### **Item 3.03. Material Modification to Rights of Security Holders.**

On January 5, 2018, Sempra Energy (the Company) filed a Certificate of Determination (the Certificate of Determination) with the Secretary of State of the State of California to establish the designations, privileges, preferences, rights and restrictions of its 6% Mandatory Convertible Preferred Stock, Series A (the Mandatory Convertible Preferred Stock). The Certificate of Determination became effective on the date of its filing, and a copy is filed as Exhibit 3.1 hereto, and is incorporated herein by reference.

Subject to certain exceptions, so long as any share of Mandatory Convertible Preferred Stock remains outstanding, no dividend or distribution shall be declared or paid on the Company's common stock or any other junior stock, and no common stock or any other junior stock shall be purchased, redeemed or otherwise acquired for consideration by the Company or any of the Company's subsidiaries unless, in each case, all accumulated and unpaid dividends for all preceding dividend periods have been declared and paid, or a sufficient sum of cash or number of shares of the Company's common stock has been set apart for the payment of such dividends, on all outstanding shares of Mandatory Convertible Preferred Stock. In the event that dividends have not been paid for six or more dividend periods, whether or not consecutive, the holders of the Mandatory Convertible Preferred Stock, voting together as a single class (with holders of any and all other preferred stock of equal rank having similar voting rights then outstanding), shall have the right to elect two directors to fill two newly created directorships. This right shall terminate when all accumulated dividends have been paid in full and the authorized number of directors shall automatically decrease by two, subject to the revesting of that right in the event of each subsequent nonpayment.

In addition, upon the Company's voluntary or involuntary liquidation, winding-up or dissolution, each holder of the Mandatory Convertible Preferred Stock will be entitled to receive a liquidation preference in the amount of \$100.00 per share of the Mandatory Convertible Preferred Stock, plus an amount equal to accumulated and unpaid dividends on such shares to, but excluding, the date fixed for liquidation, winding-up or dissolution to be paid out of the Company's assets legally available for distribution to the Company's stockholders, after satisfaction of debt and other liabilities owed to the Company's creditors and holders of shares of any senior stock and before any payment or distribution is made to holders of junior stock (including the Company's common stock).

The terms of the Mandatory Convertible Preferred Stock, including such restrictions, are more fully described in the Certificate of Determination and below under Item 5.03.

### **Item 5.03. Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year.**

To the extent required by Item 5.03 of Form 8-K, the information regarding the Certificate of Determination contained in Item 3.03 of this report is incorporated by reference herein. The expected dividend payable on the first dividend payment date on April 15, 2018 is \$1.60 per share. Each subsequent dividend is expected to be paid quarterly at the rate of \$1.50 per share, with dividend payment dates occurring on January 15, April 15, July 15 and October 15 of each year. The Mandatory Convertible Preferred Stock will convert into common stock on the mandatory conversion date, which is expected to be January 15, 2021, at conversion rates set forth in the Certificate of Determination. As set forth in the Certificate of Determination, the Mandatory Convertible Preferred Stock may be converted into common stock prior to the mandatory conversion date at the option of the holders thereof. If the proposed acquisition (the Merger) of Energy Future Holdings Corp. (EFH), including its indirect ownership interest in 80.03% of the outstanding membership interests in Oncor Electric Delivery Company LLC (Oncor), by Sempra Energy has not closed on or before December 1, 2018, the related merger agreement is terminated or the Company determines in its reasonable judgment that the Merger will not occur, the Company may, at its option, redeem all of the outstanding shares of the Mandatory Convertible Preferred Stock at the redemption price set forth in the Certificate of Determination. Except as required by California law or as described in Item 3.03 of this report and the Certificate of Determination, the Mandatory Convertible Preferred Stock will not have voting rights.

the timing and success of business development efforts and construction projects, including risks in obtaining or maintaining permits and other authorizations on a timely basis, risks in completing construction projects on schedule and on budget, and risks in obtaining the consent and participation of partners; the resolution of civil and criminal litigation and regulatory investigations; deviations from regulatory precedent or practice that result in a reallocation of benefits or burdens among shareholders and ratepayers; modifications of settlements; delays in, or disallowance or denial of, regulatory agency authorizations to recover costs in rates from customers (including with respect to regulatory assets associated with the San Onofre Nuclear Generating Station facility and 2007 wildfires) or regulatory agency approval for projects required to enhance safety and reliability; the availability of electric power, natural gas and liquefied natural gas, and natural gas pipeline and storage capacity, including disruptions caused by failures in the transmission grid, moratoriums or limitations on the withdrawal or injection of natural gas from or into storage facilities, and equipment failures; changes in energy markets; volatility in commodity prices; moves to reduce or eliminate reliance on natural gas; the impact on the value of our investment in natural gas storage and related assets from low natural gas prices, low volatility of natural gas prices and the inability to procure favorable long-term contracts for storage services; risks posed by actions of third parties who control the operations of our investments, and risks that our partners or counterparties will be unable or unwilling to fulfill their contractual commitments; weather conditions, natural disasters, accidents, equipment failures, computer system outages, explosions, terrorist attacks and other events that disrupt our operations, damage our facilities and systems, cause the release of greenhouse gases, radioactive materials and harmful emissions, cause wildfires and subject us to third-party liability for property damage or personal injuries, fines and penalties, some of which may not be covered by insurance (including costs in excess of applicable policy limits) or may be disputed by insurers; cybersecurity threats to the energy grid, storage and pipeline infrastructure, the information and systems used to operate our businesses and the confidentiality of our proprietary information and the personal information of our customers and employees; capital markets and economic conditions, including the availability of credit and the liquidity of our investments; fluctuations in inflation, interest and currency exchange rates and our ability to effectively hedge the risk of such fluctuations; the impact of changes in the tax code as a result of recent federal tax reform and uncertainty as to how certain of those changes may be applied; actions by rating agencies to downgrade credit ratings of us or our subsidiaries or to place these ratings on negative outlook; changes in foreign and domestic trade policies and laws, including border tariffs, revisions to international trade agreements, such as the North American Free Trade Agreement, and changes that make our exports less competitive or otherwise restrict our ability to export or resolve trade disputes; the ability to win competitively bid infrastructure projects against a number of strong and aggressive competitors; expropriation of assets by foreign governments and title and other property disputes; the impact on reliability of San Diego Gas & Electric Company's (SDG&E) electric transmission and distribution system due to increased amount and variability of power supply from renewable energy sources; the impact on competitive customer rates due to the growth in distributed and local power generation and the corresponding decrease in demand for power delivered through SDG&E's electric transmission and distribution system and from possible departing retail load resulting from*

*customers transferring to Direct Access and Community Choice Aggregation or other forms of distributed and local power generation, and the potential risk of nonrecovery for stranded assets and contractual obligations; and other uncertainties, some of which may be difficult to predict and are beyond our control.*

*Additional forward-looking statements include, but are not limited to, statements about the completion of the Merger and other statements that are not historical facts. Additional factors that could cause actual results and future actions to differ materially from those described in any such forward-looking statements include risks and*

*uncertainties relating to: the risk that Sempra Energy, EFH or Oncor may be unable to obtain bankruptcy court and governmental and regulatory approvals required for the Merger, or that required bankruptcy court and governmental and regulatory approvals may delay the Merger or result in the imposition of conditions that could cause the parties to abandon the transaction or be onerous to Sempra Energy; the risk that a condition to closing of the Merger may not be satisfied; the risk that the transaction may not be completed for other reasons, or may not be completed on the terms or timing currently contemplated; the risk that the anticipated benefits from the transaction may not be fully realized or may take longer to realize than expected; the risk that Sempra Energy may be unable to obtain the external financing necessary to pay the consideration and expenses related to the Merger on terms favorable to Sempra Energy, if at all; the risk that, if the Merger is completed, Oncor's results of operations after the Merger will not be consistent with our expectations or that its capital investment spending will be less than anticipated; disruption from the transaction making it more difficult to maintain relationships with customers, employees or suppliers; the diversion of management time and attention to Merger-related issues; and related legal, accounting and other costs, whether or not the Merger is completed; and the risk that Oncor will eliminate or reduce its quarterly dividends due to its requirement to meet and maintain its new required regulatory capital structure, or because any of the three major credit rating agencies rates its senior secured debt securities below BBB (or its equivalent) or its independent directors determine it is in the best interest of Oncor to retain such amounts to meet future capital expenditures.*

*These risks and uncertainties are further discussed in the reports that Sempra Energy has filed with the SEC. These reports are available through the EDGAR system free-of-charge on the SEC's website, [www.sec.gov](http://www.sec.gov). Investors should not rely unduly on any forward-looking statements.
