Confirmation of the Plan

On March 17, 2017, the Bankruptcy Court entered an order, Docket No. 2763 (the Confirmation Order), attached hereto as Exhibit 2.1, confirming the Debtors Second Amended Joint Plan of Reorganization of Debtors and Debtors in Possession as revised March 15, 2017 (the Plan). The Plan incorporates by reference certain documents filed with the Bankruptcy Court as part of the supplements to the Plan filed with the Bankruptcy Court on March 6, 2017 and March 15, 2017 (collectively, the Plan Supplement). A copy of the Plan is attached hereto as Exhibit 2.2 and is incorporated by reference herein.

The Plan will become effective when certain conditions are satisfied or waived, including, (a) the documents governing the Reorganized Debtors new \$950 million senior secured term loan (the Exit Facility) must have been duly executed and delivered by the Reorganized Debtors parties thereto, and all conditions precedent to the consummation of the Exit Facility must have been waived or satisfied in accordance with the terms thereof, and the closing of the Exit Facility must have occurred; (b) the conditions precedent to the consummation of the Rights Offering and the Private Placement (each as defined below) must have been satisfied or waived by the parties thereto, and the Reorganized Debtors must have received (or will receive simultaneously with the consummation of the Plan) the amounts required to be funded thereunder in the aggregate gross amount of not less than \$1.5 billion; (c) all documents and agreements necessary to implement the Plan must have been executed; and (d) the Debtors must have received all authorizations, consents, legal and regulatory approvals, rulings, letters, no-action letters, opinions or documents that are necessary to implement the Plan and that are required by law, regulation or order. The date on which all conditions to the effectiveness of the Plan have been satisfied or waived will be the Effective Date of the Plan. It is possible that amendments could be made to the Plan prior to the Effective Date.

The following is a summary of certain provisions of the Plan, as confirmed by the Bankruptcy Court pursuant to the Confirmation Order, and is not intended to be a complete description of the Plan. The following summary is qualified in its entirety by reference to the full text of the Plan (including the Plan Supplement). Copies of the Plan and the Confirmation Order are available free of charge at www.kccllc.net/Peabody. The information set forth on the foregoing website shall not be deemed to be a part of or incorporated by reference into this Current Report on Form 8-K. Capitalized terms used but not defined in this Current Report on Form 8-K have the meanings set forth in the Plan.

The Exit Facility

Pursuant to the Plan and as a condition to its effectiveness, the Company expects to enter into the Exit Facility as contemplated by the exit facility commitment letter, dated as of January 11, 2017, from Goldman Sachs Bank USA, JPMorgan Chase Bank, N.A., Credit Suisse AG, Credit Suisse Securities (USA) LLC, Macquarie Capital Funding LLC and Macquarie Capital (USA) Inc. (the "Exit Facility Commitment Letter"). The Exit Facility Commitment Letter was filed with the Bankruptcy Court on January 11, 2017 and previously disclosed on the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission (SEC) on January 12, 2017. The Exit Facility would be entered into on the Effective Date. The Exit Facility provides for a \$950 million senior secured term loan, matures in 2022 and bears interest at a fluctuating rate of LIBOR plus 4.50% per annum with a 1.00% LIBOR floor.

Securitization Facility

On the Effective Date, the Company expects to extend and amend the Fifth Amended and Restated Receivables Purchase Agreement, dated as of March 25, 2016 (as amended prior to the date hereof), among P&L Receivables Company, LLC, as the seller, the Company, as the servicer, the sub-servicers party thereto, the various purchasers and purchaser agents party thereto and PNC Bank, National Association, as administrator, in order to, among other things, (i) increase the purchase limit to an amount not to exceed \$250.0 million, (ii) extend the facility termination date, and (iii) add certain Australian subsidiaries of the Company as originators.

The Rights Offering, the Backstop Commitment Agreement and the Private Placement

The Plan contemplates two separate capital raises through the sale of equity interests in the Reorganized Company. First, the Plan provides for a \$750 million rights offering (the "Rights Offering") pursuant to which all holders of allowed Second Lien Notes Claims and specified allowed General Unsecured Claims (including unsecured notes claims) as of January 27, 2017 received subscription rights to purchase units consisting of (a) shares of Reorganized Peabody Common Stock and (b) penny warrants exercisable for 2.5% of the fully diluted Reorganized Peabody Common Stock on the Effective Date (after giving effect to the reservation and deemed issuance of shares of common stock for issuance upon the conversion of the Series A Convertible Preferred Stock (as defined below), but subject to dilution by the shares of common stock to be issued pursuant to the LTIP (as defined below) and any post-Effective Date issuance of capital stock). The purchase price for the units in the Rights Offering will be 55% of the Plan Equity Value (as defined in the Plan) of the shares of Reorganized Peabody Common Stock that are to be issued in connection with the exercise of the subscription rights in the Rights Offering. Pursuant to the backstop commitment agreement, dated as of December 22, 2016 (as amended, the "Backstop Commitment Agreement"), among the Company and the other parties thereto (collectively, the "Backstop Parties") previously disclosed on the Company's Current Report on Form 8-K filed with the SEC on December 23, 2016, the Backstop Parties have agreed to backstop 100% of the Rights Offering on the terms set forth in the Backstop Commitment Agreement.

Second, the Plan contemplates raising an additional \$750 million through the sale of shares of a series of new mandatory convertible preferred stock of the Reorganized Company (the "Series A Convertible Preferred Stock") in a private offering (the "Private Placement"). Pursuant to the private placement agreement, dated as of December 22, 2016 (as amended, the "Private Placement Agreement"), among the Company and the other parties thereto (collectively, the "Private Placement Parties") previously disclosed on the Company's Current Report on Form 8-K filed with the SEC on

December 23, 2016, the Private Placement Parties have agreed to purchase the

Series A Convertible Preferred Stock at a purchase price equal to the Plan Equity Value per share of Reorganized Peabody Common Stock. Each share of Series A Convertible Preferred Stock will be convertible into shares of Reorganized Peabody Common Stock at a conversion ratio reflecting a 35% discount to the Plan Equity Value per share of Reorganized Peabody Common Stock, which ratio will be subject to adjustment as set forth in the certificate of designation for the Series A Convertible Preferred Stock included as part of Exhibit IV.H.1.a to the Plan. The aggregate purchase price for the shares of Series A Convertible Preferred Stock to be issued and sold in the Private Placement is \$750 million. The Series A Convertible Preferred Stock will have a dividend rate of 8.5% per annum, payable semi-annually in kind as a dividend of additional shares of Series A Convertible Preferred Stock and will have a liquidation preference, optional and mandatory conversion provisions, anti-dilution protection, voting rights and certain other terms and conditions as set forth in the certificate of designation for the Series A Convertible Preferred Stock.

Long Term Incentive Plan

Pursuant to the Plan, the Reorganized Company will adopt a long-term incentive plan (LTIP). The LTIP will provide for a pool of 10% of the fully diluted equity of the Reorganized Company (after giving effect to the exercise of the penny warrants and the conversion of the Series A Convertible Preferred Stock). Of this amount, 25.8% will be granted to employees and executives in connection with the Effective Date in the form of restricted stock or units. The material terms of the LTIP are set forth in Exhibit I.A.146 to the Plan.

Equity Securities to be Authorized, Issued and Reserved for Issuance After Emergence

As of March 1, 2017, the Company had 18,491,188 shares of common stock, par value \$0.01 per share, issued and outstanding. On the Effective Date, all outstanding shares of the Company's common stock will be cancelled and extinguished, and any rights of any holder in respect thereof will be deemed cancelled, discharged and of no force or effect. The New Certificate of Incorporation will authorize the issuance of 450,000,000 shares of Reorganized Peabody Common Stock and 100,000,000 shares of preferred stock, par value \$0.01 per share, of the Reorganized Company, of which 50,000,000 shares will be designated as Series A Convertible Preferred Stock.

On the Effective Date, the Reorganized Company will issue or reserve for issuance shares of Reorganized Peabody Common Stock for distribution in accordance with the Plan. Pursuant to the Plan, on the Effective Date 71,836,154 shares of Reorganized Peabody Common Stock and 30,000,000 shares of Series A Convertible Preferred Stock will be issued. The Reorganized Company will also reserve for issuance a sufficient number of shares to be issued pursuant to the exercise of the penny warrants, the payment of dividends on the Series A Convertible Preferred Stock, the conversion of the Series A Convertible Preferred Stock and awards granted under the LTIP.

Treatment of Executory Contracts or Unexpired Leases

On the Effective Date, pursuant to sections 365 and 1123 of the Bankruptcy Code, each executory contract and unexpired lease to which any Debtor is a party shall be deemed automatically rejected by the Debtors, except for any executory contract or unexpired lease that (i) has been assumed or rejected pursuant to an order of the Bankruptcy Court entered before the Effective Date, (ii) is the subject of a motion to assume or reject pending on the Effective Date, (iii) is assumed, rejected or otherwise treated pursuant to Article III of the Plan, or (iv) is listed on Exhibit III.A.1 of the Plan.

Cautionary Note Regarding Forward-Looking Statements

This Current Report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements that relate to the intent, beliefs, plans or expectations of Peabody Energy or its management at the time of this Current Report, as well as any estimates or projections for the outcome of events that have not yet occurred at the time of this Current Report. All statements other than statements of historical fact are forward-looking statements. Forward-looking statements include expressions such as believe, anticipate, expect, estimate, intend, may, plan, predict, will and similar terms and expressions. All forward-looking statements made by Peabody Energy are predictions and not guarantees of future performance and are subject to various risks, uncertainties and factors relating to Peabody Energy's operations and business environment, and the progress of its Chapter 11 Cases, all of which are difficult to predict and many of which are beyond Peabody Energy's control. These risks, uncertainties and factors could cause Peabody Energy's actual results to differ materially from those matters expressed in or implied by these forward-looking statements. Such factors include, but are not limited to: those described under the Risk Factors section and elsewhere in Peabody Energy's most recently filed Annual Report on Form 10-K and subsequent filings with the SEC, including its Quarterly Reports on Form 10-Q for the quarters ended March 31, 2016 and June 30, 2016, which are available on Peabody Energy's website at www.peabodyenergy.com and on the SEC's website at www.sec.gov, such as unfavorable economic, financial and business conditions, as well as risks and uncertainties relating to the Chapter 11 Cases. Factors that could affect Peabody Energy's results or an investment in its securities include, but are not limited to:

Factors related to our Chapter 11 Cases

Peabody Energy's ability to consummate the Plan;

the effects of the Chapter 11 Cases on Peabody Energy's operations, including customer, supplier, banking, insurance and other relationships and agreements;

bankruptcy court rulings in the Chapter 11 Cases as well as the outcome of all other pending litigation and the outcome of the Chapter 11 Cases in general;

the length of time that Peabody Energy will operate under Chapter 11 protection and the continued availability of operating capital during the pendency of the proceedings;

risks associated with third-party motions in the Chapter 11 Cases, which may interfere with Peabody Energy's ability to consummate the Plan and restructuring generally;

Peabody Energy's ability to continue as a going concern including its ability to consummate the Plan;

the risk that the Plan does not become effective, in which case there can be no assurance that the Chapter 11 Cases will continue rather than be converted to chapter 7 liquidation cases or that any alternative plan of reorganization would be on terms as favorable to holders of claims and interests as the terms of the Plan;

Peabody Energy's ability to use cash collateral and the possibility that Peabody Energy may be required to post additional cash collateral to secure its obligations;

the effect of the Chapter 11 Cases on Peabody Energy's relationships with third parties, regulatory authorities and employees;

the potential adverse effects of the Chapter 11 Cases on Peabody Energy's liquidity, results of operations, or business prospects;

Peabody Energy's ability to execute its business and restructuring plan;

increased administrative and legal costs related to the Chapter 11 Cases and other litigation and the inherent risks involved in a bankruptcy process;

the cost, availability and access to capital and financial markets, including the ability to secure new financing after emerging from the Chapter 11 Cases;

the risk that the Chapter 11 Cases will disrupt or impede Peabody Energy's international operations, including its business operations in Australia;

Other factors

competition in the energy market and supply and demand for Peabody Energy's products, including the impact of alternative energy sources, such as natural gas and renewables;

global steel demand and the downstream impact on metallurgical coal prices, and lower demand for coal products by electric power generators;

Peabody Energy's ability to successfully consummate planned divestitures, including the planned sale of all of its equity interests in Metropolitan Collieries Pty Ltd, the entity that owns the Metropolitan coal mine in New South Wales, Australia;

Peabody Energy's ability to appropriately secure its requirements for reclamation, federal and state workers compensation, federal coal leases and other obligations related to its operations, including its ability to utilize self-bonding and/or successfully access the commercial surety bond market;

customer procurement practices and contract duration;

the impact of weather and natural disasters on demand, production and transportation;

reductions and/or deferrals of purchases by major customers and Peabody Energy's ability to renew sales contracts;

geologic, equipment, permitting, site access, operational risks and new technologies related to mining;

transportation availability, performance and costs;

availability, timing of delivery and costs of key supplies, capital equipment or commodities such as diesel fuel, steel, explosives and tires;

impact of take-or-pay arrangements for rail and port commitments for the delivery of coal;

successful implementation of business strategies, including, without limitation, the actions Peabody Energy is implementing to improve its organization;

negotiation of labor contracts, employee relations and workforce availability, including, without limitation, attracting and retaining key personnel;

Peabody Energy's ability to comply with financial and other restrictive covenants in various agreements, including the credit facility proposed in connection with the Plan;

changes in postretirement benefit and pension obligations and their related funding requirements;

replacement and development of coal reserves;

effects of changes in interest rates and currency exchange rates (primarily the Australian dollar);

effects of acquisitions or divestitures;

economic strength and political stability of countries in which Peabody Energy has operations or serves customers;

terrorist attacks or security threats, including, but not limited to, cybersecurity breaches;

impacts of pandemic illnesses; and

other risks and factors, including those described under the "Risk Factors" section and elsewhere in Peabody Energy's most recently filed Annual Report on Form 10-K and subsequent filings with the SEC including its Quarterly Reports on Form 10-Q for the quarters ended March 31, 2016 and June 30, 2016.

Forward-looking statements made by Peabody Energy in this Current Report, or elsewhere, speak only as of the date on which the statements were made. New risks and uncertainties arise from time to time, and it is not

possible for Peabody Energy to predict all of these events or how they may affect it or its anticipated results. Peabody Energy does not undertake any obligation to publicly update any forward-looking statements except as may be required by law. In light of these risks and uncertainties, readers should keep in mind that the events referenced by any forward-looking statements made in this Current Report may not occur and should not place undue reliance on any forward-looking statements.

The Plan provides that Peabody Energy equity securities will be canceled and extinguished on the Effective Date of the Plan by the Bankruptcy Court, and that the holders thereof would not be entitled to receive, and would not receive or retain, any property or interest in property on account of such equity interests. The Plan also sets forth the proposed recoveries for Peabody Energy's other securities. Trading prices for Peabody Energy's equity or other securities may bear little or no relationship during the pendency of the Chapter 11 Cases to the actual recovery, if any, by the holders thereof at the conclusion of the Chapter 11 Cases. In the event of cancellation of Peabody Energy equity securities, as contemplated by the Plan, amounts invested by the holders of such securities would not be recoverable and such securities would have no value. Accordingly, Peabody Energy urges caution with respect to existing and future investments in its equity or other securities.
