For the fiscal year ended November 30, 2018

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission File Number: 0-15175

Adobe Inc.

(Exact name of registrant as specified in its charter)

Delaware 77-0019522
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

345 Park Avenue, San Jose, California 95110-2704
(Address of principal executive offices)
(408) 536-6000
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock, \$0.0001 par value per share	The NASDAQ Stock Market LLC (NASDAQ Global Select Market)

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Edgar Filing: ADOBE INC. - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of “large accelerated filer”, “accelerated filer”, “smaller reporting company”, and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒	Accelerated filer ☐	Non-accelerated filer ☐	Smaller reporting company ☐	Emerging growth company ☐
--	---	---	---	---

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒
The aggregate market value of the registrant’s common stock, \$0.0001 par value per share, held by non-affiliates of the registrant on June 1, 2018, the last business day of the registrant’s most recently completed second fiscal quarter, was \$96,776,869,889 (based on the closing sales price of the registrant’s common stock on that date). Shares of the registrant’s common stock held by each officer and director and each person who owns 5% or more of the outstanding common stock of the registrant have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes. As of January 18, 2019, 487,725,915 shares of the registrant’s common stock, \$0.0001 par value per share, were issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Proxy Statement for the registrant’s 2019 Annual Meeting of Stockholders (the “Proxy Statement”), to be filed within 120 days of the end of the fiscal year ended November 30, 2018, are incorporated by reference in Part III hereof. Except with respect to information specifically incorporated by reference in this Form 10-K, the Proxy Statement is not deemed to be filed as part hereof.

Forward-Looking Statements

In addition to historical information, this Annual Report on Form 10-K contains forward-looking statements, including statements regarding product plans, future growth, market opportunities, strategic initiatives, industry positioning, customer acquisition and retention, the amount of recurring revenue and revenue growth. In addition, when used in this report, the words “will,” “expects,” “could,” “would,” “may,” “anticipates,” “intends,” “plans,” “believes,” “targets,” “estimates,” “looks for,” “looks to,” “continues” and similar expressions, as well as statements regarding our focus for the future, are generally intended to identify forward-looking statements. Each of the forward-looking statements we make in this report involves risks and uncertainties that could cause actual results to differ materially from these forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in the section entitled “Risk Factors” in Part I, Item 1A of this report. You should carefully review the risks described herein and in other documents we file from time to time with the U.S. Securities and Exchange Commission (the “SEC”), including our Quarterly Reports on Form 10-Q to be filed in 2019. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this Annual Report on Form 10-K. We undertake no obligation to publicly release any revisions to the forward-looking statements or reflect events or circumstances after the date of this document, except as required by law.

PART I

ITEM 1. BUSINESS

Founded in 1982, Adobe Inc. (formerly Adobe Systems Incorporated) is one of the largest and most diversified software companies in the world. We offer a line of products and services used by creative professionals, marketers, knowledge workers, students, application developers, enterprises and consumers for creating, managing, delivering, measuring, optimizing, engaging and transacting with compelling content and experiences across personal computers, devices and media. We market our products and services directly to enterprise customers through our sales force and local field offices. We license our products to end users through app stores and our own website at www.adobe.com. We offer many of our products via a Software-as-a-Service (“SaaS”) model or a managed services model (both of which are referred to as hosted or cloud-based) as well as through term subscription and pay-per-use models. We also distribute certain products and services through a network of distributors, value-added resellers (“VARs”), systems integrators (“SIs”), independent software vendors (“ISVs”), retailers, software developers and original equipment manufacturers (“OEMs”). In addition, we license our technology to hardware manufacturers, software developers and service providers for use in their products and solutions. Our products run on personal and server-based computers, as well as on smartphones, tablets and other devices, depending on the product. We have operations in the Americas, Europe, Middle East and Africa (“EMEA”), and Asia-Pacific (“APAC”).

Adobe was originally incorporated in California in October 1983 and was reincorporated in Delaware in May 1997. Our executive offices and principal facilities are located at 345 Park Avenue, San Jose, California 95110-2704. Our telephone number is 408-536-6000 and our website is www.adobe.com. Investors can obtain copies of our SEC filings from this site free of charge, as well as from the SEC website at www.sec.gov. The information posted to our website is not incorporated into this Annual Report on Form 10-K.

BUSINESS OVERVIEW

For over 35 years, Adobe’s innovations have transformed how individuals, teams, businesses and governments interact. We help our customers create and deliver the most compelling experiences in a streamlined workflow and optimize those experiences for greater return on investment. Our solutions turn ordinary interactions into valuable digital experiences, across media and devices, anytime, anywhere.

While we continue to offer a broad portfolio of products, services, and solutions, we focus our investments in two strategic growth areas:

Digital Media—providing products, services and solutions that enable individuals, teams and enterprises to create, publish and promote their content anywhere. Our customers include content creators, web designers, app developers,

enthusiasts, and digital media professionals, as well as management in marketing departments and agencies, companies and publishers. Our customers also include knowledge workers who create, collaborate on and distribute documents. This is the core of what we have delivered for over 25 years, and we have evolved our business model to provide our customers with a range of flexible solutions that allow them to reach their full creative potential anytime, anywhere, on any device on projects of all types.

Digital Experience—providing enterprises and brands a comprehensive and integrated suite of products, services and solutions for creating, managing, executing, measuring and optimizing customer experiences that span from advertising to

Table of Contents

commerce. Our customers include marketers, advertisers, agencies, publishers, merchandisers, merchants, web analysts, data scientists, developers, marketing executives, information management executives, product development executives, and sales and support executives. Our robust Adobe Experience Platform provides enterprises and brands a profile that enables deep customer insights and personalized digital experiences delivered with our Adobe Experience Cloud solutions. By combining the creativity of our Digital Media business with the science of our Digital Experience offerings, we help our customers more efficiently and effectively make, manage, measure and monetize their content across channels and devices with an end-to-end workflow and feedback loop.

We believe we are uniquely positioned to be a leader in both the Digital Media and Digital Experience markets, where our mission is to change the world through digital experiences. By integrating products from each of these areas, our customers are able to utilize a comprehensive suite of solutions and services that no other company currently offers. In addition, our ability to deliver innovation and productivity improvements across customer workflows involving the creation, management, delivery, measurement and optimization of engaging content favorably positions Adobe as our customers continue investing in engaging their constituents digitally.

SEGMENTS

Our business is organized into three reportable segments: Digital Media, Digital Experience, and Publishing. These segments provide Adobe's senior management with a comprehensive financial view of our key businesses. Our segments are aligned around our two strategic growth opportunities described above, placing our Publishing business in a third segment that contains some of our mature products and solutions.

MARKET OVERVIEW

This overview provides an explanation of our markets and a discussion of strategic opportunities in fiscal 2019 and beyond for each of our segments. See "Results of Operations" within Part II, Item 7 titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" for further segment information.

Digital Media

Digital Media Opportunity

Recent technology trends in digital communications continue to provide a significant market opportunity for Adobe in digital media. In today's world where the velocity of creation and consumption of digital content is ever increasing, customers are looking for a way to meet demand with engaging online experiences. Adobe is in a strong position to capitalize on this opportunity by driving modernization and innovation that will accelerate the creative process across all platforms and devices, deepen engagement with communities, and accelerate long-term revenue growth by focusing on cloud-based offerings, which are licensed on a subscription basis.

The flagship of our Digital Media business is Adobe Creative Cloud—a subscription service that allows members to use Adobe's creative products integrated with cloud-delivered services across desktop, web and mobile devices. Creative Cloud members can download and access the latest versions of our creative products such as Photoshop, Illustrator, Premiere Pro, Lightroom CC, InDesign, Adobe XD and many more creative applications. To expand our reach and improve the way we serve the needs of our customers, we create different combinations of these services, including our launch of a mobile photography offering that has brought new customers into our franchise and grown the amount of our photography subscriptions. In addition, members can access built-in templates to jumpstart designs and step-by-step tutorials to sharpen skills and get up to speed quickly. Through Creative Cloud, members can access online services to sync, store, and share files across users' machines, access marketplace, social and community-based features within our Adobe Stock and Behance services, and create apps and websites, all at affordable subscription pricing for cost-sensitive customers.

Adobe continues to redefine the creative process with Adobe Creative Cloud so that our customers can obtain everything they need to create, collaborate and be inspired. A core part of our strategy is Adobe Sensei, a proprietary framework and set of intelligent services for dramatically improving the design and delivery of digital experiences. Adobe Sensei leverages Adobe's massive content and data assets, as well as its deep domain expertise in the creative, marketing and document segments, within a unified artificial intelligence ("AI") and machine learning framework to

help customers discover hidden opportunities, reduce tedious processes, and offer relevant experiences to every customer.

Adobe Creative Cloud addresses the needs of creative professionals such as artists, designers, developers, students and administrators. They rely on our products for publishing, web design and development, video and animation production, mobile

Table of Contents

app and gaming development, and document creation and collaboration. End users of our creative products work in businesses ranging from large publishers, media companies and global enterprises, to smaller design agencies, and individual freelancers. Moreover, our creative products are used to create much of the printed and online information people see, read and interact with every day, including video, animation, mobile and advertising content. Knowledge workers, educators, hobbyists and consumers also use our products to create and deliver content. We have introduced new products, features and services to address emerging categories of content creation, such as voice-based prototyping, refined content creation tools, 3D, augmented reality, virtual reality and user experience design. New projects announced and solutions offered include Project Gemini, a mobile drawing and painting application, featuring live brushes that mimic natural media like oil paint and watercolors in amazingly lifelike ways; Adobe Premiere Rush, an easy-to-use video editing app that simplifies video creation and sharing on platforms including YouTube and Instagram, while delivering professional quality video results for social media marketers, video bloggers and video enthusiasts; and Photoshop on iPad to enable a seamless experience across devices, and attract a new, mobile-centric audience.

Adobe's Digital Media segment includes our Adobe Document Cloud business, built around our Acrobat family of products, including Adobe Acrobat and Adobe Acrobat Reader, and a set of integrated, cloud-based document services, including Adobe Sign and Adobe Scan. Tens of millions of knowledge workers worldwide interact with documents daily. For over 25 years, Acrobat has provided for the reliable creation and exchange of electronic documents, regardless of platform or application source type. Users can collaborate on documents with electronic comments and tailor the security of a file in order to distribute reliable Adobe PDF documents that can be viewed, printed or filled out utilizing our free Acrobat Reader on any device. Acrobat provides essential electronic document capabilities and services to help knowledge workers accomplish a wide variety of tasks ranging from simple publications and forms to mission-critical engineering documentation and architectural plans. With our Acrobat product and its innovative cloud services, we have extended the capabilities of our solutions. Users can turn slow, manual signing processes into automated experiences and collect signatures with Adobe Scan and Adobe Sign. In addition, we have mobile apps such as Adobe Scan that allows any user to create a PDF with the camera on their phone.

Digital Media Strategy

Our goal is to be the leading platform for creativity where we offer a range of products and services that allow individuals, teams and enterprises, both professionals and enthusiasts, to design and deliver amazing digital content. We believe there is significant opportunity for growth across all customer segments and expect Adobe Creative Cloud will drive sustained long-term revenue growth through a continued expansion of our customer base by acquiring new users in North America and international markets, especially in emerging markets where there is an opportunity to target new creative professionals and enthusiasts entering the market, and drive conversion of non-genuine Adobe users. Enabling students to create and tell their stories is another opportunity where Adobe Spark uniquely positions us to deliver on the needs of educators and students in and outside of classrooms.

We will continue to deepen our relationship with existing users through meeting their needs holistically and delivering additional features and value, including data-driven customer engagement, AI and machine learning through Adobe Sensei, and new design categories. As appropriate, we plan to optimize our pricing strategy and move our customers to higher priced and better value offerings and continue to employ targeted promotions that attract past customers and potential users to try out and ultimately subscribe to Adobe Creative Cloud. To target new customers and better address the needs of our existing customers, we will continue to invest in driving innovation to maintain the leadership position that we have established. We offer a marketplace for Creative Cloud subscribers to enable the delivery and purchase of stock content in our Adobe Stock service. Overall, our strategy with Creative Cloud is designed to enable us to increase our revenue with users, attract more new customers, and grow a recurring and predictable revenue stream that is recognized ratably.

As part of our Adobe Creative Cloud strategy, we utilize a data-driven operating model and our Adobe Experience Cloud solutions to drive customer awareness and licensing of our creative products and services through our website and across other channels. Adobe.com is increasingly becoming the destination site where we engage individual and small business customers to sign up for and renew Creative Cloud subscriptions. We offer free apps and trials to

attract new customers and through a data-driven model, we optimize conversion of these trialists to paid subscribers. We utilize channel partners to target mid-size creative customers with our Creative Cloud for teams offering. Our direct sales force is focused on building relationships with our largest customers and driving adoption of our Creative Cloud for enterprise offering.

We offer many of the products included in Adobe Creative Cloud on a standalone basis, including subscriptions to the Creative Cloud version of certain point products. We also offer a range of other creative tools and services, including our hobbyist products such as Photoshop Elements and Premiere Elements, Adobe Fonts (formerly Typekit) and mobile apps such as Photoshop Mix, Photoshop Sketch, Photoshop Fix, Adobe Capture, and Adobe Spark. Further descriptions of our Digital Media products are included below under “Principal Products and Services.”

Table of Contents

In our Adobe Document Cloud business, Adobe Acrobat has achieved strong market adoption and a leadership position in document-intensive industries such as government, financial services, pharmaceutical, legal, aerospace, insurance and technical publishing. We believe there remain tens of millions of users - both individuals and enterprises - who need the capabilities provided by Acrobat and the service capabilities found in Document Cloud. We plan to build out a data driven operating model to market the benefits of our Document Cloud solutions, combined with the low entry point of subscription-based pricing, to individuals as well as small and medium-sized businesses, large enterprises and government institutions around the world. We intend to continue promoting the capabilities of our cloud-based document solutions and Adobe Sensei features to millions of Acrobat users and hundreds of millions of Acrobat Reader users. We aim to increase our seat penetration in our key markets through the utilization of our corporate and volume licensing programs. We also intend to increase our focus on marketing and licensing Acrobat in targeted vertical markets such as education, financial services, telecommunications and government, as well as on expanding into emerging markets. We will continue to engage in strategic partnerships to help drive the enterprise business, including our partnership with Microsoft. Our Adobe Sign service provides a green alternative to costly paper-based solutions, and is a more modern and convenient way for customers to digitally manage their documents, processes, and contract workflows. The Adobe Scan app for mobile devices can be used to capture paper documents as images and transform them into full-featured PDFs via Document Cloud services that can be shared immediately, essentially putting scanning capabilities in the pocket of every person. We believe that by growing the awareness of electronic signatures in the broader contract delivery and signing market, utilizing Adobe Sensei to enhance customer experiences through machine learning and AI, and continuing to add new capabilities to our Adobe Scan and Adobe Sign offerings, we can help our customers migrate away from paper-based express mailing and adopt our solution to modernize and digitize document experiences, growing our revenue with this business in the process.

Digital Experience

Digital Experience Opportunity

Consumers today increasingly demand compelling experiences in their digital interactions, that are seamless across channels and devices. Enterprises and brands recognize that customers have more choices and lower switching costs than ever before. In this new hyper-connected digital environment, it is the customer experience that differentiates brands and ultimately determines customer loyalty. As a result, businesses must determine how to best attract, engage, acquire and retain customers in a digital world where the reach and quality of experiences directly impact success. Delivering the best experience to a consumer at a given moment requires the right combination of data, insights and content. Executives are increasingly demanding solutions that optimize their consumers' experiences and deliver the greatest return on marketing and IT spend so they can demonstrate the business impact of their programs using objective metrics.

We believe there is a significant opportunity to address these challenges and help customers transform their businesses. The world's leading brands are increasingly steering their marketing, advertising, and development budgets toward digital experiences. As enterprises make this move to digital, our opportunity is accelerating as brands seek vendors to help them navigate this transition. Enterprises have a mandate to deliver meaningful experiences to their consumers across digital channels and in areas such as sales, support, and product interactions where consumers expect experiences to be consistent and personalized.

Our Adobe Experience Cloud business targets this large and growing opportunity by providing comprehensive solutions that include analytics, targeting, advertising optimization, digital experience management, marketing automation and engagement, cross-channel campaign management, content management, asset management, audience management, premium video delivery, digital commerce enablement, order management, predictive intelligence and monetization. These comprehensive solutions enable marketers to measure, personalize and optimize digital experiences across channels for optimal performance.

We believe the market for Adobe Experience Cloud is large and rapidly growing as more businesses and enterprises invest in solutions that aid their goals to transform how they engage with their customers and constituents digitally.

Digital Experience Strategy

Our goal is to be the leading provider of solutions that enable our customers to provide exceptional digital experiences and enable digital transformation. Our integrated cloud-based solutions enable enterprises to build personalized

campaigns, offer shoppable experiences, manage advertising, and gain deep intelligence about their customers. Our content and data platform provides differentiation and competitive advantage.

Adobe Experience Cloud consists of the following cloud offerings:

Adobe Advertising Cloud—delivers an end-to-end platform for managing advertising across traditional TV and digital formats, and simplifies the delivery of video, display and search advertising across channels and screens; uses Adobe Sensei to enable machine learning and predictive intelligence, automates digital media buying to traditional TV advertising; automates ad creation and integrates with Adobe Creative Cloud products; and combines capabilities

Table of Contents

from the Adobe Advertising Cloud Demand-Side Platform, Adobe Advertising Cloud Search, Adobe Advertising Cloud TV, and Adobe Advertising Cloud Creative offerings.

Adobe Analytics Cloud—enables businesses to move from insights to actions in real time by uniquely integrating audiences as the core system of intelligence for the enterprise; makes data available across all Adobe clouds through the capture, aggregation, rationalization and understanding of vast amounts of disparate data and then translating that data into singular customer profiles; includes Adobe Analytics and Adobe Audience Manager.

Adobe Marketing Cloud—provides an integrated set of solutions to help marketers differentiate their brands and engage their customers, helping businesses manage, personalize, and orchestrate campaigns and customer journeys across business-to-business (“B2B”) and business-to-consumer (“B2C”) use cases; includes Adobe Experience Manager (“AEM”), Adobe Campaign, Adobe Target, Marketo Engagement Platform, and Adobe Primetime.

Magento Commerce Cloud—offers digital commerce enablement and order orchestration for both physical and digital goods across a range of industries, including consumer packaged goods, retail, wholesale, manufacturing and the public sector, and brings together digital commerce, order management and predictive intelligence to enable shopping experiences that scale from mid-market to enterprise businesses.

Adobe acquired Magento on June 18, 2018 and integrated it into the Adobe Experience Cloud as the Magento Commerce Cloud. Adobe acquired Marketo on October 31, 2018 and began integrating it into the Adobe Marketing Cloud as the Marketo Engagement Platform. Marketo Engagement Platform is a cloud platform for global business-to-business marketers driving new business growth by personalizing complex buyer journeys and empowering go-to-market teams to optimize the enterprise buyer experience. As part of the Adobe Marketing Cloud, the Marketo Engagement Platform simplifies how companies plan, orchestrate and measure engagement with prospects and customers at every stage of their experience through both lead and account-based marketing strategies, while uniquely aligning marketing and sales teams across every channel through a single, enterprise-grade platform. We believe the AI and machine learning framework enabled by our strategy with Adobe Sensei enhances the delivery of digital experiences. By building on existing features such as Enhanced Anomaly Detection, Auto-Target, and other capabilities, we believe Adobe Sensei will increase the value we provide our customers and create a competitive differentiation in the market.

To drive growth of Adobe Experience Cloud, we also intend to focus on customer engagement, growing within existing customer accounts, and product differentiation. We are also investing in the Adobe Experience Platform, which is powered by Adobe Sensei to help users weave all their data together so they can better understand customer behavior and deliver the best experiences in real time. Our Open Data Initiative is an open alliance among Adobe, Microsoft and SAP, that enables a seamless flow of customer data within the Adobe Experience Platform. We utilize a direct sales force to market and license our Experience Cloud solutions, as well as an extensive ecosystem of partners, including marketing agencies, SIs and ISVs that help license and deploy our solutions to their customers. Strategic partnerships, such as the one we have formed with Microsoft, continue to increase our market reach. We have made significant investments to broaden the scale and size of all of these routes to market, and believe these investments will result in continued growth in revenue in our Digital Experience segment in fiscal 2019 and beyond.

Publishing

Our Publishing segment contains legacy products and services that address diverse market opportunities including eLearning solutions, technical document publishing, web conferencing, document and forms platform, web application development and high-end printing. Graphics professionals and professional publishers continue to require quality, reliability and efficiency in production printing, and our Adobe PostScript and Adobe PDF printing technologies provide advanced functionality to meet the sophisticated requirements of this marketplace. As high-end printing systems evolve and transition to fully digital, composite workflows, we believe we are well positioned to be a supplier of software and technology based on the Adobe PostScript and Adobe PDF standards for use by this industry. We generate revenue by licensing our technology to OEMs that manufacture workflow software, printers and other output devices. In fiscal 2018, we maintained a relatively consistent quarterly revenue run-rate with the mature products we market and license in our Publishing business.

Table of Contents

COMPETITION

The markets for our products and services are characterized by intense competition, new industry standards, evolving distribution models, disruptive technology developments, frequent product introductions, short product life cycles, price cutting with resulting downward pressure on gross margins and price sensitivity on the part of consumers. Our future success will depend on our ability to enhance and better integrate our existing products, introduce new products on a timely and cost-effective basis, meet changing customer needs, provide best-in-class information security to build customer confidence and combat cyber-attacks, extend our core technology into new applications and anticipate emerging standards, business models, software delivery methods and other technological changes.

Digital Media

No single company has offerings that match the capabilities of our Adobe Creative Cloud products and services, but we face collective competition from a variety of point offerings, free products and downloadable apps. Our competition includes offerings from companies such as Apple, Autodesk, Avid, Corel, Microsoft, Affinity, Quark and others, as well as from many lower-end offerings. We believe our greatest advantage in this space is the performance and scope of our integrated solutions, which work together as part of Creative Cloud. With Creative Cloud, we compete favorably on the basis of features and functionality, ease of use, product reliability, value and performance characteristics.

Professional digital imaging, drawing and illustration products are characterized by feature-rich competition, brand awareness and price sensitivity. Competition in this space is also emerging with drawing and illustration applications on tablet and smartphone platforms. The demand for professional web page layout and professional web content creation tools is constantly evolving and highly volatile. In this area, we face direct and indirect competition from desktop software companies and various proprietary and open source web-authoring tools.

We face competition from device, hardware and camera manufacturers as they try to differentiate their offerings by bundling, for free, their own digital imaging software or those of our competitors. Similarly, we face potential competition from operating system manufacturers as they integrate or offer hobbyist-level digital imaging and image management features with their operating systems. We also face competition from smartphone and tablet manufacturers that integrate imaging and video software into their devices to work with cameras that come as part of their smartphone and tablet offerings. In addition, social networking platforms such as Facebook (including Instagram), Snapchat, Twitter and Pinterest, as well as portal sites such as Google, Bing and Yahoo! are becoming a direct means to post, edit and share images, bypassing the step of using image editing and sharing software. Online storage and synchronization are becoming free and ubiquitous. Consumers will be encouraged to use the image and video editing software offered by those storage products, thus competing with our software.

In addition, the needs of digital imaging and video editing software users are constantly evolving due to rapid technology and hardware advancements in digital cameras, digital video cameras, printers, personal computers, tablets, smartphones and other new devices. Our imaging and video offerings, including Photoshop, Lightroom, After Effects, Premiere Pro, and Premiere Rush, face competition from established and emerging companies offering similar products.

New image editing applications for mobile devices and tablets with features that compete with our professional tools are also emerging as adoption of these devices grows. Our consumer digital imaging and video editing offerings are subject to intense competition, including customer price sensitivity and competitor brand awareness. We face direct and indirect competition in the consumer digital imaging space from a number of companies whose market software competes with our offerings.

The stock content marketplace has significant competition, especially in the microstock segment, where Adobe primarily operates today with our Adobe Stock offering. Key competitors in this segment include Shutterstock, Getty Images and a number of smaller companies. Deep product integration with Adobe Creative Cloud and superior reach and relationships with creative professionals around the world differentiate our Adobe Stock offerings.

The nature of traditional digital document creation, storage, and collaboration has been rapidly evolving as knowledge workers and consumers shift their behavior increasingly to non-desktop workflows. Competitors like Microsoft,

Google, Box and Dropbox all offer competitive alternatives to our Adobe Document Cloud business for creating and managing PDFs. In addition, other PDF creation solutions can be found at a low cost or for free on the web or via mobile applications. To address these competitive threats, we are working to ensure our Document Cloud applications stay at the forefront of innovation in emerging opportunities such as PDF document generation, document collaboration and document security, document workflow management, easeful software integrations, enablement of paper to digital transformations, and accessibility and usability on multiple devices, including mobile and desktop.

Table of Contents

E-signatures have quickly become a core element of digital documents and are inherently part of a company's digital document transformation efforts. Partnerships and integrations between these companies and third-parties create an increasingly competitive landscape in this space. Competitors to Adobe Sign include DocuSign.

Digital Experience

The markets in which our Digital Experience business unit competes are growing rapidly and characterized by intense competition. Our Adobe Experience Cloud solutions face competition from large companies such as Google, IBM, Oracle, salesforce.com, SAP, SAS, Teradata, Shopify and others, in addition to point product solutions and focused competitors. Additionally, new competitors are constantly entering these markets. Some of these competitors provide SaaS solutions to customers, generally through a web browser, while others provide software that is installed by customers directly on their servers. In addition, we compete at times with our customers' or potential customers' internally developed applications. Of the competitors listed above, no single company has products identical to our Adobe Experience Cloud offerings. Adobe Experience Cloud competes in a variety of areas, including: reporting and analytics; cross-channel marketing and optimization; online marketing; audience management; advertising and real-time bidding technology; video delivery and monetization; marketing automation; digital commerce enablement; order management; web experience management and others.

Large software, internet and database management companies have expanded their offerings in the digital experience area, either by developing competing services or by acquiring existing competitors or strategic partners of ours. We believe competitive factors in our markets include the proven performance, security, scalability, flexibility and reliability of services; the strategic relationships and integration with third-party applications; the intuitiveness and visual appeal of user interfaces; demonstrable cost-effective benefits to customers; pricing; the flexibility of services to match changing business demands; enterprise-level customer service and training; perceived market leadership; the usability of services; real-time data and reporting; independence from portals and search engines; the ability to deploy the services globally; and success in educating customers in how to utilize services effectively. We believe we compete favorably with both the enterprise and low-cost alternatives based on many of these competitive factors including our strong feature set, the breadth of our offerings, our focus on global, multi-brand companies, our superior user experience, tools for building multi-screen, cross-channel applications, standards-based architecture, scalability and performance and leadership in industry standards efforts.

Creative and digital agencies, as well as SIs, are increasingly investing in acquiring their own digital experience technology to complement their creative services offerings. Adobe may face competition from these agencies and SIs as they come to market with best-of-breed offerings in one or more digital experience capabilities, or if agencies attempt to create a more complete technology platform offering. We believe our creative tools heritage differentiates us from our competitors. We have worked closely with marketing and creative customers for over 30 years. We also believe we have leadership in this space, with current customers representing leading global brands. Our comprehensive solutions extend more broadly than any other company in serving the needs of marketers and addressing this market opportunity; we integrate content and data, analytics, personalization, digital experience management, marketing automation, cross-channel campaign management, digital commerce, audience management, video delivery and monetization and social capabilities in our Adobe Experience Cloud. Most importantly, we provide a vision for our digital experience customers as we engage with them across the important aspects of their business, extending from their use of Adobe Creative Cloud and Adobe Document Cloud to how they manage, deliver, measure and monetize their content, participate in digital commerce, and create highly personalized and engaging shoppable experiences with our Experience Cloud.

Publishing

Our Publishing product offerings face competition from large-scale publishing systems, XML-based publishing companies, as well as lower-end desktop publishing products. Similarly, our web conferencing product faces competition from a number of established products from other companies, including Cisco, Citrix and Microsoft.

Competition involves a number of factors, including: product features, ease-of-use, printer service support, the level of customization and integration with other publishing system components, the number of hardware platforms supported, service and price. We believe we can successfully compete based upon the quality and features of our products, our strong brand among users, the widespread adoption of our products among printer service bureaus, and our extensive application programming interfaces.

In printing technologies, we believe the principal competitive factors for OEMs in selecting a page description language or a printing technology are product capabilities, market leadership, reliability, price, support and engineering development assistance. We believe that our competitive advantages include our technology competency, OEM customer relationships and our intellectual property portfolio.

Table of Contents

PRINCIPAL PRODUCTS AND SERVICES

Digital Media Offerings

Creative Cloud

Adobe Creative Cloud is a cloud-based subscription offering that enables creative professionals and enthusiasts alike to express themselves with apps and services that connect across devices, platforms and geographies. Members have access to a vibrant creative community, publishing services to deliver apps and websites, cloud storage to easily access their work, the ability to sync their files to virtually any device, collaboration capabilities with team members, and new products and exclusive updates as they are developed. Creative Cloud members can build a Creative Profile which persists wherever they are. A user's Creative Profile moves with them via Creative Cloud services from app to app and device to device, giving them immediate access to their personal files, photos, brushes, graphics, colors, fonts, text styles, desktop setting customizations and other important assets. Creative Cloud subscriptions include all of the applications listed below and many more.

Photoshop and Lightroom

Adobe Photoshop is the world's most advanced digital imaging and design app. It is used by photographers, designers, animators, web professionals, and video professionals, and is available to Adobe Creative Cloud subscribers.

Lightroom CC, our cloud-based photo service for editing, organizing, storing and sharing photos, is also available to Creative Cloud subscribers. Customers can also subscribe to Photoshop or Lightroom CC as individual cloud-enabled subscription products, or through our Photography Plan, which is a cloud-enabled offering targeted at photographers and photo hobbyists and includes Lightroom CC, integrated cloud services, and Lightroom Classic, a desktop-only version of the photo service app.

We also offer Photoshop Elements, which is targeted at consumers who desire the brand and power of Photoshop through an easy-to-use interface. For tablet and smartphone users, we offer several mobile apps including Photoshop Sketch, Photoshop Mix, Photoshop Express, Lightroom for mobile and Photoshop Fix—all of which enable sophisticated photo editing and content creation using a touch-based interface on tablet and mobile devices.

Illustrator

Adobe Illustrator is our industry-standard vector graphics app used worldwide by designers of all types who want to create digital graphics and illustrations from web icons and product packaging to book illustrations and billboards, and for all kinds of media: print, web, interactive, video, and mobile. Illustrator is available to Adobe Creative Cloud subscribers, and customers can also subscribe to use it as an individual subscription product. Users can also utilize mobile apps such as Illustrator Draw to gain access to Illustrator capabilities on their tablets and mobile devices, and sync their work through Adobe CreativeSync for use with Illustrator on their desktop.

InDesign

Adobe InDesign is the industry-leading design and layout app for print and digital media. Our customers use it to design, preflight, and publish a broad range of content including newspapers and magazines for print, online, and tablet app delivery. From stationery, fliers and posters to brochures, annual reports, magazines and books with professional layout and typesetting tools, customers can create multicolumn pages that feature stylish typography and rich graphics, images, and tables. Tight integration with other Adobe offerings such as Photoshop, Illustrator and Acrobat enables customers to work productively in print and digital workflows. InDesign integrates seamlessly with Adobe InCopy, so customers can work on layouts simultaneously with writers and editors. Customers can also access Adobe digital publishing capabilities from within InDesign to create and publish engaging apps for a broad range of devices, including iOS, Android and Amazon-based devices. InDesign is available to Adobe Creative Cloud subscribers, and customers can also subscribe to use InDesign as an individual cloud-enabled subscription product.

Adobe Stock

Adobe Stock provides designers and businesses with access to millions of high-quality, curated, royalty-free photos, vectors, illustrations, videos, templates, and 3D assets, for all their creative projects. Adobe Stock is built into Adobe Creative Cloud apps, including Photoshop, Illustrator, and InDesign, enabling users to search, browse, and add images to their Creative Cloud Libraries, and obtain instant access to assets across desktop and mobile devices. Adobe Stock assets may be licensed directly within the Creative Cloud desktop apps, through stock.adobe.com, or as a multi-asset subscription.

Adobe XD

Adobe XD is our all-in-one experience design (XD) solution used to build user experiences (UX) and user interfaces (UI) when designing websites, mobile apps and more; Adobe XD enables users to go from concept to prototype faster. It contains intuitive tools that deliver precision and performance using timesaving features like Repeat Grid and flexible artboards to create

Table of Contents

everything from low-fidelity wireframes to fully interactive prototypes for any screen in minutes. Adobe XD also makes it easy to share prototypes with teammates via the web and show colleagues how multiscreen experiences look, feel and work with a single click. Adobe XD allows designers to design, prototype, and share digital experiences that extend beyond the screen, including triggers and speech playback to create audio interactions for voice-based smart assistants and other similar platforms. Adobe XD is available to Adobe Creative Cloud subscribers, and customers can also subscribe to use it as an individual cloud-enabled subscription product.

Adobe Premiere Pro and Adobe Premiere Rush

Adobe Premiere Pro is a leading nonlinear video editing tool used by filmmakers, videographers, and designers. Customers can import and combine various types of media, from video shot on a smartphone to 8K to virtual reality, and then edit in its native format without transcoding. Premiere Pro supports a vast majority of formats, and customers can use multiple graphics cards to accelerate render and export times. Premiere Pro is the only nonlinear editor that lets users have multiple projects open while simultaneously collaborating on a single project with their team. Workflows for color, graphics, audio, and immersive 360/VR in Premiere Pro take customers from first edit to final credits faster than ever. Adobe Premiere Rush (formerly Project Rush) is an all-in-one, easy-to-use video editing app that simplifies video creation and sharing on platforms including YouTube and Instagram, while delivering professional quality video results. Premiere Rush is uniquely positioned toward social media marketers, video bloggers, and video enthusiasts who are looking for an all-in-one app to create and share online videos. As part of Adobe Creative Cloud, Premiere Pro and Premiere Rush tightly integrates with other Adobe creative applications. Customers can also subscribe to use Premiere Pro and Premiere Rush as an individual cloud-enabled subscription product, or they can download the free Premiere Rush starter plan.

After Effects

Adobe After Effects is our industry-leading animation and creative compositing app used by a wide variety of motion graphics, visual effects artists, animators, designers and compositors. It offers superior control, a wealth of creative options, and integration with other post-production applications. After Effects works together seamlessly with other Adobe apps such as Premiere Pro, Photoshop, Illustrator, and Audition. After Effects is available to Adobe Creative Cloud subscribers, and customers can also subscribe to use it as an individual cloud-enabled subscription product.

Adobe Dimension

Adobe Dimension is designed to make it easy for graphic designers to create high-quality, photorealistic 3D images. Users can composite 2D and 3D assets to build product shots, scene visualizations, and abstract art. Dimension integrates well with other Adobe apps. Users can drag and drop background images from Photoshop and 3D models from Adobe Stock - without leaving Dimension. Dimension is available to Adobe Creative Cloud subscribers, and customers can also subscribe to use it as an individual cloud-enabled subscription product.

Adobe Fonts

Adobe Fonts brings thousands of fonts from foundry partners into one library for quick browsing, easy use on the web or on the user's desktop, and endless typographic inspiration. Our full library of commercially-licensed fonts is offered through Adobe Creative Cloud. In addition, customers may subscribe to the standalone Adobe Fonts portfolio plan, or license individual fonts in the Adobe Fonts Marketplace.

Behance

Behance is the leading social community to showcase and discover creative work online. Adobe Portfolio allows users to quickly and simply build a fully customizable and hosted website that seamlessly syncs with Behance.

Adobe Spark

Adobe Spark is our integrated web and mobile software for creating and sharing impactful visual stories. Designed for everyday communication, Adobe Spark empowers users to transform words, images, and videos into dynamic web stories that engage audiences across multiple channels and on any device. The Adobe Spark web app seamlessly syncs

with Spark Post, Spark Page and Spark Video iOS mobile apps, allowing users to create, edit and share their story from any location regardless of their design experience. Adobe Spark with premium features allows users to apply custom branding to anything they create; the premium product is offered as part of any Adobe Creative Cloud plan or as a standalone subscription. A free version is also still available to attract new users.

Table of Contents

Acrobat and Adobe Document Cloud

Adobe Document Cloud modernizes document experiences by offering a complete portfolio of secure digital document solutions that speed business transactions through streamlined digital workflows. With Document Cloud, users can create, review, approve, sign and track documents, whether on a desktop or mobile device.

At the heart of Adobe Document Cloud is Adobe Acrobat DC, the industry standard for PDF creation and conversion. Acrobat enables users to create secure, reliable and compact Adobe PDF documents from desktop authoring applications such as Microsoft Office software, graphics applications and more. Acrobat enables automated collaborative workflows with a rich set of commenting tools and review tracking features and includes everything needed to create and distribute rich, secure electronic documents that can be viewed easily within leading web browsers or on computer desktops via the free Adobe Acrobat Reader.

Adobe Acrobat is available to both Adobe Creative Cloud and Adobe Document Cloud subscribers. Customers can also license Acrobat Pro or Acrobat Standard (which has a subset of Acrobat Pro features) as individual point products, either as a cloud-enabled subscription or in the form of desktop software. Adobe Acrobat Reader is also available as a free mobile app that allows users to view, annotate, and scan documents. Acrobat Reader is our free software for reliable viewing, searching, reviewing and printing of Adobe PDF documents on a variety of hardware and operating system platforms. Users of both Acrobat and Acrobat Reader can also access, edit and save changes to their PDF files stored on the Dropbox website or mobile app.

Our Adobe Scan app can be used for free on mobile devices to provide scanning capabilities in the pocket of every person. It captures paper documents as images and transforms them into full-featured and versatile PDFs via Adobe Document Cloud services for instant sharing with others.

Our Adobe Sign e-signature service allows users to securely electronically send and sign any document from any device. Adobe Sign has a mobile app companion allowing users to e-sign documents and forms, send them for signature, track responses in real-time, and obtain instant signatures with in-person signing. It integrates with users' enterprise systems through a comprehensive set of applicable programming interfaces, and Adobe Experience Manager Forms and Advanced Workflows for Adobe Sign, to create forms and provide seamless experiences to customers across web and mobile sites. Adobe Sign is Microsoft's preferred e-sign solution and is integrated into Microsoft Office 365, Microsoft Dynamics 365, and Microsoft SharePoint.

Adobe Experience Cloud Products and Services

Adobe Experience Cloud includes our Advertising Cloud, Analytics Cloud, Marketing Cloud, and Magento Commerce Cloud offerings, which are each described below.

Adobe Advertising Cloud

Adobe Advertising Cloud is an independent ad platform that unifies and automates all media, screens, data, and creativity at scale. With Adobe Advertising Cloud and its use of Adobe Sensei AI and data integrations, customers can identify and amplify their high-value audiences for more personal and accurate targeting; seamlessly unite creative, data, and media buying across all screens and formats; protect their brand by preventing their campaigns from mixing with content and properties that do not align with their image; scale bidding and optimization strategies; implement programmatic creative management using automated advertisement creation for both prospecting and retargeting customers; generate advertisements at scale using Adobe Creative Cloud apps; and use data insights that reveal customers' interests and past behaviors to create relevant, targeted ads. Adobe Advertising Cloud includes Adobe Advertising Cloud Demand Side Platform, Adobe Advertising Cloud Search, Adobe Advertising Cloud TV, and Adobe Advertising Cloud Creative offerings described below.

Adobe Advertising Cloud Demand-Side Platform (DSP)

Adobe Advertising Cloud DSP uses data to build identities and find optimal mixes to reach audiences. Adobe Advertising Cloud DSP manages tactics that span multiple sites simultaneously, effortlessly, and nearly instantly. It is the first independent demand-side platform that brings cross-screen and cross-channel integrations for planning, buying, measurement, and optimization. It is the only omnichannel demand-side platform that supports all forms of TV (linear, addressable, and connected), video, display, native, audio, social, and search campaigns. With real-time, in-dash reporting, custom reports, raw activity logs, and reporting APIs, customers get the ultimate flexibility to analyze campaign performance and make faster, more informed optimization choices. When combined with our

proprietary ad creative management platform, integrated brand surveys, and other Adobe Experience Cloud products, customers have the ability to deliver engaging, personalized experiences.

Adobe Advertising Cloud Search

Adobe Advertising Cloud Search powered by Adobe Sensei AI brings customers the most comprehensive search management through the automation of search, shopping, and retargeting campaigns. Adobe Advertising Cloud Search offers model transparency and accuracy reports that give insight into actual performance rather than just forecasts for clicks, cost and

Table of Contents

revenue. It helps Adobe Sensei to make the right decisions to most efficiently meet customers' performance goals. With an intuitive navigation and time-saving workflows, it delivers powerful, real-time integration with Adobe Analytics, Adobe Audience Manager and Adobe Campaign and connects users' data, audience segments, and other marketing channels.

Adobe Advertising Cloud TV

Adobe Advertising Cloud TV advances TV advertising through software. By using data and automation, Adobe Advertising Cloud TV helps customers make smarter TV buying decisions, deliver precision against their audiences, and increase the impact of their TV advertising with access to over 30,000 audience data attributes. With access to the most broadcast and linear cable inventory of any platform, Adobe Advertising Cloud TV opens the door to the entire TV experience – linear, addressable, and connected TV to reach 100+ million households across national, local, video-on-demand, and more.

Adobe Advertising Cloud Creative

Adobe Advertising Cloud Creative uniquely brings together designers and marketing professionals in a self-serve, intuitive interface. The direct integration with Adobe Creative Cloud apps enhances collaboration between customers' ad production and media teams, enabling users to automatically create thousands of ads at scale. Using Adobe Advertising Cloud Creative, users can target, sequence, iterate, and optimize personalized ad experiences for their audiences. Adobe Advertising Cloud Creative is part of the Adobe Advertising Cloud DSP and can be enabled to work with other media buying properties.

Adobe Analytics Cloud

Adobe Analytics Cloud uses advanced machine learning and automation to provide a core intelligence engine for enterprises that allow customers to put real-time insights into action. With Adobe Analytics Cloud, enterprise-level marketing analytics is made understandable and accessible to everyone in the organization; targeting is improved, as our customers can connect their analytics with real-time activation so the transition from insight to action is fast; users are provided with an objective view of their customers' journeys across every device and channel that helps them achieve better understanding of their ROI; and segmentation is more precise as our customers can discover and create high-value audiences and understand the best way to reach them. The following is a brief description of the solutions that comprise the Adobe Analytics Cloud.

Adobe Analytics

Adobe Analytics is our industry leading solution that helps our customers create a holistic view of their business by turning consumer interactions into actionable insights. From attribution and predictive modeling to contribution analysis and propensity scoring, Adobe Analytics is immersed in machine learning and AI. With intuitive and interactive dashboards and reports, our customers can sift, sort, and share real-time information to provide insights that can be used to identify problems and opportunities and to drive conversion and relevant consumer experiences. Our Analysis Workspace provides analysts our most powerful tools available at a click so they can create and curate reusable projects that are customized to their needs. Adobe Analytics enables web, social, video, mobile, attribution, and predictive analytics across online and offline channels to continuously improve the performance of marketing activities. Adobe Analytics lets users integrate everything from web, email, and CRM to voice and connected car data smoothly. It also provides the ability to perform advanced ad-hoc segmentation and to integrate data from offline and third-party sources.

Adobe Audience Manager

Adobe Audience Manager is a data management platform that helps digital publishers build unique audience profiles to identify the most valuable segments and use them across any digital channel. Adobe Audience Manager consolidates audience information from all available sources. It then identifies, quantifies and optimizes high-value target audiences, which can then be offered to advertisers via an integrated, secure, privacy-friendly management system that works across all advertising distribution platforms. Adobe Audience Manager provides access to multiple data sources, offering digital publishers the ability to use a wide variety of third-party data as well as Audience Manager's private data co-op.

Adobe Marketing Cloud

Adobe Marketing Cloud provides a complete set of integrated digital marketing solutions. It contains everything necessary to deliver first-class digital experiences. Adobe Marketing Cloud enables our customers to manage their content and assets; grow audiences and increase engagement to optimize customer experiences; personalize content and deliver optimized experiences at scale that are meaningful to each of their customers; orchestrate individual cross-channel campaigns that encourage meaningful customer experiences; and plan, orchestrate and measure engagement with their prospects and customers at every stage of the experience journey on a single platform. Adobe Marketing Cloud also provides a solution that allows our customers to monetize video experiences. The following is a brief description of the solutions that comprise the Adobe Marketing Cloud.

Table of Contents

Adobe Experience Manager

Adobe Experience Manager is a leading digital experience management solution that uses AI tools to help customers organize, create, and manage the delivery of creative assets and other content across digital marketing channels, including web, mobile, email, communities and video. It enables customers to manage content on premise or host it in the cloud, delivering agile and rapid deployment. With this ultimate control of content and campaigns, our customers can deliver real-time and personalized experiences to their consumers that help build customers' brand, drive demand and extend reach. Adobe Experience Manager includes digital asset management, web content management, digital publishing, integrated mobile app development, enterprise-level forms management, and social capabilities, providing customers with tools enabling users to improve their market and brand perception and provide a personalized experience to their consumers.

Adobe Campaign

Adobe Campaign is optimized for B2C experiences involving high volume email and cross-channel campaign management. Adobe Campaign enables marketers to manage the customer journey and orchestrate personalized experiences determined by each consumer's behaviors and preferences. As part of its feature set, Adobe Campaign provides visual campaign orchestration, allowing for intuitive design and automated consumer experiences across channels, from one-off campaigns to triggered messages, with a graphically rich interface. Marketers can also integrate consumer data from across marketing channels to develop and deliver more relevant marketing experiences to their consumers through email, mobile, offline channels, and more. Features also include targeted segmentation, multilingual email execution, real-time interaction, in-app messaging, and operational reporting to easily see how well campaigns are performing.

Adobe Target

Adobe Target lets our customers test, target and personalize content across multiple devices. With Adobe Target, our customers have the tools they need to quickly discover what gets noticed and what increases conversion and engagement. It paves a path from simple testing to targeting to true segmentation and optimization through A/B and multivariate testing, AI-powered automation at scale, content targeting and automated decision-making. Adobe Target capabilities also enable our customers to test and target adaptive or responsive mobile web experiences.

Marketo Engagement Platform

Marketo Engagement Platform is optimized for B2B, cross-channel campaigns requiring lead management, account-based marketing and revenue attribution technology by bringing together planning, engagement and measurement capabilities into an integrated marketing platform. Marketo Engagement Platform simplifies how companies plan, orchestrate and measure engagement with prospects and customers at every stage of their experience. It offers a feature-rich and cloud-native platform with a set of solutions for delivering transformative customer experiences across industries and companies of all sizes.

Adobe Primetime

Adobe Primetime is a multiscreen TV platform that helps broadcasters, cable networks, and pay-TV providers create and monetize engaging, personalized viewing experiences. When integrated with Adobe Experience Cloud solutions, media sellers can optimize campaign and advertisement delivery in real time. Adobe Primetime combined with Adobe Analytics captures detailed authentication and viewing behavior across devices and delivers effective insights.

Magento Commerce Cloud

Magento Commerce Cloud offers digital commerce enablement and order orchestration for both physical and digital goods across a range of industries, including consumer packaged goods, retail, wholesale, manufacturing and the public sector. Magento Commerce Cloud brings together digital commerce, order management and predictive intelligence to enable shopping experiences that scale from mid-market to enterprise businesses. Based on an open-source ecosystem, Magento Commerce Cloud extends beyond the web shopping cart to every shoppable experience, including email, mobile, in-store, and marketplaces. Magento Commerce Cloud combined with the Adobe Experience Cloud offers a single, end-to-end platform for content creation, marketing, advertising, analytics and commerce for business-to-business and business-to-consumer customers globally.

Other Products and Services

We also offer a broad range of other enterprise and digital media products and services. Information about other products not referenced here can be found on our corporate website, www.adobe.com.

Table of Contents

OPERATIONS

Marketing and Sales

We market and license our products directly using our sales force and certain local offices and through our own website at www.adobe.com. We also market and distribute our products through sales channels, which include distributors, retailers, software developers, SIs, ISVs and VARs, as well as through OEM and hardware bundle customers.

Our local field offices include locations in Australia, Austria, Belgium, Brazil, Canada, Chile, China, Columbia, Czech Republic, Denmark, Finland, France, Germany, Hong Kong, India, Ireland, Israel, Italy, Japan, Mexico, Moldova, the Netherlands, New Zealand, Norway, Poland, Romania, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, United Arab Emirates, the United Kingdom and the United States.

We sell the majority of our products through a software subscription model where our customers purchase access to a product for a specific period of time during which they always have rights to use the most recent version of that product. We also license perpetual versions of our software with maintenance and support, which includes rights to upgrades, when and if available, support, updates and enhancements.

For fiscal 2018, 2017 and 2016, there were no customers that represented at least 10% of net revenue. As of fiscal year end 2018 and 2017, no single customer was responsible for over 10% of our trade receivables.

Services and Support

We provide expert consulting, customer success management, technical support, and learning services across all our customer segments, including enterprises, small and medium businesses, creative professionals, and consumers. With a focus on ensuring sustained customer success and realized value, this comprehensive portfolio of services is designed to help customers and partners maximize the return on their investments in our cloud solutions and licensed products. Our service and support revenue consists primarily of consulting fees, software maintenance, technical support fees and training fees.

Consulting Services

We have a global professional services team dedicated to designing and implementing solutions for our largest customers. Our professional services team uses a comprehensive, customer-focused methodology that has been refined over years of capturing and analyzing best practices from numerous customer engagements across a diverse mix of solutions, industries, and customer segments. Increasingly, our customers seek to integrate across Adobe's products and cloud solutions, and engage our professional services teams to share their expertise in leading customers' digital strategies and multi-solution integrations. Using our methodology, our professional services teams are able to accelerate customers' time to value, and maximize the return customers earn on their investment in Adobe solutions.

A key component of Adobe's strategy is developing a large partner ecosystem to expand the reach and breadth of Adobe solutions in the global marketplace. In order to assist partners in building their respective digital practices, Adobe Global Services provides a comprehensive set of deliverables through Adobe's Solution Partner Program. The breadth of services described in the program provides system integrators, agencies, and regional partners the tools required to develop core capabilities for positioning and building with Adobe technology, as well as implementing and running customer platforms. We believe that through these programmatic services and support, our joint customers benefit greatly by the combination of Adobe technology and the deep customer context that our global partners represent.

Customer Success Account Management

Adobe Customer Solutions provides post-sales Customer Success Managers, who work with specific enterprise customers on an ongoing basis to understand their current and future business needs, promote faster solution adoption, and align product capabilities to customers' business objectives to maximize the return on their investment in Adobe's

offerings. We engage customers to share innovative best practices, relevant industry and vertical knowledge, and proven success strategies based on our extensive engagements with leading marketers and brands. The performance of these teams is directly associated with customer-focused outcomes, notably ongoing customer retention.

Table of Contents

Technical Support

Adobe provides enterprise maintenance and support services to customers of subscription products as part of the subscription entitlement, and to perpetual license customers via annual fee-based maintenance and support programs. These offerings provide:

- technical support on the products they have purchased from Adobe;
- “how to” help in using our products; and
- product upgrades and enhancements during the term of the maintenance and support or subscription period, which is typically one to three years.

We provide product support through a global support organization that includes several regional and global support centers, supplemented with outsourced vendors for specific services. Customers can seek help through multiple channels including phone, chat, web, social media, and email, allowing quick and easy access to the information they need. These teams are responsible for providing timely, high-quality technical expertise on all our products.

Certain consumers are eligible to receive Getting Started support, to assist with easy adoption of their products. Support for some products and in some countries may vary. For enterprise customers with greater support needs, we offer personalized service options through Premium Services options, delivered by technical account managers who can also provide proactive risk mitigation services and on-site support services for those with business critical deployments.

Lastly, we also offer delivery assurance, technical support, and enablement services to partners and developer organizations. Through the Adobe Partner Connection Reseller Program, we provide developers with high-quality tools, software development kits, information and services.

Digital Learning Services

Adobe Global Services offers a comprehensive portfolio of learning and enablement services to assist our customer and partner teams in the use of our products, including those within Digital Experience, Digital Media and other legacy products and solutions. Our training portfolio includes a large number of free online self-service learning options on www.training.adobe.com. Adobe Digital Learning Services also has an extensive portfolio of fee-based learning programs including a wide range of traditional classroom, virtual, and on-demand training and certifications delivered by our team of training professionals and partners across the globe.

These core offerings are complemented by our custom learning services, which support our largest enterprise customers and their unique requirements. Solution-specific skills assessments help our enterprise customers objectively assess the knowledge and competencies within their marketing teams and tailor their learning priorities accordingly. Finally, aligned with our cloud strategy, we have introduced a new learning subscription service that enables customers to access both business and technical Digital Experience training over a 12-month period, which is a scalable approach to supporting long-term learning.

Investments

From time to time we make direct investments in privately held companies. We enter into these investments with the intent of securing financial returns as well as for strategic purposes, as they often increase our knowledge of emerging markets and technologies and expand our opportunities to provide Adobe products and services.

PRODUCT DEVELOPMENT

A continuous high level of investment is required for the enhancement of existing solutions and the development of new solutions due to the speed of technological change that characterizes the software industry. We develop our software internally, as well as acquire products or technology developed by others by purchasing the stock or assets of the business entity that owns the technology. In other instances, we have licensed or purchased the intellectual property ownership rights of programs developed by others with license or technology transfer agreements that may obligate us to pay a flat license fee or royalties, typically based on a dollar amount per unit or a percentage of the revenue generated by those programs.

Table of Contents**PROTECTING AND LICENSING OUR PRODUCTS**

We protect our intellectual property through a combination of patents, copyrights, trademarks and trade secrets, foreign intellectual property laws, confidentiality procedures and contractual provisions. We have United States and foreign patents and pending applications that relate to various aspects of our products and technology. Although our patents have value, no single patent is essential to any of our principal businesses. We have also registered, and applied for the registration of, U.S. and international trademarks, service marks, domain names and copyrights. Our enterprise customers license our hosted offerings as On-demand Services or Managed Services, and consumers primarily use our desktop software and mobile apps. We license our desktop software to users under 'click through' or signed license agreements containing restrictions on duplication, disclosure, and transfer. Similarly, cloud products and services are provided to users under 'click through' or signed agreements containing restrictions on access and use. Despite our efforts to protect our proprietary technology and our intellectual property rights, unauthorized parties may attempt to copy or obtain and use our technology to develop applications with the same functionality as our application. Policing unauthorized use of our technology and intellectual property rights is difficult. We believe that our transition from perpetual-use software licenses to a subscription-based business model combined with the increased focus on cloud-based computing has and may continue to improve our efforts to combat the pirating of our products.

EMPLOYEES

As of November 30, 2018, we employed 21,357 people. We have not experienced work stoppages and believe our employee relations are good.

AVAILABLE INFORMATION

Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to reports filed or furnished pursuant to Sections 13(a) and 15(d) of the Securities Exchange Act of 1934, as amended, are available free of charge on our Investor Relations website at www.adobe.com/adbe as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. The information posted on our website is not incorporated into this report.

EXECUTIVE OFFICERS

Adobe's executive officers as of January 18, 2019 are as follows:

Name	Age	Positions
		Chairman, President and Chief Executive Officer
Shantanu Narayen	55	Mr. Narayen currently serves as our Chairman of the Board, President and Chief Executive Officer. He joined Adobe in January 1998 as Vice President and General Manager of our engineering technology group. In January 1999, he was promoted to Senior Vice President, Worldwide Products, and in March 2001 he was promoted to Executive Vice President, Worldwide Product Marketing and Development. In January 2005, Mr. Narayen was promoted to President and Chief Operating Officer, and effective December 2007, he was appointed our Chief Executive Officer and joined our Board of Directors. In January 2017, he was named our Chairman of the Board. Mr. Narayen serves as lead independent director on the board of directors of Pfizer, a multinational pharmaceutical corporation. He previously served as a director of Dell from September 2009 to October 2013. Mr. Narayen holds a B.S. in Electronics Engineering from Osmania University in India, a M.S. in Computer Science from Bowling Green State University and an M.B.A. from the Haas School of Business, University of California, Berkeley.
John Murphy	50	Executive Vice President and Chief Financial Officer
		Mr. Murphy currently serves as our Executive Vice President and Chief Financial Officer. He joined Adobe in March 2017 and served as our Senior Vice President, Chief Accounting Officer and Corporate Controller until April 2018. Prior to joining Adobe, Mr. Murphy served as Senior Vice President, Chief Accounting Officer and Corporate Controller of Qualcomm Incorporated from September 2014 to March 2017. He previously served as Senior Vice President, Controller and Chief

Accounting Officer of DIRECTV Inc. from November 2007 until August 2014, and Vice President and General Auditor of DIRECTV from October 2004 to November 2007. Prior to joining DIRECTV he worked at several global companies, including Experian, Nestle, and Atlantic Richfield (ARCO), in a variety of finance and accounting roles. He served as Director of DirecTV Holdings LLC from November 2007 until August 2014. Mr. Murphy serves on the Corporate Advisory Board of the Marshall School of Business at the University of Southern California. He holds an MBA from the Marshall School of Business at the University of Southern California, a B.S. in Accounting from Fordham University and is a Certified Public Accountant.

Table of Contents

Name	Age	Positions
		Chief Product Officer and Executive Vice President, Creative Cloud
Scott Belsky	38	Mr. Belsky joined Adobe in December 2017 as Chief Product Officer and Executive Vice President, Creative Cloud. Prior to joining Adobe in December 2017, Belsky was a venture investor at Benchmark in San Francisco from February 2016 to December 2017. Prior to Benchmark, Belsky led Adobe's mobile strategy for Creative Cloud from December 2012 to January 2016, having joined the company through the acquisition of Behance. Belsky co-founded Behance in 2006 and served as its CEO for over 6 years. He is an early advisor and investor to Pinterest, Uber, and Warby Parker among other early-stage companies, and co-founded and serves on the board of Prefer, a referrals platform that empowers the careers of independent professionals. Mr. Belsky also serves on the advisory board of Cornell University's Entrepreneurship Program and as President of the Smithsonian Cooper-Hewitt National Design Museum board of trustees. Executive Vice President and General Manager, Digital Media
Bryan Lamkin	58	Mr. Lamkin currently serves as Executive Vice President and General Manager, Digital Media. He rejoined Adobe in February 2013 as Senior Vice President, Technology and Corporate Development. From June 2011 to May 2012, Mr. Lamkin served as President and Chief Executive Officer of Clover, a mobile payments platform. Prior to Clover, Mr. Lamkin co-founded and served as the Chief Executive Officer of Bagcheck, a sharing and discovery platform, from June 2010 to May 2011. From April 2009 to June 2010, Mr. Lamkin served as Senior Vice President of Consumer Products and Applications at Yahoo!, a global technology company providing online search, content and communication tools. From May 2008 to April 2009, Mr. Lamkin served as Executive in Residence at Sutter Hill Ventures. Mr. Lamkin previously was with Adobe from 1992 to 2006 and held various senior management positions including Senior Vice President, Creative Solutions Business Unit. Executive Vice President and Chief Marketing Officer
Ann Lewnes	57	Ms. Lewnes joined Adobe in November 2006 and currently serves as Executive Vice President and Chief Marketing Officer. Prior to joining Adobe, Ms. Lewnes spent 20 years at Intel Corporation, where she was Vice President of Sales and Marketing. Ms. Lewnes is a board member of Mattel, The Ad Council, and the Adobe Foundation. Chief Human Resources Officer and Executive Vice President, Employee Experience
Donna Morris	51	Ms. Morris currently serves as Chief Human Resources Officer and Executive Vice President of Adobe's Global Customer and Employee Experience organization. Ms. Morris joined Adobe as Senior Director of Global Talent Management in April 2002 through the acquisition of Accelio Corporation, a Canadian software company, where she served as Vice President of Human Resources and Learning. In December 2005, Ms. Morris was promoted to Vice President Global Human Resources Operations and subsequently to Senior Vice President Human Resources in March 2007. Ms. Morris is a director of Marvell Technology Group Limited and the Adobe Foundation. Executive Vice President and Chief Technology Officer
Abhay Parasnis	44	Mr. Parasnis joined Adobe in July 2015 as Senior Vice President of Adobe's Cloud Technology & Services organization and Chief Technology Officer. Prior to joining Adobe, he served as President and Chief Operating Officer at Kony, Inc. from March 2013 to March 2015. From January 2012 to November 2013, Mr. Parasnis was a Senior Vice President and later Strategic Advisor for the Oracle Public Cloud at Oracle. Prior to joining Oracle, he was General Manager of Microsoft Azure AppFabric at Microsoft from April 2009 to December 2011.

Executive Vice President, General Counsel and Corporate Secretary

Dana
Rao

49

Mr. Rao currently serves as our Executive Vice President, General Counsel and Corporate Secretary. He joined Adobe in April 2012 and served as our Vice President, Intellectual Property and Litigation where he spearheaded strategic initiatives including the company's litigation efforts, and its patent, trademark and copyright portfolio strategies until June 2018. Prior to joining Adobe, Mr. Rao was with Microsoft Corporation for 11 years, serving in a variety of roles including Associate General Counsel of Intellectual Property and Licensing, where he oversaw all patent matters for Microsoft's entertainment and devices division as well as the company-wide patent acquisition team. From 1997 until March 2001, he served as a patent attorney at Fenwick & West. He holds a B.S. in Electrical Engineering from Villanova University and a J.D. from George Washington University.

Table of Contents

Name	Age	Positions
		Executive Vice President and General Manager, Digital Experience
Bradley Rencher	45	Mr. Rencher serves as Executive Vice President and General Manager of Adobe's Digital Experience business unit. Mr. Rencher joined Omniture, Inc. in January 2008 as Vice President of Corporate Development and was promoted to Senior Vice President of Business Operations prior to Adobe's acquisition of Omniture in 2009. Following the acquisition, he joined Adobe as Vice President of Business Operations. Mr. Rencher was promoted to Vice President and General Manager, Omniture business unit in 2010 and subsequently to Senior Vice President in 2011. Prior to joining Omniture, Mr. Rencher was a member of the technology investment banking team at Morgan Stanley from 2005 to 2008 and a member of the investment banking team at RBC Capital Markets from 1998 to 2004. Mr. Rencher is a director of Pluralsight and the Utah Symphony. Executive Vice President, Worldwide Field Operations
Matthew Thompson	60	Mr. Thompson currently serves as Executive Vice President, Worldwide Field Operations. Mr. Thompson joined Adobe in January 2007 as Senior Vice President, Worldwide Field Operations. In January 2013, he was promoted to Executive Vice President, Worldwide Field Operations. Prior to joining Adobe, Mr. Thompson served as Senior Vice President of Worldwide Sales at Borland Software Corporation, a software delivery optimization solutions provider, from October 2003 to December 2006. Prior to joining Borland, Mr. Thompson was Vice President of Worldwide Sales and Field Operations for Marimba, Inc., a provider of products and services for software change and configuration management, from February 2001 to January 2003. From July 2000 to January 2001, Mr. Thompson was Vice President of Worldwide Sales for Calico Commerce, Inc., a provider of eBusiness applications. Prior to joining Calico, Mr. Thompson spent six years at Cadence Design Systems, Inc., a provider of electronic design technologies. While at Cadence, from January 1998 to June 2000, Mr. Thompson served as Senior Vice President, Worldwide Sales and Field Operations and from April 1994 to January 1998 as Vice President, Worldwide Professional Services. Mr. Thompson is a board member of NCR Corporation. Vice President, Chief Accounting Officer and Corporate Controller
Mark Garfield	48	Mr. Garfield currently serves as our Vice President, Chief Accounting Officer and Corporate Controller. Prior to joining Adobe in December 2018, Mr. Garfield served as the Vice President of Finance of Cloudflare, Inc. commencing in November 2017. He served as Senior Vice President and Chief Accounting Officer at Symantec Corporation from March 2014 to October 2017. Prior to joining Symantec, he was at Brightstar Corporation where he served primarily as Senior Vice President and Chief Accounting Officer from January 2013 to February 2014. Mr. Garfield served as Director of Finance at Advanced Micro Devices from August 2010 to December 2012. Prior to Advanced Micro Devices, Mr. Garfield also served in senior level finance roles at LoudCloud and Ernst and Young. Mr. Garfield holds a B.A. in Business Economics from University of California at Santa Barbara.

Table of Contents

ITEM 1A. RISK FACTORS

As previously discussed, our actual results could differ materially from our forward-looking statements. Below we discuss some of the factors that could cause these differences. These and many other factors described in this report could adversely affect our operations, performance and financial condition.

Our competitive position and results of operations could be harmed if we do not compete effectively.

The markets for our products and services are characterized by intense competition, new industry standards, evolving distribution models, limited barriers to entry, disruptive technology developments, short product life cycles, customer price sensitivity and frequent product introductions (including alternatives with limited functionality available at lower costs or free of charge). Any of these factors could create downward pressure on pricing and gross margins and could adversely affect our renewal and upsell and cross-sell rates, as well as our ability to attract new customers. Our future success will depend on our continued ability to enhance and integrate our existing products and services, introduce new products and services in a timely and cost-effective manner, meet changing customer expectations and needs, extend our core technology into new applications, and anticipate emerging standards, business models, software delivery methods and other technological developments. Furthermore, some of our competitors and potential competitors enjoy competitive advantages such as greater financial, technical, sales, marketing and other resources, broader brand awareness, and access to larger customer bases. As a result of these advantages, potential and current customers might select the products and services of our competitors, causing a loss of our market share. In addition, consolidation has occurred among some of our competitors. Further consolidations in these markets may subject us to increased competitive pressures and may harm our results of operations.

For additional information regarding our competition and the risks arising out of the competitive environment in which we operate, see the section entitled “Competition” contained in Part I. Item 1 of this report.

If we cannot continue to develop, acquire, market and offer new products and services or enhancements to existing products and services that meet customer requirements, our operating results could suffer.

The process of developing and acquiring new technology products and services and enhancing existing offerings is complex, costly and uncertain. If we fail to anticipate customers’ rapidly changing needs and expectations or adapt to emerging technological trends, our market share and results of operations could suffer. We must make long-term investments, develop, acquire or obtain appropriate intellectual property and commit significant resources before knowing whether our predictions will accurately reflect customer demand for our products and services. If we misjudge customer needs in the future, our new products and services may not succeed and our revenues and earnings may be harmed. Additionally, any delay in the development, acquisition, marketing or launch of a new offering or enhancement to an existing offering could result in customer attrition or impede our ability to attract new customers, causing a decline in our revenue, earnings or stock price and weakening our competitive position.

We offer our products on a variety of hardware platforms. Consumers continue to migrate from personal computers to tablet and mobile devices. If we cannot continue adapting our products to tablet and mobile devices, or if our competitors can adapt their products more quickly than us, our business could be harmed. Releases of new devices or operating systems may make it more difficult for our products to perform or may require significant costs in order for us to adapt our solutions to such devices or operating systems. These potential costs and delays could harm our business.

Introduction of new technology could harm our business and results of operations.

The expectations and needs of technology consumers are constantly evolving. Our future success depends on a variety of factors, including our continued ability to innovate, introduce new products and services efficiently, enhance and integrate our products and services in a timely and cost-effective manner, extend our core technology into new applications, and anticipate emerging standards, business models, software delivery methods and other technological developments. Integration of our products and services with one another and other companies’ offerings creates an increasingly complex ecosystem that is partly reliant on third parties. If any disruptive technology, or competing products, services or operating systems that are not compatible with our solutions, achieve widespread acceptance, our operating results could suffer and our business could be harmed.

The introduction of certain technologies may reduce the effectiveness of our products. For example, some of our products rely on third-party cookies, which are placed on individual browsers when consumers visit websites that contain advertisements. We use these cookies to help our customers more effectively advertise, gauge the performance of their advertisements, and detect and prevent fraudulent activity. Consumers can block or delete cookies through their browsers or “ad-blocking” software or applications. The most common Internet browsers allow consumers to modify their browser settings to prevent cookies from being accepted by their browsers, or are set to block third-party cookies by default. Increased use of methods, software or applications that block cookies could harm our business.

Table of Contents

Security breaches in data centers we manage, or third parties manage on our behalf, may compromise the confidentiality, integrity, or availability of employee and customer data, which could expose us to liability and adversely affect our reputation and business.

We process and store significant amounts of employee and customer data, most of which is hosted by third-party service providers. A security incident impacting our own data centers or those controlled by our service providers may compromise the confidentiality, integrity or availability of this data. Unauthorized access to or loss or disclosure of data stored by Adobe or our service providers may occur through break-ins, breaches of a secure network by an unauthorized party, software vulnerabilities or coding errors, employee theft or misuse or other misconduct. It is also possible that unauthorized access to or disclosure of customer data may be obtained through inadequate use of security controls by customers or employees. Accounts created with weak or recycled passwords could allow cyber-attackers to gain access to customer data. Additionally, failure by customers to remove accounts of their own employees, or the granting of accounts by the customer in an uncontrolled manner, may allow for access by former or unauthorized customer representatives. If there were an inadvertent disclosure of customer data, or if a third party were to gain unauthorized access to the data we possess on behalf of our customers, our operations could be disrupted, our reputation could be damaged and we could be subject to claims or other liabilities, regulatory investigations, or fines. In addition, such perceived or actual unauthorized loss or disclosure of the information we collect or breach of our security could damage our reputation, result in the loss of customers and harm our business.

We rely on data centers managed both by Adobe and third parties to host and deliver our services, as well as access, collect, use, transmit, and store data, and any interruptions or delays in these hosted services, or failures in data collection or transmission could expose us to liability and harm our business and reputation.

Much of our business relies on hardware and services that are hosted, managed, and controlled directly by Adobe or third-party service providers, including our online store at adobe.com, Creative Cloud, Document Cloud, and Experience Cloud solutions. We do not have redundancy for all of our systems, many of our critical applications reside in only one of our data centers, and our disaster recovery planning may not account for all eventualities. If our business relationship with a third-party provider of hosting or content delivery services is negatively affected, or if one of our content delivery suppliers were to terminate its agreement with us, without adequate notice, we might not be able to deliver the corresponding hosted offerings to our customers, which could subject us to reputational harm, costly and time intensive notification requirements, and cause us to lose customers and future business. Occasionally, we migrate data among data centers and to third-party hosted environments. If a transition among data centers or to third-party service providers encounters unexpected interruptions, unforeseen complexity, or unplanned disruptions despite precautions undertaken during the process, this may impair our delivery of products and services to customers and result in increased costs and liabilities, which may harm our operating results and our business.

It is also possible that hardware or software failures or errors in our systems (or those of our third-party service providers) could result in data loss or corruption, cause the information that we collect or maintain to be incomplete or contain inaccuracies that our customers regard as significant, or cause us to fail to meet committed service levels or comply with regulatory notification requirements. Furthermore, our ability to collect and report data may be delayed or interrupted by a number of factors, including access to the Internet, the failure of our network or software systems, security breaches or significant variability in visitor traffic on customer websites. In addition, computer viruses, worms, or other malware may harm our systems, causing us to lose data, and the transmission of computer viruses or other malware could expose us to litigation or regulatory investigation, and costly and time intensive notification requirements.

We may also find, on occasion, that we cannot deliver data and reports to our customers in near real time because of a number of factors, including significant spikes in customer activity on their websites or failures of our network or software, or the failure of our third-party service providers' network or software. If we fail to plan infrastructure capacity appropriately and expand it proportionally with the needs of our customer base, and we experience a rapid and significant demand on the capacity of our data centers or those of third parties, service outages could occur, and our customers could suffer impaired performance of our services. Such a strain on our infrastructure capacity could subject us to regulatory notification requirements, violations of service level agreement commitments, financial

liabilities, result in customer dissatisfaction, or harm our business. If we supply inaccurate information or experience interruptions in our ability to capture, store and supply information in near real time or at all, our reputation could be harmed and we could lose customers as a result, or we could be found liable for damages or incur other losses.

Increasing regulatory focus on privacy issues and expanding laws could impact our business models and expose us to increased liability.

As a global company, Adobe is subject to global privacy and data security laws, regulations, and codes of conduct that apply to our various business units. These laws and regulations may be inconsistent across jurisdictions and are subject to evolving and differing (sometimes conflicting) interpretations. Government regulators, privacy advocates and class action attorneys are

Table of Contents

increasingly scrutinizing how companies collect, process, use, store, share and transmit personal data. This increased scrutiny may result in new interpretations of existing laws, thereby further impacting Adobe's business. Globally, new and emerging laws, such as the General Data Protection Regulation ("GDPR") in Europe, state laws in the U.S. on privacy, data and related technologies, such as the California Consumer Privacy Act, as well as industry self-regulatory codes create new compliance obligations and expand the scope of potential liability, either jointly or severally with our customers and suppliers. While we have invested in readiness to comply with applicable requirements, these new and emerging laws, regulations and codes may affect our ability (and our enterprise customers' ability) to reach current and prospective customers, to respond to both enterprise and individual customer requests under the laws (such as individual rights of access, correction, and deletion of their personal information), and to implement our business models effectively. These new laws may also impact our innovation and business drivers in developing new and emerging technologies (e.g., artificial intelligence and machine learning). These requirements, among others, may impact demand for our offerings and force us to bear the burden of more onerous obligations in our contracts. Any perception of our practices, products or services as a violation of individual privacy rights may subject us to public criticism, class action lawsuits, reputational harm, or investigations or claims by regulators, industry groups or other third parties, all of which could disrupt our business and expose us to increased liability. Additionally, we collect and store information on behalf of our business customers and if our customers fail to comply with contractual obligations or applicable laws, it could result in litigation or reputational harm to us.

Transferring personal information across international borders is becoming increasingly complex. For example, European data transfers outside the European Economic Area are highly regulated. The mechanisms that we and many other companies rely upon for European data transfers (e.g. Privacy Shield and Model Clauses) are being contested in the European court system. We are closely monitoring developments related to requirements for transferring personal data outside the EU and other countries that have similar trans-border data flow requirements. These requirements may result in an increase in the obligations required to provide our services in the EU or in sanctions and fines for non-compliance. Several other countries, including Australia and Japan, have also established specific legal requirements for cross-border transfers of personal information. Other countries, such as India, are considering requirements for data localization (e.g. where personal data must remain in the country). If the mechanisms for transferring personal information from certain countries or areas, including Europe to the United States should be found invalid or if other countries implement more restrictive regulations for cross-border data transfers (or not permit data to leave the country of origin), such developments could harm our business, financial condition and results of operations.

Security vulnerabilities in our products and systems could lead to reduced revenue or to liability claims.

Maintaining the security of our products, computers and networks is a critical issue for us and our customers. Security researchers, criminal hackers and other third parties regularly develop new techniques to penetrate computer and network security measures and, as we have previously disclosed, certain parties have in the past managed to breach and misuse some of our systems and software in order to access our end users' authentication and payment information. In addition, cyber-attackers also develop and deploy viruses, worms, credential stuffing attack tools, and other malicious software programs, some of which may be specifically designed to attack our products, systems, computers or networks. Sophisticated hardware and operating system applications that we develop or procure from third parties may contain defects in design or manufacture, including bugs, vulnerabilities and other problems that could unexpectedly compromise the security of the system or impair a customer's ability to operate or use our products. The costs to prevent, eliminate, notify affected parties of, or alleviate cyber- or other security problems, bugs, viruses, worms, malicious software programs and security vulnerabilities are significant, and our efforts to address these problems may not be successful or may be delayed and could result in interruptions, delays, cessation of service and loss of existing or potential customers. It is impossible to predict the extent, frequency or impact these problems may have on us.

Outside parties have in the past and may in the future attempt to fraudulently induce our employees or users of our products or services to disclose sensitive information via illegal electronic spamming, phishing or other tactics. Unauthorized parties may also attempt to gain physical access to our facilities in order to infiltrate our information systems or attempt to gain logical access to our products, services, or information systems for the purpose of exfiltrating content and data. These actual and potential breaches of our security measures and the accidental loss, inadvertent disclosure or unauthorized dissemination of proprietary information or sensitive, personal or confidential data about us, our employees, our customers or their end users, including the potential loss or disclosure of such information or data as a result of hacking, fraud, trickery or other forms of deception, could expose us, our employees, our customers or the individuals affected to a risk of loss or misuse of this information. This may result in litigation and liability or fines, our compliance with costly and time intensive notice requirements, governmental inquiry or oversight or a loss of customer confidence, any of which could harm our business or damage our brand and reputation, possibly impeding our present and future success in retaining and attracting new customers and thereby requiring time and resources to repair our brand and reputation. These risks will likely increase as we expand our hosted offerings, integrate our products and services, and store and process more data, including personal information. These problems affect our products and services in particular because cyber-attackers tend to focus their efforts on popular offerings with a large user base, and we expect them to continue to do so. Critical vulnerabilities may be identified in some of our

Table of Contents

applications and services and those of our third-party service providers. These vulnerabilities could cause such applications and services to crash and could allow an attacker to take control of the affected system, which could result in liability to us or limit our ability to conduct our business and deliver our products and services to customers. We devote significant resources to address security vulnerabilities through engineering more secure products, enhancing security and reliability features in our products and systems, code hardening, conducting rigorous penetration tests, deploying updates to address security vulnerabilities, reviewing our service providers' security controls, and improving our incident response time, but these security vulnerabilities cannot be totally eliminated. The cost of these steps could reduce our operating margins, and we may be unable to implement these measures quickly enough to prevent cyber-attackers from gaining unauthorized access into our systems and products. Despite our preventative efforts, actual or perceived security vulnerabilities in our products and systems may harm our reputation or lead to claims against us (and have in the past led to such claims), and could lead some customers to stop using certain products or services, to reduce or delay future purchases of products or services, or to use competing products or services. If we do not make the appropriate level of investment in our technology systems or if our systems become out-of-date or obsolete and we are not able to deliver the quality of data security customers require, our business could be adversely affected. Customers may also adopt security measures designed to protect their existing computer systems from attack, which could delay adoption of new technologies. Further, if we or our customers are subject to a future attack, or our technology is used in a third-party attack, we could be subject to costly and time intensive notice requirements, and it may be necessary for us to take additional extraordinary measures and make additional expenditures to take appropriate responsive and preventative steps. Any of these events could adversely affect our revenue or margins. Moreover, delayed sales, lower margins or lost customers resulting from disruptions caused by cyber-attacks or preventative measures could adversely affect our financial results, stock price and reputation. Some of our enterprise offerings have extended and complex sales cycles, which can make our sales cycles unpredictable.

Sales cycles for some of our enterprise offerings, including our Adobe Experience Cloud solutions and ETLAs in our Digital Media business, are multi-phased and complex. The complexity in these sales cycles is due to several factors, including:

- the need for our sales representatives to educate customers about the use and benefit of large-scale deployments of our products and services, including technical capabilities, security features, potential cost savings and return on investment;

- the desire of organizations to undertake significant evaluation processes to determine their technology requirements prior to making information technology expenditures;

- the need for our representatives to spend a significant amount of time assisting potential customers in their testing and evaluation of our products and services;

- intensifying competition within the industry;

- the negotiation of large, complex, enterprise-wide contracts;

- the need for our customers to obtain requisition approvals from various decision makers within their organizations due to the complexity of our solutions touching multiple departments within customers' organizations; and

- customer budget constraints, economic conditions and unplanned administrative delays.

We spend substantial time and expense on our sales efforts without assurance that potential customers will ultimately purchase our solutions. As we target our sales efforts at larger enterprise customers, these trends are expected to continue and could have a greater impact on our results of operations. Additionally, our enterprise sales pattern has

historically been uneven, where a higher percentage of a quarter's total sales occur during the final weeks of each quarter, which is common in our industry. Our extended sales cycle for these products and services makes it difficult to predict when a given sales cycle will close.

Subscription offerings could create risks related to the timing of revenue recognition.

We generally recognize revenue from subscription offerings ratably over the terms of their subscription agreements, which range from 1 to 36 months. As a result, most of the subscription revenue we report in each quarter is the result of subscription agreements entered into during previous quarters. Any reduction in new or renewed subscriptions in a quarter may not be reflected in our revenue results until a later quarter. Declines in new or renewed subscriptions may decrease our revenue in future quarters. Lower sales, reduced demand for our products and services, and increases in our attrition rate may not be fully reflected in our results of operations until future periods. Our subscription model could also make it difficult for us to rapidly increase our revenue from subscription-based or hosted services through additional sales in any period, as revenue from new customers will be recognized over the applicable subscription term.

Table of Contents

Additionally, in connection with our sales efforts to enterprise customers and our use of ETLAs, a number of factors could affect our revenue, including longer-than-expected sales and implementation cycles, potential deferral of revenue due to multiple-element revenue arrangements and alternative licensing arrangements. If any of our assumptions about revenue from our subscription-based offerings prove incorrect, our actual results may vary materially from those anticipated.

If our customers fail to renew subscriptions in accordance with our expectations, our future revenue and operating results could suffer.

Our Adobe Experience Cloud, Creative Cloud, and Document Cloud offerings typically involve subscription-based offerings pursuant to product and service agreements. Revenue from our subscription customers is generally recognized ratably over the term of their agreements, which typically range from 1 to 36 months. Our customers have no obligation to renew their subscriptions for our services after the expiration of their initial subscription period, and customers may not renew their subscriptions at the same or higher level of service, for the same number of seats or for the same duration of time, if at all. Moreover, under certain circumstances, some of our customers have the right to cancel their agreements prior to the expiration of the terms. Our varied customer base combined with the flexibility we offer in the length of our subscription-based agreements complicates our ability to precisely forecast renewal rates. Therefore, we cannot provide assurance that we will be able to accurately predict future customer renewal rates.

Our customers' renewal rates may decline or fluctuate as a result of a number of factors, including their level of satisfaction with our services, our ability to continue enhancing features and functionality, the reliability (including uptime) of our subscription offerings, the prices of offerings and those offered by our competitors, the actual or perceived information security of our systems and services, decreases in the size of our customer base, reductions in our customers' spending levels or declines in customer activity as a result of economic downturns or uncertainty in financial markets. If our customers do not renew their subscriptions or if they renew on terms less favorable to us, our revenue may decline.

We may not realize the anticipated benefits of past or future investments or acquisitions, and integration of acquisitions may disrupt our business and management.

We may not realize the anticipated benefits of an investment or acquisition of a company, division, product or technology, each of which involves numerous risks. These risks include:

- inability to achieve the financial and strategic goals for the acquired and combined businesses;
- difficulty in, and the cost of, effectively integrating the operations, technologies, products or services, and personnel of the acquired business;
- entry into markets in which we have minimal prior experience and where competitors in such markets have stronger market positions;
- disruption of our ongoing business and distraction of our management and other employees from other opportunities and challenges;
- inability to retain personnel of the acquired business;
- inability to retain key customers, distributors, vendors and other business partners of the acquired business;
- inability to take advantage of anticipated tax benefits;
- incurring acquisition-related costs or amortization costs for acquired intangible assets that could impact our operating results;
- elevated delinquency or bad debt write-offs related to receivables of the acquired business we assume;

• increased accounts receivables collection times and working capital requirements associated with acquired business models;

• additional costs of bringing acquired companies into compliance with laws and regulations applicable to a multinational corporation;

• difficulty in maintaining controls, procedures and policies during the transition and integration;

Table of Contents

- impairment of our relationships with employees, customers, partners, distributors or third-party providers of our technologies, products or services;
- failure of our due diligence processes to identify significant problems, liabilities or other challenges of an acquired company or technology;
- exposure to litigation or other claims in connection with, or inheritance of claims or litigation risk as a result of, an acquisition, such as claims from terminated employees, customers, former stockholders or other third parties;
- incurring significant exit charges if products or services acquired in business combinations are unsuccessful;
- inability to conclude that our internal controls over financial reporting are effective;
- inability to obtain, or obtain in a timely manner, approvals from governmental authorities, which could delay or prevent such acquisitions;
- the failure of strategic investments to perform as expected or to meet financial projections;
- delay in customer and distributor purchasing decisions due to uncertainty about the direction of our product and service offerings; and
- incompatibility of business cultures.

Mergers and acquisitions of technology companies are inherently risky. If we do not complete an announced acquisition transaction or integrate an acquired business successfully and in a timely manner, we may not realize the benefits of the acquisition to the extent anticipated, and in certain circumstances an acquisition could harm our financial position.

Our business could be harmed if we fail to effectively manage critical strategic third-party business relationships.

As our offerings expand and our customer base grows, our relationships with strategic partners become increasingly valuable. If our contractual relationships with these third parties were to terminate, or if we were unable to renew on favorable terms, our business could be harmed. This is especially the case when the third party's offerings are integrated with our products and services, or where the third party's offerings are difficult to substitute or replace. Alternative arrangements for such products and services may not be available to us, or on commercially reasonable terms, and we may experience business interruptions upon a transition to an alternative partner. The failure of third parties to provide acceptable products and services or to update their technology may result in a disruption to our business operations and those of our customers, which may reduce our revenues and profits, cause us to lose customers and damage our reputation.

We face various risks associated with our operating as a multinational corporation.

As a global business that generates approximately 43% of our total revenue from sales to customers outside of the Americas, we are subject to a number of risks, including:

- foreign currency fluctuations and controls;
- international and regional economic, political and labor conditions, including any instability or security concerns abroad;
- tax laws (including U.S. taxes on foreign subsidiaries);

- increased financial accounting and reporting burdens and complexities;
- changes in, or impositions of, legislative or regulatory requirements;
- changes in laws governing the free flow of data across international borders;
- failure of laws to protect our intellectual property rights adequately;
- inadequate local infrastructure and difficulties in managing and staffing international operations;

Table of Contents

• delays resulting from difficulty in obtaining export licenses for certain technology, tariffs, quotas and other trade barriers;

• the imposition of governmental economic sanctions on countries in which we do business or where we plan to expand our business;

• costs and delays associated with developing products in multiple languages;

• operating in locations with a higher incidence of corruption and fraudulent business practices; and

• other factors beyond our control, such as terrorism, war, natural disasters and pandemics.

Some of our third-party business partners have international operations and are also subject to these risks and if our third-party business partners are unable to appropriately manage these risks, our business may be harmed. If sales to any of our customers outside of the Americas are reduced, delayed or canceled because of any of the above factors, our revenue may decline.

We are subject to risks associated with compliance with laws and regulations globally, which may harm our business. We are a global company subject to varied and complex laws, regulations and customs, both domestically and internationally. These laws and regulations relate to a number of aspects of our business, including trade protection, import and export control, data and transaction processing security, payment card industry data security standards, records management, user-generated content hosted on websites we operate, privacy practices, data residency, corporate governance, anti-trust and competition, employee and third-party complaints, anti-corruption, gift policies, conflicts of interest, securities regulations and other regulatory requirements affecting trade and investment. The application of these laws and regulations to our business is often unclear and may at times conflict. For example, in many foreign countries, particularly in those with developing economies, it is common to engage in business practices that are prohibited by U.S. regulations applicable to us, including the Foreign Corrupt Practices Act. We cannot provide assurance that our employees, contractors, agents, and business partners will not take actions in violation of our internal policies or U.S. laws. Compliance with these laws and regulations may involve significant costs or require changes in our business practices that result in reduced revenue and profitability. Non-compliance could also result in fines, damages, criminal sanctions against us, our officers or our employees, prohibitions on the conduct of our business, and damage to our reputation.

In addition, approximately 49% of our employees are located outside the United States. Accordingly, we are exposed to changes in laws governing our employee relationships in various U.S. and foreign jurisdictions, including laws and regulations regarding wage and hour requirements, fair labor standards, employee data privacy, unemployment tax rates, workers' compensation rates, citizenship requirements and payroll and other taxes, which likely would have a direct impact on our operating costs.

Changes in accounting principles, or interpretations thereof, could have a significant impact on our financial position and results of operations.

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP"). These principles are subject to interpretation by the SEC and various bodies formed to interpret and create appropriate accounting principles. A change in these principles, how the principles are interpreted, or the adoption of new accounting standards can have a significant effect on our reported results, and could even retroactively affect previously reported transactions, and may require that we make significant changes to our systems, processes and controls.

Changes resulting from these new standards may result in materially different financial results and may require that we change how we process, analyze and report financial information and that we change financial reporting controls. For additional information regarding these new standards, see the section titled "Recent Accounting Pronouncements

Not Yet Effective” within Part II. Item 8, Note 1. Basis of Presentation and Summary of Significant Accounting Policies.

Such changes in accounting principles may have an adverse effect on our business, financial position, and income, or cause an adverse deviation from our revenue and profitability targets, which may negatively impact our financial results.

Changes in tax rules and regulations, or interpretations thereof, may adversely affect our effective tax rates.

We are a United States-based multinational company subject to tax in multiple U.S. and foreign tax jurisdictions. The Tax Act, enacted into law on December 22, 2017, changes existing U.S. tax law applicable to us and includes adoption of a territorial tax system requiring us to incur a transition tax on previously untaxed earnings and profits of our foreign subsidiaries. A significant portion of our foreign earnings for the current fiscal year were earned by our Irish subsidiaries. As part of the adoption of a territorial

Table of Contents

tax system, the Tax Act also provides an exemption from federal income taxes for distributions from foreign subsidiaries made after December 31, 2017 that were not subject to the one-time transition tax. In addition, certain international provisions introduced in the Tax Act will be effective for us in fiscal 2019. These provisions and changes that we may make to our corporate tax structure could adversely affect our tax rate and cash flow in future years. Our income tax expense has differed from the tax computed at the U.S. federal statutory income tax rate due primarily to discrete items and to tax on earnings from foreign operations. Unanticipated changes in our tax rates could affect our future results of operations. Our future effective tax rates could be unfavorably affected by changes in the tax rates in jurisdictions where our income is earned, by changes in or our interpretation of tax rules and regulations in the jurisdictions in which we do business, by unanticipated decreases in the amount of earnings in countries with low statutory tax rates, by unexpected negative changes in business and market conditions that could reduce certain tax benefits, or by changes in the valuation of our deferred tax assets and liabilities.

In addition, in the United States, the European Commission, countries in the European Union and other countries where we do business, we are subject to potential changes in relevant tax, accounting and other laws, regulations and interpretations, including changes to tax laws applicable to corporate multinationals such as Adobe. These countries and other governmental bodies have or could make unprecedented assertions about how taxation is determined in their jurisdictions that are contrary to the way in which we have interpreted and historically applied the rules and regulations described above in our income tax returns filed in such jurisdictions. In the current global tax policy environment, any changes in laws, regulations and interpretations related to these assertions could adversely affect our effective tax rates or result in other costs to us which could adversely affect our operations and financial results.

Moreover, we are subject to the continual examination of our income tax returns by the U.S. Internal Revenue Service (“IRS”) and other domestic and foreign tax authorities. These tax examinations are expected to focus on our intercompany transfer pricing practices as well as other matters. We regularly assess the likelihood of outcomes resulting from these examinations to determine the adequacy of our provision for income taxes and have reserved for adjustments that may result from these examinations. We cannot provide assurance that the final determination of any of these examinations will not have an adverse effect on our operating results and financial position.

Uncertainty about current and future economic conditions and other adverse changes in general political conditions in any of the major countries in which we do business could adversely affect our operating results.

As our business has grown, we have become increasingly subject to the risks arising from adverse changes in economic and political conditions, both domestically and globally. Uncertainty about the effects of current and future economic and political conditions on us, our customers, suppliers and partners makes it difficult for us to forecast operating results and to make decisions about future investments. If economic growth in countries where we do business slows, customers may delay or reduce technology purchases, advertising spending or marketing spending. This could result in reductions in sales of our products and services, more extended sales cycles, slower adoption of new technologies and increased price competition. Among our customers are government entities, including the U.S. federal government, and our revenue could decline if spending cuts impact the government’s ability to purchase our products and services. Deterioration in economic conditions in any of the countries in which we do business could also cause slower or impaired collections on accounts receivable, which may adversely impact our liquidity and financial condition.

A disruption in financial markets could impair our banking partners, on which we rely for operating cash management and affect our derivative counterparties. Any of these events would likely harm our business, financial condition, and results of operations.

Political instability or adverse political developments in or around any of the major countries in which we do business would also likely harm our business, results of operations and financial condition.

The success of some of our product and service offerings depends on our ability to continue to attract and retain customers of and contributors to our online marketplaces for creative content.

The success of some of our product and service offerings, such as Adobe Stock, depends on our ability to continue to attract new customers and contributors to these online marketplaces for creative content, as well as our ability to continue to retain existing customers and contributors. An increase in paying customers has generally resulted in more content from contributors, which increases the size of our collection and in turn attracts new paying customers. We rely on the functionality and features of our online marketplaces, the size and content of our collection and the effectiveness of our marketing efforts to attract new customers and contributors and retain existing ones. New technologies may render the features of our online marketplaces obsolete, our

Table of Contents

collection may fail to grow as anticipated or our marketing efforts may be unsuccessful, any of which may adversely affect our results of operations.

Our intellectual property portfolio is a valuable asset and we may not be able to protect our intellectual property rights, including our source code, from infringement or unauthorized copying, use or disclosure.

Our intellectual property portfolio is a valuable asset. Infringement or misappropriation of our patents, trademarks, trade secrets, copyrights and other intellectual property rights could result in lost revenues and ultimately reduce their value. Preventing unauthorized use or infringement of our intellectual property rights is inherently difficult. We actively combat software piracy as we enforce our intellectual property rights, but we nonetheless lose significant revenue due to illegal use of our software. If piracy activities continue at historical levels or increase, they may further harm our business. We apply for patents in the U.S. and internationally to protect our newly created technology and if we are unable to obtain patent protection for the technology described in our pending patent, or if the patent is not obtained timely, this could result in revenue loss, adverse effects on operations, and harm to our business. We offer our products and services in foreign countries and we may seek intellectual property protection from those foreign legal systems. Some of those foreign countries may not have as robust or comprehensive of intellectual property protection laws and schemes as those offered in the U.S. In some foreign countries, the mechanisms to enforce intellectual property rights may be inadequate to protect our technology, which could harm our business.

If unauthorized disclosure of our source code occurs through security breach, cyber-attack or otherwise, we could lose future trade secret protection for that source code. The loss of future trade secret protection could make it easier for third parties to compete with our products by copying functionality, which could cause us to lose customers and could adversely affect our revenue and operating margins. We also seek to protect our confidential information and trade secrets through the use of non-disclosure agreements with our customers, contractors, vendors and partners. However, there is a risk that our confidential information and trade secrets may be disclosed or published without our authorization, and in these situations, enforcing our rights may be difficult or costly.

We may incur substantial costs defending against third parties alleging that we infringe their proprietary rights.

We have been, are currently, and may in the future be, subject to claims, negotiations and complex, protracted litigation relating to disputes regarding the validity or alleged infringement of third-party intellectual property rights, including patent rights. Intellectual property disputes and litigation are typically costly and can be disruptive to our business operations by diverting the attention of management and key personnel. We may not prevail in every lawsuit or dispute. Third-party intellectual property disputes, including those initiated by patent assertion entities, could subject us to significant liabilities, require us to enter into royalty and licensing arrangements on unfavorable terms, prevent us from licensing certain of our products or offering certain of our services, subject us to injunctions restricting our sale of products or services, cause severe disruptions to our operations or the markets in which we compete, or require us to satisfy indemnification commitments with our customers, including contractual provisions under various license arrangements and service agreements. In addition, we may incur significant costs in acquiring the necessary third-party intellectual property rights for use in our products, in some cases to fulfill contractual obligations with our customers. Any of these occurrences could significantly harm our business.

We may incur losses associated with currency fluctuations and may not be able to effectively hedge our exposure.

Our operating results are subject to fluctuations in foreign currency exchange rates due to the global scope of our business. Global economic events, including trade disputes, economic sanctions and emerging market volatility, and associated uncertainty may cause currencies to fluctuate. We attempt to mitigate a portion of these risks through foreign currency hedging based on our judgment of the appropriate trade-offs among risk, opportunity and expense. We regularly review our program to partially hedge our exposure to foreign currency fluctuations and make adjustments as necessary. Our hedging activities may not offset more than a portion of the adverse financial impact resulting from unfavorable movement in foreign currency exchange rates, which could adversely affect our financial condition or results of operations.

Failure of our third-party customer service and technical support providers to adequately address customers' requests could harm our business and adversely affect our financial results.

Our customers rely on our customer service support organization to resolve issues with our products and services. We outsource a substantial portion of our customer service and technical support activities to third-party service providers. We depend heavily on these third-party customer service and technical support representatives working on our behalf, and we expect to continue to rely heavily on third parties in the future. This strategy presents risks to our business due to the fact that we may not be able to influence the quality of support as directly as we would be able to do if our own employees performed these activities. Our customers may react negatively to providing information to, and receiving support from, third-party organizations, especially if these third-party organizations are based overseas. If we encounter problems with our third-party customer service and technical

Table of Contents

support providers, our reputation may be harmed, our ability to sell our offerings could be adversely affected, and we could lose customers and associated revenue.

Revenue, margin or earnings shortfalls or the volatility of the market generally may cause the market price of our stock to decline.

In the past, the market price for our common stock experienced significant fluctuations and it may do so in the future.

A number of factors may affect the market price for our common stock, such as:

• shortfalls in, or changes in expectations about our revenue, margins, earnings, Annualized Recurring Revenue (“ARR”), sales of our Adobe Experience Cloud offerings, or other key performance metrics;

• changes in estimates or recommendations by securities analysts;

• whether our results meet analysts’ expectations;

• compression or expansion of multiples used by investors and analysts to value high technology SaaS companies;

• the announcement of new products or services, product enhancements, service introductions, strategic alliances or significant agreements by us or our competitors;

• the loss of large customers or our inability to increase sales to existing customers, retain customers or attract new customers;

• recruitment or departure of key personnel;

• variations in our or our competitors’ results of operations, changes in the competitive landscape generally and developments in our industry;

• general socio-economic, political or market conditions; and

• unusual events such as significant acquisitions by us or our competitors, divestitures, litigation, regulatory actions and other factors, including factors unrelated to our operating performance.

In addition, the market for technology stocks or the stock market in general may experience uneven investor confidence, which may cause the market price for our common stock to decline for reasons unrelated to our operating performance. Volatility in the market price of a company’s securities for a period of time may increase the company’s susceptibility to securities class action litigation. Oftentimes, this type of litigation is expensive and diverts management’s attention and resources which may adversely affect our business.

Contracting with government entities exposes us to additional risks inherent in the government procurement process. We provide products and services, directly and indirectly, to a variety of government entities, both domestically and internationally. Risks associated with licensing and selling products and services to government entities include more extended sales and collection cycles, varying governmental budgeting processes and adherence to complex procurement regulations and other government-specific contractual requirements. We may be subject to audits and investigations relating to our government contracts and any violations could result in various civil and criminal penalties and administrative sanctions, including termination of contracts, payment of fines, and suspension or debarment from future government business, as well as harm to our reputation and financial results.

If we are unable to recruit and retain key personnel, our business may be harmed.

Much of our future success depends on the continued service, availability and performance of our senior management. These individuals have acquired specialized knowledge and skills with respect to Adobe. The loss of any of these individuals could harm our business, especially if we have not been successful in developing adequate succession plans. Our business is also dependent on our ability to retain, hire and motivate talented, highly skilled personnel

across all levels of our organization. Experienced personnel in the information technology industry are in high demand and competition for their talents is intense in many areas where our employees are located. We may experience higher compensation costs to retain senior management and experienced personnel that may not be offset by improved productivity or increased sales. If we are unable to continue to successfully attract and retain key personnel, our business may be harmed.

Table of Contents

We continue to hire personnel in countries where exceptional technical knowledge and other expertise are offered at lower costs, which increases the efficiency of our global workforce structure and reduces our personnel related expenditures. Nonetheless, as globalization continues, competition for these employees in these countries has increased, which may impact our ability to retain these employees and increase our expenses resulting from competitive compensation. We may continue to expand our international operations and international sales and marketing activities, which would require significant management attention and resources. We may be unable to scale our infrastructure effectively or as quickly as our competitors in these markets, and our revenue may not increase to offset these expected increases in costs and operating expenses, causing our results to suffer.

We believe that a critical contributor to our success to date has been our corporate culture, which we have built to foster innovation, teamwork and employee satisfaction. As we grow, including from the integration of employees and businesses acquired in connection with previous or future acquisitions, we may find it difficult to maintain important aspects of our corporate culture, which could negatively affect our ability to retain and recruit personnel who are essential to our future success.

Failure to manage our sales and distribution channels effectively could result in a loss of revenue and harm to our business.

We contract with a number of software distributors and other strategic partners, none of which is individually responsible for a material amount of our total net revenue for any recent period. Nonetheless, if any single agreement with one of our distributors were terminated, any prolonged delay in securing a replacement distributor could have a negative impact on our results of operations.

Successfully managing our indirect distribution channel efforts to reach various customer segments for our products and services is a complex process across the broad range of geographies where we do business or plan to do business. Our distributors and other channel partners are independent businesses that we do not control. Notwithstanding the independence of our channel partners, we face legal risk and potential reputational harm from the activities of these third parties including, but not limited to, export control violations, workplace conditions, corruption and anti-competitive behavior.

We cannot be certain that our distribution channel will continue to market or sell our products and services effectively. If our distribution channel is not successful, we may lose sales opportunities, customers and revenue. Our distributors also sell our competitors' products and services, and if they favor our competitors' products or services for any reason, they may fail to market our products or services effectively or to devote resources necessary to provide effective sales, which would cause our results to suffer. We also distribute some products and services through our OEM channel, and if our OEMs decide not to bundle our applications on their devices, our results could suffer. In addition, the financial health of our distributors and our continuing relationships with them are important to our success. Some of these distributors may be unable to withstand adverse changes in economic conditions, which could result in insolvency, the inability of such distributors to obtain credit to finance purchases of our products and services, or a delay in paying their obligations to us.

We also sell some of our products and services through our direct sales force. Risks associated with this sales channel include more extended sales and collection cycles associated with direct sales efforts, challenges related to hiring, retaining and motivating our direct sales force, and substantial amounts of ongoing training for sales representatives. Moreover, recent hires may not become as productive as we would like, as in most cases it takes a significant period of time before they achieve full productivity. Our business could be seriously harmed if our expansion efforts do not generate a corresponding significant increase in revenue and we are unable to achieve the efficiencies we anticipate. In addition, the loss of key sales employees could impact our customer relationships and future ability to sell to certain accounts covered by such employees.

If our goodwill or amortizable intangible assets become impaired, then we could be required to record a significant charge to earnings.

GAAP requires us to test for goodwill impairment at least annually. In addition, we review our goodwill and amortizable intangible assets for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. Factors that may be considered a change in circumstances indicating that the carrying value of our

goodwill or amortizable intangible assets may not be recoverable include declines in stock price, market capitalization or cash flows, and slower growth rates in our industry. Depending on the results of our review, we could be required to record a significant charge to earnings in our financial statements during the period in which any impairment of our goodwill or amortizable intangible assets were determined, negatively impacting our results of operations.

We have issued \$1.9 billion of notes in debt offerings and have a \$2.25 billion term loan, and may incur other debt in the future, which may adversely affect our financial condition and future financial results.

We have \$1.9 billion in senior unsecured notes and a \$2.25 billion senior unsecured term loan outstanding. We also have a \$1 billion senior unsecured revolving credit agreement, which is currently undrawn. This debt may adversely affect our financial condition and future financial results by, among other things:

Table of Contents

•increasing our vulnerability to adverse changes in general economic and industry conditions;

requiring the dedication of a portion of our expected cash flow from operations to service our indebtedness, thereby
•reducing the amount of expected cash flow available for other purposes, including capital expenditures and acquisitions; and

•limiting our flexibility in planning for, or reacting to, changes in our business and our industry.

Our senior unsecured notes and senior unsecured credit agreements impose restrictions on us and require us to maintain compliance with specified covenants. Our ability to comply with these covenants may be affected by events beyond our control. If we breach any of the covenants and do not obtain a waiver from the lenders or noteholders, then, subject to applicable cure periods, any outstanding indebtedness may be declared immediately due and payable. In addition, changes by any rating agency to our credit rating may negatively impact the value and liquidity of both our debt and equity securities, as well as the potential costs associated with a refinancing of our debt. Under certain circumstances, if our credit ratings are downgraded or other negative action is taken, the interest rate payable by us under our revolving credit facility and term loan could increase. Downgrades in our credit ratings could also affect the terms of any such financing and restrict our ability to obtain additional financing in the future.

Catastrophic events may disrupt our business.

We are a highly automated business and rely on our network infrastructure and enterprise applications, internal technology systems and website for our development, marketing, operations, support, hosted services and sales activities. In addition, some of our businesses rely on third-party hosted services, and we do not control the operation of third-party data center facilities serving our customers from around the world, which increases our vulnerability. A disruption, infiltration or failure of these systems or third-party hosted services in the event of a major earthquake, fire, flood, tsunami or other weather event, power loss, telecommunications failure, software or hardware malfunctions, pandemics, cyber-attack, war, terrorist attack or other catastrophic event that our disaster recovery plans do not adequately address, could cause system interruptions, reputational harm, loss of intellectual property, delays in our product development, lengthy interruptions in our services, breaches of data security and loss of critical data. Any of these events could prevent us from fulfilling our customers' orders or could negatively impact a country or region in which we sell our products, which could in turn decrease that country's or region's demand for our products. Our corporate headquarters, a significant portion of our research and development activities, certain of our data centers and certain other critical business operations are located in the San Francisco Bay Area, and additional facilities where we conduct significant operations are located in the Salt Lake Valley Area, both of which are near major earthquake faults. A catastrophic event that results in the destruction or disruption of any of our data centers or our critical business or information technology systems could severely affect our ability to conduct normal business operations and, as a result, our future operating results could be adversely affected.

Climate change may have a long-term impact on our business.

While we seek to partner with organizations that mitigate their business risks associated with climate change, we recognize that there are inherent risks wherever business is conducted. Access to clean water and reliable energy in the communities where we conduct our business, whether for our offices or for our vendors, is a priority. Our major sites in California, Utah and India are vulnerable to prolonged droughts due to climate change. In the event of a natural disaster that disrupts business due to limited access to these resources, we have the potential to experience losses to our business, and added costs to resume operations. To accurately assess and take potential proactive action as appropriate, Adobe is aligned with the guidelines of the Financial Stability Board's ("FSB") Task Force on Climate-related Financial Disclosures ("TCFD") recommendations.

Our investment portfolio may become impaired by deterioration of the financial markets.

Our cash equivalent and short-term investment portfolio as of November 30, 2018 consisted of corporate debt securities, foreign government securities and U.S. Treasury securities, money market mutual funds, municipal securities, time deposits and asset-backed securities. We follow an established investment policy and set of guidelines

to monitor and help mitigate our exposure to interest rate and credit risk. The policy sets forth credit quality standards and limits our exposure to any one issuer, as well as our maximum exposure to various asset classes.

Should financial market conditions worsen in the future, investments in some financial instruments may pose risks arising from market liquidity and credit concerns. In addition, any deterioration of the capital markets could cause our other income and expense to vary from expectations. As of November 30, 2018, we had no material impairment charges associated with our short-term investment portfolio, and although we believe our current investment portfolio has little risk of material impairment, we

Table of Contents

cannot predict future market conditions, market liquidity or credit availability, and can provide no assurance that our investment portfolio will remain materially unimpaired.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

The following table sets forth the location, approximate square footage and use of our principal properties during fiscal 2018:

Location	Owned / Leased	Approximate Square Footage	Use
Americas:			
San Jose, California	Owned & leased	1,081,000	(1) Research, product development, sales, marketing and administration
San Francisco, California	Owned & leased	549,000	(2) Research, product development, sales, marketing and administration
Lehi, Utah	Owned & leased	282,000	(3) Research, product development, sales, marketing and administration
Hillsboro, Oregon	Owned	85,000	Data center
APAC:			
Bangalore, India	Owned & leased	422,000	(4) Research, product development, sales and administration
Noida, India	Owned & leased	554,000	(5) Research, product development, sales and administration
Japan	Leased	64,000	Research, product development, sales and administration
EMEA:			
Bucharest, Romania	Leased	97,000	Research and product development
Dublin, Ireland	Leased	42,000	Administration
Maidenhead, United Kingdom	Leased	49,000	Product development, sales, marketing and administration

(1) We own approximately 989,000 square feet of our San Jose properties where our headquarters is located.

(2) We own approximately 346,000 square feet of our San Francisco properties.

(3) We own approximately 257,000 square feet of our Lehi properties.

(4) We own approximately 250,000 square feet of our Bangalore properties.

(5) We own our Noida properties except for a land lease for one of our buildings. The term for the land lease is until 2091.

We lease or sublease the properties we occupy under operating leases. Such leases expire at various times through 2031, with the exception of our ground lease in Noida.

In general, all facilities are in good condition, suitable for the conduct of our business and are operating at an average capacity of approximately 91%.

Table of Contents

ITEM 3. LEGAL PROCEEDINGS

In connection with disputes relating to the validity or alleged infringement of third-party intellectual property rights, including patent rights, we have been, are currently and may in the future be subject to claims, negotiations or complex, protracted litigation. Intellectual property disputes and litigation may be very costly and can be disruptive to our business operations by diverting the attention and energies of management and key technical personnel. Although we have successfully defended or resolved past litigation and disputes, we may not prevail in any ongoing or future litigation and disputes. Third-party intellectual property disputes could subject us to significant liabilities, require us to enter into royalty and licensing arrangements on unfavorable terms, prevent us from licensing certain of our products or offering certain of our services, subject us to injunctions restricting our sale of products or services, cause severe disruptions to our operations or the markets in which we compete, or require us to satisfy indemnification commitments with our customers including contractual provisions under various license arrangements and service agreements.

In addition to intellectual property disputes, we are subject to legal proceedings, claims and investigations in the ordinary course of business, including claims relating to commercial, employment and other matters. Some of these disputes and legal proceedings may include speculative claims for substantial or indeterminate amounts of damages. We consider all claims on a quarterly basis in accordance with GAAP and, based on known facts, assess whether potential losses are considered reasonably possible, probable and estimable. Based upon this assessment, we then evaluate disclosure requirements and whether to accrue for such claims in our financial statements. This determination is then reviewed and discussed with the Audit Committee of the Board of Directors and our independent registered public accounting firm.

We make a provision for a liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These provisions are reviewed at least quarterly and adjusted to reflect the impacts of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular case. Unless otherwise specifically disclosed in our Consolidated Financial Statements and notes thereto, we have determined that no provision for liability or disclosure is required related to any claim against us because: (a) there is not a reasonable possibility that a loss exceeding amounts already recognized (if any) may be incurred with respect to such claim; (b) a reasonably possible loss or range of loss cannot be estimated; or (c) such estimate is immaterial. All legal costs associated with litigation are expensed as incurred. Litigation is inherently unpredictable. However, we believe that we have valid defenses with respect to the legal matters pending against us. It is possible, nevertheless, that our consolidated financial position, cash flows or results of operations could be negatively affected by an unfavorable resolution of one or more of such proceedings, claims or investigations.

In connection with our piracy conversion efforts, conducted both internally and through organizations such as the Business Software Alliance, from time to time we undertake litigation against alleged copyright infringers. Such lawsuits may lead to counter-claims alleging improper use of litigation or violation of other laws. We believe we have valid defenses with respect to such counter-claims; however, it is possible that our consolidated financial position, cash flows or results of operations could be negatively affected in any particular period by the resolution of one or more of these counter-claims.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

Table of Contents

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information for Common Stock

Our common stock is traded on the NASDAQ Global Select Market under the symbol "ADBE."

Stockholders

According to the records of our transfer agent, there were 1,030 holders of record of our common stock on January 18, 2019. Because many of such shares are held by brokers and other institutions on behalf of stockholders, we are unable to estimate the total number of stockholders represented by these record holders.

Dividends

We do not anticipate paying any cash dividends in the foreseeable future.

Issuer Purchases of Equity Securities

Below is a summary of stock repurchases for the three months ended November 30, 2018. See Note 12 of our Notes to Consolidated Financial Statements for information regarding our stock repurchase programs.

Period	Total Number of Shares Repurchased	Average Price Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans	Approximate Dollar Value that May Yet be Purchased Under the Plan
	(in thousands, except average price per share)			
Beginning repurchase authority ⁽¹⁾				\$8,397,282
September 1 —				
September 28, 2018				
Shares repurchased	945	\$261.72	945	\$(247,282)
October 27 —				
November 30, 2018				
Shares repurchased	616	\$243.52	616	\$(150,000) ⁽²⁾
Total	1,561		1,561	\$8,000,000

In January 2017, the Board of Directors granted authority to repurchase up to \$2.5 billion in common stock through the end of fiscal 2019. In May 2018, the Board of Directors approved another authority to repurchase up to \$8.0 billion in common stock through the end of fiscal 2021. As of November 30, 2018, there is no remaining balance under our January 2017 authority.

⁽¹⁾

⁽²⁾

In October 2018, we entered into a structured stock repurchase agreement with a large financial institution whereupon we provided them with a prepayment of \$300 million. As of November 30, 2018, approximately \$150.0 million of the prepayment remained under this agreement.

Table of Contents

ITEM 6. SELECTED FINANCIAL DATA

The following selected consolidated financial data (presented in thousands, except per share amounts and employee data) is derived from our Consolidated Financial Statements. As our historical operating results are not necessarily indicative of future operating results, this data should be read in conjunction with the Consolidated Financial Statements and notes thereto, and with Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations.

	Fiscal Years				
	2018	2017	2016	2015	2014
Operations:					
Revenue	\$9,030,008	\$7,301,505	\$5,854,430	\$4,795,511	\$4,147,065
Gross profit	\$7,835,009	\$6,291,014	\$5,034,522	\$4,051,194	\$3,524,985
Income before income taxes	\$2,793,876	\$2,137,641	\$1,435,138	\$873,781	\$361,376
Net income	\$2,590,774	\$1,693,954	\$1,168,782	\$629,551	\$268,395
Net income per share:					
Basic	\$5.28	\$3.43	\$2.35	\$1.26	\$0.54
Diluted	\$5.20	\$3.38	\$2.32	\$1.24	\$0.53
Shares used to compute basic net income per share	490,564	493,632	498,345	498,764	497,867
Shares used to compute diluted net income per share	497,843	501,123	504,299	507,164	508,480
Financial position: ⁽¹⁾

(1) Information associated with our financial position is as of the Friday closest to November 30 for the five fiscal periods through 2018.

For fiscal 2014, our working capital did not include the effects of the adoption of ASU No. 2015-17, Balance Sheet

(2) Classification of Deferred Taxes, which required all deferred tax assets and liabilities and any related valuation allowance to be classified as non-current on our Consolidated Balance Sheets. The new standard was adopted prospectively starting fiscal 2015.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our Consolidated Financial Statements and Notes thereto.

ACQUISITIONS

During fiscal 2018, we completed our acquisitions of Marketo, a privately held marketing cloud platform company, for \$4.74 billion and Magento, a privately held commerce platform company, for \$1.64 billion. As of the end of fiscal 2018, we are continuing to integrate Marketo and Magento into our Digital Experience reportable segment.

During fiscal 2017, we completed our acquisition of TubeMogul, a publicly held video advertising platform company, for \$560.8 million. As of the end of fiscal 2018, we have integrated TubeMogul into our Digital Experience reportable segment.

We also completed other immaterial business acquisitions during the fiscal years presented.

See Note 2 of our Notes to Consolidated Financial Statements for pro forma financial information related to the Marketo acquisition. Pro forma information has not been presented for our other acquisitions during the fiscal years presented as the impact to our Consolidated Financial Statements was not material.

Subsequent to November 30, 2018, we acquired the remaining interest in Allegorithmic SAS ("Allegorithmic"), a privately held 3D editing and authoring software company for gaming and entertainment, for approximately \$105.0 million in cash consideration. Allegorithmic will be integrated into our Digital Media reportable segment for financial reporting purposes in the first quarter of fiscal 2019.

See Note 2 of our Notes to Consolidated Financial Statements for further information regarding these acquisitions.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

In preparing our Consolidated Financial Statements in accordance with GAAP and pursuant to the rules and regulations of the SEC, we make assumptions, judgments and estimates that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosures of contingent assets and liabilities. We base our assumptions, judgments and estimates on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ materially from these estimates under different assumptions or conditions.

On a regular basis, we evaluate our assumptions, judgments and estimates. We also discuss our critical accounting policies and estimates with the Audit Committee of the Board of Directors.

We believe that the assumptions, judgments and estimates involved in the accounting for business combinations and income taxes have the greatest potential impact on our Consolidated Financial Statements. These areas are key components of our results of operations and are based on complex rules requiring us to make judgments and estimates, so we consider these to be our critical accounting policies. Historically, our assumptions, judgments and estimates relative to our critical accounting policies have not differed materially from actual results.

Business Combinations

We allocate the purchase price of acquired companies to the tangible and intangible assets acquired and liabilities assumed based upon their estimated fair values at the acquisition date. The purchase price allocation process requires management to make significant estimates and assumptions with respect to intangible assets and deferred revenue obligations. Although we believe the assumptions and estimates we have made are reasonable, they are based in part on historical experience, market conditions and information obtained from management of the acquired companies and are inherently uncertain. Examples of critical estimates in valuing certain of the intangible assets we have acquired or may acquire in the future include but are not limited to:

- future expected cash flows from software license sales, subscriptions, support agreements, consulting contracts and acquired developed technologies and patents;
- historical and expected customer attrition rates and anticipated growth in revenue from acquired customers;
- the acquired company's trade name and trademarks as well as assumptions about the period of time the acquired trade name and trademarks will continue to be used in the combined company's product portfolio;
- the expected use of the acquired assets; and
- discount rates.

Table of Contents

In connection with the purchase price allocations for our acquisitions, we estimate the fair value of the deferred revenue obligations assumed. The estimated fair value of these obligations is determined utilizing a cost build-up approach. The cost build-up approach determines fair value by estimating the costs related to fulfilling the obligations plus a normal profit margin.

Unanticipated events and circumstances may occur which may affect the accuracy or validity of such assumptions, estimates or actual results.

Accounting for Income Taxes

We use the asset and liability method of accounting for income taxes. Under this method, income tax expense is recognized for the amount of taxes payable or refundable for the current year. In addition, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and tax credit carryforwards. Management must make assumptions, judgments and estimates to determine our current provision for income taxes and also our deferred tax assets and liabilities.

Our assumptions, judgments and estimates relative to the current provision for income taxes take into account current tax laws, our interpretation of current tax laws and possible outcomes of current and future audits conducted by foreign and domestic tax authorities. We have established reserves for income taxes to address potential exposures involving tax positions that could be challenged by tax authorities. In addition, we are subject to the continual examination of our income tax returns by the U.S. Internal Revenue Service (“IRS”) and other domestic and foreign tax authorities. We expect future examinations to focus on our intercompany transfer pricing practices as well as other matters. We regularly assess the likelihood of outcomes resulting from these examinations to determine the adequacy of our provision for income taxes and have reserved for potential adjustments that may result from such examinations. We believe such estimates to be reasonable; however, the final determination of any of these examinations could significantly impact the amounts provided for income taxes in our Consolidated Financial Statements.

Recent Accounting Pronouncements

See Note 1 of our Notes to Consolidated Financial Statements for information regarding recent accounting pronouncements that are of significance, or potential significance to us.

RESULTS OF OPERATIONS

Overview of 2018

For fiscal 2018, we reported strong financial results consistent with the continued execution of our long-term plans for our two strategic growth areas, Digital Media and Digital Experience (formerly Digital Marketing), while continuing to market and license a broad portfolio of products and solutions.

In our Digital Media segment, we are a market leader with Creative Cloud, our subscription-based offering which provides desktop tools, mobile apps and cloud-based services for designing, creating and publishing rich and immersive content. Creative Cloud delivers value with deep, cross-product integration, frequent product updates and feature enhancements, cloud-based services including storage and syncing of files across users’ machines, access to marketplace, social and community-based features with our Adobe Stock and Behance services, app creation capabilities, tools which assist with enterprise deployments and team collaboration, and affordable pricing for cost-sensitive customers.

We offer Creative Cloud for individuals, students, teams and enterprises. We expect Creative Cloud will drive sustained long-term revenue growth through a continued expansion of our customer base by acquiring new users on account of low cost of entry and delivery of additional features and value to Creative Cloud, as well as keeping existing customers current on our latest release. We have also built out a marketplace for Creative Cloud subscribers to enable the delivery and purchase of stock content in our Adobe Stock service. Overall, our strategy with Creative Cloud is designed to enable us to increase our revenue with users, attract more new customers, and grow our recurring and predictable revenue stream that is recognized ratably.

We continue to implement strategies that will accelerate awareness, consideration and purchase of subscriptions to our Creative Cloud offerings. These strategies include increasing the value Creative Cloud users receive, such as offering new desktop and mobile applications, as well as targeted promotions and offers that attract past customers and potential users to try out and ultimately subscribe to Creative Cloud. Because of the shift towards Creative Cloud subscriptions and Enterprise Term License Agreements (“ETLAs”), revenue from perpetual licensing of our Creative products has been immaterial to our business.

We are also a market leader with our Adobe Document Cloud offerings built around our Adobe Acrobat family of products, including Adobe Acrobat Reader DC, and a set of integrated cloud-based document services, including Adobe Sign. Acrobat provides reliable creation and exchange of electronic documents, regardless of platform or application source type. Document

Table of Contents

Cloud, which we believe enhances the way people manage critical documents at home, in the office and across devices, includes Adobe Acrobat DC and Adobe Sign, and a set of integrated services enabling users to create, review, approve, sign and track documents whether on a desktop or mobile device. Adobe Acrobat DC, with a touch-enabled user interface, is offered both through subscription and perpetual licenses.

Annualized Recurring Revenue (“ARR”) is currently the key performance metric our management uses to assess the health and trajectory of our overall Digital Media segment. ARR should be viewed independently of revenue, deferred revenue and unbilled deferred revenue as ARR is a performance metric and is not intended to be combined with any of these items. We adjust our reported ARR on an annual basis to reflect any material exchange rates changes. Our reported ARR results in fiscal 2018 are based on currency rates set at the start of fiscal 2018 and held constant throughout the year. We calculate ARR as follows:

Creative ARR	Annual Value
	of Creative
	Cloud
	Subscriptions
	and Services
	+
	Annual
	Digital
	Publishing
	Suite Contract
Document Cloud ARR	Value
	+

	Annual Value
	of Document
	Cloud
Digital Media ARR	Subscriptions
	and Services
	+
	Annual
	Document
	Cloud ETLA
	Contract
	Value
	Creative ARR
	+
	Document
	Cloud ARR

Creative ARR exiting fiscal 2018 was \$6.03 billion, up from \$4.77 billion at the end of fiscal 2017. Document Cloud ARR exiting fiscal 2018 was \$801 million, up from \$614 million at the end of fiscal 2017. Total Digital Media ARR grew to \$6.83 billion at the end of fiscal 2018, up from \$5.39 billion at the end of fiscal 2017. Revaluing our ending ARR for fiscal 2018 using currency rates at the beginning of fiscal 2019, our Digital Media ARR at the end of fiscal 2018 would be \$6.71 billion or approximately \$123 million lower than the ARR reported above.

Our success in driving growth in ARR has positively affected our revenue growth. Creative revenue in fiscal 2018 was \$5.34 billion, up from \$4.17 billion in fiscal 2017 and representing 28% year-over-year growth. Document Cloud revenue in fiscal 2018 was \$981.8 million, up from \$836.7 million in fiscal 2017 and representing 17% year-over-year revenue growth as we continue to transition Document Cloud to a subscription-based model. Total Digital Media segment revenue grew to \$6.33 billion in fiscal 2018, up from \$5.01 billion in fiscal 2017 and representing 26% year-over-year growth.

We are a market leader in the fast-growing category addressed by our Digital Experience segment. Our Digital Experience business provides comprehensive solutions that include analytics, social marketing, targeting, media optimization, digital experience management, cross-channel campaign management, marketing automation, audience management, commerce, premium video delivery and monetization. These comprehensive solutions enable marketers to measure, personalize and optimize marketing campaigns and digital experiences across channels for optimal marketing performance.

Our hierarchy of solutions in the Digital Experience segment, available in our Adobe Experience Cloud, consists of the following cloud offerings:

Adobe Advertising Cloud—delivers an end-to-end platform for managing advertising across traditional TV and digital formats, and simplifies the delivery of video, display and search advertising across channels and screens.

Adobe Analytics Cloud—enables businesses to move from insights to actions in real time by uniquely integrating audiences as the core system of intelligence for the enterprise; makes data available across all Adobe clouds through the

Table of Contents

capture, aggregation, rationalization and understanding of vast amounts of disparate data and then translating that data into singular customer profiles; includes Adobe Analytics and Adobe Audience Manager.

Adobe Marketing Cloud—provides an integrated set of solutions to help marketers differentiate their brands and engage their customers, helping businesses manage, personalize, and orchestrate campaigns and customer journeys; includes Adobe Experience Manager (“AEM”), Adobe Campaign, Adobe Target, Marketo Engagement Platform and Adobe Primetime.

Magento Commerce Cloud—provides digital commerce, order management and predictive intelligence based on a unified commerce platform enabling shopping experiences across a wide array of industries. This cloud offering was integrated into the Adobe Experience Cloud after our acquisition of privately held Magento in June 2018.

In addition to chief marketing officers, chief revenue officers and digital marketers, users of our Adobe Experience Cloud solutions include advertisers, campaign managers, digital marketers, publishers, data analysts, content managers, social marketers and marketing executives. These customers often are involved in workflows that utilize other Adobe products, such as our Digital Media offerings. By combining the creativity of our Digital Media business with the science of our Digital Experience business, we help our customers to more efficiently and effectively make, manage, measure and monetize their content across every channel with an end-to-end workflow and feedback loop.

In October 2018, we acquired privately held marketing cloud platform company Marketo. We began integrating Magento, as discussed above, and Marketo into our Digital Experience business in the second half of fiscal 2018.

We utilize a direct sales force to market and license our Adobe Experience Cloud solutions, as well as an extensive ecosystem of partners, including marketing agencies, systems integrators and independent software vendors that help license and deploy our solutions to their customers. We have made significant investments to broaden the scale and size of all of these routes to market, and our recent financial results reflect the success of these investments.

We achieved record Adobe Experience Cloud revenue of \$2.44 billion in fiscal 2018, up from \$2.03 billion in fiscal 2017 which represents 20% year-over-year growth. Driving the increase in Adobe Experience Cloud revenue was the increase in subscription revenue across our offerings which grew to \$1.95 billion in fiscal 2018 from \$1.55 billion in fiscal 2017, representing 26% year-over-year growth. Also contributing to the increase in Digital Experience subscription revenue, to a lesser extent, was revenue associated with Magento’s commerce platform offerings and Marketo’s marketing cloud platform offerings. We expect that the addition of Marketo and Magento, and continued demand across our portfolio of Adobe Experience Cloud solutions, will drive revenue growth in future years.

Financial Performance Summary for Fiscal 2018

Total Digital Media ARR of approximately \$6.83 billion as of November 30, 2018 increased by \$1.44 billion, or 27%, from \$5.39 billion as of December 1, 2017. The change in our Digital Media ARR was primarily due to strong adoption of our Creative Cloud and Adobe Document Cloud offerings.

Creative revenue of \$5.34 billion increased by \$1.17 billion, or 28%, during fiscal 2018, from \$4.17 billion in fiscal 2017. The increase was primarily due to the increase in subscription revenue associated with our Creative Cloud offerings.

Adobe Experience Cloud revenue of \$2.44 billion increased by \$413.4 million, or 20%, during fiscal 2018, from \$2.03 billion in fiscal 2017. The increase was primarily due to the increase in subscription revenue across our offerings.

Our total deferred revenue of \$3.05 billion as of November 30, 2018 increased by \$559.1 million, or 22%, from \$2.49 billion as of December 1, 2017. The increase was primarily due to increases in new contracts and the timing of renewals related to our Digital Media offerings and, to a lesser extent, deferred revenue assumed from Magento and Marketo.

Cost of revenue of \$1.19 billion increased by \$184.5 million, or 18%, during fiscal 2018, from \$1.01 billion in fiscal 2017. The increase was primarily due to increases in media rebill costs associated with our Advertising Cloud offerings and hosting services and data center costs.

Operating expenses of \$4.99 billion increased by \$871.7 million, or 21%, during fiscal 2018, from \$4.12 billion in fiscal 2017. The increase was primarily due to increases in base compensation and related benefits costs and stock-based compensation expense associated with headcount growth.

Table of Contents

Net income of \$2.59 billion increased by \$896.8 million, or 53%, during fiscal 2018 from \$1.69 billion in fiscal 2017 primarily due to increases in subscription revenue and, to a lesser extent, the decrease in the provision for income taxes.

Net cash flow from operations of \$4.03 billion during fiscal 2018 increased by \$1.12 billion, or 38%, from \$2.91 billion during fiscal 2017 primarily due to higher net income.

Revenue (dollars in millions)

Revenue for fiscal 2016 benefited from an extra week in the first quarter of fiscal 2016 due to our 52/53-week financial calendar whereby fiscal 2016 was a 53-week year compared with fiscal 2018 and 2017, which were 52-week years.

	Fiscal 2018	Fiscal 2017	Fiscal 2016	% Change 2018-2017	% Change 2017-2016
Subscription	\$7,922.2	\$6,133.9	\$4,584.8	29 %	34 %
Percentage of total revenue	88 %	84 %	78 %		
Product	622.1	706.7	800.5	(12)%	(12)%
Percentage of total revenue	7 %	10 %	14 %		
Services and support	485.7	460.9	469.1	5 %	(2)%
Percentage of total revenue	5 %	6 %	8 %		
Total revenue	\$9,030.0	\$7,301.5	\$5,854.4	24 %	25 %

Our subscription revenue is comprised primarily of fees we charge for our subscription and hosted service offerings including Creative Cloud and certain of our Adobe Experience Cloud and Document Cloud services. We recognize subscription revenue ratably over the term of agreements with our customers, beginning with commencement of service.

We have the following reportable segments—Digital Media, Digital Experience and Publishing. Subscription revenue by reportable segment for fiscal 2018, 2017 and 2016 is as follows (dollars in millions):

	Fiscal 2018	Fiscal 2017	Fiscal 2016	% Change 2018-2017	% Change 2017-2016
Digital Media	\$5,857.7	\$4,480.8	\$3,370.8	31 %	33 %
Digital Experience	1,949.3	1,552.5	1,123.2	26 %	38 %
Publishing	115.2	100.6	90.8	15 %	11 %
Total subscription revenue	\$7,922.2	\$6,133.9	\$4,584.8	29 %	34 %

In fiscal 2018, we moved our legacy enterprise offerings from our Digital Experience segment into Publishing. Prior year information in the table above has been reclassified to reflect this change. See below for additional details.

Our services and support revenue is comprised of consulting, training and maintenance and support, primarily related to the licensing of our enterprise offerings and the sale of our hosted Adobe Experience Cloud services. Our support revenue also includes technical support and developer support to partners and developer organizations related to our desktop products. Our maintenance and support offerings, which entitle customers to receive desktop product upgrades and enhancements or technical support, depending on the offering, are generally recognized ratably over the term of the arrangement.

Table of Contents

Segments

In fiscal 2018, we categorized our products into the following reportable segments:

Digital Media—Our Digital Media segment provides tools and solutions that enable individuals, small and medium businesses and enterprises to create, publish, promote and monetize their digital content anywhere. Our customers include traditional content creators, web application developers and digital media professionals, as well as their management in marketing departments and agencies, companies and publishers. Our customers also include knowledge workers who create, collaborate on and distribute documents.

Digital Experience—Our Digital Experience segment provides solutions and services for how digital advertising and marketing are created, managed, executed, measured and optimized. Our customers include digital marketers, advertisers, publishers, merchandisers, web analysts, chief marketing officers, chief information officers and chief revenue officers. This segment also includes our Marketo marketing cloud platform offerings and Magento commerce platform offerings, both acquired in fiscal 2018.

Publishing—Our Publishing segment addresses market opportunities ranging from the diverse authoring and publishing needs of technical and business publishing to our legacy type and OEM printing businesses. It also includes our web conferencing and document and forms platforms.

In fiscal 2018, we moved our legacy enterprise offerings—Adobe Connect web conferencing platform and Adobe LiveCycle, an enterprise document and forms platform—from our Digital Experience segment into Publishing, in order to more closely align our Digital Experience business with the strategic growth opportunity. Prior year information in the tables below have been reclassified to reflect this change.

Segment Information (dollars in millions)

	Fiscal 2018	Fiscal 2017	Fiscal 2016	% Change 2018-2017	% Change 2017-2016
Digital Media	\$6,325.3	\$5,010.6	\$3,941.0	26 %	27 %
Percentage of total revenue	70 %	69 %	67 %		
Digital Experience	2,443.7	2,030.3	1,631.4	20 %	24 %
Percentage of total revenue	27 %	28 %	28 %		
Publishing	261.0	260.6	282.0	— %	(8)%
Percentage of total revenue	3 %	3 %	5 %		
Total revenue	\$9,030.0	\$7,301.5	\$5,854.4	24 %	25 %

Fiscal 2018 Revenue Compared to Fiscal 2017 Revenue

Digital Media

Revenue from Digital Media increased \$1.31 billion during fiscal 2018 as compared to fiscal 2017, primarily driven by increases in revenue associated with our Creative offerings.

Revenue associated with our Creative offerings, which includes our Creative Cloud, perpetually licensed Creative and stock photography offerings, increased during fiscal 2018. The increase was primarily due to an increase in subscription revenue across all of our Creative Cloud offerings driven by the increase in net new subscriptions.

Adobe Document Cloud revenue, which includes our Acrobat product family and Adobe Sign service, increased during fiscal 2018 as compared to fiscal 2017 primarily due to increases in subscriptions revenue driven by strong adoption of our Document Cloud.

Digital Experience

Revenue from Digital Experience increased \$413.4 million during fiscal 2018, as compared to fiscal 2017 primarily due to subscription revenue growth associated with our Adobe Experience Cloud offerings. The increase in subscription revenue was primarily driven by continued adoption of our AEM offerings which is part of our Marketing Cloud and growth in revenue associated with our Analytics Cloud. Also contributing to the increase in subscription revenue, but to a lesser extent, was revenue associated with our Magento Commerce Cloud and

Advertising Cloud.

41

Table of Contents

Fiscal 2017 Revenue Compared to Fiscal 2016 Revenue

Digital Media

Revenue from Digital Media increased \$1.07 billion during fiscal 2017 as compared to fiscal 2016, primarily driven by increases in revenue associated with our creative offerings.

Revenue associated with our Creative offerings, which includes our Creative Cloud, perpetually licensed Creative and stock photography offerings, increased during fiscal 2017 as compared to fiscal 2016. The increase was primarily due to an increase in subscription revenue associated with our Creative Cloud offerings driven by increases in individual, team and enterprise subscriptions. Also contributing to the increase in revenue was revenue growth associated with our Creative Cloud Photography Plan subscription offering.

Document Cloud revenue, which includes our Acrobat product family and Adobe Sign service, increased during fiscal 2017 as compared to fiscal 2016 primarily due to increases in Document Cloud subscription revenue, offset in part by expected declines in revenue associated with our perpetually licensed Acrobat offering. Also contributing to the increase in Document Cloud revenue was an increase in Adobe Sign revenue.

Digital Experience

Revenue from Digital Experience increased \$398.9 million during fiscal 2017, as compared to fiscal 2016 primarily due to subscription revenue growth associated with our Adobe Experience Cloud. The increase in subscription revenue was driven by strong performance with our Marketing Cloud offerings, which include AEM and Adobe Campaign, and our Analytics Cloud offerings, which includes Audience Manager. Also contributing to the increase in Adobe Experience Cloud revenue were increases in revenue associated with our Advertising Cloud offerings, including TubeMogul which we acquired in fiscal 2017.

Geographical Information (dollars in millions)

	Fiscal 2018	Fiscal 2017	Fiscal 2016	% Change 2018-2017	% Change 2017-2016
Americas	\$5,116.8	\$4,216.5	\$3,400.1	21 %	24 %
Percentage of total revenue	57 %	58 %	58 %		
EMEA	2,550.0	1,985.1	1,619.2	28 %	23 %
Percentage of total revenue	28 %	27 %	28 %		
APAC	1,363.2	1,099.9	835.1	24 %	32 %
Percentage of total revenue	15 %	15 %	14 %		
Total revenue	\$9,030.0	\$7,301.5	\$5,854.4	24 %	25 %

Fiscal 2018 Revenue by Geography Compared to Fiscal 2017 Revenue by Geography

Overall revenue during fiscal 2018 increased in all geographic regions as compared to fiscal 2017 primarily due to increases in Digital Media and Digital Experience revenue. Within each geographic region, the fluctuations in revenue by reportable segment were attributable to the factors noted in the segment information above. Further, the overall increase in EMEA revenue during fiscal 2018 was positively impacted by the relative weakening of the U.S. Dollar against EMEA currencies as discussed below.

Fiscal 2017 Revenue by Geography Compared to Fiscal 2016 Revenue by Geography

Overall revenue during fiscal 2017 increased in all geographic regions as compared to fiscal 2016 primarily due to increases in Digital Media and Digital Experience revenue. Within each geographic region, the fluctuations in revenue by reportable segment were attributable to the factors noted in the segment information above. The overall increase in EMEA revenue was slightly offset by declines due to the relative strength of the U.S. Dollar against EMEA currencies as discussed below.

Table of Contents

Included in the overall change in revenue for fiscal 2018 and fiscal 2017 were impacts associated with foreign currency as shown below. Our currency hedging program is used to mitigate a portion of the foreign currency impact to revenue.

(in millions)	Fiscal 2018	Fiscal 2017
Revenue impact:	Increase/(Decrease)	
Euro	\$ 96.3	\$ (2.3)
British Pound	21.6	(46.1)
Japanese Yen	2.8	4.0
Other currencies	1.9	6.1
Total revenue impact	122.6	(38.3)
Hedging impact:		
Euro	29.1	13.7
British Pound	11.3	7.1
Japanese Yen	8.2	12.1
Total hedging impact	48.6	32.9
Total impact	\$ 171.2	\$ (5.4)

During fiscal 2018, the U.S. Dollar weakened against EMEA currencies, which positively impacted revenue in U.S. Dollar equivalents. In addition, we had \$48.6 million in hedging gains from our EMEA currency hedging programs during fiscal 2018.

During fiscal 2017, the U.S. Dollar strengthened against the British Pound, which negatively impacted revenue in EMEA measured in U.S. Dollar equivalents. The net foreign currency impact to revenue was offset in part by hedging gains from our EMEA and Japanese Yen currencies hedging programs during fiscal 2017.

See Note 17 of our Notes to the Consolidated Financial Statements for further geographic information.

Backlog

Deferred revenue on our consolidated balance sheet consists of billings and payments received in advance of revenue recognition for our products and solutions and does not represent the total contract value of existing annual or multi-year, non-cancellable commercial subscription, SaaS and managed services agreements or government contracts with fiscal funding clauses. Unbilled deferred revenue represents expected future billings that are contractually committed under our existing subscription, SaaS and managed services agreements that have not been invoiced and are not recorded in deferred revenue within our financial statements. Our presentation of unbilled deferred revenue backlog may differ from that of other companies in the industry. As of November 30, 2018, we had unbilled deferred revenue backlog, including that of our fiscal 2018 acquisitions, of approximately \$5.05 billion of which approximately 40% to 50% is not reasonably expected to be billed during fiscal 2019. Comparatively, we had unbilled deferred revenue backlog of approximately \$3.94 billion as of December 1, 2017, of which approximately 40% to 50% was not reasonably expected to be billed during fiscal 2018.

We expect that the amount of unbilled deferred revenue backlog will change from period to period due to certain factors, including the timing and duration of large customer subscriptions, SaaS and managed service agreements, varying billing cycles of these agreements, the timing of customer renewals, the timing of when unbilled deferred revenue backlog is to be billed, changes in customer financial circumstances and foreign currency fluctuations. Additionally, the unbilled deferred revenue backlog for multi-year subscription agreements that are billed annually is typically higher at the beginning of the contract period, lower prior to renewal and typically increases when the agreement is renewed. Accordingly, fluctuations in unbilled deferred revenue backlog may not be a reliable indicator of future business prospects and the related revenue associated with these contractual commitments.

Table of Contents

Cost of Revenue (dollars in millions)

	Fiscal 2018	Fiscal 2017	Fiscal 2016	% Change 2018-2017	% Change 2017-2016
Subscription	\$807.2	\$623.0	\$461.9	30 %	35 %
Percentage of total revenue	9	% 9	% 8	%	
Product	46.0	57.1	68.9	(19)%	(17)%
Percentage of total revenue	1	% 1	% 1	%	
Services and support	341.8	330.4	289.1	3 %	14 %
Percentage of total revenue	4	% 5	% 5	%	
Total cost of revenue	\$1,195.0	\$1,010.5	\$819.9	18 %	23 %

Subscription

Cost of subscription revenue consists of third-party royalties and expenses related to operating our network infrastructure, including depreciation expense and operating lease payments associated with computer equipment, data center costs, salaries and related expenses of network operations, implementation, account management and technical support personnel, amortization of certain intangible assets and allocated overhead. We enter into contracts with third parties for hosting services and use of data center facilities. Our data center costs largely consist of the amounts we pay to these third parties for rack space, power and similar items. Cost of subscription revenue also includes media costs related to impressions purchased from third-party ad inventory sources for our Adobe Advertising Cloud offerings.

Cost of subscription revenue increased due to the following:

	% Change 2018-2017	% Change 2017-2016
Media rebill costs	8 %	9 %

Total change	30 %	35 %

Product

Cost of product revenue includes product packaging, third-party royalties, excess and obsolete inventory, amortization related to localization costs, purchased intangibles and acquired rights to use technology and the costs associated with the manufacturing of our products.

Cost of product revenue decreased during fiscal 2018 and fiscal 2017 as compared to the corresponding year-ago periods primarily due to decreased royalty costs as a result of declines in obligations to certain key vendors for technology use.

Services and Support

Cost of services and support revenue is primarily comprised of employee-related costs and associated costs incurred to provide consulting services, training and product support.

Table of Contents

Cost of services and support revenue increased due to the following:

	% Change 2018-2017		% Change 2017-2016	
Base compensation and related benefits associated with headcount	1	%	13	%
Incentive compensation, cash and stock-based	1		1	
Professional and consulting fees	—		(3)	)
Various individually insignificant items	1		3	
Total change	3	%	14	%

Compensation costs increased during fiscal 2017 as compared to fiscal 2016 primarily due to increases in headcount resulting from decreased usage of outside consultants that were providing consulting and training services to customers.

Operating Expenses (dollars in millions)

	Fiscal 2018	Fiscal 2017	Fiscal 2016	% Change 2018-2017		% Change 2017-2016	
Research and development	\$1,537.8	\$1,224.1	\$976.0	26	%	25	%
Percentage of total revenue	17	% 17	% 17	%			
Sales and marketing	2,620.8	2,197.6	1,910.2	19	%	15	%
Percentage of total revenue	29	% 30	% 33	%			
General and administrative	744.9	624.7	576.2	19	%	8	%
Percentage of total revenue	8	% 9	% 10	%			
Amortization of purchased intangibles	91.1	76.5	78.5	19	%	(3)	)%
Percentage of total revenue	1	% 1	% 1	%			
Total operating expenses	\$4,994.6	\$4,122.9	\$3,540.9	21	%	16	%

Research and Development, Sales and Marketing and General and Administrative Expenses

Research and development, sales and marketing and general and administrative expenses increased during fiscal 2018 as compared to fiscal 2017 due to increases in base compensation and related benefits costs and stock-based compensation expenses associated with headcount growth.

Research and development, sales and marketing and general and administrative expenses increased during fiscal 2017 as compared to fiscal 2016 primarily due to increases in base compensation and related benefits costs driven by headcount increases and stock-based compensation expense.

Research and Development

Research and development expenses consist primarily of salary and benefit expenses for software developers, contracted development efforts, related facilities costs and expenses associated with computer equipment used in software development.

Research and development expenses increased due to the following:

	% Change 2018-2017		% Change 2017-2016	
Base compensation and related benefits associated with headcount	14	%	11	%
Incentive compensation, cash and stock-based	8		9	
Professional and consulting fees	3		4	
Various individually insignificant items	1		1	
Total change	26	%	25	%

We believe that investments in research and development, including the recruiting and hiring of software developers, are critical to remain competitive in the marketplace and are directly related to continued timely development of new and enhanced offerings and solutions. We will continue to focus on long-term opportunities available in our end markets and make significant investments in the development of our subscription and service offerings, applications and tools.

Table of Contents**Sales and Marketing**

Sales and marketing expenses consist primarily of salary and benefit expenses, sales commissions, travel expenses and related facilities costs for our sales, marketing, order management and global supply chain management personnel. Sales and marketing expenses also include the costs of programs aimed at increasing revenue, such as advertising, trade shows, public relations and other market development programs.

Sales and marketing expenses as a percentage of revenue during fiscal 2018 decreased slightly compared to fiscal 2017 primarily due to our revenue growing at a faster pace compared with the increases in sales and marketing expenses.

Sales and marketing expenses increased due to the following:

	% Change 2018-2017		% Change 2017-2016	
Base compensation and related benefits associated with headcount	7	%	5	%
Incentive compensation, cash and stock-based	6		2	
Professional and consulting fees	—		2	
Marketing spending related to product launches and overall marketing efforts	2		4	
Various individually insignificant items	4		2	
Total change	19	%	15	%

General and Administrative

General and administrative expenses consist primarily of compensation and benefit expenses, travel expenses and related facilities costs for our finance, facilities, human resources, legal, information services and executive personnel. General and administrative expenses also include outside legal and accounting fees, provision for bad debts, expenses associated with computer equipment and software used in the administration of the business, charitable contributions and various forms of insurance.

General and administrative expenses increased due to the following:

	% Change 2018-2017		% Change 2017-2016	
Professional and consulting fees	10	%	1	%
Base compensation and related benefits associated with headcount	2		2	
Incentive compensation, cash and stock-based	5		3	
Facilities and telecom	2		2	
Total change	19	%	8	%

Professional and consulting fees increased from fiscal 2018 as compared to fiscal 2017 primarily due to incurred transaction costs associated with our acquisitions of Magento and Marketo both of which closed in fiscal 2018.

Amortization of Purchased Intangibles

During the last several years, we have completed a number of business combinations and asset acquisitions. As a result of these acquisitions, we purchased intangible assets that are being amortized over their estimated useful lives ranging from one to fourteen years.

Amortization expense increased during fiscal 2018 as compared to fiscal 2017. The increase was primarily due to amortization of intangible assets purchased through our acquisitions of Magento and Marketo in the third and fourth quarter of fiscal 2018, respectively, and partially offset by certain fully amortized acquired intangible assets from previous acquisitions. We expect that intangible assets purchased through our acquisitions of Magento and Marketo will continue to increase our amortization expense in future periods.

Amortization expense remained relatively consistent during fiscal 2017 as compared to fiscal 2016. The decreases associated with certain fully amortized acquired intangible assets from previous acquisitions were offset by increases associated with intangible assets purchased through our acquisition of TubeMogul in the first quarter of fiscal 2017.

Table of Contents

Non-Operating Income (Expense), Net (dollars in millions)

	Fiscal 2018	Fiscal 2017	Fiscal 2016	% Change 2018-2017		% Change 2017-2016	
Interest and other income (expense), net	\$39.5	\$36.4	\$13.5	9	%	170	%

Investment gains (losses), net	3.2	7.5	(1.6)	*		*	
Percentage of total revenue	**	**	**				
Total non-operating income (expense), net	\$(46.5)	\$(30.5)	\$(58.5)	52	%	(48)	%

(*) Percentage is not meaningful.

(**) Percentage is less than 1%.

Interest and Other Income (Expense), Net

Interest and other income (expense), net consists primarily of interest earned on cash, cash equivalents and short-term fixed income investments. Interest and other income (expense), net also includes gains and losses on fixed income investments and foreign exchange gains and losses other than any gains recorded to revenue from our hedging programs.

Interest and other income (expense), net increased in fiscal 2017 as compared to fiscal 2016 due to higher average invested balances and interest rates and a decline in foreign exchange hedging costs.

Interest Expense

Interest expense primarily represents interest associated with our term loan, senior notes and interest rate swaps. In October 2018, we entered into a credit agreement providing for a \$2.25 billion senior unsecured term loan for the purpose of partially funding the purchase price for our acquisition of Marketo. Interest on our Term Loan is payable periodically at the end of each interest period, whereas interest on our senior notes is payable semi-annually, in arrears, on February 1 and August 1. Floating interest payments on the interest rate swaps are paid monthly. The fixed-rate interest receivable on the swaps is received semi-annually concurrent with the senior notes interest payments. See Notes 5 and 15 of our Notes to Consolidated Financial Statements for further details regarding our interest rate swaps and debt, respectively.

Interest expense increased during fiscal 2018 as compared to fiscal 2017 primarily due to higher short-term floating interest rates on interest rate swaps and higher average debt balances.

Investment Gains (Losses), Net

Investment gains (losses), net consists principally of unrealized holding gains and losses associated with our deferred compensation plan assets which are classified as trading securities, and gains and losses associated with our direct and indirect investments in privately held companies.

Provision for Income Taxes (dollars in millions)

	Fiscal 2018	Fiscal 2017	Fiscal 2016	% Change 2018-2017		% Change 2017-2016	
Provision	\$203.1	\$443.7	\$266.4	(54)	%	67	%
Percentage of total revenue	2	% 6	% 5				
Effective tax rate	7	% 21	% 19				

Our effective tax rate decreased by approximately 14 percentage points during fiscal 2018 as compared to fiscal 2017. The lower effective tax rate was primarily due to the effects of the Tax Act enacted on December 22, 2017 and a change to our corporate tax structure from which we serve our foreign customers that provided us the ability to deduct more expenses against our earnings in the U.S.

Our effective tax rate increased by approximately two percentage points during fiscal 2017 as compared to fiscal 2016. The increase was partially related to a one-time tax cost associated with licensing acquired company assets to

our trading subsidiaries, offset in part by the recognition of excess tax benefits due to our adoption of new accounting guidance related to

47

Table of Contents

stock-based compensation and the completion of certain income tax examinations. In addition to the above noted items, the effective tax rate for fiscal 2016 included tax benefits recognized as a result of the completion of certain income tax examinations, and to a lesser extent, a one-time tax benefit related to the retroactive reinstatement of the fiscal 2015 U.S. Research and Development credit.

The above noted Tax Act transitions the U.S. tax system to a new territorial system and lowers the statutory corporate tax rate from 35% to 21%. Reduction of the statutory federal corporate tax rate to 21% became effective on January 1, 2018. In fiscal 2018, our statutory federal corporate tax rate is a blended rate of 22.2%, which will be reduced to 21% in fiscal 2019 and thereafter.

During fiscal 2018, we recorded tax charges for the impact of the Tax Act effects using the current available information and technical guidance on the interpretations of the Tax Act. As permitted by SEC Staff Accounting Bulletin 118, Income Tax Accounting Implications of the Tax Cuts and Jobs Act, we recorded provisional estimates and have subsequently finalized our accounting analysis based on the guidance, interpretations, and data available as of November 30, 2018. Adjustments made in the fourth quarter of fiscal 2018 upon finalization of our accounting analysis were not material to our Consolidated Financial Statements.

As a result of the reduction in the federal corporate tax rate, we remeasured our deferred taxes and recorded a tax charge of \$10 million based on the tax rate that is expected to apply when such deferred taxes are settled or realized in future periods. To calculate the remeasurement of deferred taxes, we estimated when the existing deferred taxes will be settled or realized.

As part of the adoption of a new territorial tax system we recorded a transition tax expense of \$176 million on deferred foreign earnings, long-term income taxes payable of \$504 million, other tax liabilities of \$19 million, and a reduction in our deferred tax liabilities of \$347 million. We intend to elect to pay the federal transition tax over a period of eight years as permitted by the Tax Act. As a result, we reclassified \$40 million from long-term income taxes payable to short-term income taxes payable for the first installment payment due in fiscal 2019.

We are a United States-based multinational company subject to tax in multiple U.S. and foreign tax jurisdictions. A significant portion of our foreign earnings for the current fiscal year were earned by our Irish subsidiaries. As part of the adoption of a territorial tax system, the Tax Act also provides an exemption from federal income taxes for distributions from foreign subsidiaries made after December 31, 2017 that were not subject to the one-time transition tax. As we repatriate the undistributed earnings of our foreign subsidiaries for use in the U.S., the earnings from our foreign subsidiaries will generally not be subject to U.S. federal tax.

See Note 9 of our Notes to the Consolidated Financial Statements for further information on our provision for income taxes.

Accounting for Uncertainty in Income Taxes

The gross liabilities for unrecognized tax benefits excluding interest and penalties were \$196.2 million, \$172.9 million and \$178.4 million for fiscal 2018, 2017 and 2016, respectively. If the total unrecognized tax benefits at November 30, 2018, December 1, 2017 and December 2, 2016 were recognized, \$145.2 million, \$135.0 million and \$144.5 million would decrease the respective effective tax rates, which were net of estimated \$51.0 million, \$37.9 million, and \$33.9 million federal benefits related to deducting certain payments on future federal and state tax returns for fiscal 2018, 2017, and 2016, respectively.

The combined amount of accrued interest and penalties related to tax positions taken on our tax returns were approximately \$24.6 million and \$23.6 million for fiscal 2018 and 2017, respectively. These amounts were included in long-term income taxes payable in their respective years.

The timing of the resolution of income tax examinations is highly uncertain as are the amounts and timing of tax payments that are part of any audit settlement process. These events could cause large fluctuations in the balance of short-term and long-term assets, liabilities and income taxes payable. We believe that within the next 12 months, it is reasonably possible that either certain audits will conclude or statutes of limitations on certain income tax examination periods will expire, or both. Given the uncertainties described above, we can only determine a range of estimated potential effect in underlying unrecognized tax benefits ranging from \$0 to approximately \$45 million.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

This data should be read in conjunction with our Consolidated Statements of Cash Flows.

	As of	
	November 1,	December 1,
(in millions)	2018	2017
Cash and cash equivalents	\$1,642.8	\$ 2,306.1
Short-term investments	\$1,586.2	\$ 3,513.7
Working capital	\$555.9	\$ 3,720.4
Stockholders' equity	\$9,362.1	\$ 8,459.9

A summary of our cash flows is as follows:

(in millions)	Fiscal 2018	Fiscal 2017	Fiscal 2016
Net cash provided by operating activities	\$4,029.3	\$2,912.9	\$2,199.7
Net cash used for investing activities	(4,685.3)	(442.9)	(960.0)
Net cash used for financing activities	(5.6)	(1,183.7)	(1,090.7)
Effect of foreign currency exchange rates on cash and cash equivalents	(1.7)	8.5	(14.2)
Net increase (decrease) in cash and cash equivalents	\$(663.3)	\$1,294.8	\$134.8

Our primary source of cash is receipts from revenue and, to a lesser extent, proceeds from participation in the employee stock purchase plan. The primary uses of cash are our stock repurchase program as described below, payroll-related expenses, general operating expenses including marketing, travel and office rent, and cost of revenue. Other uses of cash include business acquisitions and purchases of property and equipment.

Cash Flows from Operating Activities

For fiscal 2018, net cash provided by operating activities of \$4.03 billion was primarily comprised of net income plus the net effect of non-cash items, including adjustments to deferred income taxes related to the Tax Act. The primary working capital sources of cash were net income coupled with increases to taxes payable and deferred revenue. The increase in income taxes payable was primarily driven by the one-time transition tax recorded pursuant to the Tax Act. The increase in deferred revenue was principally due to increases in Digital Media site and term licenses and from our acquisition of Magento and Marketo in the third and fourth quarters of fiscal 2018, respectively. The primary working capital use of cash was the increase in prepaid expenses driven by the timing of billings and payments of maintenance and support services associated with our licensed technologies and increases in prepaid insurance.

For fiscal 2017, net cash provided by operating activities of \$2.91 billion was primarily comprised of net income plus the net effect of non-cash items. The primary working capital sources of cash were net income coupled with increases in deferred revenue and accrued expenses. The increase in deferred revenue was primarily due to increased subscriptions for our Creative Cloud offerings and increases in Digital Experience hosted services. The increase in accrued expenses is primarily due to the increase in accruals for compensation costs and employee benefits driven by headcount growth, and increased accrued media costs associated with our Advertising Cloud offerings, including TubeMogul. The primary working capital uses of cash were increases in trade receivables, payments of trade payables assumed as part of the TubeMogul acquisition, and a decrease in income taxes payable. Trade receivables increased primarily due to revenue linearity, higher revenue levels, and increased media receivables attributable to TubeMogul. Income taxes payable decreased primarily due to taxes paid in excess of the tax provision increase.

For fiscal 2016, net cash provided by operating activities of \$2.20 billion was primarily comprised of net income plus the net effect of non-cash items. The primary working capital sources of cash were net income coupled with increases in deferred revenue and accrued expenses. The increase in deferred revenue was primarily due to increased subscriptions for our Creative Cloud offerings and increases in Digital Experience hosted services. The increase in accrued expenses is primarily due to the increase in accruals for compensation costs and employee benefits driven by the increase in headcount. The primary working capital uses of cash were increases in trade receivables, prepaid expenses and other current assets, and a decrease in income taxes payable. Trade receivables increased primarily due

to higher revenue levels. Prepaid expenses and other current assets increased primarily due to advanced tax payments made in the fourth quarter of fiscal 2016. Income taxes payable decreased primarily due to the completion of certain income tax audits in fiscal 2016, offset in part by increases to the tax provision in excess of taxes paid.

Table of Contents

Cash Flows from Investing Activities

For fiscal 2018, net cash used for investing activities of \$4.69 billion was primarily due to our acquisitions of Magento and Marketo during the third and fourth quarter of fiscal 2018, respectively. Other uses of cash included purchases of property and equipment and short-term investments. These cash outflows were offset in part by proceeds from sales and maturities of short-term investments.

For fiscal 2017, net cash used for investing activities of \$442.9 million was primarily due to purchases of short-term investments and our acquisition of TubeMogul. Other uses of cash included purchases of property and equipment, including the Almaden Tower and long-term investments and other assets. These cash outflows were offset in part by sales and maturities of short-term investments.

For fiscal 2016, net cash used for investing activities of \$960.0 million was primarily due to purchases of short-term investments. Other uses of cash represented purchases of property and equipment, purchases of long-term investments and other assets, and an immaterial acquisition. These cash outflows were offset in part by sales and maturities of short-term investments.

See Note 2 of our Notes to Consolidated Financial Statements for more detailed information regarding our acquisitions.

Cash Flows from Financing Activities

For fiscal 2018, net cash used for financing activities was \$5.6 million. Primary uses of cash were payments made for our treasury stock repurchases and taxes related to net share settlement of equity awards. These were offset by the proceeds of our \$2.25 billion senior unsecured term loan (the “Term Loan”) which partially funded our acquisition of Marketo. Funds were received net of issuance costs on October 31, 2018 upon closing of the acquisition. The Term Loan will mature 18 months following the initial funding date.

For fiscal 2017, net cash used for financing activities of \$1.18 billion was primarily due to payments for our treasury stock repurchases and costs associated with the issuance of treasury stock, offset in part by proceeds from the issuance of treasury stock.

For fiscal 2016, net cash used for financing activities of \$1.09 billion was primarily due to payments for our treasury stock repurchases and costs associated with the issuance of treasury stock, offset in part by proceeds from the issuance of treasury stock and excess tax benefits from stock-based compensation.

See Note 2 of our Notes to Consolidated Financial Statements for more detailed information regarding our acquisitions. See the section titled “Stock Repurchase Program” discussed below.

We expect to continue our investing activities, including short-term and long-term investments, venture capital, facilities expansion and purchases of computer systems for research and development, sales and marketing, product support and administrative staff. Furthermore, cash reserves may be used to repurchase stock under our stock repurchase program and to strategically acquire companies, products or technologies that are complementary to our business.

Other Liquidity and Capital Resources Considerations

Our existing cash, cash equivalents and investment balances may fluctuate during fiscal 2019 due to changes in our planned cash outlay, including changes in incremental costs such as direct and integration costs related to our acquisitions.

Cash from operations could also be affected by various risks and uncertainties, including, but not limited to, the risks detailed in Part I, Item 1A titled “Risk Factors.” However, based on our current business plan and revenue prospects, we believe that our existing cash, cash equivalents and investment balances, our anticipated cash flows from operations and our available credit facility will be sufficient to meet our working capital and operating resource expenditure requirements for the next twelve months.

On October 17, 2018, we entered into a credit agreement (the “Revolving Credit Agreement”) with a syndicate of lenders, providing for a five-year \$1 billion senior unsecured revolving credit facility, which replaces our previous five-year \$1 billion senior unsecured revolving credit agreement dated as of March 2, 2012. The new credit agreement

continues to provide for loans to us and certain of our subsidiaries through October 17, 2023. As of November 30, 2018, there were no outstanding borrowings under this credit agreement and the entire \$1 billion credit line remains available for borrowing.

As of November 30, 2018, we have a \$2.25 billion Term Loan outstanding due April 30, 2020. As of November 30, 2018, the amount outstanding under our senior notes was \$1.9 billion, consisting of \$900 million of 4.75% senior notes due February 1, 2020 (the “2020 Notes”) and \$1 billion of 3.25% senior notes due February 1, 2025 (the “2025 Notes,” and together with the 2020 Notes, the “Notes”). The Notes and Term Loan rank equally with our other unsecured and unsubordinated indebtedness.

Table of Contents

Subsequent to November 30, 2018, we acquired the remaining interest in Allegorithmic for approximately \$105.0 million in cash consideration. See Note 2 of our Notes to Consolidated Financial Statements for more detailed information regarding our acquisition of Allegorithmic.

Our short-term investment portfolio is primarily invested in corporate debt securities, U.S. Treasury securities, foreign government securities, municipal securities and asset-backed securities. We use professional investment management firms to manage a large portion of our invested cash.

Stock Repurchase Program

To facilitate our stock repurchase program, designed to return value to our stockholders and minimize dilution from stock issuances, we may repurchase shares in the open market or enter into structured repurchase agreements with third parties. In January 2017, our Board of Directors approved a stock repurchase program granting us authority to repurchase up to \$2.5 billion in common stock through the end of fiscal 2019. In May 2018, our Board of Directors granted us additional authority to repurchase up to \$8.0 billion in common stock through the end of fiscal 2021. During fiscal 2018, 2017 and 2016, we entered into several structured stock repurchase agreements with large financial institutions, whereupon we provided them with prepayments totaling \$2.05 billion, \$1.10 billion, and \$1.08 billion, respectively. We enter into these agreements in order to take advantage of repurchasing shares at a guaranteed discount to the Volume Weighted Average Price (“VWAP”) of our common stock over a specified period of time. We only enter into such transactions when the discount that we receive is higher than our estimate of the expected foregone return on our cash prepayments to the financial institutions. There were no explicit commissions or fees on these structured repurchases. Under the terms of the agreements, there is no requirement for the financial institutions to return any portion of the prepayment to us.

The financial institutions agree to deliver shares to us at monthly intervals during the contract term. The parameters used to calculate the number of shares deliverable are: the total notional amount of the contract, the number of trading days in the contract, the number of trading days in the interval and the average VWAP of our stock during the interval less the agreed upon discount.

The following is a summary of our stock repurchases executed with large financial institutions during fiscal 2018, 2017 and 2016 (in thousands, except average per share amounts):

Board Approval		2018		2017		2016	
Date	Under the Plan	Shares	Average	Shares	Average	Shares	Average
January 2015	Structured repurchases	—	\$ —	4,263	\$ 118.00	10,428	\$ 97.16
January 2017	Structured repurchases	8,686	\$ 230.43	3,923	\$ 151.80	—	\$ —
Total shares		8,686	\$ 230.43	8,186	\$ 134.20	10,428	\$ 97.16
Total cost		\$2,001,500		\$1,098,595		\$1,013,131	

For fiscal 2018, 2017 and 2016, the prepayments were classified as treasury stock on our Consolidated Balance Sheets at the payment date, though only shares physically delivered to us by November 30, 2018, December 1, 2017 and December 2, 2016 were excluded from the computation of earnings per share. As of November 30, 2018, \$150.0 million of prepayments from our May 2018 authority remained under the agreement.

Subsequent to November 30, 2018, as part of the \$8 billion stock repurchase authority, we entered into a structured stock repurchase agreement with a large financial institution whereupon we provided them with a prepayment of \$500 million. This amount will be classified as treasury stock on our Consolidated Balance Sheets. Upon completion of the \$500 million stock repurchase agreement, \$7.35 billion remains under our May 2018 authority. As of November 30, 2018, there is no remaining balance under our January 2017 authority.

See Item 5, Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities for share repurchases during the quarter ended November 30, 2018.

Off-Balance Sheet Arrangements and Aggregate Contractual Obligations

Our principal commitments as of November 30, 2018 consist of obligations under operating leases, royalty agreements and various service agreements. See Note 14 of our Notes to Consolidated Financial Statements for additional information regarding our contractual commitments.

Table of Contents

Transition Taxes Liability

As a result of the Tax Act enacted on December 22, 2017, all historical undistributed foreign subsidiary earnings were subject to a mandatory one-time transition tax. During fiscal 2018, we recorded a transition tax liability of \$504 million and other tax liabilities, including state, of \$6 million. Under an election of the Tax Act, the transition tax is payable over eight years beginning in fiscal 2019, with 8% due in each of the first five years, 15% in year six, 20% in year seven, and 25% in year eight. As we repatriate the undistributed earnings of our foreign subsidiaries for use in the U.S., the earnings from our foreign subsidiaries will generally not be subject to U.S. federal tax. We continuously evaluate the future cash needs of our global operations to determine the amount of foreign earnings that is not necessary to be permanently reinvested in our foreign subsidiaries.

Contractual Obligations

The following table summarizes our contractual obligations as of November 30, 2018 (in millions):

	Payment Due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Notes and Term Loan, including interest	\$4,538.5	\$ 153.3	\$ 3,271.2	\$ 65.0	\$1,049.0
Operating lease obligations	666.5	79.4	156.1	119.1	311.9
Purchase obligations	733.8	346.3	335.3	48.2	4.0
Total	\$5,938.8	\$ 579.0	\$ 3,762.6	\$ 232.3	\$1,364.9
Term Loan					

As of November 30, 2018, our Term Loan's carrying value was \$2.25 billion. At our election, the Term Loan will bear interest at either (i) the London Interbank Offered Rate ("LIBOR") plus a margin, based on our debt ratings, ranging from 0.500% to 1.000% or (ii) a base rate plus a margin, based on our debt ratings, ranging from 0.040% to 0.110%. Interest is payable periodically, in arrears, at the end of each interest period we elect. Based on the LIBOR rate at November 30, 2018, our estimated maximum commitment for interest payments was \$112.8 million for the remaining duration of the Term Loan.

Senior Notes

As of November 30, 2018, our outstanding Notes payable consist of the 2020 Notes and 2025 Notes with a total carrying value of \$1.88 billion. Interest on our Notes is payable semi-annually, in arrears on February 1 and August 1. At November 30, 2018, our maximum commitment for interest payments under the Notes was \$275.4 million for the remaining duration of our Notes. In June 2014, we entered into interest rate swaps that effectively converted the fixed interest rate on our 2020 Notes to a floating interest rate based on LIBOR plus a fixed number of basis points through February 1, 2020.

Covenants

Our Term Loan and Revolving Credit Agreement contain similar financial covenants requiring us not to exceed a maximum leverage ratio. As of November 30, 2018, we were in compliance with the covenants. We believe these covenants will not impact our credit or cash in the coming fiscal year or restrict our ability to execute our business plan. Our Notes do not contain any financial covenants.

Under the terms of our Term Loan and Revolving Credit Agreement, we are not prohibited from paying cash dividends unless payment would trigger an event of default or if one currently exists. We do not anticipate paying any cash dividends in the foreseeable future.

Accounting for Uncertainty in Income Taxes

See Results of Operations - Provision for Income Taxes above for our discussion on accounting for uncertainty in income taxes.

Royalties

We have certain royalty commitments associated with the licensing of certain offerings and products. Royalty expense is generally based on a dollar amount per unit sold, or a percentage of the underlying revenue.

Table of Contents

Indemnifications

In the normal course of business, we provide indemnifications of varying scope to customers against claims of intellectual property infringement made by third parties arising from the use of our products and from time to time, we are subject to claims by our customers under these indemnification provisions. Historically, costs related to these indemnification provisions have not been significant and we are unable to estimate the maximum potential impact of these indemnification provisions on our future results of operations.

To the extent permitted under Delaware law, we have agreements whereby we indemnify our directors and officers for certain events or occurrences while the director or officer is or was serving at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the director's or officer's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that limits our exposure and enables us to recover a portion of any future amounts paid.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

All market risk sensitive instruments were entered into for non-trading purposes.

Foreign Currency Risk

Foreign Currency Exposures and Hedging Instruments

In countries outside the United States, we transact business in U.S. Dollars and various other currencies, which subject us to exposure from movements in exchange rates. We may use foreign exchange purchased options or forward contracts to hedge our foreign currency revenue. Additionally, we hedge our net recognized foreign currency assets and liabilities with foreign exchange forward contracts. We hedge these exposures to reduce the risk that our earnings and cash flows will be adversely affected by changes in exchange rates.

Our significant foreign currency revenue exposures for fiscal 2018, 2017 and 2016 were as follows (in millions, except Japanese Yen):

	Fiscal 2018	Fiscal 2017	Fiscal 2016
Euro	€1,309.9	€1,044.7	€825.6
Japanese Yen (in billions)	¥60.8	¥51.0	¥38.7
British Pounds	£423.1	£338.4	£263.5

As of November 30, 2018, the total absolute value of all outstanding foreign exchange contracts, including options and forwards, was \$1.55 billion, which included the notional equivalent of \$805.0 million in Euros, \$275.3 million in British Pounds, \$331.8 million in Japanese Yen and \$140.3 million in other foreign currencies. As of November 30, 2018, all contracts were set to expire at various dates through June 2019. The bank counterparties in these contracts could expose us to credit-related losses that would be largely mitigated with collateral security agreements that provide for collateral to be received or posted when the net fair value of these contracts fluctuates from contractually established thresholds. In addition, we enter into master netting arrangements that have the ability to further limit credit-related losses with the same counterparty by permitting net settlement transactions.

A sensitivity analysis was performed on all of our foreign exchange derivatives as of November 30, 2018. This sensitivity analysis measures the hypothetical market value resulting from a 10% shift in the value of exchange rates relative to the U.S. Dollar. For option contracts, the Black-Scholes option pricing model was used. A 10% increase in the value of the U.S. Dollar and a corresponding decrease in the value of the hedged foreign currency asset would lead to an increase in the fair value of our financial hedging instruments by \$48.2 million. Conversely, a 10% decrease in the value of the U.S. Dollar would result in a decrease in the fair value of these financial instruments by \$60.7 million. As a general rule, we do not use foreign exchange contracts to hedge local currency denominated operating expenses in countries where a natural hedge exists. For example, in many countries, revenue in the local currencies substantially offsets the local currency denominated operating expenses.

We also have long-term investment exposures consisting of the capitalization and retained earnings in our non-U.S. Dollar functional currency foreign subsidiaries. As of November 30, 2018 and December 1, 2017, this long-term investment exposure

Table of Contents

totaled an absolute notional equivalent of \$292.3 million and \$190.5 million, respectively, with the year-over-year increase primarily driven by earnings growth. At this time, we do not hedge these long-term investment exposures. We do not use foreign exchange contracts for speculative trading purposes, nor do we hedge our foreign currency exposure in a manner that entirely offsets the effects of changes in foreign exchange rates. We regularly review our hedging program and assess the need to utilize financial instruments to hedge currency exposures on an ongoing basis.

Cash Flow Hedging—Hedges of Forecasted Foreign Currency Revenue

We may use foreign exchange purchased options or forward contracts to hedge foreign currency revenue denominated in Euros, British Pounds and Japanese Yen. We hedge these cash flow exposures to reduce the risk that our earnings and cash flows will be adversely affected by changes in exchange rates. These foreign exchange contracts, carried at fair value, may have maturities between one and twelve months. We enter into these foreign exchange contracts to hedge forecasted revenue in the normal course of business and accordingly, they are not speculative in nature.

We record changes in the intrinsic value of these cash flow hedges in accumulated other comprehensive income (loss) until the forecasted transaction occurs. When the forecasted transaction occurs, we reclassify the related gain or loss on the cash flow hedge to revenue. In the event the underlying forecasted transaction does not occur, or it becomes probable that it will not occur, we reclassify the gain or loss on the related cash flow hedge from accumulated other comprehensive income (loss) to interest and other income, net on our Consolidated Statements of Income at that time. For the fiscal year ended November 30, 2018, there were no net gains or losses recognized in other income relating to hedges of forecasted transactions that did not occur.

Balance Sheet Hedging—Hedging of Foreign Currency Assets and Liabilities

We hedge exposures related to our net recognized foreign currency assets and liabilities with foreign exchange forward contracts to reduce the risk that our earnings and cash flows will be adversely affected by changes in foreign currency exchange rates. These foreign exchange contracts are carried at fair value with changes in the fair value recorded as interest and other income, net. These foreign exchange contracts do not subject us to material balance sheet risk due to exchange rate movements because gains and losses on these contracts are intended to offset gains and losses on the assets and liabilities being hedged. At November 30, 2018, the outstanding balance sheet hedging derivatives had maturities of 180 days or less.

See Note 5 of our Notes to Consolidated Financial Statements for information regarding our hedging activities.

Interest Rate Risk**Short-Term Investments and Fixed Income Securities**

At November 30, 2018, we had debt securities classified as short-term investments of \$1.59 billion. Changes in interest rates could adversely affect the market value of these investments. The following table separates these investments, based on stated maturities, to show the approximate exposure to interest rates (in millions):

Due within one year	\$612.1
Due between one and two years	564.2
Due between two and three years	282.2
Due after three years	127.7
Total	\$1,586.2

A sensitivity analysis was performed on our investment portfolio as of November 30, 2018. The analysis is based on an estimate of the hypothetical changes in market value of the portfolio that would result from an immediate parallel shift in the yield curve of various magnitudes.

Table of Contents

The following tables present the hypothetical fair values of our debt securities classified as short-term investments assuming immediate parallel shifts in the yield curve of 50 basis points (“BPS”), 100 BPS and 150 BPS. The analysis is shown as of November 30, 2018 and December 1, 2017 (dollars in millions):

-150 BPS	-100 BPS	-50 BPS	Fair Value 11/30/18	+50 BPS	+100 BPS	+150 BPS
\$1,617.5	\$1,607.1	\$1,596.6	\$1,586.2	\$1,575.7	\$1,565.3	\$1,554.8
-150 BPS	-100 BPS	-50 BPS	Fair Value 12/1/17	+50 BPS	+100 BPS	+150 BPS
\$3,595.2	\$3,568.1	\$3,540.9	\$3,513.7	\$3,486.5	\$3,459.3	\$3,432.1

Term Loan

As of November 30, 2018, our Term Loan’s carrying value was \$2.25 billion. At our election, the Term Loan will bear interest at either (i) LIBOR plus a margin, based on our debt ratings, ranging from 0.500% to 1.000% or (ii) a base rate plus a margin, based on our debt ratings, ranging from 0.040% to 0.110%. Interest is payable periodically, in arrears, at the end of each interest period we elect. An immediate hypothetical 50 basis points increase or decrease in market interest rates would not have a significant impact on our results of operations.

Senior Notes

As of November 30, 2018, the amount outstanding under our Notes was \$1.9 billion. In June 2014, we entered into interest rate swaps that effectively converted the fixed interest rate on our 2020 Notes to a floating interest rate based on LIBOR plus a fixed number of basis points through February 1, 2020. Accordingly, our exposure to fluctuations in market interest rates is on the hedged fixed-rate debt of \$900 million. An immediate hypothetical 50 basis points increase or decrease in market interest rates would not have a significant impact on our results of operations.

As of November 30, 2018, the total carrying amount of the Notes was \$1.88 billion and the related fair value based on observable market prices in less active markets was \$1.89 billion.

Other Market Risk**Privately Held Long-Term Investments**

The privately held companies in which we invest can still be considered in the start-up or development stages which are inherently risky. The technologies or products these companies have under development are typically in the early stages and may never materialize, which could result in a loss of a substantial part of our initial investment in these companies. The evaluation of privately held companies is based on information that we request from these companies, which is not subject to the same disclosure regulations as U.S. publicly traded companies, and as such, the basis for these evaluations is subject to the timing and accuracy of the data received from these companies. We have immaterial exposure on our long-term investments in privately held companies as these investments were not significant as of November 30, 2018 and December 1, 2017.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Operations

Founded in 1982, Adobe Inc. is one of the largest and most diversified software companies in the world. We offer a line of products and services used by creative professionals, marketers, knowledge workers, application developers, enterprises and consumers for creating, managing, delivering, measuring, optimizing and engaging with compelling content and experiences across personal computers, devices and media. We market and license our products and services directly to enterprise customers through our sales force and to end users through app stores and our own website at www.adobe.com. We offer many of our products via a Software-as-a-Service (“SaaS”) model or a managed services model (both of which are referred to as a hosted or cloud-based) as well as through term subscription and pay-per-use models. We also distribute certain products and services through a network of distributors, value-added resellers (“VARs”), systems integrators (“SIs”), independent software vendors (“ISVs”), retailers, software developers and original equipment manufacturers (“OEMs”). In addition, we license our technology to hardware manufacturers, software developers and service providers for use in their products and solutions. Our products run on personal and server-based computers, as well as on smartphones, tablets and other devices, depending on the product. We have operations in the Americas, Europe, Middle East and Africa (“EMEA”) and Asia-Pacific (“APAC”).

Basis of Presentation

The accompanying Consolidated Financial Statements include those of Adobe and its subsidiaries, after elimination of all intercompany accounts and transactions. We have prepared the accompanying Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the rules and regulations of the United States Securities and Exchange Commission (the “SEC”).

Use of Estimates

In preparing Consolidated Financial Statements and related disclosures in conformity with GAAP and pursuant to the rules and regulations of the SEC, we must make estimates and judgments that affect the amounts reported in the Consolidated Financial Statements and accompanying notes. Estimates are used for, but not limited to, sales allowances and programs, bad debts, stock-based compensation, determining the fair value of acquired assets and assumed liabilities, excess inventory and purchase commitments, facilities lease losses, impairment of goodwill and intangible assets, litigation, income taxes and investments. Actual results may differ materially from these estimates.

Fiscal Year

Our fiscal year is a 52- or 53-week year that ends on the Friday closest to November 30. Our financial results for fiscal 2016 benefited from an extra week in the first quarter of fiscal 2016 due to our 52/53-week financial calendar whereby fiscal 2016 was a 53-week fiscal year compared with fiscal 2018 and 2017 which were 52-week fiscal years.

Reclassifications

Certain immaterial prior year amounts have been reclassified to conform to current year presentation in the Consolidated Statements of Cash Flows.

Significant Accounting Policies

Revenue Recognition

Our revenue is derived from subscription offerings, non-software related hosted services, term-based and perpetual licensing of software products, associated software maintenance and support plans, consulting services, training, and technical support. Most of our enterprise customer arrangements are complex, involving multiple solutions and various license rights, bundled with post-contract customer support and other meaningful rights that together provide a complete end-to-end solution to the customer.

We recognize revenue when all four revenue recognition criteria have been met: persuasive evidence of an arrangement exists, we have delivered the product or performed the service, the fee is fixed or determinable and

collection is probable.

62

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Determining whether and when some of these criteria have been satisfied often involves assumptions and judgments that can have a significant impact on the timing and amount of revenue we report.

Multiple Element Arrangements

We enter into multiple element revenue arrangements in which a customer may purchase a combination of software, upgrades, maintenance and support, hosted services, and consulting.

For our software and software-related multiple element arrangements, we must: (1) determine whether and when each element has been delivered; (2) determine whether undelivered products or services are essential to the functionality of the delivered products and services; (3) determine the fair value of each undelivered element using vendor-specific objective evidence (“VSOE”); and (4) allocate the total price among the various elements. VSOE of fair value is used to allocate a portion of the price to the undelivered elements and the residual method is used to allocate the remaining portion to the delivered elements. Absent VSOE, revenue is deferred until the earlier of the point at which VSOE of fair value exists for any undelivered element or until all elements of the arrangement have been delivered. However, if the only undelivered element is maintenance and support, the entire arrangement fee is recognized ratably over the performance period. Changes in assumptions or judgments or changes to the elements in a software arrangement could cause a material increase or decrease in the amount of revenue that we report in a particular period.

We determine VSOE for each element based on historical stand-alone sales to third parties or from the stated renewal rate for the elements contained in the initial arrangement. In determining VSOE, we require that a substantial majority of the selling prices for a product or service fall within a reasonably narrow pricing range.

We have established VSOE for our software maintenance and support services, custom software development services, consulting services and training, when such services are sold optionally with software licenses.

For multiple-element arrangements containing our non-software services, we must: (1) determine whether and when each element has been delivered; (2) determine the fair value of each element using the selling price hierarchy of VSOE of selling price, third-party evidence (“TPE”) of selling price or best-estimated selling price (“BESP”), as applicable; and (3) allocate the total price among the various elements based on the relative selling price method.

For multiple-element arrangements that contain both software and non-software elements, we allocate revenue to software or software-related elements as a group and any non-software elements separately based on the selling price hierarchy. We determine the selling price for each deliverable using VSOE of selling price, if it exists, or TPE of selling price. If neither VSOE nor TPE of selling price exist for a deliverable, we use BESP. Once revenue is allocated to software or software-related elements as a group, we recognize revenue in conformance with software revenue accounting guidance. Revenue is recognized when revenue recognition criteria are met for each element.

We are generally unable to establish VSOE or TPE for non-software elements and as such, we use BESP. BESP is generally used for offerings that are not typically sold on a stand-alone basis or for new or highly customized offerings. We determine BESP for a product or service by considering multiple factors including, but not limited to major product groupings, geographies, market conditions, competitive landscape, internal costs, gross margin objectives and pricing practices. Pricing practices taken into consideration include historic contractually stated prices, volume discounts where applicable and our price lists. We must estimate certain royalty revenue amounts due to the timing of securing information from our customers. While we believe we can make reliable estimates regarding these matters, these estimates are inherently subjective. Accordingly, our assumptions and judgments regarding future products and services as well as our estimates of royalty revenue could differ from actual events, thus materially impacting our financial position and results of operations.

Subscription and Services and Support Revenue

We recognize revenue for hosted services that are priced based on a committed number of transactions, ratably beginning on the date the services associated with the committed transactions are first made available to the customer and continuing through the end of the contractual service term. Over-usage fees, and fees billed based on the actual number of transactions from which we capture data, are billed in accordance with contract terms as these fees are incurred. We record amounts that have been invoiced in accounts receivable and in deferred revenue or revenue, depending on whether all revenue recognition criteria have been met.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Our services and support revenue is composed of consulting, training, and maintenance and support, primarily related to the licensing of our enterprise, mobile and device products and solutions. Our support revenue also includes technical support and developer support to partners and developer organizations related to our desktop products. Our consulting revenue is recognized using a time and materials basis and is measured monthly based on input measures, such as hours incurred to date, with consideration given to output measures, such as contract milestones when applicable.

Our maintenance and support offerings, which entitle customers to receive product upgrades and enhancements on a when and if available basis or technical support, depending on the offering, are recognized ratably over the performance period of the arrangement.

Our software subscription offerings, which may include product upgrades and enhancements on a when and if available basis, hosted services, and online storage, are generally offered to our customers over a specified period of time and we recognize revenue associated with these arrangements ratably over the subscription period.

Product Revenue

We recognize our product revenue upon shipment, provided all other revenue recognition criteria have been met. Our desktop application product revenue from distributors is subject to agreements allowing limited rights of return, rebates and price protection. Our direct sales and OEM sales are also subject to limited rights of return. Accordingly, we reduce revenue recognized for estimated future returns, price protection and rebates at the time the related revenue is recorded. The estimates for returns are adjusted periodically based upon historical rates of returns, inventory levels in the distribution channel and other related factors.

We recognize OEM licensing revenue, primarily royalties, when OEMs ship products incorporating our software, provided collection of such revenue is deemed probable. For certain OEM customers, we must estimate royalty revenue due to the timing of securing customer information. This estimate is based on a combination of our generated forecasts and actual historical reporting by our OEM customers. To substantiate our ability to estimate revenue, we review license royalty revenue reports ultimately received from our significant OEM customers in comparison to the amounts estimated in the prior period.

Our product-related deferred revenue includes maintenance upgrade revenue and customer advances under OEM license agreements. Our maintenance upgrade revenue for our desktop application products is included in our product revenue line item as the maintenance primarily entitles customers to receive product upgrades. In cases where we provide a specified free upgrade to an existing product, we defer the fair value for the specified upgrade right until the future obligation is fulfilled or when the right to the specified free upgrade expires.

Rights of Return, Rebates and Price Protection

As discussed above, we offer limited rights of return, rebates and price protection of our products under various policies and programs with our distributors, resellers and/or end-user customers. We estimate and record reserves for these programs as an offset to revenue and accounts receivable. Below is a summary of each of the general provisions in our contracts:

Distributors are allowed limited rights of return of products purchased during the previous quarter. In addition, distributors are allowed to return products that have reached the end of their lives, as defined by us, and products that are being replaced by new versions.

We offer rebates to our distributors, resellers and/or end user customers. The amount of revenue that is reduced for distributor and reseller rebates is based on actual performance against objectives set forth by us for a particular reporting period (volume, timely reporting, etc.). If mail-in or other promotional rebates are offered, the amount of revenue reduced is based on the dollar amount of the rebate, taking into consideration an estimated redemption rate calculated using historical trends.

From time to time, we may offer price protection to our distributors that allow for the right to a credit if we permanently reduce the price of a software product. The amount of revenue that is reduced for price protection is

calculated as the difference between the old and new price of a software product on inventory held by the distributor immediately prior to the effective date of the decrease.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Although our subscription contracts are generally non-cancellable, a limited number of customers have the right to cancel their contracts by providing prior written notice to us of their intent to cancel the remainder of the contract term. In the event a customer cancels its contract, they are not entitled to a refund for prior services we have provided to them.

On a quarterly basis, the amount of revenue that is reserved for future returns is calculated based on our historical trends and data specific to each reporting period. We review the actual returns evidenced in prior quarters as a percent of revenue to determine a historical returns rate. We then apply the historical rate to the current period revenue as a basis for estimating future returns. When necessary, we also provide a specific returns reserve for product in the distribution channel in excess of estimated requirements. This estimate can be affected by the amount of a particular product in the channel, the rate of sell-through, product plans and other factors.

Revenue Reserve

Revenue reserve rollforward (in thousands):

	2018	2017	2016
Beginning balance	\$22,006	\$23,096	\$19,446
Amount charged to revenue	65,241	61,031	55,739
Actual returns	(61,822)	(62,121)	(52,089)
Ending balance	\$25,425	\$22,006	\$23,096

Deferred Revenue

Deferred revenue consists of billings and payments received in advance of revenue recognition for our products and solutions described above. We recognize deferred revenue as revenue only when the revenue recognition criteria are met.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts which reflects our best estimate of potentially uncollectible trade receivables. The allowance is based on both specific and general reserves. We regularly review our trade receivables allowances by considering such factors as historical experience, credit-worthiness, the age of the trade receivable balances and current economic conditions that may affect a customer's ability to pay and we specifically reserve for those deemed uncollectible.

(in thousands)	2018	2017	2016
Beginning balance	\$9,151	\$6,214	\$7,293
Increase due to acquisition	5,602	2,391	77
Charged to operating expenses	5,962	4,411	1,337
Deductions ⁽¹⁾	(5,734)	(3,865)	(2,493)
Ending balance	\$14,981	\$9,151	\$6,214

(1) Deductions related to the allowance for doubtful accounts represent amounts written off against the allowance, less recoveries.

Property and Equipment

We record property and equipment at cost less accumulated depreciation and amortization. Property and equipment are depreciated using the straight-line method over their estimated useful lives ranging from 1 to 5 years for computers and equipment as well as server hardware under capital leases, 1 to 6 years for furniture and fixtures, 5 to 20 years for building improvements and up to 40 years for buildings. Leasehold improvements are amortized using the straight-line method over the lesser of the remaining respective lease term or estimated useful lives ranging from 1 to 15 years.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Goodwill, Purchased Intangibles and Other Long-Lived Assets

Goodwill is assigned to one or more reporting segments on the date of acquisition. We review our goodwill for impairment annually during our second quarter of each fiscal year and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of any one of our reporting units below its respective carrying amount. In performing our goodwill impairment test, we first perform a qualitative assessment, which requires that we consider events or circumstances including macroeconomic conditions, industry and market considerations, cost factors, overall financial performance, changes in management or key personnel, changes in strategy, changes in customers, changes in the composition or carrying amount of a reporting segment's net assets and changes in our stock price. If, after assessing the totality of events or circumstances, we determine that it is more likely than not that the fair values of our reporting segments are greater than the carrying amounts, then the quantitative goodwill impairment test is not performed.

If the qualitative assessment indicates that the quantitative analysis should be performed, we then evaluate goodwill for impairment by comparing the fair value of each of our reporting segments to its carrying value, including the associated goodwill. To determine the fair values, we use the equal weighting of the market approach based on comparable publicly traded companies in similar lines of businesses and the income approach based on estimated discounted future cash flows. Our cash flow assumptions consider historical and forecasted revenue, operating costs and other relevant factors.

We completed our annual goodwill impairment test in the second quarter of fiscal 2018. We determined, after performing a qualitative review of each reporting segment, that it is more likely than not that the fair value of each of our reporting segments substantially exceeds the respective carrying amounts. Accordingly, there was no indication of impairment and the quantitative goodwill impairment test was not performed. We did not identify any events or changes in circumstances since the performance of our annual goodwill impairment test that would require us to perform another goodwill impairment test during the fiscal year.

We amortize intangible assets with finite lives over their estimated useful lives and review them for impairment whenever an impairment indicator exists. We continually monitor events and changes in circumstances that could indicate carrying amounts of our long-lived assets, including our intangible assets may not be recoverable. When such events or changes in circumstances occur, we assess recoverability by determining whether the carrying value of such assets will be recovered through the undiscounted expected future cash flows. If the future undiscounted cash flows are less than the carrying amount of these assets, we recognize an impairment loss based on any excess of the carrying amount over the fair value of the assets. We did not recognize any intangible asset impairment charges in fiscal 2018, 2017 or 2016.

During fiscal 2018, our intangible assets were amortized over their estimated useful lives ranging from 1 to 14 years. Amortization is based on the pattern in which the economic benefits of the intangible asset will be consumed or on a straight-line basis when the consumption pattern is not apparent. The weighted average useful lives of our intangible assets were as follows:

	Weighted Average Useful Life (years)
Purchased technology	6
Customer contracts and relationships	9
Trademarks	9
Acquired rights to use technology	10

Backlog	2
Other intangibles	4

Income Taxes

We use the asset and liability method of accounting for income taxes. Under this method, income tax expense is recognized for the amount of taxes payable or refundable for the current year. In addition, deferred tax assets and liabilities are recognized for expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and tax credit carryforwards. We record a valuation allowance to reduce deferred tax assets to an amount for which realization is more likely than not.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Taxes Collected from Customers

We net taxes collected from customers against those remitted to government authorities in our financial statements. Accordingly, taxes collected from customers are not reported as revenue.

Treasury Stock

We account for treasury stock under the cost method. When treasury stock is re-issued at a price higher than its cost, the difference is recorded as a component of additional paid-in-capital in our Consolidated Balance Sheets. When treasury stock is re-issued at a price lower than its cost, the difference is recorded as a component of additional paid-in-capital to the extent that there are previously recorded gains to offset the losses. If there are no treasury stock gains in additional paid-in-capital, the losses upon re-issuance of treasury stock are recorded as a reduction of retained earnings in our Consolidated Balance Sheets.

Advertising Expenses

Advertising costs are expensed as incurred. Advertising expenses for fiscal 2018, 2017 and 2016 were \$173.6 million, \$141.7 million and \$135.8 million, respectively.

Foreign Currency Translation

We translate assets and liabilities of foreign subsidiaries, whose functional currency is their local currency, at exchange rates in effect at the balance sheet date. We translate revenue and expenses at the monthly average exchange rates. We include accumulated net translation adjustments in stockholders' equity as a component of accumulated other comprehensive income (loss).

Foreign Currency and Other Hedging Instruments

In countries outside the United States, we transact business in U.S. Dollars and in various other currencies. We may use foreign exchange option and forward contracts to hedge a portion of our forecasted foreign currency denominated revenue primarily in Euros, British Pounds and Japanese Yen. We hedge our net recognized foreign currency assets and liabilities with foreign exchange forward contracts to reduce the risk that our earnings and cash flows will be adversely affected by changes in exchange rates.

We recognize all derivative instruments as either assets or liabilities in our Consolidated Balance Sheets and measure them at fair value. Gains and losses resulting from changes in fair value are accounted for depending on the use of the derivative and whether it is designated and qualifies for hedge accounting. Contracts that do not qualify for hedge accounting are adjusted to fair value through earnings. See Note 5 for information regarding our hedging activities. Gains and losses from foreign exchange forward contracts which hedge certain balance sheet positions are recorded each period as a component of interest and other income, net in our Consolidated Statements of Income. Foreign exchange option contracts hedging forecasted foreign currency revenue are designated as cash flow hedges with gains and losses recorded net of tax, as a component of other comprehensive income in stockholders' equity and reclassified into revenue at the time the forecasted transactions occur.

Concentration of Risk

Financial instruments that potentially subject us to concentrations of credit risk are short-term fixed-income investments, structured repurchase transactions, foreign currency and interest rate hedge contracts and trade receivables.

Our investment portfolio consists of investment-grade securities diversified among security types, industries and issuers. Our cash and investments are held and primarily managed by recognized financial institutions that follow our investment policy. Our policy limits the amount of credit exposure to any one security issue or issuer and we believe no significant concentration of credit risk exists with respect to these investments.

We enter into foreign currency hedge contracts with bank counterparties that could expose us to credit related losses in the event of their nonperformance. This is largely mitigated with collateral security agreements that provide for collateral to be received or posted when the net fair value of certain financial instruments fluctuates from contractually established thresholds. In addition,

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

we enter into master netting arrangements which have the ability to further limit credit related losses with the same counterparty by permitting net settlement transactions.

The aggregate fair value of foreign currency contracts in net asset positions as of November 30, 2018 and December 1, 2017 was \$44.3 million and \$14.2 million respectively. These amounts represent the maximum exposure to loss at the reporting date as a result of all of the counterparties failing to perform as contracted. These exposures could be reduced by certain immaterial liabilities included in master netting arrangements with those same counterparties.

Credit risk in receivables is limited to OEMs, dealers and distributors of hardware and software products to the retail market, customers to whom we license software directly and our SaaS offerings. A credit review is completed for our new distributors, dealers and OEMs. We also perform ongoing credit evaluations of our customers' financial condition and require letters of credit or other guarantees, whenever deemed necessary. The credit limit given to the customer is based on our risk assessment of their ability to pay, country risk and other factors and is not contingent on the resale of the product or on the collection of payments from their customers. If we license our software or provide SaaS services to a customer where we have a reason to believe the customer's ability to pay is not probable, due to country risk or credit risk, we will not recognize the revenue. We will revert to recognizing the revenue on a cash basis, assuming all other criteria for revenue recognition has been met.

Recently Adopted Accounting Guidance

On January 26, 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2017-04, Simplifying the Test for Goodwill Impairment, which eliminated step two from the goodwill impairment test. In assessing impairment of goodwill, if it is concluded that it is more likely than not that the carrying amount of a reportable segment exceeds its fair value during the qualitative assessment, a one-step goodwill impairment test will be performed. If it is concluded during the quantitative test that the carrying amount of a reportable segment exceeds its fair value, an impairment loss shall be recognized in an amount equal to that excess, limited to the total amount of goodwill allocated to that reportable segment. The effective date of the new standard for public companies is for fiscal years beginning after December 15, 2019 and interim periods within those fiscal years. Early adoption is permitted. In the first quarter of 2018, we early adopted ASU 2017-04. The standard did not have an impact to our qualitative assessment for goodwill impairment that we performed in the second quarter of fiscal 2018.

There have been no other new accounting pronouncements made effective during fiscal 2018 that have significance, or potential significance, to our Consolidated Financial Statements.

Recent Accounting Pronouncements Not Yet Effective

On May 28, 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in GAAP when it becomes effective and permits the use of either the full retrospective or modified retrospective transition method. The updated standard is effective for us in the first quarter of fiscal 2019. We will adopt this updated standard in the first quarter of fiscal 2019 on a modified retrospective basis. We are currently evaluating the effect that the updated standard will have on our Consolidated Financial Statements and related disclosures.

While we are continuing to assess all potential impacts of the new standard, we believe there should not be a material change to the amount of consolidated revenues on an annual basis.

We expect revenue related to our cloud offerings, including Creative Cloud and Document Cloud for business enterprises, individuals and teams, to remain substantially unchanged. When sold with cloud-enabled services, Creative Cloud and Document Cloud require a significant level of integration and interdependency with software and the individual components are not considered distinct. Revenue for these offerings will continue to be recognized over

the period in which the cloud services are provided.

We believe the most significant revenue-related impact relates to our accounting for arrangements that include on-premise term-based software licenses bundled with maintenance and support. Under current GAAP, the revenue attributable to these software licenses is recognized ratably over the term of the arrangement because VSOE does not exist for the undelivered

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

maintenance and support element as it is not sold separately. The requirement to have VSOE for undelivered elements to enable the separation of revenue for the delivered software licenses is eliminated under the new standard. Accordingly, under the new standard we will be required to recognize as revenue a portion of the arrangement fee upon delivery of the software licenses and potentially classify such revenue as “product” instead of “subscription” revenue on the income statement. We offer on-premise term-based software licenses bundled with maintenance and support as a deployment model for certain offerings within our Digital Experience, Digital Media, and Publishing business units. We do not expect these arrangements to have a material impact to revenue reported in annual reporting periods subsequent to adoption, however they may result in a material balance sheet impact on the date of adoption due to the application of the modified retrospective transition method. The modified retrospective method requires upon adoption that we recognize the impact of applying the new standard to contracts that are not completed at the date of initial adoption, but under this adoption method, we do not restate prior financial statements. We will record a cumulative effect of initially applying the provisions of the new standard as an adjustment to increase the opening retained earnings balance and reduce the opening deferred revenue balance. Further, some of our enterprise agreements allow our customers to commit to prepaid bank of funds which can be utilized to purchase Adobe products or services, which includes customer option to purchase or renew on-premise term-based licenses on a monthly basis. Revenue associated with these term-license performance obligations would be recognized monthly.

Other expected impacts to our policies and disclosures include: earlier recognition of revenue for certain contracts due to the elimination of contingent revenue limitations, an unbilled receivable balance on our balance sheets, the requirement to estimate variable consideration for certain arrangements, increased allocation of revenue to and from professional services and other offerings, and changes to our financial statement disclosures such as remaining performance obligations.

Under current GAAP, we expense costs related to the acquisition of revenue-generating contracts as incurred. Under the new standard, we will be required to capitalize certain costs incremental to contract acquisition and amortize them over the expected period of benefit. We expect there will be a material balance sheet impact at the period of adoption to capitalize costs of obtaining the contract as an asset, with a corresponding adjustment to opening retained earnings at the date of initial adoption. Additionally, we may have to record related deferred income taxes. We continue to evaluate the magnitude of the impact and the impact recent acquisitions will have under current standards and the new standard.

Due to the complexity of certain of our contracts, the actual accounting treatment required under the new standard for these arrangements may be dependent on contract-specific terms and therefore may vary in some instances.

On February 24, 2016, the FASB issued ASU No. 2016-02, Leases, requiring lessees to recognize a right-of-use asset and a lease liability on the balance sheet for all leases with the exception of short-term leases with a lease term of twelve months or less. For lessees, leases will continue to be classified as either operating or finance leases in the income statement. Lessor accounting is similar to the current model but updated to align with certain changes to the lessee model. Lessors will continue to classify leases as operating, direct financing or sales-type leases. The effective date of the new leases standard for public companies is for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted. The updated standard is effective for us beginning in the first quarter of fiscal 2020 and we do not plan to early adopt.

The new leases standard must be adopted using a modified retrospective transition and allows for the application of the new guidance at the beginning of the earliest comparative period presented or at the adoption date. In July 2018, the FASB issued ASU No. 2018-11, Leases - Targeted Improvements, providing an optional transition method that

allows entities to initially apply the new leases standard at the adoption date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. We intend to adopt the new leases standard using this optional transition method.

While we are continuing to assess the potential impacts of the standard, we currently expect the most significant impact will be the recognition of right-of-use assets and lease liabilities on our consolidated balance sheet. We are implementing a new lease accounting system and updating our processes in preparation for the adoption of the new leases standard.

On August 28, 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging, requiring expanded hedge accounting for both non-financial and financial risk components and refining the measurement of hedge results to better reflect an entity's hedging strategies. For example, adoption would result in reclassification of hedge costs from foreign currency hedges from interest and other income (expense), net to revenue in our Consolidated Statements of Income. The updated standard also amends the presentation and disclosure requirements and changes how entities assess hedge effectiveness. The effective date of the new

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

standard for public companies is for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted. The new standard must be adopted using a modified retrospective transition with a cumulative effect adjustment recorded to opening retained earnings as of the initial adoption date. The updated standard is effective for us beginning in the first quarter of fiscal 2020. We are currently evaluating the effect that the updated standard will have on our Consolidated Financial Statements and related disclosures. While we are continuing to assess all potential impacts of the new standard, we believe there should not be a material impact on our Consolidated Financial Statements.

With the exception of the new standards discussed above, there have been no other new accounting pronouncements that have significance, or potential significance, to our Consolidated Financial Statements.

NOTE 2. ACQUISITIONS

Marketo

On October 31, 2018, we completed the acquisition of Marketo, a privately held marketing cloud platform company, for approximately \$4.74 billion of cash consideration. Adding Marketo's engagement platform to Adobe Experience Cloud furthers our long-term plan for strategic growth in the Digital Experience segment and enables us to offer a comprehensive set of solutions to enable customers across industries and companies automate and orchestrate their marketing activities. Under the terms of the Share Purchase Agreement (the "Purchase Agreement"), we acquired all of the issued and outstanding shares of capital stock of Milestone Topco, Inc., a Delaware corporation ("Topco") and indirect parent company of Marketo, and other equity interests in Marketo. In connection with the acquisition, each Marketo equity award that was issued and outstanding was cancelled and extinguished in exchange for cash consideration. Also pursuant to the Purchase Agreement, upon closing of the transaction, cash was paid for the settlement of Marketo's long-term incentive plan, the settlement of Marketo's indebtedness and the acquisition of all remaining equity interests in Marketo K.K., a Japanese corporation and joint venture.

In connection with the acquisition of Marketo, we entered into a credit agreement providing for a \$2.25 billion senior unsecured term loan (the "Term Loan"). The proceeds of the Term Loan were used to (i) fund a portion of the purchase price of the acquisition and (ii) to pay fees and expenses incurred in connection with the acquisition. The Term Loan funds were received on October 31, 2018 upon closing of the acquisition and will mature 18 months following the initial funding date. See Note 15 for further details regarding our debt.

Following the closing, we began integrating Marketo into our Digital Experience reportable segment. We have included the financial results of Marketo in our Consolidated Financial Statements beginning on the acquisition date. The amounts of net revenue and net loss of Marketo included in the Company's Consolidated Statements of Income from the acquisition date through November 30, 2018 were not material. The direct transaction costs associated with the acquisition were also not material.

Purchase Price Allocation

Under the purchase accounting method, the total preliminary purchase price was allocated to Marketo's net tangible and intangible assets based upon their estimated fair values as of the acquisition date. The excess purchase price over the value of the net tangible and identifiable intangible assets was recorded as goodwill.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The table below represents the preliminary purchase price allocation to the acquired net tangible and intangible assets of Marketo based on their estimated fair values as of the acquisition date and the associated estimated useful lives at that date. The fair values assigned to assets acquired and liabilities assumed are based on management's best estimates and assumptions as of the reporting date and are considered preliminary pending finalization of valuation analyses pertaining to intangible assets acquired, deferred revenue and tax liabilities assumed including the calculation of deferred tax assets and liabilities.

(in thousands)	Amount	Weighted Average Useful Life (years)
Customer contracts and relationships	\$576,900	11
Purchased technology	444,500	7
Backlog	105,800	2
Non-competition agreements	12,100	2
Trademarks	328,500	9
Total identifiable intangible assets	1,467,800	
Net liabilities assumed	(191,288)	N/A
Goodwill ⁽¹⁾	3,459,751	N/A
Total estimated purchase price	\$4,736,263	

⁽¹⁾ Non-deductible for tax-purposes.

Identifiable intangible assets—Customer relationships consist of Marketo's contractual relationships and customer loyalty related to their enterprise and commercial customers as well as technology partner relationships. The estimated fair value of the customer contracts and relationships was determined based on projected cash flows attributable to the asset. Purchased technology acquired primarily consists of Marketo's cloud-based engagement marketing software platform. The estimated fair value of the purchased technology was determined based on the expected future cost savings resulting from ownership of the asset. Backlog relates to subscription contracts and professional services. Non-compete agreements include agreements with key Marketo employees that preclude them from competing against Marketo for a period of two years from the acquisition date. Trademarks include the Marketo trade name, which is well known in the marketing ecosystem. We amortize the fair value of these intangible assets on a straight-line basis over their respective estimated useful lives.

Goodwill—Approximately \$3.46 billion has been allocated to goodwill, and has been allocated in full to the Digital Experience reportable segment. Goodwill represents the excess of the purchase price over the fair value of the underlying acquired net tangible and intangible assets. The factors that contributed to the recognition of goodwill included securing buyer-specific synergies that increase revenue and profits and are not otherwise available to a marketplace participant, acquiring a talented workforce and cost savings opportunities.

Net liabilities assumed —Marketo's tangible assets and liabilities as of October 31, 2018 were reviewed and adjusted to their fair value as necessary. The net liabilities assumed included, among other items, \$100.1 million in accrued expenses, \$74.8 million in deferred revenue and \$182.6 million in deferred tax liabilities, which were partially offset by \$54.9 million in cash and cash equivalents and \$72.4 million in trade receivables acquired.

Deferred revenue—Included in net liabilities assumed is Marketo's deferred revenue which represents advance payments from customers related to subscription contracts and professional services. We estimated our obligation related to the deferred revenue using the cost build-up approach. The cost build-up approach determines fair value by estimating the direct and indirect costs related to supporting the obligation plus an assumed operating margin. The sum of the costs

and assumed operating profit approximates, in theory, the amount that Marketo would be required to pay a third party to assume the obligation. The estimated costs to fulfill the obligation were based on the near-term projected cost structure for subscription and professional services. As a result, we recorded an adjustment to reduce Marketo's carrying value of deferred revenue to \$74.8 million, which represents our estimate of the fair value of the contractual obligations assumed based on a preliminary valuation.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Taxes—As part of our accounting for the Marketo acquisition, a portion of the overall purchase price was allocated to goodwill and acquired intangible assets. Amortization expense associated with acquired intangible assets is not deductible for tax purposes. Thus, approximately \$348.8 million, included in the net liabilities assumed, was established as a deferred tax liability for the future amortization of the intangible assets, and was partially offset by other tax assets of \$166.2 million, which primarily consist of net operating loss carryforwards.

Any impairment charges made in the future associated with goodwill will not be tax deductible and will result in an increased effective income tax rate in the quarter the impairment is recorded.

Unaudited Pro Forma Results

The financial information in the table below summarizes the combined results of operations of Adobe and Marketo, on a pro forma basis, as though the companies had been combined as of the beginning of the periods presented. The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place on December 3, 2016 or of results that may occur in the future.

The following unaudited pro forma financial information for fiscal 2018 and 2017 combines the historical results for Adobe for the years ended November 30, 2018 and December 1, 2017 and the historical results of Marketo for the period January 1, 2018 through October 31, 2018 and the year ended December 31, 2017, respectively (in thousands):

	2018	2017
Net revenues	\$9,338,790	\$7,568,713
Net income	\$2,362,238	\$1,404,864

Magento

On June 18, 2018, we completed our acquisition of Magento, a privately held commerce platform company. During the third quarter of fiscal 2018, we began integrating Magento into our Digital Experience reportable segment. The table below represents the preliminary purchase price allocation to the acquired net tangible and intangible assets of Magento based on their estimated fair values as of the acquisition date and the associated estimated useful lives at that date. The fair values assigned to assets acquired and liabilities assumed are based on management's best estimates and assumptions as of the reporting date and are considered preliminary pending finalization of valuation analyses pertaining to tax liabilities assumed including the calculation of deferred tax assets and liabilities.

(in thousands)	Amount	Weighted Average Useful Life (years)
Customer contracts and relationships	\$208,000	8
Purchased technology	84,200	5
In-process research and development ⁽¹⁾	39,100	N/A

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

-
- (1) Capitalized as purchased technology and are considered indefinite lived until the completion or abandonment of the associated research and development efforts.
- (2) Non-deductible for tax-purposes.

Pro forma information has not been presented for the Magento acquisition as the impact to our Consolidated Financial Statements was not material.

TubeMogul

On December 19, 2016, we completed our acquisition of TubeMogul, a publicly held video advertising platform company. As of the end of fiscal 2018, we have integrated TubeMogul into our Digital Experience reportable segment.

Under the acquisition method of accounting, the total final purchase price was allocated to TubeMogul's net tangible and intangible assets based upon their estimated fair values as of December 19, 2016. During fiscal 2017, we recorded immaterial purchase accounting adjustments based on changes to management's estimates and assumptions in regards to tangible assets, liabilities assumed, and their related impact to goodwill. The total final purchase price for TubeMogul was \$560.8 million of which \$348.4 million was allocated to goodwill that was non-deductible for tax purposes, \$113.1 million to identifiable intangible assets and \$99.3 million to net assets acquired.

Pro forma information has not been presented for the TubeMogul acquisition as the impact to our Consolidated Financial Statements was not material.

Other

We also completed other immaterial business acquisitions during the fiscal years presented. Pro forma information has not been presented for these acquisitions as the impact to our Consolidated Financial Statements was not material.

Allegorithmic

Subsequent to November 30, 2018, we acquired the remaining interest in Allegorithmic SAS ("Allegorithmic"), a privately held 3D editing and authoring software company for gaming and entertainment, for approximately \$105.0 million in cash consideration. The initial purchase accounting for this transaction has not yet been completed given the short period of time between the acquisition date and the issuance of these financial statements. Allegorithmic will be integrated into our Digital Media reportable segment for financial reporting purposes in the first quarter of fiscal 2019.

NOTE 3. CASH, CASH EQUIVALENTS AND SHORT-TERM INVESTMENTS

Cash equivalents consist of instruments with remaining maturities of three months or less at the date of purchase. We classify all of our cash equivalents and short-term investments as "available-for-sale." In general, these investments are free of trading restrictions. We carry these investments at fair value, based on quoted market prices or other readily available market information. Unrealized gains and losses, net of taxes, are included in accumulated other comprehensive income (loss), which is reflected as a separate component of stockholders' equity in our Consolidated Balance Sheets. Gains and losses are recognized when realized in our Consolidated Statements of Income. When we have determined that an other-than-temporary decline in fair value has occurred, the amount of the decline that is related to a credit loss is recognized in income. Gains and losses are determined using the specific identification method.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The following table summarizes the fair value and gross unrealized losses related to available-for-sale securities, aggregated by investment category, that have been in an unrealized loss position for less than twelve months, as of November 30, 2018 and December 1, 2017 (in thousands):

	2018		2017	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
Corporate debt securities	\$538,109	\$ (7,966)	\$1,338,232	\$ (5,459)
Asset-backed securities	6,696	(54)	64,618	(193)
Municipal securities	6,599	(81)	11,805	(115)
Foreign government securities	—	—	2,388	(8)
U.S. Treasury securities	—	—	593,296	(2,087)
Total	\$551,404	\$ (8,101)	\$2,010,339	\$ (7,862)

There were 369 securities and 894 securities in an unrealized loss position for less than twelve months at November 30, 2018 and at December 1, 2017, respectively.

The following table summarizes the fair value and gross unrealized losses related to available-for-sale securities, aggregated by investment category, that were in a continuous unrealized loss position for more than twelve months, as of November 30, 2018 and December 1, 2017 (in thousands):

	2018		2017	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
Corporate debt securities	\$969,701	\$ (16,730)	\$500,689	\$ (4,666)
Asset-backed securities	34,812	(313)	32,383	(210)
Municipal securities	11,532	(205)	598	(17)
Foreign government securities	4,154	(24)	—	—
U.S. Treasury securities	—	—	338,950	(1,465)
Total	\$1,020,199	\$ (17,272)	\$872,620	\$ (6,358)

There were 577 securities and 360 securities in an unrealized loss position for more than twelve months at November 30, 2018 and at December 1, 2017, respectively.

The following table summarizes the cost and estimated fair value of short-term fixed income securities classified as short-term investments based on stated effective maturities as of November 30, 2018 (in thousands):

	Amortized Cost	Estimated Fair Value
Due within one year	\$615,867	\$612,104
Due between one and two years	574,554	564,199
Due between two and three years	289,033	282,144
Due after three years	132,061	127,740
Total	\$1,611,515	\$1,586,187

We review our debt and marketable equity securities classified as short-term investments on a regular basis to evaluate whether or not any security has experienced an other-than-temporary decline in fair value. We consider factors such as the length of time and extent to which the market value has been less than the cost, the financial condition and near-term prospects of the issuer and our intent to sell, or whether it is more likely than not we will be required to sell

the investment before recovery of the

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

investment's amortized cost basis. If we believe that an other-than-temporary decline exists in one of these securities, we write down these investments to fair value. For debt securities, the portion of the write-down related to credit loss would be recorded to interest and other income, net in our Consolidated Statements of Income. Any portion not related to credit loss would be recorded to accumulated other comprehensive income (loss), which is reflected as a separate component of stockholders' equity in our Consolidated Balance Sheets. For equity securities, the write-down would be recorded to investment gains (losses), net in our Consolidated Statements of Income. During fiscal 2018 and 2017, we did not consider any of our investments to be other-than-temporarily impaired. During fiscal 2016, we recorded immaterial other-than-temporary impairment losses associated with certain of our fixed income securities and wrote down the securities to fair value.

NOTE 4. FAIR VALUE MEASUREMENTS

Assets and Liabilities Measured and Recorded at Fair Value on a Recurring Basis

We measure certain financial assets and liabilities at fair value on a recurring basis. There have been no transfers between fair value measurement levels during the year ended November 30, 2018.

The fair value of our financial assets and liabilities at November 30, 2018 was determined using the following inputs (in thousands):

	Fair Value Measurements at Reporting Date Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Cash equivalents:

Other liabilities:				
Interest rate swap derivatives	1,058	—	1,058	—
Total liabilities	\$2,656	\$—	\$2,656	\$—

See Note 3 for further information regarding the fair value of our financial instruments.

Our fixed income available-for-sale debt securities consist of high quality, investment grade securities from diverse issuers with a weighted average credit rating of A+. We value these securities based on pricing from independent pricing vendors who use matrix pricing valuation techniques including market approach methodologies that model information generated by market transactions involving identical or comparable assets, as well as discounted cash flow methodologies. Inputs include quoted prices in active markets for identical assets or inputs other than quoted prices that are observable either directly or indirectly in determining fair value, including benchmark yields, issuer spreads off benchmark yields, interest rates and U.S. Treasury or swap curves. We therefore classify all of our fixed income available-for-sale securities as Level 2. We perform routine procedures such as comparing prices obtained from multiple independent sources to ensure that appropriate fair values are recorded.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The fair values of our money market mutual funds and time deposits are based on the closing price of these assets as of the reporting date. We classify our money market mutual funds and time deposits as Level 1.

Our Level 2 over-the-counter foreign currency and interest rate swap derivatives are valued using pricing models and discounted cash flow methodologies based on observable foreign exchange and interest rate data at the measurement date.

Our deferred compensation plan assets consist of money market mutual funds and other mutual funds.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

We also have direct investments in privately held companies accounted for under the cost and equity method, which are periodically assessed for other-than-temporary impairment. If we determine that an other-than-temporary impairment has occurred, we write down the investment to its fair value. We estimate fair value of our cost and equity method investments considering available information such as pricing in recent rounds of financing, current cash positions, earnings and cash flow forecasts, recent operational performance and any other readily available market data. During fiscal 2018 and 2017, we determined there were no other-than-temporary impairments on our cost and equity method investments. During fiscal 2016, we determined there were immaterial other-than-temporary impairments on certain of our cost method investments and wrote down the investments to fair value.

The fair value of our senior notes was \$1.89 billion as of November 30, 2018, based on observable market prices in less active markets and categorized as Level 2. See Note 15 for further details regarding our debt.

NOTE 5. DERIVATIVES AND HEDGING ACTIVITIES

Hedge Accounting and Hedging Programs

We recognize derivative instruments and hedging activities as either assets or liabilities in our Consolidated Balance Sheets and measure them at fair value. Gains and losses resulting from changes in fair value are accounted for depending on the use of the derivative and whether it is designated and qualifies for hedge accounting.

We evaluate hedge effectiveness at the inception of the hedge prospectively as well as retrospectively, and record any ineffective portion of the hedging instruments in interest and other income (expense), net on our Consolidated Statements of Income. The net gain (loss) recognized in interest and other income (expense), net for cash flow hedges due to hedge ineffectiveness was insignificant for all fiscal years presented. The time value of purchased contracts is recorded in interest and other income (expense), net in our Consolidated Statements of Income.

The bank counterparties to these contracts expose us to credit-related losses in the event of their nonperformance which are largely mitigated with collateral security agreements that provide for collateral to be received or posted when the net fair value of certain financial instruments fluctuates from contractually established thresholds. In addition, we enter into master netting arrangements which have the ability to further limit credit-related losses with the same counterparty by permitting net settlement of transactions.

Balance Sheet Hedging—Hedges of Foreign Currency Assets and Liabilities

We also hedge our net recognized foreign currency denominated assets and liabilities with foreign exchange forward contracts to reduce the risk that the value of these assets and liabilities will be adversely affected by changes in exchange rates. These contracts hedge assets and liabilities that are denominated in foreign currencies and are carried at fair value with changes in the fair value recorded to interest and other income (expense), net in our Consolidated Statements of Income. These contracts do not subject us to material balance sheet risk due to exchange rate movements because gains and losses on these derivatives are intended to offset gains and losses on the assets and liabilities being hedged.

As of November 30, 2018, total notional amounts of outstanding contracts were \$427.9 million which included the notional equivalent of \$158.8 million in Euros, \$51.5 million in British Pounds, \$77.2 million in Japanese Yen, \$50.7 million in Indian Rupees, and \$89.7 million in other foreign currencies. As of December 1, 2017, total notional amounts of outstanding contracts were \$333.9 million which included the notional equivalent of \$105.0 million in Euros, \$34.6 million in British Pounds, \$45.4

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

million in Japanese Yen, \$78.0 million in Indian Rupees, and \$70.9 million in other foreign currencies. At November 30, 2018 and December 1, 2017, the outstanding balance sheet hedging derivatives had maturities of 180 days or less.

Cash Flow Hedging—Hedges of Forecasted Foreign Currency Revenue

In countries outside the United States, we transact business in U.S. Dollars and in various other currencies. We may use foreign exchange option contracts or forward contracts to hedge certain cash flow exposures resulting from changes in these foreign currency exchange rates. These foreign exchange contracts, carried at fair value, have maturities of up to twelve months. We enter into these foreign exchange contracts to hedge a portion of our forecasted foreign currency denominated revenue in the normal course of business and accordingly, they are not speculative in nature.

To receive hedge accounting treatment, all hedging relationships are formally documented at the inception of the hedge, and the hedges must be highly effective in offsetting changes to future cash flows on hedged transactions. We record changes in the intrinsic value of these cash flow hedges in accumulated other comprehensive income (loss) in our Consolidated Balance Sheets, until the forecasted transaction occurs. When the forecasted transaction occurs, we reclassify the related gain or loss on the cash flow hedge to revenue. In the event the underlying forecasted transaction does not occur, or it becomes probable that it will not occur, we reclassify the gain or loss on the related cash flow hedge from accumulated other comprehensive income (loss) to interest and other income (expense), net in our Consolidated Statements of Income at that time. If we do not elect hedge accounting, or the contract does not qualify for hedge accounting treatment, the changes in fair value from period to period are recorded in interest and other income (expense), net in our Consolidated Statements of Income.

For fiscal 2018, 2017, and 2016, there were no net gains or losses recognized in other income relating to hedges of forecasted transactions that did not occur.

Fair Value Hedging—Hedges of Interest Rate Risks

During the third quarter of fiscal 2014, we entered into interest rate swaps designated as a fair value hedge related to our \$900 million of 4.75% fixed interest rate senior notes due February 1, 2020 (the “2020 Notes”). In effect, the interest rate swaps convert the fixed interest rate on our 2020 Notes to a floating interest rate based on the London Interbank Offered Rate (“LIBOR”). Under the terms of the swaps, we will pay monthly interest at the one-month LIBOR rate plus a fixed number of basis points on the \$900 million notional amount through February 1, 2020. In exchange, we will receive 4.75% fixed rate interest from the swap counterparties. See Note 15 for further details regarding our debt. The interest rate swaps are accounted for as fair value hedges and substantially offset the changes in fair value of the hedged portion of the underlying debt that are attributable to the changes in market risk. Therefore, the gains and losses related to changes in the fair value of the interest rate swaps are included in interest and other income (expense), net in our Consolidated Statements of Income. The fair value of the interest rate swaps is reflected in other liabilities or other assets in our Consolidated Balance Sheets.

The fair value of derivative instruments on our Consolidated Balance Sheets as of November 30, 2018 and December 1, 2017 were as follows (in thousands):

	2018		2017

NOTE 6. PROPERTY AND EQUIPMENT

Property and equipment, net consisted of the following as of November 30, 2018 and December 1, 2017 (in thousands):

	2018	2017
Computers and equipment	\$1,239,033	\$1,128,264
Furniture and fixtures	121,206	115,273
Capital projects in-progress	23,026	5,575
Leasehold improvements	181,990	120,165
Land	145,065	77,723
Buildings	485,024	490,665
Building improvements	285,564	265,829
Total	2,480,908	2,203,494
Less accumulated depreciation and amortization	(1,405,836)	(1,266,518)
Property and equipment, net	\$1,075,072	\$936,976

Depreciation and amortization expense of property and equipment for fiscal 2018, 2017 and 2016 was \$157.1 million, \$156.9 million and \$157.6 million, respectively.

In March 2017, we exercised our option to purchase the Almaden Tower for a total purchase price of \$103.6 million. We capitalized the Almaden Tower as property and equipment on our Consolidated Balance Sheets at \$104.2 million, the lesser of cost or fair value, which represented the total purchase price plus other direct costs associated with the purchase.

NOTE 7. GOODWILL AND PURCHASED AND OTHER INTANGIBLES

Goodwill by reportable segment and activity for the years ended November 30, 2018 and December 1, 2017 was as follows (in thousands):

	2016	Acquisitions	Other ⁽¹⁾	2017	Acquisitions	Other ⁽¹⁾	2018
Digital Media	\$2,796,590	\$ —	\$4,501	\$2,801,091	\$ —	\$(2,481)	\$2,798,610

In fiscal 2018 and 2017, certain purchased intangibles associated with our acquisitions in prior years became fully amortized and were removed from the Consolidated Balance Sheets.

Amortization expense related to purchased and other intangible assets was \$182.6 million, \$153.6 million, and \$152.4 million for fiscal 2018, 2017 and 2016 respectively. Of these amounts, \$91.3 million, \$76.1 million, and \$71.1 million were included in cost of sales for fiscal 2018, 2017 and 2016 respectively.

Purchased and other intangible assets are amortized over their estimated useful lives of 1 to 14 years. As of November 30, 2018, we expect amortization expense in future periods to be as follows (in thousands):

Fiscal Year	Purchased Technology (*)	Other Intangible Assets
2019	\$ 114,445	\$ 270,588
2020	112,153	233,064
2021	89,783	146,541
2022	82,119	132,188
2023	72,166	132,046
Thereafter	121,708	523,100
Total expected amortization expense	\$ 592,374	\$ 1,437,527

(*) Excludes \$39.1 million of capitalized in-process research and development which are considered indefinite lived until the completion or abandonment of the associated research and development efforts

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

U.S. Tax Reform

On December 22, 2017, the Tax Cuts and Jobs Act (the “Tax Act”) was enacted into law, which significantly changes existing U.S. tax law and includes many provisions applicable to us, such as reducing the U.S. federal statutory tax rate, imposing a one-time transition tax on deemed repatriation of deferred foreign income, and adopting a territorial tax system. The Tax Act reduced the U.S. federal statutory tax rate from 35% to 21% effective January 1, 2018. For fiscal 2018, our blended U.S. federal statutory tax rate is 22.2%. This is the result of using the tax rate of 35% for the first month of fiscal 2018 and the reduced tax rate of 21% for the remaining eleven months of fiscal 2018. The Tax Act also required us to incur a one-time transition tax on deferred foreign income not previously subject to U.S. income tax at a rate of 15.5% for foreign cash and certain other net current assets, and 8% on the remaining income, in each case reduced by certain foreign tax credits. The Tax Act also includes a provision to tax global intangible low-taxed income of foreign subsidiaries, a special tax deduction for foreign-derived intangible income, and a base erosion anti-abuse tax measure that may tax certain payments between a U.S. corporation and its subsidiaries. These additional provisions of the Tax Act will be effective for us beginning December 1, 2018.

During fiscal 2018, we recorded tax charges for the impact of the Tax Act effects using the current available information and technical guidance on the interpretations of the Tax Act. As permitted by SEC Staff Accounting Bulletin 118, Income Tax Accounting Implications of the Tax Cuts and Jobs Act, we recorded provisional estimates and have subsequently finalized our accounting analysis based on the guidance, interpretations, and data available as of November 30, 2018. Adjustments made in the fourth quarter of fiscal 2018 upon finalization of our accounting analysis were not material to our Consolidated Financial Statements.

As a result of the reduction in the federal corporate tax rate, we remeasured our deferred taxes and recorded a tax charge of \$10 million based on the tax rate that is expected to apply when such deferred taxes are settled or realized in future periods. To calculate the remeasurement of deferred taxes, we estimated when the existing deferred taxes will be settled or realized.

As part of the adoption of a new territorial tax system we recorded a transition tax expense of \$176 million on deferred foreign earnings, long-term income taxes payable of \$504 million, other tax liabilities of \$19 million, and a reduction in our deferred tax liabilities of \$347 million. We intend to elect to pay the federal transition tax over a period of eight years as permitted by the Tax Act. As a result, we reclassified \$40 million from long-term income taxes payable to short-term income taxes payable for the first installment payment due in fiscal 2019.

Certain international provisions introduced in the Tax Act will be effective for us in fiscal 2019. As part of these provisions, an accounting policy election is available to either account for the tax effects of certain taxes in the period that is subject to such taxes or to provide deferred taxes for book and tax basis differences that upon reversal may be subject to such taxes. We elect to account for the tax effects of these provisions in the period that it is subject to such tax. Accordingly, we have not recorded any tax with respect to these provisions during fiscal 2018.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Reconciliation of Provision for Income Taxes

Total income tax expense differs from the expected tax expense (computed by multiplying the U.S. federal statutory rate of 22.2% in 2018 and 35% in both 2017 and 2016 by income before income taxes) as a result of the following (in thousands):

	2018	2017	2016
Computed “expected” tax expense	\$620,240	\$748,174	\$502,298
State tax expense, net of federal benefit	25,214	25,131	10,636
Tax credits	(110,849)	(38,000)	(48,383)
Differences between statutory rate and foreign effective tax rate	(384,393)	(215,490)	(133,778)
Stock-based compensation, net of tax deduction	(95,372)	(42,512)	15,101
Resolution of income tax examinations	(42,432)	(31,358)	(68,003)
Domestic manufacturing deduction benefit	(13,098)	(32,200)	(26,990)
Impacts of the U.S. Tax Act	185,997	—	—
Tax charge for licensing acquired company technology to foreign subsidiaries	—	24,771	5,346
Other	17,795	5,171	10,129
Provision for income taxes	\$203,102	\$443,687	\$266,356

Deferred Tax Assets and Liabilities

The tax effects of the temporary differences that gave rise to significant portions of the deferred tax assets and liabilities as of November 30, 2018 and December 1, 2017 are presented below (in thousands):

	2018	2017
Deferred tax assets:		
Acquired technology	\$9,561	\$4,846
Reserves and accruals	59,100	48,761
Deferred revenue	37,690	23,452
Stock-based compensation	89,240	74,942
Net operating loss carryforwards of acquired companies	209,445	44,465
Credit carryforwards	173,748	124,205
Capitalized expenses	19,074	13,428
Benefits relating to tax positions	51,965	33,318
Other	37,160	30,300
Total gross deferred tax assets	686,983	397,717
Deferred tax asset valuation allowance	(174,496)	(93,568)
Total deferred tax assets	512,487	304,149
Deferred tax liabilities:		
Depreciation and amortization	40,425	84,064
Undistributed earnings of foreign subsidiaries	17,556	382,744
Acquired intangible assets	501,208	117,282
Total deferred tax liabilities	559,189	584,090
Net deferred tax liabilities:	\$46,702	\$279,941

Deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and tax credit carryforwards. Included in the deferred tax assets and liabilities for fiscal 2018 and 2017 are amounts related to various acquisitions. In assessing the realizability of deferred tax assets, management determined that it is not more likely than not that we will have sufficient taxable income in

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

certain states and foreign jurisdictions to fully utilize available tax credits and other attributes. The deferred tax assets are offset by a valuation allowance to the extent it is more likely than not that they are not expected to be realized.

We provide U.S. income taxes on the earnings of foreign subsidiaries unless the subsidiaries' earnings are considered permanently reinvested outside the United States or are exempted from taxation as a result of the new territorial tax system. To the extent that the foreign earnings previously treated as permanently reinvested are repatriated, the related U.S. tax liability may be reduced by any foreign income taxes paid on these earnings. As of November 30, 2018, the cumulative amount of earnings upon which U.S. income taxes have not been provided is approximately \$275 million. The unrecognized deferred tax liability for these earnings is approximately \$57.8 million.

As of November 30, 2018, we have net operating loss carryforwards of approximately \$881.1 million for federal and \$349.7 million for state. We also have federal, state and foreign tax credit carryforwards of approximately \$8.8 million, \$189.9 million and \$14.9 million, respectively. The net operating loss carryforward assets and tax credits will expire in various years from fiscal 2019 through 2036. The state tax credit carryforwards and a portion of the federal net operating loss carryforwards can be carried forward indefinitely. The net operating loss carryforward assets and certain credits are reduced by the valuation allowance and are subject to an annual limitation under Internal Revenue Code Section 382, the carrying amount of which are expected to be fully realized.

As of November 30, 2018, a valuation allowance of \$174.5 million has been established for certain deferred tax assets related to certain state and foreign assets. For fiscal 2018, the total change in the valuation allowance was \$80.9 million.

Accounting for Uncertainty in Income Taxes

During fiscal 2018 and 2017, our aggregate changes in our total gross amount of unrecognized tax benefits are summarized as follows (in thousands):

	2018	2017
Beginning balance	\$172,945	\$178,413
Gross increases in unrecognized tax benefits – prior year tax positions	16,191	3,680
Gross decreases in unrecognized tax benefits – prior year tax positions	(4,000)	(30,166)
Gross increases in unrecognized tax benefits – current year tax positions	60,721	24,927
Settlements with taxing authorities	—	(3,876)
Lapse of statute of limitations	(45,922)	(8,819)
Foreign exchange gains and losses	(3,783)	8,786
Ending balance	\$196,152	\$172,945

The combined amount of accrued interest and penalties related to tax positions taken on our tax returns were approximately \$24.6 million and \$23.6 million for fiscal 2018 and 2017, respectively. These amounts were included in long-term income taxes payable in their respective years.

We file income tax returns in the United States on a federal basis and in many U.S. state and foreign jurisdictions. We are subject to the continual examination of our income tax returns by the IRS and other domestic and foreign tax authorities. Our major tax jurisdictions are Ireland, California and the United States. For Ireland, California and the United States, the earliest fiscal years open for examination are 2008, 2014 and 2015, respectively. We regularly assess the likelihood of outcomes resulting from these examinations to determine the adequacy of our provision for income taxes and have reserved for potential adjustments that may result from these examinations. We believe such estimates to be reasonable; however, there can be no assurance that the final determination of any of these examinations will not have an adverse effect on our operating results and financial position.

The timing of the resolution of income tax examinations is highly uncertain as are the amounts and timing of tax payments that are part of any audit settlement process. These events could cause large fluctuations in the balance of short-term and long-term assets, liabilities and income taxes payable. We believe that within the next 12 months, it is reasonably possible that either certain audits will conclude or statutes of limitations on certain income tax examination

periods will expire, or both. Given the uncertainties described above, we can only determine a range of estimated potential effect in underlying unrecognized tax benefits ranging from \$0 to approximately \$45 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 10. BENEFIT PLANS

Retirement Savings Plan

In 1987, we adopted an Employee Investment Plan, qualified under Section 401(k) of the Internal Revenue Code, which is a retirement savings plan covering substantially all of our U.S. employees, now referred to as the Adobe 401(k) Retirement Savings Plan. Under the plan, eligible employees may contribute up to 65% of their pretax or after-tax salary, subject to the Internal Revenue Service annual contribution limits. In fiscal 2018, we matched 50% of the first 6% of the employee's eligible compensation. We contributed \$41.0 million, \$34.3 million and \$33.4 million in fiscal 2018, 2017 and 2016, respectively. We are under no obligation to continue matching future employee contributions and, at our discretion, may change our practices at any time.

Deferred Compensation Plan

On September 21, 2006, the Board of Directors approved the Adobe Inc. Deferred Compensation Plan, effective December 2, 2006 (the "Deferred Compensation Plan"). The Deferred Compensation Plan is an unfunded, non-qualified, deferred compensation arrangement under which certain executives and members of the Board of Directors are able to defer a portion of their annual compensation. Participants may elect to contribute up to 75% of their base salary and 100% of other specified compensation, including commissions, bonuses, performance-based and time-based restricted stock units, and directors' fees. Participants are able to elect the payment of benefits to begin on a specified date at least three years after the end of the plan year in which election is made or vests. For cash benefit elections, distributions are made in cash and in the form of a lump sum, or five, ten, or fifteen-year annual installments. For stock benefit elections, distributions are settled in stock and in the form of a lump sum payment only. As of November 30, 2018 and December 1, 2017, the invested amounts under the Deferred Compensation Plan total \$69.0 million and \$56.7 million, respectively and were recorded as other assets on our Consolidated Balance Sheets. As of November 30, 2018 and December 1, 2017, \$84.0 million and \$67.2 million, respectively, was recorded as long-term liabilities to recognize undistributed deferred compensation due to employees.

NOTE 11. STOCK-BASED COMPENSATION

Our stock-based compensation programs are long-term retention programs that are intended to attract, retain and provide incentives for employees, officers and directors, and to align stockholder and employee interests. We have the following stock-based compensation plans and programs:

Restricted Stock Units

We grant restricted stock units to eligible employees under our 2003 Equity Incentive Plan, as amended ("2003 Plan"). Restricted stock units granted as part of our annual review process or for promotions vest annually over three years. Restricted stock units granted to new hires generally vest over four years. Certain grants have other vesting periods approved by our Board of Directors or an authorized committee.

We grant performance awards to officers and key employees under our 2003 Plan which cliff-vest after three years. As of November 30, 2018, we had reserved 124.5 million shares of common stock for issuance under our 2003 Plan and had 54.1 million shares available for grant.

Employee Stock Purchase Plan

Our 1997 Employee Stock Purchase Plan ("ESPP") allows eligible employee participants to purchase shares of our common stock at a discount through payroll deductions. The ESPP consists of a twenty-four-month offering period with four six-month purchase periods in each offering period. Employees purchase shares in each purchase period at 85% of the market value of our common stock at either the beginning of the offering period or the end of the purchase period, whichever price is lower. The ESPP will continue until the earlier of (i) termination by the Board or (ii) the date on which all of the shares available for issuance under the plan have been issued.

As of November 30, 2018, we had reserved 93.0 million shares of our common stock for issuance under the ESPP and approximately 5.3 million shares remain available for future issuance.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Stock Options

The 2003 Plan allows us to grant options to all employees, including executive officers, outside consultants and non-employee directors. This plan will continue until the earlier of (i) termination by the Board or (ii) the date on which all of the shares available for issuance under the plan have been issued and restrictions on issued shares have lapsed. Option vesting periods used in the past were generally four years and expire seven years from the effective date of grant.

We eliminated the use of stock option grants for all employees and non-employee directors but may choose to issue stock options in the future.

Performance Share Programs

Our 2018, 2017 and 2016 Performance Share Programs aim to help focus key employees on building stockholder value, provide significant award potential for achieving outstanding Company performance and enhance the ability of the Company to attract and retain highly talented and competent individuals. The Executive Compensation Committee of our Board of Directors approves the terms of each of our Performance Share Programs, including the award calculation methodology, under the terms of our 2003 Plan. Shares may be earned based on the achievement of an objective relative total stockholder return measured over a three-year performance period. Performance share awards will be awarded and fully vest upon the later of the Executive Compensation Committee's certification of the level of achievement or the three-year anniversary of each grant. Program participants generally have the ability to receive up to 200% of the target number of shares originally granted.

On January 24, 2018, the Executive Compensation Committee approved the 2018 Performance Share Program, the terms of which are similar to prior year performance share programs as discussed above.

As of November 30, 2018, the shares awarded under our 2018, 2017 and 2016 Performance Share Programs are yet to be achieved.

Issuance of Shares

Upon exercise of stock options, vesting of restricted stock units and performance shares, and purchases of shares under the ESPP, we will issue treasury stock. If treasury stock is not available, common stock will be issued. In order to minimize the impact of on-going dilution from exercises of stock options and vesting of restricted stock units and performance shares, we instituted a stock repurchase program. See Note 12 for information regarding our stock repurchase programs.

Valuation of Stock-Based Compensation

Stock-based compensation cost is measured at the grant date based on the fair value of the award.

Our performance share awards are valued using a Monte Carlo Simulation model. The fair value of the awards are fixed at grant date and amortized over the longer of the remaining performance or service period.

We use the Black-Scholes option pricing model to determine the fair value of ESPP shares. The determination of the fair value of stock-based payment awards on the date of grant using an option pricing model is affected by our stock price as well as assumptions regarding a number of complex and subjective variables. These variables include our expected stock price volatility over the expected term of the awards, actual and projected employee stock option exercise behaviors, a risk-free interest rate and any expected dividends.

The expected term of ESPP shares is the average of the remaining purchase periods under each offering period. The assumptions used to value employee stock purchase rights were as follows:

	2018	2017	2016
Expected life (in years)	0.5 - 2.0	0.5 - 2.0	0.5 - 2.0
Volatility	26% - 29%	22% - 27%	26 - 29%
Risk free interest rate	1.54% - 2.52%	0.62% - 1.41%	0.37 - 1.06%

Increase due to acquisition	—	595	—
Ending outstanding balance	8,668	9,304	8,316

The weighted average grant date fair values of restricted stock units granted during fiscal 2018, 2017 and 2016 were \$208.73, \$120.33 and \$89.87, respectively. The total fair value of restricted stock units vested during fiscal 2018, 2017 and 2016 was \$837.3 million, \$472.0 million and \$499.8 million, respectively.

Information regarding restricted stock units outstanding at November 30, 2018, December 1, 2017 and December 2, 2016 is summarized below:

	Number of Shares (thousands)	Weighted Average Remaining Contractual Life (years)	Aggregate Intrinsic Value(*) (millions)
2018			
Restricted stock units outstanding	8,668	1.06	\$ 2,174.7
Restricted stock units vested and expected to vest	8,049	1.01	\$ 2,019.5
2017			
Restricted stock units outstanding	9,304	1.11	\$ 1,670.2
Restricted stock units vested and expected to vest	8,608	1.05	\$ 1,545.3
2016			
Restricted stock units outstanding	8,316	1.11	\$ 829.4
Restricted stock units vested and expected to vest	7,613	1.04	\$ 759.3

The intrinsic value is calculated as the market value as of the end of the fiscal period. As reported by the NASDAQ Global Select Market, the market values as of November 30, 2018, December 1, 2017 and December 2, 2016 were \$250.89, \$179.52 and \$99.73, respectively.

Summary of Performance Shares

In the first quarter of fiscal 2018, the Executive Compensation Committee certified the actual performance achievement of participants in the 2015 Performance Share Program. Actual performance resulted in participants achieving 200% of target or approximately 0.5 million additional shares. The shares granted and achieved under the 2015 Performance Share Program fully vested on the three-year anniversary of the grant on January 24, 2018, if not forfeited.

In the first quarter of fiscal 2017, the Executive Compensation Committee certified the actual performance achievement of participants in the 2014 Performance Share Program. Actual performance resulted in participants achieving 198% of target or approximately 0.6 million additional shares. The shares granted and achieved under the

2014 Performance Share Program fully vested on the three-year anniversary of the grant on January 24, 2017, if not forfeited.

In the first quarter of fiscal 2016, the Executive Compensation Committee certified the actual performance achievement of participants in the 2013 Performance Share Program. Actual performance resulted in participants achieving 198% of target or

approximately 0.7 million additional shares. The shares granted and achieved under the 2013 Performance Share Program fully vested on the three-year anniversary of the grant on January 24, 2016, if not forfeited.

Performance share activity for fiscal 2018, 2017 and 2016 was as follows (in thousands):

	2018		2017		2016	
	Shares Granted	Maximum Shares Eligible to Receive	Shares Granted	Maximum Shares Eligible to Receive	Shares Granted	Maximum Shares Eligible to Receive
Beginning outstanding balance	1,534	3,068	1,630	3,261	1,940	3,881
Awarded	837 ⁽¹⁾	628	1,082 ⁽²⁾	1,040	1,206 ⁽³⁾	1,053
Achieved	(1,050) ⁽⁴⁾	(1,053)	(1,135) ⁽⁵⁾	(1,147)	(1,373) ⁽⁵⁾	(1,387)
Forfeited	(173)	(347)	(43)	(86)	(143)	(286)
Ending outstanding balance	1,148	2,296	1,534	3,068	1,630	3,261

Included in the 0.8 million shares awarded during fiscal 2018 were 0.5 million additional shares awarded for the
⁽¹⁾ final achievement of the 2015 Performance Share program. The remaining awarded shares were for the 2018 Performance Share Program.

Included in the 1.1 million shares awarded during fiscal 2017 were 0.6 million additional shares awarded for the
⁽²⁾ final achievement of the 2014 Performance Share program. The remaining awarded shares were for the 2017 Performance Share Program.

Included in the 1.2 million shares awarded during fiscal 2016 were 0.7 million additional shares awarded for the
⁽³⁾ final achievement of the 2013 Performance Share program. The remaining awarded shares were for the 2016 Performance Share Program.

⁽⁴⁾ Shares achieved under our 2015, Performance Share program which resulted from 200% achievement of target.

⁽⁵⁾ Shares achieved under our 2014 and 2013 Performance Share programs which resulted from 198% achievement of target for both programs.

The total fair value of performance awards vested during fiscal 2018, 2017 and 2016 was \$208.2 million, \$127.4 million and \$123.1 million, respectively.

Summary of Employee Stock Purchase Plan Shares

The weighted average subscription date fair value of shares under the ESPP during fiscal 2018, 2017 and 2016 were \$53.12, \$29.86 and \$24.84, respectively. Employees purchased 1.8 million shares at an average price of \$104.94, 1.9 million shares at an average price of \$77.63, and 1.9 million shares at an average price of \$66.13, respectively, for fiscal 2018, 2017 and 2016. The intrinsic value of shares purchased during fiscal 2018, 2017 and 2016 was \$198.9 million, \$97.7 million and \$54.3 million, respectively. The intrinsic value is calculated as the difference between the market value on the date of purchase and the purchase price of the shares.

Summary of Stock Options

As of November 30, 2018 and December 1, 2017, we had 0.3 million stock options outstanding.

Grants to Executive Officers

All equity awards granted to executive officers are made after a review by and with the approval of the Executive Compensation Committee of the Board of Directors.

Grants to Non-Employee Directors

Although the 2003 Plan provides for the granting of non-qualified stock options and restricted stock units to non-employee directors, restricted stock units are the primary form of our grants to non-employee directors. The initial equity grant to a new

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

non-employee director is a restricted stock unit award having an aggregate value of \$0.3 million based on the average stock price over the 30 calendar days ending on the day before the date of grant and vest 100% on the day preceding the next annual meeting. The actual target grant value will be prorated based on the number of days remaining before the next annual meeting or the date of the first anniversary of our last annual meeting if the next annual meeting is not yet scheduled.

Annual equity grants to non-employee directors in the form of restricted stock units shall have an aggregate value of \$0.3 million as based on the average stock price over the 30 calendar days ending on the day before the date of grant and vest 100% on the day preceding the next annual meeting.

Restricted stock units granted to directors for fiscal 2018, 2017 and 2016 were as follows (in thousands):

	2018	2017	2016
Restricted stock units granted to existing directors	11	18	25
Restricted stock units granted to new directors	1	—	—

Compensation Costs

We recognize the estimated compensation cost of restricted stock units, net of estimated forfeitures, on a straight-line basis over the requisite service period of the entire award, which is generally the vesting period. The estimated compensation cost is based on the fair value of our common stock on the date of grant.

We recognize the estimated compensation cost of performance shares, net of estimated forfeitures, on a straight-line basis over the requisite service period of the entire award. Our performance share awards are earned upon achievement of an objective total stockholder return measure at the end of the three-year performance period, as described above.

We estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. We use historical data to estimate forfeitures and record stock-based compensation expense only for those awards that are expected to vest.

As of November 30, 2018, there was \$978.2 million of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested stock-based awards which will be recognized over a weighted average period of 1.7 years. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures.

Total stock-based compensation costs that have been included in our Consolidated Statements of Income for fiscal 2018, 2017 and 2016 were as follows (in thousands):

	Income Statement Classifications					
	Cost of					
	Cost of Revenue—Subscription and Support	Revenue—Services	Research and Development	Sales and Marketing	General and Administrative	Total ⁽¹⁾
Stock Purchase Rights and Option Grants						
2018	\$4,102	\$8,286	\$ 23,918	\$ 27,252	\$ 7,290	\$70,848

Foreign currency translation adjustments	(1,742)	3,005	24
Total taxes, other comprehensive income (loss)	\$(3,688)	\$2,445	\$(719)

Stock Repurchase Program

To facilitate our stock repurchase program, designed to return value to our stockholders and minimize dilution from stock issuances, we may repurchase shares in the open market or enter into structured repurchase agreements with third parties. In January 2017, our Board of Directors approved a stock repurchase program granting us authority to repurchase up to \$2.5 billion in common stock through the end of fiscal 2019. In May 2018, our Board of Directors granted us another authority to repurchase up to \$8.0 billion in common stock through the end of fiscal 2021. The new stock repurchase program approved by our Board of Directors is similar to our previous stock repurchase programs. During fiscal 2018, 2017 and 2016, we entered into several structured stock repurchase agreements with large financial institutions, whereupon we provided them with prepayments totaling \$2.05 billion, \$1.10 billion, and \$1.08 billion, respectively. We enter into these agreements in order to take advantage of repurchasing shares at a guaranteed discount to the Volume Weighted Average Price ("VWAP") of our common stock over a specified period of time. We only enter into such transactions when the

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

discount that we receive is higher than our estimate of the expected foregone return on our cash prepayments to the financial institutions. There were no explicit commissions or fees on these structured repurchases. Under the terms of the agreements, there is no requirement for the financial institutions to return any portion of the prepayment to us. The financial institutions agree to deliver shares to us at monthly intervals during the contract term. The parameters used to calculate the number of shares deliverable are: the total notional amount of the contract, the number of trading days in the contract, the number of trading days in the interval and the average VWAP of our stock during the interval less the agreed upon discount. During fiscal 2018, we repurchased approximately 8.7 million shares at an average price per share of \$230.43 through structured repurchase agreements entered into during fiscal 2018 and fiscal 2017. During fiscal 2017, we repurchased approximately 8.2 million shares at an average price per share of \$134.20 through structured repurchase agreements entered into during fiscal 2017 and fiscal 2016. During fiscal 2016, we repurchased approximately 10.4 million shares at an average price per share of \$97.16 through structured repurchase agreements entered into during fiscal 2016 and fiscal 2015.

For fiscal 2018, 2017 and 2016, the prepayments were classified as treasury stock on our Consolidated Balance Sheets at the payment date, though only shares physically delivered to us by November 30, 2018, December 1, 2017 and December 2, 2016 were excluded from the computation of earnings per share. As of November 30, 2018, \$150.0 million of prepayments from our May 2018 authority remained under the agreement.

Subsequent to November 30, 2018, as part of the 2018 stock repurchase authority, we entered into a structured stock repurchase agreement with a large financial institution whereupon we provided them with a prepayment of \$500 million. This amount will be classified as treasury stock on our Consolidated Balance Sheets. Upon completion of the \$500 million stock repurchase agreement, \$7.35 billion remains under our May 2018 authority. As of November 30, 2018, there is no remaining balance under our January 2017 authority.

NOTE 13. NET INCOME PER SHARE

Basic net income per share is computed using the weighted average number of common shares outstanding for the period, excluding unvested restricted stock units and performance awards. Diluted net income per share is based upon the weighted average common shares outstanding for the period plus dilutive potential common shares, including unvested restricted stock units, performance share awards, and stock options using the treasury stock method.

The following table sets forth the computation of basic and diluted net income per share for fiscal 2018, 2017 and 2016 (in thousands, except per share data):

	2018	2017	2016
Net income	\$2,590,774	\$1,693,954	\$1,168,782
Shares used to compute basic net income per share	490,564	493,632	498,345
Dilutive potential common shares:			
Unvested restricted stock units and performance share awards	7,142	7,161	5,455
Stock options	137	330	499
Shares used to compute diluted net income per share	497,843	501,123	504,299
Basic net income per share	\$5.28	\$3.43	\$2.35
Diluted net income per share	\$5.20	\$3.38	\$2.32

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 14. COMMITMENTS AND CONTINGENCIES

Lease Commitments

We lease certain of our facilities and some of our equipment under non-cancellable operating lease arrangements that expire at various dates through 2031. We also have one land lease that expires in 2091. Rent expense includes base contractual rent and variable costs such as building expenses, utilities, taxes, insurance and equipment rental. Rent expense for these leases was approximately \$137.2 million in fiscal 2018, \$115.4 million in fiscal 2017, and \$92.9 million in fiscal 2016. Our sublease income was immaterial for all periods presented.

We occupy three office buildings in San Jose, California where our corporate headquarters are located. We reference these office buildings as the Almaden, East and West Towers.

In March 2017, we exercised our option to purchase the Almaden Tower for a total purchase price of \$103.6 million. Upon purchase, our investment in the lease receivable of \$80.4 million was credited against the total purchase price. We capitalized the Almaden Tower as property and equipment on our Consolidated Balance Sheets at \$104.2 million, the lesser of cost or fair value, which represented the total purchase price plus other direct costs associated with the purchase. As of November 30, 2018, we own the buildings and the underlying land that make up our corporate headquarters in San Jose, California, including the Almaden Tower.

Unconditional Purchase Obligations

Our purchase obligations consist of agreements to purchase goods and services entered into in the ordinary course of business. The following table summarizes our non-cancellable unconditional purchase obligations and operating leases for each of the next five years and thereafter as of November 30, 2018 (in thousands):

Fiscal Year	Purchase Obligations	Operating Leases	
		Future Minimum Lease Payments	Future Minimum Sublease Income
2019	\$ 346,334	\$88,554	\$ 9,173
2020	172,883	93,509	8,981
2021	162,421	80,408	8,837
2022	20,866	71,425	6,451
2023	27,352	56,490	2,325
Thereafter	3,977	311,937	—
Total	\$ 733,833	\$702,323	\$ 35,767

Royalties

We have royalty commitments associated with the licensing of certain offerings and products. Royalty expense is generally based on a dollar amount per unit or a percentage of the underlying revenue. Royalty expense, which was recorded under our cost of revenue on our Consolidated Statements of Income, was approximately \$119.1 million, \$100.9 million and \$79.8 million in fiscal 2018, 2017 and 2016, respectively.

Indemnifications

In the ordinary course of business, we provide indemnifications of varying scope to customers against claims of intellectual property infringement made by third parties arising from the use of our products and from time to time, we are subject to claims by our customers under these indemnification provisions. Historically, costs related to these indemnification provisions have not been significant and we are unable to estimate the maximum potential impact of these indemnification provisions on our future results of operations.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

To the extent permitted under Delaware law, we have agreements whereby we indemnify our officers and directors for certain events or occurrences while the officer or director is or was serving at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the officer's or director's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that reduces our exposure and enables us to recover a portion of any future amounts paid. We believe the estimated fair value of these indemnification agreements in excess of applicable insurance coverage is minimal.

Legal Proceedings

In connection with disputes relating to the validity or alleged infringement of third-party intellectual property rights, including patent rights, we have been, are currently and may in the future be subject to claims, negotiations or complex, protracted litigation. Intellectual property disputes and litigation may be very costly and can be disruptive to our business operations by diverting the attention and energies of management and key technical personnel. Although we have successfully defended or resolved past litigation and disputes, we may not prevail in any ongoing or future litigation and disputes. Third-party intellectual property disputes could subject us to significant liabilities, require us to enter into royalty and licensing arrangements on unfavorable terms, prevent us from licensing certain of our products or offering certain of our services, subject us to injunctions restricting our sale of products or services, cause severe disruptions to our operations or the markets in which we compete, or require us to satisfy indemnification commitments with our customers including contractual provisions under various license arrangements and service agreements.

In addition to intellectual property disputes, we are subject to legal proceedings, claims and investigations in the ordinary course of business, including claims relating to commercial, employment and other matters. Some of these disputes and legal proceedings may include speculative claims for substantial or indeterminate amounts of damages. We consider all claims on a quarterly basis in accordance with GAAP and based on known facts assess whether potential losses are considered reasonably possible, probable and estimable. Based upon this assessment, we then evaluate disclosure requirements and whether to accrue for such claims in our financial statements. This determination is then reviewed and discussed with our Audit Committee and our independent registered public accounting firm. We make a provision for a liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These provisions are reviewed at least quarterly and adjusted to reflect the impacts of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular case. Unless otherwise specifically disclosed in this note, we have determined that no provision for liability nor disclosure is required related to any claim against us because: (a) there is not a reasonable possibility that a loss exceeding amounts already recognized (if any) may be incurred with respect to such claim; (b) a reasonably possible loss or range of loss cannot be estimated; or (c) such estimate is immaterial.

All legal costs associated with litigation are expensed as incurred. Litigation is inherently unpredictable. However, we believe that we have valid defenses with respect to the legal matters pending against us. It is possible, nevertheless, that our consolidated financial position, cash flows or results of operations could be negatively affected by an unfavorable resolution of one or more of such proceedings, claims or investigations.

In connection with our anti-piracy efforts, conducted both internally and through organizations such as the Business Software Alliance, from time to time we undertake litigation against alleged copyright infringers. Such lawsuits may lead to counter-claims alleging improper use of litigation or violation of other laws. We believe we have valid defenses with respect to such counter-claims; however, it is possible that our consolidated financial position, cash flows or results of operations could be negatively affected in any particular period by the resolution of one or more of these counter-claims.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 15. DEBT

Our long-term debt as of November 30, 2018 and December 1, 2017 consisted of the following (in thousands):

	2018	2017
Term loan	\$2,248,427	\$—
Notes	1,886,117	1,882,479
Fair value of interest rate swap	(9,744)	(1,058)
Adjusted carrying value of long-term debt	\$4,124,800	\$1,881,421

Term Loan Credit Agreement

In October 2018, we entered into a credit agreement providing for an up to \$2.25 billion senior unsecured term loan for the purpose of partially funding the purchase price for our acquisition of Marketo and the related fees and expenses incurred in connection with the acquisition. The Term Loan funds were received on October 31, 2018 upon closing of the acquisition and will mature 18 months following the initial funding date. In addition, we incurred issuance costs of \$0.7 million which are amortized to interest expense over the term using the straight-line method. The Term Loan ranks equally with our other unsecured and unsubordinated indebtedness. There are no scheduled principal amortization payments prior to maturity and the term loan may be prepaid and terminated at our election at any time without penalty or premium. At our election, the Term Loan will bear interest at either (i) LIBOR plus a margin, based on our debt ratings, ranging from 0.500% to 1.000% or (ii) a base rate plus a margin, based on our debt ratings, ranging from 0.040% to 0.110%. Interest is payable periodically, in arrears, at the end of each interest period we elect. The Term Loan credit agreement contains customary representations, warranties, affirmative and negative covenants, events of default and indemnification provisions in favor of the lenders similar to those contained in the Revolving Credit Agreement, including the financial covenant. As of November 30, 2018, we were in compliance with all covenants.

As of November 30, 2018, there were \$2.25 billion outstanding borrowings under the Term Loan, which is included in long-term liabilities on our Consolidated Balance Sheets. In November 2018, we made interest payments of approximately \$5.7 million.

Senior Notes

In February 2010, we issued \$900 million of 4.75% senior notes due February 1, 2020. Our proceeds were \$900 million and were net of an issuance discount of \$5.5 million. In addition, we incurred issuance costs of \$6.4 million. Both the discount and issuance costs are being amortized to interest expense over the term of the 2020 Notes using the effective interest method. The 2020 Notes rank equally with our other unsecured and unsubordinated indebtedness. The effective interest rate including the discount and issuance costs was 4.92%. Interest is payable semi-annually, in arrears, on February 1 and August 1, and commenced on August 1, 2010.

In June 2014, we entered into interest rate swaps with a total notional amount of \$900 million designated as a fair value hedge related to our 2020 Notes. The interest rate swaps effectively convert the fixed interest rate on our 2020 Notes to a floating interest rate based on LIBOR. Under the terms of the swap, we will pay monthly interest at the one-month LIBOR interest rate plus a fixed number of basis points on the \$900 million notional amount. In exchange, we will receive 4.75% fixed rate interest from the swap counterparties. See Note 5 for further details regarding our interest rate swap derivatives.

In January 2015, we issued \$1 billion of 3.25% senior notes due February 1, 2025 (the “2025 Notes”). Our proceeds were approximately \$989.3 million which is net of an issuance discount of \$10.7 million. In addition, we incurred issuance costs of \$7.9 million. Both the discount and issuance costs are being amortized to interest expense over the term of the 2025 Notes using the effective interest method. The 2025 Notes rank equally with our other unsecured and unsubordinated indebtedness. The effective interest rate including the discount, issuance costs and interest rate agreement is 3.67%. Interest is payable semi-annually, in arrears on February 1 and August 1, and commenced on

August 1, 2015.

As of November 30, 2018, our outstanding notes payable consist of the 2020 Notes and 2025 Notes (the “Notes”) with a total carrying value of \$1.88 billion, which includes the fair value of the interest rate swaps and is net of debt issuance costs. Based

96

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

on quoted prices in inactive markets, the fair value of the Notes was \$1.89 billion as of November 30, 2018, which excludes the effect of the fair value of the interest rate swaps described above.

We may redeem the Notes at any time, subject to a make-whole premium. In addition, upon the occurrence of certain change of control triggering events, we may be required to repurchase the Notes, at a price equal to 101% of their principal amount, plus accrued and unpaid interest to the date of repurchase. The Notes also include covenants that limit our ability to grant liens on assets and to enter into sale and leaseback transactions, subject to significant allowances. As of November 30, 2018, we were in compliance with all of the covenants.

In February and August 2018, we made semi-annual interest payments on our 2020 and 2025 Notes each totaling \$37.6 million.

Credit Agreement

On October 17, 2018, we entered into a credit agreement (the “Revolving Credit Agreement”), providing for a five-year \$1 billion senior unsecured revolving credit facility, which replaces our previous five-year \$1 billion senior unsecured revolving credit agreement dated as of March 2, 2012 (as amended, the “Prior Revolving Credit Agreement”). In addition, we incurred issuance costs of \$0.8 million which is amortized to interest expense over the term using the straight-line method. The Revolving Credit Agreement provides for loans to Adobe and certain of its subsidiaries that may be designated from time to time as additional borrowers. Pursuant to the terms of the Revolving Credit Agreement, we may, subject to the agreement of lenders to provide additional commitments, obtain up to an additional \$500 million in commitments, for a maximum aggregate commitment of \$1.5 billion. At our election, loans under the Revolving Credit Agreement will bear interest at either (i) LIBOR plus a margin, based on our debt ratings, ranging from 0.585% to 1.015% or (ii) a base rate, which is defined as the highest of (a) the agent’s prime rate, (b) the federal funds effective rate plus 0.500% or (c) LIBOR plus 1.00% plus a margin, based on our debt ratings, ranging from 0.000% to 0.015%. In addition, facility fees determined according to our debt ratings are payable on the aggregate commitments, regardless of usage, quarterly in an amount ranging from 0.040% to 0.110% per annum. We are permitted to permanently reduce the aggregate commitment under the Revolving Credit Agreement at any time. Subject to certain conditions stated in the Revolving Credit Agreement, Adobe and any of its subsidiaries designated as additional borrowers may borrow, prepay and re-borrow amounts at any time during the term of the Revolving Credit Agreement.

In connection with and at the time that we entered into the Revolving Credit Agreement, the Prior Revolving Credit Agreement originally scheduled to expire on July 27, 2020 was terminated. There were no outstanding borrowings or letters of credit issued under the Prior Revolving Credit Agreement at the time of termination. There were no penalties paid as a result of the termination of the Prior Revolving Credit Agreement.

The Revolving Credit Agreement contains customary representations, warranties, affirmative and negative covenants, including a financial covenant, events of default and indemnification provisions in favor of the lenders. The negative covenants include restrictions regarding the incurrence of liens and indebtedness, certain merger and acquisition transactions, dispositions and other matters, all subject to certain exceptions. The financial covenant, based on a quarterly financial test, requires us not to exceed a maximum leverage ratio.

The facility will terminate and all amounts owing thereunder will be due and payable on the maturity date unless (a) the commitments are terminated earlier upon the occurrence of certain events, including an event of default, or (b) the maturity date is further extended upon our request, subject to the agreement of the lenders.

As of November 30, 2018, there were no outstanding borrowings under the Revolving Credit Agreement and we were in compliance with all covenants.

NOTE 17. INDUSTRY SEGMENT, GEOGRAPHIC INFORMATION AND SIGNIFICANT CUSTOMERS

We report segment information based on the “management” approach. The management approach designates the internal reporting used by management for making decisions and assessing performance as the source of our reportable segments.

Our CEO, the chief operating decision maker, reviews revenue and gross margin information for each of our reportable segments, but does not review operating expenses on a segment by segment basis. In addition, with the exception of goodwill and intangible assets, we do not identify or allocate our assets by the reportable segments. Our business is organized into three reportable segments: Digital Media, Digital Experience (formerly Digital Marketing), and Publishing (formerly Print and Publishing). These segments provide our senior management with a comprehensive financial view of our key businesses. Our segments are aligned around our two strategic growth opportunities described above, placing our Publishing business in a third segment that contains some of our mature products and solutions.

For fiscal 2018, we have the following reportable segments:

Digital Media—Our Digital Media segment provides tools and solutions that enable individuals, small and medium businesses and enterprises to create, publish, promote and monetize their digital content anywhere. Our customers include traditional content creators, web application developers and digital media professionals, as well as their management in marketing departments and agencies, companies and publishers. Our customers also include knowledge workers who create, collaborate and distribute documents.

Digital Experience—Our Digital Experience segment provides solutions and services for how digital advertising and marketing are created, managed, executed, measured and optimized. Our customers include digital marketers, advertisers, publishers, merchandisers, web analysts, chief marketing officers, chief information officers and chief revenue officers. This segment also includes our marketing cloud platform offerings and commerce platform offerings from the Magento and Marketo acquisitions in the third and fourth quarter of fiscal 2018, respectively.

Table of Contents

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Publishing—Our Publishing segment addresses market opportunities ranging from the diverse authoring and publishing needs of technical and business publishing to our legacy type and OEM printing businesses. It also includes our web conferencing and document and forms platforms effective fiscal 2018.

In fiscal 2018, we moved our legacy enterprise offerings—Adobe Connect web conferencing platform and Adobe LiveCycle, an enterprise document and forms platform—from our Digital Experience segment into Publishing, in order to more closely align our Digital Experience business with the strategic growth opportunity. Prior year information in the tables below have been reclassified to reflect this change.

Our segment results for fiscal 2018, 2017 and 2016 were as follows (dollars in thousands):

	Digital Media	Digital Experience	Publishing	Total
Fiscal 2018				
Revenue	\$6,325,315	\$2,443,745	\$260,948	\$9,030,008
Cost of revenue	249,386	922,414	23,199	1,194,999
Gross profit	\$6,075,929	\$1,521,331	\$237,749	\$7,835,009
Gross profit as a percentage of revenue	96 %	62 %	91 %	87 %
Fiscal 2017				
Revenue	\$5,010,579	\$2,030,324	\$260,602	\$7,301,505
Cost of revenue	239,994	747,005	23,492	1,010,491
Gross profit	\$4,770,585	\$1,283,319	\$237,110	\$6,291,014
Gross profit as a percentage of revenue	95 %	63 %	91 %	86 %
Fiscal 2016				
Revenue	\$3,941,011	\$1,631,426	\$281,993	\$5,854,430
Cost of revenue	231,074	559,938	28,896	819,908
Gross profit	\$3,709,937	\$1,071,488	\$253,097	\$5,034,522
Gross profit as a percentage of revenue	94 %	66 %	90 %	86 %

The tables below list our revenue and property and equipment, net, by geographic area for fiscal 2018, 2017 and 2016 (in thousands). With the exception of property and equipment, we do not identify or allocate our assets (including long-lived assets) by geographic area.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors

Adobe Inc.:

Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting

We have audited the accompanying consolidated balance sheets of Adobe Inc. and subsidiaries (the Company) as of November 30, 2018 and December 1, 2017, the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended November 30, 2018, and the related notes (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of November 30, 2018, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of November 30, 2018 and December 1, 2017, and the results of its operations and its cash flows for each of the years in the three-year period ended November 30, 2018, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of November 30, 2018, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

The Company acquired Magento on June 18, 2018 and Marketo on October 31, 2018, as discussed in Note 2 to the consolidated financial statements. As discussed in Management's Annual Report on Internal Control over Financial Reporting appearing under Item 9A, management excluded from its assessment of the effectiveness of Adobe Inc.'s internal control over financial reporting as of November 30, 2018, Magento and Marketo's internal control over financial reporting associated with consolidated total assets of approximately 1.1%, and consolidated total revenues of approximately 1.0%, included in the Company's consolidated financial statements as of and for the year ended November 30, 2018. Our audit of internal control over financial reporting of Adobe Inc. as of November 30, 2018, also excluded an evaluation of the internal control over financial reporting of Magento and Marketo.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Controls over Financial Reporting appearing under Item 9A. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Table of Contents

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of November 30, 2018. Based on their evaluation as of November 30, 2018, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective at the reasonable assurance level to ensure that the information required to be disclosed by us in this Annual Report on Form 10-K was (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and regulations and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within Adobe have been detected.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended). Our management assessed the effectiveness of our internal control over financial reporting as of November 30, 2018. In making this assessment, our management used the criteria established in Internal Control - Integrated Framework (2013) issued by the COSO. Our management has concluded that, as of November 30, 2018, our internal control over financial reporting is effective based on these criteria.

We acquired Magento on June 18, 2018 and Marketo on October 31, 2018, as discussed in Note 2 to the Consolidated Financial Statements. As permitted by the SEC staff's Frequently Asked Question 3 on Management's Report on Internal Control Over Financial Reporting and Certification of Disclosure in Exchange Act Periodic Reports (revised September 24, 2007), our management excluded from our assessment of internal control over financial reporting effectiveness as of November 30, 2018, Magento and Marketo's internal control over financial reporting associated with consolidated total assets of approximately 1.1%, and consolidated total revenues of approximately 1.0%, included in our Consolidated Financial Statements as of and for the year ended November 30, 2018. We will include Magento and Marketo in our assessment of the effectiveness of internal control over financial reporting starting fiscal 2019.

KPMG LLP, the independent registered public accounting firm that audited our financial statements included in this Annual Report on Form 10-K, has issued an attestation report on our internal control over financial reporting, which is included herein.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended November 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION
