Item 8.01 Other Events.

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Act") was enacted. Section 1503 of the Act contains new reporting requirements regarding mine safety, including disclosing on a Current Report on Form 8-K the receipt of an imminent danger order under section 107(a) of the Federal Mine Safety and Health Act of 1977 (the "Mine Act") issued by the federal Mine Safety and Health Administration ("MSHA").

On September 28, 2010, Caballo Coal LLC, a subsidiary of Peabody Energy Corporation, received an imminent danger order under section 107(a) of the Mine Act alleging that portions of the highwall at the Rawhide Mine appeared to be unstable and that an access road was too narrow. In response to the order, mine personnel completed the work the inspector requested and the order was promptly terminated. Peabody does not believe that the conditions at the mine constituted an imminent danger and intends to vigorously contest the order.
