Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
The Ford Motor Company Savings and
Stock Investment Plan for Salaried Employees

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits, present fairly, in all material respects, the net assets available for benefits of Ford Motor Company Savings and Stock Investment Plan for Salaried Employees (the "Plan") at December 30, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 30, 2004 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 3 to the financial statements, the accompanying 2003 financial statements have been restated to present the Plan's investments as holdings in the Ford Defined Contribution Plans Master Trust, rather than as direct holdings of the Plan.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Assets Held at End of Year as of December 30, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Investment Plan for Salaried Employees
Notes to Financial Statements
December 30, 2004 and 2003

1. Description of the Plan

The following description of the Ford Motor Company Savings and Stock Investment Plan for Salaried Employees (the "Plan") provides only general information. The Plan was established effective February 1, 1956. Participants should refer to the provisions of the Plan that are governed in all respects by the detailed terms and conditions contained in the Plan document.

Type and Purpose of the Plan

The Plan is a defined contribution plan established to encourage and facilitate systematic savings and investment by eligible salaried employees of Ford Motor Company (the "Company") and to provide them with an opportunity to become stockholders of the Company. The Plan includes provisions for voting shares of Company stock. It is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") applicable to defined contribution pension plans.

Eligibility

With certain exceptions, regular full-time salaried employees are eligible to participate in the Plan on the first day of the second month following the original date of hire. Any applicable Company matching contributions, however, will be provided after twelve months of service. Certain other part-time and temporary employees also may be eligible to participate in the Plan. Participation in the Plan is voluntary.

Edgar Filing: FORD MOTOR CO - Form 11-K

Contributions

Participants can contribute to the Plan on both a pretax and after-tax basis. Effective April 2004, under the Plan, and subject to limits required by the Internal Revenue Code ("IRC"), participants may elect to contribute up to an aggregate 50% of their eligible wages on pretax and/or after-tax basis. Participants may also elect to contribute all, or a portion of their distributions under the Company's Performance Bonus Plan, Ford Financial (Annual) Variable Incentive Plan, and Flexible Compensation Account. A contribution in an amount corresponding to each election is made by the Company to the Plan on the participant's behalf. Subject to IRC limits, pretax contributions are excluded from the participant's federal and most state and local taxable income.

Effective July 1, 2004, the Company reinstated matching contributions at a rate of \$.60 for each dollar contributed up to 5% of participants' base salary. Company matching contributions are subject to forfeiture if participants terminate employment before they are vested. All Company matching contributions initially are invested in the Ford Stock Fund and there are no restrictions on the participant's ability to exchange out of the Ford Stock Fund. Contributions to the Pretax Program from the Performance Bonus Plan, Ford Financial (Annual) Variable Incentive Plan and the Flexible Compensation Account Program are not eligible for the Company match.

Subject to Ford Motor Company approval, participants may elect to roll over amounts from other qualifying plans or arrangements in accordance with the Internal Revenue Code. For the year ended December 30, 2004, transfers from other qualifying plans or arrangements amounted to \$7,702,210, which are included in employee contributions in the Statement of Changes in Net Assets Available for Plan Benefits.

Investment Plan for Salaried Employees
Notes to Financial Statements
December 30, 2004 and 2003

Activity for participants in the Ford Stock Fund who have elected to receive dividends paid in the form of cash instead of purchasing additional shares is reported in the Statement of Changes in Net Assets Available for Benefits.

Participant Accounts

A participant's account balance is comprised of their contributions, Company contributions, if any, and investment income earned from the individual investment options selected by the participant. Certain investment options will charge a fee on short-term transfers which is paid from the participant's account. The benefit to which a participant is entitled is determined from the participant's vested account balance.

Vesting and Distribution

Participants are fully vested in account balances related to their pre-tax and after-tax contributions and earnings thereon. Pretax assets, after-tax assets and assets resulting from Company matching contributions are accounted for separately.

Company matching contributions vest three years after the original date

Edgar Filing: FORD MOTOR CO - Form 11-K

of hire. At that time, all assets attributable to Company matching contributions held in participants' accounts become vested, and all future contributions vest when they are made. In-service withdrawals of vested Company match contributions are permissible for participants who are at least 59-1/2 years of age. Withdrawal of such contributions for participants less than 59-1/2 years of age is limited to those contributions that have been in the Plan for two years following the end of the year in which the contributions were made.

Pretax assets may not be withdrawn by participants until the termination of their employment or until they reach 59-1/2 years of age, except in the case of personal financial hardship.

Unmatched after-tax assets can be withdrawn at any time without restriction. Withdrawal of matched after-tax assets that have been in the Plan for less than two years will result in a suspension from making contributions to the Plan for a period of 12 months.

Participants may transfer vested Company matching contributions into other available Master Trust investment options, subject to exchange restrictions imposed by the various investment options. Effective July 1, 2004, participants may transfer both vested and nonvested Company matching contributions.

Investment Contracts with Insurance Companies

The Interest Income Fund is a stable value investment option of the Master Trust comprised of short-term fixed income securities and insurance contracts that seek to preserve principal. There is no immediate recognition of investment gains and losses on the fixed income securities. Instead, the gain or loss is recognized over time by adjusting the interest rate credited to the fund under the contracts.

There were no reserves against contract value for credit risk of the contract issuer or otherwise during 2004 and 2003. The average yield and crediting interest rate was approximately 4.00% and 5.33% for 2004 and 2003, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on an annual basis for resetting.

Transfer of Assets

The Plan permits the transfer of assets among investment options held by the Master Trust, subject to certain trading restrictions imposed on some of the investment options.

Participant Loans

The Plan permits loans to participants from both their pretax and after-tax accounts. Monthly loan interest rates are based on the prime rate published in The Wall Street Journal on the last business day of the prior month.

6

Investment Plan for Salaried Employees
Notes to Financial Statements
December 30, 2004 and 2003

A participant is eligible to take out one loan per calendar year, and to have only four loans outstanding at any one time. Regular loans may be for a minimum of one year, but not exceeding five years. Home loans are for a period of ten years.

Participant loans are included in the Statements of Net Assets Available for Benefits. Loans that are considered to be in default by the Plan are reclassified as withdrawals.

Forfeitures and Plan Administration Expenses

The Plan permits the Company to use assets forfeited by participants to pay plan administrative expenses and, to the extent not used to pay such expenses, to reduce the Company's future contributions to the Plan. To the extent that forfeited assets are not available to pay certain administrative expenses, the Company pays such expenses directly. Administrative expenses paid by the Plan amounted to \$1,021,597 for the year ended December 30, 2004.

Edgar Filing: FORD MOTOR CO - Form 11-K

Related-Party Transactions

Certain Master Trust investment options are mutual funds and other investment products managed by Fidelity Management and Research Company, which is a wholly owned subsidiary of Fidelity Management and Research Corporation. Fidelity Management Trust Company, also a wholly owned subsidiary of Fidelity Management and Research Corporation is the trustee as defined by the Plan. Fidelity Institutional Operations Company, Inc., also a wholly owned subsidiary of Fidelity Management and Research Corporation, is the administrator for the Plan. Additionally, Barclays Global Investors and World Asset Management are paid investment management fees by the Company on behalf of the Plan. Fees paid to these entities for trustee, administrative and other fees qualify as related party transactions. Ford Motor Company paid trustee, administrative, and other fees of \$2,089,890 for the Plan year ended December 30, 2004.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments

The mutual funds and common/collective trust funds are at net asset value of the shares/units held. The investment in the Ford Stock Fund and the investments in all other funds, except the Interest Income Fund, are valued on the basis of quoted year-end market prices. The Interest Income Fund is stated at contract value, which approximates fair value. Contract value represents contributions made under the contracts, plus interest at the annual contract rate, less withdrawals paid out to participants. Participant loans are valued at cost, which approximates fair value. The average S&P and Moody's credit quality ratings for the underlying investments of the Interest Income Fund were AA+ and Aa1, respectively. The Common Stock Index Fund and the U.S. Extended Market Index Fund are stated at the aggregate market value of the individual collective pools included in each respective fund.

Investment Plan for Salaried Employees
Notes to Financial Statements
December 30, 2004 and 2003

Purchases and sales of investments by the Master Trust are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Income from other investments of the Master Trust is recorded as earned on an accrual basis.

Contributions

Contributions to the Plan from participants and from the Company and participating subsidiaries (as defined in the Plan) are recorded in the period that payroll deductions are made from Plan participants.

Payment of Benefits

Edgar Filing: FORD MOTOR CO - Form 11-K

Benefits are recorded when paid.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Master Trust's invested assets consist of Company stock, equity and fixed income mutual funds, equity and fixed income commingled institutional pools and stable value investments. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

3. The Master Trust

The Company determined that it is appropriate to present the Plan's investments as holdings in the Master Trust, rather than direct holdings of the Plan. Accordingly, the 2003 financial statements have been restated to conform with the 2004 presentation. There was no impact on the assets available for benefits.

The Company established the Master Trust pursuant to a trust agreement between the Company and Fidelity Management Trust Company, as trustee of the funds, in order to permit the commingling of trust assets of several employee benefit plans for investment and administrative purposes. The assets of the Master Trust are held by Fidelity Management Trust Company.
