Item 2.05 Costs Associated With Exit or Disposal Activities.

On June 26, 2018, SS&C Technologies Holdings, Inc. (the “Company”) approved a plan which is expected to result in a reduction in headcount of approximately 900 employees of DST Systems, Inc. and its subsidiaries (“DST”) in connection with integration efforts relating to the April 2018 acquisition of DST by the Company.

Pre-tax charges associated with the reduction in headcount are estimated to total approximately \$60 to \$70 million, primarily consisting of severance and related expenses. The majority of the charge is expected to be incurred in the second quarter of 2018. Approximately \$55 to \$60 million of the total charge is estimated to result in cash expenditures, the vast majority of which will be paid in 2018. The remainder of the estimated charge is the result of the acceleration of expense of share-based payment awards. The majority of the positions eliminated in the reduction in force were effective in June 2018 and the reduction is expected to be complete by December 2018.
