acquired, with \$1,750 of the consideration in escrow. The Company recorded \$25,061 of goodwill, \$907 of deferred tax assets, \$1,740 of purchased technology, \$730 of other intangibles, \$249 of other assets and \$1,482 of liabilities related to the acquisitions. Of the goodwill recorded, approximately \$10,500 will be deductible for tax purposes.

7. FAIR VALUE MEASUREMENT

The Company values its assets and liabilities using the methods of fair value as described in ASC 820, *Fair Value Measurements and Disclosures*. ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The three levels of fair value hierarchy are described below:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

In determining fair value, the Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, and considers counterparty credit risk in its assessment of fair value. Observable or market inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's assumptions based on the best information available. There have been no transfers of assets or liabilities between the fair value measurement classifications for the six months ended June 30, 2014.

Table of Contents

The Company has certain assets and liabilities that are required to be recorded at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States. The following table summarizes those assets and liabilities measured at fair value on a recurring basis as of June 30, 2014:

Total Liabilities	\$	\$ 9	\$ 12,550	\$ 12,559

We recognize a liability for costs to terminate an operating lease obligation before the end of its term when we no longer derive economic benefit from the lease. The lease exit liabilities within the Level 3 tier relate to vacated facilities associated with previously discontinued operations, restructuring activities of the Company and consolidation of office facilities and are recorded in accrued expenses and other current liabilities in the consolidated balance sheets. The liability is recognized and measured based on a discounted cash flow model when the cease use date has occurred. The fair value of the liability is determined based on the remaining lease rentals due, reduced by

estimated sublease rental income that could be reasonably obtained for the property. In the first quarter of 2014, the Company vacated its office facilities in Maynard, Massachusetts and Cambridge, Massachusetts and moved in to our new corporate headquarters in Weston, Massachusetts.

The changes in the fair value of the Level 3 liabilities are as follows:

	Lease Exit Liability	
	Six months ended June 30,	
	2014	2013
Balance, Beginning of Period	\$ 12,550	\$ 14,233

Balance, End of Period	\$ 12,993	\$ 15,817

Table of Contents

The carrying value for cash and cash equivalents, accounts receivable, accounts payable, certain accrued expenses and other current liabilities approximate fair value because of the immediate or short-term maturity of these financial instruments. The Company's debt relates to borrowings under its revolving credit facilities and term loan (Please see Note 15 *Financing Agreements*), which approximates fair value due to the debt bearing fluctuating market interest rates.

8. CHANGES IN ACCUMULATED OTHER COMPREHENSIVE INCOME

There were no amounts reclassified from accumulated other comprehensive income to income during the three months ended June 30, 2014 and 2013.

9. DECONSOLIDATION OF SUBSIDIARIES

Prior to January 3, 2014, the Company had a 25% equity investment in a company located in Finland related to a business combination completed in 2001, with the remaining 75% held by Alma Media Corporation (Alma Media). Alma Media is a leading media company based in Finland, focused on digital services and publishing in Finland, the Nordic countries, the Baltics and Central Europe. Effective January 3, 2014, the Company expanded its relationship

with Alma Media. Monster and Alma Media each contributed several additional entities and businesses into the existing joint venture and formed a significantly larger joint venture where Monster has an equity ownership of 15% with the opportunity to increase ownership up to 20%. The Company also contributed cash of approximately \$6,500. Following closing, Monster no longer held a controlling interest in its subsidiaries in Poland, Hungary and the Czech Republic and therefore deconsolidated those subsidiaries effective January 3, 2014. The Company accounts for its investment under the equity method of accounting due to the Company's ability to exert significant influence over the financial and operating policies of the new joint venture, primarily through our representation on the board of directors.

The Company recorded a gain of \$13,647 as a result of the deconsolidation. The gain was measured as the difference between (a) the net fair value of the retained noncontrolling investment and the consideration transferred and (b) the carrying value of the contributed entities' net assets of approximately \$4,200. The fair value of the retained noncontrolling investment was approximately \$24,800 which was determined based on the present value of estimated future cash flows and comparable market transactions. Cash flow projections were based on estimates of revenue growth rates and operating margins, taking into consideration industry and market conditions. The discount rate used was based on the weighted-average cost of capital adjusted for the relevant risk associated with the business-specific characteristics and the uncertainty related to the business's ability to execute on the projected cash flows. The Company also recognized \$1,819 of accumulated unrealized currency translation loss related to the net assets of the subsidiaries contributed by Monster.

As a result of the deconsolidation, the Company recorded a net gain of \$11,828 to Gain on deconsolidation of subsidiaries, net in the first quarter of 2014. See Note 16 *Income Taxes* for discussion on the tax impact of the deconsolidation.

Table of Contents**10. INVESTMENTS*****Equity Method Investments***

The Company accounts for investments through which it holds a noncontrolling interest and has the ability to exert significant influence using the equity method of accounting, recording its owned percentage of the investment's net results of operations in Income (loss) in equity interests, net, in the Company's consolidated statement of operations. Such losses reduce the carrying value of the Company's investment and gains increase the carrying value of the Company's investment. Dividends paid by the equity investee reduce the carrying amount of the Company's investment.

As discussed in Note 9 *Deconsolidation of Subsidiaries*, through January 3, 2014, the Company had a 25% equity investment in a company located in Finland related to a business combination completed in 2001. The Company received a dividend of \$658 in the first quarter of 2013 for this investment. The carrying value of the investment was \$87 as of June 30, 2013. Effective January 3, 2014, the Company has a 15% equity investment in Alma Career Oy, a joint venture in Finland, Eastern Europe and the Baltics with Alma Media. The Company received a dividend of \$199 in the second quarter of 2014 for this investment. The carrying value of the investment was \$23,546 as of June 30, 2014 and was recorded on the consolidated balance sheet as a component of Investment in unconsolidated affiliates.

In 2008, the Company acquired a 50% equity interest in a company located in Australia. For the six months ended June 30, 2014 and 2013, the Company expended an additional \$866 and \$1,519, respectively, for additional working capital requirements relating to the Australian investment. The carrying value of the investment was \$213 and \$142 as of June 30, 2014 and 2013, respectively, and was recorded on the consolidated balance sheet as a component of Investment in unconsolidated affiliates.

11. RESTRUCTURING AND OTHER SPECIAL CHARGES***November 2012 Restructuring***

On November 8, 2012, the Company announced actions designed to concentrate resources on core businesses within North America and key European and Asian markets with increased spending in marketing and sales. The actions subsequently included (i) the sale of the Careers-China business which was completed on February 5, 2013, (ii) the exiting of the business operations in Latin America and Turkey and (iii) a strategic restructuring inclusive of a reduction in force, office consolidations and impairment of certain assets. Please see Note 12- *Discontinued Operations*, for more information relating to the sale of the Careers-China business and the exiting of our businesses in Latin America and Turkey.

Through December 31, 2013, the Company notified approximately 400 associates in North America and Europe (excluding discontinued operations). The Company will not incur any new charges in the future relating to this program. The following table displays a roll forward of the November 2012 Restructuring and other special charges and related liability balances, excluding discontinued operations:

	Accrual at December 31, 2013	Cash Payments	Accrual at June 30, 2014
Workforce reduction	\$ 1,057	\$ (384)	\$ 673
Consolidation of office facilities	4,063	(845)	3,218
Other costs and professional fees	128	(117)	11
Total	\$ 5,248	\$ (1,346)	\$ 3,902

Table of Contents**12. DISCONTINUED OPERATIONS**

During the fourth quarter of 2012, the Company made the strategic decision to discontinue operations in Latin America and Turkey. All of the Latin America and Turkey business operations were discontinued on or before December 31, 2012. The Company incurred approximately \$8,000 of costs associated with the shutdown of these businesses in the fourth quarter of 2012. For the three and six months ended June 30, 2013, the Company recorded additional costs of \$120 and \$2,218, respectively, which was primarily relating to severance costs associated with terminated employees of our operations in Latin America and Turkey. Additionally, the Company recorded a tax benefit of \$0 and \$541 related to discontinued operations in Latin America and Turkey for the three and six months ended June 30, 2013, respectively. Accordingly, the Company recorded a loss from discontinued operations, net of tax, of \$120 and \$1,677 in the three and six months ended June 30, 2013, respectively. The Company does not expect to incur significant additional charges in future periods relating to Latin America or Turkey.

During the third quarter of 2012, as part of the Company's review of strategic alternatives, the Company made the decision to sell its Careers-China business. The sale of the Careers-China business to Saongroup, Ltd. (Saongroup) was completed on February 5, 2013. The Company received a 10% minority interest in the combined Chinese business of Saongroup. The Company's 10% minority interest does not provide the Company with representation on the board of directors, the Company is not entitled to any dividend or other forms of cash returns and the Company is not required to make any capital contributions in the future. The Company will carry the 10% interest as a cost basis investment with an estimated fair value of zero which is based on available information.

Prior to the close of the sale of Careers-China, the Company incurred charges relating to severance benefits associated with terminated employees, retention benefits for employees who remained with the combined operations and certain lease obligation costs. At February 5, 2013, there was \$23,109 of accumulated unrealized currency translation gain related to the net assets of Careers-China. With the sale of Careers-China on February 5, 2013, the Company recorded the foreign currency translation adjustment as a reduction of the loss on disposition of discontinued operations. Additionally, the Company recorded a tax benefit of \$4,041 related to Careers-China in the first quarter of 2013. Accordingly, the Company recorded a loss from discontinued operations, net of tax, of \$639 and \$5,216 in the three and six months ended June 30, 2013, respectively. The Company does not expect to incur significant additional charges in future periods relating to Careers-China.

Operating results for Careers-China, Latin America and Turkey, which had previously been included in the Company's Consolidated Statement of Operations, were reclassified as discontinued operations for all periods presented. Summarized results of our discontinued operations are as follows:

	Three months ended June 30,		Six months ended June 30,

15. FINANCING AGREEMENTS

In December 2007, the Company entered into a senior unsecured revolving credit facility that provided for maximum borrowings of \$250,000, including up to a \$50,000 sublimit for letters of credit. On August 31, 2009, the Company amended certain terms and increased its borrowing capability under its existing credit agreement (the First Amended Credit Agreement). The First Amended Credit Agreement maintained the Company's existing \$250,000 revolving credit facility and provided for a new \$50,000 term loan facility, for a total of \$300,000 in credit available to the Company. On March 22, 2012, the First Amended Credit Agreement was further amended and restated in its entirety (the Second Amended Credit Agreement). The Second Amended Credit Agreement provides the Company with a \$225,000 revolving credit facility and a \$100,000 term loan facility, providing for a total of \$325,000 in credit available to the Company. The borrowings under the Second Amended Credit Agreement were used to satisfy the obligations under the First Amended Credit Agreement of \$172,500 for the revolving credit facility and \$40,000 for the term loan. The revolving credit facility and the term loan facility each mature on March 22, 2015. The Second Amended Credit Agreement does not qualify as a debt extinguishment in accordance with ASC 470 *Debt*, and all financing fees incurred will be deferred and amortized through March 2015.

The Company is required to make quarterly amortization payments on the outstanding principal amount of the term loan with \$2,500 payable on each of September 30, 2014 and December 31, 2014, and the remaining balance of the term loan due at maturity.

Table of Contents

Borrowings under the Second Amended Credit Agreement will bear interest at a rate equal to either (i) the British Bankers Association LIBOR (BBA LIBOR) Rate plus a margin ranging from 250 basis points to 325 basis points depending on the Company's consolidated leverage ratio or (ii) the sum of (A) the highest of (1) the agent's prime rate, (2) the sum of 0.50% plus the overnight federal funds rate on such day or (3) the BBA LIBOR plus 1.0%, and (B) a margin ranging from 150 basis points to 225 basis points depending on the Company's consolidated leverage ratio. In addition, the Company will be required to pay the following fees: (i) a fee on all outstanding amounts of letters of credit at a rate per annum ranging from 250 basis points to 325 basis points (depending on the consolidated leverage ratio); and (ii) a commitment fee on the unused portion of the revolving credit facility at a rate per annum ranging from 35 basis points to 50 basis (depending on the consolidated leverage ratio). The Company may repay outstanding borrowings at any time during the term of the credit facility without any prepayment penalty.

The Second Amended Credit Agreement contains financial covenants requiring the Company to maintain: (i) a consolidated leverage ratio of no more than 3.00 to 1.00; and (ii) an interest charge coverage ratio of at least 3.00 to 1.00. The Second Amended Credit Agreement also contains various other negative covenants, including restrictions on incurring indebtedness, creating liens, mergers, dispositions of property, dividends and stock repurchases, acquisitions and other investments and entering into new lines of business. The Second Amended Credit Agreement also contains various affirmative covenants, including covenants relating to the delivery of financial statements and other financial information, maintenance of property, maintenance of insurance, maintenance of books and records and compliance with environmental laws. As of June 30, 2014, the Company was in full compliance with its covenants.

At June 30, 2014, the utilized portion of this credit facility was \$85,000 in borrowings on the term loan facility, \$116,600 of borrowings on the revolving credit facility, and \$309 in outstanding letters of credit. This credit facility is due to mature on March 22, 2015 and the \$201,600 of borrowings are classified in Current portion of long-term debt and borrowings on revolving credit facilities on our consolidated balance sheet. We currently intend to refinance these borrowings prior to the maturity date and we are reviewing our financing alternatives with various financial institutions, although we cannot assume that we will be able to refinance on terms we find acceptable. As of June 30, 2014, based on the calculation of the maximum consolidated leverage ratio, \$108,091 of the Company's revolving credit facility was available. At June 30, 2014, the one month BBA LIBOR rate, the agent's prime rate, and the overnight federal funds rate were 0.16%, 3.25% and 0.09%, respectively. As of June 30, 2014, the Company predominantly used the one month BBA LIBOR rate for the interest rate on these borrowings with an interest rate of 3.15%.

In 2011 and 2012, the Company's former subsidiaries in China entered into two short term unsecured revolving credit facilities whereby the Company provided a repayment guarantee in support of the first credit facility and the Company provided for a standby letter of credit in support of the second credit facility. These credit facilities provided for maximum borrowings of the Renminbi equivalent of \$7,574 and \$5,049, respectively. On February 5, 2013, the Company sold our interest in our subsidiaries in China including the entity that is the primary obligor on the credit facilities. As part of the sale transaction, the Company agreed to liquidate these outstanding loans to the lender and on June 13, 2013, these loans were liquidated in full.

16. INCOME TAXES

The provision for (benefit from) income taxes consists of provisions for federal, state, and foreign income taxes. The Company operates globally with operations in various tax jurisdictions outside of the United States. Accordingly, the effective income tax rate is a composite rate reflecting the geographic mix of earnings in various tax jurisdictions and the applicable rates. Our interim provision for income taxes is measured using an estimated annual effective tax rate, adjusted for discrete items that occur within the periods presented. The tax effect of discrete items is recorded in the

quarter in which they occur. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries with lower statutory rates, greater losses than anticipated in countries with lower statutory tax rates, increases in recorded valuation allowances of tax assets, or changes in tax laws or interpretations thereof.

Our effective tax rate differs from the Federal United States statutory tax rate of 35% due to accrual of state taxes, non-deductible stock based compensation and other non-deductible expense, foreign earnings taxed at different rates, accrual of interest on tax liabilities, accrual of United States residual tax on earnings that are not indefinitely reinvested and the effect of valuation allowances on deferred tax assets. We record valuation allowances primarily on tax benefits of losses arising in certain unprofitable countries in international markets. The tax provision during the six months ended June 30, 2014 was increased by \$5,902 of discrete items, consisting primarily of a tax provision of \$5,543 due to a gain related to the deconsolidation of our subsidiaries in Poland, Hungary and the Czech Republic (see Note 9-*Deconsolidation of Subsidiaries*) and increases to tax valuation allowances of approximately \$1,200. In addition as a result of changes to certain estimates relating to determination of unrecognized tax positions during the three months ended March 31, 2014, the Company recognized previously unrecognized tax positions of \$350 which on a net of tax basis impacted the effective rate by \$228. The Company also reversed accrued interest on unrecognized tax positions of \$440, which impacted the effective tax rate by \$266. The total benefit reflected in the tax provision in the quarter ended March 31, 2014 for these items was \$494. The tax matters relate primarily to allocation of income among tax jurisdictions.

Table of Contents

In December 2013 Monster sold 49.99% of its interest in its Korean subsidiary to H & Q Korea. As a result of the sale, the 50.01% retained interest in Korea is owned through an entity characterized as a partnership for U.S. tax reporting purposes and the Company's share of earnings is taxable in the United States, whether or not distributed. Accordingly, the Company has provided U.S. residual tax on its share of earnings with respect to the retained 50.01% interest.

The tax benefit during the six months ended June 30, 2013 was increased by \$12,707 of discrete items, consisting primarily of a tax benefit of \$12,869 due to reversals of uncertain tax positions and accrued interest. As a result of settlements of tax examinations and lapses of statutes of limitations during the six months ended June 30, 2013, the Company recognized previously unrecognized tax positions of \$11,846 which on a net of tax basis impacted the effective rate by \$11,655. The Company also reversed accrued interest on unrecognized tax positions of \$2,006, which impacted the effective tax rate by \$1,214. The tax matters reversed relate primarily to characterization of certain intercompany loans for tax purposes. These reversals occurred in the quarter ended March 31, 2013.

Included in the loss from discontinued operations in the six months ended June 30, 2013 is an income tax benefit of \$4,582.

The Company is currently under examination by several domestic and international tax authorities. Presently, no material income tax adjustments have been proposed, although we can provide no assurances that such adjustments will not be proposed in the future. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. The gross recorded liability for uncertain tax positions (inclusive of estimated interest and penalties thereon) as of June 30, 2014 and December 31, 2013 is recorded on the Company's consolidated balance sheet as long-term income taxes payable of \$55,355 and \$53,078 respectively. Interest and penalties related to underpayment of income taxes are classified as a component of income tax expense in the consolidated statements of operations and comprehensive income (loss). The Company estimates that it is reasonably possible that unrecorded tax benefits may be reduced by an amount ranging from \$0 to \$14,000 in the next twelve months due to expirations of statutes of limitations or settlement of tax examinations. The tax matters concerned relate to the allocation of income among jurisdictions, and the amount of prior year tax loss carryovers.

17. SEGMENT AND GEOGRAPHIC DATA

The Company conducts business in three reportable segments: Careers-North America; Careers-International; and Internet Advertising & Fees. Corporate operating expenses are not allocated to the Company's reportable segments. The operating results for the Careers-China business and the exited business operations which have previously been included in the Careers-International segment in the Company's consolidated financial statements have been reclassified as discontinued operations for all periods presented. Please see Note 12 *Discontinued Operations*.

The following tables present the Company's operations by reportable segment and by geographic region:

Table of Contents**18. COMMITMENTS AND CONTINGENCIES*****Legal Proceedings***

The Company is involved in various legal proceedings that are incidental to the conduct of its business. Aside from the matters discussed below, the Company is not involved in any pending or threatened legal proceedings that it believes could reasonably be expected to have a material adverse effect on its financial condition or results of operations.

In September 2013, Career Destination Development, LLC filed suit against the Company for allegedly infringing certain patents, U.S. Patent No. 7,424,438 (the 438 Patent) and U.S. Patent No. 8,374,901 (the 901 Patent), relating to methods for the online searching of jobs. The lawsuit, entitled Career Destination Development, LLC vs. Monster Worldwide, Inc. (Civil Action No. 13-cv-2423), was brought in the United States District Court for the District of Kansas. The Plaintiff seeks injunctive relief, monetary damages, pre and post judgment interest, and other costs. On October 10, 2013, the Company filed an answer denying the allegations set forth in the complaint. On February 12, 2014, Monster filed two separate petitions in the United States Patent and Trademark Office (USPTO) for covered business method (CBM) review of the 901 Patent, and the USPTO subsequently assigned case numbers CBM2014-00069 and CBM2014-00070 to these petitions for CBM review of the 901 Patent. On February 12, 2014 and February 21, 2014, Monster also filed petitions in the USPTO for CBM review of the 438 Patent, and the USPTO subsequently assigned case numbers CBM2014-00068 and CBM2014-00077 to the petitions for review of the 438 Patent. On March 14, 2014, the District Court for the District of Kansas granted Monster s motion to stay Civil Action No. 13-cv-2423 pending the aforementioned CBM reviews of the 438 and 901 Patents. The Company intends to vigorously defend this matter and is currently unable to estimate any potential losses.

In November 2013, JobDiva, Inc. filed suit against the Company for allegedly infringing certain patents relating to methods for the parsing of resumes. The lawsuit, entitled JobDiva, Inc. vs. Monster Worldwide, Inc. (Civil Action No. 1:13-cv-08229-KBF) was brought in the United States District Court for the Southern District of New York. The Plaintiff seeks injunctive relief, monetary damages, pre and post judgment interest and other costs. On January 9, 2014, the Company filed an answer denying the allegations set forth in the complaint and asserting counterclaims against JobDiva, Inc. for infringing a patent owned by the Company. The District Court has re-scheduled the trial date in this matter to February 2, 2015. The Company intends to vigorously defend this matter and is aggressively pursuing counterclaims against JobDiva, Inc. The Company is currently unable to estimate any potential losses.

In April 2014, Selene Communication Technologies LLC filed suit against the Company for allegedly infringing a certain patent relating to methods for generating search queries. The lawsuit, entitled Selene Communication Technologies LLC vs. Monster Worldwide, Inc. (Civil Action No.14-cv-434) was brought in the United States District Court for the District of Delaware. The Plaintiff seeks injunctive relief, monetary damages, pre and post judgment interest and other costs. On June 13, 2014, the Company filed an answer denying the allegations set forth in the complaint. The Company intends to vigorously defend this matter and is currently unable to estimate any potential losses.

Leases

The Company leases its facilities and a portion of its capital equipment under operating leases that expire at various dates. Some of the operating leases provide for increasing rents over the terms of the leases and total rent expense under these leases is recognized ratably over the initial renewal period of each lease. The following table presents future minimum lease commitments under non-cancelable operating leases and minimum rentals to be received under non-cancelable subleases at June 30, 2014:

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders

Monster Worldwide, Inc.

New York, New York

We have reviewed the consolidated balance sheet of Monster Worldwide, Inc. (the Company) as of June 30, 2014, and the related consolidated statements of operations and comprehensive income (loss) for the three and six-months ended June 30, 2014 and 2013, and cash flows for the six-month periods ended June 30, 2014 and 2013, included in the accompanying Securities and Exchange Commission Form 10-Q for the period ended June 30, 2014. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the consolidated balance sheet of Monster Worldwide, Inc. as of December 31, 2013, and the related consolidated statements of operations, stockholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated February 10, 2014, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2013 is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Overview**Global Careers Business**

Monster Worldwide is the global leader in successfully connecting job opportunities and people. Monster uses the world's most advanced technology to help people Find Better[®], matching job seekers to job opportunities via digital, social and mobile solutions including monster.com[®], its flagship website, and employers to the best talent using a vast array of products and services. As an Internet pioneer, more than 200 million people have registered on the Monster Worldwide network, with over 1 million new members registering each month. Today, with a local presence in more than 40 countries, Monster provides the broadest, most sophisticated job seeking, career management, recruitment and talent management capabilities globally, with the widest range of job opportunities across the employment spectrum as well as the most diverse talent to fill those positions. The Company's services and solutions historically have included: searchable job advertisements; resume database access; professional networking; recruitment media solutions through its advertising network and partnerships; and other career-related content. Job seekers can search job advertisements and post their resumes for free on each of the career websites and mobile applications. Employers pay to: advertise available jobs and recruitment related services; search the Monster resume database; and access other career-related services.

In May 2014, Monster revealed its new strategy to drive the business and enhance its competitive position at the Company's Strategy Briefing event held in Weston, Massachusetts. Monster's new strategy focuses on adding massive

scale to its business to expand its total addressable market and the value it can provide to customers through a variety of new products, technologies and business models to successfully connect more people with more jobs.

To enhance the scale of its business, the Company is dramatically expanding the number of jobs it offers, collecting jobs content from both traditional and social sources to ensure that employers can reach the right candidates, at the right time and place, with the right opportunities. Monster has grown the number of jobs available across its network from 250,000 in the U.S. in January 2014 to 3 million today, and an expected 4 million jobs across its top tier global sites by January 2015. This represents a vast increase in the volume of jobs, and is poised to grow with further international rollout.

Table of Contents

As part of the new strategy, the Company is expanding its job advertising distribution beyond the traditional placement on its own network of sites and its Career Ad Network® to include expanded social distribution. Monster Twitter Cards was launched in the U.S. on July 1, 2014 and will launch in our Tier 1 countries in Europe in October 2014. Monster Twitter Cards moves beyond the limitations of a standard Tweet to boost an employer's integrated social recruiting strategy by automatically Tweeting jobs throughout the day to a company's or recruiter's Twitter feed. Monster Twitter Cards provides recruiters with a simple, turnkey way to more effectively message job openings, and drive additional reach, engagement and interaction with individuals on the Twitter platform. Monster also plans to add multiple pricing models to its job advertising business, including duration and pay-per-click options which will roll-out in the U.S. and our Tier 1 countries in Europe in the first and second quarters of 2015, respectively. This will create a significant opportunity to serve millions of new customers who seek variable job ad pricing.

Monster is also vastly increasing the number of candidates it delivers for search. With the recent acquisition of TalentBin®, the Company now provides recruiters access to over 120 million candidate profiles aggregated from social sources across the Web, in addition to Monster's own proprietary database of 25 million searchable resumes. This approach surfaces the truly passive candidates who are not actively seeking a new job. TalentBin by Monster was launched in the U.S. on July 1, 2014 and will launch in our Tier 1 countries in Europe in October 2014. By harnessing the vast amount of professionally relevant information people share across the social web, TalentBin by Monster surfaces potential job candidates by assembling profiles using current professional activities from relevant sites. By making sense of candidate social activity, and compiling those details into a rich professional profile complete with contact information, recruiters now can find many previously undiscoverable candidates including those not actively seeking a new job.

Monster offers the unique 6Sense® semantic search technology to allow job seekers and employers to quickly find a precise match. 6Sense technology transforms traditional keyword-based processes by assisting our customers in matching candidates to their required job specifications. For seekers, 6Sense powered job search has changed how they explore, find and apply for jobs. Monster introduced a cloud-based search product SeeMore® in the third quarter of 2011, which allows customers to utilize patented semantic search technology on their own talent databases. Further, the Monster Career Ad Network®, continues to be the largest recruitment-focused advertising network on the Internet, reaching an average of more than 100 million users globally across thousands of websites.

As an additional part of its strategy, Monster deployed a commercial talent platform that can provide end-to-end sourcing or be integrated as components into existing recruiting workflows called Monster Talent CRM in the U.S. on July 1, 2014 and will launch in our Tier 1 countries in Europe in October 2014. Monster Talent CRM is a self-service campaign and messaging platform that utilizes the same capabilities as Monster Power Resume Search® technology to identify, source and create campaigns for recruiters and uses integrated CRM toolsets to create one-to-one or one-to-many recruiting campaigns against them. In the initial weeks after the launch of this product the Company has seen a significant ramp of engagement with substantial growth in user messaging each week.

Monster also operates a government solutions business, Monster Government Solutions (MGS), which sells software solutions to federal, state and local governments and educational institutions within the United States and the United Kingdom. MGS provides recruitment solutions that engage seekers and employers online, enable MGS customers to attract qualified candidates, expedite time to hire and create online communities using innovative technologies and services. These services primarily include customized career sites hosted by MGS utilizing a Software as a Service (SaaS) model. Additionally, Monster offers customers applicant tracking services, diversity offerings and other ancillary services either directly or through alliances to meet the changing needs of customers. On June 30, 2014, the State of Florida Department of Economic Opportunity (DEO) awarded Monster a five-year contract with five option years, with a total value of approximately \$32 million. Monster will implement a state-wide online workforce solution that provides DEO with the most cutting-edge labor exchange and case management technology available in the

United States.

Monster operates in an industry and in markets that are continually evolving with the entrance of new competitors and the changing needs of seekers and employers. The Company adjusts its product offerings and makes new investments in its technology platform in order to meet the challenges presented by the market evolution. The Company believes its new strategy, as discussed during the Company's Strategy Briefing event in May 2014, addresses this market evolution.

Internet Advertising & Fees

Our Internet Advertising & Fees business operates a network of websites that connect companies to highly targeted audiences at critical stages in their lives. Our goal is to offer compelling online services for the users of such websites through personalization, community features and enhanced content. We monetize this web traffic through display advertising and lead generation. We believe that these properties appeal to advertisers and other third parties as they deliver certain discrete demographics entirely online.

Recent Developments

In the fourth quarter of 2013, the Company sold a 49.99% interest in JobKorea Ltd. (JobKorea), its wholly owned subsidiary located in South Korea, to H&Q Korea for an aggregate purchase price of \$90.0 million. H&Q Korea, an affiliate of H&Q Asia Pacific, a leading Asian private equity firm, is a pioneer in the development of Korea's private equity industry, and one of the top private equity managers in the country. The Company will retain a controlling interest in JobKorea and will leverage H&Q Korea's expertise and extensive Asia Pacific regional network to enhance and grow this profitable business. The net proceeds related to the sale were \$86.5 million after taxes and transaction costs.

Additionally, in the fourth quarter of 2013, the Company entered into an agreement with Alma Media Corporation (Alma Media), a leading media company focusing on digital services and publishing, to expand our relationship beyond the existing joint venture company located in Finland. The transaction closed in the first quarter of 2014. Under the new agreement, Monster and Alma Media each contributed several additional entities and businesses in the Eastern European and Baltics region, with Monster contributing its wholly owned subsidiaries located in the Czech Republic, Poland and Hungary. Monster has an equity ownership of 15% of the new, larger joint venture with the opportunity to increase ownership up to 20%. Combining these assets creates the online career services leader in the region.

Restructuring Programs and Discontinued Operations

Throughout 2012, we undertook a series of restructuring actions in order to improve the Company's long-term growth prospects and profitability in its core markets.

November 2012 Restructuring

On November 8, 2012, the Company announced actions designed to concentrate resources on core businesses within North America and key European and Asian markets with increased spending in marketing and sales. The actions subsequently included (i) the sale of the Careers-China business, (ii) the exiting of business operations in Latin America and Turkey and (iii) a strategic restructuring inclusive of a reduction in force, office consolidations and impairment of certain assets. Please see *Discontinued Operations* below.

Through December 31, 2013, the Company notified approximately 400 associates in North America and Europe (excluding discontinued operations) and incurred \$34.7 million of charges, \$14.7 million of which was recorded in the fourth quarter of 2012. The Company will not incur any new charges in the future relating to this program.

Discontinued Operations

During the third quarter of 2012, as part of the Company's review of strategic alternatives, the Company made the decision to sell its Careers-China business. The sale of the Careers-China business to Saongroup, Ltd. (Saongroup) was completed on February 5, 2013. The Company received a 10% minority interest in the combined Chinese business of Saongroup. The Company's 10% minority interest does not provide the Company with representation on the board of directors, the Company is not entitled to any dividend or other forms of cash returns and the Company is not required to make any capital contributions in the future. The Company will carry the 10% interest as a cost basis investment with an estimated fair value of zero which is based on available information.

During the fourth quarter of 2012, the Company made the strategic decision to discontinue operations in Latin America and Turkey. All of the Latin America and Turkey business operations were discontinued on or before

December 31, 2012.

Operating results for Careers-China, Latin America and Turkey, which had previously been included in the Careers-International segment in the Company's Consolidated Statement of Operations, have been reclassified as discontinued operations for all periods presented. Please see Note 12 *Discontinued Operations* in Notes to the Consolidated Financial Statements in Part I of this Form 10-Q.

Constant Currency Presentation

Revenue from our international operations has historically represented, and we expect will continue to represent, a significant portion of our business. As a result, our revenue growth has been impacted, and we expect will continue to be impacted, by fluctuations in foreign currency exchange rates. In order to provide a framework for assessing how our consolidated and Careers-International operating results performed excluding the impact of foreign currency fluctuations, we additionally present the quarter-over-quarter and year-over-year percentage changes on a constant currency basis, which assumes no change in the exchange rate from the prior-year period. This constant currency is provided in addition to, and not as a substitute for, the quarter-over-quarter and year-over-year percentage changes on an as-reported basis.

Adjusted EBITDA	\$ 25,611	13.2%	\$ 37,675	18.8%	\$ (12,064)	(32.0%)

Our consolidated revenue decreased by \$5.6 million (2.8%, 4.2% on a constant currency basis) in the second quarter of 2014 compared to the same period of 2013. Our Careers-International segment decreased \$3.8 million (5.3%, 9.5% on a constant currency basis) as the economic environment in Europe and Asia continues to be challenging. Our Careers-North America segment experienced an increase of \$0.6 million (0.5%). Our Internet Advertising & Fees segment experienced a decrease of \$2.4 million (13.0%) due to a reduction of revenue from display advertising business activities as we optimize seeker experience on Monster for maximum quality applies.

Salaries and related expenses increased \$13.8 million (15.4%, 13.9% on a constant currency basis) in the second quarter of 2014 compared to the same period of 2013. This increase in salaries and related expenses resulted primarily from increased regular salary and other headcount related costs resulting from headcount additions in the Company's quota-bearing sales force as part of the new strategy and the full quarter impact of salaries associated with our recent acquisitions, as well as increased stock based compensation expense.

Office and general expenses decreased \$3.1 million (6.0%, 7.2% on a constant currency basis) in the second quarter of 2014 compared to the same period of 2013. This decrease in office and general expenses resulted primarily from decreased amortization expense resulting from the amortization period of certain intangible assets associated with a previous acquisition ending in the third quarter of 2013.

Table of Contents

Marketing and promotion expenses decreased \$6.0 million (13.9%, 15.4% on a constant currency basis) in the second quarter of 2014 compared to the same period of 2013. Beginning in 2012, the Company evolved its marketing approach to efficiently drive improved site traffic.

In the second quarter of 2013, we incurred \$6.8 million of restructuring and other special charges, comprised mainly of severance costs, facility charges and the impairment of certain assets as a result of our restructuring program which was announced in November 2012. No charges were incurred in the second quarter of 2014 relating to this program.

Our consolidated operating income was \$4.7 million in the second quarter of 2014, compared to operating income of \$8.1 million in the second quarter of 2013, as a result of the factors discussed above.

Our consolidated EBITDA and Adjusted EBITDA were \$25.6 million in the second quarter of 2014, compared to consolidated EBITDA and Adjusted EBITDA of \$33.8 million and \$37.7 million, respectively, in the same period of 2013, as a result of the factors discussed above. See *Reconciliation of Non-GAAP Financial Measures to GAAP Measures* following the discussion of our results of operations for definitions and a reconciliation from our operating income to EBITDA and Adjusted EBITDA.

Careers-North America

The operating results of our Careers-North America segment are as follows (dollars in thousands):

	Three months ended June 30,					
	2014	% of Revenue	2013	% of Revenue	Increase (Decrease)	% Increase (Decrease)

Operating income	\$ 17,902	16.2%	\$ 19,272	17.6%	\$ (1,370)	(7.1%)

Our Careers North America segment revenue experienced a \$0.6 million (0.5%) increase in the second quarter of 2014 compared to the same period of 2013. The increase is primarily due to heightened business activity from our ecommerce, government, newspaper and staffing sectors partially offset by declines in the mid-market and large enterprise verticals. In anticipation of the new strategy, the Company realigned the mid-market and field sales organizations in the second quarter which resulted in a slight negative impact to bookings in the second quarter. This realignment of the Company's sales force is expected to bring greater focus around accelerating market expansion. This includes a significant change to our account coverage model.

Salaries and related expenses increased \$8.3 million (19.7%) in the second quarter of 2014 compared to the same period of 2013. This increase in salaries and related expenses resulted primarily from \$4.4 million of increased regular

salary and other headcount related costs resulting from headcount additions in the Company's quota-bearing sales force as part of the new strategy as well as \$1.7 million of increased stock based compensation expense.

Office and general expenses were relatively flat in the second quarter of 2014 when compared to the same period of 2013.

Marketing and promotion expenses decreased \$4.4 million (19.4%) in the second quarter of 2014 compared to the same period of 2013. Beginning in 2012, the Company evolved its marketing approach to efficiently drive improved site traffic. The Company believes that these marketing initiatives have resulted in a build-up of relevant traffic to monster.com and our affiliate sites.

In the second quarter of 2013, our Careers North America segment incurred \$1.5 million of restructuring and other special charges, comprised mainly of costs associated with exiting office facilities as a result of our restructuring program which was announced in November 2012. No charges were incurred in the second quarter of 2014 relating to this program.

Our Careers North America operating income was \$17.9 million in the second quarter of 2014, compared to operating income of \$19.3 million in the second quarter of 2013, as a result of the factors described above.

Operating loss	\$ (6,974)	(10.2%)	\$ (6,054)	(8.4%)	\$ (920)	(15.2%)

Our Careers-International segment revenue decreased \$3.8 million (5.3%, 9.5% on a constant currency basis) in the second quarter of 2014 compared to the same period of 2013 with Europe and Asia decreasing 5% and 6% respectively (10% and 9% on a constant currency basis, respectively). The reductions within Europe related primarily to Germany, the Netherlands and the Eastern European countries no longer being included in our consolidated results due to the new joint venture with Alma Media, partially offset by revenue growth in the United Kingdom. However, we are encouraged to see Germany, the United Kingdom, and Italy experience double digit bookings growth in the second quarter of 2014. The Netherlands continues to be a challenging economic environment. India also continues to be impacted by the global economic uncertainty with a revenue decline in the second quarter of 2014 when compared to the same period of 2013, and we are seeing customer demand stabilizing in Korea.

Salaries and related expenses increased \$3.5 million (9.6%, 5.5% on a constant currency basis) in the second quarter of 2014 compared to the same period of 2013. This increase in salaries and related expenses resulted primarily from \$2.1 million in increased regular salary and other headcount related costs relating to selective headcount additions as part of the new strategy and \$0.9 million of increased stock based compensation expense.

Office and general expenses decreased \$1.7 million (8.2%, 11.2% on a constant currency basis) in the second quarter of 2014 compared to the same period of 2013. This decrease in office and general expenses resulted primarily from \$1.0 million of decreased depreciation and amortization expense.

Marketing and promotion expenses decreased \$2.0 million (10.6%, 14.6% on a constant currency basis) in the second quarter of 2014 compared to the same period of 2013. The Company continues to focus on targeted investments in key markets in Europe and Asia to drive site traffic and improve brand awareness.

In the second quarter of 2013, our Careers-International segment incurred \$2.8 million of restructuring and other special charges, comprised mainly of severance costs as a result of our restructuring program which was announced in November 2012. No charges were incurred in the second quarter of 2014 relating to this program.

Our Careers-International operating loss was \$7.0 million in the second quarter of 2014, compared to an operating loss of \$6.1 million in the second quarter of 2013, as a result of the factors discussed above.

Operating income	\$ 3,464	21.8%	\$ 6,312	34.6%	\$ (2,848)	(45.1%)

Revenue in our Internet Advertising & Fees segment decreased \$2.4 million (13.0%) in the second quarter of 2014 compared to the same period of 2013 due to a reduction of revenue from display advertising business activities as we optimize seeker experience on Monster for maximum quality applies.

Operating expenses remained relatively flat when comparing the second quarter of 2014 to the same period of 2013.

Our Internet Advertising & Fees segment's operating income was \$3.5 million in the second quarter of 2014, compared to operating income of \$6.3 million in the second quarter of 2013, as a result of the factors discussed above.

Interest and other, net

Interest and other, net, for the three months ended June 30, 2014 and 2013 resulted in an expense of \$1.7 million and \$1.4 million, respectively. Interest and other, net primarily relates to interest expense on the Company's outstanding debt, interest income associated with the Company's various investments and foreign currency gains or losses.

Income taxes

Income taxes are as follows (dollars in thousands):

	Three months ended June 30,			
	2014	2013	Change in Dollars	Percentage Change
Income before income taxes and income (loss) in equity interests	\$ 3,053	\$ 6,750	\$ (3,697)	(54.8%)
Provision for income taxes	\$ 1,615	\$ 2,366	\$ (751)	(31.7%)

Effective tax rate	52.9%	35.1%
--------------------	-------	-------

The provision for income taxes consists of provisions for federal, state and foreign income taxes. The Company operates globally with operations in various tax jurisdictions outside of the United States. Accordingly, the effective income tax rate is a composite rate reflecting the geographic mix of earnings in various tax jurisdictions and the applicable rates. Our interim provision for income taxes is measured using an estimated annual effective tax rate, adjusted for discrete items that occur within the periods presented. The tax effect of discrete items is recorded in the quarter in which they occur. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates, increases in recorded valuation allowances on our deferred tax assets, or changes in tax laws or interpretations thereof. Our effective tax rate in the quarter ended June 30, 2014 increased as compared to the effective tax rate for the quarter ended June 30, 2013 primarily due to increases in non-deductible stock based compensation and shifts in the mix of income and losses among tax jurisdictions resulting in income taxed at higher rates or losses benefitted at lower rates. The shift is driven primarily by continued weakness in European International markets (which generally have lower statutory tax rates) relative to the U.S.

Our effective tax rate differs from the Federal United States statutory tax rate of 35% due to accrual of state taxes, non-deductible stock based compensation and other non-deductible expenses, foreign subsidiaries taxed at different rates, accrual of interest on tax liabilities, accrual of United States residual tax on earnings that are not indefinitely reinvested and the effect of tax valuation allowances.

Table of Contents

The Company is currently under examination by several domestic and international tax authorities. Presently, no material income tax adjustments have been proposed, although we can provide no assurances that such adjustments will not be proposed in the future. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. The gross recorded liability for uncertain tax positions (inclusive of estimated interest and penalties thereon) as of June 30, 2014 and December 31, 2013 is recorded on the Company's consolidated balance sheet as long-term income taxes payable of \$55.4 million and \$53.1 million, respectively. Interest and penalties related to underpayment of income taxes are classified as a component of income tax expense in the consolidated statements of operations and comprehensive loss. The Company estimates that it is reasonably possible that unrecorded tax benefits may be reduced by an amount ranging from \$0 to \$14.0 million in the next twelve months due to expirations of statutes of limitations or settlement of tax examinations. The tax matters concerned relate to the allocation of income among jurisdictions, and the amount of prior year tax loss carryovers.

Income (loss) in equity interests, net

Income (loss) in equity interests, net, for the three months ended June 30, 2014 was income of \$0.1 million compared to a loss of \$0.2 million for the same period of 2013. Through January 3, 2014, the Company had a 25% equity investment in a company located in Finland. Effective January 3, 2014, the Company has a 15% equity investment in Alma Career Oy, a joint venture with Alma Media Corporation. The Company also has a 50% equity interest in a company located in Australia. See Note 9 *Deconsolidation of Subsidiaries* in Notes to the Consolidated Financial Statements in Item I of this Form 10-Q.

Net income attributable to noncontrolling interest

In December 2013, the Company sold a 49.99% interest in JobKorea Ltd., its wholly owned subsidiary in South Korea, to H&Q Korea for an aggregate purchase price of \$90.0 million. Based on the terms of the agreement, since the Company will maintain a controlling interest in the subsidiary, the Company will continue to consolidate the results of JobKorea Ltd. in its consolidated financial statements. The noncontrolling interest's share of income from continuing operations and net income was \$1.5 million for the three months ended June 30, 2014.

Loss from discontinued operations, net of tax

For the three months ended June 30, 2014 and 2013, the Company reported a loss from discontinued operations, net of tax, of \$0 and \$0.8 million, respectively. Included in the results from discontinued operations are the results of our operations for Careers-China, Latin America and Turkey.

Net income attributable to Monster Worldwide, Inc.

As a result of the factors discussed above, our consolidated net income was \$1.5 million for the three months ended June 30, 2014, compared to net income of \$3.4 million for the same period of 2013. Net income attributable to Monster Worldwide, Inc. was break-even and \$3.4 million for the three months ended June 30, 2014 and 2013, respectively.

Diluted earnings per share attributable to Monster Worldwide, Inc.

Diluted earnings per share attributable to Monster Worldwide, Inc. was \$0.00 and \$0.03 for the three months ended June 30, 2014 and 2013, respectively. Diluted weighted average shares outstanding for the three months ended June 30, 2014 and 2013 was 90.0 million shares and 111.9 million shares, respectively. During the three months ended June 30, 2014, the Company repurchased 2.0 million shares as part of its previously announced share repurchase

program.

Reconciliation of Non-GAAP Financial Measures to GAAP Measures

EBITDA is defined as operating income or loss before depreciation and amortization, non-cash compensation expense and non-cash restructuring costs. Adjusted EBITDA is defined as EBITDA plus costs incurred related to the Company's review of strategic alternatives, and costs incurred relating to the November 2012 restructuring.

The Company considers EBITDA and Adjusted EBITDA to be an important indicator of its operational strength which the Company believes is useful to management and investors in evaluating its operating performance. EBITDA and Adjusted EBITDA are Non-GAAP measures and may not be comparable to similarly titled measures reported by other companies.

We do not consider EBITDA or Adjusted EBITDA in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of EBITDA and Adjusted EBITDA is that they exclude certain expenses and income that are required by GAAP to be recorded in our consolidated financial statements. In addition, Adjusted EBITDA is subject to inherent limitations as it reflects the exercise of judgment by management about which expenses and income are excluded or included in determining Adjusted EBITDA. In order to compensate for these limitations, management presents EBITDA and Adjusted EBITDA in connection with GAAP results.

Adjusted EBITDA	\$ 52,182	13.3%	\$ 75,960	18.4%	\$ (23,778)	(31.3%)

Our consolidated revenue decreased by \$19.5 million (4.7%, 5.6% on a constant currency basis) in the first six months of 2014 compared to the same period of 2013. Our Careers-International segment decreased \$10.9 million (7.3%, 10.1% on a constant currency basis) due to the continued challenging economic environment in certain countries in Europe and Asia. Our Careers-North America segment experienced a \$3.7 million (1.6%) decrease primarily due to decreased revenue from our telesales customers, however we did see year over year revenue growth on a quarter to date basis. Our Internet Advertising & Fees segment experienced a decrease of \$4.8 million (13.2%) due to a reduction of revenue from display advertising business activities as we optimize seeker experience on Monster for maximum quality applies.

Salaries and related expenses increased \$18.2 million (9.7%, 8.8% on a constant currency basis), in the first six months of 2014 compared to the same period of 2013. This increase in salaries and related expenses resulted primarily from increased regular salary and other headcount related costs resulting from headcount additions in the Company's quota-bearing sales force as part of the new strategy, as well as increased stock based compensation expense.

Table of Contents

Office and general expenses remained relatively flat when comparing the first six months of 2014 to the same period of 2013.

Marketing and promotion expenses decreased \$13.9 million (15.0%, 16.0% on a constant currency basis) in the first six months of 2014 compared to the same period of 2013. Beginning in 2012, the Company evolved its marketing approach to efficiently drive improved site traffic. The Company believes that these marketing initiatives have resulted in a build-up of relevant traffic to monster.com and our affiliate sites.

For the six months ended June 30, 2013, we incurred \$20.0 million of restructuring and other special charges, comprised mainly of severance costs, facility charges, and impairment of certain assets as a result of our restructuring program which was announced in November 2012. No charges were incurred in the six months ended June 30, 2014 relating to this program.

Our consolidated operating income was \$4.2 million in the first six months of 2014, compared to operating income of \$9.0 million in the first six months of 2013, as a result of the factors discussed above.

Our consolidated EBITDA and Adjusted EBITDA were \$45.8 million and \$52.2 million, respectively, in the first six months of 2014, compared to consolidated EBITDA and Adjusted EBITDA of \$58.4 million and \$76.0 million, respectively, in the same period in 2013, as a result of the factors discussed above. See *Reconciliation of Non-GAAP Financial Measures to GAAP Measures* following the discussion of our results of operations for definitions and a reconciliation from our operating income to EBITDA and Adjusted EBITDA.

Careers North America

The operating results of our Careers North America segment are as follows (dollars in thousands):

	Six months ended June 30,					
	2014	% of Revenue	2013	% of Revenue	Increase (Decrease)	% Increase (Decrease)
Revenue	\$ 221,948	100.0%	\$ 225,652	100.0%	\$ (3,704)	(1.6%)

Total operating expenses	191,926	86.5%	193,957	86.0%	(2,031)	(1.0%)
Operating income	\$ 30,022	13.5%	\$ 31,695	14.0%	\$ (1,673)	(5.3%)

Our Careers North America segment revenue experienced a decrease of \$3.7 million (1.6%) in the first six months of 2014 compared to the same period of 2013. The decrease in the Careers-North America segment is primarily due to a reduction of revenue from our mid-market telesales customers, however we did see year over year revenue growth on a quarter to date basis. In anticipation of the new strategy, the Company realigned the mid-market and field sales organizations in the second quarter. This realignment of the Company's sales force is expected to bring greater focus

around accelerating market expansion.

Salaries and related expenses increased \$13.2 million (15.2%) in the first six months of 2014 compared to the same period of 2013. This increase in salaries and related expenses resulted primarily from \$8.8 million of increased regular salary costs and other headcount related costs resulting from headcount additions in the Company's quota-bearing sales force as part of the new strategy as well as \$1.9 million of increased stock based compensation expense.

Office and general expenses increased \$2.9 million (6.0%) in the first six months of 2014 compared to the same period of 2013. This increase in office and general expenses resulted primarily from \$5.7 million in charges related to exited facilities and \$0.7 million of consulting costs, partially offset by \$4.3 million of decreased amortization expense resulting from the amortization period of certain intangible assets associated with a previous acquisition ending in the third quarter of 2013.

Marketing and promotion expenses decreased \$8.6 million (17.5%) in the first six months of 2014 compared to the same period of 2013. Beginning in 2012, the Company evolved its marketing approach to efficiently drive improved site traffic. The Company believes that these investments and marketing initiatives have resulted in a build-up of relevant traffic to monster.com and our affiliate sites.

Table of Contents

Our Careers-North America segment incurred \$9.5 million of restructuring and other special charges in the first six months of 2013, comprised primarily of costs associated with severance, exiting office facilities and other asset write downs. No charges were incurred in the first six months of 2014 relating to this program.

Our Careers North America operating income was \$30.0 million in the first six months of 2014, compared to operating income of \$31.7 million in the first six months of 2013, as a result of the factors described above.

Careers International

The operating results of our Careers International segment for the six months ended June 30, 2014 and 2013 are as follows (dollars in thousands):

	Six months ended June 30,					
	2014	% of Revenue	2013	% of Revenue	Increase (Decrease)	% Increase (Decrease)

Total operating expenses	151,147	108.8%	164,866	110.0%	(13,719)	(8.3%)
Operating loss	\$ (12,263)	(8.8%)	\$ (15,045)	(10.0%)	\$ 2,782	(18.5%)

Our Careers-International segment revenue decreased \$10.9 million (7.3%, 10.1% on a constant currency basis) in the first six months of 2014 compared to the same period of 2013 with Europe and Asia decreasing 7% and 9%, respectively (11% and 8% on a constant currency basis, respectively). The reductions within Europe related primarily to Germany, the Netherlands and the Eastern European countries no longer being included in our consolidated results due to the new joint venture with Alma Media, partially offset by revenue growth in the United Kingdom. However, we are encouraged to see Germany, the United Kingdom, and Italy experience double digit bookings growth in the second quarter of 2014. The Netherlands continues to be a challenging economic environment. India also continues to be impacted by the global economic uncertainty with a revenue decline in the first six months of 2014 when compared to the same period of 2013, and we are seeing customer demand stabilizing in Korea.

Salaries and related expenses increased \$2.9 million (3.8%, 1.1% on a constant currency basis) in the first six months of 2014 compared to the same period of 2013. This increase in salaries and related expenses resulted primarily from \$2.5 million in increased regular salary and other headcount related costs relating to selective headcount additions as part of the new strategy and increased stock based compensation expense.

Office and general expenses decreased \$2.9 million (7.0%, 9.1% on a constant currency basis) in the first six months of 2014 compared to the same period of 2013. This decrease in office and general expenses resulted primarily from \$2.1 million of decreased depreciation and amortization expense.

Marketing and promotion expenses decreased \$5.9 million (14.7%, 17.5% on a constant currency basis) in the first six months of 2014 compared to the same period of 2013. The Company continues to focus on targeted investments in key markets in Europe and Asia to drive site traffic and improve brand awareness.

In the first six months of 2013, our Careers-International segment incurred \$7.9 million of restructuring and other special charges comprised mainly of severance costs as a result of our restructuring program announced in November 2012. No charges were incurred in the first six months of 2014 relating to this program.

Our Careers-International operating loss was \$12.3 million in the first six months of 2014, compared to an operating loss of \$15.0 million in the same period of 2013, as a result of the factors discussed above.

Revenue in our Internet Advertising & Fees segment decreased \$4.8 million (13.2%) in the first six months of 2014 compared to the same period of 2013 due to a reduction of revenue from display advertising business activities as we optimize seeker experience on Monster for maximum quality applies.

Operating expenses remained relatively flat when comparing the first six months of 2014 to the same period of 2013.

Our Internet Advertising & Fees segment's operating income was \$7.2 million in the first six months of 2014, compared to operating income of \$12.6 million in the same period of 2013, as a result of the factors discussed above.

Interest and other, net

Interest and other, net, for the six months ended June 30, 2014 and 2013 resulted in an expense of \$3.0 million and \$2.6 million, respectively. Interest and other, net primarily relates to interest expense on the Company's outstanding debt, interest income associated with the Company's various investments and foreign currency gains or losses.

Gain on deconsolidation of subsidiaries, net

During the first quarter of 2014, the Company deconsolidated its subsidiaries in Poland, Hungary and the Czech Republic and recorded a net gain of \$11.8 million thereon. See Note 9 *Deconsolidation of Subsidiaries* in Notes to the Consolidated Financial Statements in Item I of this Form 10-Q.

Income Taxes

Income taxes are as follows (dollars in thousands):

	Six months ended June 30,			
	2014	2013	Change in Dollars	Percentage Change
Income before income taxes and income (loss) in equity interests	\$ 13,088	\$ 6,327	\$ 6,761	106.9%
Provision for (benefit from) income taxes	\$ 8,278	\$ (9,633)	\$ 17,911	(185.9%)
Effective tax rate	63.2%	na		

The provision for income taxes consists of provisions for federal, state and foreign income taxes. The Company operates globally with operations in various tax jurisdictions outside of the United States. Accordingly, the effective income tax rate is a composite rate reflecting the geographic mix of earnings in various tax jurisdictions and the applicable rates. Our interim provision for income taxes is measured using an estimated annual effective tax rate, adjusted for discrete items that occur within the periods presented. The tax effect of discrete items is recorded in the quarter in which they occur. Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates, increases in recorded valuation allowances on our deferred tax assets, or changes in tax laws or interpretations thereof.

Table of Contents

Our effective tax rate differs from the Federal United States statutory tax rate of 35% due to accrual of state taxes, non-deductible stock based compensation and other non-deductible expenses, foreign earnings taxed at different rates, accrual of interest on tax liabilities, accrual of United States residual tax on earnings that are not permanently reinvested and the effect of tax valuation allowances. The tax provision during the six months ended June 30, 2014 was increased by approximately \$5.9 million of discrete items, consisting primarily of a tax provision of \$5.5 million due to a gain related to the deconsolidation of our subsidiaries in Poland, Hungary and the Czech Republic and increases to tax valuation allowances of approximately \$1.2 million (see Note 9-*Deconsolidation of Subsidiaries* in Notes to the Consolidated Financial Statements in Item I of this Form 10-Q for discussion on the investment in Eastern Europe). In addition as a result of changes to certain estimates relating to determination of unrecognized tax positions during the three months ended March 31, 2014, the Company recognized previously unrecognized tax positions of \$0.4 million which on a net of tax basis impacted the effective rate by \$0.2 million. The Company also reversed accrued interest on unrecognized tax positions of \$0.4 million, which impacted the effective tax rate by \$0.3 million. The total benefit reflected in the tax provision in the six months ended June 30, 2014 for these items was \$0.5 million. The tax matters relate primarily to allocation of income among tax jurisdictions.

The tax benefit for the six months ended June 30, 2013 was increased by \$12.7 million of discrete items, consisting primarily of \$12.9 million due to reversals of uncertain tax positions and accrued interest in the first quarter of 2013. Other discrete items affecting the recorded tax provision include accruals of interest on uncertain tax positions and valuation allowances on tax losses in certain tax jurisdictions.

Included in the loss from discontinued operations in the six months ended June 30, 2013 is an income tax benefit of \$4.6 million.

The Company is currently under examination by several domestic and international tax authorities, including the United States Internal Revenue Service. Presently, no material income tax adjustments have been proposed, although we can provide no assurances that such adjustments will not be proposed in the future. Significant judgment is required in evaluating our uncertain tax positions and determining our provision for income taxes. The gross recorded liability for uncertain tax positions (inclusive of estimated interest and penalties thereon) as of June 30, 2014 and December 31, 2013 is recorded on the Company's consolidated balance sheet as long-term income taxes payable of \$55.4 million and \$53.1 million, respectively. Interest and penalties related to underpayment of income taxes are classified as a component of income tax expense in the consolidated statements of operations and comprehensive income (loss). The Company estimates that it is reasonably possible that unrecorded tax benefits may be reduced by as much as \$0 to \$14.0 million in the next twelve months due to expirations of statutes of limitations or settlement of tax examinations. The tax matters concerned relate to the allocation of income among jurisdictions, the characterization of certain intercompany loans, and the amount of prior year tax loss carryovers.

Loss in equity interests, net

Loss in equity interests, net, for the six months ended June 30, 2014 was \$0.1 million compared to a loss of \$0.7 million for the same period of 2013. Through January 3, 2014, the Company had a 25% equity investment in a company located in Finland. Effective January 3, 2014, the Company has a 15% equity investment in a joint venture Alma Career Oy, a joint venture with Alma Media Corporation. The Company also has a 50% equity interest in a company located in Australia. See Note 9 *Deconsolidation of Subsidiaries* in Notes to the Consolidated Financial Statements in Item I of this Form 10-Q.

Loss from discontinued operations, net of tax

For the six months ended June 30, 2014 and 2013, the Company reported a loss from discontinued operations, net of tax, of \$0 and \$6.9 million, respectively. Included in the results from discontinued operations are the results of our operations for Careers-China, Latin America and Turkey.

Net income attributable to Monster Worldwide, Inc.

As a result of the factors discussed above, our consolidated net income was \$4.7 million for the six months ended June 30, 2014, compared to net income of \$8.4 million for the same period of 2013. Net income attributable to Monster Worldwide, Inc. was \$2.1 million and \$8.4 million for the six months ended June 30, 2014 and 2013, respectively.

Diluted earnings per share attributable to Monster Worldwide, Inc.

Diluted earnings per share attributable to Monster Worldwide, Inc. was \$0.02 and \$0.07 for the six months ended June 30, 2014 and 2013, respectively. Diluted weighted average shares outstanding for the six months ended June 30, 2014 and 2013 was 92.2 million shares and 112.4 million shares, respectively. During the six months ended June 30, 2014, the Company repurchased 7.0 million shares as part of its previously announced share repurchase program.

Table of Contents***Reconciliation of Non-GAAP Financial Measures to GAAP Measures***

EBITDA is defined as operating income or loss before depreciation and amortization, non-cash compensation expense and non-cash restructuring costs. Adjusted EBITDA is defined as EBITDA plus charges related to exited facilities, acquisition related costs, costs incurred related to the Company's review of strategic alternatives, and costs incurred relating to the November 2012 restructuring.

The Company considers EBITDA and Adjusted EBITDA to be an important indicator of its operational strength which the Company believes is useful to management and investors in evaluating its operating performance. EBITDA and Adjusted EBITDA are Non-GAAP measures and may not be comparable to similarly titled measures reported by other companies.

We do not consider EBITDA or Adjusted EBITDA in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of EBITDA and Adjusted EBITDA is that they exclude certain expenses and income that are required by GAAP to be recorded in our consolidated financial statements. In addition, Adjusted EBITDA is subject to inherent limitations as it reflects the exercise of judgment by management about which expenses and income are excluded or included in determining Adjusted EBITDA. In order to compensate for these limitations, management presents EBITDA and Adjusted EBITDA in connection with GAAP results.

A reconciliation of operating income to EBITDA and Adjusted EBITDA is as follows (dollars in thousands):

	Six months ended June 30,	
	2014	2013
Operating Income	\$ 4,243	\$ 8,952
Depreciation expense	23,102	25,644
Stock based compensation expense	17,236	12,264
Amortization of intangibles	1,252	6,185
Restructuring non-cash expenses		5,315
EBITDA	45,833	58,360
Facilities and acquisition costs ⁽¹⁾	6,349	
Fees associated with strategic alternatives ⁽²⁾		2,920
Restructuring and other special charges, less non-cash items ⁽³⁾		14,680
Adjusted EBITDA	\$ 52,182	\$ 75,960

- (1) The Company incurred \$6.3 million of charges associated with exited facilities and acquisition related costs in the first quarter of 2014 which have been excluded from our non-GAAP financial statements for the six months ended June 30, 2014. The majority of this charge related to facility charges associated with the consolidation of multiple offices into the Company's new corporate headquarters in Weston, Massachusetts. The Company also incurred \$0.3 million of acquisition related charges associated with the purchase of TalentBin Inc., a social profile talent search engine, and Gozaik LLC, a developer of social jobs aggregation and distribution technology

in the first quarter of 2014.

- (2) On March 1, 2012, the Company announced that it had resolved to explore strategic alternatives to maximize value for the Company's stockholders. During the first six months of 2013, the Company incurred \$2.9 million of costs related to the review of strategic alternatives.
- (3) On November 8, 2012, the Company announced actions to concentrate resources on core businesses within North America and key European and Asian markets with increased spending in marketing and sales. The restructuring actions included reducing the Company's workforce, consolidating certain office facilities and impairing certain fixed assets. The Company incurred \$20.0 million of restructuring costs in the first six months of 2013 relating to this program.

Table of Contents**FINANCIAL CONDITION**

The following tables detail our cash and cash equivalents (dollars in thousands):

	June 30, 2014	December 31, 2013	Change in	
			Dollars	Percentage
Cash and cash equivalents	\$ 84,395	\$ 88,581	\$ (4,186)	(4.7%)
Percentage of total assets	5.3%	5.6%		

As of June 30, 2014, we had cash and cash equivalents of \$84.4 million compared to \$88.6 million as of December 31, 2013. Our decrease in cash and cash equivalents of \$4.2 million in the first six months of 2014 primarily resulted from \$27.0 million of payments for acquisitions, net of cash acquired, \$22.5 million of capital expenditures, the repurchase of \$51.5 million of the Company's common stock, \$6.5 million of cash contributed in connection with our joint venture with Alma Media, a \$3.0 million dividend paid to the minority shareholder in Korea, and \$3.7 million of tax withholdings related to vesting of stock awards, partially offset by \$43.8 million of cash provided by operating activities and \$66.3 million of net new borrowings on our term loan and credit facilities.

Cash Flows

Consolidated cash flows for the six months ended June 30, 2014 and 2013 are as follows (dollars in thousands):

	Six months ended June 30,		Change in	
	2014	2013	Dollars	Percentage
Net cash provided by operating activities	\$ 43,807	\$ 6,766	\$ 37,041	547.5%
Net cash used for investing activities	\$ (57,826)	\$ (18,249)	\$ 39,577	216.9%
Net cash provided by (used for) financing activities	\$ 8,279	\$ (51,745)	\$ 60,024	116.0%
Effects of exchange rates on cash	\$ 1,554	\$ (5,624)	\$ 7,178	127.6%

Cash provided by operating activities was \$43.8 million for the six months ended June 30, 2014, an increase of \$37.0 million from the \$6.8 million of cash provided by operating activities for the six months ended June 30, 2013. This increase resulted primarily from increased cash flows of \$17.8 million relating to working capital items, primarily driven by cash outflows in 2013 relating to our 2012 restructuring program and changes in prepaid and other, as well as the impact of the sale of Careers-China in the first six months of 2013. See Note 12 *Discontinued Operations* in Notes to the Consolidated Financial Statements in Item I of this Form 10-Q.

Cash used for investing activities was \$57.8 million for the six months ended June 30, 2014, an increase of \$39.6 million from cash used for investing activities of \$18.2 million for the six months ended June 30, 2013. This increase resulted primarily from \$27.0 million of payments for acquisitions, net of cash acquired, \$6.5 million of cash contributed in connection with our joint venture with Alma Media, and increased capital expenditures of \$4.1 million during the six months ended June 30, 2014 primarily due to our new corporate headquarters in Weston, Massachusetts.

Cash provided by financing activities was \$8.3 million for the six months ended June 30, 2014, an increase of \$60.0 million from cash used for financing activities of \$51.7 million for the six months ended June 30, 2013. This increase resulted primarily from increased borrowings on our term loan and credit facilities of \$91.7 million, partially offset by \$28.1 million of increased repurchases of the Company's common stock and a \$3.0 million dividend paid to the noncontrolling interest in Korea during the six months ended June 30, 2014.

Liquidity and Capital Resources

Our principal capital requirements have been to fund (i) working capital; (ii) marketing and development of our Monster network; (iii) acquisitions, (iv) capital expenditures; and (v) share repurchases.

Historically, we have relied on funds provided by operating activities, short and long-term borrowings and equity offerings to meet our liquidity needs. We invest our excess cash predominantly in bank time deposits and top foreign sovereign or provincial debt obligations that mature within three months of the origination date. We actively monitor the third-party depository institutions that hold our cash and cash equivalents. Our emphasis is primarily on safety of principal while secondarily on maximizing yield on those funds. We can provide no assurances that access to our invested cash and cash equivalents will not be impacted by adverse conditions in the financial markets.

At any point in time we have funds in our operating accounts and customer accounts that are with third party financial institutions. These balances in the United States may exceed the Federal Deposit Insurance Corporation insurance limits. While we monitor the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be impacted if the underlying financial institutions fail or could be subject to other adverse conditions in the financial markets.

Table of Contents

At June 30, 2014, the utilized portion of our credit facility was \$116.6 million of borrowings on the revolving credit facility, \$85.0 million in borrowings on the term loan facility and \$0.3 million in outstanding letters of credit. This credit facility is due to mature on March 22, 2015 and the \$201.6 million of borrowings are classified in Current portion of long-term debt and borrowings on revolving credit facilities on our consolidated balance sheet. We currently intend to refinance these borrowings prior to the maturity date and we are reviewing our financing alternatives with various financial institutions, although we cannot assume that we will be able to refinance on terms we find acceptable.

We believe that our current cash and cash equivalents, our existing revolving credit facility and anticipated successor credit facility, and cash we anticipate generating from operating activities will provide us with sufficient liquidity to satisfy our working capital needs, capital expenditures and meet our investment requirements and commitments through at least the next twelve months. Our cash generated from operating activities is subject to fluctuations in the global economy and overall hiring demand.

Credit Facilities

In December 2007, the Company entered into a senior unsecured revolving credit facility that provided for maximum borrowings of \$250.0 million, including up to a \$50.0 million sublimit for letters of credit. On August 31, 2009, the Company amended certain terms and increased its borrowing capability under its existing credit agreement (the "First Amended Credit Agreement"). The First Amended Credit Agreement maintained the Company's existing \$250.0 million revolving credit facility and provided for a new \$50.0 million term loan facility, for a total of \$300.0 million in credit available to the Company. On March 22, 2012, the First Amended Credit Agreement was further amended and restated in its entirety (the "Second Amended Credit Agreement"). The Second Amended Credit Agreement provides the Company with a \$225.0 million revolving credit facility and a \$100.0 million term loan facility, providing for a total of \$325.0 million in credit available to the Company. The borrowings under the Second Amended Credit Agreement were used to satisfy the obligations under the First Amended Credit Agreement of \$172.5 million for the revolving credit facility and \$40.0 million for the term loan. The revolving credit facility and the term loan facility each mature on March 22, 2015. The Second Amended Credit Agreement does not qualify as a debt extinguishment in accordance with ASC 470 *Debt*, and all financing fees incurred will be deferred and amortized through March 2015.

The Company is required to make quarterly amortization payments on the outstanding principal amount of the term loan with \$2.5 million payable on each of September 30, 2014 and December 31, 2014, and the remaining balance of the term loan due at maturity.

Borrowings under the Second Amended Credit Agreement will bear interest at a rate equal to either (i) the British Bankers Association LIBOR ("BBA LIBOR") Rate plus a margin ranging from 250 basis points to 325 basis points depending on the Company's consolidated leverage ratio or (ii) the sum of (A) the highest of (1) the agent's prime rate, (2) the sum of 0.50% plus the overnight federal funds rate on such day or (3) the BBA LIBOR plus 1.0%, and (B) a margin ranging from 150 basis points to 225 basis points depending on the Company's consolidated leverage ratio. In addition, the Company will be required to pay the following fees: (i) a fee on all outstanding amounts of letters of credit at a rate per annum ranging from 250 basis points to 325 basis points (depending on the consolidated leverage ratio); and (ii) a commitment fee on the unused portion of the revolving credit facility at a rate per annum ranging from 35 basis points to 50 basis (depending on the consolidated leverage ratio). The Company may repay outstanding borrowings at any time during the term of the credit facility without any prepayment penalty.

The Second Amended Credit Agreement contains financial covenants requiring the Company to maintain: (i) a consolidated leverage ratio of no more than 3.00 to 1.00; and (ii) an interest charge coverage ratio of at least 3.00 to 1.00. The Second Amended Credit Agreement also contains various other negative covenants, including restrictions

on incurring indebtedness, creating liens, mergers, dispositions of property, dividends and stock repurchases, acquisitions and other investments and entering into new lines of business. The Second Amended Credit Agreement also contains various affirmative covenants, including covenants relating to the delivery of financial statements and other financial information, maintenance of property, maintenance of insurance, maintenance of books and records and compliance with environmental laws. As of June 30, 2014, the Company was in full compliance with its covenants.

At June 30, 2014, the utilized portion of this credit facility was \$85.0 million in borrowings on the term loan facility, \$116.6 million of borrowings on the revolving credit facility, and \$0.3 million in outstanding letters of credit. This credit facility is due to mature on March 22, 2015 and the \$201.6 million of borrowings are classified in Current portion of long-term debt and borrowings on revolving credit facilities on our consolidated balance sheet. We currently intend to refinance these borrowings prior to the maturity date and therefore are reviewing our financing alternatives with various financial institutions, although we cannot assume that we will be able to refinance on terms we find acceptable. As of June 30, 2014, based on the calculation of the maximum consolidated leverage ratio, \$108.1 million of the Company's revolving credit facility was available. At June 30, 2014, the one month BBA LIBOR rate, the agent's prime rate, and the overnight federal funds rate were 0.16%, 3.25% and 0.09%, respectively. As of June 30, 2014, the Company predominantly used the one month BBA LIBOR rate for the interest rate on these borrowings with an interest rate of 3.15%.

Table of Contents

In 2011 and 2012, the Company's former subsidiaries in China entered into two short-term unsecured revolving credit facilities whereby the Company provided a repayment guarantee in support of the first credit facility, and the Company provided for a standby letter of credit in support of the second credit facility. These credit facilities provided for maximum borrowings of the Renminbi equivalent of \$7.6 million and \$5.0 million, respectively. On February 5, 2013, the Company sold our interest in our subsidiaries in China including the entity that is the primary obligor on the credit facilities. As part of the sale transaction, the Company agreed to liquidate these outstanding loans to the lender and on June 13, 2013, these loans were liquidated in full.

Income Taxes

The Company historically earned a significant portion of its income outside the United States. The total amount of cash offshore is \$78.7 million, approximately \$62.0 million of which is in subsidiaries for which the Company maintains the indefinite reinvestment assertion and \$18.0 million of which is held in South Korea. In December 2013 Monster sold 49.99% of its interest in its Korean subsidiary to H & Q Korea. As a result of the sale, the 50.01% retained interest in Korea is owned through an entity characterized as a partnership for U.S. tax reporting purposes and the Company's share of income is taxable in the U.S. whether distributed or not. In April 2014 a cash distribution of \$3.0 million was paid to the Company with respect to its retained interest.

While we have not determined the total United States and foreign tax liabilities arising from repatriation of earnings from subsidiaries for which the indefinite reinvestment assertion is made, generally, if this cash were repatriated, a United States tax liability would be incurred for the excess of United States tax over local taxes paid, if any, on the portion characterized as a taxable dividend for United States tax purposes. The Company reviewed its liquidity needs in the United States and does not presently intend to repatriate these funds where indefinite reinvestment assertion has been made. In addition to cash expected from domestic operations, the Company can borrow from its credit facility in the United States should additional liquidity needs arise. We have borrowed funds domestically and continue to have the ability to borrow funds domestically at reasonable interest rates.

Thus far in 2014, the Company has paid \$4.2 million of taxes on domestic and international income. We expect to utilize our tax loss and tax credit carryovers to offset most domestic cash tax liability in 2014, and we expect to have taxable income in certain foreign tax jurisdictions in which we pay taxes on a quarterly basis.

Operating Lease Obligations

We have recorded significant charges and accruals relating to terminating certain operating lease obligations before the end of their terms once the Company no longer derives economic benefit from the lease. The liability is recognized and measured at its fair value when we determine that the cease use date has occurred and the fair value of the liability is determined based on the remaining lease rentals due, reduced by estimated sublease rental income that could be reasonably obtained for the property. The estimate of subsequent sublease rental income may change and require future changes to the fair value of the liabilities for the lease obligations.

Acquisitions and Investments

We have, from time to time, made strategic acquisitions and partnerships to expand Monster's global footprint, establish strategic partnerships or to obtain technology that is complementary to our product offerings and strategy. We account for business combinations under the acquisition method of accounting which requires that assets acquired and liabilities assumed be recorded at their fair values on the date of a business combination. Our consolidated financial statements and results of operations reflect an acquired business from the completion date of an acquisition. Investments in which the Company does not have a controlling interest or is not the primary beneficiary, but has the

ability to exert significant influence, are accounted for under the equity method of accounting.

Share Repurchase Plan

On April 30, 2013, the Board of Directors of the Company authorized a share repurchase program of up to \$200.0 million. Under the share repurchase program, shares of common stock will be purchased on the open market or through privately negotiated transactions from time-to-time through April 30, 2015. The timing and amount of purchases will be based on market conditions, corporate and legal requirements and other factors. The share repurchase program does not obligate the Company to acquire any specific number of shares in any period, and may be modified, suspended, extended or discontinued at any time without prior notice. During the six months ended June 30, 2014, the Company repurchased 7.0 million shares for a total of \$51.4 million, excluding commissions, at an average price of \$7.31 per share. From the date of the inception of this repurchase program through June 30, 2014, the Company repurchased 27.6 million shares for a total of \$158.1 million, excluding commissions, at an average price of \$5.73 per share.

Table of Contents**CRITICAL ACCOUNTING ESTIMATES**

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). In connection with the preparation of our financial statements, we are required to make assumptions and estimates about future events, and apply judgments that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumptions, estimates and judgments on historical experience, current trends and other factors that management believes to be relevant at the time our consolidated financial statements are prepared. On a regular basis, management reviews the accounting policies, assumptions, estimates and judgments to ensure that our financial statements are presented fairly and in accordance with U.S. GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material.

Our significant accounting policies are discussed in Note 1, *Basis of Presentation and Significant Accounting Policies*, of the Notes to Consolidated Financial Statements, included in *Item 8, Financial Statements and Supplementary Data*, of our Annual Report on Form 10-K for the year ended December 31, 2013. Management believes that the following accounting policies are the most critical to aid in fully understanding and evaluating our reported financial results, and they require management's most difficult, subjective or complex judgments, resulting from the need to make estimates about the effect of matters that are inherently uncertain. Management has reviewed these critical accounting estimates and related disclosures with the Audit Committee of our Board of Directors.

Revenue Recognition and Accounts Receivable

The Company recognizes revenue on agreements in accordance with ASC 605, *Revenue Recognition*.

Careers-North America and Careers-International. Our Careers-North America and Careers-International segments primarily earn revenue from the placement of job postings on the websites within the Monster network, access to the Monster network's online resume database, recruitment media services, applicant tracking services, online career-related solutions provided through a Software as a Service (SaaS) offering and other career-related services.

Where appropriate, we recognize revenue in accordance with Accounting Standards Update (ASU) No. 2009-13, *Multiple-Deliverable Revenue Arrangements*, which was effective January 1, 2011. The Company's revenue associated with multiple element contracts is based on the selling price hierarchy, which utilizes vendor-specific objective evidence or (VSOE) when available, third-party evidence (TPE) if VSOE is not available, and if neither is available then the best estimate of selling price is used. The Company utilizes VSOE in the majority of its multiple deliverable transactions. Under this accounting guidance, to treat elements in a multi-element arrangement as separate units of accounting, each element must have standalone value upon delivery. If the element has standalone value, the Company accounts for each element separately. In determining whether elements have standalone value, the Company considers the availability of the elements from other vendors, the nature of the elements, the timing of execution of contracts for customers and the contractual dependence of the element related to a customer's acceptance.

We recognize revenue at the time that job postings and related accessories are displayed on the Monster network websites, based upon customer usage patterns. Revenue earned from subscriptions to the Monster network's resume database, applicant tracking services and other career-related services are recognized over the length of the underlying subscriptions, typically from two weeks to twelve months. The Company accounts for SaaS contracts as the services are being performed.

Unearned revenues are reported on the balance sheet as deferred revenue. We review accounts receivable for those that may potentially be uncollectible and any accounts receivable balances that are determined to be uncollectible are

included in our allowance for doubtful accounts. After all attempts to collect a receivable have failed, the receivable is written off against the allowance.

Internet Advertising & Fees. Our Internet Advertising & Fees segment primarily earns revenue from the display of advertisements on the Monster network of websites, click-throughs on text based links, leads provided to advertisers and subscriptions to premium services. We recognize revenue for online advertising as impressions are delivered. An impression is delivered when an advertisement appears in pages viewed by our users. We recognize revenue from the display of click-throughs on text based links as click-throughs occur. A click-through occurs when a user clicks on an advertiser's listing. Revenue from lead generation is recognized as leads are delivered to advertisers.

Fair Value Measurements

The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents, accounts receivable, accounts payable, certain accrued expenses and other current liabilities approximate fair value because of the immediate or short-term maturity of these financial instruments. Our debt consists of borrowings under our credit facilities, which approximates fair value due to the debt bearing fluctuating market interest rates.

Table of Contents***Asset Impairment***

Business Combinations, Goodwill and Intangible Assets. We account for business combinations in accordance with ASC 805, *Business Combinations*. The acquisition method of accounting requires that assets acquired and liabilities assumed be recorded at their fair values on the date of a business acquisition. Our consolidated financial statements and results of operations reflect an acquired business on the completion date of an acquisition.

The Company tests the recorded amount of goodwill for recovery on an annual basis in the fourth quarter of each fiscal year. Goodwill is tested more frequently if indicators of impairment exist. The goodwill impairment test is performed at the reporting unit level. The Company has three reporting units which are equivalent to our three operating segments: Careers-North America, Careers-International, and Internet Advertising & Fees.

In determining if goodwill is impaired, we estimate the fair value of the reporting unit and compare it to the carrying value of the assets and liabilities of that reporting unit. The Company determines the fair value of its reporting units using a weighting of fair values derived from the income approach and the market approach, depending on the availability of relevant market comparable information. Under the income approach, the Company calculates the fair value of a reporting unit based on the present value of estimated future cash flows. Cash flow projections are based on management's estimates of revenue growth rates and operating margins, taking into consideration industry and market conditions. The discount rate used is based on the weighted-average cost of capital adjusted for the relevant risk associated with business-specific characteristics and the uncertainty related to the business's ability to execute on the projected cash flows. Under the market approach, the Company estimates the fair value based on market multiples of cash flow and earnings derived from comparable publicly-traded companies with similar operating and investment characteristics as the reporting unit and considering a reasonable control premium. The weighting of the fair value derived from the market approach differs for each reporting unit depending on the level of comparability of these publicly-traded companies to the reporting unit. Due to the inherent uncertainty involved in making these estimates, actual results could differ from those estimates.

For the annual goodwill impairment test performed in the fourth quarter of 2013, each of the Careers-International and the Internet Advertising & Fees reporting units had fair value that substantially exceeded its carrying value. For the Careers-North America reporting unit, using a discount rate of 14% and a terminal growth rate of 2.8%, the Company calculated that the fair value would have to be approximately 20% less than the computed amount to result in any goodwill impairment charges. The recorded amount of goodwill for the Careers-North America reporting unit was \$623.2 million and \$598.1 million as of June 30, 2014 and December 31, 2013, respectively. The Company believes the inputs and assumptions used in determining the fair value of the Careers-North America reporting unit are reasonable. The Company updated the fair value analysis for the Careers-North America reporting unit as of June 30, 2014 and the estimated fair value would have to be approximately 20% less than the computed amount to result in any goodwill impairment charge.

As a corroborative source of information, the Company reconciles the estimated fair values of its reporting units to within a reasonable range of its market capitalization, which includes an assumed control premium (an adjustment reflecting an estimated fair value on a control basis) to verify the reasonableness of the fair value of its reporting units obtained through the aforementioned methods. The control premium is estimated based upon control premiums observed in comparable market transactions. As none of our reporting units are publicly-traded, individual reporting unit fair value determinations do not directly correlate to the Company's stock price. Although the Company believes it is reasonable to conclude that market capitalization could be an indicator of fair value over time, we believe that our current market capitalization undervalues the aggregate fair values of our individual reporting units.

The Company recognizes that during certain periods our market capitalization has been below our book value. Accordingly, we monitor changes in our share price to ensure that our reconciled market capitalization continues to exceed or is not significantly below the carrying value of our net assets. In the event that our reconciled market capitalization does decline below its book value, we consider the length and severity of the decline and the reason for the decline when assessing whether potential goodwill impairment exists. Further, if a reporting unit does not appear to be achieving the projected growth plan used in determining its fair value, we will reevaluate the reporting unit for potential goodwill impairment based on revised projections, as available.

Long-lived assets. We review long-lived assets for impairment whenever events or changes in circumstances indicate that the related carrying amounts may not be recoverable. Determining whether an impairment has occurred typically requires various estimates and assumptions, including determining which cash flows are directly related to the potentially impaired asset, the useful life over which cash flows will occur, their amount and the asset's residual value, if any. In turn, measurement of an impairment loss requires a determination of fair value, which is based on the best information available. We use internal discounted cash flows estimates, quoted market prices when available and independent appraisals, as appropriate, to determine fair value. We derive the required cash flow estimates from our historical experience and our internal business plans and apply an appropriate discount rate.

Table of Contents

Income Taxes

We utilize the liability method of accounting for income taxes as set forth in ASC 740, *Income Taxes*. Under the liability method, deferred taxes are determined based on the temporary differences between the financial statement and tax basis of assets and liabilities using tax rates expected to be in effect during the years in which the basis differences reverse. A valuation allowance is recorded when it is more likely than not that some of the deferred tax assets will not be realized. In evaluating our ability to recover our deferred tax assets within the jurisdictions from which they arise, we consider all available positive and negative evidence, including scheduled reversals of taxable temporary items, projected future taxable income, tax planning strategies and recent financial operations.

Assumptions used in making this evaluation require significant judgment and are consistent with the plans and estimates we are using to manage the underlying business. When we determine that we are not able to realize our recorded deferred tax assets, an increase in the valuation allowance is recorded, decreasing earnings in the period in which such determination is made.

Our interim provisions for income taxes are measured using an estimated annual effective tax rate, adjusted for discrete items that occur within the periods presented.

We assess our income tax positions and record tax benefits for all years subject to examination based upon our evaluation of the facts, circumstances and information available at the reporting date. For those tax positions where there is greater than 50% likelihood that a tax benefit will be sustained, we have recorded the largest amount of tax benefit that may potentially be realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where there is a 50% or less likelihood that a tax benefit will be sustained, no tax benefit has been recognized in the financial statements.

Stock-Based Compensation

We award stock options, non-vested stock, market-based non-vested stock and performance-based non-vested stock to employees, directors and executive officers. We account for stock-based compensation in accordance with ASC 718, *Stock Compensation*. In accordance with ASC 718, we use the fair-market value of the Company's Common Stock on the date the award is approved to measure fair value for service-based and performance-based awards, a Monte Carlo simulation model to determine both the fair value and requisite service period of market-based awards and the Black-Scholes option-pricing model to determine the fair value of stock option awards. Compensation expense for stock option awards and service-based awards is recognized ratably over the requisite service period. For market-based awards, compensation expense is recognized over the requisite service period as derived using a Monte Carlo simulation model. If an award includes both a market and performance or service condition, the requisite service period is adjusted in the event the market condition is satisfied prior to the end of the derived service period. For performance-based awards, compensation expense is recognized based on the probability of achieving the performance conditions associated with the respective shares, as determined by management.

Restructuring and Other Operating Lease Obligations

We recognize a liability for costs to terminate an operating lease obligation before the end of its term when we no longer derive economic benefit from the lease. The liability is recognized and measured at its fair value when we determine that the cease use date has occurred and the fair value of the liability is determined based on the remaining lease rentals due, reduced by estimated sublease rental income that could be reasonably obtained for the property. The estimate of subsequent sublease rental income may change and require future changes to the fair value of the liabilities for the lease obligations.

Equity Investments

Gains and losses in equity interest for the six months ended June 30, 2014, resulting from our equity method investments in Alma Career Oy and a business in Australia, are based on unaudited financial information of those businesses. Although we do not anticipate material differences, audited results may differ.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

New accounting pronouncements are issued by the Financial Accounting Standards Board (FASB) or other standards setting bodies that we adopt according to the various timetables the FASB specifies. The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company s results of operations, financial position or cash flows. As noted in Note 2 *Recently Issued Accounting Pronouncements* in Notes to the Consolidated Financial Statements in Item I of this Form 10-Q, the Company is currently assessing the potential impact of ASU No. 2014-09 which supersedes the revenue recognition guidance in ASC 605, *Revenue Recognition*, on the Company s results of operations, financial position and cash flows.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The information in this section should be read in connection with the information on financial market risk related to non-U.S. currency exchange rates, changes in interest rates and other financial market risks in Part II, Item 7A, *Quantitative and Qualitative Disclosures About Market Risk*, in our Annual Report on Form 10-K for the year ended December 31, 2013.

Foreign Exchange Risk

During the three months ended June 30, 2014, revenue from our international operations accounted for 37% of our consolidated revenue. Revenue and related expenses generated from our international websites are generally denominated in the functional currencies of the local countries. Our primary foreign currencies are Euros, British Pounds, Korean Won, Swedish Krona, and Indian Rupees. The functional currency of our subsidiaries that either operate or support these websites is the same as the corresponding local currency. The results of operations of, and certain of our intercompany balances associated with, our internationally-focused websites are exposed to foreign exchange rate fluctuations. Upon consolidation, as exchange rates vary, revenue and other operating results may differ materially from expectations, and we may record significant gains or losses on the remeasurement of intercompany balances. The effect of changes in foreign exchange rates in the three months ended June 30, 2014 positively impacted our revenue by approximately \$2.7 million and positively impacted reported operating income by approximately \$0.1 million, compared to the three months ended June 30, 2013.

We have foreign exchange risk related to foreign-denominated cash and cash equivalents (foreign funds). Based on the balance of foreign funds at June 30, 2014 of \$78.7 million, an assumed 5%, 10% and 20% negative currency movement would result in fair value declines of \$3.9 million, \$7.9 million and \$15.7 million, respectively.

We use forward foreign exchange contracts as cash flow hedges to offset risks related to certain foreign currency transactions. These transactions primarily relate to non-functional currency denominated intercompany funding loans, non-functional currency denominated accounts receivable and non-functional currency denominated accounts payable. We do not enter into derivative financial instruments for trading purposes.

The financial statements of our non-U.S. subsidiaries are translated into U.S. dollars using current rates of exchange, with gains or losses included in the cumulative translation adjustment account, a component of stockholders' equity. During the three months ended June 30, 2014, our cumulative translation adjustment account decreased by \$5.8 million, attributable to favorable net foreign currency movements, primarily of changes in the U.S. dollar against the Euro, Swedish Krona and Korean Won.

Interest Rate Risk***Credit Facilities***

As of June 30, 2014, our debt was comprised primarily of borrowings under our senior secured revolving credit facility and our term loan facility. The credit facilities' interest rates may be reset due to fluctuation in a market-based index, such as the federal funds rate or the British Bankers Association LIBOR (BBA LIBOR). Assuming the amount of borrowings provided for under our credit facilities were fully drawn during the second quarter of 2014, we would have had \$310.0 million outstanding under such facilities, and a hypothetical 1.00% (100 basis-point) change in the interest rate of our credit facilities would have changed our quarterly pre-tax earnings by approximately \$0.8 million for the three months ended June 30, 2014. Assuming the amount of borrowings under our credit facilities was equal to the amount of outstanding borrowings on June 30, 2014, we would have had \$201.6 million of total usage and a

hypothetical 1.00% (100 basis-point) change in the interest rate of our credit facility would have changed our pre-tax earnings by approximately \$0.5 million for the three months ended June 30, 2014. We do not manage the interest rate risk on our debt through the use of derivative instruments.

Investment Portfolio

Our investment portfolio is comprised primarily of cash and cash equivalents and short-term investments in a variety of debt instruments of high quality issuers, bank time deposits, bankers' acceptances and government bonds that mature within three months of their origination date. A hypothetical 1.00% (100 basis-point) change in interest rates applicable to our investment portfolio would have changed our quarterly pretax earnings by approximately \$0.2 million for the three months ended June 30, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Monster maintains disclosure controls and procedures, as such term is defined in Rule 13a-15(e) of Securities Exchange Act of 1934 (the Exchange Act), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, Monster's management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and Monster's management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Monster has carried out an evaluation, as of the end of the period covered by this report, under the supervision and with the participation of Monster's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Monster's disclosure controls and procedures. Based upon their evaluation and subject to the foregoing, the Chief Executive Officer and Chief Financial Officer concluded that Monster's disclosure controls and procedures were effective.

There have been no significant changes in Monster's internal controls over financial reporting that occurred during the fiscal quarter ended June 30, 2014, that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Table of Contents**PART II-OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

The Company is involved in various legal proceedings that are incidental to the conduct of its business. Aside from the matters discussed below, the Company is not involved in any pending or threatened legal proceedings that it believes could reasonably be expected to have a material adverse effect on its financial condition or results of operations.

In September 2013, Career Destination Development, LLC filed suit against the Company for allegedly infringing certain patents, U.S. Patent No. 7,424,438 (the 438 Patent) and U.S. Patent No. 8,374,901 (the 901 Patent), relating to methods for the online searching of jobs. The lawsuit, entitled Career Destination Development, LLC vs. Monster Worldwide, Inc. (Civil Action No. 13-cv-2423), was brought in the United States District Court for the District of Kansas. The Plaintiff seeks injunctive relief, monetary damages, pre and post judgment interest, and other costs. On October 10, 2013, the Company filed an answer denying the allegations set forth in the complaint. On February 12, 2014, Monster filed two separate petitions in the United States Patent and Trademark Office (USPTO) for covered business method (CBM) review of the 901 Patent, and the USPTO subsequently assigned case numbers CBM2014-00069 and CBM2014-00070 to these petitions for CBM review of the 901 Patent. On February 12, 2014 and February 21, 2014, Monster also filed petitions in the USPTO for CBM review of the 438 Patent, and the USPTO subsequently assigned case numbers CBM2014-00068 and CBM2014-00077 to the petitions for review of the 438 Patent. On March 14, 2014, the District Court for the District of Kansas granted Monster s motion to stay Civil Action No. 13-cv-2423 pending the aforementioned CBM reviews of the 438 and 901 Patents. The Company intends to vigorously defend this matter and is currently unable to estimate any potential losses.

In November 2013, JobDiva, Inc. filed suit against the Company for allegedly infringing certain patents relating to methods for the parsing of resumes. The lawsuit, entitled JobDiva, Inc. vs. Monster Worldwide, Inc. (Civil Action No. 1:13-cv-08229-KBF) was brought in the United States District Court for the Southern District of New York. The Plaintiff seeks injunctive relief, monetary damages, pre and post judgment interest and other costs. On January 9, 2014, the Company filed an answer denying the allegations set forth in the complaint and asserting counterclaims against JobDiva, Inc. for infringing a patent owned by the Company. The District Court has re-scheduled the trial date in this matter to February 2, 2015. The Company intends to vigorously defend this matter and is aggressively pursuing counterclaims against JobDiva, Inc. The Company is currently unable to estimate any potential losses.

In April 2014, Selene Communication Technologies LLC filed suit against the Company for allegedly infringing a certain patent relating to methods for generating search queries. The lawsuit, entitled Selene Communication Technologies LLC vs. Monster Worldwide, Inc. (Civil Action No.14-cv-434) was brought in the United States District Court for the District of Delaware. The Plaintiff seeks injunctive relief, monetary damages, pre and post judgment interest and other costs. On June 13, 2014, the Company filed an answer denying the allegations set forth in the complaint. The Company intends to vigorously defend this matter and is currently unable to estimate any potential losses.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2013, which could materially affect our business, financial position and results of operations. There are no material changes from the risk factors set forth in Part I, Item 1A. Risk Factors in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2013.
