CME Group Class B-1 Board Member

**Dear fellow shareholder,**

Thank you all for your support and help in last year's election. I now ask for your continued support as I hope to continue to serve as a Class B-1 Director on the CME Group board. It has been insightful and gratifying meeting many of you this past year and better understanding your concerns.

In order for CME Group to continue leading the industry with conviction and integrity, it must continue to be the exchange of choice for its members and customers, so they can manage their risks, and adjust their underlying exposures in the most efficient way.

To do so, in my opinion, CME Group should:

**Keep the right balance between shareholders' returns and ensuring CME Group's offerings are designed to deepen liquidity and grow customer participation**

I believe CME Group must remain aware of the fact that its value to a large degree is directly linked to the success, diversity and breadth of its members and customers. To maintain and build on this success, CME Group should be cautious of sacrificing long term value for short term gains.

**Preserve an even playing field for all participants, small and large**

In order to avoid concentration risk, I believe CME Group must spread its customer base as wide as possible; making sure that new and small participants can always access the markets in a cost efficient manner. In my opinion, CME Group should continue to remember that no big customer started out big.

**Invest in liquidity, not just in volumes**

The ability to execute large orders quickly and efficiently by hedgers, portfolio managers, and risk managers, is owed mostly to liquidity providers, who generate their profits by taking the risk others are seeking to dispose of. In my opinion, CME Group must make sure that this vital part of the industry is not shrinking, and keep in mind that the sensitivity of this market segment is more to the cost of trading than the capital efficiencies.

**Continue to lead the marketplace with innovation**

CME Group must keep devising new products and tools to meet the requirements of an ever shifting and changing global environment. CME Group needs to understand and accept that non-traditional sources of competition are likely to emerge over the coming years that can challenge its business model. And with that, CME Group needs to realize that the only way to respond will be through continuous transformation of the exchange.

My experience in global business development and management during my 40 years in the derivatives industry, along with my extensive knowledge in trading and clearing, will allow me to be a contributing member of the CME Group board. I intend to continue to ensure that CME Group continues to be the exchange of choice for participants around the world.

**Thank you, and please vote for me as a B-1 board member.**

Sincerely,

Dear Fellow Class B-2 Shareholder:

Once again, I seek your support and vote for the election to the Board of Directors of CME Group Inc.

I have had the privileged opportunity to serve as your elected Class B-2 Board member for the past fifteen years on the CME Group Board of Directors. The past few years have been challenging with only a mild recovery in the credit markets, regulatory and legislative issues, and excessive government regulations.

As we enter a new year, many of the global economic problems are still working their way through the system. As we go forward, I feel that we are well positioned to be the product of choice for institutions, speculators, funds, and investors. Our diverse product mix will allow CME Group to lead the way as the economy recovers.

Now is not the time to rest on our past laurels. It is the time for us to take stock of what we have accomplished and build from there. We need to address the following issues:

**Principal Trading Groups (PTG)** We need to continue to promote our ability to grow organically. PTGs accounted for a significant amount of the exchange's liquidity the past few years, but more growth is still needed.

**Hedge and Mutual Funds** We need to continue to market to hedge and mutual funds emphasizing our transparency and central counterparty clearing to restore confidence in the financial markets to their clients.

**Global Positioning** Through our strategic partnerships around the world we are in a strong position to take advantage of a new wave of customers and international products.

**Legislative Issues** More than ever, it is important to tell our story to Congress. I have served as Vice-Chairman of the CME PAC and have hosted many of the Congressional visits through the past years. The transaction tax, position limits, allegations of speculators causing volatility and the threat to losing 60/40 tax treatment will be more pressing than ever before.

During my service on the Board, I always attempted to be open-minded, logical, rational, and above all fair. My previous terms on the Board and many various committees have given me the experience and leadership qualities required for the position (see attached resume). I pledge to you my time, dedication, and commitment to serving CME Group. I will continue to live in the city during the week for the term of the directorship. This will make me accessible to you, the shareholder, at any time of the day or night. I can be reached by phone at 312-604-6114 or cell at 312-714-5907.

Dear IMM Member/Class B-2 Shareholder,

In times of upheaval and uncertainty it is imperative to have solid, experienced leadership with forward-looking vision, influence, and the ability to execute initiatives crucial to our business. An effective leader is unafraid to voice a dissenting opinion and fight for what he believes is right. In the years I have known him, David J. Wescott has continuously proven himself to be such a leader with his incredible dedication, tireless hard work, industry insight and fierce loyalty to his clients, constituents, employees, and friends.

I have known David Wescott since 1982, when we were young traders on the CME floor and I also had the privilege of serving on the CME board with David for four years during the 1990s. I have continued my relationship with him throughout the ensuing years and cleared the trades of my own trading firm through Dowd-Wescott Group, the precursor clearing firm to David's current clearing firm, DWG Futures. In my now 30+ year relationship with David Wescott, I have found him to be incisive, creative, and results-oriented. David has never been in favor of the status quo; his capacity for reinvention and constant drive to innovate, combined with his capability to anticipate trends, is an invaluable asset to the future of CME Group.

We all know how quickly our business moves. Yesterday's losses may be tomorrow's gains if we make the right decisions today. I have absolute confidence that David's leadership is a step toward a prosperous future. I hope you will join me in supporting David Wescott in his bid to serve as our elected Class B-2 director on the CME Group Board of Directors by voting for his re-election.

Sincerely,

David Silverman

Dear IMM Member/Class B-2 Shareholder,

In times of upheaval and uncertainty it is imperative to have solid, experienced leadership with forward-looking vision, influence, and the ability to execute initiatives crucial to our business. An effective leader is unafraid to voice a dissenting opinion and fight for what he believes is right. In the years I have known him, David J. Wescott has continuously proven himself to be such a leader with his incredible dedication, tireless hard work, industry insight and fierce loyalty to his clients, constituents, employees, and friends.

I have known David Wescott since 1982, when we were young traders on the CME floor and I also had the privilege of serving on the CME board with David for four years during the 1990s. I have continued my relationship with him throughout the ensuing years and cleared the trades of my own trading firm through Dowd-Wescott Group, the precursor clearing firm to David's current clearing firm, DWG Futures. In my now 30+ year relationship with David Wescott, I have found him to be incisive, creative, and results-oriented. David has never been in favor of the status quo; his capacity for reinvention and constant drive to innovate, combined with his capability to anticipate trends, is an invaluable asset to the future of CME Group.

We all know how quickly our business moves. Yesterday's losses may be tomorrow's gains if we make the right decisions today. I have absolute confidence that David's leadership is a step toward a prosperous future. I hope you will join me in supporting David Wescott in his bid to serve as our elected Class B-2 director on the CME Group Board of Directors by voting for his re-election.

Sincerely,

David Silverman

Dear Fellow Members and Class B Shareholders,

For the last 45 years I have been an executive who has been involved in day-to-day operations, long term planning and mentoring future managers and traders. During those years, I've held various upper level management positions at Merrill Lynch, Hennessy Associates/Barnes, Globex Corp., Transmarket, Mizuho, Advantage Futures and currently as Senior VP at Wedbush. I bring 50+ years of futures and option experience from chalk boards to fiber to microwave. My strengths lie in streamlining and automating operations, and in building a strong diverse customer base while interacting with the trading community on a daily basis. In order to continue to grow volume and generate overall shareholder value, we need to be an advocate for our most precious commodities - our customers, our Exchange members and our FCMs. I feel honored to be nominated to serve as a Class B-2 Director on the Board of CME Group. This industry and this exchange has been my life and I would be a benefit on the board by sharing my accumulated knowledge.

My experience at Globex Corp. has given me a unique perspective of both sides of the electronic trading coin. I have been able to see how the ever increasing sophistication of trading platforms can impact the ability of the Globex system to perform its function. On the other side, I've seen the implications to the users of those platforms when the Exchange imposes new rules and restrictions. My main objective is to help CME Group and the members/FCMs work together to create a harmonious relationship for the betterment of everyone involved.

Some of the issues I feel need to be addressed are listed below:

***Fee Structure*** Evaluate the fee structure to analyze the fee to tick size ratio and its impact on trading volume and liquidity.

***Regulatory Obligations*** Discuss ways to help FCM's individual traders and 106J firms alleviate some of the regulatory burdens through education and training of the rules (i.e. spoofing, etc.). Knowledge driving compliance versus disciplinary actions! Find ways to leverage the investment for member firms.

***Foster Trader Loyalty*** With new exchanges competing for traders, there is a need to create an atmosphere where the trader feels his concerns are being taken seriously by CME Group and where. CUSTOMERS MEAN EVERYTHING

***New Trader Development*** Propose the formation of a job training program. In the past we had the MID America Exchange as a feeder and members at the CME and CBOT mentored their clerks to provide an opportunity for them to become traders. This program would be conducted by veteran traders with a focus on tutoring those underrepresented in this industry, such as military vets, disadvantaged youths and other qualified individuals. The exchange was built by a diverse group and should continue this legacy. Upon completion of the training program they would be available to be recruited as traders as well as qualifying for jobs in operations, risk, and sales.

I have only touched upon the above points that I feel need further discussion. My hope is that I will be able to expound on these and other topics as an elected member of the Board of Directors for CME Group.

Sincerely yours,

James Zellinger

March 2018

Dear Fellow Class B-3 Shareholder,

It has been an incredible year for CME Group, I am honored to have served a third term as your Class B-3 Director.

You will soon receive your Class B-3 share proxy materials for the upcoming election and I would appreciate your renewed support. By voting for me, you will be choosing a skilled leader with over 39 years of industry experience who understands your interests and will continue to be an effective contributor to the Board.

CME Group had a very strong 2017; reaching record highs in our stock price, a record ADV of 16.3 mil contracts reflecting a 4.1 % increase from 2016 and with options on futures seeing an 11% increase. Since 1985, I have owned three companies specializing in options on futures this is a key area of my expertise. I am the best candidate for the Board because options on futures are fundamental to the growth of our exchange.

My accomplishments on the Board have been, and I will continue to focus on:

Overseeing the enhancements and effectiveness of CME Group's information security program to address the ever-increasing cyber security risks as an appointed member of the Board's Risk Committee.

Keeping a trained and watchful eye on Exchange fees and costs to stay competitive in the global marketplace.

I have been an equity owner since 1983 and one of the few female members of the CME Group. Since 1988, I have been actively involved in improving CME Group's operating environment as a member of numerous committees. Currently, I serve on the Board's Risk Committee and co-chair of Arbitration and Floor Conduct. I am also an active member of Probable Cause, Business Conduct, CME PAC, Membership and Gratuity Fund.

In addition to my trading and service on the CME Group Board, I am on the Board of Directors for Women in Listed Derivatives and a Governance Fellow at National Association of Corporate Directors. Additionally, I volunteer for

Honor Flight Chicago, Navy Seal Foundation and the ALS Association, which demonstrates not only my commitment to the financial industry but also my support of the overall community.

I thank you for the support and encouragement I've received during my three terms on the CME Group Board of Directors, and I look forward to serving you again. Please feel free to reach out to me with any questions, or to discuss any issues in greater detail.

Please secure our CME Group's future by casting your vote at [www.proxyvote.com](http://www.proxyvote.com).

Sincerely,
