**Section 1 Registrant's Business and Operations**

**Item 1.01 Entry into a Material Definitive Agreement.**

On November 18, 2016, two subsidiaries of Constellation Energy Nuclear Group, LLC (CENG) and a subsidiary of Entergy Corporation entered into three separate agreements with the New York State Energy Research & Development Authority (NYSERDA) for the procurement of Zero Emission Credits (ZECs) pursuant to the August 1, 2016, New York Public Service Commission order approving the New York Clean Energy Standard (NYSERDA Agreements). The objective of the program is to preserve the environmental attributes of zero-emissions nuclear-powered generating facilities.

The NYSEDA Agreements extend from April 1, 2017 through March 31, 2029. Under the NYSEDA Agreements, ZECs will be procured in six, two-year tranches. Pricing for each tranche will be administratively determined based on the USIWG Social Cost of Carbon (escalating over the term), less a fixed baseline for carbon pricing already captured through the Regional Greenhouse Gas Initiative (\$10.41/short ton). Pricing for Tranche 1 is \$17.48/MWh.

The quantity of ZECs to be purchased by NYSEDA each year under all three NYSEDA Agreements is capped at an amount that represents the verifiable historic contribution the facility has made to the clean energy resource mix. Each Load Serving Entity is required to purchase an amount of ZECs equivalent to its load ratio share of the total electric energy load in the New York Control Area. Cost recovery from ratepayers will be incorporated into the commodity charges on customer bills.

The description of the NYSEDA Agreements referred to above is not complete and is qualified in its entirety by reference to the agreements. Copies of the two NYSEDA Agreements with subsidiaries of CENG are attached as exhibits 10.1 and 10.2, respectively, which are incorporated herein by reference.
